PART 364—SETTLEMENT

MISCELLANEOUS AMENDMENTS

Since the last revision of Part 364, agreements have been entered into pursuant to section 2 (f) of Public Law 499, 81st Congress, authorizing settlement of debts arising out of the use of State Rural Rehabilitation Corporation funds in the States of California, Iowa, Kansas, Kentucky, Tennessee, Wisconsin and Wyoming. Under such agreements the same procedures, with two exceptions noted in § 364.8 (f) will be applicable to compromise, adjustment, and cancellation of such corporation claims under the jurisdiction of the Farmers Home Administration as are applicable to other debts owed the Farmers Home Administration. Since the Oregon Rural Rehabilitation Corporation has not entered into a section 2 (f) agreement and its assets are being returned to it, claims arising out of the use of that Corporation's assets are not subject to settlement under this part. Accordingly, the following sections of Part 364 are being revised as indicated below to reflect the changes necessitated by these new section 2 (f) agreements and the lack of such an agreement with the Oregon Rural Rehabilitation Corporation, and for clarification. Section 364.3 also is revised to authorize the cancellation of debts arising from Production and Subsistence loans.

1. In § 364.1, Title 6, Code of Federal Regulations (16 F. R. 11799, 17 F. R. 8064) paragraphs (a) (b) (1) and (8) and (c) are revised to read as follows:

§ 364.1 *General*—(a) *Purpose and scope.* (1) Sections 364.1 to 364.10 provide the policies and procedures for the compromise, adjustment, cancellation, charge-off, and reduction to zero of debts owed the United States which are under the jurisdiction of the Farmers Home Administration, hereinafter referred to as "debts owed to the Farmers Home Administration," except debts arising from:

- (i) Farm Ownership loans;
- (ii) Other Real Estate loans, except indebtedness under rent accounts, D-1 and other leases, and canceled Lease and Purchase Contracts;
- (iii) Farm Housing loans made under 63 Stat. 432;
- (iv) Water Facilities loans made under 50 Stat. 869, as amended;
- (v) 1948 Flood Damage loans made under 62 Stat. 1038, as amended;
- (vi) Property Damage and Destruction loans made under 63 Stat. 82;
- (vii) Disaster, Fur, and Orchard loans made under 63 Stat. 43, as amended.

(b) *Definitions.* The following are definitions of certain terms used in this subpart.

(1) The words, "loan," "debt," and "claim" are used interchangeably in referring to the unpaid principal, accrued interest, and any other amounts which properly are chargeable to the account of the borrower by the Farmers Home Administration, including indebtedness arising out of Regional Agricultural Credit Corporation loans, as well as indebtedness resulting from the use of appropriated, borrowed, or State Rural Rehabilitation Corporation funds.

(8) "Trust Agreements" or "section 2 (f) agreements" as used in this part are agreements entered into between the Government and the various State Rural Rehabilitation Corporations pursuant to section 2 (f) of Public Law 499, 81st Congress (64 Stat. 99)

(c) *Policies.* (1) The authorities contained in this part for the settlement of debts will neither serve as justification for, nor permit, any relaxation of the efforts of officials to collect the debts owed the Farmers Home Administration in accordance with applicable policies and procedures. Generally, debts will not be compromised or adjusted within five years after they were created.

(2) Any case in which a debt settlement action is proposed and in which a further loan is contemplated will be referred to the National Office before either the debt settlement action or the loan is approved. The policies and limitations with respect to making a Production and Subsistence loan to an applicant for whom debts have been settled pursuant to this part, or where settlement of existing indebtedness is contemplated, are set forth in § 342.6 (h) of this chapter.

§ 607.401 *Administration.* Under the general direction and supervision of the President, CCC, the Cotton Branch and other appropriate branches of PMA will carry out the provisions of this subpart. In the field, the program will be administered through the New Orleans PMA Commodity Office, 120 Marais Street, New Orleans 16, Louisiana (hereinafter referred to as the "New Orleans office"), and PMA State and county committees (hereinafter referred to as State committees and county committees, respectively). Forms will be distributed by the New Orleans office and will be available at county PMA offices (hereinafter referred to as county offices) and at approved lending agencies, approved warehouses, and others designated to participate in the loan program. State and county committees and the New Orleans office do not have authority to modify or waive any of the provisions of this subpart or any amendments or supplements hereto.

§ 607.402 *Availability of loans—(a) Loans.* Loans will be available to eligible producers on eligible cotton and will be made available through warehouse, farm-storage, and bills of lading loans.

(b) *Area.* Warehouse and farm-storage loans will be available as follows:

(1) Upland cotton wherever produced in the continental United States.

(2) American-Egyptian cotton produced from pure strain seed in those areas in which cotton is normally grown with irrigation throughout the growing season in the States of Arizona and New Mexico, in Imperial and Riverside Counties, California, and in Brewster, Culbertson, El Paso, Hudspeth, Jeff Davis, Loving, Pecos, Presidio, Reeves and Ward Counties, Texas.

(3) Sea Island and Sealand cotton produced from pure strain seed in Lanier, Cook, Atkinson and Berrien Counties, Georgia, and Alachua, Bradford, Columbia, Gilchrist, Hamilton, Jefferson, Lafayette, Lake, Leon, Madison, Marion, Orange, Osceola, Putnam, Seminole, Sumter, Suwannee, Union, and Volusia Counties, Florida; and Sea Island cotton produced from pure strain seed planted in 1953 in Puerto Rico.

Loans on cotton covered by bills of lading will be available in areas specified by the New Orleans office.

(c) *Time.* Loans shall be available from the date rates are announced through April 30, 1954. Notes and chattel mortgages covering farm-storage cotton must be signed by the producer and delivered to the county office on or before April 30, 1954. Note and Loan Agreements covering warehouse-storage cotton must be signed by the producer and delivered to the lending agency on or before such date or postmarked not later than April 30, 1954, if tendered for direct loans to the New Orleans office by mail.

(d) *Source.* Loans will be available from approved lending agencies or from the New Orleans office. Disbursements on loans will be made to producers by approved lending agencies under agree-

ments with CCC, or by the New Orleans office. Disbursement of loans will be made not later than May 15, 1954, except where specifically approved by the New Orleans office in each instance. The producer shall not present the loan documents for disbursement unless the cotton is in existence and in good condition. If the cotton is not in existence and in good condition at the time of disbursement, the producer shall promptly refund the proceeds.

§ 607.403 *Approved lending agency.* An approved lending agency shall be any bank, corporation, partnership, association, individual, or other legal entity which has entered into a Lending Agency Agreement—Cotton (CCC Cotton Form D) with CCC covering loans on 1953-crop cotton. Banks and other agencies desiring to enter into Lending Agency Agreements should make application to the New Orleans office, which will enter into such agreements on behalf of CCC.

§ 607.404 *Eligible producer.* An eligible producer shall be any individual, partnership, corporation, association, trust, estate, or other legal entity, or a State or political subdivision thereof, or an agency of such State or political subdivision, producing eligible upland or extra long staple cotton in the capacity of landowner, landlord, tenant or sharecropper. Where eligible cotton is produced by a landlord and his share tenant or sharecropper, a loan may be obtained only as follows:

(a) If the cotton is divided among the producers entitled to share in such cotton, each landlord, tenant and sharecropper may obtain a loan on his separate share.

(b) If the cotton is not divided, (1) the landlord and one or more of the share tenants or sharecroppers may obtain a joint loan on their shares of such cotton, or (2) the landlord may obtain a loan on cotton in which both he and one or more share tenants or sharecroppers have an interest if he has the legal right to do so, and in such cases the share tenants or sharecroppers must be paid their pro rata share of the loan proceeds and their pro rata share of any additional proceeds received from the cotton. In no case shall a share tenant or sharecropper obtain a loan individually on cotton in which a landlord has an interest.

§ 607.405 *Eligible cotton.* Eligible cotton shall be upland cotton produced in the United States in 1953 or extra long staple cotton planted in 1953 and produced in areas designated under § 607.402 which meets the following requirements:

(a) Such cotton must be of a grade and staple length specified in § 607.430.

(b) Such cotton must not be false packed, waterpacked, mixed-packed, reginned, or repacked; upland cotton must not have been reduced in grade because gin-cut, or because of grass, sand, oil, dust, other extraneous matter, whole seeds, parts of seeds, notes or bark; extra long staple cotton must have been ginned on a roller gin, shall be of normal character, and must not have been reduced in grade or staple on account of irregularities or defects.

(c) Extra long staple cotton must have been produced from seed of a pure strain variety of American-Egyptian, Sea Island, or Sea Land cotton for which acceptable proof as to variety has been furnished to the county office.

(d) Such cotton must not be compressed to high density.

(e) Such cotton must have been produced by the person tendering it for a loan and such person must have the legal right to pledge or mortgage it as a security for a loan.

(f) If the person tendering such cotton is a landlord or landowner, the cotton must not have been acquired by such landlord or landowner directly or indirectly from a share tenant or sharecropper and must not have been received in payment of fixed or standing rent; and if it was produced by him in the capacity of landlord, share tenant or sharecropper, it must be his separate share of the crop, unless he is a landlord and is tendering cotton in which both he and one or more share tenants or sharecroppers have an interest.

(g) The person or association tendering such cotton must not have previously sold and repurchased such cotton.

(h) Each bale of such cotton must weigh at least 300 pounds, gross weight, and must be packaged in merchantable bales.

§ 607.406 *Forms.* The following documents must be delivered by producers in connection with every loan except loans made pursuant to §§ 607.422 and 607.428:

(a) *Warehouse-storage loans.* (1) Cotton Producer's Note and Loan Agreement (CCC Cotton Form A, hereinafter referred to as "Form A") (Existing stocks of Form A (3-21-52) may be used until stocks are exhausted.)

(2) Warehouse receipts complying with the provisions of § 607.418.

(3) Producer's Letter of Transmittal (CCC Cotton Form B, hereinafter referred to as "Form B") if the loan is obtained direct from the New Orleans office.

(b) *Farm-storage loans.* (1) Cotton Producer's Note (CCC Cotton Form E, hereinafter referred to as "Form E")

(2) Cotton Chattel Mortgage (CCC Cotton Form F hereinafter referred to as "Form F") and Cotton Mortgage Supplement (CCC Cotton Form FF hereinafter referred to as "Form FF") covering the cotton tendered as security for a loan.

(3) Form B if the loan is obtained direct from the New Orleans office.

(c) *Cotton represented by order bills of lading.* (1) Form A executed within the area and during the period such loans are available.

(2) Order bill of lading in a form acceptable to CCC and representing the cotton tendered as security for the loan.

(3) If the Receiving Agency is not a warehouseman, Weight and Condition Certificates complying with the provisions of § 607.421 and a Receiving Agent's Certificate.

(4) Form B if the loan is obtained direct from the New Orleans office. (Loan documents executed by an administrator, executor or trustee will be

acceptable only where valid in law and must be accompanied by documentary evidence of the authority of the person executing the form or by a repurchase agreement of the lending agency. Copies of this agreement may be obtained from the New Orleans office. State documentary revenue stamps shall be affixed to loan documents where required by law. A producer who desires to appoint an attorney-in-fact to act in his place and stead in obtaining loans shall use Power of Attorney (CCC Cotton Form 18) which must be filed with the New Orleans office.)

§ 607.407 *Approved storage.* Loans will be made only on cotton in approved storage.

(a) *Warehouses.* Cotton in warehouses will be accepted as security for loans only if stored in warehouses approved by CCC. Warehousemen desiring approval of their facilities should communicate with the New Orleans office. The names of approved warehouses may be obtained from the New Orleans office or State or county offices.

(b) *Farm storage.* Cotton in farm storage will be accepted as security for loans only if stored in a structure approved by the county committee for the county in which the cotton is stored. Such structures may be on or off the farm and must afford safe storage and protection against weather damage, poultry and livestock, and reasonable protection against fire and theft. If the producer does not own the premises where the cotton is stored and his lease on such premises expires prior to September 30, 1954, the owner of such premises must execute the Consent for Storage on the Cotton Mortgage Supplement. Any other tenant who has a right or interest in the premises must also execute the Consent for Storage.

§ 607.408 *Weight and rate.* (a) Loans will be made on the gross weight of upland cotton and on the net weight of extra long staple cotton. Notes covering cotton pledged on reweights will not be accepted if it is evident that such reweights reflect an increase in weight due to the absorption of additional moisture. An allowance of 7 pounds per bale will be made for bales of upland cotton covered with cotton bagging. Such bagging must have been manufactured specifically for covering cotton bales.

(b) The base loan rate for upland cotton applicable at each approved warehouse will be shown in the Schedule of Base Loan Rates for Warehouse-Stored Upland Cotton.¹ The base loan rate under the farm-storage program for upland cotton for each county will be shown in the Schedule of Base Loan Rates by Counties for Farm-Stored Upland Cotton.¹ These schedules will be available at county offices. The premium or discount applicable to each eligible grade and staple length is shown in § 607.430. Loan rates for extra long staple cotton are shown in § 607.430. After a loan is made CCC will not be obligated to make adjustments in the amount of the loan as a result of any

subsequent redetermination of the weight or quality of the cotton.

§ 607.409 *Preparation of documents.* All applicable blanks on the loan forms must be filled in with ink, indelible pencil, or typewriter in the manner indicated therein, and documents containing additions, alterations, or erasures may be rejected by CCC. All copies should be clearly legible. The spaces provided on Forms A and E for the producer to request and direct payment of the proceeds must be completed in every instance. All disbursements made from the proceeds of a note, including clerk's fee when deducted, must be shown and the total must agree with the amount of the note. In the case of warehouse-storage cotton, care should be exercised by the lending agency to determine that the warehouse receipts are genuine. No deduction may be made from the loan proceeds by the lending agency as a charge for handling the loan documents, except the authorized clerk's fee in case an employee of the lending agency has executed the Clerk's Certificate on Form A. Lending agencies which are also eligible producers must obtain direct loans on cotton produced by them from the New Orleans office or obtain loans from another approved lending agency.

(a) *Warehouse-storage cotton.* A producer desiring to obtain a loan on warehouse-stored cotton may obtain the necessary forms from county offices, approved lending agencies, approved warehouses, and approved clerks (persons approved by the county committees to assist producers in preparing and executing the loan forms) The Clerk's Certificate on each Form A tendered for a loan must be executed by an approved clerk, who will assist the producer in the preparation and execution of the Form A. The interest rate in the Producer's Note on Forms A (dated 3-21-52) must be corrected from 3½ to 4 percent. The original of Form A must be signed by the producer and the copies marked county office copy and producer's copy are to be retained by the producer. All of the cotton pledged as security for any loan must be of the same grade and staple length and must be stored in the same warehouse.

(b) *Farm-storage cotton.* A producer desiring to obtain a loan on farm-storage cotton should communicate with the county office in the county in which the cotton is to be stored. It will be the responsibility of the county committee to arrange for the inspection of the storage structure and to approve it if it determines that it is of such construction as to afford adequate storage for the cotton. The county office will furnish and prepare the necessary documents for a farm-storage loan.

§ 607.410 *Service charges and deposits.* No service charges will be collected in connection with warehouse loans. A service charge of \$1.00 per bale with a minimum of \$3.00 per loan will be collected by the county office from the producer to cover services rendered in connection with farm-storage loans. State committees are authorized to require prepayment of \$3.00 of the service

¹ Schedule to be issued about August 15, 1953.

charge. No refund of service charges will be made. A deposit of \$1.00 per bale will also be collected from the producer to guarantee delivery of farm-storage cotton if the loan is not repaid by the producer. Such deposit will be returned if the loan is repaid or the cotton is delivered in accordance with delivery instruction issued by the county office. If the producer does not deliver the cotton upon demand by CCC, the county office will arrange delivery and retain the deposit. If delivery costs exceed the deposit, the producer will be liable for the difference.

§ 607.411 *Fees.* The clerk or county office employee assisting the producer in the preparation of the loan documents may collect a fee from the producer not to exceed the fees shown in the following schedule:

Number of bales on note:	Maximum fee allowed
1-----	25 cents.
2-6-----	25 cents plus 15 cents for each bale over 1.
7-18-----	\$1 plus 10 cents for each bale over 6.
19 and over---	\$2.20 plus 5 cents for each bale over 18.

§ 607.412 *Liens.* Eligible cotton must be free and clear of all liens except the warehouseman's lien for charges permitted under § 607.420 on warehouse-stored cotton. The signatures of the holders of all existing liens on cotton tendered as security for a loan, such as landlords, laborers, or mortgagees (but not the warehouseman, if the cotton is stored in a warehouse), must be obtained on the Lienholder's Waiver on each Form A and Form FF. If the producer tendering the cotton for loan is not the owner of the land on which the cotton was produced, all landowners and landlords must sign the Lienholder's Waiver whether or not they claim liens, unless they sign the note jointly with the producer. A fraudulent representation, as to prior liens or otherwise, will render the producer personally liable under the terms of the Loan Agreement and subject him to criminal prosecution under the provisions of the Commodity Credit Corporation Charter Act. The Lienholder's Waiver must be signed personally by all lienholders, by their agents (in which case duly executed Powers of Attorney (CCC Cotton Form 13) must be filed with the New Orleans office) or, if a corporation, by the designated officer thereof customarily authorized to execute such instruments (in which case no authority need be attached)

§ 607.413 *Set-offs.* If the producer is indebted to CCC on any accrued obligation, or if any installment or installments on any loan made available by CCC on farm-storage facilities or mobile drying equipment are past due or are payable or prepayable under the provisions of the note evidencing such loan, out of the proceeds of the price support loan, he must designate CCC or the lending agency holding such note as the payee of the proceeds of the loan to the extent of such indebtedness or installments, but not to exceed that portion of the proceeds remaining after deduction of service charges, clerks' fees, and amounts due prior lienholders. If the

producer is indebted to any other agency of the United States and such indebtedness is listed on the county debt register, he must designate such agency as the payee of the proceeds as provided above. Indebtedness owing to CCC or to a lending agency as provided above shall be given first consideration after claims of prior lienholders. County offices will furnish each approved clerk a list of the names and addresses of all persons listed on the county debt register. Lists will also be furnished to clerks in adjacent counties as is determined necessary by the county committee. These lists shall be kept up to date and revised and supplemented as determined necessary by the county committee. Before the clerk prepares loan documents, he shall determine that the producer's name is not shown on the list furnished by the county office. If the person's name is shown on such list, he shall be informed that unless he can produce satisfactory evidence that the indebtedness has been satisfied, he must go to the county office in the county issuing the list containing his name and have his loan documents completed by a clerk in the county office. A clerk in the county office will assist the producer in the preparation of such loan documents and will show in the space provided in the notes the agency to which the checks should be issued and the amount to be collected from the note. Compliance with the provisions of this section shall not constitute a waiver of any right of the producer to contest the justness of the indebtedness involved either by administrative appeal or by legal action.

§ 607.414 *Classification of cotton.* (a) All cotton tendered for loan must be classed by a Board of Cotton Examiners of the United States Department of Agriculture (hereinafter referred to as the "Board") and tendered on the basis of such classification. A Cotton Classification Memorandum Form 1 of the United States Department of Agriculture will be accepted, provided the sample is a representative sample drawn in accordance with instructions to organized cotton improvement groups for sampling cotton under the 1953 Smith-Doxey Program. If a sample has been drawn and submitted for a Form 1 classification, another sample may not be drawn and forwarded to a Board except for review. If the producer's cotton has not been sampled for a Form 1 classification, the warehouseman (for warehouse-storage cotton) receiving agency (for cotton covered by bills of lading), or county office (for farm-storage cotton), shall sample such cotton and forward the samples to the Board serving the district in which the cotton is located. A Cotton Classification Memorandum Form A3 must be inserted in each such sample. A Tag List and Record Sheet (CCC Cotton Form L, hereinafter referred to as "Form L") must be prepared by the warehouseman, receiving agency or county office, listing each sample included in a shipment to the Board. A copy of such Form L shall be included with the samples and two copies must be mailed separately to the Board. The Board will enter the classification of each bale on the Form L and return a

copy of such form to the warehouse, receiving agency or county office. The Cotton Classification Memorandum Form A3 will be returned to the producer by the Board.

(b) A charge of 25 cents per bale shall be collected from the producer by the warehouseman, receiving agency, or county office for all cotton for which samples are submitted to a Board for classification, except that no charge shall be collected for samples submitted for Form I classification. The Boards will submit billings for classing charges to the warehousemen, receiving agencies, and county offices at the end of each month. Checks or money orders covering these charges shall be made payable to "Commodity Credit Corporation" and shall be sent to the New Orleans office.

§ 607.415 *Interest rate.* Loans and charges on the cotton covered by the loans shall bear interest at the rate of 4 percent per annum from the date of disbursement to the date of repayment, except that in the case of default in satisfaction of loans on farm-storage cotton, loans will bear interest at the rate of 6 percent per annum from the date of default to the date of repayment.

§ 607.416 *Maturity.* (a) Loans mature July 31, 1954, or upon such earlier date as CCC may make demand for payment. If a producer does not repay his loan by maturity, CCC has the right to sell, purchase or pool the cotton securing the loan in accordance with the provisions of the loan agreement. If the cotton is pooled, the producer will no longer have a right to redeem the cotton but will share ratably in any overplus remaining upon liquidation of the pool. CCC shall have the right to treat any pooled cotton as a reserve supply to be marketed under such sales policies as CCC determines will promote orderly marketing, protect the interests of producers and consumers, and not unduly impair the market for the current crop of cotton, even though part or all of such pooled cotton is disposed of under such policies at less than the current domestic price for such cotton.

(b) Any sum due the producer as a result of the sale of the cotton or collections of insurance proceeds therefrom, or his ratable share from a pool, shall be payable only to the producer or his personal representative without right of assignment to or substitution of any other person.

(c) If the producer does not repay his farm-storage loan on or before maturity, he is required to deliver the cotton in accordance with the provisions of Form FF and if the cotton is not delivered by the producer, the holder of the note may enter on the premises where the cotton is stored and remove the cotton. Upon such delivery or removal, the holder may dispose of the cotton in accordance with the provisions of this section.

§ 607.417 *Safeguarding farm-storage cotton.* The producer obtaining a farm-storage loan is obligated to maintain the farm-storage structure in good repair and to keep the cotton in good condition. The producer will be responsible for any loss or damage occurring through the fault or negligence of the producer or

any other person having control of the storage structure or as a result of any cause other than fire, flood, lightning, explosion, windstorm, cyclone, or tornado, except that he will not be responsible for loss in weight of not to exceed an average of 10 pounds per bale which is due to natural shrinkage. The maximum amount of cotton stored in any structure shall be limited to 200 bales, unless the State committee determines that a larger maximum is required to make the program more effective in the State. The conversion or unlawful disposition by the producer of any bale of the cotton will render him personally liable for the payment of the mortgage indebtedness.

§ 607.418 *Warehouse receipts and insurance.* Only negotiable warehouse receipts issued by an approved warehouse, properly assigned by an endorsement in blank so as to vest title in the holder or issued to bearer will be acceptable. The warehouse receipts must show that the cotton is covered by fire insurance and must be dated on or prior to the date of the producer's notes. Each receipt must set out in its written or printed terms a description by tag number and weight of the bale represented thereby and all other facts and statements required to be stated in the written or printed terms of a warehouse receipt under the provisions of section 2 of the Uniform Warehouse Receipts Act. Warehouse receipts issued prior to August 1, 1953, which by their terms will expire prior to August 1, 1954, must bear an endorsement of the warehouseman extending the terms of the warehouse receipts for a period of one year from August 1, 1953. Block warehouse receipts will not be accepted.

§ 607.419 *Insurance on farm-storage cotton.* CCC will not require the producer to insure cotton under farm-storage loan; however, if the producer does insure the cotton, and if an indemnity is paid thereon, such indemnity shall inure to the benefit of CCC to the extent of its interest after first satisfying the producer's equity in the cotton involved in the loss.

§ 607.420 *Warehouse charges.* The Agreement of Warehouseman on each Form A must be executed by the warehouseman storing the cotton covered by the Form A not more than 15 days preceding the date of the Producer's Note on the Form A (notwithstanding the provision on Form A (3-21-52) which provides for ten days) and must not be executed subsequent to the date of the note. In the case of loans made to a cotton cooperative marketing association as provided in § 607.428, the Warehouseman's Certificate and Agreement on the Certificate of Association and Agreement of Warehouseman (CCC Cotton Form G-1, hereinafter referred to as "Form G-1") must be executed by the warehouseman storing cotton covered by such form. By executing the Agreement of Warehouseman on the Form A or the Warehouseman's Certificate and Agreement on the Form G-1, the warehouseman agrees that such cotton will be stored and handled in accordance with the Warehouseman's

Certificate and Agreement on the reverse side of the Form A or the Warehouseman's Certificate and Agreement on the Form G-1 and makes the representations contained therein, and the warehouseman further agrees to store such cotton under conditions and at rates determined as follows:

The cotton is insured against loss or damage by fire under a policy or policies providing coverage equivalent to that afforded under the standard fire policy of the State in which the cotton is stored for the full market value (if the cotton is compressed, its market value shall be the market value of flat cotton plus compression charges) at the time and place of loss and will be kept so insured so long as the warehouse receipts therefor are outstanding, unless the cotton comes under a storage agreement between the warehouseman and CCC allowing the warehouseman to cancel his insurance on the cotton. From the dates of the warehouse receipts representing such cotton (hereinafter called "the cotton") or from the date through which the producer has paid storage charges, whichever is later, through July 31, 1954, all charges on the cotton for storage and insurance (as required in § 607.418) shall be at the rate of 43 cents per bale per month or fraction thereof for cotton stored in warehouses operating compress facilities, and at the rate of 48 cents per bale per month or fraction thereof for cotton stored in warehouses not operating compress facilities, or the warehouseman's established tariff on cotton other than CCC loan cotton, whichever is less. Such charges, accrued through July 31 of any year in which these rates are in effect, shall be paid by CCC, as soon as possible after such date, on all of the cotton represented by warehouse receipts held by CCC at the time of payment: *Provided*, That on any cotton for which CCC makes payment of accrued charges through July 31 of any year, payment for the fractional part of a month prior to such date shall be at the proportionate part of the monthly rate. The warehouseman may make a charge for outhandling, including picking out by tag numbers and loading according to custom into cars or trucks; of not to exceed 15 cents per bale if such charges are included in the warehouseman's tariff: *And provided further* That no such outhandling charge may be made where collection for the service has been included in any other charge or otherwise collected. All other charges on cotton, including compression charges, and flat delivery charges on cotton moved from a warehouse operating compress facilities without payment of compression charges, will be at the rates provided in the warehouseman's established tariff in effect at the time the service is ordered performed: *Provided*, That no charge may be made with respect to the cotton that is not applicable to cotton other than CCC loan cotton stored by the warehouseman, except that the warehouseman may make a charge of not to exceed 35 cents per bale for transmitting samples to the designated classing office, postage, verifying and guaranteeing the correctness of the information for which the warehouse is responsible in the

Schedule of Pledged Cotton on the Form A or Form G-1, and executing the Agreement of Warehouseman on the Form A or the Warehouseman's Certificate and Agreement on the Form G-1, if such charges are included in the warehouseman's tariff: *And provided further*, That in no event shall such charge, a service charge, or charges for receiving, tagging, weighing, sampling on arrival, or storage of samples be collected from CCC or a purchaser of the cotton. No charge for (1) compression or (2) delivery, or out-handling, except for an out-handling charge of not to exceed 15 cents as provided in this section, will be paid with respect to cotton received by the warehouseman which has been compressed to standard density either by a gin (gin compress bale) or by another warehouseman. No charge of any kind whatsoever will be paid with respect to any of the cotton compressed to high density without the written authority of CCC. The warehouseman shall execute and submit to CCC with each voucher for amounts payable by CCC under this agreement the following certificate:

I hereby certify that I have removed from the cotton covered by this voucher only that amount of cotton necessary to secure representative samples, to properly trim the sample holes, or to otherwise maintain the cotton in the interest of good housekeeping and fire prevention incidental to the handling, storage, or compressing said cotton except for reconditioning of damaged cotton. I further certify that I have not reconditioned, picked or cleaned by blowing or brushing any of the cotton included in this voucher except as noted on report attached hereto.

The warehouseman shall store the cotton so that the tags will be visible and readily accessible so as to permit an accurate check of stocks at any time. In the event that the cotton is purchased or pooled by CCC or the loan on such cotton is extended or carried in past-due status by CCC after July 31, 1954, the rates quoted herein will remain in effect until terminated by CCC or the warehouseman at the end of any month by giving the other at least 30 days' notice, or until the cotton comes under another storage agreement between the warehouseman and CCC, whichever is earlier. If the cotton is redeemed from the loan or the cotton is sold by CCC, the charges provided in this section shall be applicable for services rendered up to and including the date of such redemption or sale, and the warehouseman shall not charge the holders of the warehouse receipts representing such cotton for such services an amount in excess of that computed in accordance with this agreement.

§ 607.421 *Loans on order bills of lading.* (a) Loans on cotton represented by order bills of lading will be available only in areas specified by the New Orleans office where there is a shortage of storage space and where the necessary arrangements for handling the cotton may be made.

(b) Cotton represented by order bills of lading will be eligible for a loan only when it is shipped by an approved receiving agency as agent for the producer. Warehousemen, ginners, and other re-

sponsible parties in areas where such loans are available may be approved to act as receiving agencies by the New Orleans office. Receiving agencies will enter into Receiving Agency Agreements with CCC. When receiving agencies are approved, notifications will be given by letter or published lists.

(c) A producer who is unable to find storage space in his local area and who wishes to obtain such a loan should deliver his cotton to a receiving agency with the request that it ship the cotton as agent for the producer to a warehouse where storage space is available. The receiving agency will complete the Schedule of Pledged Cotton on a Form A and, if it is a warehouseman, will execute the Agreement of Warehouseman thereon. If the receiving agency is not a warehouseman, it will have the cotton weighed by a public or licensed weigher and will secure a Weight and Condition Certificate in the form prescribed by CCC and execute the Receiving Agent's Certificate. The receiving agency will ship the cotton, secure order bills of lading in a form acceptable to CCC, and deliver to the producer the bills of lading, together with the Form A and Weight and Condition Certificates (if any). If the receiving agency is a warehouseman, it will be permitted to collect fees in accordance with § 607.420 and a fee of not to exceed 10 cents per bale to cover the costs of preparation of shipping documents. If the receiving agency is not a warehouseman, it will be permitted to collect from producers a fee of not to exceed the fee set forth in the Receiving Agency Agreement executed by the receiving agency, and shall post, in a conspicuous place, a notice showing the fee to be charged producers. Loans will be made at the full loan rate at the point where the receiving agency receives the cotton. CCC will pay warehouse storage charges on cotton tendered by the producer for a loan under this section, if the receiving agency is a warehouseman.

§ 607.422 *Advance loans.* (a) If a producer desires to obtain a loan under this part on cotton stored or to be stored in a warehouse, prior to the receipt of the classification of such cotton by a Board of Cotton Examiners or prior to the issuance of a warehouse receipt representing the cotton, and if the producer desires to obtain interim financing from a lending agency until such time as a CCC loan may be obtained, the lending agency may make the producer a private loan (hereinafter called "the advance loan") on such cotton on forms and in amounts agreed upon between the lending agency and the producer and may obtain from the producer a duly executed Producer's Power of Attorney (CCC Cotton Form J, hereinafter referred to as "Form J") in triplicate authorizing and directing the lending agency to prepare or cause to be prepared and execute on behalf of and in the name of the producer Form A covering all such cotton which is eligible for a loan under this part. The duplicate copy shall be delivered to the producer. On or before the date the advance loan is made, samples must have

been drawn from the cotton and submitted to a Board of Cotton Examiners for classification or, if the cotton has not arrived at the warehouse, the warehouseman must have been instructed to sample the cotton and forward the samples for classification upon receipt of the cotton at the warehouse. On or before September 1, 1953, or within 15 days after the dates of the classification certificates, or within 15 days after the dates of the warehouse receipts, whichever is later, the lending agency shall (as provided in the Producer's Power of Attorney) unless the cotton is redeemed by the producer, prepare or cause to be prepared and execute on behalf of the producer Forms A covering all such cotton which is eligible for a loan and make a CCC loan or loans to the producer under this part. The lending agency shall promptly remit to the producer any difference between the amount due on the advance loan and the proceeds of the CCC loan, less any applicable charges under this part paid by the lending agency on behalf of the producer. The producer's copies of Forms A and the canceled note evidencing the advance loan shall be forwarded to the producer. The original of the Producer's Power of Attorney shall be transmitted with the notes when they are tendered to CCC.

(b) It shall be the joint responsibility of the lending agency named in the Form J to obtain the official classification from the producer or the warehouseman and of the producer to deliver the official classification to such lending agency, within 15 days from the date of the classification certificate so that the Form A loans can be made within the specified time.

(c) It shall be the responsibility of the lending agency named in the Form J to obtain the execution of the Agreement of Warehouseman and the Clerk's Certificate on the Form A. Only bona fide employees of lending agencies making the advance loans who are approved as clerks by the county committee or approved clerks in the county office, will be permitted to execute the Clerk's Certificate on Forms A covering cotton on which advance loans have been made.

§ 607.423 *Loans on upland cotton prior to August 1, 1953.* Loans on upland cotton will be made available to producers in the area where such cotton is harvested prior to August 1, 1953. Base loan rates for warehouse locations in the early harvesting area will be announced by the New Orleans office prior to harvest. The premium or discount applicable to each eligible grade and staple length is shown in § 607.430. Other provisions for loans prior to August 1, 1953, will be the same as provided for loans after that date, except that in the event that the base loan rate based on August 1, 1953, parity is in excess of the base loan rate announced prior to such date, the difference will be paid to the producer upon his application to the New Orleans office.

§ 607.424 *Loss or damage to pledged cotton.* In any case where there is loss or damage to loan collateral, which loss or damage occurs while the cotton is pledged to CCC or a lending agency, CCC

will determine and file claim against any liable third parties for the resulting loss and, after having satisfied the amount due on the loan out of the proceeds of the claim, will credit any excess proceeds of the claim to the producer's loan account, or if the loan has been repaid, any excess proceeds of the claim will be payable to the party properly repaying the loan.

§ 607.425 *Transfer of producer's interest.* If the producer desires to sell his equity in the cotton covered by a note, he must complete the Producer's Equity Transfer Agreement in the Producer's Equity Transfer on the reverse side of the Producer's Loan Statement—A, which will be mailed to the producer by the New Orleans office at the time the notes are processed by that office. The producer must sign the Producer's Equity Transfer Agreement in the presence of a witness approved for such purpose by a county committee or a notary public and the Certificate of Witness in the Producer's Equity Transfer must be dated and signed by the witness or notary public. It will not be required that the amount paid for the producer's equity be shown, notwithstanding that space is provided for such an entry in the Producer's Equity Transfer Agreement. A producer who desires to appoint an attorney-in-fact to act in his place and stead in selling his equity in the cotton shall use Power of Attorney (CCC Cotton Form 19) and file it with applicable custodial office. The equity purchaser must complete the Certificate of Purchaser in the Producer's Equity Transfer and send it within 15 days to CCC, in care of the custodial office serving the district in which the cotton was stored at the time the loan was obtained. Upon receipt of the Producer's Equity Transfer, the custodial office will forward the note and warehouse receipts to any approved bank designated by the person requesting their release with directions to the bank to release the note and warehouse receipts to the holder of the equity transfer upon payment of the amount due on the loan. In all such cases, the bank will be instructed to return the note and warehouse receipts to the custodial office if payment is not effected within 15 days. All charges assessed by the bank to which the note and warehouse receipts are sent must be paid by the person requesting the release of the cotton. No partial release of the cotton securing one note will be permitted. In the event the Producer's Loan Statement—A is destroyed or lost, the producer may obtain a duplicate of such form from the custodial office serving the district in which the cotton is stored.

§ 607.426 *Repayments—(a) Warehouse-stored cotton.* No partial release of the cotton represented by warehouse receipts and securing a note will be permitted. If a producer desires to obtain the return of his note and the release of the cotton securing the note, he must execute the Producer's Redemption Request on the Producer's Loan Statement—A which will be mailed to the producer by the New Orleans office at the time the notes are processed by that office. The producer must send or de-

liver the Producer's Loan Statement—A to CCC, in care of the custodial office serving the district in which the cotton was stored when the loan was obtained, as shown in § 607.429. Upon receipt of the Producer's Redemption Request, the custodial office will forward the note and warehouse receipts to any approved bank designated by the producer with directions to the bank to release such note and warehouse receipts only to the producer or his authorized agent upon payment of the amount due on the loan. The bank will be instructed to return the note and warehouse receipts to the custodial office if payment is not effected within 15 days. All charges assessed by the bank must be paid by the producer. A producer who desires to appoint an Attorney-in-Fact to act in his place and stead in repaying loans shall use Power of Attorney (CCC Cotton Form 19) and file it with the applicable custodial office.

(b) *Farm-stored cotton.* If the producer desires to repay his loan and obtain the release of the cotton securing the note, he may obtain complete instructions from the county office of the county in which the cotton is stored. Partial releases will be allowed.

§ 607.427 *Tender of notes by lending agencies.* Notes (Forms A and Forms E) evidencing loans made by a lending agency which has entered into a Lending Agency Agreement—Cotton (CCC Cotton Form D) prior to the making of the loans will be eligible for purchase or pooling by CCC. Under this agreement, lending agencies which are parties thereto are required to tender to CCC, on Form C, all notes on Form A and Form E, with warehouse receipts, bills of lading (and weight and condition certificates, if required) or cotton chattel mortgages attached, representing loans made by the lending agency within 15 days after the date of disbursement of the notes. All

notes transmitted on a Form C must cover cotton stored in warehouses in the same custodial district. Separate Forms C shall be used for upland and extra long staple cotton. Notes secured by warehouse receipts, by bills of lading, by chattel mortgages, or notes executed by attorneys-in-fact, must be transmitted on separate Forms C. Each Form C shall state whether the lending agency desires CCC to purchase the notes or to place them in a pool. Upon receipt of the loan papers by the New Orleans office, they will be examined and, if found correct, will be approved and transmitted to the custodial office serving the district in which the cotton is stored, and will be purchased or placed in a pool as directed by the lending agency. Lending agencies which have previously been approved by CCC as eligible to draw drafts on CCC may, subject to such instructions and requirements as CCC may hereafter from time to time prescribe, obtain immediate payment for notes they desire to sell to CCC, by drawing sight drafts with enclosed letters of transmittal on CCC through a Federal Reserve Bank or Branch Bank approved by CCC. Notes covered by such drafts must be immediately submitted to the New Orleans office. In the event that the notes are pooled, a Certificate of Interest representing the interest in the pool acquired as the result of the deposit thereon of the notes shown on the Form C will be issued to any approved lending agency designated on the Form C.

§ 607.428 *Cotton cooperative marketing association loans.* A special form of loan agreement will be made available to cotton cooperative marketing associations whereby members of such associations may act collectively in obtaining loans. The loan rates under this agreement will be the same as the loan rates to individual producers, and eligi-

bility requirements with respect to the cotton and the producers tendering the cotton to the association and other loan provisions will be substantially the same as for loans to individual producers. Members desiring to obtain loans from their associations should contact their associations.

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Plum Order 6]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.451 Plum Order 6—(a) Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936) regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agree-

¹The loan rates shown in these schedules are based on rates announced pursuant to section 406 of the Agricultural Act of 1949. If higher loan rates are required based on the parity price of upland cotton as of the beginning of the marketing year, new schedules will be issued for extra long staple cotton.

ment and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than June 20, 1953. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 12, 1953; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on June 12, 1953, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 21, 1953, and this section should be applicable to all such shipments of such plums in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time of this section.

(b) Order. (1) During the period beginning at 12:01 a. m., P. s. t., June 20, 1953 and ending at 12:01 a. m., P. s. t., November 1, 1953 no shipper shall ship any package or container of Eldorado plums unless:

(i) Such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious

damage in addition to the tolerances permitted for such grade; and

(ii) Such plums are of a size not smaller than a size that will pack a 4 x 5 standard pack.

(2) Section 936.143 of the rules and regulations, as amended (7 CFR 936.100 et seq., 16 F. R. 712, 2939) sets forth the requirements with respect to the inspection and certification of shipments of plums. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(3) As used in this section, "U. S. No. 1" and "serious damage" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh) § 51.360 of this title; "standard pack" shall have the applicable meanings of the terms "standard pack" and "equivalent size" as when used in § 936.142 of the aforesaid amended rules and regulations; and all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 632c)

REGULATION BY GRADES AND SIZES

§ 936.452 Plum Order 7—(a) Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936) regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time interven-

ing between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than June 20, 1953. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 12, 1953; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on June 12, 1953, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 21, 1953, and this section should be applicable to all such shipments of such plums in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time of this section.

(b) *Order* (1) During the period beginning at 12:01 a. m., P. s. t., June 20, 1953, and ending at 12:01 a. m., P. s. t., November 1, 1953, no shipper shall ship any package or container of Wickson plums unless:

(i) Such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and

(ii) Such plums are of a size not smaller than a size that will pack a 4 x 4 standard pack.

(2) Section 936.143 of the rules and regulations, as amended (7 CFR 936.100 et seq., 18 F. R. 712, 2839) sets forth the requirements with respect to the inspection and certification of shipments of plums. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(3) As used in this section, "U. S. No. 1" and "serious damage" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh) § 51.360 of this title; "standard pack" shall have the applicable meanings of the terms "standard pack" and "equivalent size" as when used in § 936.142 of the aforesaid amended rules and regulations; and all other terms shall have the same meaning as when used in the amended marketing agreement and order.

PART 287—FIELD OFFICERS: POWERS AND DUTIES

Section 287.1 is amended to read as follows:

§ 287.1 *Definitions*—(a) *Reasonable distance from external boundary.* The phrase "within a reasonable distance from any external boundary of the United States" as used in section 287 of the Immigration and Nationality Act, means within a distance of not exceeding 100 air miles from any external boundary of the United States or any shorter distance which may be fixed by the district director, or, so far as the power to board and search aircraft is concerned, any distance fixed pursuant to paragraph (b) of this section.

(b) *Reasonable distance; fixing by district directors.* In fixing distances not exceeding 100 air miles pursuant to paragraph (a) of this section, district directors shall take into consideration topography, confluence of arteries of transportation leading from external boundaries, density of population, possible inconvenience to the traveling public, types of conveyances used, and reliable information as to movements of persons effecting illegal entry into the United States: *Provided,* That whenever in the opinion of a district director a distance in his district of more than 100 air miles from any external boundary of the United States would because of unusual circumstances be reasonable, such district director shall forward a complete report with respect to the matter to the Commissioner, who may, if he determines that such action is justified, declare such distance to be reasonable.

(c) *Certain powers of immigration officers.* Any immigration officer is hereby authorized to exercise anywhere in the United States all the powers conferred by section 287 of the Immigration and Nationality Act, including:

(1) The power to interrogate any alien or person believed to be an alien as to his right to be or to remain in the United States;

(2) The power to execute warrants and other processes, to arrest without warrant, to board and search vessels and other conveyances without warrant, and to enter private lands within a distance of twenty-five miles of any external boundary of the United States without warrant to prevent the illegal entry of aliens into the United States;

(3) The power to administer oaths and to take and consider evidence concerning the privilege of any person to enter, reenter, pass through, or reside in the United States, or concerning any matter which is material or relevant to the enforcement of the Immigration and Nationality Act and the administration of the Service; and

(4) The power to conduct a search, without warrant, of the person, and of the personal effects in the possession of any person seeking admission to the United States.

(d) *Disposition of felony cases.* The cases of persons arrested for felonies under paragraph (4) of section 287 (a) of the Immigration and Nationality Act shall be handled administratively in accordance with the applicable provisions of § 287.2, but in no case shall there be prejudiced the right of the person arrested to be taken without unnecessary delay before another near-by officer empowered to commit persons charged with offenses against the laws of the United States.

(e) *Power to arrest persons who bring in, transport, or harbor certain aliens, or induce them to enter.* Any immigration officer shall have authority to make arrests for violations of any provision of section 274 of the Immigration and Nationality Act.

(f) *Patrolling the border.* The phrase "patrolling the border to prevent the illegal entry of aliens into the United States" as used in section 287 of the Immigration and Nationality Act means conducting such activities as are customary, or reasonable and necessary, to prevent the illegal entry of aliens into the United States.

PART 337—OATH OF ALLEGIANCE

Paragraph (a) of § 337.1 is amended to read as follows:

§ 337.1 *Oath of allegiance*—(a) *Form of oath.* Except as otherwise provided in the Immigration and Nationality Act, a petitioner or applicant for naturalization shall, before being admitted to citizenship, take in open court the following oath of allegiance, to which he shall thereafter affix his signature on his petition or application for naturalization:

I hereby declare, on oath, that I absolutely and entirely renounce and abjure all allegiance and fidelity to any foreign prince, potentate, state, or sovereignty, of whom or which I have heretofore been a subject or citizen; that I will support and defend the Constitution and laws of the United States of America against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I will bear arms on behalf of the United States when required by the law; or that I will perform noncombatant service in the armed forces of the United States when required by the law; or that I will perform work of national im-

portance under civilian direction when required by the law; and that I take this obligation freely without any mental reservation or purpose of evasion; so help me God. (Sec. 103, 66 Stat. 173; 8 U. S. C. 1103)

NOTE: The record-keeping and reporting requirements of these regulations have been approved by the Bureau of the Budget in accordance with the Federal Reports Acts of 1942.

This order shall become effective on the date of its publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the rules prescribed by the order, insofar as they do not relate to interpretative rules or to matters of agency management or procedure, relieve restrictions and are clearly advantageous to persons affected thereby.

Attorney General.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Reg. No. SR-396]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

PART 60—AIR TRAFFIC RULES

PART 61—SCHEDULED AIR CARRIER RULES

SPECIAL CIVIL AIR REGULATION; LONG-DISTANCE DOMESTIC SCHEDULED AIR CARRIER OPERATIONS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 12th day of June 1953.

Special Civil Air Regulation SR-382 which terminates June 30, 1953, provides special operating rules for scheduled air carrier aircraft operating in long-distance domestic operations at altitudes in excess of 12,500 feet above sea level east of longitude 100° W and at altitudes in excess of 14,500 feet above sea level west of longitude 100° W. At the time SR-382 was adopted it was anticipated that the revision of Parts 40 and 61, which incorporate similar provisions, would be in effect prior to June 30, 1953. Although revised Part 40 was recently adopted by the Board, it will not become effective until October 1, 1953. It is therefore desirable to extend the rules provided in SR-382 until October 1, 1953, at which time revised Part 40 will apply.

Interested persons have been afforded an opportunity to participate in the making of this regulation, and due consideration has been given to all relevant matter presented. Since this regulation imposes no additional burden on any

person, it may be made effective without prior notice.

In consideration of the foregoing the Civil Aeronautics Board hereby makes and promulgates the following Special Civil Air Regulation effective immediately:

Flights of scheduled air carriers while at altitudes in excess of 12,500 feet above sea level east of longitude 100° W and 14,500 feet above sea level west of longitude 100° W shall comply with the applicable provisions of the Civil Air Regulations except as follows:

(a) Such flights need not comply with the requirements of § 60.45, § 61.252, or any sections of Parts 40 and 61 concerning civil airways.

(b) Such flights need not comply with the requirements of § 60.21, § 60.43, § 60.47, and § 61.171 (c) except to the extent which the Administrator may prescribe.

(c) Each pilot in command engaged in those operations shall be qualified for the route, if he is qualified for operations over any regular authorized route for the air carrier involved between the regular terminals for such operations.

(d) Each dispatcher who dispatches aircraft on flights authorized by this regulation shall be qualified under § 61.154 of the Civil Air Regulations for operation over an authorized route for the air carrier involved between the regular terminals of such operations: *Provided*, That when he is qualified only on a portion of such route he may dispatch aircraft only after coordinating the dispatch with dispatchers who are qualified for the other portions of the route between the points to be served.

This regulation supersedes Special Civil Air Regulation SR-382 and shall terminate October 1, 1953, unless sooner superseded or rescinded.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

Secretary.

[Supp. 10]

PART 43—GENERAL OPERATION RULES

VALIDITY PERIOD OF A MEDICAL CERTIFICATE

The purpose of this interpretation is to clarify the validity period of a medical certificate or renewal issued as evidence that the physical requirements have been met for the appropriate pilot rating.

Section 43.41-1 is adopted to read as follows:

§ 43.41-1 *Medical certificate and renewal (CAA interpretations which apply to § 43.41)* A medical certificate becomes valid on the date the physical examination is conducted, and continues in effect for the remainder of that month plus the number of calendar months specified in § 43.41. A calendar month includes that period of time extending from the first day of any month as de-

lineated by the calendar through the last day thereof. As an example, if an airline transport pilot is issued a first class medical certificate on any day during January, he must renew such certificate within six calendar months, i. e., before July 31, in order to exercise the privileges of an air-line transport pilot rating after that date.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 631, 52 Stat. 1008, as amended; 49 U. S. C. 532)

This interpretation shall become effective June 30, 1953.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 4—DEPENDENTS AND BENEFICIARIES CLAIMS

SUICIDE AS RESULT OF SERVICE-CONNECTED MENTAL UNSOUNDNESS; BASIC REQUIRE- MENTS OF SERVICE AND DEATH

1. A new § 4.19a is added as follows:

§ 4.19a *Suicide as result of service-connected mental unsoundness—(a) General definition and question.* (1) In order for suicide to constitute willful misconduct, the act of self-destruction must be intentional.

(2) A person of unsound mind is incapable of forming an intent (*mens rea*, or guilty mind, which is an essential element of crime or willful misconduct)

(3) In determining willful misconduct in a case of suicide under Veterans' Administration regulations and procedure, the question for determination is whether the person was of sound mind or unsound mind at the time of the commission of the act of self-destruction.

(4) It is a constant requirement for favorable action under this section that the mental unsoundness, when shown, be service-connected or due to service-connected disability.

(b) *Evidence of mental unsoundness.* (1) Whether a person, at the time of suicide, was so unsound mentally that he did not realize the consequences of such an act, or was unable to resist such impulse, is a question to be determined in each individual case, based on all available lay and medical evidence pertain-

ing to his mental condition at the time of suicide.

(2) The act of suicide is not in itself sufficient to justify a finding of mental unsoundness. Perhaps the majority of those who take their own lives are suffering from a pronounced emotional upheaval at the time and not infrequently for a period of time prior to the actual commission of the act. However, certainly not all who commit suicide are unsound mentally at the time. It is believed that there are certain individuals in our culture who are prompted to commit suicide (and actually accomplish the act) because of some ethical code which completely dominates their behavior. There are others, who might be classified as pathological personality types but who are neither psychotic nor neurotic, who make preparations for suicide for the purpose of impressing others and then, through some accidental happening, actually accomplish the act.

(3) In instances of suicide not otherwise attributable to an intent to secure monetary benefits, to escape punishment or disgrace, or to other environmental stresses, mental unsoundness should generally be conceded when medical examination has demonstrated a psychosis or a psychoneurosis with disturbance of behavior or other psychiatric manifestations frequently symptomatic of an acquired mental disorder recognized as causing mental unsoundness, and it is held that the person had such mental disorder at the time of suicide. Also, mental unsoundness should generally be conceded when organic brain disease is known to exist. In the absence of a record of the existence of a definite psychiatric disorder prior to suicide, a finding of mental unsoundness at the time of suicide will be warranted where there is satisfactory lay or medical evidence of a change of personality with disturbance of behavior or other psychiatric manifestations symptomatic of an acquired mental disorder recognized as causing mental unsoundness, and it is held that such mental disorder existed at the time of suicide. The existence of a character and behavior disorder (psychopathic personality) or primary mental deficiency should not be considered as establishing mental unsoundness. However, a finding of mental unsoundness would be warranted when the evidence shows symptoms of a superimposed, acquired mental disorder recognized as causing mental unsoundness, and it is held that such acquired mental disorder was present at the time of suicide.

(4) In instances of suicide otherwise attributable to an intention of maturing insurance, or securing other monetary benefits, or of escaping punishment or disgrace, a finding of mental unsoundness should not be made unless it is shown that an acquired mental disorder recognized as causing mental unsoundness was existent at the time of the act or circumstance on account of which suicide was committed.

(5) In instances of suicide apparently attributable to ill health and without a medical record or other acceptable evidence of definite psychiatric disorder, as outlined in subparagraphs (3) and (4)

of this paragraph, consideration should be given to the nature and extent of the disease or injury and concomitant symptoms causing ill health, in relation to a determination as to whether an acquired mental disorder of toxic or other etiology had developed and was such as to warrant a finding of mental unsoundness at the time of suicide.

(6) In instances of suicide apparently attributable to the loss of a member of one's family, consideration should be given to all available lay and medical evidence pertaining to the person's mental condition in determining whether suicide is attributable to the development of an acquired mental disorder recognized as causing mental unsoundness and warranting a finding that such mental disorder was existent at the time of suicide.

(7) In instances of suicide otherwise attributable to such factors as marital discord, loss of fortune, or other catastrophe, a finding of mental unsoundness might be warranted, providing medical examination has demonstrated disturbances of conduct or other symptoms showing an acquired mental disorder recognized as causing mental unsoundness or where there is other competent evidence clearly showing a change in personality with disturbances of behavior or other manifestations characteristic of such mental disorder, and it is held that this condition was existent at the time of suicide. In other words, before a finding of mental unsoundness is made of cases of suicide apparently due to such environmental stresses, it should be clearly shown that a significant change had taken place in the personality of the individual, resulting in the development of an acquired mental disorder recognized as causing mental unsoundness, and that such disorder was existent at the time of suicide.

(8) Section 3.65 of this chapter should be considered in cases involving diseases or injuries of willful misconduct origin within the purview of § 3.65 of this chapter.

(c) *Evaluation of evidence.* (1) In any case where the rating agency, after consideration of all the evidence and the provisions of this section, with special consideration given to paragraph (d) of this section, is unable to reach a determination as to whether an acquired mental disorder recognized as causing mental unsoundness existed at the time of suicide, an advisory opinion may be secured by reference of the case to the nearest installation of the department of medicine and surgery having a psychiatric unit. Reference for advisory medical opinion may also be helpful in determining the etiology, character, and significance of any psychiatric symptomatology existent at the time of suicide in instances where the person was suffering from a service-connected malignant tumor, such as carcinoma or sarcoma or other profoundly symptomatic disease or injury with seemingly hopeless prognosis.

(2) In reference to service department records, in which information is furnished by an investigation officer or board as a result of an investigation of suicide, oftentimes conclusions are

reached that the veteran was morbid, depressed, worried, restless, and the like, with little or no testimony adduced or available to support such conclusions. Since the investigator or board was the Government's duly authorized representative to ascertain the facts, due credence should be given such evidence unless there is serious doubt or other contradictory evidence available to impeach the evidence detailed. Moreover, it must be borne in mind that the investigator or board may have had the advantage of firsthand observations and certain impressions that may be helpful in making a finding as to suicide and the mental status of the veteran, which may not be completely portrayed in the data set forth by the service department. (See § 3.66 of this chapter. Under existing policy, affirmative evidence is considered necessary to justify reversal of service department findings where Veterans' Administration criteria do not otherwise warrant contrary findings.)

(d) *Application of Public Law 361, 77th Congress.* In the individualization of each case, full consideration should be given the provisions of Public Law 361, 77th Congress, with particular reference to the stresses and strains of service, combat service, etc., in evaluating behavior contrasts, in arriving at the etiology of mental disease, and in determining mental unsoundness at the time of suicide. In the cases of suicide of veterans with such service hardships, very little definite proof of mental unsoundness should ordinarily be required. Each case should be decided upon its own merits in the light of common sense, with the benefit of reasonable doubt accorded the claimant, and with a view of substantial justice, both to the claimant and to the Government.

2. In § 4.300, paragraphs (a) (1) (2) and (b) are amended two read as follows:

§ 4.300 *Basic requirements of service and death.* (a) The servicemen's indemnity shall be payable based on active service rendered on or after June 27, 1950, where death occurred in active service or, where death occurred within 120 days after separation or release from active service, if the serviceman had been called to extended active duty, including a call to active duty for training purposes, for a period exceeding 30 days. The additional 120-day coverage extends to any serviceman called to active service for a period exceeding 30 days, notwithstanding the fact that any such person may have been separated or released from such active service prior to having served for a period exceeding 30 days. The character of separation or release from active service is not material. See, however, § 4.316. For the purposes of death in active service, the following service is included:

(1) Active service in the Army, Navy, Air Force, Marine Corps, and Coast Guard, or active service, including active duty for training purposes, in the Reserve components thereof. (In time of national emergency, the National Guard organizations or units of the various States, territories, and the District of Columbia may be mustered into the

Federal Service in answer to a call or order of the President of the United States. Service rendered after muster into the Federal Service is as a member of the Army or Air Force. When serving on such extended active duty in the Army or Air Force, the entitlement of guardsmen to indemnity is the same as that of the Regular Establishment and the Reserve components of the Armed Forces on extended active duty.)

(2) National Guard when called to active duty or active training duty for 14 days or more under sections 5, 81, 92, 94, 97 and 99 of the National Defense Act (act of June 3, 1916) as amended. For indemnity coverage, duty must be performed in the interests of the Federal Government, purely State duty being excluded. Accordingly, National Guardsmen called to active duty by the Governor of a State in connection with an emergency, such as flood relief, to quell a riot, or to impose martial law, are excluded.

(b) The servicemen's indemnity shall be payable where the serviceman is deemed to have been in active service at the time of his death, as follows:

(1) Persons who served on or after June 27, 1950, in the Reserve components, including the National Guard, while engaged in aerial flights in Government-owned or leased aircraft for any period with or without pay as an incident to their military or naval training; (there is no indemnity coverage while undergoing inactive training duty, such as assemblies for drill or instruction, except as comprehended under this subparagraph. Engagement in aerial flights in Government-owned or leased aircraft has to be an incident to military or naval training. Coverage is not confined to persons assigned as members of the crew on the flights, but extends to those persons designated as passengers who are engaged in aerial flights as part of their training duty, such as members of combat units (paratroopers), trainees, administrative and logistic personnel, etc. It is not the particular position they occupy in aerial flights but their status of training duty which determines whether they are deemed to be in active service under the provisions of this subparagraph. While "Government-owned or leased aircraft" is restricted to federally owned or leased aircraft, all military or naval aircraft are federally owned and title to all aircraft used by the various National Guards remains in the Federal Government. Accordingly, where it is shown that death occurred in a National Guard aircraft, it will not be necessary to secure further information as to Federal ownership or lease, in the absence of information to the contrary.)

(2) Persons (volunteers) who have been or are provisionally accepted on or after June 27, 1950, and directed to report to a place for final acceptance or for entry upon active duty in the military or naval service, and who died or shall die as the result of disability incurred while en route to such place and within 120 days after the incurrance of such disability (the following categories are comprehended under this subpara-

graph: (i) Persons (volunteers) who have been or are provisionally accepted and directed to report to the place of final acceptance, and (ii) reservists of the Army, Air Force, Navy, Marine Corps, or Coast Guard called to active duty, including active for training purposes, subject to passing a final type physical examination prior to acceptance for such duty. Coverage of persons provisionally accepted (volunteers) is limited to those who died or shall die as a result of disability incurred while en route from the place of assembly to the induction station, and does not extend to travel to the place of assembly or to the period after rejection, including the return trip. Coverage of reservists under this subparagraph is limited to those cases in which the reservist is not placed on active duty, including active duty for training, prior to physical examination but is called to such duty subject to passing a final type physical examination, and does not extend to any period after rejection, including the return trip. Reservists who are called to active duty, including active duty for training, by the terms of their orders, but the duration of such duty is made conditional upon medical examination to determine their fitness for continuance on duty, are comprehended under paragraph (a) (1) of this section, by virtue of being in the active service.)

(3) Registrants (selectees) under the Selective Service Act of 1948, as amended (designated as the "Universal Military Training and Service Act" by Public Law 51, 82d Congress) who on or after June 27, 1950, in response to an order to report for induction into the Armed Forces and who, after reporting to a local draft board, died or dies as the result of disability incurred while en route from such draft board to a designated induction station and within 120 days after the incurrance of such disability. (Coverage of registrants (selectees) is limited to those who have died or shall die as a result of disability incurred while en route from the place of assembly or draft board to the induction station, and does not extend to travel to the place of assembly or draft board or to the period after rejection, including the return trip.)

(Sec. 5, 43 Stat. 693, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 33 U. S. C. 11a, 425, 707)

This regulation is effective June 19, 1953.

Ten days before the last day of each quarter, postmasters shall place a notice in each rented box that the rent is due and payable on or before the last day of the quarter. (b) *When to be affixed*—(1) *At other than city delivery post offices.* Postmasters at other than city delivery post offices shall not affix postage-due stamps to part-paid or unpaid matter of any class until the delivery thereof has been requested unless it is addressed for delivery on a rural route. (See § 52.35 of this chapter.)

(2) *At city delivery post offices.* At city delivery post offices postage-due stamps shall be affixed to all part-paid or unpaid mail of the first class received for delivery, unless a forwarding order is on file, in which case such matter prepaid at least one full rate shall be forwarded without affixing due stamps. Postage-due stamps shall not be affixed to part-paid or unpaid matter of the second, third, or fourth classes unless there is good reason to believe that the delivery thereof can be effected, as in the case of matter returned to publisher or that returned to sender under his pledge guaranteeing the payment of return postage. In cases where postage due is required on matter which is to be delivered through lock boxes or general delivery, the due stamps shall not be affixed until the deficient postage has been paid.

APPRAISEMENT OF MERCHANDISE

ELIMINATION OF REQUIREMENT OF REQUESTS AS PREREQUISITE TO FURNISHING VALUE INFORMATION

Notice is hereby given that, pursuant to the authority contained in section 251 of the Revised Statutes and sections 502 and 624 of the Tariff Act of 1930 (19 U. S. C. 66, 1502, 1624) and for the purpose of simplifying the filing and amendment of entries and the appraisement of merchandise, from the points of view of both importers and the Government, it is proposed to amend § 14.4 of the Customs Regulations of 1943 (19 CFR 14.4) to eliminate the requirement that value information be requested by importers as a prerequisite to the furnishing of such information by appraising officers, the terms of which proposed amendment, in tentative form, are as follows:

The requirement that value information be requested by importers as a prerequisite to the furnishing of such information by appraising officers has been found to serve little useful purpose in the majority of cases. It is, therefore, deemed advisable to permit appraising officers to furnish value information to importers whether or not the information has been specifically requested, except in a case when information has been withheld from the appraiser or there has been concealment or misrepresentation of facts.

Accordingly, § 14.4 of the Customs Regulations of 1943 (19 CFR 14.4) as amended, is hereby further amended as follows:

§ 14.4 *Furnishing information as to value.* An appraising officer may furnish to importers the latest information as to value in his possession, subject to the following conditions:

(a) Information shall be given only in regard to merchandise entered or to be entered at his port, and after its arrival, or upon satisfactory evidence that it has been exported and is en route to the United States.

(b) The information shall be given with the understanding and agreement that it is in no sense an appraisement or binding upon the appraiser's action on appraisement and with the further understanding that the importer will present all invoices, papers, documents, and other information relative to the value of the merchandise which may come into his possession or be available to him before the appraisement is completed or, if received after appraisement, before the expiration of the collector's appeal period provided for in section 501 of the Tariff Act of 1930, as amended.

(c) The furnishing of information by an appraising officer shall be predicated on cooperation by the importer. If the appraising officer has reason to believe that the importer has withheld information in his possession, or that he has otherwise attempted to conceal or misrepresent the facts or to deceive the appraiser as to the value of the mer-

chandise, such officer, with the approval of the appraiser, shall refuse to give any information to the importer with respect to the shipment involved.

(d) If the appraising officer concludes that the appraised value of an importation will differ from the entered value, he shall inform the importer as to the value at which appraisement is contemplated and the importer shall be afforded a reasonable opportunity to amend the entry, unless the appraising officer has reason to believe that the importer has withheld information or concealed or misrepresented the facts, as stated in paragraph (c) of this section.

(R. S. 251, secs. 502, 624, 46 Stat. 731, 750; 19 U. S. C. 66, 1502, 1624)

This notice is published pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003) Prior to the issuance of the proposed amendment, consideration will be given to any relevant data, views, or arguments pertaining thereto which are submitted in writing to the Commissioner of Customs, Bureau of Customs, Washington 25, D. C., and received not later than 60 days from the date of publication of this notice in the FEDERAL REGISTER. No hearing will be held.

GUSTAVO PEREZ AND J. PEREZ, S. A.

ORDER TEMPORARILY DENYING EXPORT PRIVILEGES

In the matter of Gustavo Perez and J. Perez, S. A., Belgica No. 818, Habana, Cuba, respondents.

The Director of the Investigation Staff, Office of International Trade, United States Department of Commerce, having applied to a Compliance Commissioner, pursuant to § 382.11, Export Control Regulations promulgated under the Export Control Act of 1949, as amended, for an order temporarily suspending the export privileges of Gustavo Perez of Belgica No. 818, Habana, Cuba, and all persons, firms, and corporations with which he may be related by ownership, control, or position of responsibility, pending final disposition of an indictment against him charging violation of the act and regulations thereunder;

And the Compliance Commissioner having considered said application and having recommended that it be granted in a report together with accompanying documents transmitted by him to the undersigned Assistant Director for Export Supply:

And it appearing therefrom that Gustavo Perez is charged in an indictment found in the United States District Court for the Eastern District of Louisiana, New Orleans Division, with having entered into a conspiracy with certain individuals in the United States whereby, by means of bribing an export licensing officer and forming dummy firms or corporations, at a time when rice exports to Cuba were subject to quota restrictions, these individuals contrived to violate the Export Control Act and the regulations promulgated thereunder to the end that they exported to Perez' firm, J. Perez, S. A., approximately 4,450,000 pounds of milled rice, a quantity far in excess of the quantity which could have been licensed to these individuals under the then quotas and regulations; and it further appearing therefrom that fellow conspirators named as defendants in the indictment have been convicted either on the conspiracy count or on related unlawful export counts but that Perez remains un-

tried thereon because he is a fugitive and remains in Cuba beyond the jurisdiction of this country and it further appearing therefrom that Perez and his firm, J. Perez, S. A., are actively engaged in Cuba in the receipt of exports from the United States, being among the largest importers of rice from the United States;

And, since it is not conducive to effective enforcement of the Export Control Act that persons charged in criminal indictments under that act be permitted to participate in privileges subject to the act while they continue to avoid trial by evading the jurisdiction, I do hereby find that the order recommended by the Compliance Commissioner is appropriate and reasonably necessary to protect the public interest.

It is now, therefore, ordered as follows:

(1) Gustavo Perez, the firm, J. Perez, S. A., their successors or assigns, directors, officers, associates, partners, representatives, agents and/or employees be and they hereby are denied the privileges of exporting, receiving, or otherwise participating, directly or indirectly in any exportation of any commodity, or of technical data, from the United States to any destination, including Canada, and of participating, directly or indirectly, in the financing, forwarding, transporting, or other carrying of such exports: *Provided, however* That nothing herein shall be deemed to revoke any validated export license presently outstanding nor to prohibit the export to any such person or persons of any commodity licensed under any such presently outstanding export license.

(2) Such denial of export privileges shall apply not only to the named respondents and each of them, but also to any person, firm, corporation, or business organization with which they, or any of them, may be now or hereafter related by ownership, control, position of responsibility, or other connection in the conduct of trade involving exports of commodities from the United States or the receiving of such exports.

(3) This order shall be effective from the date of issuance until and pending final disposition of the indictment found in the United States District Court for the Eastern District of Louisiana, New Orleans Division, charging Gustavo Perez with conspiracy to violate the Export Control Act.

(4) A certified copy of this order shall be served upon each of the named respondents.

(5) In accordance with the provisions of § 382.11 (c) of the Export Control Regulations, the respondents may at any time move to vacate or modify this temporary suspension order by filing an appropriate motion therefor with the Compliance Commissioner and may request oral hearing thereon, which if requested, shall be held before the Compliance Commissioner at the earliest possible date.

Dated: June 15, 1953.

CITIES SERVICE CO. ET AL.

NOTICE OF FILING BY NON-AFFILIATED HOLDING COMPANIES FOR AUTHORITY TO SELL AND ACQUIRE COMMON STOCKS OF A PUBLIC UTILITY COMPANY AND A NON-UTILITY COMPANY

JUNE 15, 1953.

In the matter of Cities Service Company, Republic Light, Heat and Power Company Inc., Gas Advisers, Inc., File No. 70-3078; National Fuel Gas Company, File No. 70-3077.

Notice is hereby given that Cities Service Company ("Cities") a registered holding company, Republic Light, Heat and Power Company, Inc. ("Republic") a public utility subsidiary of Cities, and Gas Advisers, Inc. ("Gas Advisers") a mutual service company owned by various subsidiaries in the Cities System which are served by said service company, have filed a joint application-declaration, pursuant to the Public Utility Holding Company Act of 1935 ("act"),

and that National Fuel Gas Company ("National") a non-affiliated registered holding company, has also filed an application-declaration, pursuant to said act, relating to the same matter. Applicants-declarants have designated sections 6, 7, 9, 10, 11 and 12 of the act and Rules U-42, U-43 and U-44 as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than June 29, 1953 at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matters, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said applications-declarations which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after June 29, 1953, said applications-declarations, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said applications-declarations which are on file in the offices of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Cities proposes to sell and National proposes to purchase all of the outstanding capital stock, consisting of 33,746 shares of common stock, par value \$100 per share, of Republic, a gas utility company operating in the general vicinity of Buffalo, New York, and all of the outstanding capital stock, consisting of 2,000 shares of no par value common stock, of Penn-York Natural Gas Corporation ("Penn-York"), a non-utility natural gas production and transmission company, for an aggregate consideration of \$5,150,000 in cash pursuant to the terms of an agreement dated April 29, 1953. The basic purchase price of \$5,150,000, of which \$4,650,000 represents the purchase price of the Republic stock and \$500,000 the purchase price of the Penn-York stock, is subject to adjustment to reflect changes in the net worth of Republic and Penn-York from December 31, 1952 to the close of the calendar month immediately preceding the sale.

The basic price of the Penn-York stock was agreed upon with the understanding that Penn-York will, prior to the sale and in addition to its regular quarterly dividends, declare from earned surplus an aggregate of \$350,000 of dividends on its outstanding common stock and issue its promissory notes in said amount to Cities. Also, prior to said sale, Penn-York will amend its Articles of Incorporation so as to increase its authorized common stock from 2,000 to 4,000 shares, and, simultaneously with the sale of the Penn-York stock, Penn-York will issue and sell to National 1,400 shares of its newly authorized no par value common stock at

\$250 per share, subject to adjustment. Penn-York will use the proceeds of such sale to pay the above-described note for \$350,000.

Cities states that the proposed sale of the common stock of Republic will be in compliance with the Commission's order of May 5, 1944, as modified and clarified by Supplemental Order dated October 12, 1944, pursuant to section 11 (b) (1) of the act, directing, among other things, that Cities dispose of its interest in Republic.

The net proceeds from the sale of the Republic stock will be applied by Cities to the purchase of additional shares of common stock of its wholly-owned subsidiary, Cities Service Oil Company (Pa.)

National owns all or a majority of the stock of certain public utilities operating gas plants in western New York and western Pennsylvania, and in particular Iroquois Gas Corporation ("Iroquois") and Pennsylvania Gas Company ("Pennsylvania"). It is stated that Republic adjoins the service areas of Iroquois and Pennsylvania and that the principal cities and villages served by Republic and Iroquois are all within one metropolitan area, with the City of Buffalo as its center. Republic now serves both natural and manufactured gas. National intends to change the customers now being served with the manufactured gas to a mixed gas service, similar to that of Iroquois, provided an additional supply of gas is made available to Iroquois. National represents that when conditions are such that service can be rendered at uniform rates in both Republic and Iroquois territory, it intends to merge the companies into one operating public utility.

It is further stated that the properties of Penn-York are necessary to the operations of Republic as more than three-quarters of Republic's supply of natural gas is received through the facilities of Penn-York. National states that it is contemplated that the properties of Penn-York can eventually be merged in whole or in part with one or more of the subsidiaries in the National system.

Republic presently owns 35 shares of the common stock, par value \$100 per share, of Gas Advisers, and Penn-York owns 10 shares of the common stock with a par value of \$100 per share of Cities Service Petroleum, Inc. ("Petroleum") a subsidiary service company, but not a mutual service company within the meaning of the act. Republic proposes to sell, and Gas Advisers proposes to purchase for retirement, the said 35 shares of Gas Advisers' stock for a consideration of \$3,500, and concurrently therewith the service contract, dated January 1, 1938, between Republic and Gas Advisers will be terminated. Penn-York also proposes to sell, and Petroleum proposes to purchase for retirement, said 10 shares of Petroleum's stock for a consideration of \$1,000, and concurrently therewith the service contract, dated January 1, 1938, between Penn-York and Petroleum will be terminated.

Prior to the proposed sale, certain agreements were entered into between Cities and Republic and between Cities

and Penn-York relating to consolidated Federal income and excess profits tax returns for the years prior to 1950. Republic and Penn-York filed separate Federal income and excess profits tax returns for the years 1950, 1951, and 1952. In order to settle and adjust all liability for Federal income and excess profits taxes of Republic and Penn-York, Cities proposes to enter into tax agreements with said companies, which provide, in substance, for the indemnification of Republic by Cities against any liability for Federal income and excess profits taxes for any period to and including December 31, 1952, and for the indemnification of Penn-York by Cities against any liability for Federal income and excess profits taxes for any period to and including the date of said agreement. Such agreements further provide for the assignment by Republic and Penn-York to Cities of all of their right and interest in any refunds or credits for Federal income and excess profits taxes for said periods. In connection with such indemnification of Republic and Penn-York, Republic and Penn-York agree to pay Cities, on the date of said agreements, the unexpended balance of reserves accrued on their books for Federal income and excess profits taxes in respect of all years to and including the year 1952. In addition, Penn-York agrees to pay Cities the amount of reserves accrued on its books for Federal income and excess profits taxes for the period from January 1, 1953, to date of sale, including an estimated amount to the extent not determinable. Such payments are to be made in four installments as follows: 45 percent of said sum on March 15, 1954, 45 percent on June 15, 1954, 5 percent on September 15, 1954, and 5 percent on December 15, 1954.

It is stated that the transactions proposed herein by Penn-York and Petroleum are considered to be exempt from the provisions of the act and rules promulgated thereunder by virtue of the provisions of Rule U-3D-15.

Pursuant to a Loan Agreement, dated May 8, 1953, with The Chase National Bank of the City of New York, National proposes to borrow an aggregate amount not to exceed \$5,000,000 on or before October 1, 1953. The loan will be evidenced by a promissory note dated as of the date of such loan, maturing on July 15, 1955, and bearing interest at the rate of 3 percent per annum to and including July 14, 1954, and at the rate of 3¼ percent per annum thereafter. In the event of prepayment of the loan from the proceeds, or in anticipation, of any bank borrowing, the company is required to pay a premium of ½ of 1 percent of the amount prepaid. National is to pay a commitment fee, computed at the rate of ¼ of 1 percent per annum, from July 15, 1953, to October 1, 1953, or such other date as the loan is made, whichever is earlier, on the amount of the bank's commitment. National proposes to use the proceeds from the loan, together with the necessary additional funds from its treasury, to purchase the common stocks of Republic and Penn-York.

It is represented that no State commission or any other Federal commission has jurisdiction over the proposed transactions, other than the Public Service Commission of New York, which has jurisdiction over the acquisition by National of the common stock of Republic. An application is pending before that Commission for permission to acquire such stock.

Cities states that its expenses to be incurred in connection with the proposed transactions will amount to \$3,500. National estimates that its expenses will amount to \$14,500, including legal expenses of \$13,000.

It is requested that the Commission's order herein make the necessary findings and contain the recitals required by Supplement R and section 1808 (f) of the Internal Revenue Code, as amended, with respect to certain of the proposed transactions, and that the order become effective upon its issuance.

By the Commission,

[SEAL] ORVAL L. DUBOIS,
Secretary.

AMERICAN RESEARCH AND DEVELOPMENT
CORP. AND IONICS, INC.

ORDER EXEMPTING CERTAIN TRANSACTIONS
BETWEEN AFFILIATES

JUNE 15, 1953.

American Research and Development Corporation ("Research"), Boston, Massachusetts, a registered closed-end, non-diversified investment company, and its controlled company, Ionics, Incorporated ("Ionics"), Cambridge, Massachusetts, having filed a joint application and an amendment thereto pursuant to section 17 (b) of the act seeking an order exempting the transactions summarized below from the prohibitions contained in section 17 (a) of the act:

Ionics, a Massachusetts corporation organized in 1943, is engaged in the development of ion-exchange processes and materials and research work for itself and others in ion-exchange chemistry, metallurgy, and other fields, most of which it is stated is of a confidential classified nature. The application states that during 1952 and 1953 the company has demonstrated small scale models of electrical apparatus, employing its ion-exchange membranes, for the demineralization of sea water and brackish waters, which models perform more efficiently than other methods presently in use. It is further stated that Ionics is currently engaged in extensive research and development of these ion-exchange membranes and processes looking toward the manufacture and sale of large scale and commercial units for water demineralization and for other adaptations, including the concentration and purification of industrial solutions and continuous fractionation of inorganic and some organic chemicals.

Ionics has presently outstanding 1,499 shares of 5 percent preferred stock hav-

ing a par value of \$100 per share, all of which are owned by Research. Research acquired this stock at a cost of \$100 per share and at March 31, 1953 there were arrearages on such stock of \$6.25 a share. In addition, Ionics has outstanding 11,500 shares of common stock of which 7,500 shares or 65.2 percent is held by Research. The balance of the common stock is owned by 9 persons who are officers, directors and employees of Ionics. Research also holds a \$50,000, 5 percent note of Ionics due March 3, 1957.

Ionics proposes a plan of recapitalization pursuant to which (a) its presently outstanding preferred and common stocks will be reclassified into a single new class of common stock without par value and (b) certain restrictions on the transferability of the company's capital stock would be eliminated. Under this plan the 1,489 shares of preferred stock held by Research will be exchanged for 79,568 shares of new common stock, which is at the rate of 53.4 shares of new common stock for each share of preferred stock, and the presently outstanding 11,500 shares of common stock will be exchanged for 184,000 shares of new common stock, which is at the rate of 16 shares of new common stock for each share of old common stock. Under the plan Research will receive 199,568 shares of such new common stock (75.8 percent) out of a total of 263,568 shares to be issued. The plan is subject to the approval of not less than 95 percent of all stockholders of each class of the presently outstanding stock of Ionics.

Ionics states that the recapitalization is a necessary step to the raising of additional funds through the sale of common stock for needed expansion. In this connection Ionics states that the development of its ion-exchange membrane demineralizers and related equipment to the commercial state and to the manufacture and sale of the same will require the expenditure of substantial new capital funds in the business. It is also stated that more facilities and personnel will be required not only for this program but for the company's development work in metallurgical and other fields and for the servicing of its increased volume of contract research and development for others. In order to raise the additional new funds needed Ionics proposes, after consummation of the recapitalization plan, to sell to the public through underwriters not more than 135,567 shares of new common stock having a par value of \$1 a share. Contemporaneous with the sale of common stock the no par value common stock issued pursuant to the recapitalization will be exchanged on a share for share basis for common stock having a par value of \$1 per share. Research would own slightly in excess of 50 percent of all of the new common stock outstanding after the sale to the public.

At March 31, 1953, Research valued its 7,500 shares of common stock of Ionics at \$500,000 and its 1,489 shares of preferred stock at \$148,900. The application states that if a similar valuation is placed on the common stock not owned by Research that the entire presently outstanding preferred and common

stock of Ionics would have a total value of \$915,559. On the basis of such a valuation the 199,568 shares of new common stock to be issued to Research would have a value of \$694,440 as compared with its present valuation of its holdings of Ionics' stocks of \$648,900.

Section 17 (a) of the act prohibits the sale or purchase of securities or other property by affiliated persons to or from an investment company or a company controlled by such investment company, subject to certain exceptions, unless the Commission, pursuant to section 17 (b) of the act, grants an exemption from the provisions of section 17 (a)

Appropriate notice of said filing having been given in the form and manner prescribed by Rule N-5 promulgated under the act and the Commission not having received a request for hearing within the period specified in said notice or otherwise; and the Commission not having ordered a hearing on said application; and

The Commission finding that the proposed transactions are fair and reasonable and do not involve overreaching on the part of any person concerned, and are consistent with the policies of Research as recited in its registration statement and reports filed pursuant to the act and with the general purposes of the act:

It is ordered, That the proposed transactions, involving the sale and purchase of securities between Research and Ionics as set forth in the application as amended, be, and the same hereby are, exempted forthwith from the provisions of section 17 (a) of the act pursuant to section 17 (b) of the act.

By the Commission.
