PART 1010—SUSPENSION ORDERS

[Suspension Order S-747]

NATIONAL ELECTRICAL CO.

John A. Rosenfeld, doing business as National Electrical Company, is engaged in the sale of electrical equipment including fans and fluorescent lighting fixtures. On or about April 7, 1944, he extended a AA-3 preference rating on a purchase order for 100 fluorescent lighting fixtures, although no such preference rating had been received by or assigned to him, in violation of Priorities Regulation No. 3. He also failed to retain documents upon which he presumably relied as authority for representations made in particular certifications as required by Priorities Regulation No. 7. Between March 25, 1944 and May 22, 1944, he sold and delivered fourteen new fluorescent lighting fixtures on orders which did not bear preference ratings, in violation of General Limitation Order L-78. On several occasions between February 29, 1944 and April 15, 1944, he extended preference ratings on purchase orders for fans and blowers, although no preference ratings had been received by or assigned to him, in violation of Priorities Regulation No. 3. Between March 22, 1944, and May 8, 1944, he accepted orders for and delivered a number of new fans, blowers, or exhausters on orders which did not bear a preference rating of AA-5 or higher in violation of General Limitation Order L-123. John A. Rosenfeld was aware of the pro-

visions of Priorities Regulations Nos. 3 and 7, Limitation Order L-78 and Limitation Order L-123, and his actions constituted grossly negligent violations of these orders and regulations.

These violations have diverted critical materials to uses not authorized by the War Production Board and have hampered and impeded the war effort of the United States. In view of the foregoing, it is hereby ordered, that:

§ 1010.747 *Suspension Order No. S-747* (a) John A. Rosenfeld shall not for four months from the effective date of this order apply or extend any preference ratings or use any CMP allotment symbols, regardless of the delivery date named in any purchase order to which such ratings may be applied or extended or on which CMP allotment symbols are used.

(b) For a period of four months from the effective date of this order, no allocations, including allotments, shall directly or indirectly be made to John A. Rosenfeld of any material or product the supply or distribution of which is governed by any order or regulation of the War Production Board unless hereafter specifically authorized in writing by the War Production Board.

(c) John A. Rosenfeld shall not for four months from the effective date of this order receive, process, deliver or otherwise deal in fluorescent lighting fixtures, fans or blowers unless specifically authorized to the contrary by the War Production Board.

(d) The provisions of paragraphs (a) and (c) shall not apply to deliveries of materials required to fill any order of or contract with the Army, Navy, Maritime Commission or any other governmental department or agency of the United States.

(e) Nothing contained in this order shall be deemed to relieve John A. Rosenfeld from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board except insofar as the same may be inconsistent with the provisions hereof.

(f) The restrictions and prohibitions contained herein shall apply to John A. Rosenfeld, doing business as National Electrical Company, or under whatever name he may operate, his successors or assigns or persons acting in his behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(g) This order shall take effect on April 6, 1945.

Issued this 30th day of March 1945.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-748]

GEORGE W. AMEY

George W. Amey is engaged in the retail selling of lumber, building materials

and coal, and maintains a yard and place of business at Richlandtown, Pennsylvania. During the period from July 15, 1944 to October 25, 1944 he extended a preference rating of AA-1 to purchase and obtain delivery of three carloads of lumber, totaling in excess of 95,000 board feet, when he was authorized to use this preference rating to purchase only 3348 board feet of lumber, in violation of Priorities Regulation No. 3. During the same period he extended a preference rating of AA-3 for seven carloads or in excess of 150,000 board feet of lumber and a preference rating of AA-4 for one carload or approximately 34,000 board feet of lumber, when he was authorized to use a preference rating of AA-3 to purchase only 2000 board feet, in violation of Priorities Regulation No. 3.

During the period from January 1, 1944 to November 1, 1944, George W. Amey maintained inadequate records covering his operations in that the records were incomplete, inaccurate, on improper form, disorderly and not in chronological order, in violation of paragraph 944.15 of Priorities Regulation No. 1.

George W. Amey was familiar with the above regulations and the violations are due to his gross negligence. These violations have diverted critical material to uses not authorized by the War Production Board and have hampered and impeded the war efforts of the United States. In view of the foregoing, it is hereby ordered that:

§ 1010.748 *Suspension Order No. S-748* (a) George W. Amey shall not for a period of four months from the effective date of this order deliver any lumber to his customers except on certified orders as defined and governed by Limitation Order L-335 and bearing a preference rating of AA-3 or higher.

(b) George W. Amey shall not for a period of three months from the effective date of this order extend any of his customers' certified orders to purchase any lumber as defined and governed by Limitation Order L-335, except in the case of certified orders bearing a preference rating of AA-1 or higher and then only when he is unable to fill the order from his inventory on hand.

(c) The restrictions and prohibitions contained herein shall apply to George W. Amey, his successors or assigns, or any person acting in his behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(d) Nothing contained in this order shall be deemed to relieve George W. Amey, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect on the 6th day of April 1945.

Issued this 30th day of March 1945.

PART 3175—REGULATIONS APPLICABLE TO
THE CONTROLLED MATERIALS PLAN[CMP Reg. 1, Direction 54, as Amended,
Apr. 6, 1945]

DEFERRED ALLOTMENTS

The following amended direction is issued pursuant to CMP Regulation 1.

(a) *General.* This direction describes the operation of deferred allotments. These allotments and authorized controlled material orders based on them are identified with the letter "Z" as the initial letter of the CMP allotment symbol. In most cases, this symbol will be "Z-1". Deferred allotments and authorized controlled material orders based on them are exactly the same as regular allotments and authorized controlled material orders, except as provided in this direction or as may be provided under other regulations.

(b) *Treatment by a controlled material producer of authorized controlled materials orders based on deferred allotments.* (1) A controlled material producer must accept or reject an authorized controlled material order identified by the symbol "Z" in the same way that he must accept or reject any other authorized controlled material order. However, if after accepting orders identified by a "Z" symbol, he receives orders (other than "Z" orders), which he is otherwise required to accept but would be unable to accept because of the provision of paragraph (t) (2) (iii) or Direction 23 of CMP Regulation 1 (relating to the amount of orders that can be accepted), he must defer his most recently accepted "Z" orders to the extent necessary and accept the other order.

(2) A controlled material producer must defer production of his most recently accepted "Z" order to the extent necessary to make deliveries on time on other authorized controlled material orders or other orders which he is required to fill.

(3) If at the time a "Z" order is required to be deferred by paragraph (b) (1) or (b) (2) it is scheduled for delivery within less time than the "lead times" of Schedule III to CMP Regulation No. 1, the producer need not defer such order if deferring the orders would stop or interrupt his production or operations in a way which would cause a substantial loss of total production or a substantial delay in operations. For instance, if a steel producer receives an authorized controlled material order with an "N-1" symbol and, under the provisions of paragraphs (b) (1) and (b) (2) he would be required to defer a "Z" order for carbon pipe which is scheduled for delivery in less than 30 days (the lead time specified in Schedule III for carbon pipe) and deferring the order would result in a substantial loss in total production he need not defer such order.

(4) If a "Z" order is deferred because of the provisions of paragraph (b) (1) or (b) (2) of this direction, it may be scheduled for delivery in a later month only if a new "Z" order could be accepted for delivery in such a month under the provisions of this direction and paragraph (t) of CMP Regulation No. 1. However, if the order is scheduled for delivery in a later month and that month is in a later quarter, it is not necessary for the customer to make any change in his order or have an allotment valid for the later quarter. The provisions of paragraph (t) (4) of CMP Regulation 1 and paragraph (g) of Direction 23 to that regulation, relating to prior scheduling of past due orders, do not apply to "Z" orders.

(5) Whenever a controlled material producer finds that he will be unable to fill a "Z" order within the month promised he must promptly notify the customer, stating approximately when he expects to make delivery.

(c) *Deliveries from mill stock.* A controlled material producer must not fill from mill stock, including mill accumulations of rejected material, any "Z" order until he has filled all other orders which he has received calling for similar items which he is required to fill under CMP regulations.

(d) *Deliveries of steel for further conversion to fill "Z" orders.* If a steel producer orders controlled material from another controlled material producer which he will convert into another controlled material form for delivery on a "Z" order, he should obtain his material in the same way as provided for other orders for further conversion by Direction 6 of CMP Regulation No. 1.

(e) *Reports to the War Production Board.* Producers shall treat "Z" orders separately on all reports required to be filed with the War Production Board which requires segregation of shipments, orders, or production by major program symbol.

(f) *Treatment by steel producers of orders identified by the symbol "Z-1E"* is explained in Direction No. 44 to CMP Regulation No. 1.

(g) *Removal of deferred orders from schedules.* If a "Z" order has been deferred by a producer for more than thirty days after the quarter in which the order was originally scheduled for delivery, and the producer is unable to schedule it for delivery in the quarter following the one for which it was originally scheduled, the "Z" order must be cancelled and removed from the production schedule of the producer. If an order has been re-scheduled for the later quarter and must be again deferred beyond that quarter, it must be cancelled and may not be re-scheduled for delivery in any subsequent quarter. The customer must be immediately notified of cancellation in either case. If the customer within 10 days (or in any case prior to April 16, 1945) revalidates his order for delivery in the current or a later quarter and charges his allotment account for such quarter, the producer must treat the revalidated order as though originally placed for delivery in such quarter.

(h) *Special treatment of certain AM orders for aluminum.* Orders placed by certain warehouses bearing a symbol in the AM-8600 series under the provisions of Order M-1-1 shall be treated as though bearing the initial letter "Z" under the provisions of this direction.

Issued this 6th day of April 1945.

METAL STRAPPING

The following direction is issued pursuant to CMP Regulation 1.

(a) Persons who receive production schedules for the manufacture of metal strapping as defined in Order P-152 (CMP Code 716) may sell as strapping, strip steel or wire which they buy pursuant to their allotment, even though they perform no fabricating operations on it. They may do this only if they are unable to complete fabrication of the material into flat or round strapping and only to fill orders bearing ratings permitted under Order P-152.

(b) Distributors of metal strapping may resell as strapping, all steel strip and wire delivered to them in uncompleted form by manufacturers under this direction, but only to fill orders bearing ratings permitted under Order P-152.

PART 3270—CONTAINERS

[Conservation Order M-81, as Amended April 6, 1945]

CANS

Section 3270.31 *Conservation Order M-81*, last amended January 1, 1945, is hereby further amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials entering into the manufacture of cans for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3270.31 *Conservation Order M-81*—
(a) *What this order does.* This order places limitations upon cans made of tinplate or terneplate. With minor exceptions (see paragraphs (e) and (g-1)) cans not made of tinplate or terneplate, but made only of blackplate, are no longer restricted by this order. This order lists in Schedule A the only products which may be packed in tinplate or terneplate cans except that, under certain limitations, unlisted non-food products may be packed in cans where no terneplate is used and only the soldered parts are 0.25 or less electrolytic tinplate (see paragraph (d))

(b) *Definitions specifically for the purpose of this order.* (1) "Can" means any unused container, made in whole or in part of tinplate, terneplate or blackplate, which is suitable for packing any product. The term includes all pails and drums made from blackplate, 29 gauge or lighter (except stripper drums having a capacity of 30 pounds or greater) and any container closure or fitting, made in whole or in part of tinplate, terneplate or blackplate, but does not include a closure or fitting to be used on or as a part of a glass container or fibre or steel drum (as defined in Orders L-103, L-337 and L-197). The term does not include fluid milk shipping containers as defined in Order M-200.

(2) "Tinplate" means steel sheets coated with tin (including primes and seconds) and includes (i) electrolytic tinplate in which the tin coating is applied by electrolytic deposition, and (ii) hot dipped tinplate in which the tin coating is applied by immersion in molten tin. The term includes hot dipped tinplate waste-waste, and tinplate waste, but not electrolytic tinplate waste-waste.

(3) "Terneplate" means steel sheets coated with terne metal (including primes and seconds). The term does not include terneplate waste-waste or terneplate waste. "Terne metal" means the

lead-tin alloy used as the coating for terneplate but does not include lead recovered from secondary sources which contains not more than 2½ per cent residual tin. "SCMT" means special coated manufacturers' terneplate.

(4) "Blackplate" means steel sheets other than tinplate or terneplate 29 gauge or lighter. The term includes "blackplate rejects" chemically treated blackplate (CTB) electrolytic tinplate waste-waste, terneplate waste-waste, and terneplate waste. The term does not include hot dipped tinplate waste-waste or tinplate waste.

(5) "Waste" means scrap tinplate, terneplate and blackplate (including strips and circles) produced in the ordinary course of manufacturing cans and tinplate, terneplate and blackplate strips produced in the ordinary course of manufacturing tinplate, terneplate and blackplate. The term shall also include tinplate, terneplate and blackplate parts recovered from used cans.

(6) "Waste-waste" means hot dipped or electrolytic tin-coated steel sheets or steel sheets coated with terne metal which have been rejected during processing by the producer because of imperfections which disqualify such sheets from sale as primes or seconds.

(7) "Packer" means any person who uses cans for commercially packing any product.

(8) "Packing quota" means, as specified in Schedule A, either the quantity, by area of measurement, of tinplate, terneplate and blackplate which a packer may use for packing a particular product during any calendar year or seasonal year, or the total tonnage of a particular product which a packer may pack in tinplate, terneplate or blackplate cans in any calendar year.

Unrestricted Cans

(c) *Blackplate cans.* Except with respect to paragraphs (e) and (g-1) below, cans not made of tinplate or terneplate, but made only of blackplate are not restricted by this order.

Cans for Unlisted Products

(d) *0.25 or less electrolytic tinplate for soldered parts of cans.* For packing non-food products not listed in Schedule A, cans not made of any terneplate or tinplate, except soldered parts made of 0.25 or less electrolytic tinplate, may be used by a packer without restriction as to size. However, the total area of electrolytic tinplate so used for each unlisted non-food product during each calendar year must not exceed the total area of tinplate and terneplate used by the packer in the soldered parts of cans to pack the same

product in 1941. Also during the first six months of each calendar year, no packer may accept, in order to pack any unlisted non-food product, more cans than 50 per cent of his annual quota to pack such product, except a packer whose annual quota does not exceed one carload. This paragraph does not permit any cans to be used for packing foods for animals and pets.

Manufacturing Preferences

(e) *Manufacturing preferences to certain orders for cans.* In conformance with Priorities Regulations 1 and 3, each manufacturer must accept and treat the following classes of unrated orders as if they were rated AA-5: (1) Orders for cans to pack the products listed in Schedule A except the products listed as "Non-Food Products" which are not drugs, medicinals or biologicals; (2) Orders for cans to be delivered, packed or empty, to the persons listed in paragraph (1) below or to Lend-Lease procurement agencies; (3) Orders for cans to pack drugs, medicinals and biologicals.

General Restrictions

(f) *General restrictions on manufacture, sale and delivery.* No person shall sell, manufacture or deliver any cans which he knows, or has reason to believe, will be accepted or used in violation of any provision of this order.

(f-1) *Prohibition against ears and bails.* No person shall manufacture, and no packer shall use a tinplate or terneplate can (except cans to pack honey) which is equipped with ears or bails.

(g) *General restrictions on use of tinplate or terneplate cans.* No person may use a tinplate or terneplate can for any purpose other than for packing the products listed in Schedule A in accordance with the packing quota, size and material limitations set forth in that schedule. The only exceptions to this rule are set forth in paragraph (d) with respect to packing unlisted non-food products in cans having only their soldered parts made of 0.25 or less electrolytic tinplate, paragraph (g-2) with respect to certain terneplate cans, paragraph (j) with respect to small users, paragraph (k) with respect to cans to pack products not to be sold, and paragraph (l) with respect to packing unlisted products for certain persons. Jobbers and retailers shall not be subject to the quota restrictions of this order, but they must receive and sell cans only in conformity with the other provisions of this order.

(g-1) *Prohibition against use of cans for animal food.*—No person shall use any cans for packing any food which is not intended and suitable for human con-

sumption. The use of cans for animal and pet food is not permitted.

(g-2) *Exemption of certain terneplate from restrictions of paragraphs (d) and (g)* Notwithstanding the prohibitions in paragraphs (d) and (g) against the use of terneplate cans to pack non-food products not listed in Schedule A any terneplate which was in process at a mill or set aside at a mill on January 1, 1945, for the account of a can manufacturer may be completed and shipped to the can manufacturer. Any such terneplate received by a manufacturer and any other terneplate which was in transit to him or in his hands on January 1, 1945, may be manufactured into terneplate cans for packing any non-food product permitted to be packed by this order as amended September 22, 1944. Terneplate cans made under this paragraph may be delivered to the packer, but the packer must charge the area of terneplate in such containers against the quota of tinplate permitted to him under paragraph (d) as though it were tinplate. Furthermore, a packer may use any terneplate cans which were in process at or in the hands of his manufacturer on January 1, 1945, or which were in transit to him or in his own hands on that date, to pack any non-food product permitted to be packed by this order as amended September 22, 1944. However, the area of terneplate in such containers must be charged against the quota of tinplate permitted to him under paragraph (d) as though it were tinplate.

(h) *Prohibition against repacking of contents of tinplate or terneplate cans.* No product packed in a tinplate or terneplate can shall be repacked for sale in any type of container by the same or different person in the same or different form except to the extent specifically permitted in Schedule A.

(i) *Certificate for deliveries of tinplate or terneplate cans.* No person shall manufacture, sell or deliver any tinplate or terneplate cans unless he has received from the purchaser a certificate signed manually or as provided in Priorities Regulation 7. This certificate shall be in substantially the following form and, once filed by a purchaser with a supplier, covers all future deliveries from the supplier to that purchaser.

The undersigned purchaser certifies, subject to criminal penalties for misrepresentation, that he is familiar with Order M-81 of the War Production Board, and that all purchases from you of items regulated by that order, and the use of the same by the undersigned, will be in compliance with the order.

If a certificate in substantially the above form has been received from a

purchaser before April 6, 1945, no additional certificate is required from the purchaser. This paragraph shall not apply to sales to retailers who buy for resale or persons who purchase from such retailers.

(j) *Exception for small users.* The restrictions of this order, except paragraph (g-1), shall not apply to any packer during any calendar year in which his total use of cans requires less than 250 base boxes of tinplate and terneplate. However, if tinplate or terneplate cans are used to pack a listed product, such packer must conform to the provisions of Schedule A relative to can size and can materials. Furthermore, no cans containing any tinplate or terneplate, except 0.25 or less electrolytic tinplate for soldered parts may be used by such packer to pack products not listed in Schedule A.

(k) *Exception for products not to be sold.* Except as stated below, the provisions of this order shall not apply to the manufacture, purchase, acceptance of delivery or use of cans for packing any product which is not to be sold in the same or different form. However, this exception shall not apply to (1) an individual when using a tinplate can for a purpose other than for home canning, or (2) sample tinplate or terneplate cans distributed for the purpose of advertising or promoting the sale of a product.

(l) *Military exception to packing unlisted products in tinplate or terneplate cans.* The manufacture, purchase, acceptance of delivery and use of tinplate or terneplate cans for packing any product not listed in Schedule A, is permitted (without any quota, size or material restrictions) when such cans are to be delivered either packed or empty to the Army, Navy, Veterans' Administration, Maritime Commission or War Shipping Administration (including persons operating vessels for such Commission or Administration for use thereon, and other persons whose purchase orders bear a preference rating assigned by the Maritime Commission on Form WPB-646 (formerly PD-300))

Miscellaneous

(m) *Applications for quotas.* Any packer who does not have a quota for using tinplate or terneplate cans to pack a product listed in Schedule A, or who does not have a quota for using 0.25 or less electrolytic tinplate in the soldered parts of cans to pack unlisted non-food products as permitted in Paragraph (d) and who wishes to have a quota established for him, may apply for a quota by

filling a letter with the Containers Division, War Production Board, Washington 25, D. C., Ref: M-81. This letter should state what products he wants to pack and what facilities he has for this purpose. A quota will be assigned to him on an equitable basis in view of the quotas of other packers in the industry.

(n) *Appeals.* Appeals from this order shall be filed by addressing a letter to the Containers Division, War Production Board, Washington 25, D. C., Ref: M-81. The letter of appeal need not follow any particular form. It should state informally, but completely, the particular provisions appealed from, the precise relief desired, the reasons why denial of the appeal would result in undue and excessive hardship, and such other statistical and narrative information as may be pertinent.

(o) *Reports.* All can manufacturers shall file a monthly report on Form WPB-2707 in accordance with the instructions in that form. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942. All persons affected by this order shall execute and file with the War Production Board such other forms and questionnaires as said Board shall, from time to time request, subject to the approval of the Bureau of the Budget.

(p) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to: Containers Division, War Production Board, Washington 25, D. C., Ref: M-81.

(q) *Violations.* Any person who willfully violates any provision of this order or who, in connection with this order willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further delivery of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 6th day of April 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

SCHEDULE A

Column 1. *Listed products.* Listed in this column are the only products, except as provided in paragraphs (d), (g-2), (j), (k) and (l) of the order, which may be packed in tinplate or terneplate cans. Such cans may be used to pack the listed products only if the products are packed in these cans, in

the form described in this column. Dried and frozen fruits and vegetables shall not be packed in a tinplate or terneplate can except to the extent specifically permitted in this schedule. Where repacking of listed products is permitted, specific treatment of the cut cans is required. Tinplate or terneplate cans containing the listed food products for use on vessels under the direction of the War Shipping Administration may not be sold unless authorization to acquire the cans has been obtained on Form WPB-646 (formerly PD-300). Wherever the term "WFO-22" appears in the schedule, that refers to the order of the War Food Administration.

Column 2. Packing quotas. This column indicates the permitted packing quotas for the respective listed products. The quotas for the respective products are not interchangeable. Where, as in many cases, the word "unlimited" appears in the column opposite a particular product in Column 1, that means that a packer (including a packer who has just begun business) may use the specified cans in an unlimited quantity to pack that particular product. Where the word "None" appears in this column after Items 74 and 75, that means that no tinplate or terneplate cans may be used for packing the particular items except for the persons listed in paragraph (1) or for any Lend-Lease procurement agencies. Where the word "None" appears in this column after Items 95 and 96, that means that no tinplate or terneplate cans may be used for packing the particular items except for the persons specified in Column 1 after that item.

An example of the usual manner in which the permitted packing quota is specified is "75%—1941". This means that the packer's packing quota for the particular product for any calendar year is 75% of the quantity, by area measurement of tinplate, terneplate and blackplate used by him for packing the particular product during the calendar year 1941. The packing quota is sometimes specified in terms of a seasonal year rather than a calendar year. For example, where "75% 1942-

1943" is specified, that means that the packer's packing quota for the particular product for any seasonal year is 75% of the quantity, by area measurement, of tinplate, terneplate and blackplate used by him for packing the particular product during the seasonal year of 1942-1943. In several cases, the packing quota is not specified in terms of area measurement of tinplate, terneplate and blackplate, but in terms of the total tonnage of that product packed during a previous year in cans, in cans and glass or in all types of containers.

With respect to those products classified below as "Meat, meat products and poultry" "Miscellaneous food products" and "Non-food products" tinplate or terneplate cans used for packing such products for the persons listed in paragraph (1) and for any Lend-Lease procurement agencies (except frozen eggs for such Lend-Lease agencies) shall be exempt from the specified quotas, and, when determining the quota for packing such products, all containers packed during the specified base period for these agencies and persons shall be included. With respect to all other listed products, tinplate or terneplate cans for these agencies and persons are included in the packing quota, and, when determining the quota for packing such products, cans (also other types of containers, where specified) packed during the specified base period for these agencies and persons shall be included.

Column 3. Can sizes. This column indicates the permitted sizes of cans, except that any person may use for packing any listed product a can which is larger than the largest listed size for packing that product. The size restrictions in this column also apply to cans to pack the listed products which are delivered to the agencies and persons listed in paragraph (1) and to Lend-Lease procurement agencies. Wherever the can size is specified by weight, the weight referred to shall be net weight of the contents of the can. Other can sizes are described in the terminology common to the industry such

as "cylinder" "picnic" "oval", "drawn", "tall" "2" "10" "82" etc.

Columns 4 and 5. Can materials. These columns specify the materials permitted for the bodies and ends of the tinplate or terneplate cans for each of the listed products. Any person may also use for packing a listed product such cans with a tin coating lighter than that specified for that product. Hot dipped tinplate waste-waste may be used wherever 0.50 or heavier tinplate is specified. The material restrictions in this column also apply to cans to pack the listed product which are delivered to the persons specified in paragraph (1) or to the Lend-Lease procurement agencies. Wherever "CTB" is specified, 0.50 electrolytic tinplate or SCMT may be substituted where such cans are to be delivered to the Army or the Navy for overseas use; however, where in such cases the cans are to pack listed meat products, 1.25 tinplate may be substituted. When tinplate is specified, the coating indicated represents the maximum weight of tin coating per single base box. Whenever can material specifications for a product are changed by amendment (including the January 1, 1945 amendment), a can manufacturer must continue to manufacture, sell and deliver cans for that product in accordance with the superseded specifications (before making any cans conforming to the new specifications) as long as there is available to him plate made for that product which was in process at the tin mill, in the inventory of the tin mill for his account, or in his inventory, on the date of the change. Menders arising in the production of electrolytic tinplate, which have been hot dipped with a maximum tin coating of 1.25 pounds per base box, may be used wherever 0.50 or heavier tinplate is specified in this column. Menders arising in the production of electrolytic tinplate which have been converted into SCMT may be used wherever 0.50 or heavier tinplate is specified in this order for non-food cans. When a scored can is used to pack any of the meat products listed in this schedule, 1.25 tinplate may be used for the body of the can.

PART 3270—CONTAINERS

[Preference Rating Order P-152]

METAL STRAPPING

To facilitate the acquisition of metal strapping and seals and strapping tools, accessories and fittings in the public interest and to promote the defense of the United States, preference ratings are hereby assigned to deliveries of these items upon the following terms.

§ 3270.81 *Preference Rating Order P-152—(a) Definitions.* For the purposes of this order:

(1) "Strapping" means any round wire or flat band made of metal, (whether plain, punched, embossed, twisted or double edge) which is used in connection with the shipment or delivery of materials. The term includes reinforcement edging for returnable delivery-cases (bottle box) and metal seals for flat strapping. It does not include "fittings" as defined in paragraph (a) (4) below, metal hoops, stitching wire, cotton bale ties, baling wire used without hand or power operated strapping tools, or binding and stitching wire used in the manufacture of wirebound boxes.

(2) "Tools" means hand or power operated stretchers, sealers, tying tools, snips and cutting tools, or combinations thereof, for use in the application of strapping.

(3) "Accessories" means metal or wood reels, coil holders, coil trays, reel trucks, strapping bucks, anchor threaders and strapping tables used in the application of strapping.

(4) "Fittings" means all of the items listed on Schedule A at the end of this order.

(5) "Carloading" means the use of strapping to secure or brace packaged or loose material in or on vehicles. The term does not include the use of strapping for the purposes defined in subparagraphs (6) (7), (8) and (9) of this paragraph (a)

(6) "Skidloading" means the use of strapping to secure materials, packaged or otherwise, to skids or pallets. The term does not include the use of strapping for container reinforcement as defined in subparagraph (9) below.

(7) "Baling" means the use of strapping to secure or hold compressed materials in bales.

(8) "Bundling" means the strapping together of loose or packaged materials

(generally not compressed) into bundles or lifts, and the internal bracing of materials in containers. It shall not include the use of strapping for container reinforcement as defined in subparagraph (9) below.

(9) "Container reinforcement" means the external strapping of single containers of merchandise to reinforce and protect the package and its contents against damage in transit or to permit the use of less wood or paperboard in the component parts of boxes, crates and cartons.

Assignment of Ratings

(b) *Strapping for uses other than container reinforcement.* (1) Any person may use a rating of AA-1 to get strapping which he will use for carloading, skidloading, baling or bundling.

(2) When he uses a rating under this paragraph, he must, in addition to the certification described in paragraph (c) below, certify in writing to his supplier substantially as follows:

All of the strapping covered by this purchase order will be used for carloading, skidloading, baling or bundling, as defined in Order P-152.

No person may use any strapping acquired with the rating assigned by this paragraph (b) for any purpose other than carloading, skidloading, baling or bundling unless he first obtains the written permission of the War Production Board.

The provisions of this paragraph (b) (2) do not apply to strapping purchased directly by the U. S. Army or the U. S. Navy on orders identified by Army or Navy contract numbers.

(c) *Strapping for container reinforcement—(1) Common carriers.* A common carrier may use a rating of AA-1 to get strapping which it will use itself for container reinforcement.

(2) *Other persons.* Any person, other than a common carrier, may use the same rating to get strapping for container reinforcement as he could to get the containers in connection with which the strapping will be used under either Order P-140 or Order P-146. If he uses strapping out of his inventory for container reinforcement, he may replace it with the rating which he used to get the containers on which the strapping was used.

(d) *AAA ratings.* Any person who receives an order rated AAA may use

that rating to get strapping which he will actually use to deliver that order.

(e) *Ratings for tools, accessories and fittings.* Any person may use his blanket MRO rating to get tools, accessories and fittings. He may not use this rating to get strapping for any purpose.

(f) *Special ratings.* The War Production Board may assign special ratings in addition to those automatically assigned by this order. Application for special rating should be filed on Form WPB-4161.

(g) *Strapping for reinforcement edging.* Any person may use a rating of AA-5 to get strapping for the reinforcement edging of containers (generally multiple trip returnable containers) He may not use any other rating except a special rating (paragraph (f)) for this purpose.

(h) *Strapping for export.* A person may use a rating assigned for strapping by the Foreign Economic Administration to get strapping which will be exported, unused, to a foreign country.

No ratings, except those assigned pursuant to this paragraph (h) or pursuant to paragraph (f) (special rating), may be used to get strapping which will be delivered, unused, to any foreign country, unless the strapping is to be delivered directly to and used directly by an agency of the United States Government.

(i) *Direct purchases of strapping by certain agencies.* The Army, the Navy, the Maritime Commission and the War Shipping Administration may use ratings which they assign to get strapping which will be delivered directly to them and used directly by them.

Producers and Distributors of Strapping

(j) *Procurement of strapping by "distributors"—(1) Definition.* Whenever used in this paragraph (j) a "distributor" shall mean a person engaged in the business of selling strapping, tools, accessories and fittings to users—whether he fabricates these items himself or not. The term shall not include a steel mill or warehouse which sells strip steel or wire in strapping sizes as a controlled material.

Each branch outlet owned or controlled by the same person is considered a separate distributor under this paragraph (j)

(2) *How distributors get strapping from other distributors.* Subject to the

provisions of paragraph (l) below, a distributor may extend his customers' ratings to get strapping, tools, accessories or fittings from another distributor, for delivery on the rated orders or to replace in inventory any strapping, tools, accessories or fittings so delivered. When he extends his customers' ratings for inventory replacement purposes, he must do so in accordance with Priorities Regulation 3. He may not use a rating applied to a purchase order for one of the items which this order covers, (for instance, strapping) to get another item, (for instance, fittings or tools)

(3) *How a distributor must distribute strapping to his branch outlets.* No distributor may deliver strapping, tools, accessories or fittings to a branch outlet owned or controlled by him, except, as provided in Priorities Regulation 1, in accordance with the preference ratings extended to him by such branch outlet. Likewise, he may not cause strip steel or wire to be delivered from a controlled materials producer or controlled materials warehouse to a branch outlet (other than a plant or warehouse customarily used by him as a central point from which strapping, tools, accessories and fittings are delivered to his branch outlets) except in accordance with the preference ratings extended to such central point by the branch outlet.

(k) *Use of strapping by strapping manufacturers and distributors.* Any strapping manufacturer or distributor may use strapping, tools, accessories and fittings out of his own stocks for his shipments of these items regardless of whether this would prevent or delay the acceptance or fulfillment of rated orders for strapping, tools, accessories and fittings.

(l) *Limitation on use of ratings by persons owning production facilities.* No rated order for strapping, tools, accessories or fittings need be accepted if the person applying or extending the rating owns or controls facilities on which he normally produces strapping, tools, accessories or fittings. The only exception to this rule is where the purchaser's facilities are required to fill higher rated orders or previously received orders bearing an equal rating, or where the War Production Board specifically directs the acceptance of the rated order.

In order to avail himself of the provisions of this paragraph (l) a person who gets a rated order must first notify the person applying or extending the rating of his claim that this paragraph excuses acceptance of the rated order.

Existing Unfilled Orders

(m) *Permitted rerating of existing orders.* Preference ratings assigned or permitted to be used by this order may be applied or extended to any unfilled order for strapping, tools, accessories or fittings placed prior to April 6, 1945. Any rating so applied or extended is a rerating under the provisions of Priorities Regulation 12.

(n) *Termination of existing ratings on unfilled orders.* All ratings applied or extended to any order for strapping, tools, accessories or fittings before April 6, 1945, shall be ineffective after May 21, 1945. If delivery is not made before the

last mentioned date and the order is not rerated in accordance with paragraph (m) above, the order shall be regarded as bearing an AA-5 rating and shall be scheduled and filled accordingly.

Certification

(o) *How the ratings provided for in this order may be applied or extended.* The ratings assigned or permitted to be used by this order may be applied or extended only by use of a certificate in substantially the following form, signed manually or as provided in Priorities Regulation 7:

The undersigned purchaser certifies, subject to the penalties of section 35 (A) of the U. S. Criminal Code, to the seller and to the War Production Board that he is entitled to apply or extend the preference rating set forth on this order and that such application or extension is in accordance with Priorities Regulation 3, and with the provisions of Order P-152.

The standard certificate provided for in paragraph (d) of Priorities Regulation 7 may not be used in place of the above certificate; nor may the certificate provided by this order be waived in accordance with paragraph (f) of Priorities Regulation 7.

Inventories

(p) *Inventory limitation.* No person shall knowingly deliver to any person, except a distributor or manufacturer of strapping, and no person except a distributor or manufacturer of strapping shall accept delivery of any quantity of strapping if such person's total inventory is, or will by virtue of such delivery become, in excess of the greater of (1) \$300 worth of strapping, or (2) his reasonably anticipated requirements of strapping for the ensuing forty-five days.

The provisions of this paragraph shall not apply to deliveries of strapping to the U. S. Army or Navy, nor to their acceptance of strapping.

Miscellaneous

(q) *Restrictions on use and acceptance of ratings.* No person may use any rating except as provided in this order to get strapping, tools, accessories or fittings. No person receiving an order for strapping, tools, accessories or fittings shall give effect to any preference rating applied or extended thereto on or after April 6, 1945, if he knows or has reason to believe that the rating has not been applied or extended in accordance with the provisions of this order.

(r) *Reports.* All persons affected by this order shall execute and file with the War Production Board, such reports and questionnaires as said Board shall from time to time request, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(s) *Applicability of regulations.* Except to the extent that this order specifies to the contrary, this order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time. For instance, when this order allows a rating to be used for inventory replacement, this must be done in accordance with Priorities Regulation 3.

(t) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction, may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or accepting further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(u) *Communications.* All reports to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Containers Division, Washington 25, D. C., Ref. P-152.

Issued this 6th day of April 1945.

GENERAL INSTRUCTIONS

(To be printed on reverse side of Forms SPB-1 and SPB-1.1)

Forms SPB-1 and SPB-1.1 will be used by all owning agencies for reporting surplus personal property, located in the continental United States, its territories and possessions, to the appropriate disposal agency, as designated by the Surplus Property Board in Regulation No. 1. Detail lists of types of personal property included in the assignments to disposal agencies are contained in Order No. 1, under the above regulation. Form SPB-1 and SPB-1.1 will be filed in triplicate by the owning agency at the disposal agency office specified in the above regulation. The addresses of the disposal agency offices, and the areas served by each, are listed in Order No. 2, under the above regulation.

Form SPB-1 will be used by the owning agency as the original declaration of surplus personal property, whereas Form SPB-1.1 will be used for reporting adjustments, including withdrawals, of prior declarations of surplus personal property. (Form SPB-2 will be used by the Washington office of the owning agencies in reporting declarations to the Surplus Property Board.)

Form SPB-1 may carry the listing of personal property declared surplus, or it may be used as a cover transmittal sheet for either mechanical accounting lists or contract termination inventory schedules. If a machine tabulated form is used for listing the items of property, the columnar arrangement shall conform with Form SPB-1, and the forms shall be 11" x 14 1/2" in size. If contract termination inventory schedules are submitted as the listing of items, the sheets shall meet all the columnar requirements of Form SPB-1, except that column (c) for Standard Commodity Classification need not be provided nor column (d) for condition when using OCS-2c (Work in Process).

These forms may be reproduced by the owning agency provided that the size and format are identical with the format prescribed by the Board, or meet the requirements specified above with respect to machine tabulated listings and inventory schedules. These forms may be reproduced by the owning agency in fan fold and carry the name of the owning agency imprinted on the form. The complete instructions will be printed on the back of the forms.

The items of property listed on any one declaration (SPB-1) shall be confined to property at a single location, to be reported to one disposal agency and classified in a single major group (2 digits) of the Standard Commodity Classification (Government Printing Office). Where an item of property consists of an assembly of component parts in a unit, the unit should be reported to the appropriate disposal agency handling that unit, rather than disassembling and reporting component parts to the disposal agencies handling those parts.

If any legal restrictions exist (including patent restrictions) as to the power of owning agencies to dispose of property reported to a disposal agency as surplus, the report shall include a statement clearly indicating such restrictions.

Continuation Sheets

If additional sheets are necessary for the listing of surplus items, continuation sheets in the form prescribed by the Board will be used.

Acknowledgment of Receipt

The receipt of each Form SPB-1 and SPB-1.1 by the disposal agency will be acknowledged to the reporting office; e. g., by a post card notice stating the reporting agency number, date of report, and the disposal agency's number. The post card notice will constitute approval of requests for permission to withdraw property submitted on Form SPB-1.1, unless the notice specifically states otherwise.

INSTRUCTIONS FOR FORM SPB-1

Block:

1. State name and complete address of the office of the disposal agency (given in Order No. 2, SPB Reg. No. 1) to which the surplus property is being reported.
2. State the name and complete address of the office transmitting the declaration to the disposal agency. Show department, bureau, office or other similar subdivision involved. The disposal agency will send one copy of the shipping instructions to the custodian and one copy to the reporting agency shown on the declaration.
3. State the name and complete address of custodian of the property being declared surplus.
4. State the warehouse number and complete address of the site at which the property is located.
5. If the net proceeds from the sale or transfer of such surplus property are reimbursable, pursuant to Section 30 (b) of the Surplus Property Act of 1944; give the symbol and title of the appropriation to be credited, or the name and address of the Government corporation to receive the proceeds; for example—"14 x 6000 Reclamation Fund, Special Fund" or "Defense Plant Corporation, Washington 25, D. C." Note: A single report on SPB-1 should cover surplus items for which the net proceeds are reimbursable or non-reimbursable—but never both classes of items.
6. On left side of block type in name and title of authorized reporting official, who will enter his signature at right (original only).
7. Enter the code number of the single major group (two digits) of the Standard Commodity Classification in which the items listed on the report are classified.
8. Enter date on which the form is signed by the authorized reporting official.
9. Enter the serial number assigned by the reporting agency to identify each declaration.
10. Enter the sum of all amounts in column (h), Total Cost, of all pages of the declaration and supporting lists.

Column:

(a) Enter consecutive numbers starting with "1" on each page for each property item listed, leaving a blank line space across all columns between successive property items for use of the disposal agency. The numbering need not be consecutive for termination inventory schedules which are transmitted by Form SPB-1; the first item on each inventory sheet will be numbered "1"

(b) The reporting agency shall describe the property in sufficient detail to furnish the disposal agency with an adequate basis for disposal. The minimum standards of description prescribed by the Handbook of Standards for Describing Surplus Property

shall be used as a guide for all such descriptions. In accordance with the instructions in the Handbook, each item should be described in commercial terms in sufficient detail to permit transfer or sale by the disposal agency without calling on the owning agency for additional description. Stock numbers and prefixes, manufacturer's part number, and standard catalogue reference numbers should be supplied. The condition of the most important components of an item should be noted. Specify the type of container or package and the quantities in each. Lengthy descriptions should be written across columns (b)-(h) inclusive but entries in all columns must be clearly identifiable with the particular item number.

(c) If it is practicable for the reporting agency to do so, enter the detailed classification numbers for each item according to the Standard Commodity Classification (Government Printing Office). Otherwise, the detailed code numbers will be entered by the disposal agencies.

(d) Indicate condition of property by the following combination letter-number code:

Means	Means
N—New-----	1. Excellent.
E—Used—reconditioned-----	2. Good.
	3. Fair.
O—Used—usable without repairs-----	4. Poor.
R—Used—repairs required.	
X—Items of no further value for use as originally intended but of possible value other than as scrap.	

Do not use any code when declaring scrap. In stating the condition of consumer goods (excluding food), use only the letter code. For capital and producer goods, a letter-number combination must be used, except in the case of code X. For example: N4 means new but in poor condition.

Where the condition code does not provide an accurate description of the property's condition, leave this column blank and in appropriate language describe the condition of the property in column (b).

(e) Indicate unit of measure for the container, package or other applicable customary sales unit, such as each, pounds, tons, dozen, gross, thousand, etc. (See Handbook of Standards for Describing Surplus Property). Distinguish between long, short and metric tons. Standard, clearly understandable abbreviations may be used.

(f) Specify the quantities of each item reported surplus in terms of the "Unit" used in "e"

(g) Insert the recorded procurement cost or, in its absence, the estimated original cost (in dollars or cents) excluding transportation or handling charges incurred after original purchase. Estimated unit costs will be indicated by the prefix (E). For machine tools, other metalworking machinery, and production equipment enter unit costs f. o. b. manufacturer or vendor to owning agencies; designate with the prefix "U" if the item was purchased as used instead of new equipment.

(h) Compute total cost, that is, "No. of Units" multiplied by "Unit Cost" equals "Total Cost."

Contractor Inventory. If the property being declared surplus is termination inventory, state so by means of a stamp or otherwise in Block 7 provided for the standard commodity classification. All declarations of surplus termination inventory may be filed with the Reconstruction Finance Corporation at the regional office in which the property is located.

Transmittal of Completed Forms SPB-1 With Cost of \$25,000 or More

Completed Form SPB-2 will be transmitted to the Surplus Property Board accompanied by one copy of each Form SPB-1 filed during the current reporting month having a total cost of \$25,000 or more. Forms SPB-1 should be assembled according to disposal agency and in the order in which the agencies are listed in column (a).

NOTE Forms printed in the FEDERAL REGISTER are for information only, and do not follow the exact format prescribed by the issuing agency.

Adjustments or Withdrawals on Form SPB-1.1

One copy of each correction or withdrawal of a declaration on Form SPB-1.1, filed during the current reporting month, which involves a total cost (appearing in Block 10) amounting to \$25,000 or more will also be submitted, separately assembled according to disposal agency.

communications from the owning agency concerning that declaration should be addressed to that disposal agency.

Withdrawals or Corrections. Form SPB-5 will be used by the owning agency for corrections, or requesting the withdrawal of real property previously declared surplus. Insert the word "withdrawal" or "correction" in the top margin of the form. The same reporting agency serial number appearing in Block 8 on the original declaration will be used on the form used for requesting a withdrawal or correction. Corrected or adjusted information will be *underlined* to permit ready identification of the new data. If a request for withdrawal covers *all* of the property included in a previous declaration, it is not necessary to provide the information required by Blocks 4-6, or 11-13. If a request for withdrawal covers only *part* of the property previously declared, the owning agency will submit a statement of justification and furnish all the information on that portion of property being withdrawn, as required by Form SPB-5, except that Blocks 4, 5 and 13 need not be completed. Withdrawals or corrections on Form SPB-5 will be filed in quadruplicate with the Surplus Property Board, unless the owning agency has received notice that the original declaration has been forwarded to a disposal agency by the Board. If the owning agency has received such notice, it will send one copy of Form SPB-5 and exhibits (if required) to the Surplus Property Board and two copies to the disposal agency to which the original declaration was forwarded by the Board.

**INSTRUCTIONS FOR PREPARING FORM SPB-5
(To be printed on reverse side of form)**

GENERAL

Form SPB-5 will be used by all owning agencies for declaring surplus real property, located in the United States, its territories and possessions, to the Surplus Property Board.

Form SPB-5 will be filed in quadruplicate, with supporting exhibits in triplicate, at the Surplus Property Board, Washington 25, D. C. Real property declared surplus on one Form SPB-5 will be confined to property at a single location.

Personal Property. All declarations of personal property declared surplus in conjunction with real property shall be filed with the Board on Form SPB-1, in triplicate, and accompany the declaration on Form SPB-5. In completing Form SPB-1, the owning agency will not fill in Block 1 (Disposal Agency) of

that form. This block will be filled in later by the Surplus Property Board, or by the disposal agency to which the declaration of real property on Form SPB-5 is assigned.

Attachments and Exhibits. The detailed instructions for certain blocks on Form SPB-5 request that supporting schedules or more complete data be attached. Such supporting data may be consolidated in one complete survey of the property, in which case, reference will be made in the particular block on Form SPB-5 to the page or tab of the survey where the detailed information may be found. If separate exhibits or attachments are provided, each will be clearly identified with the corresponding block number of Form SPB-5. In either case, however, each block will be filled out as stated in the Detailed Instructions.

After the owning agency receives notice that a declaration on Form SPB-5 has been forwarded by the Board to a disposal agency,

which would be helpful in accomplishing disposal of the property.

NOTE: An attorney's certificate or report on the Government's legal title to the property will be submitted with the above exhibits, if it can be obtained by the time Form SPB-5 is filed. If not, such report or certificate will be furnished as soon thereafter as possible. Two copies will be sent to the disposal agency to whom the declaration was forwarded by the Board and one copy will be sent to the Board; if the owning agency has not received notice of the name of the disposal agency, all three copies will be sent to the Board.

7. Enter the date on which the declaration is signed by the authorizing official.
8. Enter the serial number assigned by the owning agency to identify each declaration.
- 9 and 10. Do not fill in.
11. Insert the approximate area of the real property expressed in acres or square feet.
12. After "acquisition" enter the original cost (actual or estimated) to the Govern-

ment, including land and buildings purchased at the time of the acquisition; after "betterments" enter the cost (actual or estimated) to the Government of plants, buildings, utilities, roads, etc., constructed or placed on the land. In a supporting schedule furnish the cost to the Government of each major classification of construction or betterments. The cost should include any amounts which have been obligated although not disbursed.

13. If the net proceeds from the sale or transfer of such surplus real property are reimbursable pursuant to section 30 (b) of the Surplus Property Act of 1944, give the symbol and title of the appropriation to be credited, or the name and address of the Government corporation to receive the proceeds.

14. The authorized reporting official will enter his signature below (original only) and his name and title will be typed in above (all copies).

NOTE: Forms printed in the FEDERAL REGISTER are for information only, and do not follow the exact format prescribed by the issuing agency.

PART 193—MINERAL LANDS: COAL PERMITS, LEASES AND LICENSES

MISCELLANEOUS AMENDMENTS

Section 193.21 is amended by eliminating therefrom the words "or where any part of the land is within a reclamation project" in the second sentence.

Section 193.24 is amended to read:

In addition, he shall separately state on each such invoice, sales slip or receipt, the amount, if any, of the required discounts, authorized service charges and taxes which must be deducted from or which may be added to the established maximum prices: *Provided*, That a dealer who is authorized to make a special service charge for chemical or oil treatment of coal need not separately state the amount of such service charge if he clearly indicates on the invoice that such coal is so treated: *And provided further* That provisions of this Section shall not apply to sales of solid fuel in less than quarter ton lots unless requested by the purchaser.

(l) *Posting of maximum prices.* (1) Each dealer subject to this revised order shall post all the maximum prices set by it for all types of sales. He shall post his prices in his place of business in a manner plainly visible to and understandable by the purchasing public. He shall also keep a copy of this revised order available for examination by any person inquiring as to his prices for solid fuels.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 52-24]

MIDLAND UNITED CO., AND MIDLAND UTILITIES CO.

MEMORANDUM OPINION AND ORDER
RELEASING JURISDICTION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 5th day of April 1945.

On October 24, 1944, the Commission approved a modified plan for the reorganization of Midland United Company and its subsidiary, Midland Utilities Company, filed jointly under section 11 (f) of the Public Utility Holding Company Act of 1935 by Hugh M. Morris, Trustee of the Estate of Midland United Company, a registered holding company, and Clarence A. Southerland and Jay Samuel Hartt, Trustees of the Estate of Midland Utilities Company, also a registered holding company (Holding Company Act Release No. 5317A). The Modified Plan has also been approved by the District Court of the United States for the District of Delaware having jurisdiction over the proceedings in respect of both companies under the Bankruptcy Act.¹

The Modified Plan provides for the reorganization of both Midland United Company and Midland Utilities Company, and for the selection of five persons to serve on the initial board of directors of both companies until the first annual meeting of stockholders following the consummation of the Modified Plan and until the election and qualification of their successors. In our order of October 24, 1944, approving the Modified Plan, we approved the selection of Hamilton Allport and Willis D. Gale as two of such five persons, and reserved jurisdiction to pass upon the qualifications and methods of selection of the remaining three persons.

The Trustees of the two estates, in accordance with the terms of the Modified Plan which provides that the remaining three persons were to be designated jointly by them, have filed an amendment to the Modified Plan wherein they have proposed the following persons: -

Person and Principal Business Connections

Leo J. Sheridan, President, J. L. Sheridan & Company, which is engaged in general real estate and property management, and which manages several large office buildings located in the Chicago Loop area.

John H. Bickley, Certified Public Accountant and a public utility consultant; formerly Associate Professor of Business and Finance Accounting at Lehigh University and for many years associated with various state and federal regulatory agencies.

Jay Samuel Hartt, one of the Trustees of the Estate of Midland Utilities Company; president of the Chicago South Shore and South Bend Railroad; a consulting engineer whose work since 1920 has included public utility operating surveys, valuations, rate studies and construction.

A public hearing was held after appropriate notice, and no one appeared in

¹An appeal has been taken to the United States Circuit Court of Appeals for the Third Circuit.

opposition to the proposal of the Trustees. The record indicates that, prior to the selection of the foregoing persons, the Trustees of the two estates requested representatives of the various classes of security holders of Midland United Company and Midland Utilities Company to submit the names of persons to act as the initial directors. Acting on the basis of the results of such inquiries, the Trustees selected the persons named above, endeavoring in such selection to provide a board of directors which would best serve the interest of the reorganized companies.

None of the proposed members of the initial board of directors of the reorganized companies has had any previous connection with their management other than Jay Samuel Hartt, in his capacity as one of the Trustees of Midland Utilities Company. In view of the fact that the Trustees of the two estates and their organizations have completely displaced the management existing prior to the institution of the bankruptcy proceedings, we believe that the knowledge of the system and experience in its problems, which Hartt has thus acquired, renders his proposed connection with the reorganized companies appropriate.

We have examined the record in respect of the three persons proposed as initial directors, their qualifications, and the method of their selection, and we find no basis for any adverse findings with respect to such matters.

It is ordered, That the jurisdiction heretofore reserved over the qualifications and methods of selection of the three persons (in addition to Hamilton Allport and Willis D. Gale) who are to be members of the initial board of directors be, and hereby is, released.

It is further ordered, That the jurisdiction heretofore reserved over all other matters in respect of the Modified Plan of Reorganization and the consummation thereof be continued.

By the Commission.

[Special Order 1]

E. J. BUDD MANUFACTURING Co.

EXCEPTION TO PRICE POLICY FOR DISPOSAL OF SURPLUS AIRCRAFT

Regulation No. 4 of the Surplus War Property Administration (9 FR. 1127) established pricing policies for the disposal of surplus aircraft and property peculiar to aircraft and also provided that cases for which no provision was made "should be referred to the Surplus War Property Administration, which, by direct action without amendment to this Regulation, may authorize exceptions, when in its opinion, the public interest

requires." Pursuant to such provision of Regulation No. 4 this order is issued by the Surplus Property Board, as successor to the Surplus War Property Administration, acting under the authority of the Surplus Property Act of 1944 (P. L. 457, 78th Congress, 2nd Sess., 58 Stat. 765).

The Navy Department has declared surplus certain stainless steel cargo planes built by E. J. Budd Manufacturing Company, Philadelphia, Pennsylvania. The Navy's designation for this aircraft is RB-1 and it is known as the "Conestoga" In view of the small number of such planes which have been manufactured and of the limited quantity of spare parts which are available for their maintenance, the Board deems it in the public interest that they be disposed of by negotiated sale at the best price obtainable after wide public advertising.

It is hereby ordered, That:

1. Notwithstanding the provisions of SWPA Regulation No. 4, the Reconstruction Finance Corporation and the Foreign Economic Administration are authorized to dispose of surplus Budd RB-1 cargo planes, also known as "Conestoga", by negotiated sale at the highest price offered which is adequate in the light of a reasonable knowledge or test of the market, having due regard for the circumstances, nature, condition, quantity, and location of such planes.

2. Such sale shall be made only after wide public notice and a time interval between notice and sale adequate to give all interested purchasers a fair opportunity to buy.

This order shall become effective upon publication in the FEDERAL REGISTER.

SURPLUS PROPERTY BOARD,
By ALFRED E. HOWSE,
Administrator.
