The Panel shall have authority to make final rulings on voluntary wage and salary adjustments within its jurisdiction in those cases in which its decision is unanimous, subject to the provisions of this paragraph. PART 1010—SUSPENSION ORDERS

[Suspension Order S-876]

LESLIE T. HEALY

Leslie T. Healy, 2636 Noble Road, Cleveland Heights, Ohio, is engaged in the construction business, principally of small residences in South Euclid, Ohio. During April, 1945, without permission

of the War Production Board, he did construction of three new single residential houses in South Euclid, Ohio, the estimated cost of each of which was in excess of the amount permitted by Conservation Order L-41. Leslie T. Healy had knowledge of the provisions of Conservation Order L-41, and the beginning and carrying on of these construction jobs without authorization constituted willful violations of that order.

These violations have diverted critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.876 *Suspension Order No. S-876.* (a) Leslie T. Healy shall not for three months from the effective date of this order apply or extend any preference ratings or use any CMP allotment symbols regardless of the delivery date named in any purchase order to which such ratings may be applied or extended or on which CMP allotment symbols are used,

(b) Leslie T. Healy shall cancel immediately all preference ratings which he has applied or extended to orders which have not yet been filled, and shall also cancel immediately all unfilled orders which he has placed for controlled materials bearing a CMP allotment symbol (including the MRO symbol and the symbol "SO" under the small order procedure of CMP Regulation 1).

(c) All preference ratings, allotments and authorizations presently outstanding in connection with orders for delivery of materials to Leslie T. Healy or placed prior to the termination date of this order are void and shall not be given any effect by suppliers of Leslie T. Healy or by any other person. This does not apply to material already delivered or in transit for delivery to him on the effective date of this order.

(d) During the period in which this order shall be in effect, no authorization to begin any new construction to be erected in whole or in part by Leslie T. Healy shall be granted, except as may be hereafter specifically authorized in writing by an official order of the War Production Board, as an exception to, or modification of this order.

(e) Nothing contained in this order shall be deemed to relieve Leslie T. Healy from any restrictions, prohibitions, or provisions contained in any other order or regulation of the War Production Board except insofar as the same may be inconsistent with the provisions hereof.

(f) The restrictions and provisions contained herein shall apply to Leslie T. Healy, his successors or assigns or persons acting on his behalf. The provisions against the taking of any action include the taking indirectly as well as directly of any such action.

(g) This order shall take effect on August 14, 1945.

(4) If a converter's consumption of pulp, paper and paperboard for any calendar quarter of 1942 was less than 25 tons, or if a converter did not consume any pulp, paper or paperboard during the calendar year 1942, such converter may consume in the manufacture of any converted products on List B, List C or List D of this order, an aggregate of 25 tons of pulp, paper and paperboard in each calendar quarter.

(e) *Restrictions on consumption of pulp, paper and paperboard in the manufacture of converted products not specifically listed*. (1) No converter shall during the final calendar quarter of 1943 or during any calendar quarter thereafter consume in the manufacture of any converted product not named on List A, List B, List C or List D of this order, any quantity, in tons, of pulp, and paperboard greater than 70 percent of the tonnage consumed in the manufacture of such converted product during the corresponding calendar quarter of 1942.

(2) No converter shall during the third calendar quarter of 1945, or during any calendar quarter thereafter, consume in the manufacture of any converted product not named on List A, List B, List C or List D of the order, any quantity, in tons, of paper greater than 85 percent of the tonnage consumed in the manufacture of such product during the corresponding calendar quarter of 1942.

(3) If a converter's consumption of pulp, paper and paperboard for any calendar quarter of 1942 was less than 25 tons or if a converter did not consume any pulp, paper and paperboard during the calendar year 1942, such converter may consume in the manufacture of any converted products not named in List A, List B, List C or List D of this order, an aggregate of 25 tons of pulp, paper and paperboard in each calendar quarter.

(4) In the instance of any converted products not named on any of the lists of this order, the following processes and operations shall not be considered as processing:

(i) Cutting, trimming or rewinding to a different size when such is performed as part of any established finishing room procedure and provided the paper or paperboard so processed is not intended for a use which serves to defeat the purpose of the order. (*Example*: the cutting of plain paper to a given size for use as a tray cover, the manufacture of which is curtailed by this order).

(ii) Punching or corner cutting.

(iii) Super-calendering.

(iv) Laminating.

(v) Coating, friction calendering, flint glazing, plating and embossing.

(vi) Collating and binding.

(vii) Printing, when such contributes to the functional value of the product to such a degree that the product would be incapable of performing the use intended if not printed, (*Examples*: advertising streamers, posters, menus, programs, timetables, sheet music, patterns, decalomania transfers, checks), or when such printing is an intermediate process in the manufacture of an article or type of converted paper.

(viii) Printing wrappers (excluding gift wrappings) when printing is the only conversion operation other than cutting or trimming.

(ix) Embossing, corrugating, creping and crinkling for industrial and non-decorative uses.

(f) *Alternate method of calculating quotas*. As an alternate method of calculating quarterly quotas for any converted product, any person may, after the filing of a notice in writing with the War Production Board, elect to apply the percentages established by paragraphs (d) and (e) (1) of this order to one fourth of his total yearly consumption of pulp, paper and paperboard in such product during 1942. When such election has been made and the required notice in writing has been given to the War Production Board, the method of determining quotas may not thereafter be changed.

(g) *Converter's responsibility in determining coverage of this order*. It shall be the duty of each converter to determine in the first instance which of his products are included among the converted products referred to in this order. In case of doubt he may apply to the War Production Board in writing describing the product in question, for a specific ruling determining whether or not the same is so included. The War Production Board may of its own motion

in any case, by telegram or letter, issue a specific ruling determining whether or not a particular product of a particular converter is so included.

(h) *Inventory restrictions.* No converter shall accept delivery of, and no person shall knowingly deliver to a converter, any quantity of pulp, paper or paperboard if the total inventory of pulp, paper and paperboard in the possession of the converter is, or will by virtue of such delivery become, in excess of the greater of the following: (1) thirty tons, or (2) a thirty days supply, based on the converter's average rate of consuming pulp, paper and paperboard during the latest preceding full calendar month.

(i) *Certification to paper dealer or mill.* No converter of paper, and no person on behalf of a converter of paper, may order or accept delivery, from a paper merchant, mill operator, or other supplier of any paper for use in converting paper, unless the buyer furnishes, or has previously furnished, to the person making delivery, certificate in substantially the following form, signed manually, or as provided in Priority Regulation No. 7 (§ 944.27) by an official duly authorized for such purpose:

The undersigned converter certifies, subject to the penalties of section 35 (A) of the U. S. Criminal Code, to the seller and to the War Production Board that he is familiar with Order M-241-a and that all purchases by him of items regulated by that order, as amended from time to time, will be in compliance therewith.

The above certificate must be used and the certification provided for in Priority Regulation No. 7 may not be used in its place or stead.

This is a one-time certification and need not accompany each individual order for paper.

(j) *Allocations.* The War Production Board may from time to time direct the production and delivery of specific quantities of any converted product included in this order. Such directions will be made to insure the satisfaction of war requirements both direct and indirect and essential civilian requirements and shall take precedence over any preference rating to the extent indicated by the War Production Board.

(k) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(l) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully why the particular provision imposes exceptional and unreasonable hardship which is not suffered generally by others in the same industry or activity or why improper discrimination is claimed.

(m) *Violations.* Any person who willfully violates any provisions of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition any such person may be prohibited from making

or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(n) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Paper Division, Washington 25, D. C. Ref: M-241-a.

Issued this 14th day of August 1945.

LIST E [Deleted Oct. 5, 1943]

INTERPRETATION 1—WAXED PAPER CONVERSION

"Waxed and oiled paper, all types and grades other than household packages, excluding waxed paper wrappings for direct war use as provided in List A," as that caption appears in List B of General Conservation Order M-241-a, applies to all the kinds of paper so described regardless of whether produced as a result of a separate converting operation, as is commonly the case, or produced as a result of having been oiled or waxed on the paper machine. For the purpose of this order control has been placed on the end product. The method employed in consuming paper in the manufacture of the end product is not a factor of consideration in determining the applicability of the order. (Issued Feb. 15, 1944.)

INTERPRETATION 2—RETAIL UNITS

This interpretation of General Conservation Order M-241-a applies to the consumption of paper in the manufacture of retail units of wrapping and other papers as dispensed through the variety chain stores, the department stores, the stationery stores and all other retail outlets. These retail units are regarded as within the definition of a "converted product" in Order M-241-a and therefore subject to the restrictions contained in paragraphs (d) or (e) of the order.

All grades and kinds of paper, plain or printed, when converted into retail units for wrapping purposes are subject to the order, although the percentage restriction on consumption need not be separately applied to each of the grades and kinds of paper consumed during the base period. It is permitted to calculate an aggregate quota and to consume any grade or kind of paper, plain or printed, within the quota without regard to the maintenance of the same relationship of grade and kind that prevailed during the base period.

Any person who did not consume paper during the base period of the order in the conversion of such retail units of wrapping and other papers has no basis from which to calculate a quota and, therefore, cannot become a converter.

There is a distinction in the instance of printed wrapping paper as follows:

1. When printed wrapping paper is delivered by the printer in bulk form (not packaged) for further sale or further distribution the printer is the "converter" as defined in the order, and, therefore, subject to the restrictions of paragraph (e); but,

2. If the printer delivers the printed wrapping paper to a person for subsequent conversion into retail units, the final converter is the one subject to the restrictions of paragraph (e) and not the printer.

Since retail units are regarded as a separate and distinct type of "converted product," it is obvious that tonnage from other

products cannot be included when calculating a quota for retail units.

Plain wrapping tissue purchased in quires, or flat, when subsequently folded and labeled or otherwise packaged, is deemed to be a retail unit and therefore restricted by paragraph (e).

Quota tonnage which has not been consumed at the end of a calendar quarter may not be carried over to the succeeding calendar quarter. (Issued Feb. 15, 1944.)

INTERPRETATION 3—PUNCH BOARDS, PULL BOARDS AND SIMILAR ARTICLES

This interpretation of General Conservation Order M-241-a applies to punch boards, pull boards and similar articles. Punch boards, pull boards and similar articles are not included in "Games and Toys" on List D of the order. They are to be considered as coming within the provision of paragraph (e) (1) of the order. The District Director's authorization shall be sent to the dealer who requested the reclassification. It shall describe each tire being reclassified as Grade III, by size, type and serial number.

(iv) A new passenger or truck tire held for sale by a dealer which a District Director has authorized to be reclassified as a Grade III tire after a finding by an OPA Tire Examiner that the tire has been damaged after it left the factory to such an extent that it cannot reasonably be sold on a Grade I tire certificate. The District Director's authorization shall be sent to the dealer who requested the reclassification. It shall describe each tire being reclassified as Grade III, by size, type and serial number.

PART 1393—ICE

[MPR 154, Amdt. 12]

ICE

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

MPR 154 is amended in the following respects:

1. Section 1393.1 is amended to read as follows:

§ 1393.1 *Maximum prices for ice* (a) On and after July 8, 1942, regardless of any contract, agreement, lease or other obligation, no person shall sell or deliver ice and no person in the course of trade or business shall buy or receive ice at prices higher than the maximum prices established by this regulation, except as may be expressly permitted by provisions of paragraph (b) of this section; and no person shall agree, offer, solicit or attempt to do any of the foregoing.

(b) Ice under "car-icing sales" as defined in Appendix B, sold and delivered prior to October 1, 1945 and not covered by continuing sales contracts or agreements in effect on August 13, 1945, shall be exempt from maximum price control under this or any other regulation.

2. In § 1393.12, Appendix B, under the heading "Instructions" the item entitled "Definitions—'Car-Icing Sales'" is amended to read as follows:

Definitions—'Car-icing sales'. As used in this regulation the term "Car-icing Sales" refers to ice sold to railroads, express companies, boat lines, truck lines, and fishing fleets for use and consumption by the purchaser. For purposes of this definition no distinction shall be made between ice used for pre-cooling, initial icing, or re-icing purposes.

Car-icing, as used herein, is not intended to cover sales in small quantities to individual fishing boats, milk handlers and dealers, small truck gardeners and poultry processors, or for similar purchasers who use ice to transport perishable food products to local and adjacent markets. Ice for this purpose is usually purchased in small quantities at the seller's platform with no manual icing operation required of the seller.

Since price increases permitted as a result of the use of this form are intended to

* 10 F.R. 7048, 8660.

relieve ice shortages in situations which may arise quickly and/or require immediate attention, and where sellers have had burdensome labor cost increases over the seller's normal fiscal year ending nearest to April 30, 1942, in car-icing operations, obviously only in cases where sellers are required to do manual icing operations, will such labor costs be excessive except for nominal amounts to compensate for production labor cost increases. It will be found that in most instances, car-icing sales, as defined herein, are for large tonnage requirements and are usually made pursuant to contracts, often long-term, entered into prior to October 1, 1941, and usually specifying the amount of manual icing operations required of the seller by the purchaser, and with such icing services included in the price per ton paid by the purchaser.

This amendment shall become effective August 13, 1945.

Issued this 13th day of August 1945.

Administrator.

1. Paragraph (c) (10) is amended to read as follows:

(10) "Labor" means actual site workers and foremen actively working on the job. It does not include superintendence, clerical workers or contractor's time, unless such contractor is actually performing manual labor.

(i) Site labor payroll cost comprises the actual wages of site workers on the actual site labor payroll.

2. Paragraph (e) (8) is added to read as follows:

(8) The use on a job of labor of a type higher than necessary or appropriate for such job; for example, using and charging for the labor of skilled plumbers to dig a ditch when unskilled labor is available: *Provided however*, That where in such case, unskilled labor is unobtainable a higher class of labor may be utilized and charged for if the purchaser is

first notified that it is necessary and gives his written consent in advance.

3. Paragraph 1 (a) of Appendix D is amended to read as follows:

(a) For roughing in—including the service of installation and the supplying of all materials except fixtures:

Maximum price—\$75.00 per fixture for hot and cold water connections including all materials except fixtures.

The above price includes travel time where the work is done within the five mile limit and whether done on straight time or overtime.

"Roughing in" means the furnishing of all plumbing materials and assembling them in their proper places to comply with the sanitary requirements of the Territory of Hawaii.

A "fixture" means a sink, toilet, basin, bathtub, shower or laundry tub. A combination bathtub-shower is one fixture. Where the owner furnishes the fixtures, the prices for roughing in include the attachment of fixtures.

4. Paragraph 1 (b) of Appendix D is amended to read as follows:

(b) For fixtures supplied by the contractor. Fixtures furnished and delivered to the site at prices not to exceed maximum retail prices established for fixtures under the General Maximum Price Regulation for the Territory of Hawaii.

5. Paragraph 1 (c) (1) of Appendix D is amended to read as follows:

(c) Extra charges for roughing in. (1) When necessary to provide a line beyond 20 feet from the principal four-inch vent stack to a cesspool or sewer connection, an additional charge of \$2.00 per lineal foot for each lineal foot over 20 feet of such completed line may be added. This charge shall be irrespective of the nature of the soil dug to lay said line. This charge includes all necessary connections requisite to place such fixtures in working order sufficient to comply with the requirements of the Plumbing Code of the Revised Ordinances of the City and County of Honolulu.

6. Paragraph 1 (d) of Appendix D is amended to read as follows:

(d) Charges other than roughing in. (1) The sum of \$15.00 may be added for connecting a heater in a building where a hot water piping system exists, which charge shall include all necessary piping for such connection but does not include the heater. In addition, there may be added \$0.50 for each additional lineal foot for each cold and hot water line beyond five feet from heater, plus \$0.50 for each additional lineal foot for fuel gas pipe beyond five feet from heater. For connecting a heater in a building where no hot water piping exists the sum of \$15.00 may be added for such connection (but shall not include the heater) plus materials and labor on time and material basis beyond five feet from the heater. The cost of a relief valve shall be charged as extra (if not included in the cost of the heater and if furnished by the plumber) at a price not to exceed the maximum price established for sales to contractors by sections 50 and 61 (formerly sections 56 and 69) of Revised Maximum

¹ 10 F.R. 6646, 7407, 7794, 7799, 8020, 8069, 8371, 8979, 9273, 9274, 9275 9466, 9540.

Price Regulation 373 or applicable regulations.

(2) For connecting a gas stove where the necessary piping is already established at the point of connection, \$4.50 may be added for connecting. In cases where it is necessary to install piping to the gas heater beyond five feet from stove, the connection charge will be \$4.50 plus \$0.50 per each additional lineal foot of pipe to meter connection actually installed. For the disconnecting and moving of a gas stove the price shall be determined as is provided for repair work.

(3) For the supply and installation of galvanized 5" O-Gee gutter and round 3" downspouts, a charge not to exceed \$1.00 per lineal foot may be made.

(4) For other new plumbing or sheet metal work such as the installation of new sheet metal work other than specifically mentioned in paragraph 1 of this Appendix, the maximum price shall be:

(i) Materials furnished at prices not to exceed maximum prices established for sales to contractors by sections 50 and 61 (formerly 56 and 69) of Revised Maximum Price Regulation 373, or applicable regulations, delivered to the job site, plus

(ii) Actual site labor performed at rates no higher than those permitted to the plumbing trade, under General Orders and Resolutions of and the basic wage rates established by the Territorial War Labor Board for Hawaii, plus

(iii) An amount equal to 50% of the actual site labor, plus travel time as defined in paragraph (e) below of this Appendix D.

Where the contract is taken for labor only, deduct from the prices set forth above all materials except fixtures furnished by customers at prices equal to maximum prices established for sales to contractors by section 61 (formerly section 69) of Revised Maximum Price Regulation 373.

7. Paragraph 2 (a) of Appendix D is amended to read as follows:

Plumber, 3d class.....	1.65

This amendment shall become effective as of July 20, 1945.

Issued this 14th day of August 1945.

PART 1436—PLASTICS AND SYNTHETIC RESINS

[MPR 345, Amdt. 3]

THERMOPLASTIC SCRAP

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 345 is amended in the following respects:

1. The second sentence in the introductory paragraph of § 1436.13 (a) (3) is amended to read as follows: "It does not include material which has been salvaged by its manufacturer before its initial sale, nor does it include any material which contains less than 15 percent of purchased salvage or salvaged material, and which its manufacturer sells under standard new material specifications."

2. Appendix A (a) (1) is amended by changing the prices therein for methyl methacrylate to read as follows:

	Crystal clear	Plain color	Mixed color
Methyl methacrylate:			
Unground.....	\$0.23	\$0.23	\$0.23
Reground.....	.21	.21	.21
Reworked.....	.41	.41	.41
Mixtures.....	.63	.63	.63

3. Appendix A (a) (2) is amended by changing the prices therein for methyl methacrylate to read as follows:

	Crystal clear	Plain color	Mixed color
Methyl methacrylate:			
Pieces left over from fabricating operations which are usable without further processing for further fabrication in the same manner as new materials which have been made so usable by further processing.....	\$2.54	\$2.54	\$2.54
Pieces which may be made usable for further fabrication in the same manner as new materials by one or more of the following operations: straightening, polishing, cleaning.....	.25	.25	.25
Ground and all other methyl methacrylate sheet scrap.....	.15	.15	.15
Unmarked combinations of more than one type of methyl methacrylate sheet scrap shall take the maximum price of the lowest priced type in the combination.			
Mixtures of methyl methacrylate sheet scrap with other thermoplastic materials.....	.63	.63	.63

4. Appendix A (a) (3) is amended to read as follows:

(3) Polyvinyl chloride, copolymers of vinyl chloride and vinyl acetate, polyvinyl butyral, and mixtures.

	Unground	Ground	Reworked
Polyvinyl chloride.....	\$0.21	\$0.27	\$0.33
Copolymers of vinyl chloride and vinyl acetate.....	.21	.27	.33
Polyvinyl butyral.....	.21	.27	.33
Mixtures.....	.63		

Where scrap is composed of non-plastic materials laminated or impregnated with vinyl compounds and con-

tains at least 10 percent by weight of such vinyl compounds, the maximum price per pound for sales of the scrap shall be the maximum price per pound established in this subparagraph (3) for the vinyl compound or mixture of vinyl compounds contained in the scrap, multiplied by a figure equal to 90 percent of the weight (expressed in pounds) of the vinyl compounds or mixture of vinyl compounds contained in each one pound of the scrap.

Example. Maximum price per pound of unground polyvinyl chloride is 21 cents. One pound of scrap contains 0.9 pound unground polyvinyl chloride. 90 percent of 0.9 pound equals 0.81 pound unground polyvinyl chloride. 21 cents multiplied by 0.81 equals 17.01 cents per pound, which is the maximum price per pound of scrap. When scrap is processed to extract the unground polyvinyl chloride, maximum price for latter is 21 cents per pound, as stated above.

5. Subparagraphs (5) and (6) of Appendix A (a) are redesignated subparagraphs (6) and (7), respectively, and a new subparagraph (5) is added to read as follows:

(5) Contaminated thermoplastic scrap. Where thermoplastic scrap is composed of non-thermoplastic materials such as glass, metal, rubber, or the like mixed with thermoplastic scrap, and contains at least 10 percent by weight of thermoplastic scrap, the maximum price per pound for sales of such contaminated thermoplastic scrap shall be the maximum price established in this Appendix A for the type of thermoplastic scrap contained in the contaminated thermoplastic scrap multiplied by a figure equal to 90 percent of the weight (expressed in pounds) of the thermoplastic scrap contained in each one pound of the contaminated thermoplastic scrap.

However, if the contaminated scrap contains not more than 5 percent by weight of non-thermoplastic materials, the maximum price per pound of the contaminated scrap shall be the maximum price per pound established in Appendix A for the type of thermoplastic scrap contained therein.

This amendment shall become effective August 20, 1945.

Issued this 14th day of August 1945.

SECTION 1. Applicability. (a) Except as provided in paragraph (b) of this section, this regulation shall apply to all sales within the 48 states and the District of Columbia of domestic and imported certified seed potatoes and war approved seed potatoes as hereinafter defined, whether sold for immediate or future delivery.

(b) *Sales excepted.* This regulation shall not apply to:

- (1) Foundation stock seed potatoes.
- (2) All other white flesh potatoes which shall be and remain subject to Revised Maximum Price Regulations Nos. 271, 422 and 423, as amended.
- (3) Potato eyes cut out of the tuber of a seed potato.
- (4) Certified seed potatoes or war approved seed potatoes purchased by the United States or any of its agencies under such circumstances of emergency as to make immediate delivery imperative

and as to render it impossible to secure or unfair to require immediate delivery at the maximum price which would otherwise be applicable, if such purchases and deliveries are made pursuant to the provisions of section 4.3 (f) of Revised Supplementary Regulation No. 1 to the General Maximum Price Regulation, as amended: *Provided, however,* That the Administrator may by order waive the reporting of any part of the information required by section 4.3 (f) in connection with the particular purchase or group of purchases upon determining that such information may not reasonably be required under all the circumstances and he may in lieu thereof require the reporting of other information more suited to the circumstances.

(5) Any export sales of any certified seed potatoes or war approved seed potatoes. The maximum price for such sales shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation.¹

Sec. 2. Sales at other than maximum prices. (a) Regardless of any contract or obligation, no person shall sell or deliver, and no person shall, in the course of trade or business, buy or receive any of the commodities covered by this regulation at a price above the maximum price established by this regulation, nor shall any person agree, solicit, offer, or attempt to do any of the foregoing: *Provided, however,* That this prohibition is subject to the exception provided for in subparagraph (1) of this paragraph.

(1) Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery, but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purpose of the Emergency Price Control Act of 1942, as amended, and the Stabilization Act of 1942, as amended. The authorization may be given by an order of the Administrator or of any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

(b) Prices lower than the maximum prices established by this regulation may be charged or paid.

Sec. 3. Evasion. No person shall evade this regulation directly or indirectly, whether by commission, service, transportation, or other charge or discount, premium or other privilege; by tying-agreement or other trade understanding; by a business practice relating to grading, labeling, or packaging, or in any other way.

Sec. 4. Enforcement. Persons violating any provision of this regulation are subject to the license revocation or suspension provisions, civil enforcement actions, suits for damages, and criminal

penalties, as provided in the Emergency Price Control Act of 1942, as amended.

Sec. 5. Licensing. The provisions of Licensing Order No. 1,² licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation, but no such license is required of or granted to a producer as a condition of selling seed potatoes produced by him. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

Sec. 6. Records and reports. (a) Except in the case of sales and deliveries by producers and retailers of certified seed potatoes or war approved seed potatoes for which maximum prices are established by this regulation, every person making a purchase or sale of any such seed potatoes in the course of trade or business shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect complete and accurate records of each such purchase and sale including the date thereof, the name of the seller and purchaser, the quantity sold and the price paid.

(b) Every carlot distributor shipping certified seed potatoes or war approved seed potatoes in any conveyance, other than a railroad freight car, shall post or cause to be posted in the conveyance a manifest showing the following:

The name and address of the carlot distributor, point from which the seed potatoes in question are shipped, production area, quantity sold, state or area of maximum f. o. b. price at the point of shipment, name and address of the person to whom the goods are shipped, and the date of shipment. The carlot distributor shall retain a copy of the manifest pursuant to paragraph (a) of this section.³

Sec. 7. Interpretations, protests, and petitions for amendment. Any person seeking an interpretation or an amendment of, or desiring to file a protest against, any provisions of this regulation may do so in accordance with Revised Procedural Regulation No. 1,⁴ as amended, issued by the Office of Price Administration.

Sec. 8. Definitions. (a) As used in this regulation the following terms shall have the following meanings:

(1) "Foundation stock seed potatoes" are seed potatoes grown, inspected and certified to be of such class pursuant to the laws and regulations governing the official certifying agency of the state or foreign country where grown.

(2) "Certified seed potatoes" are seed potatoes grown, inspected, certified and tagged or labeled as being of such class pursuant to the laws and regulations governing the official certifying agency of the state or foreign country where

(3) "War approved seed potatoes" are seed potatoes grown, inspected, approved and tagged or labelled as being of such class pursuant to the laws and regulations governing the official certifying agency of the state where grown, which are sold for planting or for resale for planting: *Provided*, That the standards therefor as established by each state have been filed with and approved by the United States Department of Agriculture as meeting the minimum federal requirements for such class.

(4) "Person" means an individual, corporation, partnership, association or other organized group of persons or the legal successor or representative of any of the foregoing, and includes the United States or any other Government or any political subdivision or agency of any of the foregoing.

(5) "Producer" means, with respect to a particular lot of certified seed potatoes or war approved seed potatoes, a person who grew or harvested the lot of certified seed potatoes or war approved seed potatoes in question.

(6) "Carlot distributor" means, with respect to a particular lot of certified seed potatoes or war approved seed potatoes, a person including a producer, who ships certified seed potatoes or war approved seed potatoes in lots of 20,000 pounds or more to a place other than the place where such seed potatoes were graded, inspected and tagged, assuming all transit risks to destination and there sells such lot to any person without warehousing or breaking into smaller quantities.

(7) "Wholesaler" means, with respect to a particular lot of certified seed potatoes or war approved seed potatoes, a person who purchases certified seed potatoes or war approved seed potatoes and resells the same to retailers in quantities of less than 20,000 pounds, or to planters in quantities of 1,000 pounds or more.

(8) "Retailer" means, with respect to any particular lot of certified seed potatoes or war approved seed potatoes, any person who sells certified seed potatoes or war approved seed potatoes to planters in quantities of less than 1,000 pounds.

(9) "Transportation cost" means:

(i) If a common carrier, contract carrier, or other carrier for hire or compensation is employed, the charge actually incurred for the transportation service; or

(ii) If hauling is done by truck, passenger car or wagon, the customary scale of charges for the haul in question.

(iii) If delivery is made by mail, the lowest established postal rate for the delivery in question or the zone rate established by the seller by averaging the lowest established postal rates for the zones selected.

(iv) When any movement involves a combination of more than one of the types of transportation included in (i), (ii), and (iii), the transportation cost for the movement of each type shall be computed separately and the results added.

(v) When the services of precooling, icing or other protective measures are ordered and actually performed, the reasonable value of such services may be charged (not exceeding any maximum price established therefor.)

Sec. 9. Maximum prices for sales of certified seed potatoes and war approved seed potatoes. Maximum prices for all sales of certified seed potatoes and war approved seed potatoes are found in this section. Maximum prices of such seed potatoes vary according to the place where produced and the period during which they are delivered. The base price of certified seed potatoes and war approved seed potatoes according to place where produced and month of delivery are found in Appendix A. Whenever reference is made to a base price, refer to the Appendix. In the Appendix you will find that the particular seed potatoes you are selling have their own base price, without reference to the type of seller you may happen to be.

Once a base price has been determined, this section will explain how you determine your own maximum price. You must consult the definitions to determine your class of seller on a particular sale, as we have defined your status according to the particular sale you are making. You may be one class of seller on one sale and another class of seller on a different sale.

(a) *Producer.* If you are a producer, your maximum price for the sale or delivery of certified seed potatoes or war approved seed potatoes depends on the person to whom you are selling such seed potatoes and the manner of sale.

(1) Except as otherwise provided in paragraph (2) below and paragraph (d) of this section your maximum price for the sale or delivery of certified seed potatoes or war approved seed potatoes shall be the appropriate base price in Appendix A for the kind of seed potatoes you are selling plus your transportation cost, if any, from your nearest shipping point if delivered by common carrier; or from the farm where grown to the buyer's receiving point, if delivered by other than common carrier.

(2) If the buyer is a retailer and you are making a sale in a quantity of less than 20,000 pounds delivered at his retail premises, or if the buyer is a planter and you are making a sale in quantities of 1000 pounds or more, your maximum price for the sale or delivery of certified seed potatoes or war approved seed potatoes will be the appropriate base price in Appendix A for the kind of seed potatoes you are selling plus your transportation cost, if any, from your nearest shipping point if delivered by common carrier or from the farm where grown if delivered by other than common carrier to the buyer's receiving point, plus \$0.74 per 100 pounds.

(b) *Carlot distributor.* If you are a carlot distributor your maximum price for the sale or delivery of certified seed potatoes or war approved seed potatoes shall be the appropriate base price in Appendix A for the kind of seed potatoes you are selling, plus transportation cost on the lot in question, and plus \$0.20 per 100 pounds.

(c) *Wholesaler.* If you are a wholesaler your maximum price for the sale and delivery of certified seed potatoes or war approved seed potatoes shall be the appropriate base price in Appendix A for the kind of seed potatoes you are selling, plus transportation cost except local delivery costs on the lot in question and plus \$0.74 per 100 pounds.

(d) *Retailer.* If you are a retailer your maximum price for the sale or delivery of certified seed potatoes or war approved seed potatoes shall be the appropriate base price in Appendix A for the kind of seed potatoes you are selling, plus transportation cost on the lot in question, and plus the applicable markup shown in subparagraph (1) or (2) below:

(1) \$1.25 per 100 pounds for sales in lots of 100 up to 1000 pounds; and
 (2) \$0.02¼ per pound for sales in lots of less than 100 pounds.

(e) *Sellers not specifically named in this regulation.* The maximum price for the sale or delivery of certified seed potatoes or war approved seed potatoes by any seller not specifically provided for in this regulation shall be the maximum price which he could lawfully have paid the person from whom he obtained the seed potatoes in question.

CENTRAL DESK MFG. CO.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 66 under Second Revised Order No. A-3 under § 1499.159b of Maximum Price Regulation No. 183 is revised to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register; and pursuant to Second Revised Or-

der No. A-3 under § 1499.159b of Maximum Price Regulation No. 188, it is ordered:

(a) *Manufacturer's maximum prices.* Central Desk Manufacturing Company, of 454 Armour Street, Chicago 22, Illinois, may sell and deliver the wood office desks and tables, which it manufactures, and which are described in the manufacturer's application, dated October 21, 1944; at prices no higher than its maximum prices in effect immediately prior to December 16, 1944, plus an adjustment charge of four percent of each such maximum price.

On all sales other than sales to ultimate consumers, the adjustment charge provided herein may be made and collected only if stated separately on each invoice.

The maximum prices of the manufacturer, as adjusted, are subject to its customary terms, discounts, allowances and other price differentials in effect during March, 1942, on sales to each class of purchaser.

(b) *Maximum prices of purchasers for resale.* A person who hereafter buys an article covered by this order and resells it in substantially the same form, may collect from his customer, in addition to his properly established maximum price in effect immediately before December 16, 1944, an adjustment charge in the same amount as the adjustment charge herein authorized and which he pays to his supplier. If he did not have a maximum price in effect for the article on December 16, 1944, he may add the same adjustment charge to the maximum price which he has established or hereafter establishes for his sales under the applicable regulation after that date. If the applicable regulation requires the maximum resale price to be computed on the basis of cost, the reseller must find his maximum resale price (not including the permitted adjustment charge) by using as cost his invoice cost less any adjustment charge stated on the invoice as a separate amount.

On all sales other than sales to the ultimate consumer this adjustment charge may be made and collected only if it is separately stated on each invoice. The adjusted price is subject to each seller's customary terms, discounts, and allowances on sales of the same or similar articles.

(c) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the article covered by this order. This notice may be given in any convenient form.

(d) This order may be revoked or amended by the Price Administrator at any time.

(e) This order shall become effective on August 14, 1945.

Issued this 13th day of August 1945.

Administrator.

(1) *Bushel baskets.* The maximum price shall be ⅝ of the price computed under paragraph (d) on the standard box containing 1½ bushels. If the packer did not pack in standard boxes during March 1942, but packed in Bruce boxes during that month, his maximum price shall be ⅝ of the price computed under paragraph (d) on the Bruce box containing 1½ bushels.

(2) *Bags.* The maximum price per bag shall be computed by dividing the price established in paragraph (d) on the standard box containing 1½ bushels by 2 for ½ box, by 4 for 20 lb. bags, by 8 for 10 lb. bags, by 10 for 8 lb. bags, and by 16 for 5 lb. bags. If the packer did not pack in standard boxes during March 1942, his maximum price shall be computed by dividing the price established in paragraph (d) on the Bruce box containing 1½ bushels, in the same manner provided in the preceding sentence.

(g) *Packing house first supplied service after March 1942 and before September 1944.* On and after the effective date of this order, notwithstanding any other provision of this order, any seller, who did not sell, or offer to sell such services during March 1942, and who began to sell, or offer to sell, such services before September 1, 1944, shall take as his own maximum prices for such services the maximum prices established under this order for his "closest competitor" (as that term is defined in Revised Maximum Price Regulation No. 165).

(h) *Other pricing provisions.* Any seller who for any reason cannot determine a maximum price under the provisions of the preceding paragraphs (c), (d), (e), or (f), shall apply to the Atlanta Regional Office of the Office of Price Administration for the determination of such maximum price under the provisions of section 5 of Revised Maximum Price Regulation No. 165. (1) The following are some, but not all, of the reasons for inability of a seller to price under paragraphs (c), (d), (e), and (f).

(i) During March 1942 the seller furnished containers when rendering citrus fruit packing services, and he now desires to discontinue the furnishing of such containers.

(ii) During March 1942 the seller did not furnish containers when rendering citrus fruit packing services, and he now desires to furnish such containers.

(iii) The seller did not sell or offer to sell citrus fruit packing services during March 1942, and began to sell, or desire to begin to sell, such service on or after September 1, 1944.

(1) *Less than maximum prices.* Less than maximum prices may be charged or offered at any time.

(j) *Definitions.*—(1) *Citrus fruit packing services.* Citrus fruit packing services include (but are not limited to) the receiving of citrus fruit at the platform of the packer, the processing of this fruit for packing, washing, crating and packing into separate containers, and the placing of the fruit on the shipping platform of the packing establishment. The term shall also include in addition to these services any other service customarily performed by the particular seller during March, 1942 as a part of, or in connection with, the services set forth above.

(2) *Direct labor costs.* Direct labor costs include all costs incurred for labor handling fruit and containers in a packing house, such as labor engaged in receiving, shipping, dumping, packing, making boxes, working on the floor, grading, stamping, checking, tallying, and loading. Direct labor costs do not include expenses incurred in administration, supervision, or general plant maintenance.

(3) *Direct material costs.* Direct material costs include the costs of items which form a part of the finished product, such as boxes, bags, baskets, nails, coloring, and labels including incoming freight or express on these items, but in no case shall such costs be included if the materials are not purchased from a customary source of supply or if they are purchased at prices in excess of the supplier's applicable maximum prices.

(4) Except as otherwise provided herein, and unless the context otherwise requires, the definitions set forth in Revised Maximum Price Regulation No. 165 shall be applicable to the terms used herein.

(k) *Discounts.* Each seller must continue all discounts, allowances, purchaser classifications, and other price differentials in accordance with the provisions of Revised Maximum Price Regulation No. 165.

(l) *Applicability of Revised Maximum Price Regulation No. 165.* Except as otherwise provided herein, all transactions subject to this order shall remain subject to all provisions of Revised Maximum Price Regulation No. 165, together with all amendments, orders, and supplementary service regulations which heretofore have been, or hereafter may be, issued.

(m) *Relationship between this order and other orders.* Since this Order No. G-3 under Revised Supplementary Service Regulation No. 43 to Revised Maxi-

mum Price Regulation No. 165 supersedes Order No. G-1 under Maximum Price Regulation No. 165 issued by the Atlanta Regional Office of the Office of Price Administration and all amendments thereto, said Order No. G-1, as amended, is hereby revoked, as of the effective date hereof.

(n) *Revocation and amendment.* This order may be revoked, amended, or corrected at any time.

(o) *Effective date.* This order shall become effective August 1, 1945, and shall expire 90 days after the date of issuance.

Issued: July 31, 1945.

Regional Administrator.
