By virtue of and pursuant to the authority vested in me by section 5 of the act of February 8, 1887, 24 Stat. 388, 389, by the act of June 21, 1906, 34 Stat. 325, 326, and by the act of March 2, 1917, 39 Stat. 969, 976, and other applicable provisions of law, it is hereby ordered that the periods of trust or other restrictions against alienation contained in any patent applying to Indian lands, whether of a tribal or individual status, which, unless extended, will expire during the calendar year 1949, be, and the same are hereby, extended for a further period of twenty-five years from the date on which any such trust would otherwise expire.

[Orange Reg. 262]

#### PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

##### LIMITATION OF SHIPMENTS

§ 966.408 *Orange Regulation 262—*  
(a) *Findings.* (1) Pursuant to the provisions of Order No. 66 (7 CFR, Cum. Supp., 966.1 et seq.) regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and in-

formation submitted by the Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective date.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., January 9, 1949, and ending at 12:01 a. m., P. s. t., January 16, 1949, is hereby fixed as follows:

(c) Prorate District No. 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handler," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said order; and "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No.

PART 20—PILOT CERTIFICATES

ELIMINATION OF REQUIREMENT FOR PHYSICAL EXAMINATION PRIOR TO TAKING WRITTEN EXAMINATIONS FOR PILOT RATINGS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 31st day of December 1948.

Section 20.61, Physical examination, provides that, prior to taking examinations and tests for a rating, an applicant for a pilot certificate with a private rating shall have met the appropriate physical requirements prescribed for the issuance of his certificate within the preceding 24 calendar months and an applicant for a pilot certificate with a commercial rating shall have met the physical requirements prescribed for the issuance of his certificate within the preceding 12 calendar months. Examinations specified in this section include written examinations as well as practical examinations and flight tests.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 20 of the Civil Air Regulations (14 CFR, Part 20, as amended), effective February 5, 1949:

By amending § 20.61 to read as follows:

**FEDERAL POWER COMMISSION**

[Docket No. G-1001]

**TENNESSEE GAS TRANSMISSION Co.**

**NOTICE OF APPLICATION**

JANUARY 5, 1949.

Notice is hereby given that on November 30, 1948, Tennessee Gas Transmission Company (Applicant), a Delaware Corporation having its principal place of business at Houston, Texas, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the continued operation of an existing pipeline connection with Texas Gas Transmission Corporation (formerly Memphis Natural Gas Company) near Greenville, Mississippi, consisting of a meter station, approximately 1,764 lineal feet of connecting pipeline, valves, and other appurtenant equipment.

Applicant states that the facilities described in the application have been utilized during the past two winter seasons for emergency deliveries to Memphis Natural Gas Company and that it believes the public interest requires the continuation in existence of the connection for receipt or delivery of gas in the event of future emergency. Applicant further states that the probable amounts of gas involved in any such emergency deliveries at the Greenville, Mississippi connection would not in any appreciable degree affect the gas reserve dedicated to Applicant's system.

It is proposed to make deliveries at the connection on an interruptible basis to

meet emergency conditions pursuant to the provisions of Applicant's Interruptible Rate Schedule R-3 on file with the Commission.

The total overall capital cost of installation of the facilities described in the application was approximately \$20,717, and no further capital costs will be incurred or financing required in connection with the operation thereof.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of § 1.37 of the Commission's rules of practice and procedure and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

The application of Tennessee Gas Transmission Company is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of §§ 1.8 or 1.10, whichever is applicable, of the rules of practice and procedure.
