§ 505.201 *General.* The Secretary of Agriculture of the United States (hereinafter referred to as the Secretary) pursuant to section 32, Public Law 320, 74th Congress, as amended, hereby offers, subject to the terms and conditions hereinafter set forth, to make benefit payments in a total amount not to exceed \$3,800,000 to domestic tobacco companies to encourage the exportation of fire-cured and dark air-cured tobacco, U. The application must be based upon a firm order for export of dark tobacco accepted by the exporter after the effective date of this offer and prior to June 30, 1948, but such order and acceptance may be subject to (a) approval of the exporter's application with respect to such order under this program, (b) such downward adjustment in quantity as may be required by the Secretary or his representative in prorating the total funds authorized for payments under this offer, and (c) release of dollar exchange for such purchase by the government of the country of destination. In the event applications are filed on or before June 24, 1948, for benefit payments in excess of the total funds authorized for this program, such funds will be prorated to such applications otherwise eligible for approval, and no applications filed after June 24, 1948, will be approved. porter to furnish information including samples which the Secretary or his representative requests in determining that the sales price does not exceed the fair and reasonable value of the dark tobacco. No applications will be approved or payments made with respect to tobacco the sales price of which exceeds the fair and reasonable value. The Secretary shall have no liability with respect to the remaining two-thirds of the sales price. The total amount invoiced to the buyer and the Secretary of Agriculture will not exceed the total sales price approved by the Secretary as fair and reasonable.

§ 505.205 *Documents required.* The exporter shall file claim for benefit payment on voucher form FDA-564 (original and three copies) and shall furnish three copies of the sales contract or of the order and acceptance and three certified copies of the ocean bill of lading and such other documents as may be required by the Secretary or his representative evidencing exportation of the dark tobacco on which payment is made. All vouchers shall be filed not later than March 31, 1949.

§ 505.206 *Limitations.* No payment shall be made with respect to the exportation of tobacco to any country in violation of any statute, order, or regulation forbidding such exportation, nor shall any payment be made with respect to the exportation of tobacco to any territory or possession of the United States.

§ 505.207 *Examination of tobacco.* The Secretary or his designee may examine any portion of the dark tobacco covered by this offer at any time prior to exportation. The cost of such examination shall be borne by the exporter.

§ 505.208 *Examination of records.* The exporter shall make available to the Secretary, from time to time, as he may request, such of the exporter's, and such of his affiliates' and subsidiaries' books, records, accounts, and other documents and papers as the Secretary may deem pertinent to any transaction hereunder. not discriminate against any employee or applicant for employment because of race, creed, color, or national origin and will include a provision in any sub-contract entered into in connection with performance under this offer whereby the subcontractor agrees that he will not discriminate against any of his employees or applicants for employment because of race, creed, color, or national origin.

## Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

### PART 932—MILK IN THE FORT WAYNE, INDIANA, MARKETING AREA

#### ORDER, AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 932.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933) as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act") and the rules of practice and procedure covering the formulation of marketing agreements and orders (7 CFR, Supps. 900.1 et seq., 11 F. R. 7737, 12 F. R. 1159, 4904) a public hearing was held upon certain proposed amendments to the tentatively approved marketing agreement and to the order, as amended, regulating the handling of milk in the Fort Wayne, Indiana, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to section 2 and 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which hearings have been held.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings set forth herein.

(b) *Additional findings.* It is necessary, in the public interest, to make the amendments hereinafter set forth effective July 1, 1948, the beginning of the period which they affect. Any delay in the effective date of the amendments beyond July 1, 1948, will seriously threaten the supply of milk in the Fort Wayne, Indiana, marketing area, as disclosed in the decision (13 F. R. 2840) executed May 25, 1948. A reasonable time, under the circumstances, is permitted for preparation for the effective date of July 1, 1948, as the hearing was held on these amendments April 16, 1948, and the Acting Secretary's decision was executed May 25, 1948. It is therefore found that it is impractical, unnecessary, and contrary to the public interest to delay the effective date of this order for 30 days after its publication. (See sec. 4 (c) Administrative Procedure Act, Pub. Law 404, 79th Cong., 2d Sess., 60 Stat. 237)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in the processing, distributing, or shipping the milk covered by this order, as amended) of more than 50 percent of the volume of milk covered by this order, as amended and as hereby further amended, which is marketed within the Fort Wayne, Indiana, marketing area, refused or failed to sign the tentatively approved marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said tentatively approved marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, further amending the order as amended, is the only practical means pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order, further amending the order as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (March 1948) were engaged in the production of milk for sale in the said marketing area.

*Order relative to handling.* It is therefore ordered that on and after the effective date hereof, the handling of milk in the Fort Wayne, Indiana, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 932.5 (b) insert the following immediately after the table appearing therein: "Provided, That for the delivery periods of July, August, and September 1948 the amount to be added to the basic formula price shall be \$0.90."

2. In § 932.5 (c) insert the following immediately after the table appearing therein: "Provided, That for the delivery periods of July August, and September, 1948, the amount to be added to the basic formula price shall be \$0.65."

(48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 61 Stat. 707; 7 U. S. C. 601 et seq., sec. 102, Reorg. Plan 1 of 1947, 12 F. R. 4534)

Issued at Washington, D. C., this 9th day of June, 1948, to be effective on and after July 1, 1948.

Secretary of Agriculture.

#### [Orange Reg. 147]

### PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

#### LIMITATION OF SHIPMENTS

§ 933.394 *Orange Regulation 147*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR, 1946 Supp., Part 933, 12 F. R. 7383), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the preliminary notice and public rule-making procedure requirements and the 30-day effective date requirement of the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001 et seq.) is impracticable, unnecessary, and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance, and a reasonable time is permitted, under the circumstances, for preparation for such effective date.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., June 14, 1948, and ending at 12:01 a. m., e. s. t., June 28, 1948, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida which grade U. S. No. 3 or lower than U. S. No. 3 grade;

(ii) Any oranges, except Temple oranges, grown in the State of Florida

which grade U. S. Fancy, U. S. No. 1, U. S. No. 1 Bright, U. S. No. 1 Golden, U. S. No. 1 Bronze, or U. S. No. 1 Russet unless such oranges are of a size not larger than a size that will pack 126 oranges, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(iii) Any oranges, except Temple oranges, grown in Regulation Area I which grade U. S. Combination unless such oranges are of a size not larger than a size that will pack 126 oranges, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(iv) Any oranges, except Temple oranges, grown in Regulation Area I which grade U. S. Combination Russet or U. S. No. 2 Russet; or

(v) Any oranges, except Temple oranges, grown in the State of Florida which are of a size larger than a size that will pack 150 oranges packed in accordance with the requirements of a standard pack, in a standard nailed box: *Provided*, That such maximum size restriction shall not be applicable to shipments of oranges meeting the requirements of subdivisions (ii) or (iii) of this subparagraph.

(2) As used in this section, the terms "handler," "ship," "Regulation Area I," and "Regulation Area II" shall each have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. Fancy," "U. S. No. 1," "U. S. No. 1 Bright," "U. S. No. 1 Golden," "U. S. No. 1 Bronze," "U. S. No. 1 Russet," "U. S. Combination Russet," "U. S. Combination," "U. S. No. 2 Russet," "U. S. No. 3," "standard pack," and "standard nailed box" shall each have the same meaning as when used in the United States Standards for citrus fruits, as amended (12 F.R. 6277)

Shipments of Temple oranges grown in the State of Florida are subject to the provisions of Orange Regulation 138 (13 F. R. 793) (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Regs., Serial No. SR-323]

PART 40—AIR CARRIER OPERATING CERTIFICATION

PART 60—AIR TRAFFIC RULES

PART 61—SCHEDULED AIR CARRIER RULES

LONG-DISTANCE DOMESTIC SCHEDULED AIR CARRIER OPERATIONS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 7th day of June 1948.

Special Civil Air Regulation Serial Number 361-A, as amended (11 F. R. 7033, 11 F. R. 14569, 12 F. R. 3953, 12 F. R. 8455) expires June 15, 1948. This regulation provides special operating rules for flight of scheduled air carrier aircraft at altitudes in excess of 12,500 feet east of longitude 100° W. and at altitudes in excess of 14,500 feet west of longitude 100° W. in long-distance operations.

Parts 40, 60, and 61 of the Civil Air Regulations impose undue operating restrictions on long-range, domestic, scheduled air carrier operations under the above conditions. Revisions of these parts which will provide for such operations are now being prepared. It is in the public interest to continue the long-distance operations authorized by Special Civil Air Regulation Serial Num-

ber 361-A, as amended, until these revisions are issued.

For the reasons stated above notice and public procedures hereon are impracticable. Since this regulation imposes no additional burden on any person, it may be made effective without prior notice.

The Civil Aeronautics Board hereby makes and promulgates the following Special Civil Air Regulation effective June 15, 1948:

Flights of scheduled air carriers while at altitudes in excess of 12,500 feet above sea level east of Longitude 100° W. and 14,500 feet above sea level west of Longitude 100° W shall comply with the applicable provisions of the Civil Air Regulations except as follows:

(a) Such flights need not comply with the requirements of § 60.305 *Right-side traffic*, § 61.731 *Deviation from route*, or any other sections of Parts 40 and 61 concerning civil airways.

(b) Such flights need not comply with the requirements of § 60.303 *Air traffic clearance*, § 60.111 *Adherence to air traffic clearances*, § 60.307 *Radio communications*, and § 61.602 *Weather reports*, except to the extent which the Administrator may prescribe.

(c) Each first pilot engaged in these operations shall be qualified for the route, if he is qualified for operations over any regular authorized route for the air carrier involved between the regular terminals for such operation.

(d) Each dispatcher who dispatches aircraft on flights authorized by this regulation shall be qualified under § 61.553 of the Civil Air Regulations for operation over an authorized route for the air carrier involved between the regular terminals of such operations: *Provided*, That when he is qualified only on a portion of such route he may dispatch aircraft only after coordinating the dispatch with dispatchers who are qualified for the other portions of the route between the points to be served.

This regulation supersedes Special Civil Air Regulation Serial Number 361-A, as amended, and shall terminate December 15, 1948.

(Secs. 205 (a) 601, 604, 52 Stat. 984, 1007, 1010; 49 U. S. C. 425 (a) 551, 554)

By the Civil Aeronautics Board.

Secretary.

From a standing position take a hop, a step, and a jump to gain as great a distance as possible.	
(21) 100 yard pick-a-back carry-----	27.0 seconds.
Carrying a partner astride his back one runs 100 yards by shuttling back and forth around stakes placed 25 yards apart. The partner must be within 10 pounds of one's own weight.	
(22) Rope climb (7 seconds)-----	10½ feet.
Climb a regulation gymnasium rope as high as possible in 7 seconds, using hands and feet or hands alone, starting from a standing position.	

§ 40.6 *Specific requirements for eligibility.* (a) No waivers of any requirement, education or physical, are granted to applicants.

A candidate must be a graduate of an accredited public high school or preparatory school or be in actual attendance in his senior year at an accredited preparatory school or public high school, and have already completed three (3) years work at such a school. A candidate indicating prospective graduation from a preparatory school or public high school must as a condition of admission satisfactorily complete his course not later than June 30. Correspondence schools do not meet the requirements for "Accredited Schools" and this class of school is not recognized. Certificates issued by correspondence schools will not be accepted. A total of 15 units, obtained in

high school, preparatory school, or college must be submitted.

(1) The below-listed subjects, comprising 7 units, are mandatory and are required for eligibility:

Mathematics A1-----	1
Mathematics A2-----	1
Mathematics C-----	1
English 1, 2, and 3-----	3
Physics-----	1
Total-----	7

(2) Further evidence of adequate preparation, amounting to 8 units of optional subjects is required and may be offered from the following groups:

Foreign language.  
Social science (history, civics, etc.).  
Biological science (biology, zoology, etc.)  
Physical science (chemistry, general science, etc.)

Mathematics.  
Mechanic arts.  
Mechanical drawing.  
Fine arts, drama, and music.  
Commercial studies.  
Fourth-year English.

(3) While not required, it is recommended that a candidate include solid geometry, trigonometry and chemistry in his preparation.

(b) Candidates whose high schools give only 1½ years of algebra may, at the discretion of the Commandant, be given credit for 1 unit of algebra A2 on presentation of proof that they have covered the subject matter listed in subdivision (v) of § 40.13 (a) (2) "A2, quadratics and beyond."

(c) In the choice of electives, the following limitations are imposed:

(1) Not less than 2 units of any foreign language will be accepted. The following languages may be offered: French, German, Spanish, Italian, Latin and Greek.

(2) A total of not more than 2 units will be accepted from any or all of the following groups: mechanic arts, mechanical drawing, commercial studies, fine arts, drama, and music.

(d) To satisfy the requirements of § 40.3 (c) of these regulations a candidate may submit both high school and college credits. Because of the great variation in academic standards and credit requirements among schools, the Commandant reserves the right to evaluate each academic record submitted on its individual merits. In general, college credits from an accredited institution will be given greater weight than high school credit for the same amount of work, but in no case will one semester of college work be considered equivalent to more than one unit of high school work.

§ 40.7 *Rejection of certificate.* The Commandant reserves the right to reject the certificate of any candidate whose assigned grades create doubt as to his ability to pursue successfully the course at the Coast Guard Academy.

§ 40.8 *Designation for examination.* A candidate who has been accepted as such will be authorized to report for examination and will be advised of the time and place he should so report. (A list of cities where the examination is held is found on Coast Guard Form CG-2922 which may be obtained from the Commandant, U. S. Coast Guard, Washington 25, D. C.)

§ 40.9 *Date of examination.* Examinations will be held annually on the third Monday and Tuesday in February, at places where examiners may be available. If either the third Monday or Tuesday falls on Washington's birthday, the examination will be held on the two days following the holiday. The examiners will be commissioned officers of the Coast Guard, or civil-service examiners. All expenses connected with the candidate's appearance before examiners and medical boards must be borne by himself.

§ 40.10 *Annual competitive examinations—(a) Purpose.* The annual competitive examination is designed to select, on a fair competitive basis, those candidates who are best qualified and most

likely to succeed as cadets and officers in the U. S. Coast Guard.

(b) *Scope and form.* Successful completion of the Academy course and success as an officer depends on an adequate educational background, on the possession of aptitudes relative to both technical and cultural studies, on a sincere interest in the Coast Guard as a career, and on relevant personality and physical characteristics. In addition to the essential virtues of honesty, dependability, and perseverance, the latter qualification includes physical stamina, coordination, physical and mental courage, self-confidence, emotional stability, alertness, leadership, and the ability to live and work harmoniously in close contact with others. The subject matter of the examination will be material within the scope of most high school curricula, i. e., knowledge ordinarily required for admission to college. In the construction of the examination, allowance will be made for the fact that high school curricula are not completely uniform throughout the country. The tests are designed to be as fair as possible to students from all varieties of secondary schools, but no candidate can be expected to have had detailed instruction in all the topics covered in the various tests. Any candidate who has taken the required courses listed in § 40.6 can feel that he is qualified to take the examination as far as formal training is concerned. It must be stressed that this examination is competitive, not merely qualifying. Therefore, the examination will be difficult enough to discriminate between candidates of nearly equal educational achievement. The complete examination will measure as fairly and accurately as possible the extent to which each candidate meets the four general qualifications listed above. The tests will be objective in form except that candidates may be required to write one or more short English essays on specified subjects.

(c) *Achievement tests.* Each candidate will be tested for knowledge in all of the following subjects:

- (1) English (Grammar, Composition, Literature, and Reading Comprehension).
- (2) Social Studies (American History, American Government or Political Science, Economics, and Current Events).
- (3) Mathematics (Algebra and Plane Geometry).
- (4) Science (Physics).

(d) *Aptitude and ability tests.* (1) The examination will include a battery of short tests in some or all of the following:

- (i) Quantitative-mathematical ability.
- (ii) Verbal or linguistic ability.
- (iii) Ability to visualize spatial relations.
- (iv) Mechanical comprehension and ability to deal with mechanical problems.
- (v) Aptitudes involved in scientific comprehension, study, and research.

(2) Because these tests stress ability factors rather than knowledge or achievement, they are comparatively uninfluenced by training and experience. It is not possible to prepare for them, and no specific information on their content will be furnished.

(e) *General adaptability.* (1) A specially designated board of Coast Guard

officers will be charged with the duty of assigning a mark in general adaptability to each candidate who has satisfied minimum requirements in the achievement and aptitude test. The term "general adaptability" includes all the factors known to influence success as a cadet and officer. The marks will be based on the relative merit of candidates as shown by tests, questionnaires, and interview reports. While the term "general adaptability" is very broad, the board's decision will be based on factual objective information such as the following:

(i) The candidate's attitude toward assigned tasks and his willingness to work as shown by the consistency and pattern of his previous school record.

(ii) The candidate's previous extracurricular and athletic interests and experience, with particular attention to evidence of leadership and team work.

(iii) The candidate's personal qualities as shown by his letters of recommendation, the interviewer's report, his high school principal's comment, etc.

(iv) The candidate's physical build, appearance, and bearing, as shown by the physical examination, photographs, and the interviewer's report.

(v) The candidate's score on one or more tests of emotional stability, social adjustment, vocational interest, study habits, background, and personality characteristics as may be administered for the purpose.

(2) The board will be charged with the duty of obtaining the best possible cadets and officers for the Coast Guard. It is, therefore, to a candidate's interest to cooperate fully in supplying the board with all relevant information on the above factors. The board's judgment will be final and subject to review only by order of the Commandant.

(f) *Minimum requirements.* To reduce labor and to eliminate candidates who are markedly deficient in one or more parts of the examination, the board will not consider candidates who fail to meet minimum requirements in one or more of the tests listed in paragraph (c) or in the battery of tests in paragraph (d) of this section. All raw scores will be converted to standard scores by the method commonly employed in modern testing techniques. The board will then set minimum requirements in terms of standard scores, and candidates who have standard scores below these levels will be eliminated from further consideration. It is expected that fifty to sixty percent of all candidates will be eliminated in this manner. The remaining forty to fifty percent will be marked in general adaptability.

(g) *Computation of final mark.* The final mark of each candidate will be computed by averaging the following six sub-scores in accordance with the indicated weights:

	Percent
English .....	20
Social Studies.....	10
Mathematics.....	20
Science.....	10
Aptitudes and Abilities.....	10
General Adaptability.....	30

(h) *Appointments in order of final marks.* Candidates will be offered appointments in the order of their final marks until the vacancies for the year have been filled. A candidate who fails to receive an appointment may compete again in subsequent years without prejudice, provided he still meets the age and physical qualifications.

§ 40.11 *Schedule of examinations.*

(a) The schedule of examinations will normally be as follows:

First Day· 8 a. m. to 12 noon—Mathematics and Science; 1 p. m. to 4:30 p. m.—English and Social Studies.

Second Day· 8 a. m. to 12 noon—Aptitude Tests, Questionnaires; 1 p. m. to 4:30 p. m.—Interviews.

(b) Candidates must supply their own pencils, pen and ink, erasers, and rulers. Drawing instruments will not be needed and slide rules will not be permitted. All other material will be supplied.

(c) Physical examinations will be given only to those candidates who have high final marks and are in line for appointment. They will usually be given about two months after the competitive examination. Medical Boards will consist of Medical Officers of the Public Health Service, Navy, or Army.

§ 40.12 *Definition of units.* (a) The definition of a unit and of the ground covered by the designated subjects is that of the Educational Testing Service. Greater credit than indicated will not be allowed; less credit will be understood as evidence that the entire subject has not been completed.

(b) A unit represents a year's study in any subject in a secondary school. A 4-year secondary school curriculum should be regarded as representing not more than 16 units of work. This statement is designed to afford a standard of measurement for the work done in secondary schools. It takes the 4-year-high-school course as a basis, and assumes that the length of the school year is from 36 to 40 weeks, that a period is from 40 to 60 minutes in length, and that the study is pursued for 4 or 5 periods a week; but under ordinary circumstances a satisfactory year's work in any subject cannot be accomplished in less than 120 sixty-minute hours or their equivalent. Schools organized on any other than a 4-year basis can, nevertheless, estimate their work in terms of this unit.

§ 40.13 *Scope of studies for certain subjects—(a) Mathematics.* The following studies include:

(1) *A1, algebra to quadratics; one unit.*

(i) The meaning, use, evaluation, and necessary transformations of simple formulas involving ideas with which the pupil is familiar, and the derivation of such formulas from rules expressed in words.

(ii) The graph and graphical representation in general. The construction and interpretation of graphs.

(iii) Negative numbers; their meaning and use.

(iv) Linear equations in one unknown quantity, and simultaneous linear equations involving two unknown quantities, with verification of results. Problems.

(v) Ratio, as a case of simple fractions; proportion, as a case of an equation between two ratios; variation. Problems.

(vi) The essentials of algebraic technic. (vii) Exponents and radicals.

(2) *A2; quadratics and beyond, one unit.* (i) Numerical and literal quadratic equations in one unknown quantity. Problems.

(ii) The binomial theorem for positive integral exponents, with applications.

(iii) Arithmetic and geometric series.

(iv) Simultaneous linear equations in three unknown quantities.

(v) Simultaneous equations, consisting of one quadratic and one linear equation, or of two quadratic equations of certain types. Graphs.

(vi) Logarithms.

(3) *B; advanced algebra; one-half unit.* Theory of equations, determinants, complex numbers (numerical and geometric treatment) mathematical induction, permutations and combinations, and probability.

(4) *C; plane geometry; one unit.* (i) The usual theorems and constructions of good textbooks, including the general properties of plane rectilinear figures; the circle and the measurement of angles; similar polygons; areas; regular polygons; and the measurement of the circle.

(ii) The solution of numerous original exercises, including loci problems.

(iii) Applications to the mensuration of lines and plane surfaces.

(iv) The examination will consist partly of book propositions and partly of originals. In the former type of question the candidate will be asked to give proofs of standard theorems which are assumed to have been presented to him in his course of study, or to reproduce standard constructions. In the latter type are included the demonstrations of theorems which are not assumed to be familiar to the candidate, problems of measurement and calculation, and problems in working out of unfamiliar constructions and the identification of unfamiliar loci. Questions calling for simple geometrical knowledge and understanding may fall under either type.

(v) The originals on the examination will, in general, depend for their solution on propositions mentioned in the syllabus of the Educational Testing Service, but occasionally the original will be so framed that a solution will occur more readily to the candidate who is familiar with such important geometrical facts as the properties of the  $30^\circ$  and  $45^\circ$  right triangles.

(vi) The candidate is not required to give proofs of constructions unless a proof is specifically called for by the questions, and such proofs will not be regarded as constituting a part of the book-work requirement but will have the status of originals.

(5) *D; solid geometry; one-half unit.*

(i) The usual theorems and constructions of good textbooks, including the relations of planes and lines in space; the properties and measurement of prisms, pyramids, cylinders, and cones; the sphere and the spherical triangle.

(ii) The solution of numerous original exercises, including loci problems.

(iii) Applications to the mensuration of surfaces and solids.

(6) *E; trigonometry; one-half unit.*

(i) Definition of the six trigonometric functions of angles of any magnitude, as ratios. The computation of five of these ratios from any given one. Functions of  $0^\circ$   $30^\circ$   $45^\circ$   $60^\circ$   $90^\circ$  and of angles differing from these by multiples of  $90^\circ$

(ii) Determination, by means of a diagram, of such functions as  $\sin(A-90^\circ)$  in terms of the trigonometric functions of  $A$ .

(iii) Circular measure of angles; length of an arc in terms of the central angle in radians.

(iv) Proofs of the fundamental formulas, and of simple identities derived from them.

(v) Solution of simple trigonometric equations.

(vi) Theory and use of logarithms, without the introduction of work involving infinite series. Use of trigonometric tables, with interpolation.

(vii) Derivation of the law of sines and the law of cosines.

(viii) Solution of right and oblique triangles (both with and without logarithms) with special reference to the applications.

(b) *English, 1, 2, and 3; grammar, composition, and literature (three units)*

(1) Entrance to the Coast Guard Academy is based on the assumption that each successful candidate will be adequately grounded in the principles of English grammar and composition. The ability to write and speak clearly, correctly, and effectively should be the outgrowth of the candidate's experience in his secondary school English courses. There should be, in those courses, special emphasis on spelling, punctuation, and good usage as the normal requirements for successful work in composition. It is taken for granted that all candidates will have some ability to write clear and well-organized paragraphs or short essays, although the entrance examination may not require any such composition. Advantage should be taken of the oral work that is now a recognized part of most secondary English courses.

(2) The candidate's preparation in literature should conform to the standards set up in most States as a minimum for the college preparatory courses. These requirements call for the appreciative reading and understanding of a number of Shakespeare's plays, some narrative and descriptive poems, several of the classic short stories and novels, and with a survey of American or English literature as the backbone of the third year's preparation to meet these requirements in English. The candidate who has read widely and intelligently will generally be better prepared than the candidate who has limited the scope of his reading to one or two authors or one or two books. Because of the vast extent of the field and because of the wide variation in secondary English courses, no specific list of books or authors can be given, Standard high school texts or course outlines suggested by many of the State educational systems are adequate guides to preparation in this field.

(3) The examination in English is designed to test the candidate's knowledge

of good modern usage, the sum of his reading experience, and his ability to comprehend what he reads.

(c) *Physics.* Secondary school courses in physics are so well standardized that a definition of a unit is unnecessary. Candidates with a credit in physics required in § 40.6 (a) (1) will have adequate preparation for the examination.

(d) *Social studies.* Social studies refers to material associated with United States history. The examination will include a test of (1) knowledge in the field of social studies gained through such courses as United States history, other history courses, problems of democracy, economics, etc., and also through general reading; and (2) the ability to read understandingly from material in social studies presented to the candidate in the test itself. Candidates who have studied formal history courses in school, but who have never taken courses entitled "Social Studies," need not feel that they are at a disadvantage in these tests.

§ 40.14 *Sample questions.* The following examples of questions from objective type examinations are printed for the information of candidates who may be unfamiliar with this type of test. Questions are answered by marking an answer sheet in accordance with instructions supplied with the tests.

(a) *Mathematics.* (1) The equation  $x^2+ax+b=0$  has equal roots if

- (i)  $a=-2\sqrt{b}$ .

§ 40.15 *General adaptability interview.* The examiner before whom the candidate appears will report to Coast Guard headquarters his appraisal of the candidate's fitness and adaptability for a career as an officer in the Coast Guard. Particular attention will be paid to neatness, cleanliness, physical appearance, bearing, manner of speech, manliness, and qualities of leadership. The examiner will report in detail any defects of character or behavior that may hinder or prevent the development of leadership, any marked inaptitude or aversion for military training, and any evidence of evasion, insincerity, or immaturity.

§ 40.16 *General requirements for admission of citizens of American Republics to the U. S. Coast Guard Academy.* The Act of Congress approved 24 June, 1938, and Executive Order of 29 August, 1938, provided for the admission of citizens of American Republics (other than the United States) to receive instruction at the U. S. Coast Guard Academy at New London, Conn. The total number of citizens from American Republics (other than the United States) to be enrolled at any one time shall not exceed twenty (20) and the number enrolled in each class shall not exceed five (5) at any one time. Not more than one (1) person from any such Republic shall receive instruction at the same time. The persons receiving instruction shall receive the same pay, allowances, and emoluments—no more and no less—as do citizens of the United States to be paid by the respective Republics. The U. S. Government will not provide any funds for travel or maintenance of these students. However, the U. S. Coast Guard will absorb the cost of instruction. They shall be subject to the same rules and regulations governing admission, attendance, discipline, resignation, discharge, dismissal, and graduation as cadets at the Coast Guard Academy appointed from the United States, subject to such necessary exceptions as may be determined by the Commandant of the Coast Guard. However, such persons shall not be entitled to appointment to any office or position in the U. S. Coast Guard by reason of their graduation from the Coast Guard Academy. The following regulations are established:

(a) U. S. Coast Guard Academy, New London, Conn., 4-year basic course. Begins in July. Each candidate must:

(1) Be unmarried bona fide male citizen of the country transmitting the request, be not less than 17 years of age and not have reached his 22d birthday on 1 July of the calendar year in which he enters the Coast Guard Academy. (Candidate must not marry during the course of instruction.)

(2) Possess physical qualifications as specified in this publication. All candidates must undergo a physical examination at the U. S. Coast Guard Academy. Requests for waivers for minor defects which would in no way prevent the individual from participating in all cadet activities may be submitted to the Commandant, U. S. Coast Guard.

(3) Be proficient in reading, writing, and speaking idiomatic English and must demonstrate in the regular annual entrance examination ability to profit by instruction. Due consideration will be given in the English examination to the probable inadequacy of his preparation in English and American literature.

(4) Be prepared to submit certificates of previous academic credits equivalent to those required of candidates from the United States as set forth in this publication.

(b) Regular examinations for entrance into the U. S. Coast Guard Academy may be taken either in the United States or in the candidates' respective native countries. In the latter case, the examination will be taken under the supervision of a diplomatic representative of the United States who shall furnish a report as to the candidate's proficiency in the use of idiomatic English.

(c) In lieu of the oath of allegiance to the United States, a substitute oath will be required in substance as follows.

I, \_\_\_\_\_, a citizen of \_\_\_\_\_, aged \_\_\_\_\_ years \_\_\_\_\_ months, having been appointed a cadet at the United States Coast Guard Academy do solemnly swear to comply with all regulations for the police and discipline of the Academy, and to give my utmost efforts to accomplish satisfactorily the required curriculum; do swear not to divulge any information of military value which I may obtain, directly or indirectly, in consequence of my presence at the United States Coast Guard Academy, to any alien government; and do agree that I shall be withdrawn from the United States Coast Guard Academy if deficient in conduct, health, or studies.

§ 40.17 *Appointments.* (a) The number of appointments to be made each year from candidates who have successfully passed the examinations is discretionary, and will depend upon the needs of the Service at the time.

(b) Candidates who are considered eligible for appointment and who have passed the required physical examination will receive appointments as cadets in the United States Coast Guard and will be sent instructions to report to the Coast Guard Academy on a specified date (generally during the first week in July).

(c) Having been appointed and having taken the oath of office a cadet will be reimbursed for the actual mileage from his home to the Academy at the rate of 5 cents per mile.

(d) No person shall become a cadet in the Coast Guard who does not obligate himself, in such manner as the Secretary of the Treasury may prescribe, to serve at least 3 years as an officer in the Service after graduation, if his services be so long required.

§ 40.18 *Deposit required.* Upon appointment each cadet shall deposit with the disbursing officer of the Academy the sum of \$200, to be applied toward defraying the cost of his first outfit of uniforms and equipment and of his textbooks and for other necessary expenses: *Provided, however* That the Superintendent of the Academy, in exceptional circumstances, is authorized to waive this requirement in part: *And provided further* That a cadet may use so much of this \$200 as may be necessary to defray his traveling

expenses to the Academy, the amount thus used to be deposited with the disbursing officer of the Academy when the cadet shall have been paid his mileage.

§ 40.19 *Pay of cadets.* A cadet in the Coast Guard receives the same pay and allowances as are now or may hereafter be provided by law for midshipmen in the Navy. At present they are \$936 per annum and commutation for one ration per day. Pay commences upon the date the oath of office as a cadet is taken. A cadet's pay is not a wage or salary for services rendered. It is money furnished by the Government for uniforms, equipment, textbooks, and other expenses incidental to his training. A cadet does not receive allowances for dependents. Cadet pay is disbursed and expended only as directed by the Superintendent.

§ 40.20 *Expenses of cadets.* Practically all of a cadet's pay will be required to defray his expenses during his cadetship and for deposits that he will be required to make toward a fund which, upon his graduation, will be available to be applied toward the cost of the outfit required for a commissioned officer.

§ 40.21 *Contracting of debts.* No cadet may contract any debt or receive any financial assistance from home or elsewhere without the permission of the Superintendent of the Academy. The pay of a cadet is sufficient for his support.

§ 40.22 *Practice cruise.* During the months of June, July, and August cadets are sent to sea in Coast Guard ships for instruction and practical experience in seamanship, navigation, gunnery, and marine engineering. These practice cruises include visits to foreign ports when conditions permit. Cadets are required to perform the duties of seamen and firemen during their basic training. The new class reporting during the summer remains at the Academy except for a short training cruise in the vicinity of New London on such vessels as are available.

§ 40.23 *Privileges.* (a) With the approval of the Commandant the Superintendent may grant leave of absence to cadets meriting it, exclusive of the class entering in July or subsequent thereto, from the end of the practice cruise to the beginning of the first Academic Term, which is early in September.

(b) Studies and exercises shall be suspended on January 1, February 22, May 30, July 4, August 4, the first Monday in September, November 11, Thanksgiving Day, December 25, and on such other days as may be designated by the President as national holidays. On such days the Superintendent may grant liberty to cadets.

(c) The Superintendent may grant about 10 days' leave to cadets meriting it during the period which includes Christmas and New Year.

(d) Liberty and other privileges are granted to cadets meriting the same under regulations prescribed by the Superintendent.

(e) Relatives and friends of cadets may visit them at the Academy at such

hours as the Superintendent may prescribe for visitors.

§ 40.24 *Uniforms.* Cadet uniforms and equipment are supplied at the Academy in accordance with Academy uniform regulations and as directed by the Superintendent. Most articles must be of uniform design. The following need not be of uniform pattern and may be brought from home by a cadet on original entry if he so desires:

Undershirts, plain, white, summer.  
Drawers, plain, white, summer.  
Handkerchiefs, plain, white.  
Suspenders, white, dress.  
Socks, black, silk or lisle.  
Socks, white, lisle.  
Garters, plain.  
Toothbrush.  
Hairbrush.  
Comb.  
Shaving kit.  
Whiskbroom.  
Shoe-blackening kit.  
Napkin ring.  
Sewing kit.

§ 40.25 *Graduation and promotion.*

(a) Upon graduation from the Coast Guard Academy, cadets are awarded degrees and are eligible to be commissioned by the President to fill vacancies in the grade of ensign in the Coast Guard, and, when so commissioned, have rank with second lieutenants in the Army and ensigns in the Navy, and receive corresponding pay and allowances. The base pay of an ensign is \$2,160 per annum.

(b) Promotions of officers of the Coast Guard are made by seniority through the successive grades—lieutenant (junior grade) lieutenant, lieutenant commander, commander, and captain, and in each of these grades they receive the same pay and allowances as officers of the Army and Navy of corresponding grade and have parallel rank with them.

(c) An ensign shall be required to complete 3 years' service in his grade, after which he shall be eligible for promotion to the next higher grade without regard to the number already in that higher grade.

(d) Commissioned officers are entitled to 5-percent increase in pay for each 3 years of service, not exceeding 50 percent in all.

(e) Officers are retired on three-fourths pay for physical disability incident to duty or upon reaching the age of 62 years. They may apply for retirement after 20 years' service.

§ 40.26 *Physical standards.* Examining medical officers on the field are required to prepare medical certificates on applicants in strict accordance with the regulations in this section and § 40.4. They have no authority to deviate in any respect from the requirements. The medical certificates will contain the actual facts as disclosed by the physical examination, together with the opinion of the examining physician as to whether or not the candidate is physically qualified for appointment to cadetship. Final determination as to physical qualification based on the facts disclosed by this report and the opinion of the examining medical officer will be made by the Commandant. Following are the disqualifications:

The candidate must have 20/20 vision, uncorrected, in each eye.

(2) Defective vision due to disease of the eye grounds, shall be cause for rejection at any time.

(j) The face: Extension nevi, unsightly hairy spots, extensive cicatrices on the face.

(k) The mouth and fauces: Harelip, simple, double, or complicated; loss of the whole or a considerable part of either lip; unsightly mutilation of the lips from wounds, burns, or disease; loss of the whole or part of either maxilla; ununited fractures; ankylosis; deformities of either jaw interfering with mastication or speech; loss of certain teeth; cancerous or erectile tumors; hypertrophy or

atrophy of the tongue; mutilation of the tongue; adhesions of the tongue; chronic ulceration, fissures or perforations of the hard palate; salivary of buccal and thyroglossal fistulae hypertrophy of the tonsils sufficient to interfere with respiration or phonation.

(l) The neck: Goiter; scrofulous adenitis of the cervical glands, tracheal openings thyroglossal or cervical fistulae, wry neck, chronic laryngitis, or any other disease of the larynx which would produce aphonia, stricture of the oesophagus.

(m) The chest: Malformation of the chest or badly united fracture of the ribs or sternum sufficient to interfere with respiration, caries or necrosis of ribs, deficient expansive mobility, evident predisposition to tuberculosis, chronic pneumonia, emphysema, chronic pleurisy, pleural effusions, chronic bronchitis, previous operation for empyema, asthma, organic diseases of the heart or large arteries, serious protracted functional derangement of the heart, or distinct predisposition to disease of heart or lungs.

(n) The abdomen: All chronic inflammations of the gastrointestinal tract, including diarrhea and dysentery; diseases of the liver or spleen, including those caused by malaria poisoning; ascites; obesity; hemorrhoids, prolapsus ani; fistula in ano; marked fissures of the anus; hernia in all situation; tumors.

(o) Genito-urinary organs: Any acute affection of the genital organs, including gonorrhoea, syphilis, and venereal sores, loss of penis; phimosis, if complete, stricture of the urethra, atrophy or loss of both testicles; undescended testicle or permanent retraction of one or both testicles; chronic disease of the testicle or epididymitis; hydrocele of the tunic and cord unless the hydrocele of the cord is small and inconsequential; varicocele causing symptoms; malformations of the genitalia; epispadias or hypospadias not preventing the normal passage of urine may not cause rejection; incontinence or retention of urine; urinary fistulae; enlargement of the prostate; calculus; cystitis; and all organic diseases of the kidney.

(p) Affections common to both the upper and lower extremities: Chronic rheumatism; chronic diseases of joints or movable cartilage; acquired or congenital deformities such as old or irreducible dislocations or false joints; severe sprains; relaxation of the ligaments or capsules of joints; dislocations; fistulae connected with joints or any parts of bones; effusions into joints; badly united or nonunited fractures; defective or excessive curvature of the long bones; rickets; caries; necrosis; exostoses; atrophy or paralysis of a limb; extensive, deep, or adherent cicatrices, especially of burn; contraction or permanent retraction of a limb or portion thereof; loss of a limb or portion thereof.

(q) The upper extremities: Acquired or congenital deformities, such as fracture of the clavicle, fracture of the radius and ulna; webbed fingers; permanent flexion or extension of one or more fingers, as well as irremedial loss of motion of these parts; mutilation or loss of either thumb or index finger; loss of the second and third phalanges of all fingers

of either hand; total loss of any two fingers of the same hand.

(r) The lower extremities: Acquired or congenital deformities, such as varicose veins; knock-knees; club feet; flat feet (causing symptoms), webbed feet, the affected toes doubled or branching; the great toe crossing the other toes; hammer toe; bunions; large corns; overriding or superposition of any of the toes to an extreme degree; loss of a great toe; loss of any two toes of the same foot; permanent retraction of the last phalanx of any of the toes or flexion at a right angle of the first phalanx of a toe upon the second, with ankylosis of the articulation; ingrowing of the nail of the great toe; bromidrosis; chronic ulcers.

(s) Hearing must be normal for each ear by the watch (40/40) and the whispered voice (15/15). Any chronic disease of the external, middle, or internal ear will be sufficient cause for rejection. The voice is a more reliable method of determining the acuteness of hearing than the ticking of an ordinary watch, as it allows for variations in hearing, with the modifications produced by changes in pitch and tone. Hearing in each ear must be normally acute to the spoken and whispered voice. In examining the acuteness of hearing with the voice, one ear of the candidate should be closed while the other ear is being examined, and his eyes should be covered to prevent lip reading.

(t) (1) A candidate shall not be accepted unless he shall have a minimum of 20 vital serviceable natural teeth, of which there shall be not less than 8 opposing anterior teeth (incisors and cuspids), of which 4 are directly opposed on either side of the median line, and 12 opposing masticating teeth (molars and bicuspids) of which 6 are directly opposed on either side of the dental arch. The required number of teeth shall be in such position as to serve the purpose of incision and mastication without the insertion of prosthetic appliances. When the third molar teeth have not erupted, and are shown by X-ray examination to be present, a candidate may be accepted as meeting the requirements. Edentulous spaces in the dental arch causing wide separation of the continuity of the masticating surfaces shall cause rejection. Replacements by bridges may be considered serviceable when supplying missing teeth in excess of the 20 vital serviceable teeth required. Teeth shall be free from calculus and all defective teeth shall have proper fillings.

(2) A carious vital tooth which can be restored satisfactorily by proper filling may be considered a serviceable tooth. A tooth is not to be considered serviceable when the caries is extensive, or when it is involved with marked pyorrhea alveolaris, or when it is the seat of chronic infection, or when it fails to enter into serviceable occlusion with the opposing teeth. Abutments (natural teeth to which bridges are attached) and crowned teeth may be counted as serviceable only when they appear to be in good condition and supported by healthy tissue. Carious teeth incapable of proper restoration should be noted as needing extraction.

(3) The following conditions are causes for rejection: The loss of teeth in excess of the standards noted above; marked pyorrhea alveolaris; marked protrusion or retrusion of either jaw or any abnormal condition causing malocclusion; extensive restoration by crowns, bridges, or dentures, or teeth generally unserviceable; edentulous spaces in the dental arch causing wide separation of the continuity of the masticating surfaces; nonvital infected teeth, defective-root canal fillings, or unfilled canals, malignant tumors of alveolar process or benign tumors or cysts which may tend to enlarge; syphilitic lesions of the oral membranes.

(u) A careful urinalysis (including microscopical examination) shall be made in each case, and a quantitative examination, when practicable, if albumen or sugar is present.

(v) Blood-pressure readings are required in all examinations. A persistent systolic pressure of 140 or above, or a persistent diastolic pressure of 95 or over, is cause for rejection.

(w) (1) Attention will be paid to the stature of the candidate, and no one under 5 feet 6 inches nor over 6 feet 4 inches (stripped) will be accepted.

(2) The requirements of the following tables of physical proportions are minimum for growing youths and are for guidance in connection with the other data of the examination, a consideration of all of which will determine the candidate's physical eligibility. Mere fulfillment of the requirements of the standard tables does not determine eligibility.

## TITLE 47—TELECOMMUNICATION

### Chapter I—Federal Communications Commission

#### PART 8—SHIP RADIO SERVICE

#### PART 13—COMMERCIAL RADIO OPERATORS

##### MISCELLANEOUS AMENDMENTS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 2d day of June 1948;

The Commission having under consideration (1) its action of December 15, 1947, under the provisions of section 318 of the Communications Act of 1934, as amended, temporarily waiving, subject to certain provisions, the requirement of licensed radio operators for ship radar stations licensed in the ship service, until March 15, 1948 or the effective date of permanent rules adopted by the Commission governing operator license requirements for such stations, whichever date occurred earlier; (2) its action of December 15, 1947 amending Parts 8 and 13 of the Commission's rules governing ship service and commercial radio operators, respectively, so as to provide temporary rules in line with and of the same duration as the aforesaid temporary waiver; (3) its action of March 15, 1948 extending the aforesaid waiver and temporary rules until June 15, 1948 or the effective date of such permanent rules whichever date occurred earlier; and (4) a proposal again to extend the duration of the aforesaid waiver and temporary

rules to November 15, 1948 or the effective date of such permanent rules, whichever is earlier;

It appearing, that on March 31, 1948 the Commission adopted a notice of proposed rule making setting forth certain proposed permanent rules to govern operator license requirements for ship radar stations licensed in the ship service and inviting comments thereon until May 10, 1948; and

It further appearing, that in view of the comments which have been received on the proposed permanent rules and in view of certain requests which have been made for a public hearing, permanent rules will not be adopted by the Commission until a date beyond June 15, 1948; and

It further appearing, that pending the final adoption of permanent rules governing operator license requirements as aforesaid, it is necessary to continue beyond June 15, 1948 the temporary rules governing operator license requirements for ship radar stations licensed in the ship service; and

It further appearing, that because of the temporary nature of the proposed extension, and because of the opportunity which heretofore has been afforded to all interested parties to submit comments on the subject of operator requirements for ship radar stations licensed in the ship service, and because the need for the continuance of the temporary rules is urgent, the public notice and procedure provided for in section 4 of the Administrative Procedure Act are found to be impracticable and unnecessary herein, and for the same reasons, and because the extension of the temporary rules in question will continue to relieve a restriction, such extension should be made effective immediately and

It further appearing, that, unless the waiver hereinabove referred to of the requirements of section 318 of the act is extended, the provisions of that section will, after June 15, 1948, require ship radar stations licensed in the ship service to be operated by licensed radio operators; and

It further appearing, that under the provisions of section 318 aforesaid, the Commission may waive the requirement of licensed radio operators for ship radar stations licensed in the ship service if the Commission first shall find that such a waiver will serve the public interest, convenience, or necessity and

It further appearing, that under Commission Order 133, dated May 10, 1946, the Commission waived to a limited extent the licensed radio operator requirements of section 318 aforesaid with regard to shipboard radar stations licensed in the experimental service; and

It further appearing, that during the interim period preceding the final adoption and effectiveness of permanent rules governing operator license requirements for ship radar stations licensed in the ship service, radar stations so licensed can be as well operated by unlicensed personnel as can radar stations licensed in the Experimental Service; and

It further appearing, that under the foregoing circumstances it will serve the public interest and convenience temporarily to waive, to the same extent as

now provided in the Experimental Service by Order 133, the licensed radio operator requirements with regard to ship radar stations licensed in the ship service; and

It further appearing, that authority to accomplish the aforesaid objective is contained in section 303 (f) (g), (1) and 318 of the Communications Act of 1934, as amended;

*It is ordered*, That, effective June 15, 1948 the provisions of section 318, aforesaid, are hereby waived insofar as such provisions require any person to hold a radio operator license issued by this Commission in order to operate ship radar stations licensed by this Commission in the ship service: *Provided*, That this waiver shall extend only to the normal operation of such radar stations on board ship and shall not be construed to permit unlicensed personnel to make any adjustments or to do any servicing or maintenance that may affect the proper operation of the station; *Provided further* That this waiver shall not be construed to affect in any way the responsibility of the station licensee for the proper operation of the station; *And provided further* That the waiver herein ordered may, in the discretion of the Commission and without advance notice or hearing, be changed or cancelled by order of the Commission, and shall in no event extend beyond the effective date of permanent rules adopted by the Commission governing operator license requirements for ship radar stations licensed in the ship service, or beyond November 15, 1948, whichever is earlier;

*It is further ordered*, That effective June 15, 1948, Parts 8 and 13 of the Commission's rules governing ship service and commercial radio operators, respectively, are amended as follows:

1. Footnote 71 to § 8.195 is amended as follows:

a. By deleting in the first sentence thereof the phrase "and a second temporary waiver effective March 15, 1948" and substituting therefor, the phrase "and by subsequent temporary waivers effective March 15, 1948 and June 15, 1948"

b. By deleting in the last sentence thereof the phrase "June 15, 1948" and substituting therefor the phrase "November 15, 1948"

2. The fourth footnote appended to § 13.1 which footnote commences "By order dated and effective December 15, 1947 \* \* \*" is amended as follows:

a. By deleting the phrase "and by a second order dated March 12, 1948 and effective March 15, 1948" and substituting therefor the phrase "and by subsequent orders effective March 15, 1948 and June 15, 1948"

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 2d day of June 1948;

The Commission having under consideration the amendment of §§ 12.101 and 12.103 of its rules governing amateur radio service for the purpose of making clear what types of radio communications are prohibited by these sections from being transmitted by amateur stations, and the addition of a new § 12.106 defining certain types of one-way radio communications which may be transmitted from amateur stations; and

It appearing, that on April 7, 1948, general notice of proposed rule making with respect thereto was published in accordance with section 4 (a) of the Administrative Procedure Act; and

It further appearing, that the period in which interested persons were afforded an opportunity to submit comments expired May 1, 1948; that prior thereto certain comments relating to the proposed new § 12.106 (b) were received by the Commission; and that such comments have been carefully considered by the Commission; and

FEDERAL COMMUNICATIONS  
COMMISSION,  
[SEAL] T. J. SLOWIE,  
Secretary.

Amendments to Part 12 of the Commission's rules governing amateur radio service:

1. Section 12.101 is amended by deleting the period at the end of the section and adding "and for the purposes set forth in § 12.106."

2. Section 12.103 is amended to read as follows:

§ 12.103 *Broadcasting prohibited.* Subject to the provisions of § 12.106, an amateur station shall not be used to engage in any form of broadcasting, that is, the dissemination of radio communications intended to be received by the public directly or by the intermediary of relay stations, nor for the retransmission by automatic means of programs or signals emanating from any class of station other than amateur. The foregoing provision shall not be construed to prohibit amateur operators from giving their consent to the rebroadcast by broadcast stations of the transmissions of their amateur stations, provided, that

the transmissions of the amateur stations shall not contain any direct or indirect reference to the rebroadcast.

3. A new section 12.106 is added to read as follows:

§ 12.106 *One-way communications.* In addition to the experimental one-way transmissions permitted by § 12.101, the following kinds of one-way communications, addressed to amateur stations, are authorized and will not be construed as broadcasting:

(a) Emergency communications, including bona-fide emergency drill practice transmissions;

(b) Information bulletins consisting solely of subject matter having direct interest to the amateur radio service as such;

[Docket No. G-1055]

OHIO FUEL GAS CO.

## NOTICE OF APPLICATION

JUNE 8, 1948.

Notice is hereby given that on June 1, 1948, an application was filed with the Federal Power Commission by The Ohio Fuel Gas Company (Applicant), an Ohio corporation with its principal place of business at Columbus, Ohio, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of approximately 61.4 miles of 20" O. D. natural gas transmission pipe line between Favonia Compressor Station in Richland County, Ohio, and the City of Toledo, Ohio.

Applicant states that the proposed 20" pipe line will replace existing pipe lines of smaller diameter, which lines will be removed, so as to provide a continuous 20" pipe line from Favonia Compressor Station to the vicinity of Toledo, Ohio. The proposed replacement will be constructed in two sections. The first section, which is proposed to be installed in 1948, will extend from Favonia Compressor Station to a connection with an existing 20" section of Applicant's present Line D-100 in Crawford County, Ohio, a distance of approximately 21.2 miles. The second section, which is proposed to be installed in the spring and summer of 1949, will extend approximately 40.2 miles from the existing 20" section of the said Line D-100 in Seneca County, Ohio, through Sandusky County, Ohio, and terminate near Lime City, Wood County, Ohio, at what is known as the Toledo T-50 connection, a point of service to Toledo, Ohio, and neighboring communities. It is anticipated that all major construction and the subsequent removal of existing lines will be completed by November 1949.

Applicant alleges that the proposed changes in transmission facilities are necessary to provide capacity for adequate service to existing markets and to provide for anticipated growth of those markets. No additional markets are being considered for connection to the line, and as the new line will follow the same rights of way as the existing line, no existing customers will be deprived of service.

Applicant further states that the capacity of its D-100 line, to deliver natural gas to Toledo, Ohio, will be increased 11.2 million cubic feet per day, by the proposed construction and operation.

The estimated total over-all capital cost of construction of the proposed fa-

cilities is \$3,082,000, to be financed from funds to be provided by Applicant's parent The Columbia Gas System, Inc. Applicant also estimates that operating costs will be reduced \$28,700 annually by the proposed replacement of old lines.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Rule 1.37 of the Commission's rules of practice and procedure (18 CFR 1.37) and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

The application of The Ohio Fuel Gas Company is on file with the Commission and open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of Rule 1.8 or 1.10, whichever is applicable, of such rules of practice and procedure (18 CFR 1.8 or 1.10)
