Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 1, Amdt. 1]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

Order, as amended. The provisions in paragraph (b) (1) (i) and (ii) of § 910.301 (Lemon Regulation 1, 27 F.R. 166) are hereby amended to read as follows:

- (i) District 1: 23,250 cartons;
- (ii) District 2: 176,700 cartons.

PART 990—CENTRAL CALIFORNIA GRAPES FOR CRUSHING

Establishment of Handler Charges

Notice was published in the November 8, 1961, issue of the FEDERAL REGISTER (26 F.R. 10516), that there was under consideration a proposal to establish a schedule of charges which handlers may deduct from any monies owed by them to producers (or their successors in interest) as compensation for costs incurred by the handlers in connection with setaside under Marketing Agreement No. 133 and Order No. 990 (7 CFR Part 990; 26 F.R. 7797), hereinafter referred to collectively as the "order", regulating the handling of Central California grapes for crushing. This marketing order program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

Said notice afforded interested persons a 14-day period (which was to have expired December 1, 1961) to submit written data, views, or arguments pertaining to the proposal. The period prescribed in said notice for the receipt of such comments was extended on November 22, 1961 (26 F.R. 10933), to expire December 15, 1961, and further extended on December 14, 1961 (26 F.R. 11982), to expire January 4, 1962.

After consideration of all relevant matters presented, including the committee's recommendations, said handler charges are hereby established for the period August 26, 1961-June 30, 1962, as follows:

§ 990.401 Establishment of charges to compensate handlers for receiving, processing, storing and certain other costs relating to setaside of the 1961-62 crop year.

(a) *Costs.* Each handler who incurs a setaside obligation during the period beginning on August 26, 1961, and ending on June 30, 1962, and sets aside proof gallons of products, or the concentrate equivalent thereof, in accordance with volume regulation in effect under §§ 990.54 and 990.203, shall be compensated as provided in paragraph (b)

of this section, for the cost items pertaining to such setaside that are set forth below.

(1) Costs of receiving, processing, and storing, and other costs including:

- (i) Sugar testing,
- (ii) Maintenance and care,
- (iii) Insurance, computed on the product at the rate of \$20.00 per ton for an equivalent quantity of fresh grapes at 21 degrees Balling, or the maximum value allowed by carriers for insurance purposes, whichever is less,
- (iv) County taxes,
- (v) Loading out for delivery to the Grape Crush Administrative Committee, or its designee, for ultimate disposition, and

(vi) The processing of dessert wine to a condition which is acceptable for interwinery sales.

(b) *Establishment of charges—(1) Grapes for crushing, other than raisin residual material.* Each handler may deduct from money owed any producer (or his successor in interest) the amount of \$12.00 per ton for each ton of that quantity of grapes for crushing obtained by applying the surplus percentage for the crop year established by § 990.203, adjusted to any subsequent reduction of such percentage, to the total receipts of grapes for crushing from such person during the period beginning on August 26, 1961, and ending on June 30, 1962, at premises within the State of California controlled or operated by such handler. The sum of \$12.00 shall include compensation for all cost items specified in paragraph (a) of this section. Of such amount, \$8.50 per ton shall constitute the charge for costs incurred during the period August 26, 1961-June 30, 1962; and \$3.50 per ton shall constitute the charge for the cost of storage and for such of the costs specified in paragraph (a) (2) of this section as may be applicable, incurred during the crop year beginning on July 1, 1962. For the purposes of this subparagraph only, "total receipts of grapes for crushing" shall not include (i) sweepings or other residual material from raisin processing, and (ii) those varieties of grapes for crushing exempted by § 990.202 from volume regulation for the said period.

(2) *Grapes for crushing—raisin residual material.* [Reserved]

It is hereby found and determined that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 1003(c)) in that: (1) The order became effective August 26, 1961, and beginning with that date handlers have been incurring setaside obligations on grapes for crushing, other than those exempted from volume regulation by § 990.202; (2) handlers have been incurring expenses of receiving, processing, storing and other costs of setaside in satisfaction of such obligations; (3) authorization contained herein for handlers to deduct said charges will auto-

matically apply from August 26, 1961, and (4) no advance preparation by handlers is required to comply with this subpart.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: January 11, 1962, to become effective upon publication in the FEDERAL REGISTER.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable
Division, Agricultural Marketing Service.

Chapter V—Federal Home Loan Bank Board

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

[No. 15357]

PART 545—OPERATIONS

Fixing of Determination Date

JANUARY 11, 1962.

Resolved that the Federal Home Loan Bank Board, upon the basis of consideration by it of the advisability of amendment of § 545.1-1 of the rules and regulations for the Federal Savings and Loan System (12 CFR 545.1-1) as hereinafter set forth, and for the purpose of effecting said amendment, hereby amends said § 545.1-1 as follows, effective immediately:

Paragraph (d) of said section is hereby amended to read as follows:

(d) *Determination date.* For the purpose of computing earnings for distribution on savings accounts, the board of directors of a Federal association which has a charter in the form of Charter N or Charter K (rev.) may, after adoption of a resolution so providing and while such resolution remains in effect, fix a date, not later than the twentieth of the month, for determining the date of investment of payments on savings accounts or designated classes thereof: *Provided*, That, prior to June 30, 1963, no such Federal association may fix as such date a date later than the tenth of the month if it is a date which building and loan or savings and loan associations, homestead associations, cooperative banks, and mutual savings banks in the State, district, or territory (including Puerto Rico, Guam, and the Virgin Islands) in which the home office of such Federal association is located are prohibited by the laws of such State, district, or territory from fixing as such date, except that such a Federal association may fix as such date a date not later than the fifteenth of the month if its home office is located in a State, district, or territory the laws of which expressly provide that building and loan or savings and loan associations, homestead associations, cooperative banks, or mutual savings banks may fix as such date a date not later than the tenth business day of the month. Payments, affected by such determination date, received by the association on or before such determination date shall receive earnings as if invested on the first of such month; payments, affected by such determination date, received subsequent to such determination date shall receive earnings as if invested on the first of the next succeeding month.

(Sec. 5, 48 Stat. 182, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1947 Supp.)

Resolved further that, as the Board for good cause finds and determines that notice and public procedure herein are impracticable under the provisions of section 4(a) of the Administrative Procedure Act, because due and timely execution of its functions require the immediate amendment of paragraph (d) of said § 545.1-1 so as to give effect, for the present, to state laws in several states which prohibit determination dates as early as that provided for in the existing regulation, and for the same reason the Board finds and determines for good cause that deferment of the effective date of such amendment is impractical and that, under the circumstances, notice and public procedure under section 4(a) of said Act, and deferral of the effective date under section 4(c) of said Act, are not required.

By the Federal Home Loan Bank Board.

[SEAL] HARRY W. CAULSEN,
Secretary.

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 1013; Amdt. 385]

PART 507—AIRWORTHINESS DIRECTIVES

Boeing 707/720 Series and Douglas DC-8 Series Aircraft

Pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), an airworthiness directive was adopted on December 22, 1961, and made effective immediately because of the safety emergency involved as to all known United States operators of Boeing 707/720 Series and Douglas DC-8 Series aircraft equipped with Pratt and Whitney JT3D-3 turbofan engines. Due to recent failures of P/N 393504 fourth stage compressor rotor disc, the amendment required that the disc be inspected for cracks and if cracks were found, the engine was to be removed for disc replacement prior to further flight.

Since it was found that immediate corrective action was required in the interest of safety, notice and public procedure thereon were impracticable and contrary to the public interest and good cause existed for making the airworthiness directive effective immediately as to all known U.S. operators of Boeing 707/720 Series and Douglas DC-8 Series aircraft equipped with Pratt and Whitney JT3D-3 turbofan engines by individual telegrams dated December 22, 1961. Since these conditions still exist, the airworthiness directive is hereby published in the FEDERAL REGISTER as an amendment to § 507.10(a) of Part 507 (14 CFR Part 507), to make it effective as to all persons. The provision of paragraph B of the telegraphic directive has been revised in this amendment to clarify the compliance requirement for engines with less than 200 hours' time in service.

BOEING AND DOUGLAS. Applies to all 707/720 Series and DC-8 Series aircraft equipped with Pratt and Whitney JT3D-3 turbofan engines.

Compliance required as indicated.

(a) For engines previously inspected by the procedure described in paragraph (c), reinspect in accordance with paragraph (c) every 225 hours' time in service thereafter.

(b) For engines not previously inspected by the procedure described in paragraph (c) inspect in accordance with paragraph (c) as follows:

(1) Inspect engines with 200 or more hours' time in service within the next 25 hours' time in service and every 225 hours' time in service thereafter.

(2) Inspect engines with less than 200 hours' time in service by the time 225 hours' time in service have been accumulated and every 225 hours' time in service thereafter.

(c) Due to recent failures of P/N 393504 fourth stage compressor rotor disc, inspect the disc for cracks adjacent to the inside edge of the tie bolt circular rib in the disc web. Such cracks may progress along the inside of the rib and then toward the disc bore through the bore stiffening section.

To accomplish the inspection, remove the front accessory drive support assembly (NI

gearcase) and the front accessory drive main spur gear (N1 gearcase coupling). Using a strong light and borescope or similar optical device, visually inspect the fourth stage compressor rotor disc in the area noted above. If any cracking is found, the engine must be removed for disc replacement prior to further flight.

(Pratt and Whitney Aircraft telegraphic message of December 19, 1961, covers the same subject.)

This amendment shall become effective upon publication in the FEDERAL REGISTER for all persons except those to whom it was made effective immediately by telegram dated December 22, 1961.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on January 9, 1962.

Acting Director,
Flight Standards Service.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER C—DRUGS

PART 146a—CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS.

PART 146b—CERTIFICATION OF STREPTOMYCIN (OR DIHYDROSTREPTOMYCIN) AND STREPTOMYCIN- (OR DIHYDROSTREPTOMYCIN-) CONTAINING DRUGS

Miscellaneous Amendments

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and delegated to the Commissioner of Food and Drugs by the Secretary (25 F.R. 8625), the regulations for certification of antibiotic and antibiotic-containing drugs (21 CFR

146a.67, 146b.106) are amended as follows:

1. Section 146a.67 *Procaine penicillin in streptomycin sulfate solution*; * * *, is amended in the following respects:

a. In the conclusion to paragraph (a), the words "by § 146b.101(a)" and "by § 146b.106(a)" are changed to read "by §§ 146b.101(a) or 146b.106(a)" and "by §§ 146b.103(a) or 146b.106(a)", respectively. As amended, the conclusion to paragraph (a) reads as follows:

The procaine penicillin used conforms to the requirements prescribed by § 146a.44(a). The streptomycin sulfate used conforms to the requirements prescribed by § 146b.101(a) or § 146b.106(a) of this chapter. The dihydrostreptomycin sulfate used conforms to the requirements prescribed by § 146b.103(a) or § 146b.106(a) of this chapter. Each other substance used, if its name is recognized in the U.S.P. or N.F., conforms to the standards prescribed therefor by such official compendium.

b. Paragraph (d) (3) (iii) is amended by adding thereto the following new sentence: "If the streptomycin or dihydrostreptomycin used in making the batch is a solution of the drug, the person who requests certification shall dry a sufficient quantity of the solution to meet these sample requirements."

2. Section 146b.106 *Streptomycin sulfate solution*; * * *, is amended in the following respects:

a. Paragraph (d) (2) (ii) is changed to read as follows:

(ii) The streptomycin or dihydrostreptomycin sulfate used in making the batch; potency on dry basis and crystallinity if it is crystalline dihydrostreptomycin sulfate.

b. Paragraph (d) (3) (iii) is changed to read as follows:

(iii) The streptomycin or dihydrostreptomycin used in making the batch; one immediate container, unless it is crystalline dihydrostreptomycin, in which case the sample shall consist of three immediate containers. Each immediate container shall contain approximately 0.5 gram of the dried drug packaged in accordance with the requirements of § 146b.101(b). If the streptomycin or dihydrostreptomycin used in making the batch is a solution of the drug, the person who requests certification shall dry a sufficient quantity of such solution for potency testing on the dry basis.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since the amendments are a relaxation of existing requirements, in that they provide certification procedure to cover alternative methods of manufacture for certain antibiotic drugs. I also find that such changes in manufacture do not alter the safety and efficacy of these drugs, conditions pertinent to their certification under section 507 of the Federal Food, Drug, and Cosmetic Act.

Effective date. This order shall be effective 30 days from the date of its publication in the FEDERAL REGISTER.

(Sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357)

Dated: January 10, 1962.

Commissioner of Food and Drugs.

In order to retain an established ROTC unit, each institution must continuously meet the following requirements:

5. Revise § 562.25 to read as follows:
§ 562.25 Training of nonenrolled students.

Students who meet the requirements for enrollment prescribed in §§ 562.21 through 562.24 will not be authorized to pursue the ROTC courses under the provisions of this section. Students who are ineligible for enrollment or who do not fulfill the requirements for enrollment may pursue ROTC training under the authority of this section only if they are within one of the following categories. The provisions of paragraphs (a) and (f) of this section are applicable to all divisions of the ROTC:

(a) A noncitizen may be permitted to participate in ROTC training, and unclassified ROTC training materials may be disclosed to him, subject to subparagraph (1) or (2) of this paragraph:

For this purpose each student will obtain a letter from the representative of his government in Washington, D.C., stating that there is no objection to the student receiving ROTC training. The PMS will retain the original of the letter in the student's 201 file and forward a copy for file to the Office of the Assistant Chief of Staff, G2, in the Army area in which the institution is located. If the PMS is in doubt regarding the maintenance of friendly relations between the United States and another country, he will forward all papers to the next higher headquarters for decision.

(b) At class HS, class MI and class MJC institutions, students under 14 years of age may pursue ROTC courses only under the provisions of this section.

(c) A student who meets requirements for enrollment in the senior division except for a requirement for which a request for waiver is submitted to higher authority may be permitted to pursue the course until a determination is made. Upon receipt of such determination, one of the following actions will be taken:

(2) A student whose request for waiver is not favorably considered will not be authorized to pursue the course at the discretion of the PMS only for the remainder of that semester, provided the student requires the academic credit toward graduation.

(d) A student who is found medically disqualified for initial or continued

enrollment in the senior division, when his condition is considered remediable, or subject to reexamination within a specified period may pursue the course until final determination is made, see paragraph (g) of this section. However, if the student is already enrolled, he will be disenrolled and informed in writing of his disenrollment, as prescribed by the provisions of § 562.29a.

(e) Except students who are excluded from pursuing the ROTC courses for loyalty reasons (§ 562.24), any student attending a class MC institution who is ineligible for enrollment or does not meet enrollment requirements may pursue the course, if desired by the PMS and institutional authorities, under the following conditions:

(1) The student load must be within the capability of the ROTC instructor group. No authority exists for the assignment of additional military instructors for nonenrolled students.

(2) There must be no loss in effectiveness of military instruction and training.

(3) If DA Form 134 (Military Training Certificate—Reserve Officers' Training Corps) is presented to the student upon completion of his ROTC training, notation will be made thereon that the student participated in ROTC training in a "nonenrolled status." See § 562.9d.

(f) Pursuance of ROTC training other than in an enrolled status or under the provisions of this paragraph is not authorized. There is no provision for "provisional" or "informal" enrollment, or similar terms.

(g) Individuals, who have successfully completed MS I through MS IV training requirements (including or excluding summer camp training), and whose medical disqualifications have been determined to be remediable or subject to reexamination, may be retained in an eligible appointment status pending acceptable correction of identified medical defect. The students will not be authorized a period in excess of 18 months after graduation to meet medical requirements for appointment. Such students will be reported on DA Form 130 as prescribed in paragraph (h) (4) of this section.

(h) Any student authorized to pursue ROTC training in accordance with the provisions of this section will be subject to the following conditions:

(i) Title 10, United States Code, section 773, as amended, authorizes a student permitted to pursue the course (not enrolled) to wear the ROTC uniform while attending the course of instruction.

This provision does not include students denied enrollment because of refusal to sign the loyalty oath (§ 562.23). The uniform may be purchased by the institution or with the student's own funds. The students may wear the Army Green uniform while pursuing a course in which the enrolled students are permitted to wear the Army Green uniform. A foreign national may wear the Army Green uniform during his participation in ROTC training, provided:

(1) The uniform is purchased by the institution.

(2) The uniform remains the property of the institution.

(3) The student returns the uniform to the institution when he completes his ROTC training or withdraws therefrom.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[FCC 62-38]

PART 4—EXPERIMENTAL, AUXILIARY, AND SPECIAL BROADCAST SERVICES

Miscellaneous Amendments

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 3d day of January 1962;

The Commission on October 18, 1961, after conducting the rule making thereon adopted a second memorandum opinion and order in Docket No. 13928 containing a revision of Subparts A and B of Part 2 of its rules primarily to conform them to the Geneva Radio Regulations (1959).

The editorial changes set forth below are now necessary in Part 4 of our rules to make them consistent with the Geneva Radio Regulations and the recently adopted changes in Part 2. Because rule making has already been conducted in Docket No. 13928 and the changes in Part 4 are simply to conform them to the results of that rule making, they are editorial in nature and pursuant to the provisions of section 4 of the Administrative Procedure Act additional rule making thereon is unnecessary.

Authority for adoption of the amendments herein is found in section 4 (i) and (j) and 305 of the Communications Act of 1934, as amended.

Accordingly, it is ordered, That effective January 3, 1962, the Commission's rules are amended as set forth below.

Released: January 8, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

1. Section 4.161 is amended to read as follows:

§ 4.161 Frequency tolerance.

The licensee of an experimental television broadcasting station shall maintain the operating frequency of its station within the tolerance specified in the instrument of authorization.

2. Section 4.261 is amended to read as follows:

§ 4.261 Frequency tolerance.

The lands in T. 29 N., R. 11 E., are located 10 miles west of the village of Questa, New Mexico, and are accessible over graded and primitive roads. The soils are light to medium in texture, and the topography is smooth to moderately undulating with a moderate upslope from south to north. The extreme north end of the section is on a hillside. The vegetation consists chiefly of grama grass, white and other sage, blade grass, and a few scrub trees of no commercial value.

The lands in T. 8 N., R. 9 W., are located 16 miles southeast of the town of Grants, New Mexico. The soils are sandy loam and are subject to wind and gully erosion. The topography is flat to rolling with rocky slopes. Three gullies cross the tract varying from wide and shallow to narrow and very deep. Vegetation consists of grama grasses, Russian Thistle, chamisa, galleta, little bluestem, Apache plume, pinon, cedar, and juniper of no commercial value.

The lands in T. 6 N., R. 10 W., are located approximately 27 miles south of Grants, New Mexico. The southwest corner of the parcel is gently sloping and has a fair vegetative cover, whereas the remainder is primarily rocky mesa tops broken by a southward trending canyon which develops into an arroyo approximately 30 feet deep. The primary vegetative cover on the gently sloping part is grama grass, chamisa, and rabbit brush; the remainder is in juniper, cedar, and pinon with a few scattered Ponderosa Pine of no commercial value.

The public lands affected by this order are hereby restored to the operation of the public land laws, subject to any valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law, rules and regulations.

Inquiries and applications concerning the above lands shall be addressed to the Manager, Land Office, Bureau of Land Management, P.O. Box 1251, Santa Fe, New Mexico.
