Title 3—THE PRESIDENT

Executive Order 10938

ESTABLISHING THE PRESIDENT'S FOREIGN INTELLIGENCE ADVISORY BOARD

By virtue of the authority vested in me as President of the United States, it is ordered as follows:

SECTION 1. There is hereby established the President's Foreign Intelligence Advisory Board. The function of the Board shall be to advise the President with respect to the objectives and conduct of the foreign intelligence and related activities of the United States which are required in the interests of foreign policy and national defense and security.

SEC. 2. In the performance of its advisory duties, the Board shall conduct a continuing review and assessment of all functions of the Central Intelligence Agency, and of other executive departments and agencies having such or similar responsibilities in the foreign intelligence and related fields, and shall report thereon to the President each six months or more frequently as deemed appropriate. The Director of Central Intelligence and the heads of other departments and agencies concerned shall make available to the Board any information with respect to foreign intelligence matters which the Board may require for the purpose of carrying out its responsibilities to the President. The information so supplied to the Board shall be afforded requisite security protection as prescribed by the provisions of applicable laws and regulations.

SEC. 3. Members of the Board shall be appointed from among qualified persons outside the Government and shall receive such compensation and allowances, consonant with law, as may be prescribed hereafter. Such compensation and allowances and any other expenses arising in connection with the work of the Board shall be paid from the appropriation appearing under the heading "Special Projects" in title I of the General Government Matters Appropriation Act, 1961, 74 Stat. 473, and, to the extent permitted by law, from any corresponding appropriation which may be made for

subsequent years. Such payments shall be made without regard to the provisions of section 3681 of the Revised Statutes and section 9 of the act of March 4, 1909, 35 Stat. 1027 (31 U.S.C. 672 and 673).

SEC. 4. Executive Order No. 10656 of February 6, 1956, is hereby revoked.

JOHN F. KENNEDY

THE WHITE HOUSE,

May 4, 1961.

Executive Order 10939

TO PROVIDE A GUIDE ON ETHICAL STANDARDS TO GOVERNMENT OFFICIALS

WHEREAS the maintenance of high ethical and moral standards in the conduct of the functions of the Federal Government is a matter of continuing concern; and

WHEREAS it is incumbent upon those who occupy positions of the highest responsibility and authority to set an impeccable example:

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States, it is hereby ordered as follows:

1. This Order shall apply to all heads and assistant heads of departments and agencies, full-time members of boards and commissions appointed by the President, and members of the White House Staff.

2. No such official shall engage in any outside employment or other outside activity not compatible with the full and proper discharge of the responsibilities of his office or position. It shall be deemed incompatible with such discharge of responsibilities for any such official to accept any fee, compensation, gift, payment of expenses, or any other thing of monetary value in circumstances in which acceptance may result in, or create the appearance of, resulting in:

(a) Use of public office for private gain;

(b) An undertaking to give preferential treatment to any person;

(c) Impeding government efficiency or economy;

(d) Any loss of complete independence or impartiality;

(e) The making of a Government decision outside official channels; or

(f) Any adverse effect on the confidence of the public in the integrity of the Government.

3. No such official shall receive compensation or anything of monetary value, other than that to which he is duly entitled from the Government, for the performance of any activity during his services as such official and within the scope of his official responsibilities.

4. No such official shall receive compensation or anything of monetary value for any consultation, lecture, discussion, writing or appearance the subject matter of which (a) is devoted substantially to the responsibilities, programs or operations of the official's department or agency, or (b) draws substantially upon official data or ideas which have not become part of the body of public information.

5. Paragraphs 3 and 4 of this Order shall not preclude

(a) Receipt of bona fide reimbursement, to the extent permitted by law, for actual expenses for travel and such other necessary subsistence as is compatible with this directive and in which no government payment or reimbursement is made: *Provided, however*, That there shall be no reimbursement or payment on behalf of the official for entertainment, gifts, excessive personal living expenses, or other personal benefits;

(b) Participation in the affairs of charitable, religious, non-profit educational, public service or civic organizations, or the activities of national or state political parties not proscribed by law;

(c) Awards for meritorious public contribution given by public service or civic organizations.

6. Each department and agency head shall review or issue internal directives appropriate to his department or agency to assure the maintenance of high ethical and moral standards therein.

7. Nothing in this Order shall be construed to supersede, alter, or interpret any existing law or regulation.

Title 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

SUBCHAPTER C—REGULATIONS AND STANDARDS UNDER THE FARM PRODUCTS INSPECTION ACT

PART 55—GRADING AND INSPECTION OF EGG PRODUCTS

Miscellaneous Amendments

Notice of proposed amendments to the regulations governing the grading and inspection of egg products (7 CFR Part 55) was published in the FEDERAL REGISTER on March 2, 1961 (26 F.R. 1835). The amendments hereinafter promulgated are issued pursuant to authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U.S.C. 1621 et seq.).

The major changes in the amendments consist of adding: (1) A definitive sampling procedure; (2) more adequate facilities for resident graders; (3) a fee for laboratory analysis of frozen egg products to determine if they contain lactic acid; and (4) a change from 3 to 3½ minutes in the minimum time required for flash heating liquid whole egg during pasteurization. The amendments also make minor changes in general operating procedures, candling and breaking room facilities and operations, cooling and freezing operations and drying facilities and operations.

After consideration of all relevant material, the regulations in 7 CFR Part 55, as amended, are hereby further amended as follows:

§ 55.4 [Amendment]

1. Change paragraph (e) of § 55.4 to read:

(e) Condition inspection and laboratory analysis of egg products which are prepared in nonofficial plants.

§ 55.6 [Amendment]

2. Change § 55.6 by placing "(a)" immediately prior to the first sentence thereof and add a new paragraph (b) to read:

(b) Whenever grading or inspection service is performed on a sample basis, such sample shall be drawn as follows:

(1) When frozen eggs are packed in 30-pound or larger containers, a sufficient number of randomly selected containers equivalent to not less than the square root of the total number in the lot shall be selected. When frozen eggs are packed in smaller containers, the number of containers to be selected shall be not less than the figure obtained by dividing the total net weight of the lot by 30 and extracting the square root thereof; (2) samples of dried egg solids of appropriate size shall be drawn in approximately equal portions from four randomly selected containers in each lot. For sampling purposes a lot shall consist of not more than 2,500 pounds. If the lot consists of less than four containers, the sample shall be drawn in approximately equal portions from each container in the lot.

3. Change § 55.18 to read:

§ 55.18 Facilities to be furnished for use of graders and inspectors in performing service on a resident inspection basis.

(a) Facilities for proper sampling, weighing, and examination of shell eggs and egg products shall be furnished by the official plant for use by inspectors and frozen egg graders. Such facilities shall include a candling light, a heavy duty, high speed (not less than 1,000 r.p.m. under load) drill with a 1¼" or larger bit of sufficient length to reach the bottom of a 30-pound can of frozen eggs, a nonbreakable thermometer, and a test kit for chlorine.

(b) Furnished office space and equipment, including but not being limited to, a desk (equipped with a satisfactory locking device), lockers or cabinets suitable for the protection and storage of supplies and with facilities suitable for inspectors and graders to change clothing. Such space and equipment must meet the approval of the State supervisor.

§ 55.23 [Amendment]

4. In paragraph (b) of § 55.23 substitute the words "national supervisor" for "area supervisor" contained in the first sentence thereof.

§ 55.30 [Amendment]

5. Delete paragraphs (a) (1) (vi) and (a) (5) of § 55.30 and redesignate paragraph (a) (6) as paragraph (a) (5) and change paragraphs (a) (1) (iv) and (a) (1) (v) to read:

(iv) The use of the terms "United States," "U.S.," "Government Graded," "Federal-State Graded," "U.S. Inspected," "Government inspected," or terms of similar import in the labeling or advertising of any product;

(v) The use of any official stamp, symbol, label, seal, or identification in

the labeling or advertising of any product.

6. Change § 55.35 to read:

§ 55.35 Approval of official identification.

Any label, container or packaging material which bears any official identification shall be used only in such manner as the Administrator may prescribe. No label, container or packaging material bearing official identification may be used unless finished copies or samples thereof have been approved by the Administrator. No label, container or packaging material bearing official identification shall be printed or prepared for use until the printer's or other final proof has been approved by the Administrator. No label, container or packaging material which bears official identification shall bear any statement that is false or misleading. If the label is printed on or otherwise applied directly to the container or packaging material the principal display panel thereof shall be considered as the label. The label shall contain the common or usual name of the product, if any there be, the name and address of the packer or distributor, and when the name of the distributor is shown, it shall be qualified by such term as "packed for," "distributed by," or "distributors," the lot number, a statement of the net contents of the container, and if the product is comprised of two or more ingredients such ingredients shall be listed in the order of descending proportions. Egg products that are labeled "Whites and yolks" shall have the total solids content declared on the label if the solids content is less than 25½ percent.

7. Change § 55.41 to read:

§ 55.41 Products not eligible for official identification.

Egg products which are prepared in nonofficial plants shall not be officially identified. However, such products may be inspected organoleptically and by laboratory analyses and covering certificates issued setting forth the results of the inspection. Such certificates shall apply only to samples examined and shall include a statement that the product was produced in a nonofficial plant. Each container of frozen whole eggs will be drilled and examined organoleptically and product which appears to be satisfactory shall for sampling purposes be placed in lots not exceeding 6,000 pounds. Samples for laboratory analyses will be taken from each lot as provided in § 55.6 (b) and examined for direct microscopic bacterial count and for the presence of acetic and lactic acid. Frozen whole eggs shall be considered unsatisfactory if they contain acetic acid in any measurable quantity or if they contain lactic acid in excess of 7 milligrams per 100 grams of egg in combination with a direct microscopic bacterial count of more than 5,000,000 per gram of egg. The bacteriological analysis shall be made in accordance with the methods prescribed in Standard Methods for the Examination of Dairy Products of the American Public Health Association. The chemical analyses shall be made in accordance

with the methods prescribed in Official Methods of Analysis of the Association of Official Agricultural Chemists.

§ 55.42 [Amendment]

8. Add the following new paragraph (d) to § 55.42:

(d) Upon termination of inspection service in an official plant pursuant to the regulations, all labels, seals, tags or packaging material bearing official identification shall, under the supervision of a person designated by the Service, either be destroyed, or the official identification completely obliterated, or sealed in a manner acceptable to the Service.

§ 55.66 [Amendment]

9. Change paragraph (b) of § 55.66 by adding at the end thereof the following:

Lactic acid..... 40.00

§ 55.77 [Amendment]

10. Change paragraphs (a), (b), (g), and (m) of § 55.77 to read:

(a) All operations involving processing, storing, and handling of shell eggs, ingredients to be added, and egg products shall be strictly in accord with clean and sanitary methods, and shall be conducted as rapidly as is practicable. Stabilization procedures, when employed shall be approved by the Administrator. Temperatures in all operations shall be such as will prevent a material increase in bacterial growth and deterioration or breakdown in the egg meat.

(b) All shell eggs and egg products shall be subjected to constant and continuous inspection throughout each and every processing operation. Any shell egg or egg product which was not processed in accordance with the regulations in this part or is not fit for human food shall be removed and segregated prior to any further processing operation in connection with the production of egg products.

(g) Only germicides, insecticides, rodenticides, detergents, or wetting agents or other similar compounds which will not deleteriously affect the egg products and which have been approved by the Administrator may be used in an official plant. The use of such compounds shall be in a manner satisfactory to the Administrator.

(m) All utensils and equipment, except the drying units, the powder conveyors, mechanical powder coolers, and blenders shall be cleaned and sanitized at the start of each day's processing operations. All equipment and utensils shall be kept clean and sanitary during all processing operations.

§ 55.78 [Amendment]

11. Change paragraphs (a), (f), and (g) of § 55.78 to read:

(a) The room shall be adequately darkened to assure accuracy in removal of inedible or loss eggs by candling. Equipment shall be arranged so as to facilitate cleaning and the removal of refuse and excess packing material.

(f) Containers made of a material and of such design that is conducive to easy cleaning and sanitizing shall be provided for inedible eggs. All such containers shall be conspicuously marked.

(g) Containers made of a material and of such design that is conducive to easy cleaning and sanitizing shall be provided for trash unless clean disposable containers are furnished daily.

§ 55.79 [Amendment]

12. Change paragraph (c) of § 55.79 to read:

(c) Mechanical candling machines shall be maintained in a clean condition during operations.

13. Add a new subparagraph (6) to paragraph (g) of § 55.79 to read:

(6) Incubator reject eggs and ova from slaughtered birds of any species shall not be brought into the official plant.

§ 55.81 [Amendment]

14. Change paragraphs (a) and (c) of § 55.81 to read:

(a) All shell eggs with adhering dirt shall be cleaned prior to breaking. If such eggs are washed, they shall be rinsed with a water spray and promptly dried sufficiently to prevent contamination or adulteration of the liquid egg. Immediately following the water rinse, such eggs together with eggs not requiring cleaning, may be immersed in or sprayed with a sanitizing solution and thereafter promptly dried sufficiently to prevent contamination or adulteration of the liquid egg prior to breaking.

(c) Shell eggs shall not be washed in the breaking or sanitizing rooms or any room where edible products are processed.

§ 55.82 [Amendment]

15. Change paragraph (a), subparagraph (1) of paragraph (d) and paragraph (i) of § 55.82 to read:

(a) The breaking room shall have at least 30 foot candles of light on all working surfaces except that light intensity shall be at least 50 foot candles at breaking tables and inspection tables. Lights shall be protected with adequate safety devices.

(d)(1) A positive flow of outside filtered air through the room;

(i) Conveyors which are used for carrying shell eggs shall be so installed as will prevent contamination of the egg products.

§ 55.83 [Amendment]

16. Change paragraphs (b), (f), (i), (j), (l), (p), (w), (x), (z), (cc), and (ff) of § 55.83 to read:

(b) Shell egg containers coming into the breaking room shall be so handled that they do not pass directly over or come in contact with liquid egg, liquid-egg containers, or drip trays. Such containers shall be made of a material and of such design that is conducive to easy cleaning and sanitizing.

(f) Breakers shall use a complete set of clean equipment when starting work and after lunch periods. All table equipment shall be rotated with clean equipment every 2½ hours.

(i) Shell particles, meat and blood spots, and other foreign material accidentally falling into the cups or trays shall be removed with a spoon or other approved instrument.

(j) Whenever an inedible egg is broken, the affected breaking equipment shall be replaced with a complete set of clean equipment, except that only the cup or Canadian tray need be exchanged when bloody whites or blood rings are encountered.

(l) The contents of any cup or other egg-liquid receptacle containing one or more inedible or loss eggs shall be rejected.

(p) Liquid eggs recovered from shell egg containers and leaker trays shall be rejected and treated as inedible egg liquid.

(w) Belt type shell egg conveyors shall be cleaned and sanitized approximately every 4 hours in addition to continuous cleaning during operation. When not in use, belts shall be raised to permit air drying.

(x) Cups, knives, racks, separators, trays, spoons, liquid-egg pails, and other breaking equipment shall be cleaned and sanitized at least every 2½ hours. This equipment shall also be cleaned and sanitized at the end of each shift and shall be sanitized again immediately prior to use unless operations are resumed within one hour. All washing and sanitizing is to be conducted in the area provided for this purpose.

(z) Dump tanks, draw-off tanks and low pressure liquid egg lines shall be flushed at least every 4 hours. All such equipment and all other liquid handling equipment, unless cleaned by acceptable in-place cleaning methods, shall be dismantled, cleaned and sanitized after each shift and shall not be reassembled more than 2 hours prior to use. Such equipment shall be thoroughly flushed with a sanitizing solution and thoroughly drained prior to placing in use.

(cc) Metal containers and lids for other than dried products shall be thoroughly washed and drained immediately prior to filling, except that if equally effective measures approved by the national supervisor in writing are followed to assure clean and sanitary containers at the time of filling, the foregoing washing sequence shall not be required.

(ff) Those parts of mechanical egg breaking equipment not specifically covered elsewhere in this section shall be cleaned and sanitized as often as necessary to maintain the equipment in a sanitary condition and shall be thor-

oughly cleaned at least every 4 hours and at the end of the shift.

§ 55.85 [Amendment]

17. Change paragraphs (c), (d), (e), and (f) of § 55.85 to read:

(c) All product which is not subjected to immediate stabilization or pasteurization shall be cooled to 45° F. or less within 1½ hours from time of breaking.

(d) Egg products containing 30 percent or more egg solids, to which 10 percent salt has been added, may be accumulated up to 4 hours at a temperature not exceeding 60° F., for the purpose of equalizing salt, fat and color, provided that immediately thereafter, the product is packaged and placed in a freezer. All other liquid egg shall be cooled to 45° F. within 1½ hours from the time of breaking and maintained at temperatures not exceeding 45° F. until loaded for shipment, or until stabilizing or pasteurizing operations are begun, or until frozen or dried, or delivered to the consumer. Such liquid eggs, if to be held for more than 8 hours, shall be reduced to a temperature of 40° F. or less within 1½ hours from time of breaking and held at 40° F. or less until stabilizing or pasteurizing operations are begun, or until dried, or frozen, or delivered to the consumer.

(e) Stabilized liquid eggs shall be cooled to 40° F. or less, unless immediately dried or pasteurized following stabilization. The cooling process shall be started immediately following stabilization and be completed within 3 hours.

(f) Pasteurized liquid egg shall be cooled to 40° F. or less, unless immediately dried or stabilized following pasteurization. The cooling process shall be started immediately following pasteurization and be completed within 1½ hours.

§ 55.87 [Amendment]

18. Change paragraph (a) of § 55.87 to read:

(a) Freezing rooms, either on or off the premises, shall be capable of freezing all liquid egg products in accordance with the freezing requirements as set forth in § 55.88. Use of off-premise freezing facilities is permitted only when prior approval in writing from the national supervisor is on file.

§ 55.88 [Amendment]

19. Change paragraph (b) of § 55.88 to read:

(b) All egg products shall be solidly frozen or reduced to a temperature of 10° F. within 60 hours after placing in the freezer. The temperature of products not solidly frozen shall be taken at the center of the package to determine compliance with this section.

§ 55.91 [Amendment]

20. Change paragraph (j) of § 55.91 to read:

(j) Cooling equipment for dried egg powder shall be provided and be capable of promptly cooling all powder except albumen to a temperature of 85° F. or less.

§ 55.93 [Amendment]

21. Change paragraph (b) of § 55.93 to read:

(b) *Egg powder; blending.* Subparagraphs (1), (2), (3), (5) and (7) of this paragraph are applicable to all powder, and subparagraphs (4) and (6) of this paragraph are applicable only to whole eggs.

(1) The powder shall be blended uniformly throughout the operation.

(2) Secondary powder shall be blended with primary powder continuously by mechanical means.

(3) Approximately the first and last 175 pounds of powder from the main drier for each continuous operation shall be checked for improperly dried or scorched powder.

(4) The resident inspector shall draw a representative sample and score each lot (a lot shall not exceed 2,500 pounds) of powder for palatability. A lot scoring 6½ or higher is eligible for identification with the inspection mark as provided in § 55.36. A lot scoring 4 to 6, inclusive, may be officially identified as provided in § 55.38. Powder scoring less than 6½ shall not be blended with higher scoring powder, if the resultant finished product is to be officially identified as provided in § 55.36. Powder, including sweep-down powder, scoring less than 6½ but not lower than 4 may be officially identified as provided in § 55.38.

(5) Whole egg powder scoring below 4 and any powder obtained from a dust house, brush bag or screenings shall not be officially identified or blended with powder to be officially identified, except that brush-bag powder from albumen driers may be blended and officially identified.

(6) For any purpose other than to determine suitability for blending or official identification, palatability scores shall be determined by a USDA laboratory from representative samples drawn by an inspector.

(7) Representative samples shall be drawn in accordance with § 55.6(b) for laboratory analysis.

§ 55.94 [Amendment]

22. Change paragraph (a) of § 55.94 to read:

(a) Drying facilities shall be constructed in such a manner as will allow thorough cleaning and be equipped with approved intake filters.

§ 55.98 [Amendment]

23. Change paragraph (a), of § 55.98 to read:

(a) This room or area shall be well lighted, and of sufficient size to permit operators to properly wash and sanitize all equipment at the rate required by the size of the operation. Adequate ventilation shall be provided to insure the prompt removal of odors and vapors and the air flow shall be away from the breaking room. If the washing and sanitizing room is not a separate room, it shall be an area well segregated from the breaking areas and it shall be well ventilated with air movement directed away from the breaking operations so

that odors and vapors do not permeate the breaking areas.

§ 55.100 [Amendment]

24. Change paragraph (f) of § 55.100 to read:

(f) Expecterating, or other unsanitary practices, shall not be permitted.

§ 55.101 [Amendment]

25. Change paragraphs (a) and (b) of § 55.101 to read:

(a) *Pasteurizing facilities.* Adequate pasteurizing equipment of approved construction shall be provided so that all of the liquid whole egg will be processed as provided in paragraph (b) of this section. The pasteurizing equipment shall be provided with a holding tube, an automatic flow diversion valve with attached thermal controls, and recording devices which will control the flow of egg liquid in such a manner as will accomplish pasteurization as set forth in paragraph (b) of this section and will record temperatures of the heated egg liquid at the flow diversion valve continuously and automatically during the process. It shall be equipped with automatic sound-warning devices to indicate failure of proper operation. Refrigerated holding vats of sufficient capacity shall be provided to hold liquid eggs prior to and after pasteurization.

(b) *Pasteurizing operations.* The strained or filtered liquid egg shall be flash heated to not less than 140° F. and held at this temperature for not less than 3½ minutes and not more than 4 minutes. The flow diversion valve shall be adjusted so that all liquid not meeting the temperature requirements shall be diverted to a receiving tank and a warning given of failure to meet the temperature requirements. The sanitary pipe leading from the flow diversion valve shall be dismantled, cleaned, and sanitized and the flow diversion valve flushed with cold water and whenever a 30-minute time interval has elapsed between use and reuse. The pasteurizing equipment shall be dismantled, cleaned, and sanitized at the end of each day's operation. If the eggs are pasteurized within 30 minutes after time of breaking, they need not be chilled to 45° F. prior to pasteurization. Immediately after pasteurization the liquid eggs shall be cooled as provided in § 55.85 unless they are dried immediately. Any other procedure for pasteurization must be submitted in writing and approved by the national supervisor prior to use.

§ 55.125 [Amendment]

26. In § 55.125 substitute the term "33 grams" for the term "30 grams" contained in the first sentence thereof.

(Sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624; 19 F.R. 74, as amended)

The foregoing amendments differ in certain respects from the provisions contained in the notice of rule-making. These differences reflect changes of a clarifying nature, or pursuant to comments received pursuant to the notice, or to relieve requirements set forth in the notice except for the change in § 55.30(a)(1)(iv) which deletes reference

to grade since grades for egg products have not been promulgated. It is not believed that the changes will be objectionable to affected persons and it does not appear that further notice and other public rule-making procedure on the amendments would make additional information available to the Department. Therefore under section 4 of the Administrative Procedure Act (5 U.S.C. 1003) it is found upon good cause that further public rule-making procedure on the amendments is impracticable and unnecessary.

Issued at Washington, D.C., this 3d day of May 1961, to become effective 30 days after publication in the FEDERAL REGISTER.

Chapter IX—Agricultural Marketing and Commodity Stabilization Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 225]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 922.525 Valencia Orange Regulation 225.

(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 22, as amended (7 CFR Part 922), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said marketing agreement and order, as amended, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions

for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on May 4, 1961.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a.m., P.s.t., May 7, 1961, and ending at 12:01 a.m., P.s.t., May 14, 1961, are hereby fixed as follows:

- (i) District 1: 400,000 cartons;
 - (ii) District 2: 328,650 cartons;
 - (iii) District 3: Unlimited movement.
- (2) All Valencia oranges handled during the period specified in this section are subject also to all applicable size restrictions which are in effect pursuant to this part during such period.

(3) As used in this section, "handled," "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said marketing agreement and order, as amended.

[Orange Reg. 387]

PART 933—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

§ 933.1057 Orange Regulation 387.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, except

Temple oranges, as hereinafter provided, will establish and maintain such minimum standards of quality and maturity and such grading and inspection requirements as will tend to effectuate such orderly marketing of such Florida oranges as will be in the public interest; will tend to effectuate the declared policy of the act; and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, except Temple oranges, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on May 2, 1961; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; the provisions of the act require that the minimum standards of quality and maturity, as set forth herein, be made effective when the seasonal average price to growers for such oranges exceeds the parity level specified in section 2(1) of the act; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth and at the commencement thereof, so as not to permit the unrestricted shipment thereafter of Florida oranges, except Temple oranges, as such unrestricted shipments would not be conducive to the orderly marketing of such oranges as will be in the public interest and would not tend to effectuate the declared policy of the act; and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agree-

ment and order; and terms relating to grade, diameter, standard pack, and standard box, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140 to 51.1178 of this title; 26 F.R. 163).

(2) During the period beginning at 12:01 a.m., e.s.t., May 8, 1961, and ending at 12:01 a.m., e.s.t., September 11, 1961, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any oranges, except Temple oranges, grown in the production area, which do not grade at least U.S. No. 2 Russet; or

(ii) Any oranges, except Temple oranges, grown in the production area, which are of a size smaller than a size that will pack 324 oranges, packed in accordance with the requirements of a standard pack, in a standard nailed box.

Shipments of Temple oranges, grown in the production area, are, until 12:01 a.m., e.s.t., July 31, 1961, subject to the provisions of Orange Regulation 385 (§ 933.1052; 26 F.R. 2111).

[Grapefruit Reg. 339]

PART 933—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

§ 933.1058 Grapefruit Regulation 339.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy

of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of all grapefruit, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on May 2, 1961, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, diameter, standard pack, and standard box, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Grapefruit (§§ 51.750-51.783 of this title; 26 F.R. 163).

(2) During the period beginning at 12:01 a.m., e.s.t., May 8, 1961, and ending at 12:01 a.m., e.s.t., May 29, 1961, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any grapefruit, grown in the production area, which do not grade at least U.S. No. 1: *Provided*, That such grapefruit may have discoloration to the extent permitted under the U.S. No. 2 Russet grade, and may have slightly rough texture caused only by speck type melanose;

(ii) Any seeded grapefruit, grown in the production area, which are smaller than $3\frac{1}{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of seeded grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in said United States Standards for Florida Grapefruit; or

(iii) Any seedless grapefruit, grown in the production area, which are smaller than $3\frac{3}{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of seedless grapefruit smaller

than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in said United States Standards for Florida Grapefruit.

[Lemon Reg. 898]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 953.1005 Lemon Regulation 898.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate

the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on May 2, 1961.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a.m., P.s.t., May 7, 1961, and ending at 12:01 a.m., P.s.t., May 14, 1961, are hereby fixed as follows:

- (i) District 1: Unlimited movement;
- (ii) District 2: 325,500 cartons;
- (iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

[Milk Order No. 125]

PART 1025—MILK IN INDIANAPOLIS, IND., MARKETING AREA

Order Suspending Certain Provision

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Indianapolis, Indiana, marketing area (7 CFR Part 1025), it is hereby found and determined that:

(a) The following provision of the order, no longer tends to effectuate the declared policy of the Act:

In the first paragraph of § 1025.44(d) "to a nonpool plant not more than 150 miles from Monument Circle, Indianapolis, Indiana, by the shortest highway distance as determined by the market administrator."

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of effective date hereof are impractical, unnecessary and contrary to the public interest in that:

(1) This suspension order does not require of persons affected substantial or extensive preparation prior to the effective date;

(2) This suspension order is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area;

(3) Experience since the order became effective has demonstrated that an operator of a pool plant located in Northern Indiana and outside the marketing area also operates additional plants within 150 miles of his pool plant, but more than 150 from Monument Circle, Indianapolis, Indiana. Under the present provision, skim milk and butterfat moved to these nonpool plants must be

classified as Class I because of the locality of the pool plant, even though the skim milk and butterfat is not used in a Class I product.

The purpose of classifying skim milk and butterfat as Class I when moved in the form of bulk milk or skim milk distances greater than 150 miles from Indianapolis is to obviate the necessity of the market administrator's traveling unnecessarily great distances to verify the utilization of such products which it is reasonable to presume has been utilized in Class I. Further, it is generally impractical, because of the transportation costs involved, to move milk or skim milk more than 150 miles from a pool plant for other than Class I utilization;

(4) Current experience in the market indicates that very little, if any, milk or skim milk is moved, for Class I utilization, distances greater than 150 miles from a pool plant. The effective date of Order No. 125, except for minimum prices, application of provisions and payments for milk, was February 1, 1961. All provisions of the order were effective March 1, 1961. Hence, with the limited market information now available it is not now practical or reasonable to hold a public hearing at this time on this matter. Since it is anticipated that only limited quantities of skim milk and butterfat would be moved in the form of milk or skim milk distances greater than 150 miles from a pool plant for Class I utilization, it is not unreasonable to require the market administrator to verify the classification of such shipments until such time as additional facts may warrant a public hearing to consider revision of this and other provisions of the order; and

(5) This suspension action has been requested by handlers and supported by producers of a substantial proportion of the milk regulated under Order No. 125 (Part 1025).

Therefore, good cause exists for making this order effective as soon as possible.

It is therefore ordered, That the aforesaid provision of the order is hereby suspended effective upon publication in the FEDERAL REGISTER.

SUBCHAPTER E—AIR NAVIGATION
REGULATIONS

[Airspace Docket No. 61-KC-12]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Control Zone

The purpose of this amendment to § 601.2061 of the regulations of the Administrator is to alter the Lincoln, Nebr., control zone.

The Lincoln control zone is presently designated in part within 2 miles either side of the north course of the Lincoln radio range station extending from the 5-mile radius zone to a point 12 miles north.

The Departments of the Air Force, Navy, and Army have advised the Federal Aviation Agency that this navigational facility is no longer required. Therefore, action is taken herein to revoke the portion of the Lincoln control zone based on the north course of the radio range. Additionally, the reference to the Sprague, Nebr., radio beacon is being deleted from the description of the control zone. This will not involve the assignment of additional airspace.

Since this amendment imposes no additional burden on the public, notice and public procedure hereon are unnecessary and it may be made effective immediately.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), § 601.2061 (25 F.R. 4860) is amended to read:

§ 601.2061 Lincoln, Nebr., control zone.

Within a 5-mile radius of Lincoln Air Force Base (latitude 40°50'35" N., longitude 96°45'42" W.); within 2 miles either side of the 195° and the 015° radials of the Raymond, Nebr., VORTAC, extending from the 5-mile radius zone to a point 12 miles NNE of the VOR, and within 2 miles either side of the S course of the Lincoln ILS localizer extending from the 5-mile radius zone to a point 5 miles S of the OM.

This amendment shall become effective upon the date of publication in the FEDERAL REGISTER.

[Airspace Docket No. 61-WA-17]

PART 608—SPECIAL USE AIRSPACE

Alteration of Restricted Areas

The purpose of these amendments to Part 608 of the regulations of the Administrator is to alter the descriptions of several restricted areas.

On January 28, 1961, a revised Part 608 was published in the FEDERAL REGISTER as Airspace Docket No. 60-WA-194 (26 F.R. 870). The purpose of that action was to renumber restricted areas and to designate, as appropriate, a controlling agency and/or using agency for each restricted area. That action also established procedures for annual reports on the utilization of restricted areas.

Subsequent to the issuance of Airspace Docket No. 60-WA-194, a review of certain restricted area descriptions has revealed a number of editorial and typographical errors that are in need of correction. Furthermore, the constant modification of designated airspace and the relocation and decommissioning of navigational aids have created a need for modification of the geographical description of certain restricted areas. Action is taken herein to correct these deficiencies.

In the near future, upon completion of a further review of all restricted areas, the aim of which will be to simplify and standardize the descriptions of boundaries, times of designation, and designated altitudes, a reissuance of Part 608 is planned.

Since the changes effected by these amendments are editorial in nature and impose no additional burden on the public, notice and public procedure hereon are unnecessary, and they may be made effective on less than 30 days notice.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following actions are taken:

1. In § 608.25 California (26 F.R. 874, 1094) the following changes are made:

(a) In R-2515 Muroc Lake, Calif., Restricted Area, under Boundaries, "thence to latitude 35°15'56", longitude 116°-55'20";" is deleted and "thence to latitude 35°15'56", longitude 117°26'00"; thence to latitude 35°15'56", longitude 116°55'20";" is substituted therefor.

(b) In R-2520 Point Mugu, Calif., Restricted Area, under Boundaries, "R-100" is deleted and "R-2519" is substituted therefor; "along the southern boundary of Oxnard AFB Control Zone" is deleted.

2. In § 608.29 Florida (26 F.R. 877) the following changes are made:

(a) In R-2901 Avon Park, Fla., Restricted Area, Time of designation is amended by deleting "Daylight hours only." and substituting therefor "Continuous".

(b) R-2912 Panama City, Fla., Restricted Area is amended to read:

R-2912 Panama City, Fla.:
Boundaries. Beginning at latitude 30°43'00" N., longitude 85°14'00" W.; thence to latitude 29°55'00" N., longitude 84°32'00"

vals not to exceed 120 flight-hours for Aeroproducts A6441FN-606 propeller blades installed on Lockheed 188 Series aircraft. It has now been determined from examination and analysis of additional data that the interval between blade track checks may be extended to 255 flight-hours. Accordingly, Amendment 175 is amended to extend the interval between inspection periods. Since this amendment is a relaxation, notice and public procedure hereon are unnecessary and the amendment will become effective upon publication in the FEDERAL REGISTER.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is hereby amended as follows:

Amendment 175 (25 F.R. 5827) is amended by changing the third sentence of the second paragraph to read as follows: "This inspection must be repeated at intervals not to exceed 255 flight-hours."

This amendment shall become effective May 6, 1961.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on May 2, 1961.

PART 507—AIRWORTHINESS DIRECTIVES

Douglas DC-7 and DC-7B Aircraft

Amendment 264, 26 F.R. 2115, was issued as applicable to all Douglas DC-7 Series aircraft, Fuselage No. 1 to No. 722 inclusive. It should have applied to only DC-7 and DC-7B aircraft, Fuselage No. 1 to No. 720 inclusive. Therefore, Amendment 264 is being amended to correct the applicability statement. Since this amendment is a correction and constitutes a relaxation, notice and public procedure hereon are unnecessary and the amendment will become effective upon publication in the FEDERAL REGISTER.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is amended as follows:

Amendment 264, Douglas DC-7 aircraft (26 F.R. 2115), is amended by changing the applicability statement to read as follows: "Applies to all DC-7 and DC-7B aircraft, Fuselage No. 1 to No. 720 inclusive, having in access of 8,000 hours' time in service."

This amendment shall become effective May 6, 1961.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Chapter I—Federal Trade Commission

[Docket 7396 o.]

PART 13—PROHIBITED TRADE PRACTICES

American News Co. and Union News Co.

Subpart—Discriminating in price under section 5, Federal Trade Commission Act: § 13.892 *Knowingly inducing or receiving discriminating payments.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, American News Company, et al., New York, N.Y., Docket 7396, January 10, 1961]

In the Matter of American News Company, The Union News Company, Corporations

Order requiring the nation's largest retail newsstand operator to cease violating section 5 of the Federal Trade Commission Act by knowingly inducing or receiving discriminatory promotional allowances from publishers of magazines it sold, which approximated \$890,000 in 1958, and which were not paid at any proportionally equal rate to a single retail competitor.

The order to cease and desist is as follows:

It is ordered. That the respondents, The American News Company and The Union News Company, corporations, their officers, employees, agents or representatives, directly or through any corporate or other device, in or in connection with the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of products for resale on newsstands operated by respondents, do forthwith cease and desist from: Inducing, receiving or contracting for the receipt of anything of value from any of their suppliers as compensation or in consideration for services or facilities furnished by or through respondents in connection with the processing, handling, sale or offering for sale of products purchased from any of their suppliers, when respondents know or should know that such compensation or consideration is not affirmatively offered or otherwise made available by such suppliers on proportionally equal terms to all of their other customers competing with respondents in the sale and distribution of such suppliers' products.

By "Final Order", report of compliance was required as follows:

It is further ordered. That the respondents shall, within sixty (60) days after service upon them of this order, file

with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: January 10, 1961.

SUBCHAPTER B—CLAIMS AND ACCOUNTS

PART 538—ALLOTMENTS OF PAY

Class Q Allotments

In § 538.13, revise paragraphs (b), (c), and (n), to read as follows:

§ 538.13 Class Q allotments.

(b) *Initiating or increasing—*(1) *Initiating.* The allotment required for any month will be based upon the lowest rate of basic allowance for quarters to which the member is entitled and the lowest pay grade in which the member is serving during such month; however, no change in allotment will be made for such month to meet this requirement.

(2) *Increasing.* If a member is promoted or acquires a dependent after the first day of the month, he will be credited with the applicable amount for basic allowance for quarters for such period, but

no change in allotment is required for that month; however, if the change results in an increase in the amount of the class Q allotment requirement, a new class Q allotment will be required, effective the first day of the following month in an applicable amount. If a member acquires a dependent on the first day of the month, or is promoted effective on the first day of the month, or both, the applicable increase in the minimum amount required to be allotted must be effective for such month instead of the first of the succeeding month. If the new dependent is also a new allottee and the allotment requirement is apportioned among the allottees, the applicable increase of basic allowance for quarters only will be authorized for payment to the new allottee for any retroactive period for which payment has been made to the other allottee. The apportionment of the allotment requirement will be effective as of the first of the month in which the document is prepared provided that the form can be submitted to reach Allotments and Deposits Operations by the 10th day of the month. If this is not practicable, the apportionment will be made effective as of the first of the following month.

(3) *Allotment more than required.* If an enlisted member desires to allot more than the amount required herein to the same payee or payees, he will do so by increasing his class Q allotment to the amount he desires, not to exceed his basic pay. The applicable rate of basic allowance for quarters will not be affected.

(c) *Discontinuing or decreasing—*(1) *General.* A retroactive discontinuance or reduction will not be processed if payment of the allotment has been made to the allottee. Any necessary adjustment will be made in the member's pay account. The total class Q allotment of an enlisted member must not be less than the amount of the class Q allotment required by the Dependents Assistance Act of 1950 to be established, except as stated in paragraph (f) of this section. The allotment may not be reduced to an amount less than that required even though such allotment when converted to foreign currency exceeds the actual requirement.

(2) *Discontinuing or decreasing.* If a member is demoted, loses a dependent, apportion the class Q allotment, or is assigned quarters, the class Q allotment form necessary to reduce or discontinue the allotment will be made effective at the end of the preceding month, provided that such forms can be submitted to reach Allotments and Deposits Operations by the 20th day of the month. If this is not practicable, the forms will be made effective at the end of the month in which the change in status occurs, or the forms are prepared.

(n) *Member in excess leave status.* Payment of the class Q allotment to the dependent will be continued in the full amount for 2 months following the month in which excess leave commences.

PART 203—BRIDGE REGULATIONS

St. Lucie Canal, Fla.

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U.S.C. 499), § 203.439 is hereby prescribed to govern the operation of the Seaboard Air Line Railroad Company bridge across St. Lucie Canal near Indiantown, Florida, effective 30 days after publication in the FEDERAL REGISTER, as follows:

§ 203.439 St. Lucie Canal, Fla.; Seaboard Air Line Railroad Company bridge near Indiantown.

(a) The owner of or agency controlling the bridge shall not be required to keep a drawtender in constant attendance or to open the drawspan between the hours of 8:00 p.m., and 6:00 a.m., except as provided in paragraph (b) of this section.

(b) Owners and operators of vessels unable to pass under the bridge in a closed position are urged to schedule their trips to pass the bridge between the hours of 6:00 a.m., and 8:00 p.m. The drawspan will be opened between the hours of 8:00 p.m., and 6:00 a.m., however, for the passage of commercial tows when it can be shown that the passage could not be scheduled during regular hours of operation without extreme inconvenience and added cost: *Provided*, That at least 3 hours' advance notice of the time at which such opening will be required is given to the Chief Dispatcher, Seaboard Air Line Railroad Company, Jacksonville, Florida.

(c) The owner of or agency controlling the bridge shall keep conspicuously posted on both sides of the bridge, in such manner that they can easily be read at any time, signs setting forth the salient features of the regulations and the current telephone number of the authorized representative specified in paragraph (b) of this section, and shall keep the Area Engineer, Corps of Engineers, Clewiston, Florida and the Locktender at St. Lucie Lock notified of the current telephone number.

[Order No. 2856]

BONNEVILLE POWER ADMINISTRATION

Negotiation of Contracts for Personal or Professional Services

SECTION 1. Delegation. The Bonneville Power Administrator is authorized, subject to section 2 of this order, to exercise the authority delegated by the Administrator of General Services to the Secretary of the Interior (24 F.R. 1921) to negotiate, without advertising, under section 302(c) (4) of the Federal Property and Administrative Services Act of 1949, as amended (41 U.S.C. 252 et seq.), contracts for professional services for industrial, economic, engineering and related studies necessary to carry out the

power planning and power marketing activities of the Bonneville Power Administration.

Sec. 2. Exercise of authority. The authority delegated by section 1 of this order shall be exercised in accordance with the applicable limitations in the Federal Property and Administrative Services Act of 1949, as amended, and in accordance with applicable policies, procedures and controls prescribed by the General Services Administration and the Department of the Interior. The authority delegated by this order does not include authority to make advance payments under section 305 of the act.

Sec. 3. Redelegation. The Bonneville Power Administrator may, in writing, redelegate or authorize written redelegation of the authority granted in section 1 of this order to a subordinate official or employee. Each such redelegation of this authority shall be published in the FEDERAL REGISTER.

STEWART L. UDALL,
Secretary of the Interior.

CERTAIN HUMANELY SLAUGHTERED LIVESTOCK

Identification of Carcasses

Pursuant to section 4 of the Act of August 27, 1958 (7 U.S.C. 1904) and the statement of policy thereunder in 9 CFR 181.1 (25 F.R. 5863) the following table lists the establishments operated under Federal inspection under the Meat Inspection Act (21 U.S.C. 71 et seq.) which were officially reported on April 1, 1961, as humanely slaughtering and handling on that date the species of livestock respectively designated for such establishments in the table. Establishments reported after April 1, as using humane methods on April 1, or a later date in April will be listed in a supplemental list. Previously published lists represented establishments reported in March or April 1961 as humanely slaughtering and handling the designated species of livestock on March 1 or some later date in March 1961 (26 F.R. 2531, 3001, 3329, and 3652). The establishment number given with the name of the establishment is branded on each carcass of livestock inspected at that establishment. The table should not be understood to indicate that all species of livestock slaughtered at a listed establishment are slaughtered and handled by humane methods unless all species are listed for that establishment in the table. Nor should the table be understood to indicate that the affiliates of any listed establishment use only humane methods:

ATOMIC ENERGY COMMISSION

[Docket No. 50-1]

ARMOUR RESEARCH FOUNDATION OF ILLINOIS INSTITUTE OF TECHNOLOGY

Notice of Issuance of Facility License Amendment

Please take notice that the Atomic Energy Commission has issued Amendment No. 2, set forth below, to License No. R-3, as amended, authorizing Armour Research Foundation of Illinois Institute of Technology to operate the Armour Research Reactor located in Chicago, Illinois at power levels up to 75 kilowatts in a stepwise manner as described in the application for license amendment. The Commission has found that conduct of the operations in accordance with the terms and conditions of the license, as amended, will not present any undue hazard to the health and safety of the public and will not be inimical to the common defense and security.

The Commission has found that prior public notice of proposed issuance of this amendment is not necessary in the public interest since operation of the facility as described in the amended application would not present any substantial change in the hazards to the health and safety of the public from those previously considered and evaluated in connection with the previously approved operation of the facility.

In accordance with the Commission's rules of practice (10 CFR, Part 2), the Commission will direct the holding of a formal hearing on the matter of issuance of the license amendment upon receipt of a request therefor from the licensee or an intervener within 30 days after the issuance of the license amendment. Petitions for leave to intervene shall be filed by mailing a copy to the Office of the Secretary, Atomic Energy Commission, Washington 25, D.C., or by delivery of a copy in person to the Office of the Secretary, Germantown, Maryland, or the AEC's Public Document Room, 1717 H Street NW., Washington, D.C.

For further details see (a) the application for license amendment by Armour Research Foundation of Illinois Institute of Technology and (b) a hazards analysis prepared by the Division of Licensing and Regulation, both on file at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of item (b) above may be obtained at the Commission's Public Document Room, or upon request addressed to the Atomic Energy Commission, Washington 25, D.C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 1st day of May 1961.

For the Atomic Energy Commission,

R. L. KIRK,
Deputy Director, Division of
Licensing and Regulation.

[License No. R-3, as amended; Amdt. 2]

1. License No. R-3, as amended, is hereby further amended to authorize Armour Re-

search Foundation of Illinois Institute of Technology (hereinafter referred to as "Armour Research Foundation") to operate the Armour Research Reactor at power levels up to 75 kilowatts in the stepwise manner and in accordance with the procedures described in Supplement No. 7 to Report NAA-AER-1135 Rev. 1, submitted with the application amendment dated January 11, 1961, and in compliance with the conditions contained in paragraph 4 of License No. R-3, as amended.

2. Paragraph 4a of License No. R-3, as amended, is amended to read as follows:

a. Armour Research Foundation shall not operate the facility at power levels in excess of 75 kilowatts until Armour Research Foundation has submitted data to substantiate the safety of operation at higher power levels and the Commission has authorized such operation by further amendment to this license.

3. Paragraph 4g is added to License No. R-3, as amended, as follows:

g. Armour Research Foundation shall promptly submit a written report to the Commission whenever, during operation of the reactor subsequent to initial criticality, any of the operating conditions or characteristics of the reactor, including those described in the application, which might affect nuclear safety, is observed to vary significantly from its predicted value.

Date of issuance: May 1, 1961.

For the Atomic Energy Commission.

R. L. KIRK,
Deputy Director,
Division of Licensing and Regulation.

[Docket No. 50-29]

YANKEE ATOMIC ELECTRIC CO.

Supplemental Order Adding Issue and Providing for Postponement of Hearing

On April 29, 1961, Yankee Atomic Electric Company (Yankee) filed a request that the hearing in this proceeding be postponed until June 8, 1961, and consented to the motion heretofore made by the Staff to enlarge the issues for consideration in this proceeding to include whether Yankee's Facility License No. DPR-3, as amended, should be further amended to increase the maximum authorized power level from 392 megawatts (thermal) to 485 megawatts (thermal).

The reason asserted by Yankee for the date of June 8, 1961, was that it is expected that all ACRS review will have been completed by that date. The Staff has interposed no objection to Yankee's request.

The Presiding Officer finds:

1. Good cause exists to enlarge the issues for consideration in this proceeding as requested and to postpone the hearing from May 12, 1961, to June 8, 1961.

Wherefore, it is ordered:

(A) This proceeding shall convene on May 12, 1961, as provided in the Notice of Hearing-issued by the Commission, but solely for the purpose of postponing the proceeding from that date to 10:00 a.m., e.d.t., on June 8, 1961, in the auditorium of the Headquarters of the Atomic Energy Commission, Germantown, Maryland.

(B) The issues prescribed for consideration by the Commission in this proceeding are enlarged to include whether Yankee's Facility License No. DPR-3, as amended, should be further amended to increase the maximum authorized power level from 392 megawatts (thermal) to 485 megawatts (thermal).

(C) This order shall be published in the FEDERAL REGISTER.

Issued: May 1, 1961, Germantown, Md.

SAMUEL W. JENSCH,
Presiding Officer.

Federal Maritime Board

[Agreement No. 13]

TRANS-ATLANTIC FREIGHT CONFERENCE (NEW YORK)

Notice of Proposed Cancellation of Agreement

Notice is hereby given that cancellation of Agreement No. 13, described be-

low, is contemplated inasmuch as such agreement has been inactive for a considerable length of time and the member lines have advised that they have no objection to the cancellation thereof:

Agreement No. 13, the Trans-Atlantic Freight Conference (New York), between various carriers in the Trans-Atlantic trade, deals with matters of local interest (New York) with respect to such trade.

Any written statements, comments or protests with respect to the cancellation of this agreement, pursuant to section 15 of the Shipping Act, 1916, or request for hearing in connection therewith, may be filed with the Secretary, Federal Maritime Board, Washington, D.C., within 20 days from the date of publication of this notice in the FEDERAL REGISTER.

Dated: May 2, 1961:

FEDERAL AVIATION AGENCY

[OE Docket No. 61-KC-33]

CONSTRUCTION OF TV ANTENNA TOWER

Notice of No Airspace Objection

The Federal Aviation Agency has circularized the following proposal to the aviation industry for comment and has conducted an aeronautical study to determine its effect upon the utilization of airspace: The Cornhusker TV Corp., operator of television station KOLN-TV, Lincoln, Nebraska, proposes to erect a television antenna structure near Heartwell, Nebraska, at latitude 40°35'20" north, longitude 98°48'10" west. The overall height of the structure would be 3,155 feet above mean sea level (1,075 feet above ground).

Positions of no objection were stated by representatives of the aviation industry, conditional upon a determination that the proposed structure would have no adverse effect upon the approved off-airway direct route between Kearney, Nebraska, and Hastings, Nebraska. The aeronautical study disclosed that the proposed structure would have no adverse effect on this direct route or upon other aeronautical operations, procedures or minimum flight altitudes.

Therefore, I find that this proposed structure at the location and mean sea level elevation specified herein, would have no adverse effect upon aeronautical operations, procedures or minimum flight altitudes and conclude that no objection thereto from an airspace utilization standpoint be interposed by the Agency, provided that the structure be obstruction marked and lighted in accordance with applicable rules and standards.

This finding will be effective upon the date of its publication in the FEDERAL REGISTER.

Issued in Washington, D.C., on May 1, 1961.

Director, Bureau of
Air Traffic Management.

[OE Docket No. 61-LA-10]

CONSTRUCTION OF SPACE NEEDLE

Notice of No Airspace Objection

The Federal Aviation Agency has circularized the following proposal to the aviation industry for comment and has conducted an aeronautical study to determine its effect upon the utilization of airspace: The Space Needle Corporation, Seattle, Washington, proposes to erect a steel tower in Seattle, Washington, to be known as the "Space Needle", at latitude 47°37'15" north, longitude 122°20'53" west. The overall height of the proposed structure would be 725 feet above mean sea level (600 feet above ground). The Space Needle would be a permanent structure. However, the purpose of its construction is to provide the central theme of a World Fair to be held in Seattle from April 1962, to October 1962, titled the "Century 21 Exposition". The tower would have a 300-seat restaurant at the 500-foot level with an observation deck above. During the exposition, a 50-foot gas flame will be burning atop the structure and the tower will be floodlighted from below. In addition, the tower would be painted in brilliant color and the proponents have agreed to provide obstruction lighting of the tower in accordance with recommended standards of the FAA.

An aeronautical objection was received in response to the circularization based on the structure's proximity to seaplane operations at Lake Union. The aeronautical study by the Agency disclosed that the proposed structure would be located approximately 1.5 statute miles southwest of the Lake Union Seaplane Base and would penetrate the conical surface of the Agency's TSO-N18 criteria by approximately 421 feet as applied to that airport. This factor in itself is not disqualifying, but indicates a requirement for aeronautical study.

The Agency study disclosed that there are three antenna towers extending to a height of 1,011 feet MSL atop Queen Anne Hill which is approximately 4,200 feet north of the proposed site. These towers exceed the above criteria by a greater amount than would the proposed structure. Three flying services operate at Lake Union. Normally, the wind is from the southwest and aircraft taking off follow the shore of the lake to exit over the Lake Washington Canal to the northwest, or over Portage Bay to the east. One operator from the lake did not object to the structure, but did object to its height. Another operator estimated approximately 100 flights per year would proceed south of Lake Union near the Space Needle site. This operator did not believe the structure would be a hazardous obstruction if visible during the day and lighted at night.

The aeronautical study further showed that the structure would have no adverse effect on instrument flight rules minimum flight altitudes, instrument approaches, missed approaches, or departure procedures. There are other structures in the area with higher mean sea level elevations which control the minimums for these procedures. The study revealed that the structure would have no substantial adverse effect upon aeronautical operations, procedures or minimum flight altitudes.

Therefore, I find that the proposed structure, at the location and mean sea level elevation specified herein, would have no substantial adverse effect upon aeronautical operations, procedures or minimum flight altitudes and conclude that no objection thereto from an airspace utilization standpoint be interposed by the Agency, provided that the structure be lighted in accordance with Specification "A-4" of this Agency's "Standards for Marking and Lighting Obstructions to Air Navigation".

This finding will be effective upon the date of publication in the FEDERAL REGISTER.

Issued in Washington, D.C., on May 2, 1961.

N. E. HALABY,
Administrator.

FEDERAL POWER COMMISSION

[Docket Nos. RI61-466—RI61-474]

J. E. JONES DRILLING CO. ET AL.

Order Providing for Hearings on and Suspension of Proposed Changes in Rates,¹ and Allowing Rate Changes To Become Effective Subject to Refund

APRIL 28, 1961.

J. E. Jones Drilling Company (Operator), et al., Docket No. RI61-466; J. H. Vandenberg (Operator), et al., Docket No. RI61-467; The Atlantic Refining Company, Docket No. RI61-468; United Producing Company, Inc. (Operator), et al., Docket No. RI61-469; Continental Oil Company, Docket No. RI61-470; The Pure Oil Company, Docket No. RI61-471; Continental Oil Company (Operator), et al., Docket No. RI61-472; John M. Kelly (Operator), et al., Docket No. RI61-473; J. E. Jones Drilling Company, Docket No. RI61-474.

The above-named Respondents have tendered for filing proposed changes in presently effective rate schedules and one new rate schedule, for sales of natural gas subject to the jurisdiction of the Commission. In each filing the natural gas is sold at 14.65 psia, with the exception of Continental Oil Company, Rate Schedule No. 185 and Supplement No. 1 thereto, which is sold at 15.025 psia.

The proposed changes are designated as follows:

¹³ Decrease.

The increased rates and charges so proposed may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the several proposed changes and that the above-designated rate supplements and Continental Oil Company's FPC Rate Schedule No. 185 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:
 (A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), public hearings shall be held upon dates to be fixed by notices from the Secretary concerning the lawfulness of the several proposed changes and that

the above-designated rate supplements and Continental Oil Company's FPC Rate Schedule No. 185 be suspended and the use thereof deferred as hereinafter ordered.

(B) Pending hearings and decisions thereon, the above-designated rate supplements and Continental Oil Company's FPC Rate Schedule No. 185 are hereby suspended and the use thereof deferred until the date indicated in the above "Rate Suspended Until" column, and thereafter until such further time as they are made effective in the manner prescribed by the Natural Gas Act: *Provided, however,* That Supplement Nos. 5 and 3 to Continental Oil Company's FPC Gas Rate Schedule Nos. 146 and 163 respectively; Supplement Nos. 13, 9, and 5 to Continental Oil Company (Operator) et al.'s FPC Gas Rate Schedules Nos. 85, 109 and 145 respectively; Supplement Nos. 10, 8, 1 to 8, 9, 9, and 3 to The Pure Oil Company's FPC Gas Rate Schedules Nos. 26, 31, 31, 1, 3, and

28 respectively; and Continental Gas Company's FPC Gas Rate Schedule No. 185, shall become effective on the date and in the manner herein prescribed if within 20 days from the date of the issuance of this order the respective Respondents shall each execute and file under its respective above-designated docket numbers with the Secretary of the Commission its agreement and undertaking to comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder, accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedules involved. Unless the Respondents are advised to the contrary within 15 days after the filing of such agreements and undertakings, their respective agreements and undertakings shall be deemed to have been accepted.

(C) Neither the rate supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be

changed until these proceedings have been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)), on or before June 13, 1961.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3965]

MISSOURI EDISON CO.

Notice of Proposed Issuance of First Mortgage Bonds

MAY 1, 1961.

Notice is hereby given that Missouri Edison Company ("Missouri Edison") Louisiana, Mo., a public-utility company and a subsidiary company of Union Electric Company, a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a) and 7 of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction.

All interested persons are referred to the application, on file at the office of the Commission, for a statement of the transaction therein proposed which is summarized as follows:

Missouri Edison proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, \$2,000,000 principal amount of First Mortgage Bonds, Series C. The bonds will be issued under an Indenture of Mortgage or Deed of Trust dated July 1, 1945, to The Boatmen's National Bank of St. Louis, as Trustee, as heretofore supplemented and as to be further supplemented by a Second Supplemental Indenture to be dated as of June 1, 1961. The interest rate on the new bonds (which will be a multiple of $\frac{1}{8}$ of 1 percent and the price, exclusive of accrued interest, to be paid to Missouri Edison (which will be not less than the principal amount of the bonds nor more than 102 $\frac{1}{4}$ percent thereof) will be determined by the competitive bidding.

The sale of the new bonds by Missouri Edison will provide funds to retire \$1,500,000 face amount of short-term notes payable to banks issued for capital expenditures heretofore made, to finance in part the cost of continuing additions and improvements to its utility plant, and for other corporate purposes. The company expects construction expenditures during 1961 and 1962 to aggregate approximately \$1,876,000.

A statement of estimated fees and expenses in connection with the sale of the new bonds is to be filed by amendment.

The application states that the issue and sale of the new bonds must be authorized by the Public Service Commission of Missouri (the State commission of the State in which Missouri Edison is organized and doing business), that an application for such authorization is being filed with that commission, and that no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than May 31, 1961, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

NEW ORLEANS PUBLIC SERVICE, INC., AND MIDDLE SOUTH UTILITIES, INC.

Notice of Filing of and Order for Hearing on Plan; Order Instituting Proceeding and Order Consolidating Proceedings

MAY 1, 1961.

In the matters of New Orleans Public Service Inc., Middle South Utilities, Inc., File No. 59-107; Middle South Utilities, Inc., File No. 54-232.

I. Notice is hereby given that Middle South Utilities, Inc. ("Middle South"), of New York, New York, a registered holding company, has filed a plan pursuant to section 11(e) of the Public Utility Holding Company Act of 1935 ("Act") providing for the exchange of shares of its common stock for the 3.18 percent publicly-held shares of common stock of New Orleans Public Service Inc. ("New Orleans"), New Orleans, Louisiana, a public-utility subsidiary company of Middle South, on the basis of 2 $\frac{3}{4}$ shares of common stock of Middle South for each share of common stock of New Orleans. All interested persons are referred to the plan, on file at the principal office of the Commission, for a full statement of the provisions and details thereof. A copy of the plan may be obtained by any person affected thereby, upon request, from New Orleans Public Service Inc., 317 Baronne Street, New Orleans 9, Louisiana.

II. The Commission having been advised by its Division of Corporate Regulation ("Division") that the Division, pursuant to sections 11(a), 18(a), and 18(b) of the Act, has made a preliminary examination of the corporate structure of New Orleans and the relationship between New Orleans and the other companies in the Middle South holding-company system; and it appearing to the Division from such examination that:

1. Middle South, which was incorporated under the laws of the State of Florida in 1949, is solely a holding company and is registered as such under section 5 of the Act.

2. As of December 31, 1960, the outstanding securities of Middle South consisted of 16,750,000 shares of \$10 par value common stock and \$5,000,000 principal amount of short-term notes payable to banks, bearing interest at 4 $\frac{1}{2}$ percent per annum. The holders of the common stock are entitled to one vote per share, to cumulate their votes in the election of directors, and to dividends when and as declared by the board of directors.

3. As of December 31, 1960, New Orleans had issued and outstanding, among other securities, 1,420,529.78 shares of no par value common stock of which 1,375,330 shares (96.82 percent) were held by Middle South and 45,199.78 shares (3.18 percent) were held by members of the general public. The holders of the New Orleans common stock are entitled to one vote per share in the election of directors.

4. New Orleans is engaged in the distribution and sale of electricity and natural gas in the City of New Orleans, Louisiana, and in rendering transportation service in that City and environs.

5. As of December 31, 1960, the property, plant, and equipment of New Orleans, as stated on its books, aggregated \$175,661,608, and the net amount of such property, plant, and equipment, after deduction of reserves for retirements, aggregated \$126,751,787.

6. For the year ended December 31, 1960, the operating revenues of New Orleans totaled \$59,880,747, of which 61.4 percent were from sales of electricity, 22.9 percent from sales of gas, and 15.7 percent from transportation services.

7. During the year ended December 31, 1960, New Orleans generated 1,923,618 M kwh. of electric energy and received 374,424 M kwh. of electric energy from Louisiana Power & Light Company, an associate company, under a power interchange agreement. During the same period, New Orleans delivered 480,385 M kwh. of electric energy to Louisiana Power & Light Company under such agreement.

III. The Division avers that the foregoing allegations establish or tend to establish that voting power is unfairly and inequitably distributed among the security holders of New Orleans.

IV. It being the duty of the Commission, pursuant to section 11(b)(2) of the Act, to require by order, after notice and opportunity for hearing, that each registered holding company and each subsidiary company thereof take such steps as the Commission shall find neces-

sary to ensure that the corporate structure or continued existence of any company in a holding-company system does not, among other things, unfairly or inequitably distribute voting power among security holders of such holding-company system; and

The Commission being required by the provisions of section 11(e) of the Act, before approving any plan filed thereunder, to find, after notice and opportunity for hearing, that such plan, as submitted or as modified, is necessary to effectuate the provisions of section 11(b) and is fair and equitable to the persons affected thereby; and

The Commission deeming it appropriate that notice be given and a hearing held for the purpose of determining what action should be ordered under section 11(b) (2) and for the purpose of ascertaining whether the plan should be approved; and

It appearing that common issues of fact and law arise in connection with the plan and in connection with the issues involved under section 11(b) (2), making it appropriate that the two proceedings be consolidated and that Middle South and New Orleans should be made parties to the consolidated proceeding:

It is hereby ordered:

(a) That a proceeding be, and the same hereby is, instituted in respect of Middle South and New Orleans pursuant to section 11(b) (2) of the Act.

(b) That said proceeding be, and the same hereby is, consolidated with the proceeding in connection with the plan of Middle South.

(c) That Middle South and New Orleans be, and they hereby are, made parties to said consolidated proceeding.

(d) That Middle South and New Orleans file an answer or answers with the Secretary of the Commission on or before June 1, 1961, to the allegations contained in Parts II and III hereof, in the form prescribed by Rule 25 of the general rules and regulations under the Act. Any of such allegations which are not denied or otherwise controverted shall be deemed to be admitted for the purpose of this proceeding.

It is further ordered, That the hearing in the consolidated proceeding be held on June 14, 1961, at 10:00 a.m., at the office of the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D.C., in such room as may be designated on such date by the hearing room clerk. Any persons desiring to be heard in connection with this proceeding or proposing to intervene therein shall file with the Secretary of the Commission, on or before June 6, 1961, a written request relative thereto as provided in Rule 9 of the Commission's rules of practice.

It is further ordered, That Irving Schiller or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matters. The officer so designated to preside at any such hearing is hereby authorized to exercise all the powers granted to the Commission under section 18(c) of said Act and to a hearing officer under the Commission's rules of practice.

The Division having advised the Commission that, upon the basis of its preliminary examination of the affairs and of the corporate structures of Middle South and New Orleans and of a preliminary study of said plan of Middle South, the following matters and questions are presented for consideration at such hearing, without prejudice, however, to the presentation of additional matters and questions upon further examination:

1. Whether the allegations contained in Parts II and III hereof are true and correct;

2. Whether the corporate structure of New Orleans unfairly and inequitably distributes voting power among the security holders of the Middle South holding-company system, and, if so, what steps, if any, are necessary and should be required to be taken by Middle South and New Orleans to distribute fairly and equitably the voting power among the security holders of the Middle South holding-company system.

3. Whether the plan of Middle South, as submitted or as it may be modified or amended, is necessary to effectuate the provisions of section 11(b) (2) of the Act;

4. Whether the plan is fair and equitable to the persons affected thereby;

5. Whether, in general, the transactions proposed in the plan satisfy the applicable provisions of the Act; and

6. Whether the accounting entries proposed to be made in connection with the plan are proper and in accord with sound accounting principles.

It is further ordered, That at said hearing evidence shall be adduced with respect to the foregoing matters and questions.

It is further ordered, That jurisdiction be, and it hereby is, reserved to separate in whole or in part, either for hearing or for disposition any issues or questions which may arise in these proceedings and to take such other action as may appear conducive to an orderly, prompt, and economical disposition of the matters involved.

It is further ordered, That the Secretary of the Commission shall serve notice of such hearing by mailing a copy of this order by registered mail to Middle South and New Orleans, to the Federal Power Commission, and to the Council of the City of New Orleans and that said notice of said hearing be given to all other interested persons by a general release of the Commission and by publication of this order in the FEDERAL REGISTER.

It is further ordered, That Middle South mail a copy of this notice and order to all stockholders of record of New Orleans at least thirty days prior to the date herein fixed as the date for hearing and that this notice and order be published by Middle South on or prior to May 15, 1961, in a newspaper of general circulation in the City of New Orleans, Louisiana.

By the Commission.
