order, and upon other available information, it is hereby found that the limitation of shipments of fresh cauliflower, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., m. s. t., August 10, 1947, and ending at 12:01 a. m., m. s. t., October 16, 1947, no handler shall handle any lot of fresh cauliflower except cauliflower that meets the requirements of U. S. No. 1 Grade, as such grade is defined in the U. S. Standards for Cauliflower, issued by the United States Department of Agriculture, effective August 7, 1939, and that meets the following specifications: (i) The size shall be fairly uniform and shall be that which will pack not more than 12 nor less than 11 heads in a crate having inside dimensions of 8½" x 17½" x 21½" and (ii) each of such heads shall have an average diameter, exclusive of jacket leaves, of not less than 4 inches, and heads shall be packed at least fairly tight in the crate.

(2) As used in this section, the term "fairly uniform" means that the average diameters, exclusive of jacket leaves, of the several cauliflower heads contained in any crate of the inside dimensions mentioned above do not vary more than two (2) inches.

(3) As used in this section, the term "fairly tight" means that the cauliflower

heads, when packed in a crate of the inside dimensions mentioned above, will have no more than a slight movement in such crate, but not so much that there will be any injury under ordinary handling conditions, and will not be loose enough to permit the addition of another head.

(4) As used in this section, the terms "cauliflower," "handler," and "handle" shall have the same meaning as when used in the amended marketing agreement and order. (49 Stat. 753, 50 Stat. 246; 7 U. S. C. 608c; 7 CFR Cum. Supp. 910.7)

TITLE 14—CIVIL AVIATION**Chapter I—Civil Aeronautics Board**

[Civil Air Regs., Amdt. 41-8]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE CONTINENTAL LIMITS OF UNITED STATES**FLIGHT NAVIGATOR CERTIFICATES**

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 1st day of August 1947.

The purpose of this amendment is to provide an effective date after which all air carrier flight navigators must be certificated.

Part 34, Flight Navigator Certificates, becomes effective on August 1, 1947. Inasmuch as it will require a period of several months for the Administrator to prepare and process the necessary examinations, and for navigators in various localities to take these examinations, it is necessary to postpone until November 15, 1947, the date after which all air carrier flight navigators must be certificated.

This amendment provides for an additional period of time for the accomplishment of the certification of air carrier flight navigators. The amendment relieves restrictions and, therefore, publication required by section 4 (c) of the Administrative Procedure Act is unnecessary.

Effective August 1, 1947, § 41.330 of the Civil Air Regulations is amended to read as follows:

§ 41.330 *When required.* In all operations where celestial navigation is necessary, either as a primary or secondary means of navigation, at least one member of the flight crew must on and after November 15, 1947, hold a flight navigator certificate issued in accordance with the provisions of Part 34. (52 Stat. 984, 1007; 49 U. S. C. 425, 551)

By the Civil Aeronautics Board.

If a parcel containing such articles is mailed uninsured it shall be placed under insurance by the post office which first observes the fact of its having been mailed uninsured, and treated accordingly. Attention is called to the fact that coin exceeding \$5 in value (except with a declaration indicating that they are intended to serve as ornaments), as well as gold in ingots of a value higher than \$5 and silver in ingots or silver partially worked of a value higher than \$20, are prohibited, even in insured parcels.

Parcels containing any other articles of gold or silver, jewelry, or any other precious object exceeding \$100 in value shall be packed in a box, measuring not less than 3 feet 6 inches in length and girth combined.

For further information concerning insurance, see sections 102 and 108.

Observations. The names of the county and the delivering office must form a part of the address of all mail articles. See Regular mail "Observations" for names of counties comprising Eire.

The declaration should show as regards each article enclosed in the parcel: (a) The value, (b) the gross weight, (c) the net weight, and (d) the name of the country of origin. When the contents are composed of different kinds of articles, the exact quantity and value of each kind must be stated, as well as a description of the material of which the articles are composed; the number and size of each internal container being likewise given. As regards books, the following particulars are required: (a) The language in which the book is written, (b) whether

it is a novel or otherwise, (c) the nature of the binding (leather, imitation leather, etc.), and (d) whether the book is newly published or has been in use already.

Typewriter carbon paper must have the following statement by the sender on the customs declaration: "Typewriter carbon paper coated with wax and containing no oxidizable oily or fatty substance."

In the case of articles liable to customs duty which are eligible for preference, the preferential tariff will not be applied unless the customs declaration is inscribed in bold characters: "Preference claimed—Certificate of origin enclosed." Otherwise, the full customs duties will be applied to the articles.

The same applies to goods imported under permit, unless the declaration is clearly marked "Imported under license," and unless the relative license is produced at the time of customs examination. In such cases the license should be procured before the goods are imported.

If there is not sufficient space on the customs declaration to indicate fully all necessary particulars, such details may be written on the cover of the parcel. Reference should, however, be made to this fact on the customs declaration itself.

Parcels containing goods which are liable to ad valorem duty on importation into Eire (e. g., boots or shoes, articles of personal clothing, other articles of personal, domestic or household use made of woven material, woven or knitted piece goods, clocks or watches, automobile parts or accessories, etc.) should, if exported on sale, be accompanied in all cases by the invoice or, if the original invoice has been forwarded separately to the addressee of the parcel, by a true copy thereof. Private parcels containing such goods of a value of £5 or over should be accompanied by any documentary evidence available.

Invoices may be inclosed in parcels on the condition that the fact is mentioned on the customs declaration.

Original certificates concerning living plants should be addressed to the Secretary, Department of Agriculture, Dublin, before the parcel itself is mailed. A copy of the certificate should be attached to the parcel.

Other certificates, permits to import, etc., may be inserted in the packets or attached thereto.

The following charges are levied: (a) A minimum customs duty of 60 cents on every single class of dutiable goods contained in one packet or parcel, (b) a delivery fee of 12 cents on every parcel liable to customs duty.

Cinematograph films must be well packed in a tin case inclosed in a strong wooden box, and if the lid or bottom or any of the sides of the box are composed of more than one piece of wood, they must be tongued and grooved. A lining of suitable material must be placed between the upper edges of the box and lid, and the lid must be firmly screwed down. A white label bearing the word "Films" in plain black letters must be affixed to the packet.

The use of hay and straw of any description as packing for parcels (including straw envelopes used in wrapping bottles) is forbidden.

Addressees of gift parcels must procure "Duty Free" licenses to import before delivery of the parcels. However, as the senders are under no obligation with respect to the procuring or production of such licenses, gift parcels addressed to persons in Eire may be accepted for mailing without the production of import licenses by the senders.

TITLE 46—SHIPPING

Chapter I—Coast Guard: Inspection and Navigation

Subchapter N—Explosives or Other Dangerous Articles or Substances, and Combustible Liquids on Board Vessels

[CGFR 47-40]

PART 146—TRANSPORTATION OR STORAGE OF EXPLOSIVES OR OTHER DANGEROUS ARTICLES OR SUBSTANCES, AND COMBUSTIBLE LIQUIDS ON BOARD VESSELS

AMMONIUM NITRATE

By virtue of the authority vested in me by R. S. 4472, as amended (46 U. S. C. 170) and section 101 of Reorganization Plan No. 3 of 1946 (11 F. R. 7875) I find that an emergency exists and the following amendment to the regulations governing explosives or other dangerous articles on board vessels shall be made effective on the date of publication of this document in the FEDERAL REGISTER. This amendment to regulations governing the transportation of explosives or other dangerous articles on board vessels is published without prior general notice of its proposed issuance for the reason that notice, public rule making procedure and effective date requirements in connection therewith are hereby found to be impracticable and contrary to the public interest. This extreme emergency is due to the dangerous character of ammonium nitrate as evidenced by the two ships which exploded at Texas City and the ship that exploded at Brest, France, all of which had ammonium nitrate fertilizer cargo on board.

Part 146 is amended by the addition of the following section:

§ 146.22-9 *Authorization to load or discharge ammonium nitrate.* (a) Shipments of ammonium nitrate or ammonium nitrate fertilizer in amounts exceeding 500 pounds shall not be laden on or discharged from any vessel at any point or place in the United States, its territories or possessions, not including the Panama Canal Zone, until authorization for such loading or discharging has been obtained by the owner, agent, charterer, master, or person in charge of the vessel from the District Commander or other officer of the Coast Guard designated by the Commandant of the Coast Guard for such purpose.

(b) Before such permit is issued the District Commander shall ascertain where it is proposed to load or unload the ammonium nitrate or ammonium nitrate fertilizer. If the District Commander finds that the proposed facility at which the vessel is to load or unload is in a congested area of the port, he shall withhold the issuance of a permit until the vessel secures the use of a facility in an area so remotely situated from populous centers that in the event of fire or explosion, loss of lives and property may be minimized. When the District Commander finds that the proposed facility is in a remote area, he is directed to make the use of such a facility a condition of the permit. The District Commander shall in the issuance of the permit observe the provision of § 146.01-12. (R. S. 4472, as amended; 46 U. S. C. 170; sec. 101, Reorganization Plan No. 3 of 1946, 11 F. R. 7875)

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Order 130-P]

PART 12—AMATEUR RADIO SERVICE

CANCELLATION AND SUPERSEURE OF PREVIOUS ORDERS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 1st day of August 1947;

The Commission having under consideration the following matters: (1) the recent allocations of frequencies to the Amateur Radio Service, and particularly its order dated May 15, 1947, and effective June 23, 1947, allocating to the Amateur Radio Service the frequency band 5650 to 5925 Mc. in lieu of the band 5650 to 5850 Mc., subject to interference from industrial, scientific, and medical devices in the frequency band 5775 to 5925 Mc. and (2) the use of narrow band frequency or phase modulation for radiotelephone communication in certain amateur frequency bands for a temporary experimental period; and

It appearing, that the Commission's Order No. 130-L, dated January 2, 1947,

as amended by Orders 130-M, N, and O, is inconsistent with the frequency allocations in the order of May 15, 1947, and made effective June 23, 1947; and

It further appearing, that it is desirable for public convenience to correlate the above-mentioned effective changes in amateur frequency allocation with the previous Commission orders of the 130 series, and to combine in a single order all of the frequency bands and approved types of emissions available for operation in the Amateur Radio Service; and

It further appearing, that the use of narrow band frequency or phase modulation for radiotelephone communication in the amateur frequency bands 3850 to 3900 kc, 14200 to 14250 kc, 28.5 to 29.0 Mc., and 51.0 to 52.5 Mc. will facilitate the development of narrow band frequency modulation techniques, which may prove of value to other services, and will aid in the elimination of interference to broadcast reception as well as having other advantages in the public interest; and

It further appearing, that since the frequency allocations described above are already in effect, and the permission for narrow band FM operation constitutes the removal of a restriction under authority contained in section 303 (c) (g) and (r) of the Communications Act of 1934, as amended, general notice of proposed rule making is not required under authority of section 4 of the Administrative Procedure Act;

It is ordered, That the previous orders in the 130 series be cancelled and superseded by this order, as follows:

A. The following frequency bands and types of emission are available for use for amateur station operation, subject to the limitations and restrictions set forth herein:

(1) 3500 to 4000 kc. Use of this band is restricted to amateur radio stations as follows:

(a) 3500 to 4000 kc, using type A1 emission, to those stations located within the continental limits of the United States, the Territories of Alaska and Hawaii, Puerto Rico, the Virgin Islands and all United States possessions lying west of the Territory of Hawaii to 170° west longitude.

(b) 3850 to 4000 kc, using type A3 emission, to those stations located within the continental limits of the United States, the Territories of Alaska and Hawaii, Puerto Rico, the Virgin Islands and all United States possessions lying west of the Territory of Hawaii to 170° west longitude, subject to the further restriction that type A3 emission may be used only by an amateur station which is licensed to an amateur operator holding Class A privileges and then only when operated and controlled by an amateur operator holding Class A privileges.

(2) 7000 to 7300 kc, using type A1 emission.

(3) 14000 to 14400 kc, using type A1 emission, and, on frequencies 14200 to 14300 kc, type A3 emission, subject to the restriction that type A3 emission may be used only by an amateur station which is licensed to an amateur operator holding Class A privileges and then only when operated and controlled by an

amateur operator holding Class A privileges.

(4) 27.160 to 27.430 Mc, using types A0, A1, A2, A3, and A4 emissions and also special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques) subject to such interference as may result from the emissions of industrial, scientific and medical devices on the frequency 27.320 Mc.

(5) 28.0 to 29.7 Mc, using type A1 emission, and on frequencies 28.5 to 29.7 Mc, using type A3 emission, and on frequencies 29.0 to 29.7 Mc, using special emission for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques)

(6) 50.0 to 54.0 Mc, using types A1, A2, A3, and A4 emissions and, on frequencies 52.5 to 54.0 Mc, special emission for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques)

(7) 144 to 148 Mc, using types A0, A1, A2, A3, and A4 emissions and special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques)

(8) 235 to 240 Mc, using types A0, A1, A2, A3, and A4 emissions, and special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques)

(9) 420 to 450 Mc, using types A0, A1, A2, A3, A4, and A5 emissions and special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques) Peak antenna power shall not exceed 50 watts in order to minimize interference to aircraft altimeters temporarily allocated to this band.

(10) 1215 to 1295 Mc, 2300 to 2450 Mc, 3300 to 3500 Mc, 5650 to 5925 Mc, 10,000 to 10,500 Mc, 21,000 to 22,000 Mc, and any frequency or frequencies above 30,000 Mc, using on these frequencies types A0, A1, A2, A3, A4, A5 and special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques), and pulse emissions. Operations in the frequency bands 2300 to 2450 Mc and 5650 to 5925 Mc are subject to such interference between 2400 and 2450 Mc and between 5775 and 5925 Mc, respectively, as may result from emissions of industrial, scientific and medical devices on the frequencies 2450 and 5850 Mc, respectively.

B. In addition to the types of emission available in paragraph A above, narrow band frequency or phase modulation may be used by certain amateur stations for radiotelephone communication until further order of the Commission, but in no event beyond August 1, 1948, as follows:

(1) Amateur stations licensed to and operated by Class A amateur operators in

the frequency bands 3850 to 3900 kc and 14200 to 14250 kc;

(2) Amateur stations licensed to and operated by all classes of amateur operators in the frequency bands 28.5 to 29.0 Mc and 51.0 to 52.5 Mc.

This authorization is subject to the conditions that the band-width of the modulated carrier shall not exceed the band-width occupied by an amplitude-modulated carrier of the same audio characteristics, and that the purity and stability of such emissions shall be maintained in accordance with the requirements of §12.133 of the Commission's Rules Governing the Amateur Radio Service.

C. No frequencies or types of emission other than those assigned in this order shall be used for amateur operation.

(Sec. 303 (b) 48 Stat. 1082, 303 (c) 48 Stat. 1082, 303 (r), 50 Stat. 191; 47 U. S. C. 303 (b) 303 (c) 303 (r))

By the Commission.

Released: August 4, 1947.

Secretary.

(f) *Suspension.* The Business Committee may suspend a member of the Board at any time for cause, notice of which shall be given to the member in writing. A suspended member shall have no authority to act for or on the Board during a period of suspension. In case more than one member has been suspended by the Business Committee at a particular time, or if the Commissioner has suspended all powers of the Board, the Superintendent may exercise such functions of the Board as may be necessary to protect the funds loaned, but new loans may not be made during such period.

Each application shall indicate the purposes for which the loan is to be used, the period of the loan, the rate of interest and amount of service fees to be paid, the security to be given, and the procedures to be followed in handling and repaying the loan.

§ 28.6 *Purpose of loans.* Loans may be made for any purpose authorized by section 2 of the act of August 28, 1937 (50 Stat. 872; 25 U. S. C. 531)

§ 28.7 *Approval of loans.* Loan agreements must be executed on a form approved by the Commissioner.

(b) *Approval by Board.* Except as otherwise indicated in these regulations, the Board shall have authority to approve loans where the applicant's total indebtedness to the fund will not exceed \$2,000.

(c) *Approval by Superintendent.* Except as otherwise indicated in the regulations in this part, loans acted upon favorably by the Board, where the applicant's total indebtedness to the fund will exceed \$2,000 but not to exceed \$3,000, may be approved by the Superintendent.

(d) *Approval by District Director* Except as otherwise indicated in the regulations in this part, loans acted upon favorably by the Board where the applicant's indebtedness to the fund will exceed \$3,000 but not exceed \$5,000, may be approved by the District Director. Loans to cooperatives; loans for the purchase of livestock, equipment, or machinery with maturities exceeding six years; loans with maturities exceeding ten years; educational loans; and loans to individuals who are Government employees shall require approval of the District Director regardless of amount. Burial loans in excess of \$500; emergency loans in excess of \$500 to applicants who do not have security adequate to protect the loans; and loans for maintenance and support of aged, infirm, or incapacitated members in excess of \$500 shall also require approval of the District Director.

(e) *Approval by Commissioner* All loans in excess of \$5,000 shall require approval by the Commissioner.

(f) *Restrictions on approval.* Loans shall not be approved for less than \$25. Any loans to borrowers who are delinquent in payment of previous indebtedness to the fund shall require the approval of the Business Committee in addition to the approvals set forth in other sections of the regulations in this part. Not more than two loan agreements may be in effect with the same borrower at the same time. Only joint loans may be made to a husband and wife who are both eligible for loans, and any existing loan to either spouse shall be consolidated with such loan.

(g) *Amount of loans.* The amounts set forth in the regulations in this part refer to the total amounts of loans, regardless of whether they are joint or partnership loans.

(h) *Modifications.* Modifications of loan agreements involving the extension of the terms of repayment shall require approval of the District Director. Other modifications shall be handled through the same channels as the original applications, except that the District Director may approve modifications of loan agreements approved originally by the Commissioner in cases in which the amounts of the loans are not increased.

§ 28.8 *Interest and service fees.* Borrowers shall pay 3 percent interest annually on the basis of 360 days per annum, from the date the funds are advanced on the loan until they are repaid. No interest shall, however, be charged on educational loans. Except on loans for educational purposes, and loans for the maintenance and support of aged, infirm, and incapacitated members, service fees may be charged on loans. A schedule of service fees shall be established by the Business Committee, provided that such fees shall not exceed the amounts set forth in the following table:

Loans of \$500 or less:	
5 percent of the amount of the loan.	
Over \$500 but not over \$1,000:	\$25 plus 4 percent of amount over \$500.
Over \$1,000 but not over \$1,500:	\$45 plus 3 percent of amount over \$1,000.
Over \$1,500 but not over \$2,000:	\$60 plus 2 percent of amount over \$1,500.
Over \$2,000:	\$70 plus 1 percent of amount over \$2,000.

§ 28.9 *Records and reports.* The Board shall keep records and accounts and make signed reports as directed by the Commissioner. Borrowers shall be required to furnish such information as the duly authorized representative of the Commissioner, the Board, or the Business Committee may deem necessary to provide proper information regarding the status of loans.

§ 28.10 *Maturity.* The period of maturity of loans shall be determined according to the circumstances. Crop loans, and loans for the purchase of non-recoverable items, shall not be made with maturities exceeding one year, except when the loans are for enterprises from which insufficient income will be received the first year to repay the loan in full.

§ 28.11 *Security.* Borrowers shall furnish security, if available, up to an amount adequate to protect the loan. Securing papers shall be filed in accordance with State laws, except that liens on trust property other than crops, and assignments of income from trust property may be filed in the Klamath Agency office. If authorized by the Board, filing costs may be paid as an administrative expense of the Board.

§ 28.12 *Title to property.* Unless otherwise provided in the borrower's loan agreement, title to all property purchased with loans shall be taken in the name of the United States in trust for the Klamath Tribes.

§ 28.13 *Insurance.* Buildings with a total value of \$500 or more purchased with or constructed with the proceeds of loans, or pledged as security for loans, shall be insured against loss by fire. Borrowers may be required to insure other property given as security, or purchased with borrowed funds, against loss by fire or other cause.

§ 28.14 *Penalties on default.* Unless the loan agreement otherwise provides, failure on the part of any borrower to conform to the terms of the loan agreement, or to make every honest effort to continue operations successfully, will be deemed grounds for any one or all of the following steps to be taken at the option of the Board: (a) Discontinue any further advances of funds contemplated by the loan agreement; (b) take possession of any or all collateral given as security and the property purchased with borrowed funds; (c) prosecute legal action against the borrower, or against officers of cooperative associations; (d) declare the entire amount advanced immediately due and payable; (e) prevent further disbursements of borrowed funds under the control of the borrower; (f) in the case of cooperative associations, liquidate or operate, or arrange for the operation of the association until its indebtedness is paid, or until the Board has received acceptable assurance of its repayment and of compliance with the loan agreement.

In the event the Board fails to take action which the Superintendent deems necessary to protect a loan, the Superintendent shall advise the Business Committee in writing of the failure of the Board to act, and state whatever action he deems necessary. The Business Committee may then take any of the steps set forth in this section which the Board could have taken.

§ 28.15 *Assignment.* The Board may not assign any loan agreement or any interest therein to a third party, discount paper or borrow money, without the approval of the Commissioner.

§ 28.16 *Repayments.* Repayments on loans shall be made to the bonded Government disbursing agent or his authorized representative, who shall issue an official receipt therefor.

§ 28.17 *Deceased borrowers.* The Board shall take all steps necessary to safeguard property purchased with or given as security for loans by deceased borrowers, until the loans are paid in full, or until the indebtedness is assumed by heirs or other parties in accordance with instructions of the Commissioner.

§ 28.18 *Responsibility of superintendent.* The Superintendent shall advise the Business Committee in writing of any loans approved by the Board in violation of the regulations in this part. No disbursements shall be made by the Superintendent on such loans. The Superintendent shall also advise the Business Committee in writing of any loans approved by the Board which are believed by him to be unsound, and he may withhold disbursements on such loans until they receive the approval of the Business Committee. The Superintendent shall report to the Business Com-

mittee any borrowers who are delinquent in payment of either principal or interest on their loans for a period longer than thirty days. The Business Committee shall advise the Board of the action which it deems necessary to protect the loan. In the event the Board fails to take such action within ten days, the Business Committee may act.

§ 28.19 *Repeal.* Sections 28.20 to 28.57, inclusive, of this part of 25 CFR, approved by the Secretary December 4, 1937, as amended August 23, 1938, November 18, 1938, July 24, 1940, and July 28, 1944, are hereby repealed.

[21 CFR, Part 361]

[Docket No. FDC-49]

STANDARDS OF FILL OF CONTAINER FOR CANNED SHRIMP

NOTICE OF PROPOSED RULE MAKING

It is proposed that, by virtue of the authority vested in the Federal Security Administrator by the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055; 21 U. S. C. 341, 371) and on the basis of the evidence received at the above-entitled hearing duly held pursuant to notice issued on June 6, 1947 (12 F. R. 3725-3726) the following order be made:

Findings of fact. 1. By order published in the FEDERAL REGISTER of July 2, 1942 (7 F. R. 4944) standards of fill of container were promulgated for canned-wet pack shrimp and canned dry pack shrimp in nontransparent containers. The effective date of the order was August 1, 1942, and since that date nearly all of the canned shrimp in nontransparent containers produced in the United States has been packed in compliance with these standards of fill of container. (R. 10, 91, 100-101; Ex. 7) ¹

2. The change from the lower fills which were used prior to the promulgation of these standards of fill of container made it necessary for canners to exercise more careful control at certain stages of the canning process. More care was necessary in packing the shrimp into the cans and additional precautions were necessary to prevent shrimp spilling from cans before sealing. The exercise of these additional precautions placed no unreasonable burden on the canners of shrimp. (R. 15-17, 33, 45, 56-57, 59, 61-62, 77, 115-117, 119-120, 127, 134-135)

3. The probability of an increase in breakage in the closure of cans during and after processing, as a result of compliance with the present requirements, was advanced at the hearing on July 8, 1947, as a reason for reducing the requirement as to fill. The causes of such difficulties are directly related to the structure of the cans used and to lack of proper control of canning operations, particularly the head-space of the can and the temperature of its contents when it is closed. (R. 10-12, 29-30, 35-36, 39-40, 45, 61-62, 65-67, 77, 79-80, 120, 133-134, 141)

4. Canners of shrimp presented at this hearing certain reasons for objecting to the present requirements of fill of container in addition to increased manufacturing difficulties. These included an increased tendency for struvite crystals (referred to in exhibits 3 and 6 as phosphate crystals) to form when canned shrimp is held after canning, lowering of keeping quality caused by the longer time of processing used with the present fill, a tendency for shrimp in some cans to stick together, and an increase in the number

¹The citations following each finding of fact refer to the pages of the transcript of the testimony and the exhibits received in evidence at the hearing which are the basis for these findings.

of broken and twisted shrimp. (R. 12, 15, 43, 45, 51-52, 61-62, 74-75, 77, 96, 121-122; Exs. 3, 4, 6)

5. For many years it has been observed that small glass-like crystals of the compound struvite (magnesium ammonium phosphate) will develop in an occasional can of shrimp. This is objectionable, since uninformed consumers sometimes mistake the crystals for particles of glass. The cause of the formation of these crystals is not known. There is some indication of an increase in the occurrence of struvite crystals in canned wet pack shrimp after the promulgation of the present standards. No relationship between the incidence of struvite crystals and the drained weight of shrimp has been established. (R. 12-14, 30-32, 37, 45, 52, 67-70, 74-75, 77, 80-81, 82-87, 89, 102-108, 125-126, 139; Exs. 3, 6, 9)

6. Apprehension was expressed that the longer processing time now used would render the shrimp somewhat softer when held for an extended period, unless they were held in cold storage. There is insufficient evidence to show that any increase in softening of shrimp packed under the present standard is of significance to consumers. Nor is the evidence sufficient to show whether the hazards of holding canned shrimp from one season to another have been increased by the longer processing time now employed. (R. 50-52, 58, 64-65, 73-74, 77, 79, 100-101, 122-129, 135-136; Ex. 9)

7. Sometimes the shrimp in cans of wet pack shrimp stick together and at times one or more shrimp is broken. This happened to a lesser extent when cans contained less shrimp. No impair-

ment of quality of any significance has resulted from the fill now required. (R. 15, 43, 45, 77, 100-101, 107, 121-122, 124, 127; Ex. 9)

8. Sales of canned shrimp have been slow due to high prices. It is the opinion of many dealers that sales would be facilitated if canned shrimp were available in a smaller quantity than 7 ounces, the weight of shrimp in the No. 1 can wet pack. This was the smallest can permitted until recently under requirements of the wartime tin conservation order. During the last few months some canners have packed shrimp in smaller cans. There was some evidence that certain of these smaller cans are not of a size well adapted to the packing of large and extra large shrimp. However, there is no evidence indicating that there should be established a standard of fill of container for large and extra large shrimp different from the standard of fill of container for medium and small shrimp. (R. 17-25, 45, 49, 77, 93, 99-100, 104, 107, 116-117, 119-120, 131-133; Exs. 4, 8, 9)

Conclusions. On the basis of the foregoing findings of fact it is concluded that:

(a) Reducing the standard of fill of container for wet pack shrimp would result in the replacement of shrimp with brine. The reduction of the standard of fill of container for dry pack shrimp would result in omitting from the can shrimp that could be contained therein. In both instances the size of the cans would inaccurately reflect the amount of shrimp contained therein, particularly because consumers of canned shrimp have been receiving well-filled cans for about five years.

(b) It would not promote honesty and fair dealing in the interest of consumers to reduce the requirements of cut-out weight in the standards of fill of container for canned wet pack shrimp and canned dry pack shrimp in nontransparent containers.

Wherefore, *It is ordered*, That the regulations promulgated July 2, 1942 (7 F. R. 4944) fixing and establishing standards of fill of container for canned wet pack shrimp and canned dry pack shrimp, in nontransparent containers, be not amended to provide for reduction in the requirement for cut-out weight.

Any interested person whose appearance was filed at the hearing may, within 20 days from the date of publication of this order in the FEDERAL REGISTER, file with the Hearing Clerk of the Federal Security Agency, Office of the General Counsel, Room 3255 Federal Security Building, 4th Street and Independence Avenue SW., Washington, D. C., written exceptions thereto. Exceptions shall point out with particularity the alleged errors in the order, and shall contain specific references to the pages of the transcript of the testimony or to the exhibits on which each exception is based. Such exceptions may be accompanied with a memorandum or brief in support thereof. Exceptions and accompanying memoranda or briefs should be submitted in quintuplicate.

Dated: August 7, 1947.
