Chapter V—Weather Bureau, Department of Commerce

PART 505—RULES FOR GUIDANCE OF THE PUBLIC

PART 506—AWARD OF FELLOWSHIPS IN METEOROLOGY

Part 505 is amended in the following respects:

1. Section 505.4 is to be changed by the substitution of the following text:

§ 505.4 *Time of release of weather information effecting crops.* Bulletins or radio broadcasts giving agricultural weather information are released at 10:00 a. m. each work-day during the growing season in the affected areas.

Weekly weather and crop bulletins containing a synopsis of weather conditions and their effect on crops and farming operations (which show snow and ice conditions during the season) are re-

leased simultaneously at Washington, D. C. and approximately 45 field stations at 12:00 noon e. s. t. on Tuesday or on Wednesday if Monday or Tuesday is a holiday.

Because of the influence that might be exerted upon the market value of the products of the soil by the information contained in the weather and crop bulletins, the law provides a fine of \$10,000 or imprisonment of ten years, or both, for any responsible Government official who wilfully imparts any information of speculative value contained in the bulletins before the times of release to the public. (Sec. 123, 35-Stat. 1110; 18 U. S. C. 214)

2. The following material should be added by the insertion of a new section to be designated § 505.6.

§ 505.6 *Agreements for radio weather broadcasts.* Radio stations often desire to make special arrangements for the broadcast of daily weather forecasts, special warnings, and other weather information under commercial sponsorship. In such cases the Weather Bureau obtains an agreement setting forth conditions under which the broadcasts are to be made. This agreement specifies the regular time schedules of the broadcast; that the information be given exactly as issued by the Bureau; that while it is permissible to announce immediately before and at the conclusion of the weather broadcast that it is furnished by the courtesy of a sponsor, care must be exercised to avoid the implication that the forecasts are made or paid for by the advertiser; and that there shall be nothing in the announcement associated with weather broadcasts to indicate that the Weather Bureau or the Government endorses the sponsor or the product advertised.

No charge is made to the radio stations or the sponsor for weather information intended for public distribution. However, if there are communication tolls or leased wire charges in connection with the delivery of such information to the radio stations, such charges are borne by the radio stations or the sponsor.

Part 506—Award of Fellowships in Meteorology (13 F. R. 2739-2740) should be amended as follows:

1. Section 506.1 should be changed by the insertion of "50 weeks or more" instead of "35 weeks or more" and "15 weeks for studying" instead of "17 weeks for studying" Upon accomplishment of these changes § 506.1 will read as follows:

§ 506.1 *Type of fellowship.* Fellowships shall be of the interne-training type, comprising instruction for a period of 50 weeks or more at certain American universities including the University of California at Los Angeles, the University of Chicago, New York University, and the Massachusetts Institute of Technology, in synoptic, dynamic and physical meteorology, and in addition assignment to a Weather Bureau Station for a period of about 15 weeks for studying the organization and service work of the Weather Bureau.

2. Section 506.2, (a) should be amended by the addition of text as follows: "; or of

the Republic of the Philippines;" As a result of this addition the paragraph will read as follows:

§ 506.2 *Qualifications.* Applicants selected for these fellowships shall be:

(a) Bona fide citizens of any of the American republics other than the United States; or of the Republic of the Philippines;

3. Section 506.3 *Award of fellowships* should be replaced by the following material:

§ 506.3 *Award of fellowships.* Fellowships will be awarded by the Chief of the Weather Bureau, and with the approval of the Secretary of Commerce and the Secretary of State or their duly authorized representatives. Philippine candidates for fellowships will in addition be examined and recommended by the Chief of the Philippine Weather Bureau and the President of the Republic of the Philippines. No applicant therefore shall be approved unless his application shall have been transmitted by the Government of the country of which he is a citizen through the diplomatic mission of the United States of America located in the Republic concerned.

4. Section 506.5 is to be amended by the insertion of "sixteen" instead of "twelve," and after change should read as follows:

§ 506.5 *Duration of fellowships.* Fellowships will be awarded for periods of not to exceed sixteen months each.

(R. S. 161, 53 Stat. 1290, 57 Stat. 281, 5 U. S. C. 22, 22 U. S. C. 501, 502)

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC DRUGS

PART 146—CERTIFICATION OF BATCHES OF PENICILLIN- OR STREPTOMYCIN-CONTAINING DRUGS

DIHYDROSTREPTOMYCIN SULFATE; DIHYDROSTREPTOMYCIN HYDROCHLORIDE

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463 and 61 Stat. 11; 21 U. S. C., Sup. 357) the regulations for tests and methods of assay of antibiotic drugs (12 F. R. 2215) and certification of batches of penicillin- or streptomycin-containing drugs (12 F. R. 2231) are amended as indicated below:

1. Part 141 is amended by adding the following new section:

§ 141.108 *Dihydrostreptomycin sulfate, dihydrostreptomycin hydrochloride*—(a) *Potency.* Proceed as directed in § 141.101 (j) and (k)

(b) *Content of streptomycin sulfate or streptomycin hydrochloride*—(1) *Reagents.* (i) 10% ferric chloride stock solution. Dissolve 5 gm. of FeCl₃·6H₂O in 50 ml. 0.1N HCl.

(ii) 0.05% ferric chloride solution. Dilute 0.5 ml. of 10% ferric chloride in 0.1N HCl to 100 ml. with 0.01N HCl. Prepare the solution fresh daily.

(2) *Standard curve.* Prepare a stock aqueous solution of the F. D. A. streptomycin working standard containing 1.0 mg. of streptomycin base per milliliter. Store this standard solution in the refrigerator and use for no longer than 2 weeks. Transfer 2.0, 4.0, 6.0, 8.0, and 10.0 ml. of this standard to each of five tubes (approximately 30-ml. capacity). Add 8.0, 6.0, 4.0, and 2.0 ml. of distilled water to the first four tubes respectively to give each a total volume of 10 ml. To each add 2.0 ml. of 1N NaOH and then heat the tubes in a boiling water bath for 10 minutes. Cool the tubes in ice water for 3 minutes and acidify the solutions with 2.0 ml. of 1.2N HCl. Add 8.0 ml. of chloroform U. S. P. to each tube, stopper, and shake thoroughly for about 1 minute. Allow the layers to separate and then pipette 5.0-ml. aliquots of the chloroform layers into clean dry tubes. To each tube add 10.0 ml. of 0.05% ferric chloride reagent and shake thoroughly for about 1 minute. Allow the layers to separate and swirl to clear the upper aqueous layer of chloroform droplets. Transfer the colored aqueous layer to a 1.0-cm. absorption cell and measure the percent light transmission at 550 m μ in a suitable photoelectric colorimeter. Set the colorimeter at 100% light transmission for the 0.05% ferric chloride solution. Prepare a standard curve on semi-log paper, plotting the percent light transmission on the logarithmic ordinate scale and the concentration of streptomycin base on the abscissa.

(3) *Procedure.* Dilute the contents of a 1-gm. vial to 50 ml. with distilled water (dilute vials containing larger quantities to make solutions having the same concentration). Transfer a 10-ml. aliquot of this solution to a tube (approx-

mately 30-ml. capacity) add 2 ml. of 1N NaOH and heat in a boiling water bath for 10 minutes. Cool in ice water for 3 minutes and acidify the solution with 2 ml. of 1.2N HCl. Add 8.0 ml. of chloroform U. S. P., stopper, and shake thoroughly for about 1 minute. Allow the layers to separate and then pipette a 5.0-ml. aliquot of the chloroform layer into a clean dry tube. Add 10.0 ml. of 0.05% ferric chloride reagent and shake thoroughly for about 1 minute. Set the colorimeter at 100% light transmission for the 0.05% ferric chloride reagent and shake thoroughly for about 1 minute. Set the colorimeter at 100% light transmission for the 0.05% ferric chloride solution and obtain the percent light transmission of the sample. The concentration of streptomycin obtained directly from the standard curve corresponding to the percent light transmission of the sample times 500, divided by the total milligrams per vial obtained by biological assay, equals the percent of streptomycin.

(c) *Sterility*—(1) *Culture medium*. Prepare fluid thioglycollate medium as described in § 141.2 (a)

(2) *Conduct of test*. Add aseptically to each of two tubes containing approximately 15 ml. of fluid thioglycollate medium 1.0 ml. of a 5000-mcg. per milliliter dilution in sterile distilled water of the dihydrostreptomycin under test. Add 0.1 ml. of the 5000-mcg. per milliliter dilution to two additional tubes of thioglycollate medium. Incubate at 37° C. for 4 days. If no tube shows growth the sample is satisfactory. This method will demonstrate only those organisms which are not susceptible to this concentration of dihydrostreptomycin.

(d) *Toxicity, pyrogens, histamine, moisture, pH, clarity*. Proceed as directed in §§ 141.103, 141.104, 141.105, and 141.106.

2. Part 146 is amended by adding the following new section:

§ 146.103 *Dihydrostreptomycin sulfate; dihydrostreptomycin hydrochloride*—(a) Dihydrostreptomycin sulfate is the hydrogenated sulfate salt of a kind of streptomycin or a mixture of two or more such salts. Dihydrostreptomycin hydrochloride is the hydrogenated hydrochloride salt of a kind of streptomycin or a mixture of two or more such salts. Each such drug conforms to all requirements prescribed by § 146.101 for streptomycin sulfate and streptomycin hydrochloride and is subject to all procedures prescribed by § 146.101 for streptomycin sulfate and streptomycin hydrochloride, except that:

(1) Its potency is not less than 600 mcg. per milligram.

(2) Its content of streptomycin sulfate or streptomycin hydrochloride is not more than 3% when calculated as streptomycin base.

This order, which provides for the marketing of a new streptomycin product (dihydrostreptomycin sulfate and hydrochloride) shall become effective upon publication in the FEDERAL REGISTER.

Notice and public procedure are not necessary prerequisites to the promulgation of this order and would be contrary

to the public interest, and I so find, since it was drawn in collaboration with the interested members of the affected industry and since it would be against public interest to delay the marketing of this new streptomycin product.

(52 Stat. 1040, 1055, as amended by 59 Stat. 463 and 61 Stat. 11, 21 U. S. C. Sup. 357)

DEPARTMENT OF STATE

[Public Notice DA-188]

IMMIGRATION QUOTAS

ADMINISTRATION OF SECTION 6, IMMIGRATION ACT OF 1924, DURING JULY 1, 1948 TO JUNE 30, 1950

In the implementation of the Displaced Persons Act of 1948, the Department is being guided by the following procedure in administering the immigration quotas affected thereby:

1. (a) Fifty per centum of the quota of each nationality for each of the two fiscal years preceding July 1, 1950, shall be made available for the issuance of immigration visas to qualified applicants entitled to preference under section 6 (a) (1) of the Immigration Act of 1924.

(b) The remainder, if any, of the first fifty per centum of each quota shall be made available for the issuance of immigration visas to persons entitled to second preference under section 6 (a) (2) of the Immigration Act of 1924.

(c) Any portion of the first fifty per centum of each annual quota not required for the issuance of immigration visas to classes specified under paragraphs (a) and (b) above, shall be made available for the issuance of immigration visas to qualified applicants within the nonpreference categories, the priorities and dates of registration governing.

2. (a) The second fifty per centum of the quota of each nationality for each of the two fiscal years preceding July 1, 1950 shall be made available for the issuance of immigration visas to qualified displaced persons specified in the Displaced Persons Act of 1948 and for persons whose cases are adjusted under section 19 (c) of the Immigration Act of February 5, 1917, as amended.

(b) The remainder, if any, of the second fifty per centum shall be made available for the issuance of immigration visas to qualified applicants entitled to second preference under section 6 (a) (2) of the Immigration Act of 1924.

(c) Any portion of the second fifty per centum of each annual quota not required for the issuance of immigration visas to the classes listed under sections 2 (a) and (b) shall be made available for the issuance of immigration visas to qualified applicants within the nonpreference categories, the priorities and dates of registration governing.

3. (a) Quota numbers required in connection with the enactment of private acts of Congress may be charged against the first or second fifty per centum of each annual quota, from whichever portion a quota number is more readily available.

4. (a) In applying the foregoing rules it must be considered that the Austrian and German quotas have each been reduced, in effect, by fifty per centum for the two fiscal years ending June 30, 1950, by virtue of section 12 of the Displaced Persons Act of 1948. The "fifty per centum," referred to in sections 1 and 2, above, therefore actually means

fifty per centum of the remainder, or twenty-five per centum of the normal Austrian and German quotas, for the two years.

This notice shall become effective immediately upon publication in the FEDERAL REGISTER.

Approved: November 12, 1948.

Subject to valid existing rights, the 80 rod shore space reserve created under the act of May 14, 1898 (30 Stat. 409) as amended by the act of March 3, 1903 (32 Stat. 1028; 48 U. S. C. 371) is hereby revoked as to the public lands hereinafter described in the Anchorage, Alaska land district, which are hereby classified as chiefly valuable for lease and sale under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682 (a)) as amended, for home, cabin, camp and recreational sites:

SMALL TRACT CLASSIFICATION No. 4
POINT MACKENZIE AREA

T. 13 N., R. 4 W., Seward Meridian, Alaska.
Sec. 3, Lots 3, 4, E½NW¼SW¼, SW¼NW¼SW¼.
Sec. 10, Lot 1.

The area described contains 93.08 acres.

The lands are located on the north shore of Knik Arm, three miles northwest of Anchorage City Boat Dock on the Ship Creek Estuary, and extends from Point Mackenzie to a point approximately three-quarters of a mile northeast along the shore of Knik Arm. At the present time access to the Point Mackenzie area can be made only by small boat or float plane in summer or ski-mounted plane in winter. The timber cover of the area consists of spruce, birch, aspen and alder. The lower cover consists of scattered but very dense stands of devil's club, usually associated with alder, up to six inches in diameter. There are no public utilities in the area. Water supply can be obtained through the use of wells or sandpoints.

This order shall not otherwise become effective to change the status of such lands or to permit the leasing thereof under the small tract act of June 1, 1938, cited above, until 10:00 a. m. on January 7, 1949. At that time the land shall, subject to valid existing rights, become subject to application, petition, location, or selection, as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from 10:00 a. m. on January 7, 1949, to the close of business on April 7, 1949 to (1) applications under the small tract act of June 1, 1938, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. sec. 279) as amended, and by other qualified persons entitled to credit for service under said act, subject to the requirements of applicable law, and (2) applications under any applicable public law, based on prior existing valid settlement and preference rights conferred by existing laws or equitable claims, subject to allowance and confirmation. Applications by veterans and other persons entitled to credit for service shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from December 18, 1948, to January 6, 1949, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on January 7, 1949, shall be treated as simultaneously filed.

(c) *Date for non-preference-right filings authorized by the public land laws.* Commencing at 10:00 a. m. on April 8, 1949, any of the lands remaining unappropriated shall become subject to application under the small tract act by the public generally.

(d) *Twenty-day advance period for simultaneous non-preference-right filings.* Applications by the general public may be presented during the 20-day period from March 19, 1949, to April 7, 1949, inclusive, and all such applications, together with those presented at 10:00 a. m. on April 8, 1949, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificate of discharge, or other satisfactory evidence of their military or naval service. Other persons entitled to credit for service shall file evidence of their right to credit in accordance with 43 CFR 181.36. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

All applications for these lands, which shall be filed in the District Land Office at Anchorage, Alaska, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations to the extent that such regulations are applicable. Applications under the Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Part 257 of that title.

Lessees under the Small Tract Act of June 1, 1938, will be required, within a reasonable time after execution of the lease, to construct upon the leased land, to the satisfaction of the appropriate officer of the Bureau of Land Management authorized to sign the lease, improvements which, in the circumstances, are presentable, substantial and appropriate for the use for which the lease is issued. Leases will be for a period of not more than 5 years at an annual rental of \$5.00, payable for the entire lease period in advance of the issuance of the lease. Leases will contain an option to purchase the tract at or after the expiration of one year from the date of the lease is issued, provided the terms and conditions of the lease have been met.

All of the land will be leased in tracts of approximately 5 acres, in accordance with the classification map on file in the district land office, Anchorage, Alaska, designated "Point Mackenzie Small Tract Unit." The tracts where possible are made to conform in description with the rectangular system of survey, being approximately 330 by 660 feet, in compact units.

All inquiries relating to these lands shall be addressed to the Acting Manager, District Land Office, Anchorage, Alaska.

LOWELL M. PUCKETT,
Regional Administrator.
