#### PANAMA CANAL TOLL RATES

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA  
A PROCLAMATION

WHEREAS section 411 of title 2 of the Canal Zone Code, approved June 19, 1934, authorizes the President to prescribe and from time to time change the tolls that shall be levied by the Government of the United States for the use of the Panama Canal, and provides that no tolls when so prescribed shall be changed unless six months' notice thereof is given by the President by proclamation; and

WHEREAS section 412 of title 2 of the said Code, as amended by the act of August 24, 1937, 50 Stat. 790 (48 U. S. C. 1315) provides, in part, that the tonnage on which tolls shall be based shall be determined in accordance with the Rules for the Measurement of Vessels for the Panama Canal prescribed by the President, and fixes maximum and minimum rates of toll; and

WHEREAS it appears that the tolls prescribed by Proclamation No. 2247 of August 25, 1937, as amended by Proclamation No. 2249 of August 31, 1937, and now in effect should be increased and should be as hereinafter prescribed:

NOW THEREFORE, I, HARRY S. 1. On merchant vessels, army and navy transports, colliers, hospital ships, supply ships, and yachts, when carrying passengers or cargo, one dollar (\$1.00) per net vessel-ton of 100 cubic feet each of actual earning capacity—that is, the net tonnage determined in accordance with the Rules for the Measurement of Vessels for the Panama Canal.

2. On vessels in ballast without passengers or cargo, eighty (80) cents per net vessel-ton.

3. On other floating craft, including warships other than transports, colliers, hospital ships, and supply ships, fifty-five (55) cents per ton of displacement.

**PART 102—AGRICULTURAL ENTRIES ON MINERAL LANDS**

The following text is substituted for §§ 102.34 to 102.42, inclusive:

Sec.

102.34 Disposition of surface discretionary as to lands embraced in mineral permits and leases or classified, withdrawn, or reported as valuable for any mineral subject to lease.

102.35 Definition of prior mineral claim.

102.36 Notation in notice of allowance of nonmineral application.

102.37 Notation on final certificate and patent.

102.38 Compensation for damages by mineral claimant.

AUTHORITY: §§ 102.34 to 102.38, inclusive, issued under R. S. 453, 2478; 41 Stat. 450; 43 U. S. C. 2, 1201, 30 U. S. C. 189.

§ 102.34 *Disposition of surface discretionary as to lands embraced in mineral permits and leases or classified, withdrawn, or reported as valuable for any mineral subject to lease.* Section 29 of the Mineral Leasing Act of February 25, 1920 (41 Stat. 449; 30 U. S. C. 186) and the act of March 4, 1933 (47 Stat. 1570; 30 U. S. C. 124) grant the Secretary of the Interior complete discretion to determine whether the surface of public lands embraced in mineral permits or leases, or in applications for such permits or leases, or classified, withdrawn, or reported as valuable for any leaseable mineral, or lying within the geologic structure of a field, should be disposed of. Accordingly, where a nonmineral application is filed, in the continental United States,<sup>1</sup> for any of such described lands, the nonmineral application may be allowed only if it is determined by the Director, Bureau of Land Management, with the concurrence of the Director, Geological Survey, that the disposal of the lands under the nonmineral applica-

<sup>1</sup> Sections 102.34 to 102.38, inclusive, apply to all public land States, including, though not limited to, those States which are specifically excepted by statute from the operation of the mining laws, but which are covered by the Mineral Leasing Act of February 25, 1920 (41 Stat. 437, 30 U. S. C. 181) (48 L. D. 629, Apr. 8, 1922). Sections 102.34 to 102.38 do not apply, however, to public domain lands in Alaska, which are governed by § 66.2 of this Chapter.

tion will not unreasonably interfere with current or contemplated operations under the Mineral Leasing Acts. Appeals from any decision of the Director, Bureau of Land Management, may be taken to the Secretary by any affected party in accordance with the Rules of Practice (43 CFR Part 221)

§ 102.35 *Definition of prior mineral claim.* As used in §§ 102.36 to 102.38, inclusive, a mineral claim is "prior" where an application for a mineral permit or lease has been filed before either the filing of a complete nonmineral application for part or all of the same land, or before the classification of that land for the purposes requested by that nonmineral applicant: *Provided*, That the nonmineral application is not either for (a) A State exchange under Section 8 of the Taylor Grazing Act (48 Stat. 1269; 43 U. S. C. 315g) as amended, filed prior to such mineral claim; or

(b) A reclamation homestead under the Reclamation Act of June 17, 1902 (32 Stat. 388; 43 U. S. C. sec. 372 et seq.) for lands applied for by a mineral claimant under the Leasing Act after withdrawal for reclamation purposes.

§ 102.36 *Notation in notice of allowance of nonmineral application.* Whenever the mineral claim is "prior" the following notation will be made in the notice of allowance of the nonmineral application, as well as on the original copy of that nonmineral application:

This land is subject to the right of any prior mineral permittee or lessee, or of any prior applicant for a mineral permit or lease, to occupy and use so much of the surface of the lands as may be reasonably required for mineral leasing operations, without liability to the nonmineral entryman or patentee for crop and improvement damages resulting from such mineral activity.

§ 102.37 *Notation on final certificate and patent.* Whenever a nonmineral application, which is affected by the notation described in § 102.36, proceeds to issuance of final certificate and patent, and at the time of such issuance there is outstanding a mineral lease, permit, or application therefor, based on a "prior" mineral claim, such final certificate and patent will indicate that they are subject to the act of March 4, 1933 (47 Stat. 1570; 30 U. S. C. sec. 124)

Such final certificate and patent will indicate that they are also subject to the provisions and limitations of section 29, act of February 25, 1920 (41 Stat. 449; 30 U. S. C. 186), if, when the final certificate or patent issues, there is outstanding a mineral lease or permit based on a "prior" mineral claim.

§ 102.38 *Compensation for damages by mineral claimant.* In any case where there is no "prior" mineral claim, any person obtaining authority to prospect for, mine or remove the reserved mineral deposits will be liable to the entryman, selector or patentee of the surface for any damages to crops or improvements

which may result from his prospecting or mining operations on the land.

Director

Applicant proposes to abandon approximately 17 miles of 8½ inch pipe line lying between Garden City and Sublette, Kansas, and to construct approximately 19.2 miles of 8½ inch upon a new location between the two cities above named using the salvaged pipe in the construction together with 2.2 miles of new pipe.

Applicant states that Garden City will be supplied uninterrupted service by it from presently connected gas wells located Southwest of Garden City, Kansas, during the period of abandonment and reconstruction.

Applicant further states that it considers the relocation of the pipe line as proposed a desirable method of connecting one existing gas well and eighteen proposed gas wells with its system when there is shortage of pipe and that the gas from the wells is needed for the fulfilling of its gas requirements from the Kansas portion of the Hugoton Gas Field for 1948.

Applicant further states that the total estimated "out-of-pocket" cost is \$180,400.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Rule 37 of the Commission's rules of practice and procedure (18 CFR

1.37) and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

The application of Northern Natural Gas Company is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D.
