## Title 32A—NATIONAL DEFENSE, APPENDIX

### Chapter VI—Business and Defense Services Administration, Department of Commerce

[DMS Regulation No. 1 as Amended December 1, 1959]

#### DMS REG. 1—BASIC RULES OF THE DEFENSE MATERIALS SYSTEM

This amended regulation is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended regulation, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. However, consultation with representatives of all industries affected in advance of the issuance of this amended regulation has been rendered impracticable because it affects many different industries.

#### Section 1. What this regulation does.

(a) This section summarizes changes made in former DMS regulations. Defense contractors and their suppliers should familiarize themselves with all provisions of this amended regulation. Its purpose is to continue the Defense Materials System, with certain important changes and major simplifications, to support current Department of Defense, Atomic Energy Commission and other defense programs, and as a mobilization preparedness measure. It defines rights and obligations of persons who are engaged in production or construction for the defense program, or in research and development for the defense program. These very much simplified and condensed rules, formerly contained in two DMS regulations and a number of supporting schedules and directions dealing separately with production and construction, are now merged into this amended regulation. There are five schedules and three directions issued as part of this amended regulation which may be amended from time to time or supplemented by the issuance of additional schedules or directions.

(b) Our Government must be in a position to see that the things needed for defense programs are supplied on time and in the right amounts. Experience has shown that converting industry from peacetime to wartime objectives has been and can be a time-consuming task. If any military crisis should occur in the future, we shall not have the time needed to develop a workable production and materials control system, to convey the

rules to American industry, and to establish the necessary procedures both in Government and in our industrial plants to assure its effective operation. Accordingly, a much simplified Defense Materials System is continued and can be expanded or converted readily to meet the needs of stepped up or full mobilization.

(c) Persons engaged in production, construction or research and development for defense programs are required to follow all the applicable rules of this amended regulation. Proper identification of delivery orders placed for products and materials needed to fill defense orders and contracts is particularly important. The rule for mandatory identification of orders is an essential part of the Defense Materials System. Failure to identify orders results in a distorted picture of the quantities of materials and products which go into Department of Defense and Atomic Energy Commission programs and could result in delivery delays which might seriously affect timely completion of such defense programs.

(d) The changes effected by this amended regulation are comprehensive in scope and include, but are not limited to, the following:

(1) The former DMS Reg. 1 (production) and DMS Reg. 2 (construction) are superseded by this amended regulation covering both production and construction for defense programs. Construction projects are included in the definition of Class A products, but no change is made in basic procedures for application and authorization for construction. Research and development (previously covered by the former Direction 3 to DMS Reg. 1) has been included in the definition of Class A products. Selected Aircraft Class B products (APRA B products)

which were previously covered by Direction 5 to DMS Reg. 1 are subject to the self-authorization provisions of Section 9 of this amended regulation.

(2) All the schedules and directions to the former DMS Regs. 1 and 2 are superseded by this amended regulation and its schedules and directions. Included with this amended regulation are a new schedule listing authorized program identifications and Allotting Agencies and a new schedule containing a form for statement of controlled material requirements. Also included are a new direction dealing with an optional small order procedure for Allotting Agencies and a new direction dealing with controlled materials producers and distributors (previously covered in the former DMS Reg. 1). The provisions dealing with controlled materials producers and distributors will be incorporated in the appropriate controlled material orders which will be amended and reissued.

(3) The definition of controlled materials has been adjusted to include nickel alloys (formerly covered by Direction 6 to DMS Reg. 1) in addition to steel, copper and aluminum. Several major changes have been made in the listing of controlled materials contained in Schedule I of this amended regulation. Non-nickel-bearing stainless steel has been made a controlled material; all steel castings and nickel alloy castings have been deleted; and aluminum molten metal, foil, powder, flake and paste have been made controlled materials. Schedule I should be carefully studied by defense contractors and their suppliers for these and other changes.

(4) Prime consumers receive but are no longer permitted to make allotments and the term secondary consumer has been eliminated. Self-authorizing consumers who obtain controlled materials by self-authorization include all manufacturers who produce Class B products pursuant to rated orders, and those producers of Class A products (including construction contractors and persons engaged in research and development) who receive rated orders or contracts and are instructed to use the self-authorization provisions of this amended regulation.

(5) The definitions of Class A product and Class B product have been simplified. In addition, construction projects and research and development have been added to the definition of Class A product, and designated service operations have been expressly included in the definition of Class B product.

(6) The definitions of authorized production and construction schedules and their use have been eliminated. Rating and allotment authority flows from the rated order or contract or, where appropriate, from other specific authorization.

(7) The term ACM order is used interchangeably with authorized controlled material order.

(8) Provisions dealing with statements of requirements have been revised. A new form (DMS-6) has been provided in Schedule V of this amended regulation to permit defense contractors, when necessary, to obtain information from their suppliers regarding their controlled materials requirements to produce Class A products.

(9) Only an Allotting Agency may make allotments. Prime consumers and self-authorizing consumers never make allotments. The so-called "85 percent rule" for allotments by prime consumers has been eliminated.

(10) Use of allotment, rating or self-authorization by producers of Class A and Class B products who receive rated orders is completely mandatory except for individual purchase orders of \$500 or less. The former provision permitting optional use of such authority in certain cases has been eliminated.

(11) Any person who places a rated order for a Class A or Class B product or who places an ACM order must furnish his supplier with a prescribed statement advising him of the mandatory nature of the rules of this

amended regulation. Such statement was formerly permissive in certain situations.

(12) Changes have been made in the self-authorization procedure for production of Class A and Class B products. In addition, former differences in self-authorization procedures for Class A and Class B products have been eliminated, and producers of Class B products will use their customers' program identifications.

(13) The form of certification for rated orders and ACM orders has been changed.

(14) Provisions for special identification of ACM orders placed to fill DX rated orders (formerly covered by Direction 10 to DMS Reg. 1 and Direction 4 to DMS Reg. 2) have been revised and included in this amended regulation.

(15) The sections dealing with records and reports, and violations, have been revised.

(16) All adjustments or exceptions previously granted to defense contractors are revoked 60 days after the effective date of this regulation unless renewed.

(17) Under Direction 3 to this regulation controlled materials producers and distributors are required to use program identifications in placing orders for products and materials needed to fill ACM orders except for individual purchase orders of \$500 or less.

(18) Numerous other changes, simplifications and consolidations have been effected in this amended regulation, the full text of which (including its schedules and directions) should be carefully studied by defense contractors and their suppliers.

## Sec. 2. Transition provisions for acquisition of controlled materials.

(a) Nothing in this amended regulation shall be construed to cancel outstanding allotments of controlled materials for whatever purpose received. However, a person who has received an allotment and who may obtain controlled materials for the same purpose by self-authorization pursuant to this amended regulation, shall not use either the allotment or self-authorization to obtain more controlled materials than needed for such purpose.

(b) The deletions from and additions to items of controlled material made in Schedule I of this amended regulation shall not be construed to affect outstanding orders placed pursuant to any regulation or order of BDSA.

## Sec. 3. Definitions.

As used in this regulation:

(a) "Person" means any individual, corporation, partnership, association or any other organized group of persons, and includes any agency of the United States Government or any other government.

(b) "BDSA" means the Business and Defense Services Administration of the United States Department of Commerce.

(c) "Controlled material" means domestic and imported steel, copper, aluminum, and nickel alloys, in the forms and shapes specified in Schedule I of this regulation, whether new, remelted, rerolled or redrawn.

(d) "Claimant Agency" means the Department of Defense, the Atomic Energy Commission or any other Government agency or subdivision thereof designated as such by the Office of Civil and Defense Mobilization for submission of program requirements.

(e) "Allotting Agency" means the Department of Defense, the Atomic Energy

Commission, BDSA or any other Government agency or subdivision thereof designated as such by the Office of Civil and Defense Mobilization to make allotments for authorized programs. Schedule II of this regulation lists the Allotting Agencies which have been designated to make allotments for specified programs.

(f) "Prime consumer" means any person who receives an allotment of controlled material from an Allotting Agency. A prime consumer for a construction project may designate another person to act as the prime consumer for him.

(g) "Self-authorizing consumer" means any person who receives authority to obtain controlled material by self-authorization pursuant to the provisions of this regulation.

(h) "Allotment" means, with respect to authorized programs, (1) an authorization by the Office of Civil and Defense Mobilization of the amount and kind of controlled materials which may be received and/or allotted by a Claimant Agency during a specified calendar quarter, or (2) an authorization by a Claimant Agency of the amount and kind of controlled materials which may be received and/or allotted by an Allotting Agency during a specified calendar quarter, or (3) an authorization by an Allotting Agency of the amount and kind of controlled materials which may be received by a prime consumer during a specified calendar quarter.

(i) "Class A product" means any product which contains any controlled material and which is not itself a controlled material or a Class B product. It also includes a construction project or research and development which requires for its completion any controlled material or Class A product.

(j) "Class B product" means any product designated as such in the "Official Class B Product List" issued by BDSA, as the same may be modified from time to time, which contains any controlled material. It also includes any service designated as a Class B product in said "Official Class B Product List" (such as plating metal products) whether or not such service employs, consumes or requires any controlled material.

(k) "Authorized program" means a military, atomic energy or other program for which the use of rating and allotment authority is specifically approved by the Office of Civil and Defense Mobilization.

(l) "Delivery order" means any purchase order, contract, shipping or other instruction calling for delivery of any material or product, or performance of construction or service, on a particular date or dates or within specified periods of time.

(m) "Authorized controlled material order" means any delivery order for any controlled material (as distinct from a product containing controlled material) which is placed pursuant to an allotment, or pursuant to self-authorization, as provided in section 10 of this regulation, or which is specifically designated to be such an order by any regulation or order of BDSA. The term "ACM order"

shall have the same meaning as "authorized controlled material order".

(n) "Rated order" means any delivery order for any product, service or material other than controlled material bearing an authorized rating and the certification required by this regulation, BDSA Reg. 2 or any other applicable regulation or order of BDSA. For the purposes of this regulation it also includes specific authorization by an Allotting Agency to a person to use ratings and allotment numbers, in support of authorized programs, for the procurement of products and materials when such Allotting Agency does not place a delivery order.

(o) "Controlled materials distributor" means (1) a distributor of steel controlled materials as defined in BDSA Order M-1A, (2) a distributor of nickel alloy controlled materials as defined in BDSA Order M-1B, (3) a distributor of aluminum controlled materials as defined in BDSA Order M-5A, or (4) a distributor of copper controlled materials as defined in BDSA Order M-11A.

(p) "Construction" means the erection of any building, structure, or project, or addition or extension thereto, or alteration thereof, through the incorporation-in-place on the site of materials or products which are to be an integral and permanent part of the building, structure, or project, but it does not include maintenance and repair.

(q) "Project" means a construction plan contemplated for execution, irrespective of the time when it is to be carried into effect in full or in part, involving all or portions of a single building or structure, or involving two or more buildings or structures, or portions thereof, which are physically contiguous, or are parts of an integrated design or plan, so that each is an element of a single operation. In addition, a project also means a type of construction which is not a building or structure, but which requires a construction operation for its completion, such as a freight yard, airport runway or oil refinery.

#### Sec. 4. Requirements procedure.

(a) Any prime consumer, upon the request of an Allotting Agency, must submit a statement of controlled materials requirements for the production of Class A products for authorized programs of such agency. This information must be submitted to the requesting agency on such form and in such manner as prescribed by it.

(b) Any self-authorizing consumer, upon the request of a prime consumer or another self-authorizing consumer for whom he is a supplier, must submit a statement of his controlled materials requirements for the production of Class A products for authorized programs. This information must be submitted to the requesting consumer on Form DMS-6 (contained in Schedule V of this regulation) in accordance with the instructions stated therein.

#### Sec. 5. Allotment and self-authorization procedures.

(a) Each Claimant Agency shall distribute the allotments it receives from the Office of Civil and Defense Mobiliza-

tion by making allotments to other Allotting Agencies and to prime consumers.

(b) Each Allotting Agency shall make allotments to prime consumers making Class A products for it pursuant to rated orders. Exceptions are specified in Direction 2 to this regulation which deals with a small order procedure for Allotting Agencies.

(c) Allotments may be made on the basis of information furnished by application on Form DMS-4A (production or research and development), Form DMS-4C (construction) or other prescribed forms. Such forms shall be submitted upon request of an Allotting Agency.

(d) An allotment must be identified by an allotment number consisting of the appropriate program identification (as listed in Schedule II of this regulation) and shall specify the quantities and kinds of controlled materials needed for delivery in specified calendar quarters to fill the rated order to which it relates. Unless otherwise specified by BDSA, allotments shall be made in the following terms, in each case without further breakdown:

- (1) Carbon steel (including wrought iron).
- (2) Alloy steel (except stainless steel).
- (3) Stainless steel.
- (4) Copper and copper-base alloy brass mill products.
- (5) Copper wire mill products.
- (6) Copper and copper-base alloy foundry products and powder.
- (7) Aluminum.
- (8) Nickel alloys.

(e) Prime consumers and self-authorizing consumers shall not make allotments.

(f) Except as specifically provided by BDSA, no allotments shall be made for the production of Class B products.

(g) A person who receives a rated order for a Class A product from an Allotting Agency is a prime consumer and must receive an allotment from such agency unless he is instructed by it to obtain his requirements of controlled materials and other products and materials by self-authorization under the provisions of section 9 of this regulation. A person who receives a rated order for a Class A product from a person other than an Allotting Agency or for a Class B product (including Selected Aircraft Class B products) is a self-authorizing consumer and must obtain his requirements of controlled materials and other products and materials under the provisions of section 9 of this regulation.

#### Sec. 6. Mandatory use of allotment, self-authorization and rating authority.

(a) Each Allotting Agency must use its allotment and rating authority in acquiring controlled materials and other products and materials needed for completion of authorized programs.

(b) Each person who has received a rated order for a Class A or a Class B product must use the related allotment or self-authorization, whichever is appropriate, to acquire controlled materials and use the related rating to acquire other products and materials to fill such order or to replace in inventory materials used to fill such order. If such authority is not applicable, under the provisions of this regulation or any other regulation or

order of BDSA, to the procurement of necessary items or services, such as production equipment, and priority assistance is needed to obtain such items or services, he should communicate with the appropriate Allotting Agency specified in Schedule II of this regulation.

(c) Each Allotting Agency, prime consumer and self-authorizing consumer placing a rated order for a Class A or a Class B product or placing an ACM order must furnish his supplier with a statement reading substantially as follows:

You are required to follow the provisions of DMS Reg. 1 and of all other applicable regulations and orders of BDSA in obtaining controlled materials and other products and materials needed to fill this order.

This statement must appear on the order or on a separate piece of paper attached to the order or clearly identifying it.

(d) Unless another form of certification is specifically prescribed by an applicable regulation or order of BDSA, every rated order must contain the certification prescribed in BDSA Reg. 2 or the following certification:

Certified for national defense use under DMS Reg. 1.

and shall be signed as provided in BDSA Reg. 2. This certification accompanying a rated order shall be deemed to be, and shall have the same force and effect as, a certification under BDSA Reg. 2.

(e) Unless another form of certification is specifically prescribed by an applicable regulation or order of BDSA, every ACM order must contain the following certification:

Certified for national defense use under DMS Reg. 1.

and shall be signed as provided in BDSA Reg. 2. This certification shall constitute a representation to the supplier and to BDSA that, subject to the criminal penalties provided in applicable United States statutes, (1) the purchaser has received an allotment of controlled material authorizing him, in accordance with the provisions of this regulation, to place such order, or (2) the amount ordered by the purchaser is within and pursuant to the self-authorization provisions of this regulation, or (3) the purchaser is expressly authorized by BDSA, or by any regulation or order of BDSA, to place such order.

(f) The mandatory provisions of this section need not be followed in the case of any individual purchase order of \$500 or less.

#### Sec. 7. How prime consumers use allotments.

(a) Each prime consumer receiving an allotment must use that portion of the allotment which he requires to obtain controlled materials, as such, to fill the rated order to which it relates. He must maintain allotment accounts as provided in section 14(b) of this regulation and must deduct from the appropriate allotment account the quantities represented by ACM orders placed by him. He must also deduct the reasonably estimated total controlled material requirements of self-authorizing consumers in all degrees

of remoteness supplying Class A products for incorporation in his product to be delivered pursuant to rated orders (excluding Class A products incorporated in purchased Class B products).

(b) No prime consumer shall place any rated order for Class A products the controlled material requirements of which exceed the related allotment received by him, after deducting all ACM orders placed by him and all other charges against his allotment. Section 4 of this regulation establishes a procedure for obtaining controlled material requirements from suppliers.

### Sec. 8. Cancellation or reduction of allotments and changes in requirements.

(a) An Allotting Agency may cancel or reduce an allotment by notice in writing to the prime consumer to whom it was made. If an allotment received by a prime consumer is cancelled or reduced, he must notify his supplier that all ACM orders which he has placed on the basis of the cancelled allotment or that all ACM orders placed in excess of the reduced allotment, as the case may be, are no longer to be treated as ACM orders.

(b) If a prime consumer's requirements for controlled materials or Class A products are increased after he receives his allotment, he must apply for an additional allotment to the Allotting Agency which made the original allotment.

(c) If a prime consumer finds that he has been allotted more than he needs, he must promptly return the excess to his Allotting Agency on Form DMS-12 or such other form as may be prescribed. If it is impracticable to obtain the prescribed form, the return shall be made by letter setting forth the facts.

### Sec. 9. Self-authorization procedure for Class A and Class B products.

(a) A manufacturer of Class A products who has accepted a rated order for such products without an allotment, pursuant to section 5(g) of this regulation, or from a person other than an Allotting Agency, is a self-authorizing consumer. A manufacturer of Class B products who has accepted a rated order for such products is a self-authorizing consumer.

(b) A self-authorizing consumer who has a rated order for Class A or Class B products must use the program identification indicated thereon as the allotment number in placing ACM orders to obtain controlled materials needed to fill such order or to replace in inventory controlled materials used to fill such order. However, with respect to inventory replacement of controlled materials he may place such ACM orders only in the calendar quarter in which taken from inventory or in the immediately succeeding calendar quarter. If it is impracticable for him to determine the exact requirements of controlled materials needed to fill a rated order for Class A or Class B products, he must place ACM orders for delivery in a particular calendar quarter of an amount equal to his best estimates of controlled materials needed in such quarter to fill such rated order.

(c) A self-authorizing consumer who has accepted a rated order for Class A or

Class B products must extend the accompanying rating in obtaining products and materials other than controlled materials needed to fill such order or to replace in inventory products and materials other than controlled materials used to fill such order. If it is impracticable for him to determine the exact requirements of products and materials other than controlled materials needed to fill such order, he must place rated orders for delivery of an amount equal to his best estimates of such products and materials needed to fill such order.

(d) If the requirement that he use program identifications indicated on his customers' rated orders is impracticable because they are varied and numerous, a self-authorizing consumer may use the program identification B-5 in lieu thereof.

### Sec. 10. Designation and use of ACM orders.

(a) A delivery order placed with a controlled materials producer or a controlled materials distributor for controlled material is an ACM order only if it complies with this section and contains (1) the appropriate allotment number and the calendar quarter for which the allotment is valid or, in the case of self-authorization, the calendar quarter in which delivery is required, (2) the date or dates on which delivery is required and (3) the certification specified in section 6(e) of this regulation; or if such delivery order is specifically designated as an authorized controlled material order by any regulation or order of BDSA. As an example, an ACM order placed by a prime consumer pursuant to an allotment identified by the allotment number A-6 which is valid for the second quarter of 1960, or placed by a self-authorizing consumer for delivery in the second quarter of 1960 pursuant to a rated order bearing the allotment number A-6, must contain the following: A-6-2Q60 and, in addition, the delivery date or dates and certification.

(b) Each person who has accepted a DX rated order must use the letters "DX" to identify ACM orders placed by him to fill such order or to replace in inventory controlled materials used to fill such order. The letters "DX" must appear after the allotment number and quarterly identification on the ACM order, for example, A-2-2Q60-DX. No person may use the letters "DX" to identify ACM orders except as provided in this regulation or in any other regulation or order of BDSA. The letters "DX" appearing on an ACM order shall entitle such order to priority in acceptance or delivery over other ACM orders only as provided in Direction 3 to this regulation or in any other regulation or order of BDSA.

(c) An ACM order must be in sufficient detail to permit entry on mill schedules and must be received by the controlled materials producer at such time in advance of the month of required shipment as is specified in Schedule III of this regulation, except as provided in Direction 3 to this regulation, or at such later time as the controlled materials producer may find it practicable to accept the same.

(d) All ACM orders shall have equal preferential status, except as provided in Direction 3 to this regulation, and shall take precedence over other orders for controlled materials to the extent provided in this regulation and in BDSA Order M-1A (steel), BDSA Order M-1B (nickel alloys), BDSA Order M-5A (aluminum), and BDSA Order M-11A (copper), and the directions thereto, or in any other applicable regulation or order of BDSA. However, a delivery order for controlled materials pursuant to a directive issued by BDSA shall take precedence over any other delivery order (including an ACM order) previously or subsequently received, unless a contrary instruction appears in the directive.

(e) A delivery order for controlled materials not covered by an allotment or self-authorization shall not be combined with an ACM order. However, if the total of both types of orders is less than the minimum mill quantity specified in Schedule IV of this regulation, then a combined order may be placed for such minimum mill quantity. Where such orders are combined, the portion covered by allotment or self-authorization must be specifically identified by the appropriate allotment number, and such delivery order must contain the certification provided in section 6(e) of this regulation. ACM orders identified by different allotment numbers may be combined if the portion covered by each allotment number is specifically identified by the appropriate allotment number.

### Sec. 11. Restrictions on placing ACM orders and on use of controlled materials.

(a) No person shall place or purport to place an ACM order unless he is entitled to do so. No person shall place or purport to place an ACM order calling for delivery of any controlled material in a greater amount or on an earlier date than required to fill his rated orders. If the quantity of any controlled material required by a person to fill rated orders is less than the minimum mill quantity specified in Schedule IV of this regulation, and is not procurable from a distributor, he may place an ACM order for and accept delivery of the full minimum shown in such schedule.

(b) Each person who has obtained controlled materials pursuant to an ACM order in accordance with this or any other regulation or order of BDSA shall use such materials only (1) to fill rated orders, or (2) to replace in inventory controlled materials used to fill any such rated orders. If he cannot use the controlled materials for any such purpose, he may use them to fill unrated orders or dispose of them, unless otherwise ordered or directed in writing by BDSA.

(c) Any person who has placed or purported to place an ACM order which he is not entitled to place or which calls for delivery of any controlled material in a greater amount than required to fill his rated orders shall not sell, use or otherwise dispose of any controlled material unlawfully obtained pursuant to such order without the express written consent of BDSA.

(d) For the purposes of this regulation, the terms "purport to place an ACM order" and "purported to place an ACM order" shall include but not be limited to the placement without lawful authority of any order in the form of an ACM order and shall further include but not be limited to the use in connection with such order of any program identification symbol or the words "Certified for national defense use under DMS Reg. 1" or any combination thereof or any other similar symbol or words whether or not authorized or prescribed by this or any other regulation or order of BDSA.

(e) Controlled materials which may be obtained by a person to fill a rated order include those which will be physically incorporated into the product or construction project or used in research and development covered by the rated order. They also include the portion of such controlled materials normally consumed or converted into scrap or by-products in the course of processing, and controlled materials used for packaging or containers required to make delivery. They do not include controlled materials for plant improvement, expansion or construction unless they will be physically incorporated into a construction project covered by a rated order. Nor do they include controlled materials for production equipment needed for use in filling a rated order, or controlled materials for maintenance, repair or operating supplies.

#### Sec. 12. Designation and use of ratings.

(a) Ratings must contain the prefix DO or DX, as the case may be, followed by the appropriate program identification. Schedule II of this regulation contains a list of authorized program identifications.

(b) Rated orders must show the rating authorized, for example, DO-A-6, date or dates on which delivery is required and must be certified as provided in section 6(d) of this regulation.

(c) The provisions of BDSA Reg. 2 are superseded to the extent that they are inconsistent with the provisions of this regulation. In all other respects the provisions of BDSA Reg. 2 shall remain in full force and effect.

#### Sec. 13. Applicability of other regulations and orders.

Nothing in this regulation shall be construed to relieve any person from complying with all other applicable regulations and orders of BDSA. In case compliance by any person with the provisions of any such regulation or order would prevent fulfillment of an ACM order or a rated order, he shall immediately report the matter to BDSA and to the appropriate Allotting Agency. BDSA will thereupon take such action as is deemed appropriate, but unless and until otherwise expressly authorized or directed by BDSA, such person shall comply with the provisions of such regulation or order.

#### Sec. 14. Records and reports.

(a) Each person participating in any transaction covered by this regulation

shall make, and preserve for at least 3 years thereafter, accurate and complete records thereof. Such records shall include all rated orders, ACM orders and directives received by such person, copies of all rated orders and ACM orders placed by such person, records of purchases, receipts, inventories, production, use, sales, and deliveries of all materials acquired by means of priority, allotment or directive assistance, and records of sales and deliveries of all materials sold or delivered by such person pursuant to rated orders, ACM orders and directives. Records shall be maintained in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this regulation. This regulation does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided the records specifically required herein are maintained. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic copies are made, maintain such copies of records in the regular and usual course of business.

(b) Except as otherwise specifically provided, records of allotments received, and records of allotments used, shall be kept separately, by allotment numbers and calendar quarters and shall include separate entries under each allotment number for each Allotting Agency from which allotments are received.

(c) All records required by this regulation shall be maintained by any person shall be made available for inspection and audit by duly authorized representatives of BDSA at the usual place of business of such person.

(d) Persons subject to this regulation shall make such records and submit such reports to BDSA as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U.S.C. 139-139f).

#### Sec. 15. Requests for adjustment or exception.

(a) Any person subject to any provision of this regulation may submit a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. The filing of a request for adjustment or exception shall not relieve any person of his obligation to comply with any such provision. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this regulation, consideration will be given to the requirements of public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

(b) Sixty days after the effective date of this regulation any adjustment or

exception granted to defense contractors under former CMP or DMS regulations is hereby cancelled, rescinded and revoked, unless prior to the termination of such sixty-day period such adjustment or exception is continued by BDSA or renewed pursuant to application submitted in accordance with paragraph (a) of this section.

#### Sec. 16. Communications.

All communications concerning the substance or interpretation of this regulation shall be addressed to the Business and Defense Services Administration, Washington 25, D.C., Ref: DMS Reg. 1. Communications concerning rating, self-authorization and allotment authority shall be addressed to the appropriate Allotting Agency specified in Schedule II of this regulation.

#### Sec. 17. False statements.

The furnishing of false information or the concealment of any material fact in the course of operation under this regulation constitutes a violation of this regulation. The unauthorized placement of any order in the form of, or purporting to be, a rated order or an ACM order constitutes a false statement and a violation of this regulation.

#### Sec. 18. Violations.

(a) Any person who wilfully violates any provision of this regulation, or who wilfully furnishes false information or conceals any material fact in the course of operation under this regulation, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both.

(b) Violation of any provision of this regulation may subject any person committing or participating in such violation to administrative action to suspend his privilege of employing priorities or allocations in making or receiving deliveries of materials, or using materials or facilities. In addition to such administrative action, an injunction and order may be obtained prohibiting any such violation and enforcing compliance with the provisions hereof.

(c) For the purpose of any administrative action or civil proceeding for the enforcement of this regulation or any criminal prosecution for violation of this regulation, the terms "authorized controlled material order", "ACM order", "rated order", "rating" and "certification" shall be deemed to include every purported authorized controlled material order, ACM order, rated order, rating and certification whether or not such order, rating or certification shall have been authorized as provided in this regulation and irrespective of the form of such order, rating or certification.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This regulation as amended shall take effect December 1, 1959.

Administrator.

SCHEDULE I TO DMS REG. 1—CONTROLLED MATERIALS

(See section 3(c))

CARBON STEEL (INCLUDING WROUGHT IRON)<sup>1</sup>

- (a) Bar, bar shapes. Includes:
  - Bar, hot-rolled, stock for projectile and shell bodies.<sup>2</sup>
  - Bar, hot-rolled, other (including light shapes).
  - Bar, reinforcing (straight lengths—as rolled).
  - Bar, cold-finished.
- (b) Sheet, strip (uncoated and coated). Includes:
  - Sheet, hot-rolled.
  - Sheet, cold-rolled.
  - Sheet, galvanized.
  - Sheet, all other coated.
  - Sheet, enameling.
  - Roofing, galvanized, corrugated, V-crippled channel drains.
  - Ridge roll, valley, and flashing.
  - Siding, corrugated and brick.
  - Strip, hot-rolled.
  - Strip, cold-rolled.
  - Strip, galvanized.
  - Electrical sheet and strip.
  - Tin mill black plate.
  - Tin plate, hot-dipped.
  - Ternes, special coated manufacturing.
  - Tin plate, electrolytic.
- (c) Plate.<sup>3</sup>
- (d) Structural shapes,<sup>4</sup> piling.
- (e) Pipe, tubing—seamless and welded.<sup>5</sup> Includes:
  - Standard pipe (including type of couplings furnished by mill).<sup>6</sup>
  - Oil country goods (casing, tubing and drill pipe, including type of couplings furnished by mill).
  - Line pipe (including type of couplings furnished by mill).
  - Pressure tubing.
  - Mechanical tubing.
- (f) Wire, wire products. Includes:
  - Wire-drawn.
  - Nails—bright steel wire, steel cut, galvanized, cement-coated, and painted.
  - Spikes and brads—steel wire, galvanized, and cement-coated.
  - Staples, bright and galvanized (farm and poultry).

CARBON STEEL (INCLUDING WROUGHT IRON)<sup>1</sup>—Continued

- Wire rope and strand.
  - Welded wire mesh and woven wire netting.
  - Barbed and twisted wire.
  - Wire fence, woven and welded (farm and poultry).
  - Bale ties.
  - Coiled automatic baler wire.
  - (g) Tool steel (all forms including die blocks and tool steel forgings).
  - (h) Other mill forms and products (excluding castings and forgings). Includes:
    - Ingots.
    - Billets, for shell body stock only.<sup>7</sup>
    - Billets, for shell component parts and rockets.
    - Blooms, slabs, other billets, tube rounds, sheet bars.
    - Skelp.
    - Wire rod.
    - Rails.
    - Joint bars (track).
    - Tie plates (track).
    - Track spikes.
    - Wheels, rolled or forged (railroad).
    - Axles (railroad).
- ALLOY STEEL<sup>8</sup> (EXCEPT STAINLESS STEEL<sup>9</sup>).
- (a) Bar, bar shapes. Includes:
    - Bar, hot-rolled stock for projectile and shell bodies.
    - Bar, hot-rolled, other (including light shapes).
    - Bar, cold-finished.
  - (b) Sheet, strip. Includes:
    - Sheet, hot-rolled.
    - Sheet, cold-rolled.
    - Sheet, galvanized.
    - Strip, hot-rolled.
    - Strip, cold-rolled.
  - (c) Plate.<sup>10</sup> Includes:
    - Rolled armor.
    - Other.
  - (d) Structural shapes.<sup>4</sup>
  - (e) Pipe, tubing—seamless and welded.<sup>5</sup> Includes:
    - Oil-country goods.
    - Pressure tubing.
    - Mechanical tubing.

ALLOY STEEL<sup>8</sup> (EXCEPT STAINLESS STEEL<sup>9</sup>)—Continued

- (f) Wire.
  - (g) Tool steel (all forms including die blocks and tool steel forgings).
  - (h) Other mill forms and products (excluding castings and forgings). Includes:
    - Ingots.
    - Billets, projectile and shell stock.
    - Blooms, slabs, other billets, tube rounds, sheet bars.
    - Wire rods.
    - Rails.
    - Wheels, rolled or forged (railroad).
    - Axles (railroad).
- STAINLESS STEEL<sup>9</sup>
- (a) Bar, bar shapes. Includes:
    - Bar, hot-rolled (including light shapes).
    - Bar, cold-finished.
  - (b) Sheet, strip. Includes:
    - Sheet, hot-rolled.
    - Sheet, cold-rolled.
    - Strip, hot-rolled.
    - Strip, cold-rolled.
  - (c) Plate.<sup>11</sup>
  - (d) Structural shapes.<sup>4</sup>
  - (e) Pipe, tubing—seamless and welded.<sup>5</sup> Includes:
    - Pipe.
    - Pressure tubing.
    - Mechanical tubing.
  - (f) Wire, wire products. Includes:
    - Wire, drawn.
    - Wire rope and strand.
  - (g) Other mill forms and products (excluding castings and forgings). Includes:
    - Ingots.
    - Blooms, slabs, billets, tube rounds.
    - Sheet bars, wire rods.
- COPPER AND COPPER-BASE ALLOY BRASS MILL PRODUCTS<sup>12</sup>
- Copper (unalloyed):
    - (a) Bar, rod, shapes, wire (except electrical wire).
    - (b) Sheet, strip, plate, rolls.
    - (c) Pipe, tube (seamless).

<sup>1</sup> For the purpose of this schedule "carbon steel (including wrought iron)" means any steel customarily so classified and also includes: (1) Ingot iron; (2) all grades of electrical sheet and strip; (3) low-alloy, high-strength steels; (4) clad and coated carbon steels not included with alloy steels: e.g., galvanized, tin, terne, copper (excluding copper wire mill products) or aluminum clad and/or coated carbon steels; and (5) leaded carbon steels. "Low-alloy, high-strength steels" means only the proprietary grades promoted and sold for this purpose, and Navy high-tensile steel grade HT Specification Mil-S-16113 (Ships).

<sup>2</sup> Includes projectile body stock, sizes under 2 1/2 inches.

<sup>3</sup> Carbon plate not only includes the following specifications, but also floor plates of any thickness:

0.180 inch or thicker, over 48 inches wide.  
 0.230 inch or thicker, over 8 inches wide.  
 7.53 pounds per square foot or heavier, over 48 inches wide.  
 9.62 pounds per square foot or heavier, over 8 inches wide.

<sup>4</sup> "Structural shapes" means rolled flanged sections having at least one dimension of their cross section 3 inches or greater, commonly referred to as angles, channels, beams, and wide flange sections.

<sup>5</sup> Steel pipe or tubing exceeding 36 inches

O.D. is not a controlled material, but is a Class A product.

<sup>6</sup> Standard pipe includes the following:

Ammonia pipe.  
 Bedstead tubing.  
 Driven well pipe.  
 Drive pipe.  
 Dry kiln pipe.  
 Dry pipe for locomotives.  
 English gas and steam pipe.  
 Fence pipe.  
 Furniture pipe.  
 Ice machine pipe.  
 Mechanical service pipe.  
 Nipple pipe.  
 Pipe for piling.  
 Pipe for plating and enameling.  
 Pump pipe.  
 Signal pipe.  
 Standard pipe coupling.  
 Structural pipe.  
 Turbine pump pipe.  
 Water main pipe.  
 Water well casing.  
 Water well reamed and drifted pipe.

<sup>7</sup> Includes only projectile body stock, sizes 2 1/2 inches and larger, rounds, and round-cornered squares.

<sup>8</sup> For purposes of this schedule "alloy steel" means steel containing 50 percent or more of iron or steel and any one or more of the following elements in the following amounts: Manganese, maximum of range in

excess of 1.65 percent; silicon, maximum of range in excess of 0.60 percent (excepting electrical sheet and strip); copper, maximum of range in excess of 0.60 percent; aluminum, boron, chromium (less than 10 percent), cobalt, columbium, molybdenum, nickel, tantalum, titanium, tungsten, vanadium, zirconium, or any other alloying elements in any amount specified or known to have been added to obtain a desired alloying effect. Clad steels which have an alloy steel base or carbon steel base for which nickel and/or chromium is contained in the coating or cladding material (e.g., Inconel, monel, or stainless) are alloy steels.

<sup>9</sup> "Stainless steel" means heat- and corrosion-resisting steel containing 50 percent or more of iron or steel and 10 percent or more of chromium whether with or without nickel, molybdenum, or other elements.

<sup>10</sup> Alloy steel plate includes the following specifications:

0.180 inch or thicker, over 48 inches wide.  
 0.230 inch or thicker, over 8 inches wide.  
 7.53 pounds per square foot or heavier, over 48 inches wide.  
 9.62 pounds per square foot or heavier, over 8 inches wide.

<sup>11</sup> Stainless steel plates include the following size specifications: 3/16 inch (0.1875) or thicker, over 10 inches wide.

<sup>12</sup> Includes anodes—rolled, forged, or sheared from cathodes.

**RULES AND REGULATIONS**

**COPPER AND COPPER-BASE ALLOY BRASS MILL PRODUCTS—Continued**  
 Copper-base alloy:<sup>13</sup>  
 (a) Bar, rod, wire, shapes.  
 (b) Sheet, strip, plate, rolls, military ammunition cups and discs.  
 (c) Pipe, tube (seamless).

**COPPER WIRE MILL PRODUCTS**  
 All copper wire and cable for electrical conduction, including but not limited to:  
 Bare and tinned.  
 Weatherproof.  
 Magnet wire.  
 Insulated building wire.  
 Paper and lead power cable.  
 Paper and lead telephone cable.  
 Asbestos cable.  
 Portable and flexible cord and cable.  
 Communication wire and cable.  
 Shipboard cable.  
 Automotive and aircraft wire and cable.  
 Insulated power cable.  
 Signal and control cable.

<sup>13</sup> "Copper-base alloy" means any alloy in the composition of which the percentage of copper metal equals or exceeds 40 percent by weight of the metallic content of the alloy. It does not include alloyed gold produced in accordance with U.S. Commercial Standard CS 67-38.

**COPPER WIRE MILL PRODUCTS—Continued.**  
 Coaxial cable.  
 Copper-clad steel wire containing over 20 percent copper by weight regardless of end use.  
**COPPER AND COPPER-BASE ALLOY FOUNDRY PRODUCTS AND POWDER**  
 Includes:  
 Copper, brass, and bronze castings.<sup>14</sup>  
 Copper, brass, and bronze powder (including copper powder, granular and flake, and copper-base alloy powder, granular and flake).

**ALUMINUM**  
 Rolled bar, rod, structural shapes, and bare wire.  
 Aluminum conductor steel reinforced (ACSR) and bare aluminum cable.

<sup>14</sup> Cast copper and copper-base alloy shapes or forms suitable for ultimate use without remelting, rolling, drawing, extruding, or forging. (The process of casting includes the removal of gates, risers, and sprues, and sand-blasting, tumbling, and dipping, but does not include any further machining or processing. For centrifugal castings the process includes the removal of the rough cut in the inner and/or outer diameter before delivery to a customer.) Castings include anodes cast in a foundry or by an ingot maker.

**ALUMINUM—Continued**  
 Insulated or covered wire or cable.  
 Extruded bar, rod, shapes, and tube (extruded, drawn and welded tube).  
 Sheet and plate.  
 Pig or ingot, granular or shot, and molten metal.  
 Foil.  
 Powder, flake, paste.  
**NICKEL ALLOYS<sup>15</sup>**  
 Ingots, blooms, slabs, and billets.  
 Plate, sheet, strip, and foil.  
 Rods, bars (including anode bars), pipe, tubing, and shapes.  
 Wire and wire rod.  
 Powder (produced mechanically from nickel shot).

<sup>15</sup> "Nickel alloys" means those alloys for which the specified nickel content is 5 percent or more up to and including pure nickel, and which do not contain as much as 50 percent of iron or steel, nor as much as 40 percent of copper, nor as much as 50 percent of aluminum. It does not include primary nickel in the forms of electrolytic cathodes, pigs, rondelles, cubes, pellets, shot, oxide (including sintered oxide), salts, or chemicals; nor does it include primary nickel in the form of ingots used for remelting or powder derived directly from ore concentrates.

**SCHEDULE II TO DMS REG. 1—AUTHORIZED PROGRAM IDENTIFICATIONS AND ALLOTING AGENCIES**

(See sections 5(d), 12(a) and 16)

The program identification symbols listed in this schedule are the only ones authorized for use under the Defense Materials System and must be used in accordance with this regulation and other applicable regulations and orders of BDSA.

The symbols are not listed in alphabetical or numerical sequence but are grouped by Allotting Agencies. Within each group, the Allotting Agencies listed in Column 3 are authorized to make allotments under one or more of the programs listed in Column 2 and to assign allotment numbers and ratings containing one or more of the program identifications listed in Column 1.

Communications concerning rating, self-authorization and allotment authority should be addressed to the named agency, its procuring element, or as directed by the procuring element. The full names of the Allotting Agencies shown by initials in the following list are:

- AEC—Atomic Energy Commission.
- BDSA—Business and Defense Services Administration.
- CIA—Central Intelligence Agency.
- FAA—Federal Aviation Agency.
- NASA—National Aeronautics and Space Administration.

<sup>2</sup> For clad products, add 45 days to lead time indicated.

<sup>3</sup> If annealed or heat-treated, add an additional 15 days.

<sup>4</sup> For electrical sheet and strip, use this table:

Grade	Lead time	Definition
Low.....	45	AISI M50, M43, M36, M32.
Medium.....	45	AISI M27, M22, M19.
High.....	60	AISI M17, M15, M14, and oriented.

<sup>5</sup> Rolled armor plate is subject to negotiation between mill and its customer. If no acceptable arrangements are worked out, BDSA should be notified.

<sup>6</sup> Applies to special rolled shapes including angles and channels.

<sup>7</sup> For welded tubing or high carbon spring steel strip, 75 days.

<sup>8</sup> If cold-finished, add an additional 15 days.

<sup>9</sup> Lead time applies to unmachined castings after approval of patterns for production.

<sup>10</sup> For refractory alloys, 60 days.

<sup>11</sup> Small simple castings to fit 12 x 16 inch flask, 7 days.

<sup>12</sup> By negotiation between mill and its customer. If no acceptable arrangements are worked out, BDSA should be notified.

**6. Detailed Instructions**

**a. Who may use this form**

Any person who needs information regarding the controlled materials requirements for the production of Class A products being supplied to him to fill rated orders may use this Form DMS-6, to request his suppliers of Class A products to submit such requirements information to him. This form may be duplicated in any quantity necessary. In addition to the eight categories of controlled materials printed in Block 5 the requesting person may ask for further breakdown of the printed controlled materials categories. In no case should the further breakdown requested be in any greater detail than the listing on Form DMS-4S. Such further breakdown, if requested, must be supplied on this Form DMS-6 or on a separate sheet to be attached to this form of his company in Block 3 and enter a description of the Class A product for which the information is requested in Block 4. He should also send his supplier, with copies of the form, a letter describing the information he desires, the number of copies he needs, and the time when they should be submitted to him. He should also refer to Section 4 of DMS Reg. 1 as his authority for using this form.

**b. Who must submit this form**

Any producer of Class A products who is requested by his customer to supply the information called for on this form must submit it in accordance with Section 4(b) of DMS Reg. 1 and his customer's request.

**c. How to fill out this form**

A producer of Class A products who has been requested by his customer to submit this form must include the following information:

- (1) Enter name and address of submitting company in Block 1.
- (2) Enter name and title of employee of submitting company to whom communications should be addressed regarding the information submitted on this form.
- (3) Enter on top line of Block 5, in the blank space, the number of units of the Class A product identified in Block 4 covered by the quantity of materials shown in Column 3 of Block 5. Enter in Column 3 of Block 5 the quantity of each of the controlled materials listed in Column 1 required to produce the number of units of the Class A product described in Block 4 indicated on top line of Block 5.

The quantities entered in Column 3 of Block 5 must include the following:

- (i) The quantities of the controlled materials listed in Column 1 needed by the submitting producer for incorporation in the Class A product produced by him described in Block 4.
- (ii) The quantities of controlled materials listed in Column 1 required for incorporation in any Class A products (components or subassemblies) which are produced by suppliers in all degrees of remoteness for incorporation in the Class A product produced by him described in Block 4.
- (iii) The quantities of controlled materials listed in Column 1 needed for packaging or containers required to make delivery of the Class A product described in Block 4.

**7. CERTIFICATION:** The undersigned company and the official executing this certification on its behalf hereby certify that the information contained in this report is cor-

rect and complete to the best of their knowledge and belief.

**DMS REG. 1—BASIC RULES OF THE DEFENSE MATERIALS SYSTEM**

**Dir. 1—Self-Authorization Procedure for MRO Needed by Certain Persons**

This direction under DMS Regulation 1 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. However, consultation with representatives of all industries affected in advance of the issuance of this direction has been rendered impracticable because it affects many different industries.

 3. Procurement of products and materials for MRO.  
 4. Applicability of other regulations and orders.  
 5. Small order exception.

**AUTHORITY:** Sections 1 to 5 issued under sec. 704, 64 Stat. 816, as amended, Pub. Law 85-471, 72 Stat. 241; 50 U.S.C. App. 2154. Interpret or apply sec. 101, 64 Stat. 799, as amended, sec. 705, 64 Stat. 816, as amended, Pub. Law 85-471, 72 Stat. 241; 50 U.S.C. App. 2071, 2155; E.O. 10480, as amended, 18 F.R. 4939, 6201, 19 F.R. 3807, 7249, 21 F.R. 1673; 3 CFR, 1953, 1954 and 1956 Supps.; DMO I-7, as amended, 18 F.R. 5366, 6736, 6737, 19 F.R. 7348; 32A CFR Ch. I; Commerce Dept. Order No. 152 (Revised), 23 F.R. 7951.

**Section 1. What this direction does.**

This direction establishes a self-authorizatiion procedure by which certain persons are authorized to use allotment numbers and ratings to obtain materials for maintenance, repair, and operating supplies and installation (referred to collectively as "MRO"), needed to enable them to fill mandatory acceptance orders. Suppliers of such MRO items obtain products and materials needed for their production under the provisions of BDSA Reg. 2, DMS Reg. 1 or other appropriate regulation or order of BDSA. This direction supersedes Direction 4 (as amended April 11, 1957) to DMS Reg. 1 and Direction 3 (as amended April 11, 1957) to DMS Reg. 2.

**Sec. 2. Definitions.**

As used in this direction:  
 (a) "Maintenance" means the minimum upkeep necessary to continue any

plant, facility, or equipment in sound working condition. "Repair" means, with respect to any person, the restoration of any plant, facility, or equipment to sound working condition when it has been rendered unsafe or unfit for service by wear and tear, damage, failure of parts, or the like, where such repair is not capitalized according to his established accounting practice. Neither "maintenance" nor "repair" includes the replacement of any plant, facility, or equipment; nor does it include the improvement of any plant, facility, or equipment by replacing material which is still in sound working condition with material of a new or different kind, quality, or design.

(b) "Operating supplies" means any kind of material carried by a person as operating supplies according to his established accounting practice. It includes expendable tools, jigs, dies, and fixtures used on production equipment, regardless of the accounting practice of the person. It also includes items, such as hand tools, purchased by an employer for sale to his employees solely for use in his business if such items would have constituted operating supplies had they been issued to employees without charge.

(c) "Installation" means the setting up or relocation of machinery, fixtures, or equipment in position for service and connection thereof to existing service facilities.

(d) "MRO" means materials for maintenance, repair, and operating supplies, and for installation. Materials produced or obtained for sale to other persons or for installation upon or attachment to the property of another person, and materials required for the production of such materials are not "MRO" as to the producer or supplier.

(e) "Established accounting practice" means, in the case of a person in operation on or before December 31, 1958, the accounting practice in use by such person on that date or on the last day of his operation prior thereto. In the case of a person whose operation begins after December 31, 1958, the term means the accounting practice established by him in such operation.

(f) "Mandatory acceptance order" means a rated order, an ACM order or any other purchase or delivery order which a person is required to accept pursuant to any regulation or order of BDSA, or pursuant to a specific authorization or directive of BDSA.

(g) "ACM-DX order" means an authorized controlled material order identified by the suffix "DX" as provided in section 10(b) of DMS Reg. 1.

**Sec. 3. Procurement of products and materials for MRO.**

(a) If inability to obtain MRO would result in failure by a person to fill a mandatory acceptance order he must obtain such MRO as follows:

(1) In obtaining controlled materials needed for such MRO he must place ACM orders in accordance with the provisions of DMS Reg. 1 and must indicate thereon the allotment number D-9 and the calendar quarter in which delivery of

the controlled materials is required: *Provided*, That if the inability to obtain such controlled materials would result in failure to fill a DX rated order or an ACM-DX order he must identify his ACM orders with the suffix DX, in addition to the allotment number D-9 and the quarterly identification.

(2) In obtaining products and materials other than controlled materials needed for such MRO he must place rated orders in accordance with the provisions of BDSA Reg. 2 and must indicate thereon the rating DO-D-9: *Provided*, That if the inability to obtain such products and materials would result in failure to fill a DX rated order or an ACM-DX order he must use the rating DX-D-9.

(b) In no event shall a person use the provisions of this direction to acquire products and materials in a greater amount or on an earlier date than required to provide the MRO necessary to enable him to fill his mandatory acceptance orders.

**Sec. 4. Applicability of other regulations and orders.**

(a) Any person who is entitled to obtain MRO for a particular purpose under any other regulation, order, or direction of BDSA, shall not use the procedures of this direction to obtain MRO for such purpose.

(b) Nothing in this direction shall be construed to relieve any person from complying with all other applicable regulations and orders of BDSA. The provisions of DMS Regulation 1 regarding the placing of authorized controlled material orders, and the provisions of BDSA Reg. 2 regarding the use of ratings, except as otherwise provided in this direction, shall apply to operations under this direction.

**Sec. 5. Small order exception.**

The provisions of this direction requiring persons to use ratings and allotment numbers need not be followed in the case of any individual purchase order of \$500 or less.

This direction shall take effect December 1, 1959.

1. What this direction does.
2. Acquisition of Class A products without making allotments.
3. Acquisition of controlled materials.
4. Notification by Allotting Agencies.

**AUTHORITY:** Sections 1 to 4 issued under sec. 704, 64 Stat. 816, as amended, Pub. Law 85-471, 72 Stat. 241; 50 U.S.C. App. 2154. Interpret or apply sec. 101, 64 Stat. 799, as amended, sec. 705, 64 Stat. 816, as amended, Pub. Law 85-471, 72 Stat. 241; 50 U.S.C. App. 2071, 2155; E.O. 10480, as amended, 18 F.R. 4939, 6201, 19 F.R. 3807, 7249, 21 F.R. 1673; 3 CFR, 1953, 1954 and 1956 Supps.; DMO I-7, as amended, 18 F.R. 5366, 6736, 6737, 19 F.R. 7348; 32A CFR Ch. I; Commerce Dept. Order No. 152 (Revised), 23 F.R. 7951.

## Section 1. What this direction does.

This direction authorizes Allotting Agencies in certain cases to acquire Class A products without making allotments. It also authorizes Allotting Agencies in certain cases to acquire controlled materials without making separate charges against allotment accounts.

## Sec. 2. Acquisition of Class A products without making allotments.

(a) Each Allotting Agency is authorized to acquire Class A products (other than construction) by placing rated orders, without making allotments, with respect to any individual purchase order for such products the cost of which to the Allotting Agency does not exceed \$2,500 or with respect to any individual construction project the initial contract cost of which to the Allotting Agency does not exceed \$100,000.

(b) Each Allotting Agency is authorized to acquire Class A products by placing rated orders, without making allotments, with respect to any individual purchase order or construction project (regardless of cost) where the amount of allotment (if made) of each kind of controlled material required to fill the order or complete the project would not exceed:

Carbon steel (including wrought iron).....	10 tons.
Alloy steel (except stainless steel).....	1 ton.
Stainless steel.....	2,000 pounds.
Copper and copper-base alloy brass mill products, copper wire mill products, copper and copper-base alloy foundry products and powder....	2,000 pounds.
Aluminum.....	2,000 pounds.
Nickel alloys.....	2,000 pounds.

## Sec. 3. Acquisition of controlled materials.

(a) Each Allotting Agency is authorized to place individual ACM orders without making separate charges against allotment accounts, provided the selling price of the controlled materials does not exceed \$2,500 in the case of each order.

(b) Each Allotting Agency is authorized to place individual ACM orders for any kind of controlled material (regard-

less of cost) without making separate charges against allotment accounts, provided the amount of any kind of controlled material does not exceed the following in the case of each order:

Carbon steel (including wrought iron).....	10 tons.
Alloy steel (except stainless steel).....	1 ton.
Stainless steel.....	2,000 pounds.
Copper and copper-base alloy brass mill products, copper wire mill products, copper and copper-base alloy foundry products and powder....	2,000 pounds.
Aluminum.....	2,000 pounds.
Nickel alloys.....	2,000 pounds.

## Sec. 4. Notification by Allotting Agencies.

Each Allotting Agency which acquires Class A products pursuant to this direction shall notify the person with whom it places a rated order for such products that he is a self-authorizing consumer and must obtain his requirements of controlled materials and other products and materials under the provisions of section 9 of DMS Reg. 1.

This direction shall take effect December 1, 1959.

## Section 1. What this direction does.

This direction sets forth certain rules governing operations of controlled materials producers and distributors under the Defense Materials System. These rules which were formerly contained in DMS Reg. 1 have been revised in this direction and will be incorporated in the appropriate controlled material orders which will be amended and reissued.

## Sec. 2. Definitions.

As used in this direction:

(a) "Mandatory acceptance order" means an ACM order or any other purchase or delivery order for controlled materials which a person is required to accept pursuant to any regulation or order of BDSA, or pursuant to a specific authorization or directive of BDSA.

(b) "Lead time" means the period of time in advance of the month of required shipment for controlled materials as specified in Schedule III of DMS Reg. 1.

(c) "Set-aside" means a limitation for required acceptance of ACM orders established by or pursuant to any regulation, order or directive of BDSA.

(d) "ACM-DX order" means an authorized controlled material order identified by the suffix "DX" as provided in section 10(b) of DMS Reg. 1.

(e) "Production material" means, with respect to any controlled materials producer, any material (including controlled material) or product which will be physically incorporated into controlled materials which he produces, and includes the portion of such material normally consumed or converted into scrap or by-products in the course of processing. It also includes containers and packaging materials required to make delivery of the materials he produces, and also chemicals used directly in the production of the materials he produces. It does not include production equipment, material for plant improvement, expansion or construction, or material for maintenance, repair, or operating supplies.

(f) "Primary nickel" means nickel in the following forms or shapes:

Electrolytic cathodes.  
Ingots.  
Pigs.  
Rondelles.  
Cubes and pellets.  
Shot.  
Oxide (including sintered oxide).  
Salts.  
Chemicals.  
Powder.

## Sec. 3. Rules applicable to controlled materials producers.

(a) Each controlled materials producer must comply with such production and other directives as may be issued from time to time by BDSA and with the provisions of all applicable regulations and orders of BDSA.

(b) A controlled materials producer must accept all mandatory acceptance orders; however, he may reject ACM orders in the following cases, but he shall

not discriminate among customers in rejecting or accepting such orders:

(1) If the order is received after commencement of lead time: *Provided*, That an ACM-DX order must be accepted without regard to lead time unless it is impracticable for him to make delivery within the required delivery month in which event he must accept such order for the earliest practicable delivery date.

(2) If the order is one for less than the minimum mill quantity specified in Schedule IV of this regulation and has not been combined with another order pursuant to section 10(e) of DMS Reg. 1.

(3) If the person seeking to place the order is unwilling or unable to meet such producer's regularly established prices and terms of sale or payment.

(4) If the order need not be accepted under the provisions of BDSA Order M-1A (steel), BDSA Order M-1B (nickel alloys), BDSA Order M-5A (aluminum), BDSA Order M-11A (copper) or of any other applicable regulation or order of BDSA: *Provided*, That an ACM-DX order must be accepted even though the set-aside has been or will be exceeded by such acceptance: *Provided further*, That acceptance by a controlled materials producer prior to the date he opens his order books of (a) an ACM order directly from the Department of Defense or the Atomic Energy Commission or (b) an ACM-DX order, shall not effect an opening of his books so as to require acceptance of other orders for controlled materials.

(c) A controlled materials producer who receives an ACM order must transmit written notification to the person who tendered such order of its acceptance or rejection within 10 consecutive calendar days after its receipt, except that in the case of an ACM-DX order such notification must be transmitted within 5 consecutive calendar days after its receipt.

(d) A controlled materials producer must make shipment on each ACM order as close to the requested delivery date as is practicable. If a producer, after accepting an ACM order finds that, due to contingencies which he could not reasonably have foreseen, he is obliged to postpone the shipment date, he must promptly advise his customer of the approximate date when shipment can be made, and keep his customer advised of any changes in that date. Shipment of any such carry-over order must be scheduled and made in preference to any order originally scheduled for a later date. When the new date for shipment on a carry-over order falls within a later quarter than that indicated on the original order, the producer must make shipment on the basis of the original order even if that order shows a quarterly identification earlier than the one in which shipment is actually made.

#### Sec. 4. Production requirements of controlled materials producers.

(a) Except as provided in paragraph (b) of this section, a controlled materials producer must use the allotment number D-1 and indicate the calendar quarter in which delivery is required in obtaining production materials consisting of

controlled materials needed to fill mandatory acceptance orders or to replace in inventory such production materials which he has used to fill such orders: *Provided*, That instead of using the allotment number D-1, (1) a steel controlled materials producer must obtain steel controlled materials in accordance with BDSA Order M-1A, (2) a nickel alloy controlled materials producer must obtain nickel alloy controlled materials in accordance with BDSA Order M-1B, (3) an aluminum controlled materials producer must obtain aluminum controlled materials in accordance with BDSA Order M-5A, and (4) a copper controlled materials producer must obtain copper controlled materials in accordance with BDSA Order M-11A.

(b) Notwithstanding the provisions of any other regulation or order of BDSA, a controlled materials producer who requires controlled materials to fill an ACM-DX order or to replace in inventory controlled materials used to fill an ACM-DX order must, in addition to complying with the provisions of paragraph (a) of this section, indicate the suffix DX on his purchase orders for such controlled materials.

(c) Except as provided in paragraph (d) of this section, a controlled materials producer must use the rating DO-D-1 in obtaining production materials other than controlled materials needed to fill mandatory acceptance orders or to replace in inventory such production materials used by him to fill such orders: *Provided*, That in obtaining primary nickel as a production material he must use the rating DO followed by the allotment number that accompanied his customer's order.

(d) In obtaining primary nickel needed as a production material to fill ACM-DX orders or to replace in inventory primary nickel used to fill ACM-DX orders, a controlled materials producer must use the rating DX followed by the allotment number that accompanied such ACM-DX orders; and in obtaining production materials other than primary nickel or other than controlled materials for such purposes he must use the rating DX-D-1.

(e) A controlled materials producer may combine his requirements of controlled materials needed to fill mandatory acceptance orders in one or more ACM orders. He may also combine his requirements for other production materials needed to fill mandatory acceptance orders in one or more rated orders. In placing such combined orders he must show the amount of production materials to which each program identification applies.

#### Sec. 5. Rules applicable to controlled materials distributors.

(a) Each controlled materials distributor must comply with such directives as may be issued from time to time by BDSA and with the provisions of all applicable regulations and orders of BDSA.

(b) An ACM order may be placed with a controlled materials distributor orally or by telephone, provided that the person placing the order makes written confirmation of such order within 15 days

thereafter. An ACM order placed with a controlled materials distributor shall be considered as calling for immediate delivery unless such order specifically provides otherwise.

(c) A controlled materials distributor must accept all mandatory acceptance orders; however, he may reject ACM orders in the following cases, but he shall not discriminate among customers in rejecting or accepting such orders:

(1) If the order is not for immediate delivery.

(2) If he does not have the material ordered in his stock, unless he knows that such material is in transit to him.

(3) If the person seeking to place the order is unwilling or unable to meet such distributor's regularly established prices and terms of sale or payment.

(4) If the order need not be accepted under the provisions of BDSA Order M-1A (steel), BDSA Order M-1B (nickel alloys), BDSA Order M-5A (aluminum), BDSA Order M-11A (copper) or of any other applicable regulation or order of BDSA.

(d) Except as provided in paragraph (e) of this section, a controlled materials distributor must obtain controlled materials needed to fill mandatory acceptance orders or to replace in inventory controlled materials used to fill such orders in accordance with the provisions of BDSA Order M-1A (steel), BDSA Order M-1B (nickel alloys), BDSA Order M-5A (aluminum), and BDSA Order M-11A (copper).

(e) Notwithstanding the provisions of any other regulation or order of BDSA, a controlled materials distributor who requires controlled materials to fill an ACM-DX order or to replace in inventory controlled materials used to fill an ACM-DX order must, in addition to complying with the provisions of paragraph (d) of this section, indicate the suffix DX on his purchase orders for such controlled materials.

#### Sec. 6. Small order exception.

The provisions of this direction requiring controlled materials producers and distributors to use ratings and allotment numbers need not be followed in the case of any individual purchase order of \$500 or less.

#### Sec.-7. Applicability of Direction 1 of BDSA Order M-1A.

To the extent that any provisions of this direction are inconsistent with the provisions of Direction 1 (issued October 16, 1959) to BDSA Order M-1A which establishes special rules regarding acceptance of and shipments against authorized controlled material orders by steel producers, the provisions of said Direction 1 to BDSA Order M-1A shall govern.

This direction shall take effect December 1, 1959.

## Title 7—AGRICULTURE

### Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

[Amdt. 1]

#### PART 723—CIGAR-FILLER TOBACCO, CIGAR-BINDER TOBACCO, AND CIGAR-FILLER AND BINDER TOBACCO

##### Marketing Quota Regulations, 1959-60 Marketing Year

The amendment contained herein is based on the marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1282 et seq.), and amends the cigar binder (types 51 and 52) tobacco and cigar-filler and binder (types 42, 43, 44, 53, 54 and 55) tobacco marketing quota regulations, 1959-60, marketing year (24 F.R. 5106) as provided below.

Since this amendment is issued only to revise § 723.1052 to conform to the interpretation given to section 313 of the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1313), in § 723.1119 of the Tobacco Marketing Quota Regulations, 1960-61 Marketing Year (24 F.R. 6889, 7243), it is hereby found and determined that compliance with the notice, public procedure and effective date requirements of section 4 of the Administrative Procedure Act (5 U.S.C. 1003) is impracticable, unnecessary and contrary to the public interest and this amendment shall become effective upon filing with the Division of Federal Register.

Section 723.1052 (a), (c) (2), (d) and (e) are amended as follows:

(a) *Report of tobacco acreage.* The farm operator or any producer on the farm shall execute and file a report with the ASC county office or a representative of the county committee on Form CSS-578, Report of Acreage, showing all fields of tobacco on the farm in 1959. If any producer on a farm files or aids or acquiesces in the filing of any false report with respect to the acreage of tobacco grown on the farm, even though the farm operator or his representative refuses to sign such report, the allotment next established for such farm and kind of tobacco shall be reduced pursuant to applicable tobacco marketing quota regulations for determining acreage allotments and normal yields, except that such reduction for any such farm shall not be made if it is established to the satisfaction of the county and State committees that (1) the filing of, aiding, or acquiescing in the filing of, such false report was not intentional on the part of any producer on the farm and that no producer on the farm could reasonably have been expected to know that the report was false, provided the filing of the report will be construed as intentional unless the report is corrected and the payment of all additional penalty is

made, or (2) no person connected with such farm for the year for which the allotment is being established caused, aided, or acquiesced in the filing of the false acreage report.

(c) \* \* \*

(2) If the producer-manufacturer has excess tobacco and does not pay the penalty thereon at the converted rate of penalty shown on the marketing card, as provided in this section, he shall notify the buyer of the manufactured product, or the buyer of any residue resulting from processing the tobacco, in writing, at time of sale of such product or residue of the precise amount of penalty due on such manufactured product or residue. In such event, the producer-manufacturer shall immediately notify the Director and shall account for the disposition of such tobacco by furnishing the Director a report, on a form to be furnished him by the Director showing the name and address of the buyer of the manufactured products or residue, a detailed account of the disposition of such tobacco and the exact amounts of penalty due with respect to each such sale of such products or residue, together with copies of the written notice of the exact amounts of the penalty due given to the buyer of such products or residue. Failure to file such report, or the filing of a report which is found by the State committee to be incomplete or incorrect, shall be considered failure of the producer-manufacturer to account for the disposition of tobacco produced on the farm and the allotment next established for the farm shall be reduced for such failure pursuant to applicable tobacco marketing quota regulations for determining acreage allotments and normal yields, except that such reduction for any such farm shall not be made if it is established to the satisfaction of the county and State committees that (i) the failure to furnish such report of disposition was unintentional and the producer-manufacturer on such farm could not reasonably have been expected to furnish such report of disposition, provided such failure will be construed as intentional unless such report of disposition is furnished and payment of all additional penalty is made, or (ii) no person connected with such farm for the year for which the allotment is being established, caused, aided or acquiesced in the failure to furnish such report. The producer-manufacturer shall be liable for the payment of penalty as provided in § 723.1049(d).

(d) *False identification.* If tobacco was marketed or was permitted to be marketed in any marketing year as having been produced on the acreage allotment for any farm which in fact was produced on a different farm, the acreage allotments next established for both such farms and kind of tobacco shall be reduced pursuant to applicable tobacco marketing quota regulations for determining acreage allotments and normal yields, except that such reduction for any such farm shall not be made if it is established to the satisfaction of the

county and State committees that (1) no person on such farm intentionally participated in such marketing or could have reasonably been expected to have prevented such marketing, provided the marketing shall be construed as intentional unless all tobacco from the farm is accounted for and payment of all additional penalty is made, or (2) no person connected with such farm for the year for which the allotment is being established caused, aided, or acquiesced in such marketing.

(e) *Report of production and disposition.* In addition to any other reports which may be required under §§ 723-1030 to 723.1062, the operator on each farm or any producer on the farm (even though the harvested acreage does not exceed the acreage allotment or even though no allotment was established for the farm) shall upon written request by registered or certified mail from the State administrative officer within fifteen (15) days after deposit of such request in the United States mails addressed to such person at his last known address, furnish the Secretary on Form MQ-108-Tobacco a written report of the acreage, production, and disposition of all tobacco produced on the farm by sending the same to the ASC State office showing, as to the farm at the time of filing such report, (1) the number of fields (patches or areas) from which tobacco was harvested, the acres of tobacco harvested from each such field, and the total acreage of tobacco harvested from the farm, (2) the total pounds of tobacco produced, (3) the amount of tobacco on hand and its location, and (4) as to each lot of tobacco marketed, the name and address of the buyer or other person to or through whom such tobacco was marketed and the number of pounds marketed, the gross price and the date of the marketing. Failure to file the MQ-108 as requested, the filing of a false MQ-108, or the filing of a MQ-108 which is found by the State committee to be incomplete or incorrect shall constitute failure of the producer to account for disposition of tobacco produced on the farm and the allotment next established for such farm and kind of tobacco shall be reduced pursuant to applicable tobacco marketing quota regulations for determining acreage allotments and normal yields, except that such reduction for any such farm shall not be made if it is established to the satisfaction of the county and State committees that (i) the failure to furnish such proof of disposition was unintentional and no producer on such farm could reasonably have been expected to furnish such proof of disposition, provided such failure will be construed as intentional unless such proof of disposition is furnished and payment of all additional penalty is made, or (ii) no person connected with such farm for the year for which the allotment is being established caused, aided or acquiesced in the failure to furnish such proof.

(Sec. 375, 52 Stat. 66; 7 U.S.C. 1375; Interpretations or applies Sec. 313, 52 Stat. 48, as amended, 7 U.S.C. 1313; Sec. 373, 52 Stat. 65 as amended; 7 U.S.C. 1373)

Issued at Washington, D.C., this 27th day of November 1959.

CLARENCE D. PALMBY,  
Acting Administrator,

PART 729—PEANUTS

Allotment and Marketing Quota Regulations for 1959 and Subsequent Crops

MISCELLANEOUS AMENDMENTS

I. *Basis and purpose.* (a) The amendment contained herein is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1281 et seq.), for the purpose of revising the Allotment and Marketing Quota Regulations for Peanuts of the 1959 and Subsequent Crops (23 F.R. 8515; 24 F.R. 2677, 6803). A notice of intention to amend these regulations, together with a synopsis of the more significant of the contemplated changes and the affected sections as they would be amended, was published in the FEDERAL REGISTER September 16, 1959 (24 F.R. 7461). Data and views submitted in response to such notice have been duly considered in the preparation of this amendment.

(b) Since county committees are making preparations to issue peanut allotments for the 1960 crop and peanut producers are, or soon will be making plans for planting peanuts in 1960 it is hereby found that compliance with the 30-day effective date provision of the Administrative Procedure Act (5 U.S.C. 1003) is impracticable and contrary to the public interest. Therefore, this amendment shall become effective upon the date of filing with the Director, Division of the Federal Register.

II. The Allotment and Marketing Quota Regulations for Peanuts of the 1959 and Subsequent Crops (23 F.R. 8515; 24 F.R. 2677, 6803) are hereby amended as follows.

A. Section 729.1011 *Definitions*, is amended as follows:

§ 729.1011 *Definitions.*

(h) "Excess acreage" means the acreage by which the final acreage exceeds the effective farm allotment except when the farm operator is officially notified in writing of an allotment greater than the final effective allotment for the farm, the excess acreage shall be the amount by which the final acreage exceeds the acreage shown in the erroneous notice provided each of the following conditions is met:

(1) The operator was officially notified in writing of an allotment greater than the finally approved effective farm allotment because of an error made in the State or county office;

(2) The county committee finds (i) the extent of error in the erroneous notice was such that the operator would not reasonably be expected to question

the allotment of which he was erroneously notified, and (ii) that the operator, acting solely because of the information contained in the erroneous notice, picked or threshed peanuts from acreage in excess of the finally approved effective farm allotment;

(3) The State administrative officer concurs in the county committee's findings.

If the farm operator receives a corrected notice of allotment after peanuts have been planted on the farm but before such peanuts are picked or threshed, the provisions of this paragraph shall not apply unless the county committee and the State administrative officer determine that the acreage planted for picking or threshing was in excess of the effective farm allotment only because the operator was given the erroneous notice of allotment.

\* \* \* \* \*

(k) \* \* \*

(5) If the final acreage on a farm, as determined under the foregoing provisions of this subsection, is in excess of the effective farm allotment, the final acreage may be adjusted to equal the effective farm allotment provided:

(i) The farm operator notifies the county office manager of his intention to dispose of picked or threshed peanuts to adjust the final acreage and arranges with the county office manager for a representative of the county committee to witness the disposition of such peanuts;

(ii) Disposition of a quantity of peanuts equal to the county office manager's estimate of the production from the acreage in excess of the effective farm allotment is made in the presence of a representative of the county committee before such peanuts are removed from the farm, except for crushing in the presence of such a representative, on which produced;

(iii) The disposition is by feeding the peanuts to livestock, grinding or crushing them for later use as livestock feed, or otherwise disposing of them in such a manner that they cannot thereafter be used or marketed as peanuts; and

(iv) If the acreage in excess of the effective farm allotment is not more than the larger of one-tenth acre or three percent of such allotment, the disposition is approved by the county committee; or, if the acreage in excess of the effective farm allotment is greater than the larger of one-tenth acre or three percent of such allotment, the disposition is approved by the county committee and by a representative of the State committee.

(1) "Farm peanut history acreage" for each year beginning with 1957 shall be an acreage equal to the farm allotment; *Provided*, That beginning with the 1960 crop, except for federally-owned land, the current farm allotment shall not be preserved as history acreage under provisions of this sentence unless for the current year, or either of the two preceding years, an acreage equal to 75 percent or more of the farm acreage allotment (after deducting acreage released to the county committee and the amount of any

reduction for violation of marketing quota regulations in a prior year, but before adding reapportioned acreage or the amount of any increase granted for peanuts of a type determined to be in short supply) for such year was actually planted to peanuts on the farm (or was regarded as planted under provisions of the Soil Bank Act or the Great Plains Program). For 1960 and each subsequent year in which farm peanut history acreage is not preserved under the provisions of the preceding sentence the farm peanut history acreage shall be the sum of (1) the final acreage (adjusted to compensate for abnormal conditions affecting acreage if the county committee determines that such action is necessary to maintain equitable allotments), (2) the acreage diverted from the production of peanuts under provisions of the Soil Bank Act or the Great Plains Program, (3) the acreage temporarily released to the county committee under provisions of § 729.1024, and (4) the amount of any reduction in the current year allotment made pursuant to the provisions of § 729.1023. Notwithstanding any other provision of this Part and subject only to any limitation imposed by the provisions of section 377 of the Act, the peanut history acreage for each year of the base period shall be zero unless in one or more years of the base period there is acreage in the peanut history acreage of a kind other than acreage released to the county committee or acreage reduction(s) for the violation of marketing quota regulations. The farm peanut history acreage for any year shall not exceed the farm peanut allotment for the farm for such year.

\* \* \* \*

(2) "ASC State Office" means the office of the Agricultural Stabilization and Conservation State committee. The addresses of the ASC State offices of the peanut-producing States are:

\* \* \* \*

(gg) "Representative of the State committee" means a member of the State committee or any employee of the State committee.

B. Section 729.1016 *Determination of adjusted acreage*, is amended as follows:

§ 729.1016 *Determination of adjusted acreage.*

\* \* \* \*

(b) \* \* \*

(3) For each farm the county committee shall compare the preceding year farm peanut history acreage with the farm allotment established for such year, and, if the farm peanut history acreage is less than 75 percent of the farm allotment, determine the average of the farm peanut allotment and the farm peanut history acreage for the preceding year. The average so determined shall be considered the adjusted acreage for the farm for the purpose of determining the farm allotment for the current year.

\* \* \* \*

(5) An acreage not in excess of 10 percent of the preceding year State peanut acreage allotment shall be made available to the county committee by the State committee for making upward adjustments. The county committee shall examine the preceding year farm allotment for each farm after adjustment, if any, has been made under subparagraph (3) of this paragraph and may adjust such allotment upward if it determines that such adjustment is necessary to obtain an adjusted acreage for the farm which is comparable with the adjusted acreage established for other similar old farms in the community. Upward adjustments shall be made on the basis of the farm peanut history acreages for the base period; tillable acreage available; labor and equipment available for the production of peanuts; crop-rotation practices; and soil and other physical factors affecting the production of peanuts. The county committee may use the sum of the downward adjustments made in accordance with subparagraph (4) of this paragraph in addition to the acreage available under this subparagraph for making upward adjustments. If an upward adjustment is made, the adjusted acreage for the farm shall not exceed the larger of (i) the result obtained by multiplying the tillable acreage available for the farm by the tillable acreage factor, or (ii) the largest farm peanut history acreage for the farm for any year of the base period: *Provided, however*, That such limitation shall not be applicable if the county committee finds, and a representative of the State committee concurs, that the adjusted acreage as determined under the limitation is relatively smaller in relation to the farm peanut history acreages for the base period, the tillable acreage available, and the labor and equipment available for the production of peanuts on the farm, than the adjusted acreages for other old farms in the community which are similar with respect to such factors.

\* \* \* \*

C. Section 729.1020 *Normal yields*, is amended as follows:

§ 729.1020 *Normal yields.*

\* \* \* \*

(b) *Farm*. The normal yield for a farm shall be determined by the county committee and shall be the average yield per acre of peanuts for the farm, adjusted for abnormal weather condi-

tions, during the five calendar years immediately preceding the year in which the normal yield is determined. If for any such year the data are not available or there is no actual yield, then the normal yield for the farm shall be appraised by the county committee, taking into consideration soil and other physical factors, abnormal weather conditions, the normal yield for the county, and the yield for the farm in years for which data are available. Farm normal yields determined under provisions of this section shall be approved by a representative of the State committee.

D. Section 729.1021 *Allotments for new farms*, is amended as follows:

§ 729.1021 *Allotments for new farms.*

(a) The farm allotment for a new farm shall be that acreage which the county committee, with the approval of a representative of the State committee, determines is fair and reasonable for the farm, taking into consideration the peanut-growing experience of the producer(s) on the farm; the tillable acreage available; labor and equipment available for the production of peanuts on the farm; crop-rotation practices; and soil and other physical factors affecting the production of peanuts. The farm allotment for a new farm shall not exceed the result obtained by multiplying the tillable acreage available for the farm by the tillable acreage factor: *Provided, however*, That such limitation shall not be applicable if the county committee finds, and a representative of the State committee concurs, that the allotment determined for the farm under the limitation is relatively smaller in relation to the tillable acreage available, labor and equipment available for the production of peanuts on the farm, and crop-rotation practices, than the allotments established for other farms in the community which are similar with respect to such factors: *And provided further*, That the allotment determined under this section shall be reduced to the planted acreage when it is determined that such acreage is less than the allotment.

(b) Notwithstanding any other provisions of this section, an allotment shall not be established for any new farm unless each of the following conditions has been met:

(1) An application for a new farm allotment is filed by the farm operator and farm owner with the county committee on or before February 15 of the calendar year for which application for an allotment is being filed;

(2) A producer on the farm shall have had experience in growing peanuts either as a sharecropper, tenant, or as a farm operator or farm owner during at least two of the five years immediately preceding the current year: *Provided, however*, That a producer who was in the armed services after September 16, 1940, shall be deemed to have met the requirements hereof if he has had experience in growing peanuts during one year either within the five years immediately prior to his entry in the armed services or within the five years immediately following his discharge

from the armed services and if he files an application for an allotment within five years from date of discharge. In making a determination of any producer's experience in growing peanuts no credit shall be given for the producer's interest, in 1959 or a subsequent year, in peanuts grown on a farm for which no farm allotment is established for such year. If the producer furnishing the required experience is a person other than the farm owner and operator he shall live on the farm for which the new farm allotment is requested;

(3) The farm operator is largely dependent on the farm for his livelihood;

(4) The farm is the only farm owned or operated by the farm operator or farm owner for which a farm allotment is established for the current year; and

(5) A peanut allotment for the current year for the farm was not permanently released pursuant to provisions of § 729.1024.

(c) Beginning with the 1960 crop year, one-eighth of one percent of the national peanut acreage allotment shall be reserved for establishing allotments for new farms and, if the total of the acreage required to establish allotments and reserves hereunder for old farms in any State is less than the State allotment for such farms, the balance shall upon approval by the Director, be available for establishing allotments for new farms in the State. If the total of the acreage allotments for new farms, as determined pursuant to this section, after deducting acreage available for such farms which was originally allotted for old farms, exceeds the acreage reserved for new farm allotments, the acreage reserved for new farms shall be apportioned to the States for establishing new farm allotments as follows:

(1) For any State for which the total of the new farm allotments so determined does not exceed the State's proportionate share of the national new farm reserve (determined by tentatively apportioning such reserve among the States on the same basis as the national allotment, less the new farm reserve, was apportioned for the current year), no adjustment will be made in the recommended new farm allotments and there shall be made available to each such State an acreage equal to the total of the new farm allotments so determined;

(2) For any State for which the total of the new farm allotments so determined exceeds the State's proportionate share of the national new farm reserve (determined by tentatively apportioning such reserve among the States on the same basis as the national allotment, less the new farm reserve, was apportioned for the current year), there shall be made available for new farm allotments in each such State an acreage equal to the State's said proportionate share of the national new farm reserve;

(3) The acreage remaining after making the apportionments under subparagraphs (1) and (2) of this paragraph shall be apportioned pro rata among the States receiving acreage under subparagraph (2) of this para-

graph on the basis of the total acreage determined for new farm allotments that is in excess of the acreage made available under subparagraph (2) of this paragraph. The new farm allotments established from acreage apportioned under subparagraph (2) of this paragraph, and under this subparagraph, shall be adjusted downward so that the total of the acreage allotments for such farms shall not exceed the acreage available; and

(4) If the total of the acreage required to establish allotments and reserves for all old farms in the State and for all new farms in the State that meet the eligibility requirements set forth in paragraph (b) of this section is less than the State acreage allotment plus the acreage allocated to new farms in the State under this section, the balance of such acreage shall, upon approval of the Director, be available for establishing allotments, on the basis of factors specified in § 729.1021(a), for other new farms if each of the following conditions has been met;

(i) An application for an allotment is filed by the farm operator and farm owner with the county committee on or before March 1 of the calendar year for which application for an allotment is being filed,

(ii) The farm operator is largely dependent on the farm for his livelihood, and

(iii) The farm is the only farm owned or operated by the farm operator or farm owner for which a farm allotment is established for the current year.

(d) Not more than one per centum of the national acreage allotment shall be apportioned among new farms.

(e) Any farm allotment established under provisions of this section shall be void as of the date issued if the State committee determines that the applicant knowingly furnished false, incomplete or inaccurate information to obtain the allotment.

E. Section 729.1022, *Normal yields for new farms*, is amended as follows:

§ 729.1022 Normal yields for new farms.

The normal yield for a new farm shall be that yield per acre which the county committee determines on the basis of the factors set forth in § 729.1020(b). Normal yields for new farms shall be approved by a representative of the State committee.

F. Section 729.1023, *Reduction of acreage allotment for violation of the marketing quota regulations for a prior marketing year*, is amended as follows:

§ 729.1023 Reduction of acreage allotment for violation of the marketing quota regulations for a prior marketing year.

(a) If peanuts are marketed or are permitted to be marketed in any marketing year as having been produced on the acreage allotment for any farm which in fact was produced on a different farm, the acreage allotments next established for both such farms shall be reduced as provided in this section, except that such reduction for any such

farm shall not be made if it is established to the satisfaction of the county and State committees that (1) no person on such farm intentionally participated in such marketing or could have reasonably been expected to have prevented such marketing, provided the marketing shall be construed as intentional unless all peanuts from the farm are accounted for and payment of all additional penalty is made, or (2) no person connected with such farm for the current year caused, aided, or acquiesced in such marketing.

(b) If complete and accurate proof of the disposition of all peanuts produced on the farm is not furnished in the manner and within the time prescribed by these regulations, the acreage allotment next established for the farm shall be reduced as provided in this section for the failure to furnish such proof except that such reduction for any such farm shall not be made if it is established to the satisfaction of the county and State committees that (1) the failure to furnish such proof of disposition was unintentional and no producer on such farm could reasonably have been expected to furnish such proof of disposition, provided such failure will be construed as intentional unless such proof of disposition is furnished and payment of all additional penalty is made, or (2) no person connected with such farm for the current year caused, aided or acquiesced in the failure to furnish such proof.

(c) Any reduction made under this section shall be made with respect to the current year farm allotment, provided it can be made 30 days prior to the beginning of the normal planting season, as determined by the State committee, for the county in which the farm is located. If the reduction cannot be made effective with respect to the current year crop, such reduction shall be made with respect to a farm allotment subsequently established for the farm. This section shall not apply if the farm allotment for any prior year was reduced on account of the same violation.

(d) The amount of reduction shall be that percentage which the amount of peanuts involved in the violation is of the respective farm marketing quota for the farm for the marketing year in which the violation occurred. Where the amount of such peanuts involved in the violation equals or exceeds the amount of the farm marketing quota, the amount of reduction shall be 100 percent. The amount of peanuts determined by the county committee to have been falsely identified or for which satisfactory proof of disposition has not been furnished shall be considered the amount of peanuts involved in the violation. If the actual production of peanuts on the farm is not known, the county committee shall estimate such actual production, taking into consideration the condition of the peanut crop during the growing and harvesting season, if known, and the actual yield per acre of peanuts on other farms in the locality on which the soil and other physical factors affecting the production of peanuts are similar: *Provided*, That the estimate of such actual production of peanuts on the farm shall

not exceed the harvested acreage of peanuts on the farm multiplied by the average actual yield per acre on farms on which the soil and other physical factors affecting the production of peanuts are similar. The actual yield per acre of peanuts on the farm, as so estimated by the county committee, multiplied by the smaller of the effective farm allotment or the final acreage shall be considered the farm marketing quota for the purposes of this section. In determining, for farms on which the final acreage exceeds the effective farm allotment, the amount of peanuts for which satisfactory proof of disposition is not shown, the amount of peanuts involved in the violation shall be deemed to be the actual production of peanuts on the farm, estimated as above, less the amount of peanuts for which satisfactory proof of disposition has been shown. For farms on which the final acreage does not exceed the effective farm allotment, the amount of peanuts involved in the violation shall be the quantity of peanuts reported by the farm operator as produced on the farm less the actual production on the farm as determined by the county committee.

(e) If the farm involved in the violation is combined with another farm prior to the reduction, the reduction shall be computed on the portion of the allotment derived from the farm involved in the violation.

(f) If the farm involved in the violation has been divided prior to the reduction, the percentage of reduction for the allotments for the divided farms shall be the same as though no division had been made.

(g) Any reduction in the allotment for a farm made under this section shall not operate to reduce the allotment for such farm for any subsequent year.

G. Section 729.1024, *Release and reapportionment*, as amended, is amended as follows:

§ 729.1024 *Release and reapportionment.*

(a) *Release of acreage allotments.* Any part of the acreage allotted for the current year to an individual farm in any county under the provisions of § 729.1018 on which peanuts will not be produced and which the operator of the farm voluntarily surrenders in writing to the county committee by a closing date established by the State committee, which shall not be earlier than February 1 or later than July 1 of the current year, shall be deducted from the allotment to such farm. If any part of the farm allotment is permanently released (i.e., for the current year and all subsequent years), such release shall be in writing and signed by the owner and operator of the farm. If the entire current year farm allotment is permanently released, the farm shall not thereafter during the current year be eligible for a farm allotment as either an old farm or as a new farm, and the farm peanut history acreages and farm allotments for the current year and prior years shall not be considered in establishing an allotment for the farm for any subsequent year.

(b) *Reapportionment of released acreage allotment.* The acreage released under paragraph (a) of this section may be reapportioned by the county committee, to other farms in the same county receiving allotments, in amounts determined by the county committee to be fair and reasonable on the basis of tillable acreage available; labor and equipment available for the production of peanuts; crop-rotation practices; and soil and other physical factors affecting the production of peanuts; except that, any acreage allotment released from a farm which is covered in whole or in part by a Soil Bank Conservation Reserve Contract or for which an application is pending for a Conservation Reserve Contract, shall not be reapportioned by the county committee to any other farm. Applications shall be filed by farm owners or operators with the county committee not later than a closing date established by the State committee, which shall not be earlier than February 1 or later than July 15 of the current year; provided the State committee may specify that applications are unnecessary, in which case the State committee shall establish a closing date for the reapportionment of released acreage.

(c) *Maximum acreage allotment.* No allotment shall be increased by reason of the provisions in paragraph (b) of this section to an acreage in excess of the tillable acreage available for the farm.

(d) *Credit for acreage allotment released for the current year only.* The release for the current year only of any part of the acreage allotted to individual farms pursuant to paragraph (a) of this section shall not operate to reduce the allotment for any subsequent year for the farm from which such acreage was released unless the farm becomes ineligible for an old farm allotment. Any increase in the allotment for a farm because of reapportionment under paragraph (b) of this section shall not operate to increase the allotment for any subsequent year for the farm.

H. Section 729.1027, *Approval of determinations and notice of farm allotment*, is amended as follows:

§ 729.1027 *Approval of determinations and notice of farm allotment.*

The State committee shall review farm allotments and normal yields and may correct or require correction of any determination made in connection therewith. Such review may be performed on the basis of summaries of farm data transmitted to the State office or by a representative of the State committee inspecting appropriate records in the county offices. Farm allotments shall be approved by the county committee and official notice of the farm allotment on Form MQ-24-1 or MQ-24-2 shall not be issued for a farm until such allotment has been so approved. After approval of farm allotments by county committees a Form MQ-24-1 or MQ-24-2, *Notice of Farm Acreage Allotment and Marketing Quota*, shall be prepared and mailed to the operator of each farm for which a farm allotment is established. No Form

MQ-24-1 or MQ-24-2 shall be valid unless the signature of a member of the county committee, either actual or facsimile, is entered in the space provided on the form.

I. Section 729.1043, *Issuance of marketing cards*, is amended as follows:

§ 729.1043 *Issuance of marketing cards.*

(c) Upon return to the ASC county office, of any marketing card where all spaces for recording sales have been used and before the marketing of peanuts from the farm has been completed, a new marketing card of the same kind, bearing the same name, information, and identification as the used card shall be issued. Upon application by a producer a new marketing card of the same kind shall also be issued to replace a card which has been lost, mutilated, destroyed or stolen.

J. Section 729.1046, *Invalid marketing cards*, is amended as follows:

§ 729.1046 *Invalid marketing cards.*

(c) If a marketing card is invalid because an entry is not made as required, it shall be returned to the county office. The card then may be made valid by entering data previously omitted or by correcting, if initialed by the county office manager, any incorrect data previously entered (except incorrect entry of converted penalty rate). If an invalid card is not so made valid it shall be cancelled and a new card shall be issued in its place if there is further need for a marketing card.

K. Section 729.1056, *Producer's records and reports*, is amended as follows:

§ 729.1056 *Producer's records and reports.*

(c) \*\*\*  
(1) In addition to any other reports which may be required under §§ 729.1039 through 729.1063 the operator of each farm or any other producer on the farm (even though the farm has no excess acreage) shall, upon written request from the State administrative officer sent to such person at his last known address, furnish the Secretary a written report of the disposition made of all peanuts produced on the farm by sending the same to the ASC State office within 15 days after the request for such report was deposited in the United States mails. Such written report shall show for the farm:

(i) The final acreage as defined in § 729.1011(k);

(ii) The total production of peanuts;

(iii) The name and address of the buyer to or through whom each lot of peanuts was marketed, the number of pounds marketed in each lot, and the date marketed: *Provided*, That where peanuts are marketed in small lots to numerous persons who are not established commercial buyers of peanuts, the report may be made as either a daily or weekly summary of the number of

pounds marketed and the name and address of the buyer(s) need not be shown but in lieu thereof the place of marketing shall be shown;

(iv) The quantity and disposition of harvested peanuts not marketed; and

(v) In the case of a farm for which an agreement was approved under § 729.1054, the price per pound or the gross value received for each lot of peanuts.

[Amdt. 4]

PART 730—RICE

Subpart—Regulations for Determination of Acreage Allotments for 1959 and Subsequent Crops

MISCELLANEOUS AMENDMENTS

The purpose of the amendments herein is (1) to change for 1959 the method for determining the acreage diverted from the production of rice on farms under a conservation reserve contract under the soil bank as provided in the amendment to the regulations pertaining to rice marketing quotas issued July 9, 1959 (24 F.R. 5623); (2) to provide, effective for 1960 and subsequent years, regulations to comply with the provisions of Public Law 86-172, which amends section 377 of the Agricultural Adjustment Act of 1938, as amended, with respect to determining farm rice history acreage; (3) to change the language defining the term "engaged in the production of rice" so as clearly to provide the extent to which a producer must actually participate in the production and harvest of a rice crop, if his producer allotment is to be allocated to the farm; and (4) to make other minor changes primarily for the purpose of clarification or to obtain uniformity between the rice acreage allotment regulations and the regulations for other allotment crops.

Prior to preparing these amendments, public notice (24 F.R. 8239) was given in accordance with the Administrative Procedure Act (5 U.S.C. 1003). The data, views, or recommendations pertaining to these changes which were received prior to the date specified in the notice have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

§ 730.1011 [Amendment]

1a. Section 730.1011(g) is amended to read as follows:

(g) (1) "Engaged in the production of rice" means, for 1959, actively participating as landlord, tenant, or sharecropper in the conduct of the farming operations necessary to produce and harvest a crop of rice on a farm and the sharing in a predetermined and fixed portion of the rice crop, or the proceeds thereof, at the time of harvest by virtue of having contributed in the capacity of landlord, tenant, or sharecropper, the land, labor, water or equipment necessary for the production of the rice crop. Any landowner and any producer, including a tenant, who holds a lease or rental agreement, provided the land under lease or rental agreement meets the definition of developed rice land, who requests the allocation of his producer allotment to a farm for the purpose of diverting an acreage from the production of rice under the conservation reserve program or for 1959 the preservation of his allotment for history purposes, shall be considered to be engaged in the production of rice. Any person who shares in a rice crop by virtue of an assignment of the crop for furnishing equipment, seed, fertilizer, or supplies (other than irrigation water), or as security for cash or credit advanced or for furnishing labor only for a particular phase of production, or any tenant who the county committee finds not to be actively participating in the conduct of the farming operations on a farm to which such tenant has allocated allotment acreage shall not be deemed to be engaged in the production of rice.

(2) "Engaged in the production of rice" means, for 1960 and subsequent crops, actively participating as a producer in the farming operations necessary to produce and harvest a crop of rice on a farm and the sharing in a predetermined and fixed portion of the rice crop, or the proceeds thereof, at the time of harvest by virtue of furnishing as landowner or landlord the land on which the rice is being produced, or by furnishing as tenant or sharecropper the labor, water or equipment necessary to produce and harvest the crop. A producer furnishing land must establish to the satisfaction of the county committee that he will have control of such land throughout the crop year, either through ownership or a valid lease. A producer furnishing labor, water or equipment must establish to the satisfaction of the county committee that he will furnish the labor, water or equipment necessary to produce and harvest an acreage of rice equivalent to not less than the acreage of rice planted on the farm by virtue of his producer allotment contribution to the farm acreage allotment. Furnishing labor, water or equipment for only a phase of production or harvest shall not be considered engaged in the production of the crop. Notwithstanding the above, any producer having control over land that meets the definition of developed rice land, who requests the allocation of his producer allotment to a farm for the purpose of diverting an acreage from the production of rice under the conservation reserve program of the soil bank, shall be considered to be engaged in the production of rice.

Any producer who the county committee finds, after allocation of the producer allotment to the farm, is not participating in the production of a crop of rice, shall not be deemed to be engaged in the production of rice on the farm in accordance with § 730.1021(e).

b. Section 730.1011(i) is amended to read as follows:

(i) "Farm rice history acreage" means:

(1) For 1954 the "rice acreage" on the farm in 1954 as defined in the 1955 farm rice acreage allotment regulations (20 F.R. 385), and any amendment thereto;

(2) For 1955 the "1955 rice acreage" for the farm, as determined under § 730.716 of the 1956 farm rice acreage allotment regulations (21 F.R. 72), and any amendment thereto, excluding the acreage diverted or considered diverted from the production of rice on such farm;

(3) For 1956 the "rice history acreage" determined for the farm under § 730.816(a) or § 730.824(a), as applicable, of the 1957 farm rice acreage allotment regulations (21 F.R. 8423), and any amendment thereto, excluding the acreage determined to have been diverted from the production of rice under such regulations;

(4) For 1957 the "acreage planted or considered planted" to rice, as determined in accordance with § 730.916(b) or § 730.927(b), as applicable, of the 1958 farm rice acreage allotment regulations (22 F.R. 8477), and any amendment thereto;

(5) For 1958 and 1959 the "acreage planted or considered planted" to rice as determined in accordance with § 730.1016(b) or § 730.1027(b) of the regulations in this subpart for establishing rice acreage allotments for 1959 and subsequent crops of rice; and

(6) For 1960 and subsequent years the "acreage planted or considered planted" to rice as determined in accordance with § 730.1016(b) (3) and § 730.1027(b) (3) of this subpart for establishing rice acreage allotments for 1959 and subsequent crops of rice.

c. Section 730.1011 is further amended by adding the following new paragraph:

(o) "Representative of the State committee" means a member of the State committee or any employee of the State committee.

2. Section 730.1014 is amended to read as follows:

§ 730.1014 Supervision, review and approval by State committees.

State committees shall have over-all responsibility for the administration of the regulations herein in their respective States. All producer rice acreage allotments in producer States and all farm rice acreage allotments in farm States shall be reviewed by the State committee or on behalf of the State committee by the State administrative officer, program specialist or farmer fieldman and shall be approved before official allotment notices are mailed. The State committee may revise or require revision of any determination made under the regulations in this sub-

part. Notices of farm rice acreage allotments in producer States may be mailed without the approval by or on behalf of the State committee following the allocation of producer rice allotments to farms unless the State committee determines that such approval of the allotments is necessary to facilitate the effective administration of the program in the State.

§ 730.1016 [Amendment]

3a. Section 730.1016(a) is amended to read as follows:

(a) *Basic factors.* In a producer State, the past production of rice in the State by the producer on farms and the acreage allotments previously established in the State, or administrative area, where applicable, for such producer; abnormal conditions affecting acreage; land, labor, and equipment available for the production of rice; crop-rotation practices; and the soil and other physical factors affecting the production of rice, are the factors for apportioning the State rice acreage allotment, less appropriate reserves, to farms owned or operated by persons who have produced rice in any one of the five calendar years immediately preceding the year for which the allotment is determined. To reflect these factors, the county committee with the approval of the State committee or its representative shall, except for a person or irrigation company furnishing water for a share of the rice crop, establish a base acreage of rice for the current year for each old producer in the county. Prior to establishing such base acreages in the county, the county committee shall determine for each old farm (1) the acreage planted or considered planted to rice on the farm for the year immediately preceding the year for which the allotment is being established and (2) each producer's share of such acreage determined for such farm.

b. Section 730.1016(b) is amended to read as follows:

(b) *Acreage planted or considered planted to rice on any farm in preceding year—(1) 1958 crop year.* The acreage planted or considered planted to rice on any farm for 1958 shall be the farm rice acreage allotment (before reapportionment) established under the 1958 rice acreage allotment regulations (22 F.R. 8477), as amended, for the farm, except as provided for in subdivisions (i) through (vi) of this subparagraph:

(i) If the farm rice acreage allotment (before reapportionment) on any farm was underplanted in any year for the purpose of reducing an amount of rice from a prior crop which was previously stored to postpone or avoid payment of a marketing quota penalty, the acreage planted or considered planted to rice on the farm in such year shall be the rice acreage on the farm and the acreage, if any, diverted from the production of rice through participation in the soil bank program under an acreage reserve agreement or conservation reserve contract.

(ii) The acreage diverted from the production of rice under an acreage reserve agreement on any farm shall be the smallest of the acreage of rice en-

tered on the acreage reserve agreement; the measured acreage reserve; or the farm rice acreage allotment minus the acreage actually planted to rice on the farm.

(iii) The acreage diverted from the production of rice under a conservation reserve contract on any farm shall be the smallest of the acreage placed in the conservation reserve program at the regular rate; the reduction in total soil bank base crops; or the amount by which the farm rice acreage allotment exceeds the sum of the acreage actually planted to rice and the acreage, if any, diverted from the production of rice under the acreage reserve program, except that if the reduction in the total soil bank base crops on the farm exceeds the farm rice acreage allotment, or if the conservation reserve contract is found to be in violation because of failure to reduce the total soil bank base crops on the farm to the extent required, the producer may elect to utilize the conservation reserve acreage credit heretofore determined for the farm for the purpose of removing excess rice from storage.

(iv) If the reduction in total soil bank base crops on the farm exceeds the farm rice acreage allotment, the conservation reserve acreage credit heretofore determined for the farm may be used for removing excess rice from storage to the extent of the amount the reduction in total soil bank crops exceeds the rice acreage allotment.

(v) If the conservation reserve contract is found to be in violation because of failure to reduce the total soil bank base crops on the farm to the extent required, all or any part of the conservation reserve acreage credit heretofore determined for the farm may be used for removing excess rice from storage.

(vi) Notwithstanding any provision of this subparagraph, any acreage that is utilized for the purpose of removing excess rice from storage shall not be considered acreage planted or considered planted to rice, and in no event shall the acreage determined to be planted or considered planted to rice on a farm exceed the farm rice acreage allotment (before reapportionment) determined for such farm.

(2) *1959 crop year.* The acreage planted or considered planted to rice on any farm for 1959 shall be the farm rice acreage allotment (before reapportionment) established under the 1959 rice acreage allotment regulations (23 F.R. 8528), as amended, for the farm, except as provided in subdivisions (i) through (iii) of this subparagraph:

(i) If the farm rice acreage allotment on any farm was underplanted for 1959 for the purpose of reducing an amount of rice from a prior crop which was previously stored to postpone or avoid payment of a marketing quota penalty, the acreage planted or considered planted to rice on the farm for 1959 shall be the sum of the rice acreage on the farm and the acreage, if any, diverted from the production of rice through participation in the soil bank program under a conservation reserve contract.

(ii) The acreage diverted from the production of rice under a conservation

reserve contract if there is only a rice acreage allotment on the farm shall be the acreage placed in the conservation reserve at the regular rate, not to exceed the amount by which the rice acreage allotment (before reapportionment) for the farm exceeds the rice acreage determined for such farm. In the event the farm has two or more commodity allotments and the acreage placed in the conservation reserve at the regular rate is less than the sum of the amounts by which the respective allotments (after release and before reapportionment) exceed the acreage planted to each allotment crop on the farm, the acreage placed in the conservation reserve at the regular rate shall be prorated and credited to each applicable allotment commodity. To prorate this acreage, the sum of the amount by which the respective allotment (after release and before reapportionment) exceeds the acreage actually planted to each allotment crop on the farm shall be obtained. This total shall then be divided into the amount by which each allotment (after release and before reapportionment) exceeds the acreage actually planted to each allotment crop on the farm. The percentage thus obtained for each commodity shall be applied to the acreage on the farm under a conservation reserve contract at the regular rate. The result obtained with respect to rice shall be the acreage considered planted to rice on the farm under a conservation reserve contract.

(iii) Notwithstanding the provisions of this subparagraph any acreage that is utilized for the purpose of removing excess rice from storage shall not be considered planted to rice, and in no event shall the acreage determined to be planted or considered planted to rice on a farm exceed the farm rice acreage allotment (before reapportionment) determined for such farm.

(3) *1960 and subsequent crop years.* (i) The acreage planted or considered planted to rice on any farm for 1960 and any subsequent crop shall be the farm rice acreage allotment (before reapportionment) established under applicable regulations for the farm for such year: *Provided*, That the farm consists of federally owned lands, or that for the current year or either of the two immediately preceding years an acreage equal to 75 percent or more of the farm rice acreage allotment (before reapportionment) for such year was actually planted to rice on the farm or was regarded as planted to rice under an acreage reserve agreement or a conservation reserve contract of the soil bank.

(ii) If the farm does not consist of federally owned land, and for the current year and each of the two immediately preceding years an acreage equal to 75 percent of the farm rice acreage allotment (before reapportionment) for such year was not actually planted to rice or regarded as planted to rice under an acreage reserve agreement or conservation reserve contract, the acreage planted or considered planted to rice on such farm for the current year shall be the sum of the rice acreage and the acreage considered rice acreage as a re-

suit of participating in the conservation reserve program.

(iii) The acreage regarded as planted to rice under a conservation reserve contract if there is only a rice acreage allotment on the farm shall be the acreage placed in the conservation reserve at the regular rate, not to exceed the amount by which the rice acreage allotment (before reapportionment) for the farm exceeds the rice acreage determined for such farm. In the event the farm has two or more commodity allotments and the acreage placed in the conservation reserve at the regular rate is less than the sum of the amount by which the respective allotment (after release and before reapportionment) exceeds the acreage planted to each allotment crop on the farm, the acreage placed in the conservation reserve at the regular rate shall be prorated and credited to each applicable allotment commodity. To prorate this acreage, the sum of the amount by which the respective allotment (after release and before reapportionment) exceeds the acreage planted to each allotment crop on the farm shall be obtained. This total shall then be divided into the amount by which each allotment (after release and before reapportionment) exceeds the acreage planted to each allotment crop on the farm. The percentage thus obtained with respect to rice shall be applied to the acreage on the farm under a conservation reserve contract at the regular rate and the result shall be the acreage considered planted to rice on the farm under a conservation reserve contract.

(iv) When determining whether the 75 percent minimum planting requirement has been reached in 1960 or 1961 and it is necessary to examine data for the 1959 crop year, the acreage considered planted to rice on any farm under a conservation reserve contract for 1959 shall be determined in accordance with the provisions of this subparagraph. If necessary to examine data for the 1958 crop year, the acreage considered planted to rice on any farm under an acreage reserve agreement for 1958 shall be the rice acreage that was placed in the acreage reserve, and in determining the acreage, if any, regarded as planted to rice under a conservation reserve contract, the provisions of this subparagraph shall be applied.

(v) Notwithstanding the provisions of this subparagraph, the acreage determined to be planted or considered planted to rice on any farm shall not exceed the rice acreage allotment (before reapportionment) determined for such farm.

c. Section 730.1016(f) is amended to read as follows:

(f) Notwithstanding the provisions of paragraphs (d) and (e) of this section if the county committee finds that any producer will not be actively engaged in the production of rice in the current year because he does not have readily available the developed rice land or equipment necessary for producing a rice crop, a zero base acreage shall be established for such producer. If the county committee finds that any pro-

ducer whose base acreage was adjusted to zero in the preceding year under this paragraph has developed rice land and equipment necessary for producing a rice crop in the current year, a base acreage for the current year shall be appraised by the county committee. Any base acreage appraised for a producer under this provision shall not exceed his share of the acreage planted or considered planted to rice on farms in the year immediately preceding the year for which a zero base acreage was established by the county committee.

#### § 730.1027 [Amendment]

4a. Section 730.1027(a) is amended to read as follows:

(a) *Basic factors.* In a farm State, the past production of rice on the farms and the acreage allotments previously established for such farms; abnormal conditions affecting acreage; land, labor, and equipment available for the production of rice; crop-rotation practices; and the soil and other physical factors affecting the production of rice are the factors for apportioning the State rice acreage allotment among counties and, less appropriate reserves, to old farms. To reflect these factors, the county committee with the approval of the State committee or its representative shall establish a base acreage of rice for the current year for each old farm in the county. The fact that the production of rice is restricted on government-owned lands on which there are restrictive leases shall not be interpreted to mean that base acreages (and allotments) may be established at a level below those established for similar farms. The allotments resulting from the base acreages so established on such lands shall be frozen. Prior to establishing base acreages in the county the county committee shall determine for each old farm the acreage planted or considered planted to rice on the farm for the year immediately preceding the year for which the allotment is being established.

b. Section 730.1027(b) is amended to read as follows:

(b) *Acreage planted or considered planted to rice on any farm in preceding year—(1) 1958 crop year.* The acreage planted or considered planted to rice on any farm for 1958 shall be the rice acreage allotment (before release and before reapportionment) established under the 1958 rice acreage allotment regulations for the farm, except as provided for in subdivisions (i) through (vi) of this subparagraph:

(i) If the 1958 farm rice acreage allotment on any farm was underplanted for the purpose of reducing an amount of rice from a prior crop which had been stored to postpone or avoid payment of a marketing quota penalty, the acreage planted or considered planted to rice on such farm for 1958 shall be the rice acreage on the farm plus the acreage, if any, released in such year for reapportionment, and any acreage diverted from the production of rice through participation in the soil bank under an acreage reserve agreement or conservation reserve contract.

(ii) The acreage diverted from the production of rice under an acreage reserve agreement on any farm shall be the smallest of the acreage of rice entered on the acreage reserve agreement; the measured acreage reserve; or the farm rice acreage allotment minus the acreage actually planted to rice on the farm.

(iii) The acreage diverted from the production of rice under a conservation reserve contract on any farm shall be the smallest of the acreage placed in the conservation reserve program at the regular rate; the reduction in total soil bank base crops; or the amount by which the farm rice acreage allotment exceeds the sum of the acreage actually planted to rice and the acreage, if any, diverted from the production of rice under the acreage reserve program, except that if the reduction in the total soil bank base crops on the farm exceeds the farm rice acreage allotment, or if the conservation reserve contract is found to be in violation because of failure to reduce the total soil bank base crops on the farm to the extent required, the producer may elect to utilize a part of the conservation reserve acreage credit heretofore determined for the farm for the purpose of removing excess rice from storage.

(iv) If the reduction in total soil bank base crops on the farm exceeds the farm rice acreage allotment, the conservation reserve acreage credit heretofore determined for the farm may be used for removing excess rice from storage to the extent of the amount the reduction in total soil bank base crops exceeds the rice acreage allotment.

(v) If the conservation reserve contract is found to be in violation because of failure to reduce the total soil bank base crops on the farm to the extent required, all or any part of the conservation reserve acreage credit heretofore determined for the farm may be used for removing excess rice from storage.

(vi) Notwithstanding any provision in this subparagraph, any acreage that is utilized for the purpose of removing excess rice from storage shall not be regarded acreage planted or considered planted to rice, and in no event shall the acreage planted or considered planted to rice on a farm exceed the farm rice acreage allotment (before release and before reapportionment) determined for such farm.

(2) *1959 crop year.* The acreage planted or considered planted to rice on any farm for 1959 shall be the farm rice acreage allotment (before release and before reapportionment) established under the 1959 rice acreage allotment regulations (23 F.R. 8528), as amended, for the farm, except as provided for in subdivisions (i) through (iii) of this subparagraph:

(i) If the farm rice acreage allotment (after release and before reapportionment) on any farm was underplanted for 1959 for the purpose of reducing an amount of rice from a prior crop which was previously stored to postpone or avoid payment of a marketing quota penalty, the acreage planted or considered planted to rice on the farm for 1959 shall be the sum of the rice acreage

on the farm, the acreage, if any, diverted from the production of rice through participation in the soil bank program under a conservation reserve contract, and any rice allotment released for reapportionment.

(ii) The acreage diverted from the production of rice under a conservation reserve contract if there is only a rice acreage allotment on the farm shall be the acreage placed in the conservation reserve at the regular rate, not to exceed the amount by which the rice acreage allotment (after release and before reapportionment) for the farm exceeds the rice acreage determined for such farm. In the event the farm has two or more commodity allotments and the acreage placed in the conservation reserve at the regular rate is less than the sum of the amounts by which the respective allotments (after release and before reapportionment) exceed the acreage planted to each allotment crop on the farm, the acreage placed in the conservation reserve at the regular rate shall be prorated and credited to each applicable allotment commodity. To prorate this acreage, the sum of the amount by which the respective allotment (after release and before reapportionment) exceeds the acreage planted to each allotment crop on the farm shall be obtained. This total shall then be divided into the amount by which each allotment (after release and before reapportionment) exceeds the acreage actually planted to each allotment crop on the farm. The percentage thus obtained with respect to rice shall be applied to the acreage on the farm under a conservation reserve contract at the regular rate and the result shall be the acreage considered planted to rice on the farm under a conservation reserve contract.

(iii) Notwithstanding the provisions of this subparagraph, any acreage that is utilized for the purpose of removing excess rice from storage shall not be considered planted to rice, and in no event shall the acreage determined to be planted or considered planted to rice on a farm exceed the farm rice acreage allotment (before release and before reapportionment) determined for such farm.

(3) *1960 and subsequent crop years.*  
(1) The acreage planted or considered planted to rice on any farm for 1960 and any subsequent crop for history purposes shall be the farm rice acreage allotment (before release and before reapportionment) established under applicable regulations for the farm for such year: *Provided*, That the farm consists of federally-owned lands, or that for the current year or either of the two immediately preceding years an acreage equal to 75 percent or more of the farm rice acreage allotment (after release and before reapportionment) for such year was actually planted or was regarded as planted to rice under an acreage reserve agreement or a conservation reserve contract of the soil bank.

(ii) If the farm does not consist of federally-owned land, and for the current year and each of the two immediately preceding years an acreage equal

to 75 percent of the farm rice acreage allotment (after release and before reapportionment) for such year was not actually planted or regarded as planted to rice under an acreage reserve agreement or conservation reserve contract, the acreage planted or considered planted to rice on such farm for the current year shall be the sum of the rice acreage and the acreage considered as rice acreage as a result of participating in the acreage reserve or conservation reserve program and any rice allotment released for reapportionment.

(iii) The acreage regarded as planted to rice under a conservation reserve contract if there is only a rice acreage allotment on the farm shall be the acreage placed in the conservation reserve at the regular rate, not to exceed the amount by which the rice acreage allotment (after release and before reapportionment) for the farm exceeds the rice acreage determined for such farm. In the event the farm has two or more commodity allotments and the acreage placed in the conservation reserve at the regular rate is less than the sum of the amount by which the respective allotment (after release and before reapportionment) exceeds the acreage planted to each allotment crop on the farm, the acreage placed in the conservation reserve at the regular rate shall be prorated and credited to each commodity allotment. To prorate this acreage the sum of the amount by which the respective allotment (after release and before reapportionment) exceeds the acreage planted to each allotment crop on the farm shall be obtained. This total shall then be divided into the amount by which each allotment (after release and before reapportionment) exceeds the acreage planted to each allotment crop on the farm. The percentage thus obtained with respect to rice shall be applied to the acreage on the farm under a conservation reserve contract at the regular rate and the result shall be the acreage considered planted to rice on the farm under a conservation reserve contract.

(iv) When determining whether the 75 percent minimum planting requirement has been reached in 1960 or 1961 and it is necessary to examine data for the 1959 crop year, the acreage considered planted to rice on any farm under a conservation reserve contract for 1959 shall be determined in accordance with the provisions of this subparagraph. If necessary to examine data for the 1958 crop year, the acreage considered planted to rice on any farm under an acreage reserve agreement for 1958 shall be the rice acreage that was placed in the acreage reserve and in determining the acreage, if any, regarded as planted to rice under a conservation reserve contract, the provisions of this subparagraph shall be applied.

(v) Notwithstanding the provisions of this subparagraph, the acreage determined to be planted or considered planted to rice on any farm shall not exceed the rice acreage allotment (before release, and before reapportionment) determined for such farm.

## Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 171, Amdt. 1]

### PART 914 — NAVAL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

#### Limitation of Handling

*Findings.* 1. Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914), regulating the handling of navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges as hereinafter provided will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restrictions on the handling of navel oranges grown in Arizona and designated part of California.

*Order, as amended.* The provisions in paragraph (b) (1) (i) of § 914.471 (Navel Orange Regulation 171, 24 F.R. 9385) are hereby amended to read as follows:

(i) District 1: 800,000 cartons.

## Title 21—FOOD AND DRUGS

### Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

#### SUBCHAPTER B—FOOD AND FOOD PRODUCTS

#### PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

##### Tolerances for Residues of Ethion

A petition was filed with the Food and Drug Administration by Niagara Chemical Division, Food Machinery and Chemical Corporation, Middleport, New York, requesting the establishment of tolerances for residues of ethion (O,O',O'-tetraethyl S,S'-methylene bisphosphorodithioate) in or on certain raw agricultural commodities at 1 part per million. The petitioner later withdrew the request for tolerances on grapes and pears.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which tolerances are being established.

After consideration of the data submitted in the petition and other relevant material which show that the tolerances established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408(d) (2), 68 Stat. 512; 21 U.S.C. 346a(d) (2)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR, 1958 Supp., 120.7 (g)), the regulations for tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR, 1958 Supp., 120.3 (24 F.R. 499, 1982, 2786); Part 120) are amended as indicated below:

##### § 120.3 [Amendment]

1. In § 120.3 *Tolerances for related pesticide chemicals*, paragraph (e) (5) is amended by adding as the sixth item in the list of cholinesterase-inhibiting compounds the name "Ethion".

2. Part 120.173 is amended by adding the following new section:

##### § 120.173 Tolerances for residues of ethion.

A tolerance of 1 part per million is established for residues of ethion (O,O',O'-tetraethyl S,S'-methylene bisphosphorodithioate) in or on each of the following raw agricultural commodities: Beans, melons, onions, strawberries, tomatoes.

Any person who will be adversely affected by the foregoing order may, at any time prior to the thirtieth day from the effective date thereof, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by this order, specify with particularity the provisions of

the order deemed objectionable and reasonable grounds for the objections, and request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

*Effective date.* This order shall be effective upon publication in the FEDERAL REGISTER.

## Title 14—AERONAUTICS AND SPACE

### Chapter II—Civil Aeronautics Board

#### SUBCHAPTER F—POLICY STATEMENTS

[Reg. Policy Statement 10]

#### PART 399—STATEMENTS OF GENERAL POLICY

##### Requests for Authority to Furnish Free or Reduced Rate Foreign Air Transportation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 24th day of November 1959.

Section 403(b) of the Federal Aviation Act provides that no air carrier shall collect compensation for air transportation different from that specified in its currently effective tariffs, except that a carrier may provide free or reduced-rate air transportation to certain specified categories of persons such as employees, their families, etc. In the case of overseas and foreign air transportation, free or reduced-rate transportation may also be accorded to such other persons under such other circumstances as the Board may by regulation prescribe. Part 223 of the Economic Regulations provides that free or reduced-rate transportation for "such other persons" may be provided only upon specific Board authority granted in response to a carrier's application setting forth the authority desired and the reason therefor.

The carrier members of the International Air Transport Association, in recognition of the need for a clear delineation of policy to govern their actions in this matter, have agreed (in IATA Resolution No. 200) that free or reduced-rate transportation by air may be furnished by members to those persons generally described in section 403(b) of the Federal Aviation Act and also for "other persons" including those in the following categories:

(a) Technicians employed by the aircraft or aircraft equipment manufacturer in connection with technical tests of the aircraft or its equipment.

(b) Persons on inaugural flights.

(c) Persons for whom transportation is requested by the government of a country into which the carrier is authorized to operate.

Free or reduced-rate transportation to the persons in these three categories requires specific approval from the Civil Aeronautics Board and it has been the Board's general policy to approve carrier applications for such transportation in these categories. In the case of carrier applications supported by a request of a foreign government (category (c)), most of which are made by foreign rather than U.S. carriers, it has been the general policy of the Board, as a matter of international comity, to approve such applications. However, the Board expects that governments will exercise careful discretion in making requests of carriers to provide free or reduced-rate transportation.

A more difficult problem is presented in the case of requests presented by this government. Although there may be obvious instances where improved international relations would be fostered or worthwhile public interest objectives served by the grant of free or reduced-rate transportation, the Board is charged with the development of an economically sound air transport system in conformity with legislation which, among other things, aims at preventing discrimination in the provision of service to the public. Since free or reduced-rate transportation is discriminatory per se, the Act clearly intends that its use be narrowly and even inflexibly circumscribed, else there will inevitably be an ever-growing number of individuals and groups receiving free or reduced-rate transportation, to the detriment, economically and otherwise, of the air transport system and, therefore, of the public interest. The Board believes, therefore, that unless there are found to exist overriding considerations clearly of paramount national interest, this government should not request air carriers to provide free or reduced-rate transportation, and that the Board should not approve applications therefor except upon representations by the appropriate government agency that such considerations exist.

Since this amendment to Part 399 is a general statement of policy and not a substantive rule, notice and public procedure hereon are not required and the amendment may be made effective immediately.

Accordingly, the Board hereby adopts, effective immediately, a policy statement to constitute § 399.34 of Part 399 of its Regulation Policy Statements, to read as follows:

##### § 399.34 Free or reduced-rate transportation of persons in foreign air transportation by United States flag air carriers.

It is the policy of the Board to grant applications of United States flag air carriers, pursuant to section 403(b) of the Act, for free or reduced-rate air transportation of persons pursuant to requests received from agencies of the United States Government only where such agencies represent to the Board that there exist considerations of paramount national interest which require such transportation and where the Board finds such considerations to exist.

(Sec. 204(a), 72 Stat. 743, 49 U.S.C. 1324; Administrative Procedure Act, sec. 3, 60 Stat. 238, 5 U.S.C. 1002)

By the Civil Aeronautics Board.

MABEL McCART,  
Acting Secretary.

### Chapter III—Federal Aviation Agency

#### SUBCHAPTER C—AIRCRAFT REGULATIONS

[Regulatory Docket No. 187; Amdt. 58]

#### PART 507—AIRWORTHINESS DIRECTIVES

##### Boeing 707 Aircraft

Tests of redesigned foreflaps (P/N 65-9360-3023 and P/N 65-7360-3024) show that sufficient improvement has made in the foreflap design to warrant discontinuance of the daily inspections.

The gap check requirement of AD 59-19-1 (24 F.R. 7366) needs to be accomplished only once. Since this check was required at the next stop at a maintenance base and became effective September 12, 1959, it has served its useful purpose.

Therefore, to relieve the operators from an unnecessary burden, the requirements for gap check and daily inspection of the redesigned foreflaps have been deleted from the following directive which supersedes AD 59-19-1.

For the reasons stated above, the Administrator finds that notice and public procedure hereon are unnecessary and that good cause exists for making this amendment effective upon publication in the FEDERAL REGISTER.

In consideration of the foregoing § 507.10(a) is amended by adding the following new airworthiness directive.

59-25-1 BOEING. Applies to all Model 707 Series aircraft.

Due to recent failures of the wing foreflaps, the following must be accomplished at times indicated:

(a) Conduct daily inspection of the original type outboard foreflap, P/N's 65-7360-3007 and 65-7360-3008, on outboard mainflap as follows:

(1) Conduct detail visual inspection of foreflaps for any evidence of cracking.

(2) By use of borescope, inspect interior web, flanges and cutouts on both the inboard and outboard end ribs for cracks or other damage.

(3) By means of dye-check or equivalent, examine skin areas at ends of reinforcement plate on upper surface.

(b) When the original type outboard foreflap on each outboard mainflap has been replaced with the redesigned type, P/N's 65-7360-3023 and 65-7360-3024, the daily inspection, (a) above, may be discontinued. However, the redesigned foreflap must then be inspected at intervals of 60 hours service time as prescribed in (a) (1) and (a) (2).

(c) Any foreflap showing evidence of cracking or other damage must be replaced or repaired in accordance with FAA approved manufacturer's instructions prior to next flight.

(Boeing Service Bulletins No. 546 dated August 18, 1959, and No. 566 dated August 26, 1959, cover criteria on the same subject.) This supersedes AD 59-19-1.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington D.C., on November 25, 1959.

JAMES T. PYLE,  
Acting Administrator.

[Regulatory Docket No. 188; Amdt. 59]

#### PART 507—AIRWORTHINESS DIRECTIVES

##### Lockheed 188 Aircraft

Service experience has established that certain Aeroproducts propellers installed on Lockheed 188 aircraft are subject to excessive vibration and cracks which render the blades unsafe for further use. It is necessary in the interests of safety to require appropriate inspections and corrective action.

In view of the foregoing, the Administrator found that a situation existed requiring immediate action in the interest of safety, that notice and public procedure thereon were impracticable and contrary to the public interest, and that good cause existed for taking immediate corrective action. Accordingly, an airworthiness directive was adopted on October 22, 1959, and made effective immediately as to all known operators of Lockheed 188 aircraft by individual telegrams dated October 22, 1959. It is hereby published as an amendment to § 507.10(a) (14 CFR Part 507) and shall become effective upon the date of its publication in the FEDERAL REGISTER as to all other persons:

59-23-2 LOCKHEED. Applies to all Aeroproducts A6441FN-606 propellers installed on Lockheed 188 aircraft.

To preclude recurrence of blade crack compliance is required as indicated.

(a) All blades except those installed on aircraft equipped with operating vibration indicators must be checked for track per Aeroproducts Service Information Letter 59-27 dated March 11, 1959, not later than October 28, 1959. Propellers with blades out of track more than one-quarter inch from the other blades in the propeller must be removed from service immediately. This inspection must be repeated at intervals not to exceed 40 flight-hours until blades have been returned to Aeroproducts for inspection, magnafluxing, and shotpeening.

(b) The following must be accomplished on blades currently installed or previously operated on engines 1 or 4 of aircraft not modified per Lockheed Service Bulletin 262:

(1) All blades (except those blades installed on aircraft equipped with operating vibration indicators and those blades that have been overhauled and not subsequently reinstalled on engines 1 or 4 of the aircraft not modified per Service Bulletin 262) must be X-rayed in the blade cuff area in accordance with Aeroproducts Service Bulletin No. 82 dated October 15, 1959, not later than October 28, 1959. This inspection must be repeated at intervals not to exceed 150 flight-hours until blades have been returned to Aeroproducts for inspection, magnafluxing, and shotpeening.

(2) All blades in (b) (1) must be returned to Aeroproducts for visual inspection, internal magnafluxing, and shotpeening of the inside of the thrust member from approx-

imately 15 to 20 inch station not later than January 12, 1960.

(3) All blades excepted under (b) (1) must be returned to Aeroproducts for inspection, magnafluxing, and rework outlined in (b) (2) not later than July 1, 1960.

(c) All other blades irrespective of the engine position on which they were installed or whether the aircraft were modified per Lockheed Service Bulletin 262 must be returned to Aeroproducts for inspection, magnafluxing, and shotpeening by October 1, 1960.

(d) All blades involved in reported propeller roughness regardless of whether vibration indicators are installed must be track checked as indicated in item (a). If propeller blades are found in track, and if through normal troubleshooting correction procedure, roughness cannot be eliminated then the propeller must be X-rayed in the blade cuff area as indicated in (b) (1) or immediately removed from service until cause for roughness has been corrected. This requirement applies until blades have been returned to Aeroproducts for inspection, magnafluxing, and shotpeening.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on November 25, 1959.

JAMES T. PYLE,  
Acting Administrator.

## Title 29—LABOR

### Chapter V—Wage and Hour Division, Department of Labor

#### PART 613—STRAW, HAIR, AND RELATED PRODUCTS INDUSTRY IN PUERTO RICO

##### Wage Order Giving Effect to Recommendations

Pursuant to section 5 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, as amended; 29 U.S.C. 205), the Secretary of Labor by Administrative Order No. 521 (24 F.R. 7736), as amended by Administrative Order No. 526 (24 F.R. 9020), appointed, convened, and gave due notice of the hearing of, and referred to Industry Committee No. 45-C the question of the minimum wage rate or rates to be paid under section 6 of that Act to employees in the straw, hair, and related products industry in Puerto Rico as defined in said Administrative Order, who are engaged in commerce or in the production of goods for commerce.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the committee filed with the Administrator a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1064, as amended; 29 U.S.C. 208), Reorganization Plan No. 6 of 1950 (64 Stat. 1263; 3 CFR, 1950 Supp., p. 165), General Order No. 45-A (15 F.R. 3290) of the Secretary of Labor, the recommendations of the committee are hereby published in this order amending 29 CFR

Part 613, effective December 18, 1959, to read as follows:

- Sec.
- 613.1 Definition.
- 613.2 Wage rates.
- 613.3 Notices.

**AUTHORITY:** §§ 613.1 to 613.3 issued under sec. 8, 52 Stat. 1064, as amended; 29 U.S.C. 208. Interpret or apply Sec. 5, 52 Stat. 1062, as amended; 29 U.S.C. 205; sec. 6, 52 Stat. 1062, as amended; 29 U.S.C. 206.

**§ 613.1 Definition.**

The straw, hair, and related products industry in Puerto Rico, to which this part shall apply is defined as the manufacture of products made wholly or chiefly of straw, raffia, sisal, maguey, palm leaves, rushes, grasses, hair, hair bristles, feathers, and similar materials: *Provided, however,* That the industry shall not cover products or activities included in the artificial flower, decoration, and party favor industry (Part 688 of this chapter), the button, jewelry, and lapidary work industry (Part 616 of this chapter), the children's dress and related products industry (Part 610 of this chapter), the men's and boys' clothing and related products industry (Part 615 of this chapter), the shoe and related products industry (Part 601 of this chapter), or the textile and textile products industry (Part 699 of this chapter).

**§ 613.2 Wage rates.**

(a) Wages at a rate of not less than 70 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the hair piece and doll wig classification of the straw, hair, and related products industry in Puerto Rico, who is engaged in commerce or in the production of goods for commerce, and this classification shall be defined as the manufacture of hair pieces and doll wigs.

(b) Wages at a rate of not less than 48 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the artists' brush and native handicraft products classification of the straw, hair, and related products industry in Puerto Rico, who is engaged in commerce or in the production of goods for commerce, and this classification shall be defined as the manufacture of artists' brushes, hair pencils, and other miscellaneous brushes (excluding house painting brushes, toothbrushes, shaving brushes, and other toilet, clothes, or household brushes); and the manufacture of hand-made or hand-woven products (including, but without limitation, handbags, mats, coasters, lamp and window shades, blinds, fans, and brooms) made wholly or chiefly of materials originating in Puerto Rico, including straw, raffia, maguey, palm leaves, rushes, grasses, hair, hair bristles, feathers, and similar materials.

(c) Wages at a rate of not less than 57 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the hair and bristles processing and other straw, hair, and related products classification of the straw, hair, and related products industry

in Puerto Rico, who is engaged in commerce or in the production of goods for commerce, and this classification shall be defined as the processing of hair and bristles and the manufacture of all products included in the straw, hair, and related products industry, as defined in this order, not included in the hair piece and doll wig classification or the artists' brush and native handicraft products classification.

**§ 613.3 Notices.**

Every employer subject to the provisions of § 613.2 shall post in a conspicuous place in each department of his establishment where employees subject to the provisions of § 613.2 are working such notices of this part as shall be prescribed from time to time by the Administrator of the Wage and Hour Division of the United States Department of Labor, and shall give such other notice as the Administrator may prescribe.

Signed at Washington, D.C., this 25th day of November 1959.

CLARENCE T. LUNDQUIST,  
*Administrator.*

#### PART 590—GENERAL PROVISIONS

##### PART 591—PROCUREMENT BY FORMAL ADVERTISING

##### PART 592—PROCUREMENT BY NEGOTIATION

##### PART 596—CONTRACT CLAUSES

##### PART 600—FEDERAL, STATE, AND LOCAL TAXES

##### PART 601—LABOR

#### PART 605—PROCUREMENT FORMS

##### PART 606—SUPPLEMENTAL PROVISIONS

##### Miscellaneous Amendments

1. Section 590.109 is revised and new §§ 590.109-1, 590.109-2, 590.109-3, 590.109-4, 590.109-50, and 590.109-51, are added, as follows:

**§ 590.109 Deviation from Subchapter A, Chapter I of this title, Department of Defense publications governing procurement and this subchapter.**

**§ 590.109-1 Applicability.**

Actions which constitute deviations from Subchapter A, Chapter I of this title and Department of Defense publications governing procurement as set forth in § 1.109-1 of this title shall also constitute deviations from the provisions of this subchapter.

**§ 590.109-2 Deviations affecting one contract or transaction.**

Deviations from Subchapter A, Chapter I of this title, a Department of De-

fense Directive or this subchapter which affect only one contract or procurement will be made only after prior approval by the Deputy Chief of Staff for Logistics, Headquarters, Department of the Army, Washington 25, D.C.

**§ 590.109-3 Deviations affecting more than one contract or contractor.**

Deviations from Subchapter A, Chapter I of this title, Department of Defense Directives or this subchapter which affect more than one contract or contractor will not be made unless approved in advance by the Deputy Chief of Staff for Logistics, Department of the Army, Washington 25, D.C. Such deviations from Subchapter A, Chapter I of this title or Department of Defense Directives will be authorized only after approval of the Assistant Secretary of Defense (Supply and Logistics).

**§ 590.109-4 Conflict between Government-to-Government agreements and Subchapter A, Chapter I of this title.**

Requests for deviations requiring consideration of the ASPR Committee under the provisions of § 1.109-4 of this title will be forwarded to the Deputy Chief of Staff for Logistics, Headquarters, Department of the Army, Washington 25, D.C., in accordance with the procedures prescribed in § 590.109-50.

**§ 590.109-50 Submission of requests for deviations.**

Requests for authority to deviate from the provisions of Subchapter A, Chapter I of this title, Department of Defense Directives or this subchapter shall be submitted (in quadruplicate) to the Deputy Chief of Staff for Logistics, Department of the Army, Washington 25, D.C., ATTN: Chief, Contracts Branch. Such requests shall be supported by complete statements of the circumstances justifying the need for the deviation, including sufficient background or historical information to support the requested deviations.

**§ 590.109-51 Expiration of deviations.**

Deviations approved under the provisions of §§ 1.109-3 and 1.109-4 of this title and §§ 590.109-3 and 590.109-4 will expire 2 years from the date of approval, unless sooner rescinded, without prejudice to any action taken thereunder. Where a requirement exists to continue in effect a deviation expiring under the provisions of this section, authority to continue use of the deviation may be granted upon submission of a request in accordance with the procedures prescribed in § 590.109-50.

2. Add new § 590.113, revise § 590.150 and revoke §§ 590.150-1 and 590.151, as follows:

**§ 590.113 Code of conduct.**

In the performance of procurement and related functions, protection of the interests of the Government shall be constantly stressed. Any act which may tend to compromise the position of the Department of the Army, an individual member of the Department of the Army, or which will impair the confidence in the integrity of the Department of the

Army in its business relations with industry shall be avoided. The Department of the Army policy governing the conduct and ethics of procurement personnel is set forth in AR 600-10 and AR 600-205 (Administrative regulations of the Department of the Army). Each individual concerned, either directly or indirectly, with any phase of procurement or related activities shall read and initial a copy of AR 600-205, which will be retained in the files of the office to which the individual is assigned, and will be subject to inspection at all times. Each individual shall be furnished a personal copy of AR 600-205. In addition to the foregoing provisions, individuals who are subject to military law shall be cognizant of the provisions of AR 600-10.

**§ 590.150 Administration and interpretation.**

(a) The administration and interpretation of Subchapter A, Chapter I of this title and this subchapter will be the responsibility of the Deputy Chief of Staff for Logistics, Headquarters, Department of the Army (Chief, Contracts Branch).

(b) It will be the responsibility of the heads of procuring activities to insure that instructions issued by their activities in implementation of Subchapter A, Chapter I of this title and this subchapter properly reflect and are consistent with the policies of the Department of Defense and Headquarters, Department of the Army.

**§ 590.150-1 Printed procurement publications. [Revocation]**

**§ 590.151 Administration and interpretation. [Revocation]**

3. Section 590.301 is revised, § 590.302-4 is revoked, § 590.305 is revised, § 590.305-2 is added, and in § 590.306-52, revise subparagraph (c) (5), as follows:

**§ 590.301 Methods of procurement.**

(a) Department of the Army policies with respect to procurement by formal advertising or by negotiation are set forth in §§ 591.102 and 592.101 of this subchapter respectively. In the placement of contracts during a period of national emergency, it is essential that contracts be awarded among as many sources of supply as possible in order to broaden the industrial production base of the procurement program. All procuring activities and agencies will give particular attention to the following factors in effecting procurement:

(1) Placement of contracts with a view to economies in the use of transportation facilities;

(2) Greatest possible integration of current procurement contracts with the industrial mobilization program and the accepted schedules of production;

(3) Utilization of manpower in areas of substantial labor surplus and distressed industries;

(4) Utilization of existing open industrial capacity to the maximum. Expansion of facilities should not be authorized when open capacity can be found. Whenever time permits, and in

order to broaden the production base, additional contractors should be utilized in lieu of multishift or overtime operation;

(5) Equitable distribution of procurement contracts among the maximum number of competent suppliers;

(6) Utilization in negotiation of competition and multiple awards, whenever possible;

(7) Aggressive encouragement or requirement of subcontracting by prime contractors;

(8) Provision of maximum incentive to the producer for the reduction of his costs;

(9) Fullest possible use of small business concerns; and

(10) Reservation of special skills and abilities for the more difficult production tasks.

(b) Procurements effected under the authority of the act of August 28, 1958, authorizing extraordinary contractual action to facilitate the National Defense (72 Stat. 972; 50 U.S.C. 1431-1435), and Executive Order 10789, will be governed by the policies and procedures set forth in Part 17 of this title.

**§ 590.302-4 Firms performing contracts in labor surplus areas. [Revocation]**

**§ 590.305 Specifications, plans, and drawings.**

Every item to be procured, either by formal advertising or by negotiation, shall be described by referencing the applicable specifications, or by including a purchase description when permitted under the provisions of § 1.305-2(b) of this title. Contracting officers shall avoid, to the maximum extent practicable, use of the authority of § 3.210-2 (m) of this title in negotiating procurements. Few circumstances will exist where this authority will be applicable or justified. However, where this authority is used, it shall be fully justified and documented in accordance with § 3.210-3 of this title and § 592.210-3 of this subchapter. Regulations covering the preparation and issuance of specifications are contained in AR 715-50 (Administrative regulations of the Department of the Army).

**§ 590.305-2 Mandatory specifications.**

(a) *Use of Federal and Military Specifications.* Applicable coordinated Federal and Military Specifications and those Interim Federal and Limited Coordination Military Specifications issued by the technical services are mandatory for use by all procuring activities of the Department of the Army.

(b) *Deviations and waivers.* All deviations and waivers to Federal and Military Specifications will be subjected to competent review in accordance with procedures established by the chief of each technical service. These procedures must provide for (1) appropriate review and surveillance to minimize the use of deviations and waivers, and (2) immediate action where necessary to amend or revise specifications in accordance with AR 715-50.

**§ 590.306-52 Transportation considerations in the procurement cycle.**

\* \* \* \* \*

(c) *Evaluation and award phase.* \* \* \*

(5) When comparing the unreserved portion of a procurement and the "set-asides" portion in conjunction with "set-asides" under Defense Manpower Policy No. 4 (Subpart H, Part 1 of this title) or partial Small Business set-asides § 1.706 of this title and § 590.706 of this part), the transportation aspects involved in each portion must be considered to insure correct comparison.

4. Revoke §§ 590.307 and 590.307-1; add new § 590.311; and in § 590.353, revise paragraphs (c) and (e), as follows:

**§ 590.307 Responsible prospective contractor. [Revocation]**

**§ 590.307-1 Preaward survey. [Revocation]**

**§ 590.311 Records of contract actions.**

This section establishes general guidelines which will insure that every preaward transaction file and contract administration file is fully documented to provide a complete history of the contractual actions and the basis for the individual actions taken, and establish a system for the organization of those files which will facilitate locating any particular document with the least practicable delay. The types of documents set forth in this section shall be included in these files to the extent applicable. Where procurements utilize the simplified purchase procedures, compliance with the requirements of this section will be considered to constitute adequate contract file documentation.

(a) *Pre-award file; Section A—Pre-award Section.* (1) Copy of procurement directive.

(2) When procurement is by negotiation appropriate documentation as to necessity for negotiation when over \$2,500.

(3) List of firms solicited, or justification in the event only one firm was solicited.

(xii) Waivers.

(xiii) Any other documents and correspondence not covered by items in this subparagraph which properly belong in this subparagraph.

(2) *Section C—Property Section.* (Separate files sections may be maintained for Government-furnished property and for contract items.)

(i) End item delivery date, i.e., Material Inspection and Receiving Report—or other shipping documents with recap and storage data as appropriate.

(ii) Subsidiary inspection documents such as Lot No. reports, technical data, report of sub-lot inspection, etc.

(iii) Inspection requisitions and correspondence by other districts relating to inspection.

(iv) Other inspection correspondence.

(v) Statement as to quality of contractor's product.

(vi) Bills of lading.

(vii) Report of Survey (incident to shipment) and other instruments affecting relief of responsibility for Government property except "Written Advices", i.e., special reports from the contractor on which the property administrator determines a "Written Advice" is not required or other instances where, under the provisions of item 402, § 30.2 of this title, a contractor is relieved of responsibility for property other than consumption.

(viii) Copy of contracting officer's written determination and findings concerning loss, damage, shortage or destruction of contract items or of Government property used, including excess consumption.

(ix) Disposal data—at contract completion.

(x) Property correspondence in chronological order or sufficiently indexed for ready reference.

(xi) Where the Government maintains the official property control records under the deviation authority contained in item 301 (a) of this title or item 207.1 of § 30.3 of this title, the property file will contain those records set forth

in § 30.2 or § 30.3 of this title necessary for effective property control (§ 602.-1705-1 of this subchapter).

(xii) Contractor's written receipt for Government-furnished property (item 303.1 of § 30.2 of this title).

(xiii) Data, where appropriate, in connection with contractor acquired facilities. (§ 602.1705-1(b) of this subchapter).

(xiv) All other records required to be maintained by § 30.2 or § 30.3 of this title.

(3) *Section D—Fiscal Section.* (i) Invoices and vouchers.

(vii) All termination correspondence.

(viii) Negotiator's report.

(ix) Property disposal.

(x) If termination for default, copy of contracting officer's findings, summary of initial action taken to buy against, and all subsequent actions on appeals taken, if any.

(5) *Section F—Renegotiation Data.*

(i) Efficiency of contractor.

(ii) Reasonableness of costs and profits.

(iii) Capital employed.

(iv) Extent of risk assumed.

(v) Contribution to the National Security.

(vi) Character of business.

(c) *Review of contract files.* The contracting officer is responsible for making a complete review of the contract files prior to retirement or disposal; the purpose of the review shall be to insure that all contractual actions have been completed prior to retirement or disposal of the contract files pursuant applicable paragraphs of AR 345-280 (Administrative regulations of the Department of the Army). In addition, the review shall insure that such file is documented in accordance with this section and AR 345-280.

§ 590.353 Manpower policy in placing procurements.

(c) *Procurement in areas of substantial labor surplus.* To the extent practicable, procurement should be placed in labor market areas having substantial labor surplus (Groups D, E, and F). Subpart H, Part 1 of this title prescribes policies and procedures applicable to procurement in areas of substantial labor surplus.

(e) *Labor market areas.* (1) Classification of labor areas are published by the Department of Labor in a list entitled "Areas of Substantial Labor Surplus" in conjunction with its bimonthly publication "Area Labor Market Trends." Contracting officers are responsible for utilizing these publications. They may be

obtained by application to the Bureau of Employment Security, United States Department of Labor, Washington 25, D.C.

(2) At times it is necessary to determine whether there is an adequate labor supply in market areas in addition to the designated areas. In such cases, contracting officers will insure additional detailed manpower information direct from the United States Department of Labor and the local State Employment Service Office.

5. Section 590.355 is added; in § 590.450, add subparagraph (3) to paragraph (e); § 590.455 is revised; and § 590.456 is revoked, as follows:

§ 590.355 Scheduling of production of newly developed items and production from new producers.

When contracting for the production of newly developed items, or when contracting for production from new untied producers, deliveries will be scheduled so that large quantities will not be produced prior to the completion of essential confirmatory tests. Contracts will specify that the contractor will schedule deliveries under his purchase orders and subcontracts at the minimum feasible rate required to meet the delivery requirements of his prime contract. In order to prevent delays in deliveries, the schedule for the testing of the items and the quantity of items to be tested will be established prior to the placement of the contract.

§ 590.450 Selection and appointment of contracting officer.

\* \* \* \* \*

(e) *Appointment.* \* \* \*

(3) Where a purchasing office does not have a contracting officer of the requisite grade or rank necessary to execute contractual documents involving amounts exceeding \$100,000 such documents should be forwarded to the next higher level of the procurement chain of command for execution by a contracting officer who is qualified and has been designated to execute such documents. The provisions of this section, however, do not prohibit the assignment of administration of such contracts to properly qualified individuals, regardless of their grade or rank.

§ 590.455 Expediting administrative actions.

(a) *Promptness.* The prompt resolution of procurement problems is a necessary and important element in the orderly and efficient accomplishment of the procurement mission. It is essential to resolve at purchasing office level those problems which contracting officers have authority to resolve finally. Promptness in handling such problems has a salutary effect on relations between the Department of the Army and industry, and may prevent undue financial hardship to contractors in many instances.

(b) *Eliminating delays.* In order to eliminate unnecessary delays in resolving problems which arise during the administration of contracts, and to insure that contractors receive payments

to which they are entitled as promptly as possible, procurement and auditing personnel will:

(1) Conduct all investigations, negotiations, voucher auditing and processing, and other procurement and contract administration matters in an expeditious manner;

(2) Exert every effort to resolve as promptly as possible all problems capable of local resolution which arise between procurement personnel and personnel of other agencies within and without the Department of the Army; and

(3) Forward without delay completely documented reports relating to procurement and contract administration problems which cannot be resolved promptly at local level or which for any reason require action by an authority at a higher level.

(c) *Clear directives.* It is the responsibility of heads of procuring activities to issue complete and clear procurement operating instructions to field activities, where necessary to implement Subchapter A, Chapter I of this title and this subchapter, and other pertinent directives, and to insure that those directives are thoroughly understood by operating personnel.

(d) *Sound conclusions.* In accomplishing the actions outlined above, personnel will exercise care to preclude any misunderstanding of the intent of this section. The interest of the Government must be fully protected in all cases, and action personnel must take time necessary to reach sound conclusions. Excessive and unjustifiable delays, however, must be eliminated.

§ 590.456 Expediting administrative actions. [Revocation]

6. Add Subpart I to Part 590, as follows:

#### Subpart I—Responsible Prospective Contractors

§ 590.900 Scope of subpart.

See § 1.900 of this title.

§ 590.901 Applicability.

See § 1.901 of this title.

§ 590.902 General policy.

(a) When a pre-award survey is not made and in the absence of any evidence to the contrary, the contracting officer may determine, on the basis of any other suitable information, that the prospective contractor can conform to the requirements of the standard nondiscrimination clause, as required by § 1.903-1(f) of this title. When a prospective contractor is considered not to be responsible, solely because he appears to be unable to conform to the requirements of the nondiscrimination clause, the facts and circumstances together with the recommendations of the Head of the Procuring Activity will be forwarded through the Office of the Deputy Chief of Staff for Logistics, to the Assistant Secretary of the Army (Logistics) for review and appropriate action.

(b) The problems of security and possible unauthorized release of classified information do not arise under unclas-

sified scientific research contracts. The major consideration regarding the individuals involved should be their scientific integrity and ability. The only consideration relating to the loyalty of individual scientists engaged in work under Government contracts is the principle, that it would appear to be against the national interest to give aid and comfort to a person disloyal to the United States. In conformance with this principle, the following policy has been adopted:

(1) Procuring activities, in considering proposals for contracts in support of unclassified research not involving security considerations, will assure that, in appraising the merit of a proposal submitted by or on behalf of a scientist, his experience, competence, and integrity are always taken carefully into account. Procuring activities will not knowingly award or continue a contract in support of research for a person who:

(i) Is an acknowledged Communist or established as being a Communist by a judicial proceeding, or anyone who advocates change in the United States Government by other than constitutional means or

(ii) Has been convicted of sabotage, espionage, sedition, subversive activity under the Smith Act, or a similar crime involving the Nation's security.

(2) Where procuring activities receive information indicating that a potential or actual researcher may have violated a Federal statute relating to the national security, such information will be forwarded, on a priority basis, to the Deputy Chief of Staff for Logistics, Department of the Army, Washington 25, D.C., Attn: Chief, Contracts Branch.

(c) Where a prospective contractor is determined not to be responsible (regardless of the reason), even though there is evidence to the effect that a future event would make him responsible, an award contingent on such a future event is prohibited.

7. In § 590.1503, revise opening portion of paragraph (a); revise paragraph (j) of § 591.201; in § 591.202-4(a) (1), revise subdivision (vi); add new § 591.451; and revise § 591.452, as follows:

§ 590.1503 DOD Directive 3005.3, 7 December 1954, "Maintenance of the Mobilization Base."

(a) DOD Directive 3005.3 requires that a review be made of proposed procurement of items contained in the Preferential Planning List and that responsibility for such review be maintained at the level of the Procurement Secretaries or their authorized designees. Each head of a technical service is appointed an authorized designee of the Assistant Secretary of the Army (Logistics) for the purpose of reviewing those items on the Preferential Planning List for which his technical service has been assigned procurement responsibility. Heads of technical services may designate senior officers of their headquarters staff responsible for procurement or chiefs of purchasing offices to perform the review required by DOD Directive 3005.3. The authority of the chief of a purchasing office to make the

required review shall be consistent with his authority to approve awards of contracts as prescribed by § 606.204 of this subchapter. The review, in furtherance of the policy quoted in § 509.1501 and to integrate current procurement with military mobilization plans, will take into consideration the following factors:

§ 591.201 Preparation of forms.

(j) *Availability, identification, and review of specifications.* Each invitation for bids list for each item included therein the applicable specifications or description as provided in, § 590.305 of this subchapter. Such reference to specifications shall include the title and symbols, with any revision letters, and dates, including any amendments identified by numbers and dates. Prior to issuance of invitations for bids the proposed specifications shall be reviewed in accordance with procedures prescribed by heads of procuring activities (1) to insure compliance with the provisions of § 1.305 of this title and § 590.305 of this subchapter, and (2) to eliminate subsequent procurement actions which would be prejudicial to the Government and to potential bidders. Such review is intended to eliminate or correct unduly restrictive specifications and to prevent, so far as practicable, the necessity for amendment of invitations after issuance, and the cancellation of invitations after opening, with consequent disclosure of bids where no award is to be made.

§ 591.202-4 Publishing in newspapers.

(a) *Authority.* (1) Authority to approve the publication of paid advertisements in newspapers, magazines, and other periodicals in connection with the dissemination of procurement information (invitations for bids and proposed purchases), recruitment of both military and civilian personnel, and all other forms of advertising authorized by law has been delegated by the Secretary to:

(vi) The Commanding General, U.S. Army Communications Zone, Europe, for the recruiting of indigenous labor at local wage rates.

§ 591.451 Protests.

Protests or objections, raised at any time by any party having a legitimate interest, to actions taken or to be taken by a contracting officer in connection with a particular procurement, shall be processed in accordance with the following instructions:

(a) Where a protest is made prior to making an award, the award shall not be made pending resolution of the protest, except that awards may be made in such cases where the items to be procured are urgently required, delivery will be unduly delayed by failure to make award promptly, or it is otherwise in the best interests of the Government. The contracting officer shall document the contract file in sufficient detail to substantiate the need for an immediate award, and shall advise the protesting party in writing of such decision to proceed.

(b) Every effort shall be made to resolve protests at the lowest possible level. However, if in the opinion of the contracting officer, or higher echelons, it is considered desirable and in the best interests of the Government, the protest shall be submitted to higher authority for resolution.

(c) Where the person making the protest has indicated he intends to carry the protest to a certain higher level of authority, the contracting officer shall submit the protest, through channels, to the indicated level of authority for final resolution.

(d) Where a protest affects another bidder, a contractor, or any other party having a legitimate interest, the contracting officer normally shall give prompt notice of the protest to such parties in order that they may take appropriate action on their own behalf. The extent of the information to be furnished to affected parties will require exercise of judgment on a case by case basis, giving due weight to salient aspects of the particular matter. These aspects may include, but are not necessarily limited to, legal considerations, the interest of the Government, equitable consideration for the interests of affected parties, and mitigation of losses or other injuries to any and all parties concerned. It must be emphasized to the recipients of such a notice of protest that the notice in no way relieves them of any obligations, under a contract or otherwise, but is primarily intended to afford them a fair opportunity to be heard by, and to present evidence for the consideration of, the agency which will render a decision in the case.

(e) Protests submitted for final resolution to levels of authority higher than the Head of a Procuring Activity shall be forwarded to the Deputy Chief of Staff for Logistics, Department of the Army, Attn: Chief, Contracts Branch.

(f) In submitting protests to higher authority, the contracting officer shall forward a completely documented case, including the following:

(1) A signed statement from the person making the protest setting forth the complete facts on which the protest is based together with any additional supporting evidence;

(2) A signed statement, when relevant, from other persons or bidders affected by or involved in the protest, setting forth the complete facts with respect to their position in the matter, together with any additional supporting evidence;

(3) A copy of the bid of the protesting bidder and a copy of the bid of the bidder to whom award has been made or who is being considered for award, if relevant to the protests;

(4) A copy of the invitation for bids including, where practicable, pertinent specifications, if relevant to the protest;

(5) A copy of the abstract of bids;

(6) Any other documents which are relevant to the protest; and

(7) A signed statement from the contracting officer setting forth his findings, actions, and recommendations in the matter, together with any additional information and evidence deemed to be

necessary in determining the validity of the protest.

(g) Protest cases submitted by contracting officers to higher levels of authority for forwarding to the Chief, Contracts Branch, Deputy Chief of Staff for Logistics, Department of the Army, shall contain the recommendations of such intervening levels of authority through which the protest is transmitted.

(h) Protests filed with echelons of a procuring activity other than the contracting officer shall be promptly forwarded to the contracting officer for processing in accordance with this subchapter.

(i) A notice similar to that specified in paragraph (d) of this section shall be furnished the affected party where (1) an inquiry from the Comptroller General indicates a complaint against a specific procurement and implies possible intervention therein by the Comptroller General, or (2) advance information is received that a formal protest has been filed with any level of the chain of command, or with the Comptroller General. Advance information is frequently received by procurement echelons in the form of information copies of formal protest letters addressed to the President, Secretary of Defense, Comptroller General, etc.

#### § 591.452 Requests for decision by the Comptroller General.

Requests for the Comptroller General to issue a decision on procurement matters shall be made only by the Assistant Secretary of the Army (Logistics). Where a decision by the Comptroller General is desired on procurement matters involving mistakes in bids or proposals, protests, rescission or reformation of contracts, remission of liquidated damages or similar legal contract issues, procuring activities will forward a proposed request in accordance with the procedures set forth below.

(a) *Administrative report.* Each request for a Comptroller General decision will be accompanied by an administrative report which shall include a summary of the matter at issue, the position of the contracting officer, and the position and recommendation of the Head of the Procuring Activity. Attached, as a separate part of the report, will be a signed statement of the contracting officer setting forth his findings, actions taken, recommendation, and any additional information or evidence deemed necessary. In addition to the above, the report will include all documents and items of information which are specifically requested by the Comptroller General, required by Subchapter A, Chapter I of this title and this subchapter, and which are deemed pertinent to the issue. The administrative report will be signed by the Head, Deputy Head, Assistant Head or Chief of Staff of the Procuring Activity.

(b) *Submission of requests.*—(1) *Technical services.* In submitting a request for a Comptroller General decision, technical services will prepare a brief proposed letter of transmittal, signature block omitted, which forwards the Administrative Report to the Comptroller

General. The proposed letter with its attached Administrative Report will be forwarded by Summary Sheet through the Deputy Chief of Staff for Logistics, Department of the Army, Attn: Chief, Contracts Branch, to the Assistant Secretary of the Army (Logistics). The Summary Sheet will be coordinated with the Office of The Judge Advocate General in accordance with established procedures.

(2) *Other procuring activities.* Requests for Comptroller General decisions by procuring activities other than technical services and by purchasing offices not under the jurisdiction of a procuring activity will be forwarded, by a covering letter inclosing the Administrative Report, to the Deputy Chief of Staff for Logistics, Department of the Army, Washington 25, D.C., Attn: Chief, Contracts Branch. A proposed letter to the Comptroller General will not be included.

(3) *Property disposal.* When the request for a decision by the Comptroller General relates to property disposal matters, the Administrative Report will be forwarded to The Quartermaster General, Department of the Army, Washington 25, D.C., Attn: Chief, Army Property Disposal Division, for transmittal to the Assistant Secretary of the Army (Logistics).

8. In § 592.101(c), revise subparagraph (4); revise § 592.210-2; add new § 592.210-3; in § 592.213-3(b), revise subparagraph (7); and in § 592.306, revise paragraph (c), as follows:

#### § 592.101 Negotiation as distinguished from formal advertising.

\* \* \* \* \*

##### (c) *Requests for proposals.* \* \* \*

(4) Each written request for proposals should list for each item included therein the applicable specifications for description as provided in § 590.305 of this subchapter. Such reference to specifications will include the title and symbols, with revision letters if any, and dates, including amendments if any, identified by numbers and dates.

#### § 592.210-2 Application.

(a) 10 U.S.C. 2304(a)(10) may be used as an authority for negotiating a contract if the circumstances involved in the particular procurement are similar to those set forth in § 3.210 of this title. Care and sound judgment, however, will be exercised to prevent abuse of this authority.

(b) The signed statement of justification required by § 3.210-3 of this title need not be in the form of a formal determination and findings. A narrative statement signed by the contracting officer will fulfill the requirement. A copy of such statement will be attached to requests for approval of awards, if such approval is required by § 606.204 of this subchapter.

#### § 592.210-3 Limitation.

The authority contained in § 3.210-2 (m) of this title shall not be used in procurements in excess of \$50,000 unless its use is approved in advance by the chief or assistant chief of the purchasing office. Where the contracting officer is

also the chief of the purchasing office, approval for use of this authority shall be secured from the next higher level of the procurement chain of command.

#### § 592.213-3 Limitations.

(b) Requests for approval of standardization of equipment under this authority shall be initiated by the Chief of the Technical Service concerned and shall be submitted to the Advisory Committee on Procurement Without Advertising of Technical Equipment and Components. Such requests shall be submitted in an original and 15 copies, with the original signed by the Chief of the Technical Service or his Deputy, and must include, as a minimum, the following:

(7) Determination embracing the same factors as are set forth in § 3.213-3 of this title.

#### § 592.306 Procedure with respect to determination and findings.

(c) The expiration date of a determination and findings is the end of the fiscal year in which it was signed, unless otherwise specified in the determination and findings, except that where requests for proposal have been issued prior to the end of the fiscal year or the specified expiration date, the determination and findings shall remain in effect until the award of the contract.

9. Add new §§ 596.103-13, 596.150-7, 600.450, and 600.450-1, as follows:

#### § 596.103-13 Renegotiation.

Contracts placed with Canadian Commercial Corporation are exempted from compliance with the requirements of § 7.103-13 of this title.

#### § 596.150-7 Service-type contract; option to renew.

(a) The option to renew clause is authorized for use in negotiated contracts for services, where such services are normally of a continuing nature and are required on an annual basis to meet operational needs of the installation or activity.

(b) *Conditions for use.* (1) Prior to the inclusion of the option to renew clause in a contract, the Contracting Officer shall determine that a definite benefit capable of being evaluated in dollars will accrue to the Government through the use of such clause and that such benefit would be lost without the use of the clause.

(2) Prior to the exercise of the option the following issues must be resolved affirmatively: (i) That funds will be available to continue the work for the new period of time; (ii) that continuation of the contract without competition will be in the best interest of the Government, price and other factors considered; and (iii) that authority exists to negotiate for the extension of the contract work.

(3) In those cases where the option is exercised "subject to the availability of funds" it is the responsibility of the

Contracting Officer to make sure that work is begun only after funds are available for the purpose.

(4) Paragraph (c) of the clause is appropriate for use in cost-type contracts and may be omitted in fixed-price type contracts when the Contracting Officer considers that its use would be inappropriate.

(5) It is the policy of the Department of the Army to limit the option to extend the contract to a period of not more than two years after the first year of contract performance.

#### § 600.450 Maryland sales and use tax.

The Maryland statute exempts sales or uses from the taxes if the purpose of the purchaser or user of tangible personal property is to resell the property, or to use or incorporate it, as a material or part, of other tangible personal property to be produced for sale by manufacturing, assembling, processing, or refining. However, by a 1957 amendment, sales of tangible personal property to be used as facilities, tools, tooling machinery or equipment (including dies, molds, and patterns) are not exempt from the sales tax, nor is the use exempt from the use tax, even though title thereto passes, or is intended to pass, to the Federal Government either before or after such person uses such facilities, tools, machinery or equipment.

(a) Whenever a Department of the Army contract calls for the transfer to the Government in their original form, without use by the contractor, of facilities, tools, tooling machinery or equipment purchased by a contractor, the resale exemption from the sales tax is considered applicable to such purchase.

(b) Whenever tangible personal property is purchased by a contractor for incorporation, as a material or part, in the completed supplies to be furnished to the Government under a Department of the Army contract, the resale exemptions from the sales and use taxes are considered applicable to such purchase and use.

(c) No sales tax or use tax exemption applies to facilities, tools, tooling machinery or equipment used by a contractor in the performance of a Department of the Army contract regardless of when title thereto passes, or is intended to pass, to the Government.

(d) Questions arising out of sales or uses which do not fall within one of the above categories should be referred to the Office of the Judge Advocate General, Department of the Army, Washington 25, D.C., Attn: Procurement Law Division, for advice.

#### § 600.450-1 Procedure to be followed pending disposition of litigation.

(a) Where the total amount of the tax applicable to the contractor is \$1000 or more, the following procedure shall apply:

(1) If the tax is assessed by the Maryland taxing authorities under one of the exempt situations described in § 600.450 (a) or (d), the contractor should pay the tax and apply for a refund within 30 days of the mailing of the notice of the assessment. Refunds, after assessment, must

be applied for within 30 days of assessment or recovery is foreclosed. (Md. Code Ann. 1951, Art. 81, Sec. 347). Where assessment has taken place, the contractor should be instructed to retain counsel for the purpose of making application for refund within the appropriate period.

(2) The contractor should be instructed to pay, at the appropriate time, the tax considered to be due, in order to avoid an assessment by the State. When the tax is paid without assessment, the contractor should be instructed not to apply for a refund except as herein directed. Under Maryland law a claim for refund may be filed at any time within three years of payment of the tax if no assessment has been made (Md. Code Ann. 1951, Art. 81, Sec. 344). To facilitate the filing of claims, contracting agencies should maintain records of the contracts and amounts of taxes involved.

(3) Whenever 30 months have elapsed from the time of initial payment, The Office of the Judge Advocate General, Department of the Army, Washington 25, D.C., Attn: Procurement Law Division, should be notified of the fact and furnished all information necessary to determine whether the tax should be contested. In this connection the provisions of § 600.050 will be strictly followed.

(4) If any substantial payment of tax was made more than 35 months previous to date of this publication, the contractor is authorized to retain counsel and to file application for refund directly. The Office of the Judge Advocate General, Department of the Army, Washington 25, D.C., Attn: Procurement Law Division should be notified promptly of such action. Every claim for refund should be made in accordance with the provisions of Md. Code Ann. 1951, Art. 81, Sec. 344, and should state as grounds: (i) That the sales to the taxpayer were not retail sales within the meaning of Md. Code Ann. 1951, Art. 81, Sec. 320(f) and were not subject to the tax imposed by Sec. 321 of that Article; (ii) that the property bought by the taxpayer was not used, stored, or consumed by the taxpayer in Maryland within the meaning of Md. Code Ann. 1951, Art. 81, Secs. 368 and 369, and that the taxpayer was not subject to the tax imposed by Sec. 369; and (iii) any additional grounds which counsel for the taxpayer deems applicable.

(b) Contracting officers shall insure that contractors who are subject to the Maryland sales and use taxes are advised of the provisions of this section.

10. Sections 600.451, 600.451-1, 600.452, 600.452-1, 601.850, and 605.401-50 are revoked; as follows:

§ 600.451 Connecticut sales and use tax. [Revocation]

§ 600.451-1 Procedure to be followed during litigation. [Revocation]

§ 600.452 Maryland sales and use tax. [Revocation]

§ 600.452-1 Procedure to be followed pending disposition of litigation. [Revocation]

§ 601.850 Contact with President's Committee. [Revocation]

**§ 605.401-50 Engineer construction contract forms. [Revocation]**

11. Add new §§ 605.505 and 605.505-50; revise paragraph (b) in § 605.550; in § 606.204-1(b), revise subparagraph (1); and revise § 606.204-15, as follows:

**§ 605.505 Novation agreements.**

**§ 605.505-50 Procedure.**

When, in accordance with § 16.505 of this title, it is either consistent with the Government's interest to recognize a successor in interest to the contractor, or appropriate to recognize a change in the name of a contractor, with respect to contracts being administered by the contracting officers of the Department of the Army, the procedure set forth below shall be followed.

(a) If all the contracts involved are solely under one procuring activity, the Head of the Procuring Activity or his duly authorized representative, is authorized to execute a novation or change of name agreement, as appropriate, on behalf of the Department of the Army. When it is requested that the Department of the Army recognize a successor in interest to the contractor, the Head of the Procuring Activity shall, as soon as practicable, notify the Chief, Contracts Branch, Office of the Deputy Chief of Staff for Logistics, Headquarters, Department of the Army, that a novation agreement is in process. If it appears that there are mutual problems with either or both of the other military departments in connection with such novation agreement, this fact and all necessary details will be included in the above-mentioned notice. The Chief, Contracts Branch, Office of the Deputy Chief of Staff for Logistics, will consult with the other Military Departments concerned and advise the Head of the Procuring Activity of his future course of action.

(b) If the contracts involved are under more than one procuring activity, the novation or change of name agreement, as appropriate, will be executed by the Chief, Contracts Branch, Office of the Deputy Chief of Staff for Logistics, Headquarters, Department of the Army, on behalf of the Department of the Army. In such cases, procuring activities concerned will notify contractors to prepare the agreement and forward four executed copies, together with one copy of each of the documents required by § 16.505-2(c) or § 16.505-3(b) of this title, whichever is appropriate, to the Deputy Chief of Staff for Logistics, Department of the Army, Washington 25, D.C., Attn: Chief, Contracts Branch.

(c) Contractors should be instructed to follow the forms in § 16.505 of this title as closely as possible and to fill in the blank spaces provided therein as follows:

(1) In the space provided for dating the agreement, enter the date upon which the transfer of assets or the change of name, whichever is applicable, became effective pursuant to the applicable state law.

(2) Insert the word "Army" after the words "Department of the" wherever they appear.

(d) After the execution of a novation or change of name agreement, copies of the agreement shall be distributed as a modification to each contract involved, as prescribed in § 606.206 of this subchapter.

**§ 605.550 Lease Agreement—Government-Owned Personal Property.**

(b) Authority is granted in effecting procurement outside the United States, its Territories, and possessions, to deviate from the form to the extent indicated: Paragraph 17—Disputes—on page 3 of

the form: Substitute "Disputes" clause prescribed in § 596.103-12(c) of this subchapter.

**§ 606.204-1 Personal or professional services.**

(b) *Employment of experts or consultants by appointment.* Pursuant to the statutory authorities set forth in paragraph (a)(1) of this section, the Secretary of the Army has authorized the Director of Civilian Personnel, Department of the Army, to obtain the services of experts and consultants by appointment. The procedures for making such appointments are set forth in Department of the Army Civilian Personnel Regulations. The services of experts and consultants will be procured by appointment, rather than by formal contract, except in the following instances:

(1) Where the services are included in the categories set forth in paragraph (a)(3)(i) through (iv) of this section.

**§ 606.204-15 Contract review.**

At least one competent person, whether or not presently assigned to such office, shall be assigned the duty of reviewing in an advisory capacity all contracts, except purchases of \$2,500 or less using small purchase procedures. This review shall be conducted prior to award of a contract by the contracting officer or prior to contract approval by commanders or chiefs of field purchasing offices, when such approval is required.

**PROPOSED RULE MAKING**

**DEPARTMENT OF THE INTERIOR**

Bureau of Land Management

[ 43 CFR Part 161 ]

**FEDERAL RANGE CODE FOR GRAZING DISTRICTS**

**Notice of Proposed Rule Making**

*Basis and purpose.* Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by the act of June 28, 1934 (48 Stat. 1269, 43 U.S.C. 315, 315a-315r) as amended and supplemented, it is proposed to amend and revise the regulations issued under the said act as set forth below. The main purposes of these proposed changes are to standardize the meaning and use of the term "adjudication of grazing privileges", and to provide a gradual reduction for hardship cases where grazing privilege reductions are

required to reach the grazing capacity of the Federal range.

Interested persons may submit in triplicate written comments, suggestions, or objections with respect to the proposed regulations to the Bureau of Land Management, Washington 25, D.C., within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

ROGER ERNST,  
Assistant Secretary of the Interior.

NOVEMBER 24, 1959.

1. Paragraph (r) of § 161.2 is added as follows:

**§ 161.2 Definitions.**

(r) "Adjudication of grazing privileges" is the determination of the qualifications for grazing privileges of the base properties, land or water, offered in support of applications for grazing licenses or permits in a range

unit or area, and the subsequent equitable apportionment among the applicants of the forage production within the proper grazing season and capacity of the particular unit or area of Federal range, and acceptance by the applicants of the grazing privileges based upon the apportionment or its substantiation in a decision by an examiner, the Director or the Secretary upon appeal. (Applicable provisions are §§ 161.1 to 161.5 inclusive, 161.6 (a) and (b), 161.6(e) (1) to (4) inclusive, 161.6 (f) and (g), 161.9, and 161.10.)

**§ 161.6 [Amendment]**

2. Section 161.6 is amended as follows: a. Paragraph (e) is amended as follows:

(e) *Terms and conditions.* \* \* \*

(3) No license or permit will confer grazing privileges in excess of the grazing capacity of the Federal range to be used, as determined by the district man-

ager, except as may be allowed under paragraph (f) (3) of this section.

b. In paragraph (f), subparagraph (1) (ii) is amended and new subparagraphs (3) and (4) are added as follows:

(f) *Reduction.* (1) \* \* \*

(ii) Regular licenses or permits to the extent, if any, to which they are in excess of the base property qualifications or have been otherwise improperly issued.

(3) When the district manager, after referral to the advisory board, determines that the imposition of the full amount of certain reductions in grazing privileges from current licensed or permitted use necessary to reach the grazing capacity of a range area would impose a serious hardship on the range users, he may schedule such reductions over a period of not longer than three years depending upon the circumstances of the case. Such reduction schedules will be established in compliance with the minimum requirements of the following guides:

(i) Minimum reduction determinations made under subdivisions (ii), (iii), and (iv) of this subparagraph for the first or second year of any reduction schedule will be adjusted when necessary to preclude carrying over a proportionate

reduction of less than 5 percent to a subsequent year. Such minor portions will be added to the determined reductions for the first or second year whichever is appropriate.

(ii) For total reductions of 35 percent and over, at least one-third will be applied the first year. A similar minimum portion will be applied the second year if that amount or more still remains to be made, otherwise the remaining portion of 5 percent or over will be applied. In the third year, any outstanding balance of 5 percent or over will be imposed.

(iii) For total reductions of 25 percent and up to but not including 35 percent, at least 10 percent will be applied the first year. A similar minimum portion will be applied the second year if that amount or more still remains to be made, otherwise the remaining portion of 5 percent or over will be applied. In the third year, any outstanding balance of 5 percent or over will be imposed.

(iv) For total reductions of 15 percent and up to but not including 25 percent, at least 10 percent will be applied the first year. The remaining portion of 5 percent or over will be applied the second year.

(v) All reductions of less than 15 percent will be imposed the first year.

(4) The district manager will notify each affected licensee or permittee by certified mail of his decision to make a reduction in grazing privileges to reach the grazing capacity of any Federal range area and of the manner in which the reduction is to be made. The district manager's decision notice will allow 30 days from receipt thereof in which to file any desired appeal in accordance with § 161.10 of this part. If no appeal is filed within the 30-day period, the reduction will be made in accordance with the district manager's decision, and no further appeal will be allowed even though the reduction may be scheduled under subparagraph (3) of this paragraph to cover a period of time up to three years. If any timely appeal is filed after receipt of the district manager's decision notice, the reduction for the entire Federal range area under consideration will be deferred pending the completion of the appeal and hearing procedure. Any reduction provided by the ultimate decision will be applied to its full extent immediately after the effective date of that decision. In the event that the orderly administration of the range or other public interest so requires, any decision may be placed in full force and effect in accordance with the provisions of § 161.10(i) (2).

### COLORADO INTERSTATE GAS CO.

#### Notice of Application and Date of Hearing

NOVEMBER 24, 1959.

Take notice that on October 19, 1959, Colorado Interstate Gas Company (Applicant) filed in Docket No. G-19811 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of field facilities, including metering and compression facilities, to enable Applicant to take into its certificated main pipeline system natural gas which it will purchase during the calendar year 1960 from producers in the general area of its existing transmission system, all as

more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the total cost of all facilities proposed under this application will not exceed \$1,000,000, with the total cost of any single installation limited to \$200,000.

The purpose of this "budget-type" application is to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting to its pipeline system new supplies of natural gas in various producing areas generally coextensive with its system.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority conferred in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 29, 1959, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 18, 1959. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-16576]

### DIFFERENTIAL CORP. ET AL.

#### Notice of Application and Date of Hearing

NOVEMBER 23, 1959.

Take notice that Differential Corporation (Applicant), an Ohio corporation with a principal place of business in Houston, Texas, filed an application on October 13, 1958, in Docket No. G-16576, requesting authorization to continue a sale of natural gas to Tennessee Gas Transmission Company (Tennessee), previously made by The Federal Royalty Company (Federal), Operator, et al.,<sup>1</sup>

<sup>1</sup>"Et al." party was Columbia Drilling Company (Columbia), which party's working interest is also covered by Differential's certificate application.

from certain acreage in the Prasifka Field, Wharton County, Texas, pursuant to a 20-year basic gas sales contract dated December 28, 1954, as amended, between Federal and Columbia, sellers, and Tennessee, buyer, all as more fully described in the application on file with the Commission and open to public inspection.

Applicant states that by instrument of assignment dated July 1, 1957, Federal conveyed to Differential its working interest in the subject acreage. Subsequently, Differential ratified the aforesaid gas sales contract dated December 28, 1954, by instrument dated July 1, 1957, which instrument was also executed by Columbia and Tennessee. Federal was authorized in Docket No. G-8385 to render the service proposed herein to be continued by Differential.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority conferred in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 16, 1959, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 15, 1959. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket Nos. G-19178, G-19211]

### INDIANA UTILITIES CORP. AND LOUISVILLE GAS AND ELECTRIC CO.

#### Notice of Applications and Date of Hearing

NOVEMBER 25, 1959.

Take notice that on August 10, 1959, as supplemented on September 3, and October 12, 1959, Indiana Utilities Corporation (Indiana Utilities) filed in Docket No. G-19178 an application, pursuant to

section 7(c) of the Natural Gas Act, for a certificate of public convenience and necessity authorizing the acquisition and operation of certain natural gas facilities proposed to be purchased from Louisville Gas and Electric Company (Louisville Gas), and, pursuant to section 7(a) of said Act, for an order of the Commission directing Texas Gas Transmission Corporation (Texas Gas) to establish physical connection of its transmission system with the facilities which Indiana Utilities proposes to acquire from Louisville Gas, and to sell and deliver natural gas to Indiana Utilities, on a firm basis, for distribution in the communities of Corydon and Laconia and to the Town of Middletown for resale therein, all in Harrison County, Indiana.

On August 13, 1959, as supplemented on September 30, 1959, Louisville Gas filed in Docket No. G-19211 a companion application, pursuant to section 7(b) of the Act, for permission and approval to abandon by sale to Indiana Utilities, under an agreement dated April 7, 1959, 4.39 miles of 8-inch and 4-inch transmission lateral pipeline, and appurtenances, extending from a point on Texas Gas' transmission system in Kentucky westerly to the point of connection with Louisville Gas' facilities on the Kentucky-Indiana state boundary, and, further, to abandon service to Indiana Utilities now being rendered through these facilities.

The aforesaid applications and supplements are on file with the Commission and open to public inspection.

The facilities which Indiana Utilities seeks authority to acquire in Docket No. G-19178 are those which Louisville Gas seeks permission to abandon in Docket No. G-19211. The purchase price of the facilities to be transferred is \$37,500, which is their depreciated original cost.

Indiana Utilities' estimated requirements for the service which it asks authority to take over from Louisville Gas are as follows:

	Mcf at 15.025 psia	
	Peak day	Annual
1957-60	1,550	228,378
1959-61	1,590	215,000
1961-62	1,600	210,000

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 29, 1959, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such applications: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's

rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 18, 1959. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

### JUDARTH CORP.

#### Notice of Application and Date of Hearing

NOVEMBER 24, 1959.

Take notice that Judarth Corp. (Applicant), a New York corporation with a principal place of business in Corpus Christi, Texas, filed an application in Docket No. G-15165 on May 27, 1958, pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the continuation of the sale of natural gas previously made by Tex-Penn Oil & Gas Corp. (Tex-Penn) Operator, et al.<sup>1</sup> of natural gas to The Nueces Company (Nueces), which company will resell subject gas to Tennessee Gas Transmission Company (Tennessee), from the W. W. Walton Lease located in the Agua Dulce Field, Nueces County, Texas, under a gas sales contract dated January 29, 1957, between Tex-Penn and Moody-Texas, sellers, and Nueces, buyer, all as more fully described in the application on file with the Commission and open to public inspection.

Applicant states that by instrument of assignment dated December 1, 1957, Moody-Texas conveyed to Tex-Penn (Operator and owner of a 51 percent working interest in the Walton Lease) its 49 percent working interest in aforesaid lease, and that subsequently, by instrument of assignment dated December 1, 1957, Tex-Penn conveyed to Judarth the total working interest in the Walton Lease, among other leases. Tex-Penn was authorized in Docket No. G-11976 to render the service now proposed to be continued by Judarth.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and pro-

<sup>1</sup> "Et al." party was Moody-Texas Oil Corporation (Moody-Texas).

cedure, a hearing will be held on December 17, 1959, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application as amended: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 15, 1959. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-19592]

### MANUFACTURERS LIGHT AND HEAT CO.

#### Notice of Application and Date of Hearing

NOVEMBER 24, 1959.

Take notice that The Manufacturers Light and Heat Company (Applicant), a Pennsylvania corporation with a principal office in Pittsburgh, Pennsylvania, filed an application on October 1, 1959, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing it to (1) construct and operate 2.6 miles of 12-inch, 0.7 mile of 10-inch and 0.2 mile of 6-inch pipelines in the City of Wellsville and Yellow Creek Township, Columbiana County, Ohio, and (2) to abandon 4.08 miles of 8-inch, 0.48 mile of 10-inch and 0.48 mile of 6-inch pipeline in the City of Wellsville and Yellow Creek Township, Columbiana County, Ohio, and in Saline Township, Jefferson County, Ohio, constituting sections of Applicant's Line Number 5, all as more fully described in the application on file with the Commission, and open to public inspection.

Applicant states that because of the contemplated construction of the New Cumberland Dam on the Ohio River by the U.S. Army Corps of Engineers, a few miles downstream from Wellsville, Ohio, approximately 13,000 feet of its transmission Line No. 5 along the river bank will become submerged under water. The sections of Line Number 5 to be affected by the dam extend northward about 5 miles from the dam site near Stratton, Ohio, to a point north of Wellsville. The length of pipe to be abandoned, including the inundated sections, totals 5.04 miles.

Applicant further states that after consideration of the whole problem, which includes not only the inundation but also the need for higher pressures for certain industrial customers in the area and the need to avoid congested areas of the city, it decided not to relocate portions of Line Number 5, but to abandon the affected portions in place and to build the proposed new line on the outskirts of the city. This will permit the area to be served entirely from existing lines north of Wellsville and also resolve the pressure and congestion problems.

The estimated peak day and annual requirements of The Ohio Valley Gas Company for distribution in the City of Wellsville, Ohio, and Yellow Creek Township, Columbiana County, Ohio, are given in the following table:

	Peak day (Mcf) <sup>1</sup>	Annual (Mcf) <sup>1</sup>
1959.....	4,800	831,549
1963.....	6,019	1,227,329
1961.....	6,124	1,246,079
1962.....	6,175	1,253,557

<sup>1</sup> Actual 1958-59 peak day and 1958 annual requirements.

Applicant states the proposed new facilities will enable it to meet these requirements.

Applicant estimates the total cost of the proposed new facilities to be \$213,000 of which the U.S. Government has agreed to pay \$22,800, making the net estimated cost of the proposed facilities \$190,200; and that the facilities to be retired will be abandoned in place because their salvage would be uneconomical. Cost of retiring is given to be \$500 and credit to fixed capital is estimated at \$58,483.

Applicant proposes to finance the project, together with its other 1959 construction, by the issuance and sale of stocks and debentures to its parent company, The Columbia Gas System.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations, and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 17, 1959, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., respecting the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure

(18 CFR 1.8 or 1.10) on or before December 14, 1959. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-19668]

**MANUFACTURERS LIGHT AND HEAT CO.**

**Notice of Application and Date of Hearing**

NOVEMBER 24, 1959.

Take notice that on October 6, 1959, The Manufacturers Light and Heat Company (Applicant) filed in Docket No. G-19668 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon the sale of up to 15,300 Mcf of natural gas per day (at 14.73 psia) to The Ohio Fuel Gas Company (Ohio Fuel), which gas is presently transported from the southwest by Tennessee Gas Transmission Company (Tennessee) and delivered to Ohio Fuel at Cambridge, Guernsey County, Ohio, for Applicant's account, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The subject 15,300 Mcf of natural gas per day is part of a larger volume which Applicant purchases from Champlin Oil and Refining Company (formerly the Chicago Corporation) and which Tennessee transports for Applicant's account. By order issued June 7, 1954 in the Consolidated proceedings, Docket Nos. G-2290 and G-2304, Tennessee was authorized to deliver 15,300 Mcf to Ohio Fuel for Applicant's account and Applicant was authorized to sell such volume to Ohio Fuel.

Applicant seeks to abandon this sale to Ohio Fuel in order to make the 15,300 Mcf per day available to its own system in western Pennsylvania to meet its estimated 1959-1960 winter requirements.

Ohio Fuel will receive an equivalent volume of 15,300 Mcf per day by direct purchase from Tennessee at the existing Guernsey County delivery point under authorization issued to Tennessee on January 28, 1959 in Docket No. G-11107, which authorization contemplated this substitution of Tennessee for Applicant as the source of Ohio Fuel's 15,300 Mcf supply.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Decem-

ber 29, 1959, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 18, 1959. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-19962]

**MANUFACTURERS LIGHT AND HEAT CO.**

**Notice of Application and Date of Hearing**

NOVEMBER 25, 1959.

Take notice that The Manufacturers Light and Heat Company (Applicant), a Pennsylvania corporation with a principal office in Pittsburgh, Pennsylvania, filed an application in Docket No. G-19962, on October 22, 1959, pursuant to section 7 of the Natural Gas Act for authorization to construct and operate 20 feet of 2-inch service line and regulating and measuring station on its 12-inch interstate transmission Line No. 7337 in Carroll Township, Washington County, Pennsylvania, about ¾ of a mile northwest of the Town of Donora, all as more fully described in the application on file with the Commission and open to public inspection.

Applicant states the proposed facilities will serve natural gas on an interruptible basis to an existing plant of Burrell Construction and Supply Company, adjacent to Applicant's existing pipeline, which operates a rotary drying kiln in the manufacture of asphalt slag and presently uses oil.

The annual and maximum daily requirements of this industrial customer are estimated respectively at 20,270 Mcf and 200 Mcf @ 14.73 psia. Applicant expects this load to be seasonal with the maximum daily deliveries in summer months, and maintains that on plus 11° F days in the 1959-60 winter, the proposed maximum daily delivery can be met without curtailing the requirements of its other customers in the Donora area.

Total cost of the proposed facilities is estimated at \$7,600, which Applicant proposes to finance from funds on hand.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 14, 1960 at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 4, 1960. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

#### UNITED GAS PIPE LINE CO.

#### Notice of Application and Date of Hearing

NOVEMBER 24, 1959.

Take notice that United Gas-Pipe Line Company (Applicant) filed a budget type application on August 24, 1959, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of unspecified natural gas facilities to enable it to make new direct industrial sales of natural gas from its main pipeline system from time to time during the current year 1960, as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open to public inspection.

Applicant states that the facilities to be built for such sales as are entered into, would have a total cost not to exceed \$750,000, and the total cost of any single connection would be limited to a maximum of \$200,000. The facilities would consist of taps, meters and short branch lines and would not increase the main line delivery capacity of Applicant's system.

Applicant states that none of the facilities for which it seeks authorization will be used to deliver gas to any electric power company for use as boiler fuel in the generation of electricity, and that the total annual deliveries to direct in-

dustrial customers to be attached by such facilities is not to exceed 10,000,000 Mcf.

Applicant will finance the proposed facilities out of current working funds.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 5, 1960, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 23, 1959. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

<sup>2</sup> The stated effective dates are those requested by Respondents, or the first day after the expiration of statutory notice, whichever is later.

<sup>3</sup> Pressure base is 14.65 psia.

<sup>4</sup> Pressure base is 15.025 psia.

<sup>5</sup> Supersedes Gas Gathering Corporation's FPC Gas Rate Schedule No. 1.

<sup>6</sup> Letters amending price between Gas Gathering Corporation and:

<sup>7</sup> Humble Oil & Refining Company under contract dated 11-1-59;

<sup>8</sup> R. R. Frankel under contract dated 9-30-54;

<sup>9</sup> Shell Oil Company under contract dated 9-1-54; and

<sup>10</sup> Texaco Inc. under contract dated 10-22-54.

In support of their redetermined increased-rate proposals, Nemours Corporation (Operator), et al. (Nemours), Alton Coats, et al. (Coats), and Renappi Corporation (Renappi), for itself and as (Operator), et al., submitted price-redetermination letters providing for the subject increased rates from Tennessee Gas Transmission Company. Nemours and Renappi state that the redetermination clause was an important consideration to the seller for entering into a long-term contract; that the proposed rates are below the prices under contracts currently being negotiated in the same area; and that the costs of maintaining existing service and of searching for new reserves have increased greatly. Coats cites the contract provisions and states that he would not have entered into a long-term contract without the price provisions contained therein.

New Era Royalties proposes a redetermined-rate increase, for jurisdictional sales of natural gas to Colorado Interstate Gas Company, provided for by a supplemental agreement dated August 31, 1959, and agreed upon pursuant to the price redetermination clause of the basic contract dated April 18, 1955.

H. J. Porter, in support of his redetermined increased rate proposal, submits a price redetermination letter dated April 16, 1959 and states that the increase is necessary to prevent price discrimination; that the contract was negotiated at arm's-length; that, since the date of the initial contract, the costs of producing gas have increased; and that the proposed increased rate is less than the prices for similar gas in the same area.

In support of its renegotiated increased rate, Shell Oil Company submits, as part of the rate change, a supplemental agreement dated October 1, 1959 containing provisions for periodic rate

increases while deleting the favored-nation provisions of the original contract. In addition, Shell states that the proposed increased rate is less than the prices certificated by the Commission Opinions Nos. 315, 321 and 327 for interstate sales of gas in the same area, and that Shell gave up the favored-nation clause, which afforded protection against inflation and the increased valuation of gas under the long term of the contract.

In support of its favored-nation increased rate proposal, Gas Gathering Corporation states that Transcontinental Gas Pipe Line Corporation is obligated to pay the increased rate under the favored-nation clause of the superseded contract dated October 1, 1954.

The increased rates and charges so proposed have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the several proposed changes and that the above-designated supplements and Gas Gathering Corporation's FPC Gas Rate Schedule No. 2 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the Regulations under the Natural Gas Act (18 CFR Ch. I), public hearings shall be held upon dates to be fixed by notices from the Secretary concerning the lawfulness of the several proposed increased rates and charges contained in the above-designated supplements.

(B) Pending hearing and decision thereon, each of the aforementioned supplements and Gas Gathering Corporation's FPC Gas Rate Schedule No. 2 are suspended and the use thereof deferred until the date specified in the above-designated "Rate Suspended Until" column and thereafter until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until these proceedings, have been disposed of or until the related period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37(f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37(f)).

By the Commission.

J. K. WRIGHT, JR., ET AL.

**Order for Hearings and Suspending Proposed Changes in Rates<sup>1</sup>**

NOVEMBER 20, 1959.

In the matters of J. K. Wright, Jr., Docket No. G-20183; Durbin Bond, Docket No. G-20184; The Ohio Oil Company (Operator), et al., Docket No.

<sup>1</sup> This order does not provide for the consolidation for hearing or disposition of the several matters covered herein, nor should it be so construed.

<sup>1</sup> The states effective dates are those requested by Respondents, or the first day after the expiration of statutory notice, whichever is later.

<sup>2</sup> The presently effective rate is subject to refund in Docket No. G-3510.

<sup>3</sup> The presently effective rate is subject to refund in Docket No. G-18772.

In support of their redetermined increased-rate proposals, Respondents submitted copies of United Gas Pipe Line Company's price redetermination letters and, in addition thereto, make the following statements:

The Ohio Oil Company (Operator), et al., states that the increased price is a part of the initial consideration to it for contracting the large volume of gas involved, that the price is no higher than other prices in the general area and that the price is just and reasonable.

Texaco Inc. states that the increased price is in accordance with provisions of a contract which resulted from bona fide arm's-length bargaining and such pricing provisions were designated to partially compensate seller for increasing costs of development, operation and maintenance. Further, Texaco Inc. states that the increased price is just and reasonable and is needed to encourage further exploration and development.

Sunray Mid-Continent Oil Company states that its contract was negotiated at arm's-length, that the increased price is just and reasonable and in line with other prices in the area and that denial thereof would be unjust and discriminatory.

Continental Oil Company cites the contract provisions and the price redetermination letter.

Gulf Oil Corporation, for itself and as (Operator), et al., states that its contracts were negotiated at arm's-length and refers to cost of service data submitted in evidence in the consoli-

dated proceedings in Docket No. G-9520, et al.

The remaining Respondents stated generally that the contracts were negotiated at arm's-length, that the adjusted price does not exceed the value of gas in the area and that such price is necessary to encourage exploration.

The increased rates and charges so proposed have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the several proposed changes and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure and the regulations under the Natural Gas Act (18 CFR Ch. I), public hearings be held upon dates to be fixed by notices from the Secretary concerning the lawfulness of the several proposed increased rates and charges contained in the above-designated supplements.

(B) Pending hearing and decision thereon, each of the aforementioned supplements is suspended and the use thereof deferred until the date specified in the above-designated "Rate Sus-

pending Until" column and thereafter until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until these proceedings have been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37(f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37(f)).

By the Commission.<sup>5</sup>

Amendment of Delegation of Authority With Respect to Slum Clearance and Urban Renewal Program, Demonstration Grant Program, and Urban Planning Grant Program

The delegation of authority with respect to the slum clearance and urban renewal program, demonstration and urban planning grant programs, effective as of December 23, 1954 (20 F.R. 428, Jan. 19, 1955), as amended (20 F.R. 4275, June 17, 1955; 21 F.R. 1468, March 7, 1956; 21 F.R. 3038, May 5, 1956; 21 F.R. 5385, July 18, 1956; 21 F.R. 5471, July 20, 1956; 22 F.R. 2887, April 24, 1957; 22 F.R. 4105, June 11, 1957; 23 F.R. 1202, Feb. 26, 1958; 23 F.R. 1611, March 6, 1958; 23 F.R. 4820, June 28, 1958; 23 F.R. 8413, Oct. 30, 1958; 23 F.R. 9078, Nov. 21, 1958; 23 F.R. 9399, Dec. 4, 1958; 24 F.R. 242, Jan. 9, 1959; 24 F.R. 5815, July 21, 1959; 24 F.R. 8451, Oct. 17, 1959), is hereby further amended in the following respects:

1. In subparagraph 1(d) (3), insert before the semicolon the following: "except the termination of Federal assistance for the survey and planning of urban renewal projects, including the cancellation of reservations of capital grant funds in connection therewith".

2. In subparagraph 5(m), delete the word "and".

3. In subparagraph 5(n), delete the period and insert "; and".

4. Add the following new subparagraph 5(o):

<sup>5</sup> Commissioner Kline would reject the filings on the ground that the statement supporting such increase consists of mere conclusions and accordingly does not constitute adequate compliance with the provisions of § 154.94(f) of the regulations under the Natural Gas Act.

(c) Terminate Federal assistance for the survey and planning of urban renewal projects, including the cancellation of reservations of capital grant funds in connection therewith.

Effective as of the 2d day of December 1959.

## SECURITIES AND EXCHANGE COMMISSION

[File No. 54-227 etc.]

### CITIES SERVICE CO. AND ARKANSAS FUEL OIL CORP.

#### Notice of Filing of Plan; Order Consolidating Proceedings and for Hearing

NOVEMBER 25, 1959.

In the matters of Cities Service Company, Arkansas Fuel Oil Corporation, File Nos. 54-227, 54-226, 54-223, 54-186, 31-622, 59-93, and 70-1804.

Notice is hereby given that certain participant stockholders (owning or representing 426,775 shares of the common stock of Arkansas Fuel Oil Corporation ("Arkansas")) in the pending consolidated proceedings (File Nos. 54-226; 54-223; 54-186; 31-622; 59-93; and 70-1804), have filed, as proponents, a plan ("Liquidation Plan") pursuant to section 11(d) of the Public Utility Holding Company Act of 1935 ("Act") for the stated purpose of effectuating compliance with the order of the Commission of September 20, 1957 (Holding Company Act Release No. 13549), issued under section 11(b) (2) of the Act, directing Cities Service Company ("Cities"), a registered holding company, and its subsidiary, Arkansas, to effect the elimination of the public minority stock interest in Arkansas or the disposition by Cities of its stock interest in Arkansas. The Liquidation Plan is calculated to yield to all the stockholders of Arkansas, including Cities, a net cash amount equal to \$40 per share.

All interested persons are referred to the Liquidation Plan which is on file at the office of the Commission and which is summarized as follows:

Arkansas will adopt a plan of complete liquidation and in furtherance thereof it will transfer to AF Oil Company ("Purchaser"), a new company organized by certain of the proponents of the plan, all of Arkansas' assets and properties, except (1) cash and cash deposits, (2) U.S. Government securities, (3) investments in securities, other than securities of subsidiaries and mutual service companies, and (4) accounts, notes and production payments receivable. Purchaser will pay for the assets and property transferred to it cash in the amount of \$152,061,440 (\$40 times the 3,801,536 outstanding shares of the common stock of Arkansas), plus an

amount equal to the total of all liabilities (except stockholders' equity and net gas revenue deferred), as shown on Arkansas' unconsolidated balance sheet as of the close of business March 31, 1960 (the effective date), minus an amount equal to the total of excepted assets items (1), (2), (3), and (4) above, and minus an amount equal to the total of all dividends paid or declared by Arkansas after December 31, 1959. The remaining assets of Arkansas will be liquidated and Arkansas will be dissolved within 12 months from the date of the adoption of its plan of liquidation.

Purchaser will sell all the assets acquired by it from Arkansas to General American Oil Company of Texas on a basis which will yield no profit to Purchaser.

The Liquidation Plan provides that Cities may elect, by filing written notice thereof with the Commission prior to its approval, either (1) to purchase from Arkansas substantially all of the assets of Arkansas on the above terms and conditions, or (2) to purchase, concurrently with the closing of the sale of assets to Purchaser, as above described, the pipe line, marketing division, storage division, the Panola Gasoline Plant, and the related accounts receivable, all as described in a certain report of Stone & Webster Service Corporation to Cities.

If Cities elects the second alternative it will pay Arkansas for such properties and related accounts receivable the amount appraised as the value thereof by Stone & Webster Service Corporation, some \$20,063,278, plus certain adjustments for inventories, accounts receivable, prepaid expenses, and deferred charges applicable to these properties. In that event, the properties purchased by Cities will be excluded from the sale to Purchaser and the purchase price to be paid by Purchaser will be reduced by the amount paid by Cities.

It appearing appropriate, in view of the orders of September 20, 1957, October 6, 1958, and March 11, 1959 (Holding Company Act Release Nos. 13549, 13840 and 13948) entered herein, and of the provisions of section 11(d) of the Act, that a hearing be held in respect of the Liquidation Plan to afford all interested persons an opportunity to be heard as to whether it should be approved by the Commission; and that the pending consolidated proceedings are related to the proceeding in respect of the Liquidation Plan and involve common issues of fact and law; that evidence offered and to be offered in the prior consolidated proceedings has or may have a bearing upon the issues in the proceeding upon the Liquidation Plan; and that substantial savings of time and expense will or may result if such prior consolidated proceedings are consolidated with the proceeding upon the Liquidation Plan, so that pertinent and relevant evidence offered and to be offered in the prior consolidated proceedings may be considered as evidence in the proceeding upon the Liquidation Plan;

It further appearing that the issues set forth in the Commission's orders of October 6, 1958, and March 11, 1959, are

equally applicable to the Liquidation Plan except insofar as such issues specifically relate to the plans filed by Cities; that it is appropriate to modify the Notice for Hearing of October 6, 1958, so that it shall be applicable to the Liquidation Plan, the effect of such notification being that the proceedings would embrace the issue whether the Liquidation Plan complies with section 11(b) (2) of the Act and the Commission order of September 20, 1957, and is fair and equitable, and whether, in the event the Commission shall not approve the Liquidation Plan, as filed or modified, it shall take appropriate action pursuant to section 11(d) of the Act.

*It is ordered*, That the consolidated proceedings above described, at File Nos. 54-226, 54-223, 54-186, 31-622, 59-93, and 70-1804, be, and hereby are, consolidated with the proceeding upon the Liquidation Plan, at File No. 54-227; and that the evidence offered in such prior consolidated proceedings, as to which the hearing is now in progress, shall be considered, to the extent deemed relevant and pertinent, as evidence in respect of the issues in the proceeding on the Liquidation Plan, without prejudice to the right to object to the relevancy or pertinency thereof.

*It is further ordered*, That the Notice for Hearing dated October 6, 1958, be, and hereby is, modified to the extent necessary to make the issues therein applicable to the Liquidation Plan and that evidence with respect to the Liquidation Plan shall be taken forthwith at the conclusion of the cross-examination of the witnesses as to whom cross-examination has not as yet been completed, but in no event prior to December 16, 1959. Any person not heretofore granted leave to participate who desires to be granted such leave shall file with the Secretary of the Commission on or before December 15, 1959, a request therefor in the manner provided by Rule XVII of the Commission's rules of practice.

*It is further ordered*, That jurisdiction be, and it hereby is, reserved to separate, in whole or in part, either for hearing or for disposition, any issues or questions which may arise in these consolidated proceedings, and to take such other action as may appear conducive to an orderly, prompt, and economical disposition of the matters involved.

*It is further ordered*, That notice of the action taken herein shall be given by registered mail to Cities, Arkansas, and all other persons who have been given permission to participate in the consolidated proceedings; that notice shall be given to all other persons by publication of this notice and order in the FEDERAL REGISTER; and that a general release of the Commission in respect of this notice and order shall be distributed to the press and mailed to the persons on the mailing list of the Commission for releases under the Act.

*It is further ordered*, That Cities shall give notice of the filing of the Liquidation Plan, and of the convening of the hearing to receive evidence with respect thereto, by causing to be mailed, at its expense, a copy of this order at least 10

days prior to December 15, 1959, to each of the public stockholders of record of Arkansas.

By the Commission.

Assistant Secretary.

PETITIONS

No. MC 67916 (Sub No. 14) (PETITION FOR REOPENING, RECONSIDERATION AND MODIFICATION OF AN ORDER DATED DECEMBER 19, 1956),

dated November 13, 1959. Petitioner: THE NEW YORK CENTRAL RAILROAD COMPANY, New York 17, N.Y. Petitioner's attorneys: Herbert Burstein and Kenneth H. Lundmark, 466 Lexington Avenue, New York 17, N.Y. Certificate No. MC 67916 (Sub No. 14), dated December 19, 1956, authorizes the transportation as a common carrier by motor vehicle, over irregular routes, of general commodities, with certain exceptions, between specified points in the States of Illinois, Indiana, Massachusetts, Michigan, New York, New Jersey, Ohio, and Pennsylvania, over regular routes, serving intermediate and off-route points which are stations on the rail lines of applicant, subject to certain specified conditions. These conditions include a restriction against the transportation of commodities in bulk in tank vehicles and the imposition of certain key point restrictions which bar applicant from transportation of shipments between said key points, or through, or to, or from, more than one of said key points. The instant petition seeks (a) modification of the restriction therein contained against the transportation of general commodities in bulk in tank vehicles insofar as cement in bulk is concerned, and to permit applicant to transport cement, in bulk, in hopper-type vehicles and tank trucks, and (b) the elimination of the conditions naming Worcester and Springfield, Mass., Albany, Utica, Chatham, and Kingston, N.Y., as key points insofar as such key points are applicable to the transportation of cement, in bulk, in hopper-type vehicles and tank trucks. The removal of the above named key-points is sought from Routes 1, 2, 3, 4, 12, 23, and 24 through 34 inclusive, described in Certificate No. MC 67916 (Sub No. 14). Any person or persons desiring to participate in this proceeding may file representations supporting or opposing the relief sought within 30 days after the date of this publication in the FEDERAL REGISTER.

No. MC 101126 (Sub No. 89) (PETITION TO AMEND INTERIM PERMIT BY ADDING A NEW CONTRACTING SHIPPER), filed November 12, 1959. Petitioner: STILLPASS TRANSIT COMPANY, INC., 4967 Spring Grove Avenue, Cincinnati, Ohio. Petitioner's attorney: Richard H. Brandon, 808 Hartman Building, Columbus 15, Ohio. Interim Permit No. MC 101126 (Sub No. 89), dated January 16, 1959, authorized operations as a contract carrier as follows, in part: *Products of animal, vegetable and tall oils or fats* (except glycerine and liquid synthetic resins) in bulk, in tank vehicles, from St. Bernard, Ohio, to points in Indiana (except to Jeffersonville, Ind., and except sulphuric acid to points in Indiana in the Louisville, Ky., Commercial Zone, as defined by the Commission) with no transportation for compensation on return except as otherwise authorized. The above-described transportation is limited to a transportation service to be performed under a continuing contract or contracts with Emery Industries, Inc., of Cincinnati, Ohio. The subject petition seeks amendment of the Interim Permit by adding as a contracting shipper, Procter

and Gamble Company, Cincinnati, Ohio. Any person or persons desiring to participate in this proceeding may file representations supporting or opposing the allowance of the additional shipper within 30 days from the date of this publication in the FEDERAL REGISTER.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9.

Signed at Washington, D.C., this 18th day of November 1959.

ROBERT G. GRONEWALD,  
Authorized Representative  
of the Administrator.
