How to Find U.S. Statutes and U.S. Code Citations

This pamphlet contains typical legal reference situations which require further citing. Official published volumes in which the citations may be found are shown alongside each reference—with suggestions as to the logical sequence to follow in using

them to make the search. Additional finding aids, some especially useful in citing current material, also have been included. Examples are furnished at pertinent points and a list of reference titles, with descriptions, is carried at the end.

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 722—COTTON

Subpart—1966 Crop of Upland Cotton; Acreage Allotments and Marketing Quotas

The following subpart to Part 722 is added to read as follows:

Sec.	
722.264	Basis and purpose.
722.265	National marketing quota in bales.
722.266	National allotment in acres.
722.267	National reserve.
722.268	Apportionment of national allotment and national reserve to States.
722.269	Referendum date.

AUTHORITY: The provisions of this subpart issued under secs. 301, 342, 343, 344, 375, 52 Stat. 38, as amended; 63 Stat. 670, as amended; 52 Stat. 66, as amended; 7 U.S.C. 1301, 1342, 1343, 1344, 1375.

§ 722.264 Basis and purpose.

(a) The provisions of this section and §§ 722.265 to 722.269 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended (52 Stat. 31, as amended; 7 U.S.C. 1281 et seq.) (referred to as the "act"). These provisions announce findings with respect to the total supply and the normal supply of upland cotton for the marketing year beginning August 1, 1965, and proclaim upon the basis of such findings, a national marketing quota in bales and a national allotment in acres for the 1966 crop of upland cotton. The national reserve and the apportionment of the national allotment and the national reserve to the States are also established under these provisions. The date for holding the referendum pursuant to section 343 of the act is also established. The term "upland cotton" (referred to as "cotton") does not include extra long staple cotton described in section 347(a) of the act or similar types of extra long staple cotton which are imported. The findings and determinations of the Secretary in this section and §§ 722.265 to 722.269 have been made on the basis of the latest available statistics of the Federal Government.

(b) Notice that the Secretary was preparing to determine whether a national marketing quota and national allotment would be required under the act for the 1966 crop of cotton and with respect to the establishment of State and county allotments, the national reserve and the

establishment of the date for holding the referendum was published in the FEDERAL REGISTER on September 22, 1965 (30 F.R. 12079), in accordance with section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003). No written submissions were received in response to such notice.

(c) Since this subpart contains proclamations required by section 342 of the act to be made not later than October 15, 1965, and since the apportionment of the national allotment and national reserve to the States requires immediate action by the Agricultural Stabilization and Conservation State and County Committees, it is essential that this section and §§ 722.265 to 722.269 be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the 30-day effective date requirement of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest and this section and §§ 722.265 to 722.269 shall be effective upon filing this document with the Director, Office of the Federal Register.

§ 722.265 National marketing quota in bales.

(a) *Finding of total supply.* As defined in section 301 of the act, the "total supply" of cotton for the marketing year beginning August 1, 1965 (in terms of running bales or the equivalent), consists of the sum of (1) "carryover" on August 1, 1965, (2) estimated production from the 1965 crop of cotton, and (3) estimated imports into the United States during the marketing year beginning August 1, 1965. The following finding of total supply is hereby made by the Secretary:

(i) Total supply of cotton for the marketing year beginning August 1, 1965, in running bales or equivalent:

	Bales
(a) Carryover	13,851,000
(b) Estimated production.....	15,050,000
(c) Estimated imports.....	35,000
Total supply.....	28,936,000

(b) *Finding of normal supply.* As defined in section 301 of the act, the "normal supply" of cotton for the marketing year beginning August 1, 1965 (in terms of running bales or equivalent), consists of the sum of (1) estimated domestic consumption for the marketing year beginning August 1, 1965, (2) estimated exports during the marketing year beginning August 1, 1965, and (3) 30 percent of the sum of such estimated domestic consumption and estimated exports as an allowance for carryover. The following finding of normal supply is hereby made by the Secretary:

(i) Normal supply of cotton for the marketing year beginning August 1, 1965, in running bales or equivalent:

	Bales
(a) Estimated domestic consumption	9,300,000
(b) Estimated exports.....	4,200,000
(c) 30 percent allowance for carryover	4,050,000
Normal supply.....	17,550,000

(c) *Proclamation of national marketing quota.* It is hereby determined and proclaimed by the Secretary that the total supply of cotton for the marketing year beginning August 1, 1965, will exceed the normal supply of cotton for such marketing year. Therefore, a national marketing quota shall be in effect for the crop of cotton produced in the calendar year 1966.

(d) *Proclamation of amount of national marketing quota in bales.* Section 342 of the act provides that the amount of the national marketing quota for the 1966 crop of cotton (in terms of standard bales of 500 pounds gross weight) shall be the largest of the following:

(1) The number of bales of cotton adequate, together with (i) the estimated carryover at the beginning of the 1966-67 marketing year, and (ii) the estimated imports during the 1966-67 marketing year, to make available a normal supply of cotton.

(2) The number of bales of cotton equal to the estimated domestic consumption and estimated exports (less estimated imports) for the 1966-67 marketing year, except that the Secretary shall make such adjustment in the amount of such quota as he determines necessary after taking into consideration the estimated stocks of cotton in the United States (including the qualities of such stocks) and stocks in foreign countries which would be available for the marketing year for which the quota is being proclaimed if no adjustment of such quota is made hereunder, to assure the maintenance of adequate but not excessive stocks in the United States to provide a continuous and stable supply of the different qualities of cotton needed in the United States and in foreign cotton consuming countries and for purposes of national security; but the Secretary, in making such adjustments, may not reduce the national marketing quota below one million bales less than the estimated domestic consumption and estimated exports for the 1966-67 marketing year.

(3) Ten million bales of cotton.

(4) The number of bales of cotton required to provide a national allotment of 16 million acres for the 1966 crop of cotton.

It is hereby determined and proclaimed that the national marketing quota for the 1966 crop of cotton (in terms of standard bales of 500 pounds gross weight) shall be 15,267,000 bales (rounded to nearest 1,000 bales) based on a

minimum national allotment of 16 million acres under subparagraph (4) of this paragraph calculated by multiplying the minimum national allotment by the national average yield of 458 pounds per acre of cotton for the 4 calendar years 1961, 1962, 1963, and 1964 and dividing the result by 480 pounds (net weight of a standard bale). This determination is based on the following data:

Determinations for purpose of:

(i) Section 722.265(d) (1)---	13,769,000
(ii) Section 722.265(d) (4)---	15,267,000
(iii) Section 722.265(d) (2)---	14,765,000

Based on:

(iv) Estimated domestic consumption-----	9,500,000
(v) Estimated exports-----	5,300,000
(vi) Estimated imports-----	35,000
(vii) Adjustment for stocks---	none

- ² Running bales.
- ³ Equivalent running bales.

§ 722.266 National allotment in acres.

It is hereby determined and proclaimed that a national allotment shall be in effect for the crop of cotton produced in the calendar year 1966. The amount of such national allotment is 16 million acres calculated as set forth in § 722.265.

§ 722.267 National reserve.

It is hereby determined that a national reserve of 200,000 acres is required under section 344(b) of the act which is in addition to the national allotment. The amount of the national reserve is based upon the estimated needs of the States for additional acreage for establishing minimum farm allotments under section 344(f) (1) of the act except that 1,000 acres shall be apportioned to Nevada as required by section 344(b) of the act.

§ 722.268 Apportionment of national allotment and national reserve to the States.

The national allotment of 16 million acres and the national reserve of 200,000 acres are apportioned to the States in accordance with section 344(b) of the act as follows:

PART 722—COTTON

Subpart—1966 Crop of Extra Long Staple Cotton; Acreage Allotments and Marketing Quotas

The following subpart to Part 722 is added to read as follows:

- Sec.
- 722.357 Basis and purpose.
 - 722.358 National marketing quota in bales.
 - 722.359 National allotment in acres.
 - 722.360 Apportionment of national allotment to the States.
 - 722.361 Referendum date.

AUTHORITY: The provisions of this subpart issued under secs. 301, 343, 344, 347, 375; 52 Stat. 38, as amended; 63 Stat. 670, as amended; 63 Stat. 675, as amended; 52 Stat. 66, as amended; 7 U.S.C. 1301, 1343, 1344, 1347, 1375.

§ 722.357 Basis and purpose.

(a) The provisions of this section and §§ 722.358 to 722.361 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended (52 Stat. 31, as amended; 7 U.S.C. 1281 et seq.) (referred to as the "act"). These provisions announce findings with respect to the total supply and the normal supply of extra long staple cotton for the marketing year beginning August 1, 1965, and proclaim, upon the basis of such findings, a national marketing quota in bales and a national allotment in acres for the 1966 crop of extra long staple cotton. The apportionment of the national allotment to the States is also made under these provisions. The date for holding the referendum pursuant to section 343 of the act is also established. The term "extra long staple cotton" (referred to as "ELS cotton") as used in § 722.358 (a) and (b) means the kinds of cotton described in section 347(a) of the act, including American-Egyptian cotton, Sea Island cotton in both the continental United States and Puerto Rico, and Sealand cotton, and all imports of similar type cotton produced in Egypt, Sudan, and Peru. Exports of ELS cotton from Commodity Credit Corporation stocks estimated to be made pursuant to 7 U.S.C. 1852a are excluded from the determinations of estimated exports under § 722.358 (b) and (d). ELS cotton as used in §§ 722.358 (c) and (d) and 722.359 means the kinds of cotton described in section 347(a) of the act. The findings and determina-

tions of the Secretary in this section and §§ 722.358 to 722.361 have been made on the basis of the latest available statistics of the Federal Government.

(b) Notice that the Secretary was preparing to determine whether a national marketing quota and national allotment would be required under the act for the 1966 crop of ELS cotton and with respect to the establishment of State and county allotments and establishment of the date for holding the referendum was published in the FEDERAL REGISTER on September 22, 1965 (30 F.R. 12079), in accordance with section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003). No written submissions were received in response to such notice.

(c) Since this subpart contains proclamations required by section 347(b) of the act to be made not later than October 15, 1965, and since the apportionment of the national allotment to the States requires immediate action by the Agricultural Stabilization and Conservation State and county committees, it is essential that this section and §§ 722.358 to 722.361 be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the 30-day effective date requirement of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest and this section and §§ 722.358 to 722.361 shall be effective upon filing this document with the Director, Office of the Federal Register.

§ 722.358 National marketing quota in bales.

(a) *Finding of total supply.* As defined in section 301 of the act, the "total supply" of ELS cotton for the marketing year beginning August 1, 1965 (in terms of running bales or the equivalent), consists of the sum of (1) "carryover" on August 1, 1965, (2) estimated production from the 1965 crop of ELS cotton, and (3) estimated imports into the United States during the marketing year beginning August 1, 1965. Pursuant to Public Law 87-548 enacted July 25, 1962 (76 Stat. 218), the term "carryover" does not include any domestically grown ELS cotton which was transferred or made available to the Commodity Credit Corporation from the stockpile established under the Strategic and Critical Materials Stockpiling Act, as amended (50 U.S.C. 98), and which has not been sold by the Commodity Credit Corporation; and does not include any foreign-grown ELS cotton which was transferred to the Commodity Credit Corporation from such stockpile. The following finding of total supply is hereby made by the Secretary:

(i) Total supply of ELS cotton for the marketing year beginning August 1, 1965, in running bales or equivalent:

(a) Carryover-----	201,000
(b) Estimated production-----	82,500
(c) Estimated imports-----	85,600

Total supply----- 369,100

(b) *Finding of normal supply.* As defined in section 301 of the act, the "normal supply" of ELS cotton for the marketing year beginning August 1, 1965 (in terms of running bales or equivalent), consists of the sum of (1) estimated domestic consumption for the marketing year beginning August 1, 1965, (2) estimated exports during the marketing year beginning August 1, 1965, and (3) 30 percent of the sum of such estimated domestic consumption and estimated exports as an allowance for carryover. The following finding of normal supply is hereby made by the Secretary:

(i) Normal supply of ELS cotton for the marketing year beginning August 1, 1965, in running bales or equivalent:

(a) Estimated domestic consumption	160,000
(b) Estimated exports.....	0
(c) 30 percent allowance for carryover	48,000
Normal supply.....	208,000

(ii) It is also hereby determined that 108 percent of such normal supply equals 224,640 running bales or equivalent.

(c) *Proclamation of national marketing quota.* It is hereby determined and proclaimed by the Secretary that the total supply of ELS cotton for the marketing year beginning August 1, 1965, will exceed the normal supply of ELS cotton for such marketing year by more than 8 percent. Therefore, a national marketing quota shall be in effect for the crop of ELS cotton produced in the calendar year 1966.

(d) *Proclamation of amount of national marketing quota in bales.* Section 347 of the act provides that the amount of the national marketing quota for the 1966 crop of ELS cotton (in terms of standard bales of 500 pounds gross weight) shall be the largest of the following:

(1) The number of bales of ELS cotton equal to the estimated domestic consumption plus exports for the marketing year beginning August 1, 1966; less the estimated imports for the marketing year beginning August 1, 1966; plus such additional number of bales, if any, as the Secretary determines is necessary to assure adequate working stocks in trade channels until ELS cotton from the next crop becomes readily available without resort to Commodity Credit Corporation stocks.

(2) 30,000 bales of ELS cotton.
 (3) The number of bales of ELS cotton equal to 30 percent of the estimated domestic consumption plus exports of ELS cotton for the marketing year beginning in the calendar year in which such quota is proclaimed.

It is hereby determined and proclaimed that the national marketing quota for the 1966 crop of ELS cotton (in terms of standard bales of 500 pounds gross weight) shall be 89,400 bales based on subparagraph (1) of this paragraph including an adjustment of 10,000 bales to assure adequate working stocks. This determination is based on the following data:

Determinations for purposes of:	<i>Standard Bales</i>
(i) Section 722.358(d) (3).....	49,500
(ii) Section 722.358(d) (1).....	89,400
Based on running bales or equivalent:	
(iii) Estimated domestic consumption	165,000
(iv) Estimated exports.....	0
(v) Estimated imports.....	85,600
(vi) Adjustment for stocks.....	10,000

§ 722.359 National allotment in acres.

It is hereby determined and proclaimed that a national allotment shall be in effect for the crop of ELS cotton produced in the calendar year 1966. The amount of such national allotment is 81,400 acres (rounded to nearest 100 acres) calculated by multiplying the national quota in bales by 480 pounds (net weight of a standard bale) and dividing the results by the national average yield of 527 pounds per acre of ELS cotton for the four calendar years 1961, 1962, 1963, and 1964.

§ 722.360 Apportionment of national allotment to the States.

The national allotment of 81,400 acres is apportioned to States in accordance with section 344(b) of the act as follows:

	<i>State allotment (acres)</i>
Arizona	35,315
California	546
Florida	264
Georgia	117
New Mexico.....	16,402
Texas	28,679
Puerto Rico.....	77
Total.....	81,400

§ 722.361 Referendum date.

The date for holding the referendum for the 1966 crop of ELS cotton pursuant to section 343 of the act shall be November 23, 1965.

Effective date. Date of filing this document with the Director, Office of the Federal Register.

Signed at Washington, D.C., on October 14, 1965.

JOHN A. SCHMITZER,
Acting Secretary.

Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

SUBCHAPTER G—DETERMINATION OF PROPORTIONATE SHARES

[§ 850.147, as amended; Supp. 5]

PART 850—DOMESTIC BEET SUGAR PRODUCING AREA

Kansas Farm Proportionate Shares for 1965 Crop

Pursuant to the provisions of § 850.147 (29 F.R. 14620, 15801, 17029), the Agricultural Stabilization and Conservation Kansas State Committee has issued the bases and procedures for establishing individual farm shares for the 1965 sugar-

beet crop from acreage allocated and from any unused acreage redistributed to Kansas. Copies of these bases and procedures are available for public inspection at the office of such Committee at the Wareham Building, 417 Humboldt Street, Manhattan, Kans., and at the offices of the Agricultural Stabilization and Conservation Committees in the sugarbeet producing counties of Kansas. These bases and procedures incorporate the following:

§ 850.152 Kansas.

(a) *Proportionate share areas.* In the establishment of individual shares, the State shall be deemed to be one allotment area.

(b) *Set-asides of acreage.* Set-asides of acreage shall be made from the State acreage allocation as follows: 120 acres for new producers and 103 acres for appeals and adjustments in initial shares.

(c) *Requests for proportionate shares.* A request for each farm share shall be filed at the local ASC County Office on Form SU-100, Request for Sugarbeet Proportionate Share, under the conditions, and on or before the closing date for such filing, as provided in § 850.147. If a preliminary request for a tentative farm share is filed as provided in § 850.147, a fully completed Form SU-100 shall be filed by March 29, 1965. However, requests for shares may be accepted after such dates and shares may be established if the State Committee determines that in any such case the farm operator was prevented from filing a completed Form SU-100 by such dates because of illness or other reasons beyond his control and provided further, that requests may be accepted generally by the State committee after such date if acreage is available within the State allotment.

(d) *Establishment of individual proportionate shares for old-producer farms—(1) Farm bases.* For each old-producer farm, a farm base shall be determined on the basis of a formula giving 30 percent weighting to the average of the history record of the farm for the crop years 1962 and 1963 and 70 percent weighting to such record for the 1964 crop year. The history record for a crop year will be the result of adding 30 percent of the land history for the crop year for the farm, as constituted for the 1965 crop, and 70 percent of the 1965-crop operator's personal history record within the State for such crop year.

(2) *Initial proportionate shares.* The total of individual farm bases for old-producer farms in the State as established pursuant to this paragraph is more than the area allotment minus the set-asides of acreage established under paragraph (b) of this section. Accordingly, initial shares shall be established from the farm bases by prorating to such farms, in accordance with their respective bases, but not in excess of their requests, the area allotment less the prescribed set-asides. The proration factor for the area is 0.947144.

(e) *Establishment of individual proportionate shares for new-producer*

farms. Within the acreage set aside for new producers, shares shall be established in an equitable manner for farms to be operated during the 1965-crop year by new producers. The State committee has determined a 30.0-acre share to be the minimum acreage which is economically feasible to plant as a new-producer farm share. No distribution of the acreage set aside for new producers will be made to individual counties or groups of counties. In determining whether a farm for which a request is filed for a new-producer share may qualify for such a share, and to assist in establishing new-producer shares which are fair and equitable as to relative size among qualified farms, the county committee subject to review by the State committee, by taking into consideration availability and suitability of land, availability of irrigation water, adequacy of drainage, the production experience of the operator, and the availability of production and marketing facilities, shall rate each farm as provided in § 850.147(k). The State committee shall establish new-producer farm shares as provided therein.

(f) *Adjustments and appeals.* Within the acreage available from the set-aside for adjustments and appeals, and from any acreage of initial shares in excess of requested acreages, adjustments may be made in initial shares for old producers so as to establish a share for each farm which is fair and equitable as compared with shares for all other farms in the State by taking into consideration availability and suitability of land, area of available fields, crop rotation, availability of irrigation water, adequacy of drainage, availability of production and marketing facilities and the production experience of the operator. Such acreage shall also be used to make adjustments in shares under appeals to establish fair and equitable shares in accordance with the provisions of § 891.1 of this chapter applicable to appeals.

(g) *Adjustments because of unused or unallotted acreage.* Any acreage made available during the 1965-crop season by underplanting or failure to plant proportionate share acreage shall be reported to the ASC State Committee. Acreages released and so reported, together with available acreages from unused set-asides or from other sources of unused acreage shall be distributed to farms in the State whereon additional acreage may be used. Such distribution shall be made prior to September 1, 1965.

(h) *Notification of farm operators.* The farm operator shall be notified concerning the share established for his farm on Form SU-103, Notice of Farm Proportionate Share—1965 Sugarbeet Crop, even if the acreage established is "none". In each case of approved adjustment, whether resulting from the release of acreage, the redistribution of unused acreage, appeals, or the reconstitution of the farm, the farm operator shall be notified regarding the adjusted share on a Form SU-103 marked "revised". For each tentative share which is established, the person filing the re-

quest for such share shall be notified on a Form SU-103-B specifying that such tentative share does not constitute a farm share for the purpose of payment under the Sugar Act of 1948, as amended.

(i) *Redetermination of proportionate share.* The proportionate share determined for any farm which is subdivided into, combined with, or becomes a part of another farm or farms shall be redetermined as provided in § 850.147.

(j) *Determination provisions prevail.* The bases and procedures set forth in this section are issued in accordance with and subject to the provisions of § 850.147.

Statement of bases and considerations. This supplement sets forth the bases and procedures established by the Agricultural Stabilization and Conservation Kansas State Committee for determining farm shares in Kansas for the 1965 crop of sugarbeets.

Kansas constitutes one proportionate share area. Informal relationships are maintained with grower and processor representatives. In establishing shares for old-producer farms, the factors of "past production" and "ability to produce" sugarbeets are measured by applying a formula to the combined acreage records for the farm and the farm operator during the crop years 1962-64. Farm shares for new producers are established as provided in § 850.147.

The bases and procedures for making adjustments in initial shares and for adjusting shares subsequently because of unused acreage and appeals are designed to provide a fair and equitable proportionate share for each farm of the total acreage of sugarbeets required to enable the domestic beet sugar area to meet its quota and provide a normal carryover inventory.

[§ 850.147, as amended; Supp. 7]

PART 850—DOMESTIC BEET SUGAR PRODUCING AREA

Iowa Proportionate Share Areas and Farm Proportionate Shares for 1965 Crop

Pursuant to the provisions of § 850.147 (29 F.R. 14620, 15801, 17029), the Agricultural Stabilization and Conservation Iowa State Committee has issued the bases and procedures for dividing the State into proportionate share areas and establishing individual farm shares for the 1965 sugarbeet crop from acreage

allocated and from any unused acreage redistributed to Iowa. Copies of these bases and procedures are available for public inspection at the office of such Committee at the Iowa Building, 505 Sixth Avenue, Des Moines, Iowa, and at the offices of the Agricultural Stabilization and Conservation Committees in the sugarbeet producing counties of Iowa. These bases and procedures incorporate the following:

§ 850.154 Iowa.

(a) *Proportionate share areas.* Iowa shall be divided into two proportionate share areas as served by beet sugar companies. These areas shall be designated Onawa Area and Mason City Area. The State acreage allocation shall be divided between the two areas on the basis of the relationship of the average accredited acreage history for the 1963 and 1964 crops of such areas. This results in 1,361 acres (35.83 percent) allocated to the Onawa Area and 2,438 acres (64.17 percent) allocated to the Mason City Area.

(b) *Set-asides of acreage.* Set-asides of acreage shall be made from area allotments as follows: Onawa Area—50 acres for new producers and 7 acres for appeals and adjustments; Mason City Area—50 acres for new producers and 12 acres for appeals and adjustments.

(c) *Requests for proportionate shares.* A request for each farm share shall be filed at the local ASC County Office on Form SU-100, Request for Sugarbeet Proportionate Share, under the conditions, and on or before the closing date for such filing, as provided in § 850.147. If a preliminary request for a tentative farm share is filed, as provided in § 850.147, a fully completed Form SU-100 shall be filed by April 30, 1965. However, requests for shares may be accepted after such dates and shares may be established if the State Committee determines that in any such case the farm operator was prevented from filing a completed Form SU-100 by such dates because of illness or other reasons beyond his control, and provided further, that requests may be accepted generally by the State Committee after such date, if acreage is available within the area allotment.

(d) *Establishment of individual proportionate shares for old-producer farms—(1) Farm bases—(i) Onawa area.* For each old-producer farm, a farm base shall be determined on the basis of the personal accredited acreage record of the person who will operate such farm for the 1965-crop year. The base shall be determined on the basis of a formula giving a 30 percent weighting to the average of the personal accredited acreage record, within the area, of such operator for the crop years 1962 and 1963 and a 70 percent weighting to such record for the crop year 1964 but not less than 90 percent of such 1964-crop accredited acreage record.

(ii) *Mason City Area.* For each old-producer farm, a farm base shall be determined on the basis of a formula giving 30 percent weighting to the average accredited acreage for the farm for the crop years 1962 and 1963 and 70 percent

weighting to the accredited acreage for the farm for the crop year 1964.

(2) *Initial proportionate shares.* For each proportionate share area, the total of individual farm bases for old-producer farms, as established pursuant to this paragraph (d), is less than the area allotment minus the set-asides of acreage established under paragraph (b) of this section. Accordingly, initial shares shall be established from farm bases as follows: For farms for which respective requested acreages are equal to or less than their farm bases, the initial shares shall coincide with requested acreages; and for all other farms, initial shares shall be computed by prorating to such farms in accordance with their respective bases, the area allotment less the prescribed set-asides and the total of the initial shares established in accordance with the preceding part of this subparagraph. The proration factor for each area shall be as follows: Onawa Area—1.6611 and Mason City Area—1.330.

(e) *Established of individual proportionate shares for new-producer farms.* Within the acreage set aside for new producers shares shall be established in an equitable manner for farms to be operated during the 1965-crop year by new producers. The State Committee has determined that a 50.0 acre share is the minimum acreage which is economically feasible to plant as a new-producer farm share. Each area was allotted acreage to establish one new-producer share. In determining whether a farm for which a request is filed for a new-producer share may qualify for such a share, and to assist in establishing new-producer shares which are fair and equitable as to relative size among qualified farms, the State Committee, by taking into consideration availability and suitability of land, adequacy of drainage, the production experience of the operator, and the availability of production and marketing facilities, shall rate each farm as provided in § 850.147(k), and shall establish new-producer farm shares as provided therein.

(f) *Adjustments and appeals.* Within the acreage available from the set-aside for adjustments and appeals, and from any acreage of initial shares in excess of requested acreages in each proportionate share area, adjustments may be made in initial shares for old-producers so as to establish a share for each farm which is fair and equitable as compared with shares for all other farms in the area by taking into consideration availability and suitability of land, area of available fields, crop rotation, availability of irrigation water, adequacy of drainage, availability of production and marketing facilities and the production experience of the operator. Such acreage shall also be used to make adjustments in shares under appeals to establish fair and equitable shares in accordance with the provisions of § 891.1 of this chapter applicable to appeals.

(g) *Adjustments because of unused or unallotted acreage.* Any acreage made available within an area during the 1965-crop season by underplanting or failure

to plant proportionate share acreage shall be reported to the ASC State Committee. Acreages released and so reported together with available acreages from unused set-asides or from other sources of unused acreage shall be distributed to farms in such area whereon additional acreage may be used. Unused acreage in one area may not be reallocated to another area. All distribution of unused acreage shall be made prior to August 1, 1965.

(h) *Notification of farm operators.* The farm operator shall be notified concerning the share established for his farm on Form SU-103, Notice of Farm Proportionate Share—1965 Sugarbeet Crop, even if the acreage established is "none". In each case of approved adjustment, whether resulting from the release of acreage, the redistribution of unused acreage, appeals, or the reconstitution of the farm, the farm operator shall be notified regarding the adjusted share on a Form SU-103 marked "revised". For each tentative share which is established, the person filing the request for such share shall be notified on a Form SU-103-B specifying that such tentative share does not constitute a farm share for the purpose of payment under the Sugar Act of 1948, as amended.

(i) *Redetermination of proportionate share.* The share determined for any farm which is subdivided into, combined with, or becomes a part of another farm or farms shall be redetermined as provided in § 850.147.

(j) *Determination provisions prevail.* The bases and procedures set forth in this section are issued in accordance with and subject to the provisions of § 850.147.

Statement of bases and considerations. This supplement sets forth the bases and procedures established by the Agricultural Stabilization and Conservation Iowa State Committee for determining farm shares in Iowa in accordance with the proportionate share regulation for the 1965 crop of sugarbeets as issued by the Secretary of Agriculture.

Iowa is divided in two allotment areas. Informal relationships are maintained with grower and processor representatives. In establishing shares for old producers, the factors of "past production" and "ability to produce" sugarbeets are measured by applying a formula to the operator's accredited acreage record for the crop years 1962-64 in the Onawa Area and in the Mason City Area, by applying a formula to the accredited acreage of the farm for such 3-year period.

Shares for new producers are established as provided in § 850.147. Minimum economic units for new-producer farms were determined to be 50 acres.

The bases and procedures for making adjustments in initial proportionate shares and for adjusting shares subsequently because of unused acreage and appeals are designed to provide a fair and equitable proportionate share for each farm of the total acreage of sugarbeets required to enable the domestic beet sugar area to meet its quota and provide a normal carryover inventory.

**PART 850—DOMESTIC BEET SUGAR
PRODUCING AREA**

**Idaho Proportionate Share Areas and
Farm Proportionate Shares for 1965
Crop**

Pursuant to the provisions of § 850.147 (29 F.R. 14620, 15801, 17029), the Agricultural Stabilization and Conservation Idaho State Committee has issued the bases and procedures for dividing the State into proportionate share areas and establishing individual farm shares for the 1965 sugarbeet crop from acreage allocated and from any unused acreage redistributed to Idaho. Copies of these bases and procedures are available for public inspection at the office of such committee at 5903 Franklin Road, Boise, Idaho, and at the offices of the Agricultural Stabilization and Conservation Committees in the sugarbeet producing counties of Idaho. These bases and procedures incorporate the following:

§ 850.160 Idaho.

(a) *Proportionate share areas.* Idaho shall be divided into four proportionate share areas as served by beet sugar companies. These areas shall be designated as follows: NASCO, TASCO, Utah-Idaho and Franklin. Acreage allotments for these areas shall be computed on the basis of a formula giving 30 percent weighting to the average accredited acreage for the crop years 1962 and 1963 and 70 percent weighting to the accredited acreage for the crop year 1964 for each area as a measure of "past production" and "ability to produce" sugarbeets with prorata adjustments to the State allocation. This results in the following area acreage allocations: NASCO Area 41,275 acres; TASCO Area 64,182 acres; Utah-Idaho Area 39,796 acres; and Franklin Area 7,305 acres.

(b) *Set-asides of acreage.* Set-asides of acreage shall be made from area allotments as follows: For new producers: NASCO Area—420 acres; TASCO Area—320 acres; Franklin Area—60 acres; and Utah-Idaho Area—200 acres; for appeals: NASCO Area—280 acres; TASCO Area—122 acres; Franklin Area—20 acres; and Utah-Idaho Area—196 acres; and for adjustments in initial shares: NASCO Area—345 acres; TASCO Area—200 acres; Franklin Area—40 acres and Utah-Idaho Area—200 acres.

(c) *Requests for proportionate shares.* A request for each farm share shall be filed at the local ASC county office on Form SU-100, Request for Sugarbeet Proportionate Share, under the conditions, and on or before the closing date for such filing, as provided in § 850.147. If a preliminary request for a tentative farm share is filed, as provided in § 850.147, a fully completed Form SU-100 shall be filed by March 15, 1965. However, requests for shares may be accepted after such dates and shares may be established if the State Committee determines that in any such case the farm operator was prevented from filing a complete Form SU-100 by such dates because of illness or other reason beyond his control, and provided further, that requests may be accepted generally by the State Committee after such date if acreage is available within the area allotment.

(d) *Establishment of individual farm proportionate shares for old-producer farms—(1) Farm bases.* For each old-producer farm in the NASCO area, the farm base shall be the result of adding (i) one half of the sum of 30 percent of the average accredited acreage for the farm for the 1962 and 1963 crop years and 70 percent of the accredited acreage for the 1964-crop year and (ii) one half of the sum of 30 percent of the average personal acreage record within the area of the 1965-crop operator for the crop years 1962 and 1963 and 70 percent of the personal acreage record of such operator for the 1964-crop year. In the TASCOS, Franklin and Utah-Idaho areas, the farm bases shall be determined on the basis of a formula giving 30 percent weighting to the average accredited acreage for the farm for the crop years 1962 and 1963 and 70 percent weighting to the accredited acreage for the farm for the crop year 1964.

(2) *Initial proportionate shares.* For each proportionate share area, the total of individual farm bases for old-producer farms, as established pursuant to this paragraph, exceeds the area allotment minus the set-asides of acreage established under paragraph (b) of this section. Accordingly, initial shares shall be established from the farm bases in each proportionate share area by prorating to the farms in accordance with their respective bases, but not in excess of their requests, the area allotment less such set-asides. The proration factor for each area shall be as follows: NASCO Area—0.94; TASCOS Area—0.91; Franklin Area—0.93; and Utah-Idaho Area—0.93.

(3) *Adjustments in initial shares.* Within the acreage available from the set-aside for adjustments in each proportionate share area, adjustments shall be made in initial shares for old producers so as to establish a share for each farm which is fair and equitable as compared with shares for all other farms in the area by taking into consideration the availability and suitability of land, area of available fields, crop rotation, availability of irrigation water (where used), adequacy of drainage, availability of production and marketing facilities and the production experience of the operator.

(e) *Establishment of individual proportionate shares for new-producer farms.* Within the acreage set aside for new producers in each proportionate share area, shares shall be established in an equitable manner for farms to be operated during the 1965-crop year by new producers. The State Committee has determined that a 20-acre share is the minimum acreage which is economically feasible to plant as a new-producer farm share. Distribution of acreage for establishing new-producer shares shall be made to counties, based on the relationship of old-producer acreage in the county to old-producer acreage in the area. In determining whether a farm for which a request is filed for a new-producer share may qualify for such a share, and to assist in establishing new-producer shares which are fair and equitable as to relative size among qualified farms, the County Committee, by taking into consideration availability and suitability of land, adequacy of drainage, the production experience of the operator, and the availability of production and marketing facilities, shall rate each farm, as provided in § 850.147(k). The State Committee shall establish new-producer farm shares as provided therein.

(f) *Adjustments under appeals.* Within the acreage set aside for making adjustments under appeals and any other acreage remaining unused in each proportionate share area, adjustments shall be made in proportionate shares under appeals to establish fair and equitable farm shares in accordance with the provisions of § 850.147 applicable to appeals.

(g) *Adjustments because of unused or unallotted acreage.* Any acreage made available during the 1965-crop season by underplanting or failure to plant proportionate share acreage on farms in any area, together with acreage prorated to the area by the ASC State Committee from unused set-asides of acreage or from other sources of unused acreage, shall be distributed to farms in the State whereon additional acreage may be used. Such distribution shall be made on or before September 4, 1965.

(h) *Notification of farm operators.* The farm operator shall be notified concerning the share established for his farm on Form SU-103, Notice of Farm Proportionate Share—1965 Sugarbeet Crop, even if the acreage established is "none". In each case of approved adjustment, whether resulting from the release of acreage, the redistribution of unused acreage, appeals or the reconstitution of the farm, the farm operator shall be notified regarding the adjusted share on a Form SU-103 marked "revised". For each tentative share which is established, the person filing the request for such share shall be notified on a Form SU-103-B specifying that such tentative share does not constitute a farm share for the purpose of payment under the Sugar Act of 1948, as amended.

(i) *Redetermination of proportionate share.* The proportionate share determined for any farm which is subdivided into, combined with, or becomes a part

of another farm or farms shall be re-determined as provided in § 850.147.

(j) *Farms receiving commitments of acreage from the national reserve.* Proportionate shares for farms receiving commitments of acreage from the national sugarbeet acreage reserve shall be established in accordance with the provisions of §§ 850.147 and 851.1 of this chapter.

(k) *Determination provisions prevail.* The bases and procedures set forth in this section are issued in accordance with and subject to the provisions of § 850.147.

Statement of bases and considerations. This supplement sets forth the bases and procedures established by the Agricultural Stabilization and Conservation Idaho State Committee for determining farm shares in Idaho for the 1965 crop of sugarbeets.

Idaho is divided into four proportionate share areas as served by beet sugar factories. Informal relationships are maintained with grower and processor representatives.

In establishing shares for old-producer farms, the factors of "past production" and "ability to produce" are measured, in the NASCO Area, by applying a formula to the 1962-64 accredited acreage record of both the farm and the operator of the farm. In the other areas, a formula is applied only to the 1962-64 accredited acreage record of the farm. Minimum economic units for new producers were determined to be 20 acres.

The bases and procedures for making adjustments in initial proportionate shares and for adjusting shares subsequently because of unused acreage and appeals are designed to provide a fair and equitable proportionate share for each farm of the total acreage of sugarbeets required to enable the domestic beet sugar area to meet its quota and provide a normal carryover inventory.

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Lemon Regulation 182, Amdt. 1]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effec-

tive under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act by tending to establish and maintain such orderly marketing conditions for such lemons as will provide, in the interest of producers and consumers, an orderly flow of the supply thereof to market throughout the normal marketing season to avoid unreasonable fluctuations in supplies and prices, and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restrictions on the handling of lemons grown in California and Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 910.482 (Lemon Regulation 182, 30 F.R. 12879) are hereby amended to read as follows:

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Agency
 [Airspace Docket No. 64-WA-96]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Federal Airway

On February 10, 1965, a notice of proposed rule making was published in the

FEDERAL REGISTER (30 F.R. 1876) stating that the Federal Aviation Agency was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate a Federal airway from Myrtle Beach, S.C., to Fayetteville, N.C.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. Due consideration was given to all relevant matter presented.

The Air Transport Association of America endorsed the proposal. The Department of the Air Force objected to the proposed airway stating that it would bisect the only large area remaining within local flying distance of Myrtle Beach and Seymour-Johnson Air Force Bases, that is off-airways. All other comments were favorable.

The airway was proposed for scheduled air carrier operations between Myrtle Beach and Fayetteville. Such operations are presently conducted off-airways and in part outside of controlled airspace. The proposed airway would make it possible to provide air traffic service to the air carrier and since acrobatics are prohibited within a Federal airway, would protect the air carrier from the potential hazard of acrobatics.

The Agency has reviewed the operations of the air carrier along the route concerned and has determined that its IFR operations normally are conducted at 3,000 feet MSL and 4,000 feet MSL. The Agency has also reviewed the material furnished by the Department of the Air Force and has determined that the preponderance of acrobatic type training missions are conducted above 5,000 feet MSL in this area. Since both the air carrier, transporting passengers for hire, and the Department of the Air Force, conducting military flight training, are utilizing the same airspace, and since the Agency is charged with full consideration of the requirements of national defense and the assignment of airspace under such terms, conditions and limitations as may be deemed necessary to insure the safety of aircraft and efficient utilization of airspace, the Agency has made a determination that would provide additional safety to the air carrier and appear to impose the least burden on the Department of Air Force training operations.

Accordingly, action is taken herein to designate a Federal airway from Myrtle Beach via the INT of Myrtle Beach 033° and the Fayetteville 164° True radials (Dock INT) to Fayetteville, excluding the airspace below 2,500 feet MSL and the airspace above 5,000 feet MSL, between Fayetteville and Dock INT.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0001 e.s.t., December 9, 1965, as hereinafter set forth.

Section 71.123 (29 F.R. 17509, 30 F.R. 4121) is amended as follows:

In V-39 "From Pinehurst, N.C.," is deleted and "From Myrtle Beach, S.C., via INT Myrtle Beach 033° and Fayetteville, N.C., 164° radials (Dock INT); to Fayetteville, excluding the airspace below 2,500 feet MSL and above 5,000 feet

MSL between Dock INT and Fayetteville. From Pinehurst, N.C.," is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Washington, D.C., on October 13, 1965.

Acting Chief, Airspace Regulations and Procedures Division.

Title 43—PUBLIC LANDS: INTERIOR

Chapter II—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 3849]

[Fairbanks 031025]

ALASKA

Partial Revocation of Public Land Orders No. 715 and No. 2214

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Public Land Orders No. 715 of April 20, 1951, and No. 2214 of December 6, 1960, withdrawing lands for use of the Department of the Air Force for military purposes, and establishing the Arctic National Wildlife Range, respectively, are hereby revoked so far as they affect the following described land:

A tract at Kaktoavik Island, Barter Island Group, Alaska, more particularly described as follows:

Beginning at a point from which U.S.C. & G.S. triangulation station "Barter Astro" bears S. 1°40' W., approximately 2,828 feet.

From the initial point:

N. 1°24' W., approximately 1,503 feet; N. 88°58' E., approximately 477 feet to the line of mean high tide;

Thence southeasterly with the meanders of the line of mean high tide to a point from which "Barter Astro" bears N. 78°53' W., approximately 2,478 feet;

N. 35°24' W., approximately 4,054 feet to the initial point.

The tract described contains approximately 141 acres.

2. Until 10 a.m., on January 11, 1966, the State of Alaska shall have a preferred right to select the lands released from withdrawal by the order in accordance with the provisions of the Act of July 28, 1956 (70 Stat. 709; 48 U.S.C. 46-3b), and section 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339), and the regulations in 43 CFR 2222.9.

3. This order shall not otherwise become effective to change the status of the lands until 10 a.m., on January 11, 1966.

At that time they shall be open to the operation of the public land laws generally, including the mining and mineral leasing laws, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m., on January 11, 1966, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

Inquiries concerning the lands should be addressed to the Manager, District and Land Office, Bureau of Land Management, Fairbanks, Alaska.

HARRY R. ANDERSON,
Assistant Secretary of the Interior.

AUTHORITY: The provisions of this Part 903 issued under secs. 101-603, 79 Stat. 218-226; 42 U.S.C. secs. 3001-3053.

THE STATE PLAN—GENERAL

§ 903.1 Purpose.

A basic condition to the certification of Federal funds under Title III of the Act is a State plan found to meet Federal requirements. This plan shall constitute a description of the State's program in aging established to carry out the purposes of the Act through (a) community planning and coordination of programs; (b) demonstrations of programs or activities; (c) training of special personnel needed to carry out such programs and activities; and (d) establishment of new or expansion of existing programs to carry out such purposes, including establishment of new or expansion of existing centers which will provide recreational and other leisure time activities, and informational, health, welfare, counseling, and referral services for older persons and assist such persons in providing volunteer community or civic services; except that no cost of construction, other than for minor alterations and repairs, shall be included in such establishment or expansion.

§ 903.2 Submission.

The State plan and all amendments thereto shall be submitted to the Secretary by duly authorized officer of the State agency in accordance with the State Plan Guide distributed by the Department of Health, Education, and Welfare to the States. The State plan shall indicate the official or officials who are authorized to submit additional plan material.

§ 903.3 Plan approval.

The State plan and all amendments thereto shall be submitted to the Secretary through the Regional Representative on Aging. The Regional Representative reviews and forwards the plan and amendments together with his comments and recommendations to the central office of the Administration on Aging. The Secretary shall approve any State plan meeting the requirements of the Act and of this part.

§ 903.4 Amendment.

The State's administration of the program shall be kept in conformity with the approved State plan. Whenever there is any material change in the content or administration of the State plan as approved, or when there has been a change in pertinent State law or in the organization, policies, or operations of the State agency affecting a program under the plan, the State plan shall be appropriately amended.

§ 903.5 Plan review.

The approved State plan and all amendments shall be subject to review from time to time as the Secretary may prescribe.

§ 903.6 Plan disapproval.

No State plan, or any modification thereof, submitted under section 303 of the Act, shall be finally disapproved without first affording the State reasonable notice and opportunity for a hearing.

§ 903.7 Withholding of funds.

Whenever the Secretary, after reasonable notice and opportunity for hearing to the State agency administering or supervising the administration of a State plan approved under section 303(a) of the Act, finds that (a) the State plan has been so changed that it no longer complies with the provisions of section 303(a) of the Act, or (b) in the administration of the plan there is a failure to comply substantially with any such provision, the Secretary shall notify such State agency that no further payments will be made to the State under Title III of this Act (or, in his discretion, that further payments to the State will be limited to projects under or portions of the State plan not affected by such failure) until he is satisfied that there will no longer be any failure to comply. Until he is so satisfied no further payments shall be made to such State under Title III of the Act (or payments shall be limited to projects under or portions of the State plan not affected by such failure).

§ 903.8 Appeal.

A State which is dissatisfied with a final action of the Secretary under § 903.6 or § 903.7 may appeal to the United States Court of Appeals for the circuit in which the State is located, by filing a petition with such court within 60 days after such final action. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Secretary, or any officer designated by him for that purpose. The Secretary thereupon shall file in the court the record of the proceedings on which he based his action, as provided in section 2112 of title 28, United States Code. Upon the filing of such petition, the court shall have jurisdiction to affirm the action of the Secretary or to set it aside, in whole or in part, temporarily or permanently, but until the filing of the record, the Secretary may modify or set aside his order. The findings of the Secretary as to the facts, if supported by substantial evidence, shall be conclusive,

but the court, for good cause shown, may remand the case to the Secretary to take further evidence, and the Secretary may thereupon make new or modified findings of fact and may modify his previous action and shall file in the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence. The judgment of the court affirming or setting aside, in whole or in part, any action of the Secretary shall be final, subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of Title 28, United States Code. The commencement of proceedings under this section shall not, unless so specifically ordered by the court, operate as a stay of the Secretary's action.

THE STATE PLAN—ADMINISTRATION**§ 903.9 Designation of State agency.**

The State plan shall indicate and identify the single State agency that has been established or designated as the sole agency for administering or supervising the administration of the State plan. This agency shall be primarily responsible for coordination of State programs and activities related to the purposes of the Act.

§ 903.10 Authority.

The State plan shall also include as an attachment a certificate of the State's Attorney General to the effect that the State agency has the authority to submit the State plan and to carry out the programs described therein as the sole State agency responsible for administering or supervising the administration of the State plan, and that nothing in the State plan is inconsistent with State law.

§ 903.11 Organization for administration.

The State plan shall describe the organizational structure of the State agency, including descriptions of organizational units, the functions assigned to each, and the relationships among units in the State program on aging. The organizational structure shall provide for all the functions for which the State is responsible under the plan, for clear lines of administrative and supervisory authority, and shall be suited to the size of the program and the geographic areas in the State in which the program operates. Sufficient staff shall be assigned on a full-time basis to assure efficient administration of the plan in the State. The State plan shall also describe methods of administration which will provide for the coordination and integration of activities, adequate controls over operations, channels for the development and interpretation of policies and standards, record keeping and reporting procedures and effective supervision of staff. If the State plan provides for the administration of certain specified portions of the plan by an agency other than the single State agency, the State plan shall set forth the standards governing its organization and methods of adminis-

tration, and shall describe the nature and extent of the supervision exercised by the State agency in order to assure observance in the application of State standards and the effective achievement of the objectives of the State plan.

§ 903.12 Technical review committee.

The State plan shall provide for a review by one or more technically competent committees, of all applications received by the State agency for projects to be financed from its allotment under Title III of the Act. The members of this committee shall not be in the full-time employ of the State agency, and shall make recommendations to the State agency on all project applications.

§ 903.13 Fiscal administration.

The State plan shall set forth the policies and methods pertinent to fiscal administration and control, including sources of funds, incurrence and payment of obligations, disbursements, accounting and auditing. The State plan shall provide for the maintenance by the State agency and project grantees of such accounts and supporting documents as will serve to permit an accurate and expeditious determination to be made at any time of the status of the Federal grants, including the disposition of all monies received and the nature and amount of all charges claimed to lie against the allotment to the State.

§ 903.14 Custody of funds.

The State plan shall designate the State official who will receive and provide for the custody of all funds paid to the State under the Act, subject to requisition or disbursement by the State agency.

§ 903.15 Standards of personnel administration.

The State plan shall provide for such methods of personnel administration on a merit basis as are set forth in the Standards For A Merit System of Personnel Administration, Part 70 of this title, issued by the Department of Health, Education, and Welfare, the Department of Labor, and the Department of Defense. The Secretary shall exercise no authority with respect to the selection, tenure of office, and compensation of any individual employed in accordance with such methods.

§ 903.16 Staff development.

The State plan shall provide for a program of staff development for professional personnel in aging. This program shall provide for the inservice training of personnel for the purpose of providing a high quality of services to older persons. If the staff development program includes leaves of absence for institutional or other organized training for professional personnel, the State plan shall specify the policies governing such educational leave.

§ 903.17 Nondiscrimination and civil rights.

Attention is called to the requirements of Title VI of the Civil Rights Act of 1964. Section 601 provides that no person in the United States shall, on the

grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance (42 U.S.C. section 2000d). The regulation implementing such Title VI has been issued by the Secretary with the approval of the President (Part 80 of this title) and is applicable to Federal financial assistance extended under this part.

THE STATE PLAN—THE AGING PROGRAM

§ 903.18 Financial participation.

The State plan shall provide for such financial participation by the State, or communities, with respect to activities and projects under the State plan as to assure continuation of desirable activities and projects after termination of Federal financial support under Title III of the Act. Financial participation may also be derived from agencies or organizations conducting projects and from other non-Federal sources. Such financial participation on the part of the State, communities, or other non-Federal sources, may be in the form of monies, facilities, or services for carrying out the activity or project approved under the State plan.

§ 903.19 Development of programs and activities.

(a) The State plan shall provide for development of programs and activities for older persons for carrying out the purposes of the Act, including an identification of the types and kinds of activities and projects relating to community planning and coordination, demonstrations, training, and the establishment of new or expansion of existing programs (including centers).

(b) The State plan shall also provide for the furnishing of consultative, technical, and information services to public and nonprofit private agencies and organizations engaged in activities relating to the special problems and welfare of older persons, and for coordinating the activities of such agencies and organizations to the extent feasible.

§ 903.20 Cooperation with other agencies and organizations.

The State plan shall provide for consultation with and utilization, pursuant to agreement with the head thereof, of the services and facilities of appropriate State or local public or nonprofit private agencies and organizations in the administration of the plan and in the development of such programs and activities.

§ 903.21 Principles and priorities of State projects.

The State plan shall set forth principles for determining the priority of projects in the State, and provide for approval of such projects in the order determined by application of such principles.

§ 903.22 Eligibility of applicants.

The plan shall provide for approval of projects of only public or nonprofit private agencies or organizations.

§ 903.23 Approval of projects.

The State plan shall provide that, after review and recommendation by a technical review committee, the project will be submitted to the State agency for action.

§ 903.24 Opportunity for hearing.

The State plan shall provide for an opportunity for a hearing before the State agency for any applicant whose application for approval of a project is denied.

§ 903.25 Reports.

The State plan shall provide that the State agency will make such reports to the Secretary in such form and containing such information as may reasonably be necessary to enable him to perform his functions under Title III of the Act, and shall keep such records and afford such access thereto as the Secretary may find necessary to assure the correctness and verification of such reports.

ALLOTMENTS AND FEDERAL FINANCIAL PARTICIPATION

§ 903.26 Allotments to the States.

The funds appropriated pursuant to section 301 of the Act for any fiscal year for grants to States shall be allotted among the States in the following manner:

(a) From the sum appropriated for a fiscal year under section 301, (1) the Virgin Islands, Guam, and American Samoa shall be allotted an amount equal to one-half of 1 per centum of such sum, and (2) each other State shall be allotted an amount equal to 1 per centum of such sum.

(b) From the remainder of the sum so appropriated for a fiscal year each State shall be allotted an additional amount which bears the same ratio to such remainder as the population aged 65 or over in such State bears to the population aged 65 or over in all the States.

(c) A State's allotment for a fiscal year under this part shall be equal to the sum of the amounts allotted under paragraphs (a) and (b) of this section.

§ 903.27 Reallotments to the States.

The amount of any allotment to a State under § 903.26 for any fiscal year which the State notifies the Secretary will not be required for carrying out the State plan (if any) approved under this title shall be available for reallotment from time to time, on such dates as the Secretary may fix, to other States which the Secretary determines (a) have need in carrying out their State plans so approved for sums in excess of those previously allotted to them under § 903.26, and (b) will be able to use such excess amounts for projects approved by the State during the period for which the original allotment was available. Such reallotments shall be made on the basis of the State plans so approved, after taking into consideration the population aged 65 or over. Any amount so reallotted to a State shall be deemed part of its allotment under § 903.26.

§ 903.28 Federal financial participation.

The allotment of any State under Title III of the Act for any fiscal year shall be available for grants to pay part of the costs of projects in such State described in § 903.1 and approved by such State, in accordance with its approved State plan, prior to the end of such year or, in the case of allotments for the fiscal year ending June 30, 1966, prior to July 1, 1967. To the extent permitted by the State's allotment under this section, payments with respect to any project shall equal 75 per centum of the cost of such project for the first year of the duration of such project, 60 per centum of such cost for the second year of such project, and 50 per centum of such cost for the third year of such project; except that (a) at the request of the State such payments may be less than such percentage of the cost of such project stated above, and (b) grants may not be made under this Title for any such project for more than 3 years or for any period after June 30, 1972.

§ 903.29 Expenditure of grant funds.

(a) The provisions of State or local law which are applicable to the expenditure of moneys appropriated by State or local subdivisions respectively shall apply respectively to Federal moneys paid to the State under Title III of the Act.

(b) Unless otherwise covered by State law, all encumbrances of grant funds by project grantee of such State agency shall be liquidated within 2 years after the end of the fiscal year in which the encumbrance was incurred unless otherwise authorized by the Secretary except that encumbrances of grant funds under projects approved in fiscal year 1966 must be liquidated by June 30, 1969. Grant funds as used in this section means Federal funds and all other resources used to earn Federal matching funds for the purposes of implementing the State plan under the Act.

§ 903.30 Costs of administration.

From the State's allotment under § 903.26 for a fiscal year, not more than 10 percent or \$15,000, whichever is larger, shall be available for paying one-half (or such smaller portion as the State may request) of the costs in administering the approved State plan, including the costs of carrying out the functions referred to in § 903.19.

§ 903.31 Audit.

All fiscal transactions by the State agency, any other agency (if any) administering part of the plan, and any project grantee under the Act are subject to audit by the Office of Audit of the Department to determine whether expenditures have been made in accordance with the Act and this part.

§ 903.32 Interest.

Interest earned on Federal funds paid to a State shall accrue to the benefit of the United States Government. The State agency shall submit, as the Secretary may prescribe, a statement showing the amounts of Federal funds received

under the Act, and the amount of interest earned on such funds. All such interest earned must be returned to the Administration on Aging.

AUTHORITY: The provisions of this Part 904 issued under secs. 101-603, 79 Stat. 218-226; 42 U.S.C. secs. 3001-3053.

PURPOSE

§ 904.1 Purpose.

The Secretary is authorized to make grants or enter into contracts to meet in whole or in part the costs of conducting an identified activity or program to carry out the purposes of the Act through:

(a) The study of current patterns and conditions of living of older persons and identification of factors which are beneficial or detrimental to the wholesome and meaningful living of such persons;

(b) The development or demonstration of new approaches, techniques, and methods (including multipurpose activity centers) which hold promise of substantial contribution toward wholesome and meaningful living for older persons;

(c) The development or demonstration of approaches, methods, and techniques for achieving or improving coordination of community services for older persons; or

(d) The evaluation of these approaches, techniques, and methods as well as others which may assist older persons to enjoy wholesome and meaningful living and to continue to contribute to the strength and welfare of our Nation.

GRANTS

§ 904.2 Eligibility.

The Secretary, after consulting with the designated State agency, is authorized to make grants to any public or non-profit private agency, organization, or institution (except Federal agencies and institutions) for paying in whole or part the costs of projects designed to carry out the purposes of this part.

§ 904.3 Application.

Any applicant eligible for a grant award under § 904.2 may file application

therefor with the Secretary on such forms and in such detail as the Secretary may prescribe. Such application shall set forth adequately the nature, duration, purpose, and plan of the project, the qualifications of the principal staff members to be responsible for the project, the total facilities and resources that will be available, a justification of the amount of the requested grant, and such other pertinent information as the Secretary may require. The application shall be executed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the terms and conditions of any award, including the regulations of this part.

§ 904.4 Nondiscrimination and civil rights.

Attention is called to the requirements of Title VI of the Civil Rights Act of 1964. Section 601 provides that no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance (42 U.S.C. section 2000d). The regulation implementing such Title VI has been issued by the Secretary with the approval of the President (Part 80 of this title) and is applicable to Federal financial assistance extended under this part.

§ 904.5 Project review.

Completed applications will be processed by the Administration on Aging for submission to a Technical Advisory Committee composed of persons appointed by the Secretary. The applicant may be requested to submit additional information either before or after consideration of the project by the Technical Advisory Committee. All projects which meet the legal requirements for a grant are submitted to the Technical Advisory Committee which makes recommendations to the Secretary. The Secretary then determines the action to be taken with respect to each project and notifies the applicant accordingly.

§ 904.6 Grant awards.

Within the limits of funds available for such purpose, the Secretary will award a grant to those applicants whose approved projects will in his judgment best promote the purposes of the Act and this part. All grant awards shall be in writing, shall set forth the amount of funds granted, and shall constitute for such amounts the encumbrance of Federal funds available for such purpose on the date of the award. The initial award shall also specify the project period for which support is contemplated if the activity is satisfactorily carried out and Federal funds are available. For continuation support, grantees must make separate application in accordance with the provisions of this part.

§ 904.7 Payments.

(a) to the extent he deems it appropriate, the Secretary shall require the

recipient of any grant under this part to contribute money, facilities, or services for carrying out the project.

(b) The Secretary shall from time to time make payments to a grantee of all or a portion of any grant award, either in advance or by way of reimbursement for expenses to be incurred or incurred in the project period, to the extent he determines such payments necessary to promote prompt initiation and advancement of the approved project. All such payments shall be recorded by the grantee in accounting records separate from all other fund accounts, including funds derived for other grant awards. Amounts paid shall be available for expenditure by the grantee in accordance with the regulations of this part throughout the project period subject to such limitations as the Secretary may prescribe.

§ 904.8 Termination.

A grant may be terminated in whole or in part at any time at the discretion of the Secretary. Noncancellable obligations properly incurred prior to the receipt of the notice of termination will be honored. The grantee shall be promptly notified of such termination in writing and given the reasons therefor.

§ 904.9 Reports.

The grantee shall make such reports to the Secretary, including reports of findings and results of evaluation, in such form and containing such information as may reasonably be necessary to enable him to perform his functions under this part and shall keep such records and afford such access thereto as the Secretary may find necessary to assure the correctness and verification of such reports.

§ 904.10 Project expenditures.

Grants under this part will be available for the following types of expenditures for approved projects:

(a) Salaries, cost of travel and related expenses of project personnel;

(b) Necessary supplies, equipment, and related expenses;

(c) Purchase or provision of services to individuals served by the project;

(d) Costs of administration and other indirect costs of the project, subject to such limitations as are set forth in the Bureau of the Budget circular A-21, and as the Secretary may establish; and

(e) Such other items as are included in the approved application.

Expenditures shall be in connection with the conduct of the project as approved.

§ 904.11 Interest.

Interest or other income earned on payments under this part must be returned to the Administration on Aging, Department of Health, Education, and Welfare.

§ 904.12 Audits.

All fiscal transactions by a grantee relating to grants under this part are subject to audit by the Office of Audit of the Department to determine whether expenditures have been made in accord-

ance with the Act and this part.

§ 904.13 Publications, copyrights, and inventions.

(a) *Publications.* Grantees under this part may publish results of any projects without prior review by the Administration on Aging, provided that such publications carry a footnote acknowledging assistance received under the Act, and that the claimed findings and conclusions do not necessarily reflect the views of the Administration on Aging, and provided that copies of the publication are furnished to the Administration on Aging.

(b) *Copyright.* Where the grant-supported activity results in a book or other copyrightable material, the author is free to copyright, but the Administration on Aging reserves a royalty-free, nonexclusive, and irrevocable license to reproduce, publish, translate, or otherwise use, and to authorize others to use, all copyrightable or copyrighted material resulting from the grant-supported activity.

(c) *Inventions.* Any invention arising out of the grant-supported activity shall be promptly and fully reported to the Administration on Aging. Ownership and the manner of disposition shall be determined by the Secretary in accordance with Department patent regulations and policy.

CONTRACTS

§ 904.14 Contracts.

(a) *Eligibility.* The Secretary is authorized to make contracts to carry out the purposes of this part with any public or private nonprofit agency, organization or institution (except Federal agencies and institutions), or with any individual, after consulting with the designated State agency.

(b) *Provisions.* Any contract under this part shall be entered into in accordance with and shall conform to all applicable laws, regulations and Department policy.

(c) *Payments.* Payments may be made in advance or by way of reimbursement, and in such installments and on such conditions, as the Secretary may determine. To the extent he deems it appropriate, the Secretary shall require the contractor to contribute money, facilities, or services for carrying out the project for which the contract was made.

905.14 Contracts.

AUTHORITY: The provisions of this Part 905 issued under secs. 101-603, 79 Stat. 218-226; 42 U.S.C. secs. 3001-3053.

PURPOSE

§ 905.1 Purpose.

The Secretary is authorized to make grants or enter into contracts to meet in whole or in part the costs of the specialized training of professional and technical persons employed or preparing for employment in carrying out programs related to the purposes of this Act.

GRANTS

§ 905.2 Eligibility.

The Secretary, after consulting with the designated State agency, is authorized to make grants to any public or nonprofit private agency, organization, or institutions (except Federal agencies and institutions) for paying in whole or part the costs of projects designed to carry out the purposes of this part.

§ 905.3 Application.

Any applicant eligible for a grant award under § 905.2 may file application therefor with the Secretary on such forms and in such detail as the Secretary may prescribe. Such application shall set forth adequately the nature, duration, purpose and plan of the project, the qualifications of the principal staff members to be responsible for the project, the total facilities and resources that will be available, a justification of the amount of the requested grant, and such other pertinent information as the Secretary may require. The application shall be executed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the terms and conditions of any award, including the regulations of this part.

§ 905.4 Nondiscrimination and civil rights.

Attention is called to the requirements of Title VI of the Civil Rights Act of 1964. Section 601 provides that no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance (42 U.S.C. section 2000d). The regulation implementing such Title VI has been issued by the Secretary with the approval of the President (Part 80 of this title) and is applicable to Federal financial assistance extended under this part.

§ 905.5 Project review.

Completed applications will be processed by the Administration on Aging for

submission to a Technical Advisory Committee composed of persons appointed by the Secretary. The applicant may be requested to submit additional information either before or after consideration of the project by the Technical Advisory Committee. All projects which meet the legal requirements for a grant are submitted to the Technical Advisory Committee which makes recommendations to the Secretary. The Secretary then determines the action to be taken with respect to each project and notifies the applicant accordingly.

§ 905.6 Grant awards.

Within the limits of funds available for such purpose, the Secretary will award a grant to those applicants whose approved projects will in his judgment best promote the purposes of the Act and this part. All grant awards shall be in writing, shall set forth the amount of funds granted, and shall constitute for such amounts the encumbrance of Federal funds available for such purpose on the date of the award. The initial award shall also specify the project period for which support is contemplated if the activity is satisfactorily carried out and Federal funds are available. For continuation support, grantees must make separate application in accordance with the provisions of this part.

§ 905.7 Payments.

(a) To the extent he deems it appropriate, the Secretary shall require the recipients of any grant under this part to contribute money, facilities, or services for carrying out the project.

(b) The Secretary shall from time to time make payments to a grantee of all or a portion of any grant award, either in advance or by way of reimbursement for expenses to be incurred or incurred in the project period, to the extent he determines such payments necessary to promote prompt initiation and advancement of the approved project. All such payments shall be recorded by the grantee in accounting records separate from all other fund accounts, including funds derived for other grant awards. Title 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Second Rev. S.O. 935]

PART 95—CAR SERVICE

Appointment of Embargo Agents

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D.C., on the 12th day of October A.D. 1965.

It appearing, that the matter of car service (section 1, paragraphs 10-17 inclusive) of the Interstate Commerce Act being under consideration by Division 3 that whenever any carrier by railroad subject to Part I of the Interstate Commerce Act, is for any reason, unable to control freight traffic movement when car accumulations, threatened congestions, or other interference with operations, of a temporary nature compel restrictions against such movement so as to properly serve the public, that car service will be promoted in the interest of the public and the commerce of the people by the appointment of agents with authority to direct the placement of embargoes, and that notice and public procedure are impracticable and contrary to the public interest and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 95.935 Appointment of embargo agents.

(a) R. D. Pfahler, Director, and H. R. Longhurst, Assistant Director, Bureau of Railroad Safety and Service, Interstate Commerce Commission, Washington,

D.C., and each of them, are hereby appointed Agents of the Interstate Commerce Commission and vested with authority to direct the placement of embargoes by railroads at such points where freight cars are being unduly delayed due to accumulations, congestions or emergency situations.

(b) Embargoes placed under this order shall be at the direction of the Agents of the Commission and shall be published through the Association of American Railroads, Car Service Division, and in conformity with the Association of American Railroads' "Instructions to Govern the Placing and Handling of Embargoes" and the "Code of Car Service and Per Diem Rules—Freight."

(c) Application: The provisions of this order shall apply to cars moving in intrastate and foreign commerce as well as interstate commerce.

(d) Rules, regulations, and practices suspended: The operation of all rules, regulations, and practices insofar as they conflict with the provisions of this order, is hereby suspended.

(e) Effective date: This order shall become effective at 12:01 a.m., October 12, 1965.

(f) Expiration date: The provisions of this order shall expire at 11:59 p.m., December 31, 1965, unless otherwise modified, changed, suspended, or annulled by order of this Commission.

(Sec. 1, 12, 15, 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15; interprets or applied Sec. 1(10-17), 15(4), 40 Stat. 101, as amended, 54 Stat. 911, 49 U.S.C. 1(10-17), 15(4))

It is further ordered, That a copy of this order and direction shall be served upon each State railroad regulatory body, the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Division 3.

SUBCHAPTER B—CARRIERS BY MOTOR VEHICLE

[Ex Parte No. MC-37 (Sub-No. 9)]

PART 170—COMMERCIAL ZONES

Commercial Zones and Terminal Areas; Baltimore, Md.

At a session of the Interstate Commerce Commission, Division 1, acting as

an Appellate Division, held at its office in Washington, D.C., on the 29th day of September A.D. 1965.

It appearing, that on April 16, 1965, the Commission, Operating Rights Review Board No. 2, made and filed its report in this proceeding, 98 M.C.C. 535, and order denying redefinition of the limits of the zone adjacent to and commercially a part of Baltimore, Md., as contemplated by section 203(b)(8) of the Interstate Commerce Act (49 U.S.C. 303(b)(8));

It further appearing, that by order of July 23, 1965, upon consideration of the record, of the joint petition of Baltimore, Md., Office of Industrial Development, Chamber of Commerce of Cockeysville, Chamber of Commerce of Timonium, Greater Towson Chamber of Commerce, and Chamber of Commerce of Metropolitan Baltimore, Inc.; of the petition of Custom Cannery of Baltimore, Inc.; and of the joint reply by Davidson Transfer & Storage Co., Motor Freight Express, Preston Trucking Co., Inc., W. T. Cowan, Inc., R. W. Bozel Transfer, Inc., and Tidewater Express Lines, Inc., protestants, the proceeding was reopened for reconsideration on the present record;

And it further appearing, that reconsideration of the matters and things involved in this proceeding has been given and that the Commission, Division 1, acting as an appellate division, on the date hereof, has made and filed a report on reconsideration herein containing its findings of fact and conclusions thereon, which report on reconsideration and the said report of April 16, 1965, are hereby referred to and made a part hereof:

It is ordered, That the said order of April 16, 1965, be, and it is hereby, vacated and set aside.

It is further ordered, That § 170.21 as prescribed in the order entered in this proceeding on April 26, 1954 (49 CFR 170.21), be, and it is hereby, vacated and set aside, and the following revision is hereby substituted in lieu thereof:

§ 170.21 Baltimore, Md.

The zone adjacent to and commercially a part of Baltimore, Md., within which transportation by motor vehicle, in interstate or foreign commerce, not under a common control, management, or arrangement for a continuous carriage or shipment to or from a point beyond the zone, is partially exempt, under section 203(b)(8) of the Interstate Commerce Act (49 U.S.C. 303(b)(8)), from regulation, includes, and is comprised of, all points as follows:

(a) The municipality of Baltimore itself.

(b) All points within a line drawn 5 miles beyond the boundaries of Baltimore.

(c) All points in that area east of a line described in paragraph (b) of this section, bounded by a line as follows: Beginning at the point where the line described in paragraph (b) of this sec-

tion crosses Dark Head Creek and extending in a southeasterly direction along the center of Dark Head Creek, and beyond to a point off Wilson Point, thence in a northeasterly direction to and along the center of Frog Mortar Creek to Stevens Road, thence northerly along Stevens Road to Eastern Avenue, thence easterly along Eastern Avenue to Bengies Road thence northwesterly along Bengies Road to the right-of-way of the Pennsylvania Railroad Co., thence westerly along such right-of-way to the junction thereof with the line described in paragraph (b) of this section.

(d) All points in that area south of the line described in paragraph (b) of this section bounded on the west by the right-of-way of the line of the Pennsylvania Railroad Co. extending between Stony Run and Severn, Md., and on the south by that part of Maryland Highway 176 extending easterly from the said railroad to its junction with the line described in paragraph (b) of this section.

(e) All points in that area north of the line described in paragraph (b) of this section bounded by a line as follows: Beginning at the junction of the line described in paragraph (b) of this section and the Baltimore-Harrisburg Expressway (Interstate Highway 83), thence northerly along Interstate Highway 83 to its junction with Shawan Road, thence easterly along Shawan Road to its junction with York Road (Maryland Highway 45) and continuing to a point 1,500 feet east of Maryland Highway 45, thence southerly along a line 1,500 feet east of and parallel to Maryland Highway 45 to its junction with the line described in paragraph (b) of this section.

(f) All of any municipality any part of which is within the limits of the combined areas defined in paragraphs (b), (c), (d), and (e) of this section.

(g) All of any municipality wholly surrounded, or so surrounded except for a water boundary, by the city of Baltimore or by any municipality included under the terms of paragraph (f) of this section.

(49 Stat. 546, as amended; 49 U.S.C. 304. Interprets or applies 49 Stat. 543, as amended, 544, as amended; 49 U.S.C. 302, 303)

It is furthered ordered, That this order shall become effective November 15, 1965, and shall continue in effect until the further order of the Commission.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission, Division 1, acting as an appellate division.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 32—HUNTING

Montezuma National Wildlife Refuge, N.Y.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

NEW YORK

MONTEZUMA NATIONAL WILDLIFE REFUGE

Public hunting of deer on the Montezuma National Wildlife Refuge, N.Y., is permitted except on the areas designated by signs as closed. The open area, comprising 6,000 acres, is delineated on maps available at refuge headquarters, 4 miles east of Seneca Falls, N.Y., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Boston, Mass., 02111. Hunting shall be in accordance with all applicable State regulations

covering the hunting of deer subject to the following special condition:

(1) The open season is Saturday, November 6, 1965, only. The provisions of this special regulation supplement the regulations governing hunting on wildlife refuge areas generally, as are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 6, 1965.

EUGENE E. CRAWFORD,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

OCTOBER 8, 1965.

MILLED RICE

Proposed Standards

Pursuant to section 4 of the Administrative Procedure Act (5 U.S.C. 1003), notice is hereby given that the United States Department of Agriculture has under consideration proposed amendments of §§ 68.301(a), 68.302, and 68.303 (a), (b), (c), (d), and (e) of the United States Standards for Milled Rice (7 CFR 68.301 et seq.), for promulgation under authority of the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1621 et seq.).

Public hearings will not be held, but all persons who desire to submit written data, views, or recommendations in connection with the proposal shall file the same in duplicate with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C., 20250, not later than 10 days after publication of this notice in the *FEDERAL REGISTER*. All written submission made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Statement of considerations. The milling requirements in the present milled rice standards, except for the spe-

cial grade Unpolished Milled Rice, provide for two degrees of milling. Such standards provide that grades U.S. No. 1 and U.S. No. 2 milled rice shall be well milled, and that all other grades of milled rice except the special grade Unpolished milled rice, shall be reasonably well milled. The Ricer Millers' Association has requested that, except for the special grade Unpolished milled rice, four degrees of milling be provided in the milled rice standards as follows:

Grades U.S. No. 1 and U.S. No. 2 milled rice shall be well milled; U.S. No. 3 milled rice shall be at least reasonably well milled; U.S. No. 4 milled rice shall be at least lightly milled; and U.S. No. 5 and U.S. No. 6 milled rice shall be at least loosely milled. Under this proposal the present requirements of reasonably well milled would be subdivided; the lowest level of milling for U.S. No. 3 and U.S. No. 4 would be improved, and the lowest level for U.S. No. 5 and U.S. No. 6 would be substantially unchanged.

It appears desirable to base the milling requirements on physical samples of milled rice prepared by the Consumer and Marketing Service showing the lowest level for each different degree of milling, and to make such milling requirements applicable to all classes of milled rice, including Second Head Milled Rice, Screenings Milled Rice, and Brewers Milled Rice.

Accordingly, it is proposed that the Milled Rice Standards be amended in the following respects:

Section 68.301(a) would be revised to read as follows:

§ 68.301 Terms defined.

* * * * *

(a) *Milled rice.* Milled rice shall be whole or broken kernels of rice (*Oryza sativa*) from which the hulls and at least the outer bran layers and a part of the germs have been removed and not more than 10.0 percent of seeds or foreign material either singly or combined.

* * * * *

A new § 68.302(e) would be added to read as follows:

§ 68.302 Principles governing application of standards.

* * * * *

(e) *Milling requirements.* Samples illustrating the lowest level for each degree of milling of milled rice, i.e., "well milled," "reasonably well milled," "lightly milled," "loosely milled," and "unpolished" will be maintained by the Grain Division, Consumer and Marketing Service, and will be available for reference in all rice inspection offices.

§ 68.303 [Amended]

1.a. In §§ 68.303 (a) and (b) the last three sentences in footnote 1 would be changed to read, respectively, as follows:

"U.S. No. 3 may be light gray and shall be at least reasonably well milled. U.S. No. 4 may be gray or slightly rosy and shall be at least lightly milled. U.S. No. 5 and U.S. No. 6 may be dark gray or rosy and shall be at least loosely milled."

b. Footnote 1 in said paragraphs (a) and (b) would then read as follows:

¹ Color and milling requirements: U.S. No. 1 shall be white or creamy and shall be well milled. U.S. No. 2 may be slightly gray and shall be well milled. U.S. No. 3 may be light gray and shall be at least reasonably well milled. U.S. No. 4 may be gray or slightly rosy and shall be at least lightly milled. U.S. No. 5 and U.S. No. 6 may be dark gray or rosy and shall be at least loosely milled.

2. a. In § 68.303(c) the last three sentences of footnote 1 would be changed to read, respectively, as follows: "U.S. No. 3 may be light gray and shall be at least reasonably well milled. U.S. No. 4 may be gray or slightly rosy and shall be at least lightly milled. U.S. No. 5 may be dark gray or rosy and shall be at least loosely milled."

b. Footnote 1 in said paragraph (c) would then read as follows:

¹ Color and milling requirements: U.S. No. 1 shall be white or creamy and shall be well milled. U.S. No. 2 may be slightly gray and shall be well milled. U.S. No. 3 may be light gray and shall be at least reasonably well milled. U.S. No. 4 may be gray or slightly rosy and shall be at least lightly milled. U.S. No. 5 may be dark gray or rosy and shall be at least loosely milled.

3 a. In § 68.303(d) the last three sentences of footnote 1 would be changed to read as follows: "U.S. No. 3 may be light gray or slightly rosy and shall be at least reasonably well milled. U.S. No. 4 may be gray or rosy and shall be at least lightly milled. U.S. No. 5 may be dark gray or very rosy and shall be at least loosely milled."

b. Footnote 1 in said paragraph (d) would then read as follows:

¹ Color and milling requirements: U.S. No. 1 shall be white or creamy and shall be well milled. U.S. No. 2 may be slightly gray and shall be well milled. U.S. No. 3 may be light gray or slightly rosy and shall be at least reasonably well milled. U.S. No. 4 may be gray or rosy and shall be at least lightly milled. U.S. No. 5 may be dark gray or very rosy and shall be at least loosely milled.

4. a. In § 68.303(e) the color and milling requirements for grades U.S. No. 3, U.S. No. 4, and U.S. No. 5 would be changed to read, respectively, as follows:

"May be light gray or slightly rosy and shall be at least reasonably well milled."

"May be gray or rosy and shall be at least lightly milled."

"May be dark gray or very rosy and shall be at least loosely milled."

b. The table in said paragraph (e) insofar as it lists the numerical grades and the respective color and milling re-

quirements therefor would then read as follows:

<i>Grade</i>	<i>Color and milling requirements</i>
U.S. No. 1-----	Shall be white or creamy and shall be well milled.
U.S. No. 2-----	May be slightly gray and shall be well milled.
U.S. No. 3-----	May be light gray or slightly rosy and shall be at least reasonably well milled.
U.S. No. 4-----	May be gray or rosy and shall be at least lightly milled.
U.S. No. 5-----	May be dark gray or very rosy and shall be at least loosely milled.

Done at Washington, D.C., this 13th day of October 1965.

FEDERAL AVIATION AGENCY

[14 CFR Part 39]

[Docket No. 6103]

AIRWORTHINESS DIRECTIVES

Boeing Model 727 Series Airplanes

Amendment 776 (29 F.R. 10503), AD 64-17-2, requires inspection, and repair where necessary, of the flanges at the trailing edge hinge fittings of the stabilizer ribs at specific stations on Boeing Model 727 Series airplanes. Subsequent to the issuance of Amendment 776, the Agency has determined that, due to additional reports of cracking at elevator stations not covered in Amendment 776, it is necessary to provide for additional inspection of such elevator stations and the stabilizer trailing edge beam. The applicability statement is also amended to include all affected airplanes. Therefore, it is proposed to amend Part 39 of the Federal Aviation Regulations by adding an airworthiness directive superseding Amendment 776 to require additional inspection of flanges and fittings at specific elevator stations and the stabilizer trailing edge beam, and to have the directive apply to other airplanes of the subject type.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Agency, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C., 20553. All communications received on or before November 18, 1965, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423). In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

BOEING. Applies to Model 727 Series airplanes listed in Boeing Service Bulletin 55-15.

Compliance required as indicated. Cracks have occurred in flanges of the trailing edge hinge fittings of the stabilizer ribs at specific stations and in the stabilizer trailing edge beam. These failures have been attributed to high frequency oscillation of the closing panels and the trailing edge beam. In order to correct this problem, accomplish the following of an equivalent approved by the Aircraft Engineering Division, FAA Western Region:

(a) Within 200 hours' time in service after the effective date of this AD, and at intervals not to exceed 200 hours' time in service thereafter, comply with either subparagraph (1) or (2).

(1) Visually inspect for cracks in the stabilizer trailing edge lower beam between Elevator Stations 173.21 and 209.96. Indication of a crack in the beam may be confirmed by a dye penetrant inspection. Inspect for cracks in the lower and upper flanges of hinge fittings in accordance with paragraph I.C. of Service Bulletin 55-7 and paragraph I.C. of Service Bulletin 55-15 as revised by 55-15C, or later FAA-approved revisions to these Service Bulletins.

(2) Visually inspect for cracks in the stabilizer trailing edge lower beam between Elevator Stations 173.21 and 209.96, in the

lower flange of the hinge fitting at Elevator Stations 50.50, 99.79, 136.50, and 173.21 and in the upper flange of the hinge fitting at Elevator Station 50.50 at the fastener locations. Indication of a crack may be confirmed by a dye penetrant inspection.

(b) Repair cracked parts before further flight in accordance with a repair approved by the Chief, Aircraft Engineering Division, FAA Western Region.

(c) When an airplane has been modified in accordance with Paragraph II of Service Bulletin 55-7 and Paragraph II of Service Bulletin 55-15 as revised by 55-15C, or FAA-approved revisions to these Service Bulletins, the repetitive inspections specified herein may be discontinued. When an airplane has been modified in accordance with Paragraph II of Service Bulletin 55-7 only, or later FAA-approved revisions to this Service Bulletin, the repetitive inspections specified herein for Elevator Stations 50.50, 99.79, and 136.50 may be discontinued. Immediately prior to accomplishing any modification, inspect in accordance with either subparagraph (a) (1) or (a) (2) and if cracks are found, repair in accordance with paragraph (b).

This supersedes Amendment 776 (29 F.R. 10503), AD 64-17-2.

(Boeing Service Bulletins 55-7 and 55-15 as revised by 55-15C, or FAA-approved revisions to these Service Bulletins, cover this same subject.)

Issued in Washington, D.C., on October 12, 1965.

INTERSTATE COMMERCE COMMISSION

[49 CFR Parts 71-90]

[Docket No. 34650; Notice No. 1]

EXPLOSIVES AND OTHER DANGEROUS ARTICLES

Pipeline Transportation

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D.C., on the 5th day of October A.D. 1965.

It appearing, that Public Law 89-95, approved July 27, 1965, amending Title 18 USC 831-835, requires this Commission to institute effective regulation of pipeline safety for the transportation of explosives and other dangerous articles (other than natural gas and water), and that a proceeding should be instituted for the purpose of formulating such regulations.

It further appearing that in implementation of this statutory mandate there must be developed, initially, a standard code for pressure piping for inclusion in any pipeline regulations to be adopted by this Commission; therefore this proceeding will be limited to the invitation and receipt of representations setting forth views and recommended specifications for the materials to be used in, and the design, construction, fabrication, inspection and testing of pipeline transportation systems; therefore;

It is ordered, That a proceeding be, and it is hereby, instituted under the authority of 18 USC 831-835, as amended, and section 4 of the Administrative Procedure Act, 5 USC 1003 for the purpose of formulating regulations for the safe transportation by pipeline within the United States of explosives and other dangerous articles (other than natural gas or water), including radioactive materials, etiologic agents, flammable liquids, flammable solids, oxidizing materials, corrosive liquids, compressed gases, and poisonous substances, which shall be binding upon all carriers engaged in interstate or foreign commerce which transport explosives or other dangerous articles (other than natural gas or water), by pipeline, and upon all shippers making shipments of explosives or other dangerous articles (other than natural gas or water), via any carrier engaged in interstate or foreign commerce by pipeline.

It is further ordered, That all carriers by pipeline of explosives and other dangerous articles in interstate or foreign commerce be, and they are hereby, made respondents in this proceeding; that state regulatory commissions and state, county, and municipal authorities having jurisdiction over pipeline operations with respect to safety of operation, motor carrier associations, manufacturers of pipelines, and other interested persons are invited to participate in this proceeding with a view toward developing a full and complete record.

It is further ordered, That all interested parties, including manufacturers, shippers, or carriers whether or not subject to the jurisdiction of the Commission under the provisions of 18 U.S.C. 831-835 or other statutes be, and they are hereby, invited to submit to this Commission, on or before December 31, 1965, representations, consisting of an original and 5 copies, setting forth their views and recommended specifications for the materials to be used in, and the design, construction, fabrication, inspection, and testing of pipelines to be operated by pipeline carriers engaged in interstate and foreign commerce in the transportation of explosives and other dangerous articles (other than natural gas or water).

It is further ordered, That a copy of such representations be served on the following parties of known interest:

Liquefied Petroleum Gas Assn., Inc.,

RAILROAD FREIGHT CAR OWNERSHIP, CAR UTILIZATION, DISTRIBUTION, RULES AND PRACTICES

Investigation of Adequacy

At a session of the Interstate Commerce Commission, Division 3, held at its Office in Washington, D.C., on the 12th day of October A.D. 1965.

Preliminary examination of the information furnished by respondents on or

before September 1, 1965, pursuant to the instructions contained in appendix B to the order of July 29, 1964, as modified by order dated October 19, 1964, reveals substantial discrepancies which should be corrected prior to further proceedings herein. Therefore,

It is ordered, That subparagraphs numbered 5, 6, and 7 in the fourth ordering paragraph of the order of July 29, 1964, as modified by the order dated October 19, 1964, be further modified to read as follows:

5. Prior to March 1, 1966, any party to the proceeding may file (original, signed in ink, and 20 copies) and serve (the service list is attached to the order dated May 17, 1965) a verified¹ statement of relevant facts and any argument he desires to make. Where both facts and arguments are included in the same document, they shall be set forth under separate headings. Such document should, where appropriate, contain a discussion of any proposed rules including a detailed justification therefor, a discussion of the proper formula or formulas to be used in determining the adequacy of freight car ownership by type by individual carriers and a discussion by respondents of the subjects listed in appendix G.

6. Prior to April 15, 1966, any party may file and serve replies to the initial statements.

7. Prior to May 16, 1966, any party may file and serve a request for oral hearing, together with justification therefor. Any reply thereto must be filed and served prior to May 31, 1966.

It is further ordered, That all other provisions of the aforesaid order of July 29, 1964, as modified, shall remain in full force and effect.

And it is further ordered, That a copy of this order be served upon those persons shown on the service list published with the order dated May 17, 1965; that a copy be posted in the office of the Secretary of this Commission, and that a copy be delivered to the Director, Division of Federal Register, for publication in the FEDERAL REGISTER.

By the Commission, Division 3.

DINITROSOPENTAMETHYLENETETRAMINE FROM JAPAN

Determination of Sales at Not Less Than Fair Value

OCTOBER 12, 1965.

On September 1, 1965, there was published in the FEDERAL REGISTER a Notice of Intent to Discontinue Investigation and to Make Determination That No Sales Exist Below Fair Value because of price revisions with respect to two exporters, and because of termination of sales with respect to a third exporter of dinitrosopentamethylenetetramine imported from Japan.

The price revisions and termination of sales occurred soon after the exporters were advised that price discriminations existed with respect to their sales. The complaint was withdrawn based on the assurances that there would be no resumption of sales at prices which could be likely to be below fair value.

No persuasive evidence or argument to the contrary having been presented within 30 days of the publication of the above-mentioned notice in the FEDERAL REGISTER, I hereby determine that because of such price revisions, and termination of sales, dinitrosopentamethylenetetramine from Japan is not being, nor likely to be, sold at less than fair value within the meaning of section 201 (a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)).

This determination and the statement of the reasons therefor are published pursuant to section 201(c) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(c)).

LIGHTERS FROM JAPAN

Determination of Sales at Not Less Than Fair Value

OCTOBER 12, 1965.

On September 1, 1965, there was published in the FEDERAL REGISTER a Notice of Tentative Determination that lighters, pocket, cigar and cigarette, butane gas-fueled, imported from Japan are not being, nor likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)).

The statement of reasons for the tentative determination was published in the above-mentioned notice, and interested parties were afforded until October 1, 1965, to make written submissions or to request in writing an opportunity to present views in connection with the tentative determination.

No written submissions or requests having been received, I hereby determine that for the reasons stated in the tentative determination lighters, pocket, cigar and cigarette, butane gas-fueled, imported from Japan are not being, nor likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)).

This determination is published pursuant to section 201(c) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(c)).

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation SALES OF CERTAIN COMMODITIES

October 1965 CCC Monthly Sales List

Notice to buyers. Pursuant to the policy of Commodity Credit Corporation issued October 12, 1954 (19 F.R. 6669), and subject to the conditions stated therein as well as herein, the commodities listed below are available for sale and, where noted, for redemption of payment-in-kind certificates on the price basis set forth.

The prices at which Commodity Credit Corporation commodity holdings are available for sale during October 1965 are as announced by the U.S. Department of Agriculture. The following commodities are available: Butter, cheddar cheese, nonfat dry milk, cotton (upland and extra long staple), wheat, corn, oats, barley, rye, rice, grain sorghum, peanuts, flax, and linseed oil.

The deletion of dry edible beans is the only change in commodities from the September list.

With the 1965-crop marketing year beginning October 1 for corn, the October list includes formula minimum pricing based on the 1965 price-support program. The beginning markups used in CCC minimum sales prices for corn in-store have been adjusted to reflect Uniform Grain Storage Agreement truck receiving charges. A similar adjustment was made for the other grains in July.

Corn, oats, barley or grain sorghum, as determined by CCC, will be sold for

unrestricted use for "Dealers' Certificates" issued under the emergency livestock feed program. Grain delivered against such certificates will be sold at the applicable current market price, determined by CCC.

In the following listing of commodities and sales prices or method of sales, "unrestricted use" applies to sales which permit either domestic or export use and "export" applies to sales which require export only. CCC reserves the right to determine the class, grade, quality and available quantity of commodities listed for sale.

The CCC Monthly Sales List, which varies from month to month as additional commodities become available or commodities formerly available are dropped, is designed to aid in moving CCC's inventories into domestic or export use through regular commercial channels.

If it becomes necessary during the month to amend this list in any material way—such as by the removal or addition of a commodity in which there is general interest or by a significant change in price or method of sale—an announcement of the change will be sent to all persons currently receiving the list by mail from Washington. To be put on this mailing list; address: Director, Procurement and Sales Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C., 20250.

Interest rates per annum under the CCC Export Credit Sales Program (Announcement GSM-3) for October 1965 are 4½ percent for periods up to and including 12 months, and 5 percent for periods from over 12 months up to a maximum of 36 months. Commodities currently offered for sale by CCC, plus tobacco from CCC loan stocks, are available for export sale under the CCC Export Credit Sales Program as provided under specific commodity listings. Commodities from private stocks now eligible for financing under the CCC Export Credit Sales Program include wheat, wheat flour, bulgur, corn, cornmeal, grain sorghum, upland and extra long staple cotton, tobacco, milled and brown rice, cottonseed oil, soybean oil, and dairy products.

The following commodities are available for programming under Title IV, P.L. 480, private trade agreements: Wheat, corn, rice, grain sorghum, upland and extra long staple cotton, tobacco from CCC loan stocks, butter, cheese, and nonfat dry milk. In addition, other surplus agricultural commodities are also eligible for Title IV programming. Information on commodities available under this program, and current information on interest rates and other phases of the program may be obtained from the Office of the General

Sales Manager, Foreign Agricultural Service, U.S. Department of Agriculture, Washington, D.C., 20250.

The following commodities are currently available for barter: Cotton (upland and extra long staple), tobacco, wheat, corn, grain sorghum, butter, and nonfat dry milk. (In addition, free market stocks of cottonseed and soybean oils are eligible for barter programming.) This list is subject to change from time to time.

The CCC will entertain offers from responsible buyers for the purchase of any commodity on the current list. Offers accepted by CCC will be subject to the terms and conditions prescribed by the Corporation. These terms include payment by cash or irrevocable letter of credit before delivery of the commodity, and the conditions require removal of the commodity from CCC stocks within a reasonable period of time. Where sales are for export, proof of exportation is also required, and the buyer is responsible for obtaining any required U.S. Government export permit or license. Purchases from CCC shall not constitute any assurance that any such permit or license will be granted by the issuing authority.

Applicable announcements containing all terms and conditions of sale will be furnished upon request. For easy reference a number of these announcements are identified by code number in the following list. Interested persons are invited to communicate with the Agricultural Stabilization and Conservation Service, USDA, Washington, D.C., 20250, with respect to all commodities or—for specified commodities—within the designated ASCS Commodity Office.

Commodity Credit Corporation reserves the right to amend, from time to time, any of its announcements. Such amendments shall be applicable to and be made a part of the sale contracts thereafter entered into.

CCC reserves the right to reject any or all offers placed with it for the purchase of commodities pursuant to such announcements.

CCC reserves the right to refuse to consider an offer, if CCC does not have adequate information of financial responsibility of the offeror to meet contract obligations of the type contemplated in this announcement. If a prospective offeror is in doubt as to whether CCC has adequate information with respect to his financial responsibility, he should either submit a financial statement to the office named in the invitation prior to making an offer, or communicate with such office to determine whether such a statement is desired in his case. When satisfactory financial responsibility has not been established, CCC reserves the right to consider an offer only upon submission by offeror of a certified or cashier's check, a bid bond, or other security, acceptable to CCC, assuring that if the offer is accepted, the offeror will comply with any provisions of the contract with respect to payment

for the commodity and the furnishing of performance bond or other security acceptable to CCC.

Disposals and other handling of inventory items often result in small quantities at given locations or in qualities not up to specifications. These lots are offered by the appropriate ASCS office promptly upon appearance and therefore, generally, they do not appear in the monthly Sales List.

On sales for which the buyer is required to submit proof to CCC of exportation the buyer shall be regularly engaged in the business of buying or selling commodities and for this purpose shall maintain a bona fide business office in the United States, its territories or possessions and have a person, principal, or resident agent upon whom service of judicial process may be had.

Prospective buyers for export should note that generally, sales to United States Government agencies, with only minor exceptions will constitute domestic unrestricted use of the commodity.

Commodity Credit Corporation reserves the right, before making any sales, to define or limit export areas.

The Department of Commerce, Bureau of International Commerce, pursuant to regulations under the Export Control Act of 1949, prohibits the exportation or re-exportation by anyone of any commodities under this program to Cuba, the Soviet Bloc or Communist-controlled areas of the Far East including Communist China, North Korea, and the Communist-controlled area of Vietnam, except under validated license issued by the U.S. Department of Commerce, Bureau of International Commerce.

For all exportations, one of the destination control statements specified in Commerce Department regulations (Comprehensive Export Schedule § 379.10(c)) is required to be placed on all copies of the shipper's export declaration, all copies of the bill of lading, and all copies of the commercial invoices. For additional information as to which destination control statement to use, the exporter should communicate with the Bureau of International Commerce or one of the field offices of the Department of Commerce.

Exporters should consult the applicable Commerce Department regulations for more detailed information if desired and for any changes that may be made therein.

SALES PRICE OR METHOD OF SALE
WHEAT, BULK

Unrestricted use.

A. *Nonstorable.* Such dispositions of nonstorable wheat as CCC may designate will be made at not less than market price, as determined by CCC.

B. All sales of storable wheat for unrestricted use have been suspended until further notice. However, the following markups and examples are furnished for use in any upward adjustment in price which becomes necessary under CCC sales programs.

C. *Markup and examples (dollars per bushel—in store).*

Markup in-store received by—		Examples—Agricultural Act of 1949 Stat. minimum ²

CORN, BULK

Unrestricted use.

A. *Redemption of domestic payment-in-kind certificates.* Such CCC dispositions of corn as CCC may designate will be in redemption of certificates or rights represented by pooled certificates under a feed grain program. The price at which corn shall be valued for such dispositions shall be the highest of (a) market price as determined by CCC, (b) a minimum price for such corn as determined by CCC and, (c) the payment-in-kind formula price for such redemptions. Such formula price shall be the applicable 1965 price-support loan rate for the class, grade and quality of the corn plus the amount shown in C of this unrestricted use section.

B. *General sales.*

1. *Storable.* Such CCC dispositions of storable corn, as CCC may designate as general sales, will be made during the month at market price, but not less than the Agricultural Act of 1949 formula minimum price for such sales which is 105 percent of the applicable 1965 price-support rate² (published loan rate plus 20 cents per bushel) for the class, grade, and quality of the corn, plus the amount shown in C of this unrestricted use section. For corn in store at other than the point of production, the freight and handling charges from point of production to the present point of storage will also be added. CCC will normally make general sales of corn when dispositions of such corn are not being made against domestic payment-in-kind certificates.

2. *Nonstorable.* Such dispositions of nonstorable corn as CCC may designate as general sales will be made at not less than market price, as determined by CCC.

C. *Markups and examples (dollars per bushel in-store¹ basis No. 2 yellow corn, 14 percent M.T., 2 percent F.M.).*

Order Denying Export Privileges for an Indefinite Period

In the matter of Amos (Machinery), Ltd., Forge Garage, Middleton (Ludlow), Shropshire, England, respondent; File No. 23(65)-22.

The Director, Investigations Division, Office of Export Control, Bureau of International Commerce, U.S. Department of Commerce, has applied for an order denying to the above-named respondent all export privileges for an indefinite period because the said respondent failed to furnish answers to interrogatories and failed to furnish certain records and other writings specifically requested, without good cause being shown. This application was made pursuant to § 382.15 of the Export Regulations (Title 15, Chapter III, Subchapter B, Code of Federal Regulations).

In accordance with the usual practice, the application for an Indefinite Denial Order was referred to the Compliance Commissioner, Bureau of International Commerce, who after consideration of the evidence has recommended that the application be granted. The report of the Compliance Commissioner and the evidence in support of the application have been considered.

The evidence presented shows that the respondent Amos (Machinery), Ltd., is a private limited liability company with a place of business in Middleton (Ludlow) Shropshire, England; that Lionel Amos has a responsible role in the management of the affairs of said firm; that the firm is engaged in importing and exporting earthmoving machinery, diesel engines and parts, trucks, and marine supplies; that the firm purchased and received from a supplier in the United States several shipments of U.S.-origin commodities consisting of accessories and parts for diesel engines. The aforesaid Investigations Division is conducting an investigation into the disposition by said respondent of said commodities. It is impracticable to subpoena the respondent, and relevant and material interrogatories and request to furnish certain specific documents relating to its disposition of said commodities were served on it pursuant to § 382.15 of the Export Regulations. Said respondent has failed to furnish answers to said interrogatories or to furnish the documents requested, as required by said section, and it has not shown good cause for such failure. I find that an order denying export privileges to said respondent for an indefinite period is reasonably necessary to protect the public interest and to achieve effective enforcement of the Export Control Act of 1949, as amended.

Accordingly, it is hereby ordered:

I. All outstanding validated export licenses in which respondent appears or participates in any manner or capacity are hereby revoked and shall be returned forthwith to the Bureau of International Commerce for cancellation.

II. The respondent, its successors, representatives, agents, and employees hereby are denied all privileges of participating, directly or indirectly, in any manner or capacity, in any transaction involving commodities or technical data exported from the United States in whole or in part, or to be exported, or which are otherwise subject to the Export Regulations. Without limitation of the generality of the foregoing, participation prohibited in any such transaction, either in the United States or abroad, shall include participation, directly or indirectly, in any manner or capacity: (a) As a party or as a representative of a party to any validated export license application; (b) in the preparation or filing of any export license application or reexportation authorization, or any document to be submitted therewith; (c) in the obtaining or using of any validated or general export license or other export control document; (d) in the carrying on of negotiations with respect to, or in the receiving, ordering, buying, selling, delivering, storing, using, or disposing of any commodities or technical data in whole or in part exported or to be exported from the United States; and (e) in the financing, forwarding, transporting, or other servicing of such commodities or technical data.

III. Such denial of export privileges shall extend not only to the respondent, but also to its agents and employees, including Lionel Amos. Such denial of export privileges shall also extend to any person, firm, corporation, or business organization with which the respondent now or hereafter may be related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of trade or services connected therewith.

IV. This order shall remain in effect until the respondent provides responsive answers, written information and documents in response to the interrogatories heretofore served upon it or gives adequate reasons for failure to do so, except insofar as this order may be amended or modified hereafter in accordance with the Export Regulations.

V. No person, firm, corporation, partnership or other business organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Bureau of International Commerce, shall do any of the following acts, directly or indirectly, or carry on negotiations with respect thereto, in any manner or capacity, on behalf of or in any association with the respondent or any related party, or whereby the respondent or related party may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly: (a) Apply for, obtain, transfer, or use any license, Shipper's Export Declara-

tion, bill of lading, or other export control document relating to any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States, by, to, or for any such respondent or related party denied export privileges; or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States.

VI. A copy of this order shall be served on respondent.

VII. In accordance with the provisions of § 382.15 of the Export Regulations, the respondent may move at any time to vacate or modify this Indefinite Denial Order by filing with the Compliance Commissioner, Bureau of International Commerce, U.S. Department of Commerce, Washington, D.C., 20230, an appropriate motion for relief, supported by substantial evidence, and may also request an oral hearing thereon, which, if requested shall be held before the Compliance Commissioner at Washington, D.C., at the earliest convenient date.

This order shall become effective October 19, 1965.

Dated: September 20, 1965.

Director, Office of Export Control.

**JOHN H. BRISTOW AND JOHN
BRISTOW, LTD.**

**Order Denying Export Privileges for
an Indefinite Period**

In the matter of John Bristow, Ltd., 36 Overdale Road, Ealing, London W.5, England; John H. Bristow, 36 Overdale Road, Ealing, London W.5, England, respondents; File No. 23-1002.

The Director, Investigations Division, Office of Export Control, Bureau of International Commerce, U.S. Department of Commerce, has applied for an order denying to the above-named respondents all export privileges for an indefinite period because the said respondents failed to furnish answers to interrogatories and failed to furnish certain records and other writings specifically requested, without good cause being shown. This application was made pursuant to § 382.15 of the Export Regulations (Title 15, Chapter III, Subchapter B, Code of Federal Regulations).

In accordance with the usual practice, the application for an Indefinite Denial Order was referred to the Compliance Commissioner, Bureau of International Commerce, who after consideration of the evidence has recommended that the application be granted. The report of the Compliance Commissioner and the evidence in support of the application have been considered.

The evidence presented shows that John Bristow, Ltd., is a corporation located in London, England, and is a dealer in automotive and engine spare parts, and that the respondent John H. Bristow, also of London, is a director in said firm and is its principal official. The aforesaid Investigations Division is conducting an investigation into the activities of said John Bristow, Ltd., in requesting price quotations for and in ordering automotive parts from U.S. suppliers; and also into the activities of said firm in handling and disposing of several shipments of automotive parts exported to it from the United States to determine whether said commodities were reexported to unauthorized destinations. It is impracticable to subpoena the respondents, and relevant and material written interrogatories and requests to furnish certain specific documents relating to the matters under investigation were served on them pursuant to § 382.15 of the Export Regulations. The respondents have failed to furnish responsive answers to certain of the interrogatories and have failed completely to answer other interrogatories, and they have not furnished the documents requested, all as required by said section. They have not shown good cause for such failure. I find that an order denying export privileges to said respondents for an indefinite period is reasonably necessary to protect the public interest and to achieve effective enforcement of the Export Control Act of 1949, as amended.

The evidence presented shows that said John H. Bristow is a director of and a principal shareholder in the following firms:

Bristow (Plant Hire), Ltd., (formerly called Bristow and Halliday, Ltd., 120/121 Newgate Street, London, E.C.1, England.
Bristow-Huppert Properties, Ltd., 28 Uxbridge Road, London, W.5., England.

By reason of the ownership, control, position of responsibility, and affiliation that the respondent John H. Bristow has in said firms, and to prevent evasion of this order, it is hereby determined that within the purview of § 382.1(b) of the Export Regulations the said firms are related parties to said respondent. All of the provisions and restrictions of the following denial order are applicable to said related parties.

It is hereby ordered:

I. All outstanding validated export licenses in which respondents appear or participate in any manner or capacity are hereby revoked and shall be returned forthwith to the Bureau of International Commerce for cancellation.

II. The respondents, their representatives, agents, and employees hereby are denied all privileges of participating, directly or indirectly, in any manner or capacity, in any transaction involving commodities or technical data exported from the United States in whole or in part, or to be exported, or which are otherwise subject to the Export Regulations. Without limitation of the generality of the foregoing, participation prohibited in any such transaction, either in the United States or abroad, shall in-

clude participation, directly or indirectly, in any manner or capacity: (a) As a party or as a representative of a party to any validated export license application; (b) in the preparation or filing of any export license application or reexportation authorization, or any document to be submitted therewith; (c) in the obtaining or using of any validated or general export license or other export control document; (d) in the carrying on of negotiations with respect to, or in the receiving, ordering, buying, selling, delivering, storing, using, or disposing of any commodities or technical data in whole or in part exported or to be exported from the United States; and (e) in the financing, forwarding, transporting, or other servicing or such commodities or technical data.

III. Such denial of export privileges shall extend not only to the respondents, but also to their agents and employees and to any person, firm, corporation, or business organization with which they now or hereafter may be related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of trade or services connected therewith.

IV. This order shall remain in effect until the respondents provide responsive answers, written information, and documents in response to the interrogatories heretofore served upon them or give adequate reasons for failure to do so, except insofar as this order may be amended or modified hereafter in accordance with the Export Regulations.

V. No person, firm, corporation, partnership or other business organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Bureau of International Commerce, shall do any of the following acts, directly or indirectly, or carry on negotiations with respect thereto, in any manner or capacity, on behalf of or in any association with the respondents or any related party, or whereby the respondents or any related party may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly: (a) Apply for, obtain, transfer or use any license, Shipper's Export Declaration, bill of lading, or other export control document relating to any exportation, reexportation, transshipment or diversion of any commodity or technical data exported or to be exported from the United States, by, to, or for any such respondent or related party denied export privileges; or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in any exportation, reexportation, transshipment, or diversion or any commodity or technical data exported or to be exported from the United States.

VI. A copy of this order shall be served on respondents.

VII. In accordance with the provisions of § 382.15 of the Export Regulations, the respondents may move at any time to vacate or modify this Indefinite Denial Order by filing with the Compliance Commissioner, Bureau of International

Commerce, U.S. Department of Commerce, Washington, D.C., 20230, an appropriate motion for relief, supported by substantial evidence, and may also request an oral hearing thereon, which, if requested shall be held before the Compliance Commissioner at Washington, D.C., at the earliest convenient date.

This order shall become effective on October 19, 1965.

Dated: September 21, 1965.

Thence N. 89°45' W., 2,510 feet along established line, establishing SW. corner Yard "C";

Thence N. 20°00' E., 1,450 feet along established line;

Thence N. 2°30' E., 2,700 feet along established line;

Thence N. 30°00' E., 510 feet along established line, establishing NW. corner Yard "C";

Thence N. 89°45' E., 600 feet along established line, establishing SW. corner Division "B" Burning Ground;

Thence N. 3°00' W., 3,670 feet along established line to NW. corner of Burning Ground.

Division "B" Area, Yard "L".

From a lead plug in the pavement of the road known as U.S. Highway No. 34 in the NE. corner of sec. 31, T. 70 N., R. 3 W. of the 5th principal meridian;

Thence S. 0°47' E., 1,830 feet along the E. boundary line of said sec. 31;

Thence N. 89°52' W., 130 feet to the point of beginning;

Thence N. 89°52' W., 1,724 feet along the N. outside walls of warehouses 11-37-1, 11-37-2, and 11-37-3, forming the N. boundary line of Division "B" Area, Yard "L";

Thence S. 0°8' W., 370 feet on a line 50 feet W. of a chain link fence and forming the W. boundary line of said property;

Thence S. 89°52' E., 1,724 feet on a line 50 feet S. of a chain link fence and forming the S. boundary line of said property;

Thence N. 0°8' E., 370 feet on a line 50 feet E. of a chain link fence and forming the E. boundary line of said property, to the point of beginning;

All the above property lies in sec. 31, T. 70 N., R. 3 W. of the 5th principal meridian and contains 14.64 acres more or less.

Firing site area.

Commencing at a stone at the NW. corner of sec. 11, T. 69 N., R. 4 W. of the 5th principal meridian;

Thence N. 89°19' E., 2,340 feet along the N. boundary of said sec. 11 to the point of beginning;

Thence N. 1°35' W., 100 feet along a line known as the firing site boundary 50 feet W. of the firing site fence, to a point on the centerline of the railroad known as the central running track, intersecting the railroad tangent whose bearing is N. 40°24' E. at the point;

Thence along the curve to the N. whose radius is 2,000 feet for a distance of 1,199 feet to a point on the boundary 50 feet N. of the firing site fence;

Thence N. 89°18' E., 2,310 feet along a line known as the firing site boundary, 50 feet N. of the fence;

Thence S. 45°03' E., 1,667 feet along a line known as the firing site boundary, 50 feet NE. of the fence;

Thence S. 6°23' E., 3,100 feet along a line known as the firing site boundary, 50 feet E. of the fence;

Thence S. 44°20' W., 2,160 feet along a line known as the firing site boundary, 50 feet SE. of the fence;

Thence N. 85°24' W., 325 feet to the intersection of the centerline of the road to Line III-A and the firing site; entrance road;

Thence N. 71°48' W., 500 feet along the centerline of the road leading to Line III-A to a point at which the centerlines of the road leading to the E. gate of Line III-A and the road along the S. boundary of Line III-A intersect;

Thence N. 55°26' W., 1,080 feet along the centerline of the road leading to the E. gate of Line III-A to a point in the centerline of the road at said gate;

Thence N. 34°34' E., 200 feet along the common boundary fence for Line III-A and the firing site area;

Thence N. 55°26' W., 1,955 feet along the common boundary fence for Line III-A and the firing site area;

CONNECTICUT ADVANCED NUCLEAR ENGINEERING LABORATORY SITE (CANEL)

Trespassing on Commission Property

Notice is hereby given that the Atomic Energy Commission, pursuant to section 229 of the Atomic Energy Act of 1954, as amended, as implemented by 10 CFR Part 160 published in the FEDERAL REGISTER on August 16, 1963 (28 F.R. 8400), prohibits the unauthorized entry, as provided in 10 CFR 160.3, and the unauthorized introduction of weapons or dangerous materials, as provided in 10 CFR 160.4, into or upon the site of the Connecticut Advanced Nuclear Engineering Laboratory (CANEL) of the Atomic Energy Commission, said site being an approximately rectangular tract of land measuring in a north/south direction approximately 4,500 feet, and in an east/west direction approximately 2,800 feet; located within the limits of the city of Middletown (Middlesex County), State of Connecticut, containing approximately 529.68 acres of land and enclosed by a 7-foot chain link fence topped with three strands of barbed wire. The approximate coordinates of said chain link fence, taken from the Connecticut Grid System, are as follows:

Northwest corner, E. 650200, N. 260900.
Northeast corner, E. 652300, N. 260600.
Southeast corner, E. 653200, N. 257000.
Southwest corner, E. 650800, N. 256800.

The property is located along the western bank of the Connecticut River, and a branch of the New York, New Haven & Hartford

Railroad passes along the eastern edge of the property between the chain link fence and the Connecticut River bank.

Access to this fenced-in tract of land is by an unnumbered State of Connecticut highway which begins at Connecticut Route No. 9 and stretches in a northeasterly direction approximately 2.5 miles to termination at the site.

Notices stating the pertinent prohibitions of 10 CFR 160.3 and 160.4 and penalties of 10 CFR 160.5 will be posted at all entrances of said tract and at intervals along its perimeter as provided in 10 CFR 160.6.

Dated at Washington, D.C., this 12th day of October 1965.

The Atomic Energy Commission installation known as the Oak Ridge Gaseous Diffusion Plant, Area 1, located in the Second Civil District of Roane County, Tenn., within the corporate limits of the city of Oak Ridge, on the N. side of Oak Ridge Turnpike approximately 1 mile E. of Gallaher Bridge spanning the Clinch River. Said installation covers approximately 379 acres, more or less, is bounded on the W. by Poplar Creek, on the E. by Blair Road, on the S. by Oak Ridge Turnpike, and on the N. by open Government land, and is enclosed by a 6-foot chain link fence topped with three strands of barbed wire.

The Atomic Energy Commission installation known as the Oak Ridge Gaseous Diffusion Plant, Area 2, located in the Second Civil District of Roane County, Tenn., within the corporate limits of the city of Oak Ridge, on the N. side of Oak Ridge Turnpike approximately one-half mile N. of Clinch River Mile 12. Said installation covers approximately 144 acres of land, more or less, is bounded on the E. by Poplar Creek, on the N. by open Government land, on the W. by the Clinch River, and on the S. by Poplar Creek, and is enclosed by an 8-foot chain link fence topped with three strands of barbed wire.

The Atomic Energy Commission installation known as the Oak Ridge Gaseous Diffusion Plant Powerhouse, located in the Second Civil District of Roane County, Tenn., within the corporate limits of the city of Oak Ridge, on the E. side of the Clinch River at Mile 13. Said installation covers approximately 61 acres of land, more or less, is bounded on the W. by the Clinch River, on the N., E., and S. by open Government land, and is enclosed by a chain link fence ranging from 7 to 8 feet in height, topped by three strands of barbed wire.

The Atomic Energy Commission facility known as the Central Data Building, located westwardly from and adjacent to the S. of Oak Ridge Turnpike entrance to the Oak Ridge Gaseous Diffusion Plant in the Second Civil District of Roane County, Tenn., within the corporate limits of the city of Oak Ridge on the N. side of Oak Ridge Turnpike approximately 1 mile E. of Gallaher Bridge spanning the Clinch River and approximately 400 feet W. of Avenue F.

An Atomic Energy Commission facility consisting of two wooden radio antenna poles

approximately 37 feet in height and a one-story concrete block building approximately 11 feet by 10 feet in size, located on Pine Ridge in the Second Civil District of Roane County, Tenn., within the corporate limits of the city of Oak Ridge, on an access road approximately 0.7 mile E. of the intersection of the access road and the road running between Bear Creek Road and the Oak Ridge Turnpike, said intersection being 0.6 mile N. of Bear Creek Road.

The Atomic Energy Commission facility consisting of a concrete water tank approximately 43 feet in height and 102 feet in diameter, located on Pine Ridge in the Second Civil District of Roane County, Tenn., within the corporate limits of the city of Oak Ridge, on an access road approximately 0.4 mile N. of the intersection of the access road and Bear Creek Road, said intersection being approximately 0.6 mile E. of the Clinch River.

The Atomic Energy Commission facility known as the Oak Ridge Gaseous Diffusion Plant Water Purification Plant including a steel water tank approximately 39 feet in diameter and 23 feet high, located in the Second Civil District, Roane County, Tenn., within the corporate limits of the city of Oak Ridge, on the N. side of Bear Creek Road approximately 0.2 mile E. of the W. end of Bear Creek Road.

An Atomic Energy Commission facility consisting of a raw water pumping station including a one-story brick building approximately 26 x 18 feet in size and outside electric transformers, located in the Second Civil District, Roane County, Tenn., within the corporate limits of the city of Oak Ridge, on the E. bank of the Clinch River at approximately river mile 14.5.

An Atomic Energy Commission facility consisting of a concrete water tank approximately 20 feet in height and 50 feet in diameter; two radio antenna poles approximately 37 feet in height, and a one-story wood frame building approximately 15 by 20 feet in size located in the Second Civil District of Roane County, Tenn., within the corporate limits of the city of Oak Ridge on Tank Road approximately 0.4 mile E. of the intersection of Tank Road and Blair Road.

The Atomic Energy Commission installation known as the Oak Ridge National Laboratory, located in the Second Civil District of Roane County, Tenn., within the corporate limits of the city of Oak Ridge, on the S. side of Bethel Valley Road approximately 1.1 miles E. of the intersection of Bear Creek Road and Tennessee State Highway 95. Said installation covers approximately 170 acres, more or less, and is bounded on the N. by Bethel Valley Road, on the W. by First Street, and on the E. and S. by open Government land, and is enclosed by a chain link fence ranging from 7 to 8 feet in height, topped with three strands of barbed wire.

The Atomic Energy Commission facility known as the Oak Ridge National Laboratory Building No. 1000, located in the Second Civil District of Roane County, Tenn., within the corporate limits of the city of Oak Ridge, on the S. side of the Bethel Valley Road approximately 1 mile E. of the Bethel Valley Road and Tennessee State Highway 95. The facility is on the W. side of First Street and is bounded on the S., W., and N. by open Government land and is enclosed by a 7-foot chain link fence topped by three strands of barbed wire.

The Atomic Energy Commission facility known as the Oak Ridge National Laboratory Primary Substation (Building 0901), located in the Second Civil District, Roane County, Tenn., within the corporate limits of the city of Oak Ridge, on the N. side of Bethel Valley Road at the end of an access road 0.2 mile N. of the intersection of the access road and Bethel Valley Road, said intersec-

tion being approximately 1.5 miles E. of the intersection of Bethel Valley Road and Tennessee State Highway 95. The facility is enclosed by an 8-foot chain link fence topped by three strands of barbed wire.

The Atomic Energy Commission facility known as the Oak Ridge National Laboratory Water Reservoir, consisting of two circular steel tanks each approximately 120 feet in height and 114 feet in diameter with related valve and generator housing located in the Second Civil District of Roane County, Tenn., within the corporate limits of the city of Oak Ridge, on Haw Ridge approximately 0.2 mile SW. of Melton Valley Road and at the end of an access road which intersects Melton Valley Road at a point approximately 0.53 mile SE. of the intersection of Bethel Valley Road and Melton Valley Road.

The Atomic Energy Commission facility known as the Main Oak Ridge National Laboratory Water Reservoir (Building No. 0902), consisting of a 3 million gallon square reinforced concrete water tank, 23 feet high and 146 feet on a side, located in the Second Civil District, Roane County, Tenn., within the corporate limits of the city of Oak Ridge, on the N. side of Bethel Valley Road at the end of an access road approximately 0.4 mile from the intersection of said access road and Bethel Valley Road, said intersection being approximately 1.5 miles E. of the intersection of Bethel Valley Road and Tennessee State Highway 95. The facility is enclosed by an 8-foot chain link fence topped by three strands of barbed wire.

The Atomic Energy Commission facility known as the Oak Ridge National Laboratory Burial Ground No. 5, consisting of approximately 76 acres of land, utilized for the burial of contaminated material, said facility being located in the Second Civil District of Roane County, Tenn., within the corporate limits of the city of Oak Ridge on the S. side of Melton Valley Drive approximately 1 mile S. of the Oak Ridge National Laboratory. The facility lies to the N. of Melton Branch, to the E. of White Oak Creek, and to the W. of Melton Branch Circle.

The Atomic Energy Commission installation known as the Tower Shielding Reactor located on Copper Ridge E. of Tennessee State Highway 95 in the Second Civil District, Roane County, Tenn., within the corporate limits of the city of Oak Ridge at the end of an access road approximately 1.4 miles from the intersection of the access road and Tennessee State Highway 95, said intersection being approximately 0.3 mile N. of Vanden Bulck Bridge spanning the Clinch River. Said installation covers approximately 26 acres and is enclosed by an 8-foot chain link fence topped by three strands of barbed wire.

The Atomic Energy Commission installation known as the Health Physics Research Reactor located in the Second Civil District, Roane County, Tenn., within the corporate limits of the city of Oak Ridge, on the N. side of the Health Physics Research Reactor Road, approximately 1.7 miles S. of the intersection of Bethel Valley Road and Melton Valley Access Road. Said installation contains approximately 65 acres, more or less, and is enclosed by a 6-foot chain link fence.

The Atomic Energy Commission facility known as the Molten Salt Reactor, located in the Second Civil District, Roane County, Tenn., within the corporate limits of the city of Oak Ridge on the S. side of Melton Valley Drive, approximately 0.8 mile W. of the intersection of Melton Valley Drive and Melton Valley Access Road, said intersection being approximately 0.6 mile S. of Bethel Valley Road. Said facility contains approximately 2 acres, more or less, and is enclosed by an 8-foot chain link fence topped with three strands of barbed wire.

The Atomic Energy Commission installation known as the Experimental Gas Cooled

Reactor, located in the Seventh Civil District, Anderson County, Tenn., within the corporate limits of the city of Oak Ridge on the N. shore of Melton Hill Lake at approximately Clinch River miles 32.5. Said installation contains approximately 11 acres, more or less, is bounded on the N., E., and W. by open Government land and on the S. by Melton Hill Lake and is enclosed by an 8-foot chain link fence topped by three strands of barbed wire.

The Atomic Energy Commission installation known as the Y-12 Plant, located in the Seventh Civil District of Anderson County, Tenn., within the corporate limits of the city of Oak Ridge, on the S. side of Bear Creek Road, approximately 1.5 miles W. of the intersection of Bear Creek Road and Scarboro Road. Said installation containing approximately 534 acres, more or less, is bounded on the N. by Bear Creek Road, on the S. by Chestnut Ridge, and on the E. and W. by open Government land, and is enclosed by a chain link fence ranging from 6 to 8 feet in height topped by three strands of barbed wire.

An Atomic Energy Commission facility consisting of two steel water tanks, each approximately 20 feet high and 114 feet in diameter, located in the Seventh Civil District, Anderson County, Tenn., within the corporate limits of the city of Oak Ridge on the N. side of Bear Creek Road approximately 1.3 miles from the intersection of Bear Creek and Scarboro Roads.

An Atomic Energy Commission facility consisting of a booster pumping station contained in a one-story concrete block building approximately 32 feet by 46 feet, located in the Seventh Civil District, Anderson County, Tenn., within the corporate limits of the city of Oak Ridge on the N. side of Bear Creek Road approximately 2.2 miles W. of the intersection of Bear Creek and Scarboro Roads.

The Atomic Energy Commission installation consisting of the main AEC Administration Building, located in the Eighth Civil District, Anderson County, Tenn., within the corporate limits of the city of Oak Ridge, on the S. side of the Oak Ridge Turnpike. Said installation covers seven acres, more or less, is bounded on the W. by Administration Road, on the S. by Laboratory Road, and on the N. and E. by Government parking lots, and is enclosed by a 6-foot chain link fence topped with three strands of barbed wire.

The Atomic Energy Commission facility known as the Division of Technical Information Extension Building, located in the Eighth Civil District of Anderson County, Tenn., within the corporate limits of the city of Oak Ridge on the N. side of Warehouse Road, east of Athens Road, S. of the Oak Ridge Turnpike, and W. of privately owned land. Said facility covers approximately 3.1 acres of land, more or less, and is enclosed on the E. and S. sides by a 7-foot chain link fence topped by three strands of barbed wire.

The Atomic Energy Commission facility known as the River Pumping Station, located in the Eighth Civil District, Anderson County, Tenn., within the corporate limits of the city of Oak Ridge, on the N. side of Melton Hill Lake at approximately Clinch River Mile 41.5. II. Sandia Laboratory Technical Areas III and V, located on Sandia Base, N. Mex., being more particularly described as follows:

E $\frac{1}{2}$ sec. 18, all of secs. 20 and 29 and E $\frac{1}{2}$ sec. 30, all in T. 9 N., R. 4 E., N.M.P.M., County of Bernalillo, State of New Mexico; containing 1,920 acres, more or less.

III. The Sandia Laboratory 6000 Igloo Area, located on Sandia Base, N. Mex., being more particularly described as follows:

The S $\frac{1}{2}$ of sec. 1, T. 9 N., R. 3 E., N.M.P.M., Bernalillo County, N. Mex.

IV. Sandia Laboratory Tower Sites, being more particularly described as follows:

Tower Site No. 7—Beginning at the most westerly point of the parcel herein described whence the quarter corner between secs. 17 and 20, T. 9 N., R. 3 E., N.M.P.M., Bernalillo County, State of New Mexico, bears S. 21°41'08" W., 1,281.66 feet distance;

Thence N. 30°00' E., 140.00 feet distance to the most northerly point of the parcel herein described;

Thence S. 30°00' E., 140.00 feet distance to the most easterly point of the parcel herein described;

Thence W. 140.00 feet distance to the place of beginning, and containing 0.1948 acre, more or less.

Tower Site No. 8—Beginning at the NE corner of the parcel herein described, whence the section corner common to secs. 1, 2, 11, and 12, T. 9 N., R. 3 E., N.M.P.M. (Brass Cap in place), County of Bernalillo, State of New Mexico, bears N. 50°36'43" E., 5,180.78 feet distance;

Thence S. 07°39'13" E., 185.00 feet distance to the SE corner of the parcel herein described;

Thence S. 82°20'47" W., 185.00 feet distance to the SW corner of the parcel herein described;

Thence N. 07°39'13", 185.00 feet distance to the NW corner of the parcel herein described;

Thence N. 82°20'47" E., 185.00 feet distance to the place of beginning, and containing 0.7857 acre, more or less.

Tower Site No. 12—Beginning at the NW corner of the parcel herein described, said NW corner being a point on the southerly right-of-way line of Mountain Road NW., whence the NW corner of the Land of Board of Education of the city of Albuquerque, N. Mex., County of Bernalillo, known as the New Old Town School, as shown on the plat of same made by Ross-Beyer Engineering Office on August 18, 1953, bears N. 86°36' W., 139.50 feet distance;

Thence S. 86°36' E., 141.00 feet distance along said southerly right-of-way line of Mountain Road NW. to the NE corner of the parcel herein described;

Thence S. 30°00' W., 135.92 feet distance to the most southerly point of the parcel herein described;

Thence N. 30°00' W., 145.58 feet distance to the place of beginning, and containing 0.1967 acre, more or less.

Tower Site No. 13—Beginning at the most easterly corner of the parcel herein described whence the section corner common to secs. 20, 21, 28, and 29, T. 10 N., R. 5 E., N.M.P.M. (Brass Cap in place), County of Bernalillo, State of New Mexico, bears N. 25°42'30" E., 59.59 feet distance;

Thence S. 68°30'30" W., 140.00 feet distance to the most westerly point of the parcel herein described;

Thence N. 08°30'30" E., 140.00 feet distance to the most northerly point of the parcel herein described;

Thence S. 51°29'30" E., 140.00 feet distance to the place of beginning, and containing 0.1948 acre, more or less.

Transmitter Tower Site—Lots 29F and 29G, Sandia Crest Survey situated in sec. 6, T. 11 N., R. 5 E., N.M.P.M., Bernalillo County, N. Mex., containing 0.114 acre, more or less.

Notices stating the pertinent prohibitions of 10 CFR 160.3 and 160.4 and penalties of 10 CFR 160.5 will be posted at all entrances of said parcel, areas and sites and at intervals along their perimeters as provided in 10 CFR 160.6.

SAVANNAH RIVER PLANT SITE

Trespassing on Commission Property

Notice is hereby given that the Atomic Energy Commission, pursuant to section 229 of the Atomic Energy Act of 1954, as amended; as implemented by 10 CFR Part 160 published in the FEDERAL REGISTER on August 16, 1963 (28 F.R. 8400), prohibits the unauthorized entry, as provided in 10 CFR 160.3, and the unauthorized introduction of weapons or dangerous materials, as provided in 10 CFR 160.4, into or upon the following-described portion of the Savannah River Plant Site of the Atomic Energy Commission, said portion of such site being all that tract or parcel of land lying or being situate in Aiken and Barnwell Counties, in the State of South Carolina, approximately 14 miles southeast of the city of Augusta, State of Georgia, and 12 miles south of the town of Aiken, State of South Carolina; bounded on the southwest and south by the Savannah River, on the east by lands of the Estate of Florence L. S. Clark (Creek Plantation) and other lands of the United States of America, U.S.A.E.C., on the north by other lands of U.S.A.E.C. and U.S. Highway No. 278, on the west by SRP Road 1, other lands of U.S.A.E.C., a county road, lands of Jarrel Brown, lands now or formerly of W. H. Harper, Fitch Gilbert, J. L. Pew, Mack Foreman, J. L. Steed, et al. and being more particularly described as follows:

Bearings on the following descriptions are referred to the Savannah River Plant coordinate system, unless otherwise specifically noted; a plat of said property containing both the S. C. Lambert and the Savannah River Plant coordinate systems is recorded in both Aiken and Barnwell Counties, as hereinafter set forth:

Beginning at concrete monument SRO No. 1, located on the left (South Carolina) bank of the Savannah River approximately 6.8 miles SW. of the town of Jackson, S.C., Post Office, said point having a coordinate value on the Savannah River Plant coordinate system of N. 90,716.5 and E. 4,407.9, and having a coordinate value on the S. C. Lambert coordinate system of N. 510,405.7 and E. 1,745,801.7;

Thence from the point of beginning N. 70°-26' E., 3,224.13 feet to concrete monument SRO 1A on the S. bank of Bent Lake;

Thence continuing N. 70°26' E., 523.00 feet to concrete monument SRO 1B, located on the N. bank of Bent Lake;

Thence N. 70°26' E., 1,311.10 feet to concrete monument SRO 2;

Thence S. 23°10' E., 647.94 feet to concrete monument SRO 3;

Thence in a generally northwesterly direction along the meander of the left bank of the Savannah River a distance of approximately 109,000 feet to the point of beginning, concrete monument SRO 1, and containing 61,657 acres in Aiken County and 92,558 acres in Barnwell County, having a net total of 154,215 acres, more or less.

Excluded from the above-described tract are the following railroad rights-of-way:

Atlantic Coast Line Railroad (formerly Charleston and Western Carolina Railroad). A strip of right-of-way, averaging approximately 100 feet in width, the centerline of which is described as follows:

Beginning at the SRP boundary line near the Augusta Barricade; thence in a southeasterly direction through the former town of Ellenton, continuing in a southeasterly direction through Robbins Station to the SRP boundary line a distance of 14.2 miles and containing 173 acres, more or less.

Atlantic Coast Line Railroad. A strip of right-of-way, averaging approximately 100 feet in width, the centerline of which is described as follows:

Beginning at Robbins Station, thence in an easterly and northeasterly direction (crossing SRP Road A) to Meyers Mill siding, a distance of 4.3 miles and containing 68 acres, more or less.

The property as described is the same land as that shown on a plat of the Savannah River Plant land posted pursuant to Public Law 84-1006 (70 Stat. 1089); said plat containing both the S. C. Lambert and the Savannah River Plant coordinate systems. A copy of said plat is recorded in Plat Book 1, page 230, dated June 17, 1965, of the Aiken County court records, in the town of Aiken, State of South Carolina, and another copy recorded in Book K, page 280, dated June 17, 1965, of the Barnwell County court records, in the town of Barnwell, State of South Carolina.

Notices stating the pertinent prohibitions of 10 CFR 160.3 and 160.4 and the penalties of 10 CFR 160.5 will be posted at all entrances of said tract and

at intervals along its perimeter as provided in 10 CFR 160.6.

WELDON SPRING FEED MATERIALS PRODUCTION CENTER

Trespassing on Commission Property

Notice is hereby given that the Atomic Energy Commission, pursuant to section 229 of the Atomic Energy Act of 1954, as amended, as implemented by 10 CFR Part 160 published in the FEDERAL REGISTER on August 16, 1963 (28 F.R. 8400), prohibits the unauthorized entry, as provided in 10 CFR 160.3, and the unauthorized introduction of weapons or dangerous materials, as provided in 10 CFR 160.4, into or upon the following described installations and facilities of the Weldon Spring Feed Materials Production Center of the Atomic Energy Commission, located in St. Charles County, State of Missouri:

1. The Atomic Energy Commission installation known as the Weldon Spring Feed Materials Plant, located in south-central St. Charles County, Mo., near the center of a tract of land formerly known as the Weldon Spring Military Reservation, approximately 1½ miles W. of Weldon Spring, Mo., on the N. side of State Route 94. Said installation covers approximately 85 acres, more or less, is bounded on the S. by the U.S. Army Weldon Spring Reserve Training Area, and on the E., N., and W. by open Government-owned land. Except where the principal administration building serves as a barrier, the area is enclosed by a 7-foot high chain link fence topped by three strands of barbed wire, and is more particularly described as follows:

Beginning at a point which is N. 2 the 660.99 feet from a stone at the NE. corner of a cemetery, said stone being on the line common to Tps. 45 and 46, and being N. 88°46' W., 2,447.53 feet from a stone common to secs. 5, 6, 31, and 32;

Thence W. 445 feet along existing property line;

Thence N. 7°10' W., 245 feet;

Thence N. 4°0' E., 395 feet;
 Thence N. 27°30' E., 2,896 feet;
 Thence S. 61°40' E., 80 feet;
 Thence S. 39°20' E., 604 feet;
 Thence S. 50°35' E., 721 feet;
 Thence S. 24°50' W., 170 feet;
 Thence S. 2°35' E., 107 feet;
 Thence S. 6°25' W., 347 feet;
 Thence S. 26°55' W., 138 feet to NE. corner of Building 409;

Thence S. 28°20' W. along E. wall of Building 409, 193.5 feet;
 Thence N. 61°40' W. along S. wall of Building 409, 97.5 feet to SW. corner of Building 409;

Thence S. 28°20' W., 100 feet;
 Thence N. 63°20' W., 127 feet;
 Thence N. 28°45' E., 52 feet;

Thence N. 63°20' W., 20 feet to junction with E. wall of Building 410;

Thence S. 28°45' W., along E. wall 11.5 feet;
 Thence N. 61°15' W., along S. wall 12 feet;
 Thence S. 28°45' W., along E. wall 57 feet to SE. corner of Building 410;

Thence S. 28°45' W., 108.5 feet;
 Thence S. 10°10' E., 122 feet;
 Thence S. 28°55' W., 109 feet;

Thence S. 5°0' E., 245 feet to existing property line;

Thence S. 78°1' 30" W., 632 feet along existing property line;

Thence S. 45°58' W., 894.45 feet along existing property line, to point of beginning.

2. The Atomic Energy Commission facility known as the Weldon Spring Water System Filtration Plant No. 1 (Building G-7) located in St. Charles County, Mo., on the N. side of State Highway No. 94, approximately one-fourth mile W. of a village formerly known as Hamburg. Said facility covers approximately 4 acres, more or less, is bounded on the S. by State Route No. 94, and on the N., E., and W. by farm land owned by the University of Missouri, and is enclosed by a 7-foot chain link fence topped by three strands of barbed wire. The southeast corner of said enclosure is located at coordinate N. 9882 and E. 18019 of the Weldon Spring Military Grid System. Said grid system is based on a USGS monument located at latitude 38°41'33.82" and longitude 90°45'55.26" near the former town of Howell, in St. Charles County, Mo., and is laid out with the east 10,000-foot line established on a True meridian through the monument and the N. 20,000-foot line established at right angles through the same point.

3. The Atomic Energy Commission facilities known as the Weldon Spring Water System Wells and Pump Stations Nos. 1, 2, 3, and 5, located in St. Charles County, Mo., along the N. bank of the Missouri River approximately 5 miles SW. of the Daniel Boone Bridge (U.S. Highway 40-61). Each of the four facilities is surrounded by farm land owned by the University of Missouri and is enclosed by a masonry type building approximately 12 feet square. The location of each of said facilities by coordinates based on the Weldon Spring Military Grid System (described above) is as follows:

Well No. 1-N. 9281 ± E. 19836 ±.

Well No. 2-N. 7861 ± E. 18703 ±.

Well No. 3-N. 6976 ± E. 18356 ±.

Well No. 5-N. 6736 ± E. 17393 ±.

4. The facility known as the Weldon Spring Water System Elevated Water Storage Tank (Building G-91), located in south-central St. Charles County, Mo., on the south side of State Route No. 94, approximately 1 mile west of Weldon Spring, Mo., just west of the Frances Howell Cemetery and surrounded on all sides by University of Missouri farm property. Said facility is enclosed by a 7-foot chain link fence topped with 3 strands of barbed wire. Its coordinate location, based on the Weldon Spring Military Grid System (described above) is N. 23200 and E. 25540.

5. The facility known as the Weldon Spring Water System Booster Station (Building G-3) and Water System Storage Reservoirs located in south-central St. Charles County, Mo., approximately 100 yards SW. of the Army Reserve Training Area Headquarters and Fire Station and surrounded on all sides by open Government-owned land (Army Reserve Training Area). Said facility is a 42' x 72' monolithic concrete building with metal doors, the NE. corner of which is located at coordinates N. 18531.74 and E. 18297.56, which coordinates are based on the Weldon Spring Military Grid System (described above).

Notices stating the pertinent prohibitions of 10 CFR 160.3 and 160.4 and the penalties of 10 CFR 160.5 will be posted at all entrances of said installations and facilities and at intervals along its perimeter as provided in 10 CFR 160.6.

Dated at Washington, D.C., this 12th day of October 1965.

R. E. HOLLINGSWORTH,
 General Manager.

GENERAL ELECTRIC CO.

Notice of Issuance of Facility License Amendment

Please take notice that no request for a formal hearing having been filed following publication of the notice of proposed action in the FEDERAL REGISTER of June 26, 1965, 30 F.R. 8236, the Atomic Energy Commission has issued, effective as of the date of issuance, Amendment No. 9 to Facility License No. CX-4. The license as previously issued authorizes General Electric Co. (the licensee) to operate its Thermal Critical Assembly (TCA) which is located in Building 105 of the licensee's Vallyeitos Atomic Laboratory in Alameda County, Calif. The license amendment, in accordance with the application dated May 7, 1965, and addendum thereto dated May 21, 1965, authorizes the licensee to operate the TCA, as modified, for the conduct of critical experiments using longer fuel elements.

The license amendment, as issued, is substantially in the form published in the notice of proposed action except that the findings have been incorporated in the license amendment.

Dated at Bethesda, Md., this 12th day of October 1965.

For the Atomic Energy Commission.

E. G. CASE,
 Acting Director,
 Division of Reactor Licensing.

LONG ISLAND NUCLEAR SERVICE CORP.**Notice of Amendment of Byproduct, Source and Special Nuclear Material License**

Please take notice that the Atomic Energy Commission has issued Amendment No. 3 to License No. 31-8630-1 held by Long Island Nuclear Service Corp. The license amendment provides for Long Island Nuclear Service Corp. to receive waste special nuclear material

$$\frac{\text{grams contained U235}}{350} + \frac{\text{grams contained U233}}{200} + \frac{\text{grams contained Pu}}{200} \leq 1$$

The quantity of special nuclear material which the licensee has been authorized to possess is less than the quantity sufficient to form a critical mass. The Commission has determined that prior public notice of proposed issuance of this amendment is not required since the amendment does not involve significant hazard considerations different from those previously evaluated.

Within fifteen (15) days from the date of publication of this notice in the FEDERAL REGISTER, the applicant may file a request for a hearing, and any persons whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions to intervene shall be filed in accordance with the Commission's regulations (10 CFR Part 2). If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or an appropriate order.

The text of this amendment is attached to this notice.

Dated at Bethesda, Md., October 12, 1965.

For the Atomic Energy Commission.

LONG ISLAND NUCLEAR SERVICE CORP.

BYPRODUCT, SOURCE AND SPECIAL NUCLEAR MATERIAL LICENSE

The Atomic Energy Commission having found that:

A. The licensee is qualified by training and experience to use the material for the purpose requested in accordance with the regulations in Title 10, Code of Federal Regulations, and in such manner as to protect health and minimize danger to life or property;

B. The application for license amendment dated July 21, 1965, complies with the requirements of the Atomic Energy Act of 1954, as amended, and Title 10, Code of Federal Regulations, and is for a purpose authorized by that act;

C. Issuance of the amendment will not be inimical to the common defense and security or to the health and safety of the public. Byproduct, Source, and Special Nuclear Material License No. 31-8630-1 is amended to add the following condition:

6. The licensee is authorized to receive and possess packages containing waste special nuclear material at customers' facilities in any State of the United States except in Agreement States, as defined in § 150.3(b), 10 CFR Part 150, and to transport such packages.

The licensee shall possess at any one time not more than 350 grams of Uranium 235 or 200 grams of Uranium 233 or 200 grams of Plutonium provided that the sum of the ratios of the quantity of each special nuclear material to the quantities specified above does not exceed unity. Unity shall be determined by the following formula:

10427 of January 16, 1953, Executive Order 10737 of October 29, 1957, and Executive Order 11051 of September 27, 1962 (18 F.R. 407, 22 F.R. 8799, 27 F.R. 9683); Reorganization Plan No. 1 of 1958, Public Law 85-763, and Public Law 87-296; by virtue of the Act of September 30, 1950, entitled "An Act to authorize Federal assistance to States and local governments in major disasters, and for other purposes" (42 U.S.C. 1855-1855g), as amended; notice is hereby given of a declaration of "major disaster" by the President in his letter dated September 25, 1965, reading in part as follows:

I have determined that the damage in various areas of the State of Mississippi adversely affected by Hurricane Betsy is of sufficient severity and magnitude to warrant

disaster assistance by the Federal Government to supplement State and local efforts.

I do hereby determine the following areas in the State of Mississippi to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of September 25, 1965:

TRI-STATE TELEVISION TRANSLATORS, INC.**Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues**

In re applications of: Tri-State Television Translators, Inc., Cumberland, Md., Docket No. 16223, File No. BPTTV-2354; Tri-State Television Translators, Inc., Cumberland, Md., Docket No. 16224, File No. BPTTV-2355; Tri-State Television Translators, Inc., Cumberland, Md., Docket No. 16225, File No. BPTTV-

2356; Tri-State Television Translators, Inc., Cumberland, Md., Docket No. 16226, File No. BPTTV-2357; Tri-State Television Translators, Inc., Cumberland, Md., Docket No. 16227, File No. BPTTV-2358; Tri-State Television Translators, Inc., Cumberland, Md., Docket No. 16228, File No. BPTTV-2359; Tri-State Television Translators, Inc., Cumberland, Md., Docket No. 16229, File No. BPTTV-2360, for construction permits for new VHF television broadcast translator stations.

1. The Commission has before it for consideration: (a) The above-captioned applications filed by Tri-State Television Translators, Inc. (Tri-State); (b) a "Petition to Deny" filed October 26, 1964, by Potomac Valley TV Co., Inc. (Potomac), operator of a community antenna television system (CATV) in Cumberland, Md., directed against a grant of (a) above; (c) a "Petition to Deny" filed October 26, 1964, by Shenandoah Valley Broadcasting, Inc. (Shenandoah), licensee of Station WWSA-TV, Channel 3, Harrisonburg, Va., directed against a grant of three of the above-captioned applications (BPTTV-2354-2356); (d) an "Opposition to Petitions to Deny" filed December 15, 1964, by the applicant directed against (b) and (c) above; and (e) a "Reply to Opposition to Petitions to Deny" filed January 11, 1965, by Potomac.

2. The Tri-State applications were filed September 1, 1964, and propose seven 1-watt VHF television broadcast translator stations to serve Cumberland, Md., as follows:

Application	Output channel	Station to be rebroadcast ¹
BPTTV-2354...	2	WJAC-TV, Channel 6 (NBC), Johnstown, Pa.
BPTTV-2355...	3	WTAE, Channel 4 (ABC), Pittsburgh, Pa.
BPTTV-2356...	4	WMAL-TV, Channel 7 (ABC), Washington, D.C.
BPTTV-2357...	5	KDKA-TV, Channel 2 (CBS), Pittsburgh, Pa.
BPTTV-2358...	8	WTOP-TV, Channel 9 (CBS), Washington, D.C.
BPTTV-2359...	10	WJAC-TV, Channel 6 (NBC), Johnstown, Pa.
BPTTV-2360...	12	WTTG, Channel 5 (Ind.), Washington, D.C.

¹ Some of these stations will be rebroadcast via existing intermediate translators.

3. Potomac claims standing as a "party in interest" within the meaning of section 309(d) of the Communications Act on the basis of the competitive impact of the Tri-State translators on its CATV systems. It is clear that the potential competitive effect of the translators is sufficient to give Potomac standing as a "party in interest" within the meaning of section 309(d) of the Act. *Federal Communications Commission v. Sanders Brothers Radio Station*, 309 U.S. 470. Shenandoah claims standing on the basis that operation of the translators on Channels 2, 3, and 4 would interfere with direct reception of its signal and therefore cause it economic injury. Since WWSA-TV does not provide even a predicted Grade B contour over Cumberland, a question arises as to the extent of direct reception of WWSA-TV in

Cumberland.² However, it is unnecessary to resolve this question in order to find Shenandoah's standing. Shenandoah claims that operation of the proposed translators will interfere with Potomac's off-the-air pickup of its signal, and thereby deprive it of audience amongst Potomac's subscribers. Clearly, this allegation is sufficient to establish Shenandoah's standing as a "party in interest."

4. Potomac advances the following arguments against a grant of the Tri-State applications: that a grant of these applications would destroy Cumberland as a potential UHF service area; that the proposed translators would cause direct and indirect electrical interference to its CATV and to its subscribers' sets; that the present proposals are the culmination of a long-range plan by Mr. Virgil H. Rupenthal, or a group of individuals of which he is a principal, to enter Cumberland with VHF translators in violation of the Commission's rules; that UHF translator signals can be received in Cumberland, so that a question arises whether these applications can be justified in view of § 74.732(d) of the Commission's rules which provides that, except in exceptional circumstances, a VHF translator will not be authorized to serve an area which is receiving satisfactory service from UHF translators; that in view of a vague statement regarding the financing of these translators, and allegations made regarding Mr. Virgil Rupenthal in an earlier Commission proceeding, a question is raised whether these proposals violate § 74.732(e) (1) of the Commission's rules;³ that it appears that one of these applications (BPTTV-2359) is intended as a relay and therefore violates § 74.731(c) of the Commission's rules which prohibits the use of a translator solely for the purpose of relaying signals; that operation of the proposed translators would cause interference within the meaning of §§ 74.702 and 74.703 of the Commission's rules, which, taken together, prohibit the authorization of a translator on a channel where it is apparent that its operation will

² Shenandoah has provided no direct evidence of such reception. It refers to ARB figures showing coverage in the area, and to viewer inquiries from Cumberland and nearby areas. However, no claim is made that such viewers do not obtain their signal from the Cumberland CATV which carries WWSA-TV. Reference is made to the fact that antennas for Channel 3 reception can be identified in an "area south and east of Cumberland"; however, this allegation is too vague to support the conclusion that WWSA-TV is directly received in Cumberland.

³ Section 74.732(e) (1) of the rules provides that:

"(e) The licensee or permittee of a television broadcasting station, an applicant financially supported by such licensee or permittee, or any person associated with the licensee or permittee, either directly or indirectly, will not be authorized to operate a VHF translator under any of the following circumstances:

(1) Where the proposed translator is intended to provide reception beyond the Grade B contour of the television broadcast station proposed to be rebroadcast."

cause interference to the direct reception of any television broadcast station operating on the same or an adjacent channel; and that there is reason to question whether there may have been improper "premature construction" in violation of section 319(a) of the Communications Act. On the basis of these allegations, Potomac urges that the Tri-State applications must be designated for evidentiary hearing.

5. Shenandoah advances the following arguments against the grant of the applications it opposes: that the proposals for operation on Channels 2, 3, and 4 are in violation of § 74.702(f) of the Commission's rules;⁴ that in view of direct reception of Station WWSA-TV in Cumberland (but see paragraph 3 and footnote 2 above), the proposals for operation on Channels 2, 3, and 4 violate § 74.702(b) of the Rules; and that Station WWSA-TV is picked up off the air by Potomac, so that interference with Potomac's pick-up could cause Station WWSA-TV to lose audience from the 16,000 homes which subscribe to the Cumberland CATV who are presently able to receive its signal on the CATV. In view of the similarity of these arguments to those advanced by Potomac, they will—where appropriate—be considered together in the following paragraphs.

6. Potomac's first argument is that grant of these applications would destroy Cumberland as a potential UHF market. Since Potomac filed an application (BPCT-3380) for a construction permit for a new UHF television broadcast station to serve Cumberland, Md., on July 9, 1964, it is clear that it has a reasonable basis for advancing this argument. Compare *Louisiana Television Broadcasting Corp. v. Federal Communications Commission*, 347 F.2d 808, 5 R.R. 2d 2025. In turn, Tri-State has challenged the bona fides of Potomac's application and urges that it was filed in order to protect Potomac's CATV from translator applications. However, this is not an appropriate proceeding in which to consider this charge (we note that Tri-State Television Translators, Inc., has filed a "Petition to Deny" against Potomac's application.) Accordingly, we will specify an issue as to the effect of Tri-State's applications on Cumberland's potential for UHF, e.g., *Spartan Broadcasting Co.*, FCC 64-95, 1 R.R. 2d 1085.

7. Potomac claims that operation of the proposed Tri-State translators would cause direct and indirect electrical interference to its CATV system and to its customers' sets. Since the status of Cumberland as a potential UHF area is already at issue, it appears reasonable to obtain evidence regarding other possible adverse results of VHF translator operation, and the extent to which such adverse results might be controlled. Cf. *Claremont Television, Inc.*, FCC 63-42,

⁴ Section 74.702(f) of the rules provides that:

"(f) Adjacent channel assignments will not be made to television broadcast translator stations intended to serve all or a part of the same area."

24 R.R. 805. In this regard, it is pertinent to note that few of the present objections would apply to proposals for UHF translators. Compare Spartan Radiocasting Co., supra. In view of these considerations, we believe it also appropriate to allow Shenandoah to participate on this issue.

8. Potomac's next three contentions revolve about the role of Mr. Rupenthal in the Tri-State applications, coupled with the claims that Mr. Rupenthal received cash to establish translators from Station WJAC-TV, Channel 6, Johnstown, Pa., as well as the claim that UHF translator signals are available in Cumberland. (Potomac's charges that Mr. Rupenthal is attempting to circumvent the Commission's Rules apparently are largely based on the claim that UHF translator service is available in Cumberland.) In Wellersburg TV, Inc., FCC 62-1213, the Commission stated that it conducted tests which "indicated that a substantial UHF translator signal was receivable over a substantial part of Cumberland." Consequently, the Commission stated that "a question obtains as to whether satisfactory UHF television translator signals are available in . . . Cumberland." Since this question did not require decision in the Wellersburg proceeding,⁶ it remains unresolved. Accordingly, an issue must be raised whether these applications satisfy the requirements of § 74.732(d) of the rules. (No question of waiver of this section arises since it provides for a showing of "exceptional circumstances.") With respect to the issue proposed under § 74.732(e) (1) of the rules, the Commission finds that Station WJAC-TV provides a predicted Grade B contour over Cumberland. Consequently, regardless of Station WJAC-TV's role in this matter, there is no question of violation of § 74.732(e) (1) of the rules. And the suggestion of Potomac that financial assistance may have been sought from other television licensees is entirely unsupported by the allegations of facts required by section 309 of the Act. In view of these considerations, it does not appear necessary to include an issue regarding compliance with § 74.732(e) (1) of the rules.

9. Potomac claims that one of Tri-State's applications (BPTTV-2359) is intended as a relay. However, it does not challenge Tri-State's estimate that the proposed station will serve an estimated 50,000 persons. In these circumstances, the Commission finds that this proposal is consistent with § 74.731(c) of its rules. E.g. Lee Co. TV, Inc., FCC 65-483, 5 R.R. 2d 257.

10. Potomac urges that the Tri-State applications are inconsistent with §§ 74.702 and 74.703 of the rules, and a similar argument is advanced by Shenandoah (see paragraph 3 above). Since a hearing appears necessary in any event, we believe it appropriate to specify an issue regarding compliance with

§§ 74.702 and 74.703 of the rules (see also paragraph 7).

11. Potomac's final charge is that there may have been "premature construction." Tri-State has responded to this charge and satisfactorily explained the circumstances which gave rise to Potomac's conjecture. Potomac has not further pressed this point, and we do not believe that an issue on it is required.

12. The remaining problem is Shenandoah's charge that Tri-State's applications for Channels 2, 3, and 4 (BPTTV-2354, 2355, 2356) violate § 74.702(f) of the rules (see footnote 4), which prohibits the assignment of adjacent channel translators in a single community. This point is well taken; however, it is clear that it is actually directed only against the Channel 3 application (BPTTV-2355) since without it no such problem exists. In addition, as already indicated, Shenandoah has challenged the proposals for operation on Channels 2 and 4 (see paragraphs 3 and 5). Since the status of these applications will depend on the outcome of the hearing, it appears premature now to decide the § 74.702(f) question. And in order to take full advantage of the possibilities offered by the hearing process, in which related questions must presumably be explored, it seems appropriate to afford the applicant an opportunity to offer evidence directed to the question of whether a waiver of § 74.702(f) of the rules would be warranted.

13. In view of the foregoing, except as indicated by the issues specified below, the applicant is legally, technically, financially, and otherwise qualified to construct and operate as proposed. However, the Commission is unable to make the statutory finding that a grant of these applications would serve the public interest, convenience, and necessity, and is of the opinion that the applications must be designated for hearing on the issues set forth below.

Accordingly, it is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the above-captioned applications of Tri-State Television Translators, Inc., are designated for hearing at a time and place to be specified in a subsequent order upon the following issues:

1. To determine whether a grant of the above-captioned applications would retard the development of UHF television in and about Cumberland, Md.

2. To determine whether satisfactory UHF television translator signals, within the meaning of § 74.732(d) of the rules, are received in Cumberland, Md., and, if so, to determine whether exceptional circumstances exist, within the meaning of § 74.732(d) of the rules, which would justify the grant of some or all of the above-captioned applications.

3. To determine the extent to which operation of any or all of Tri-State Television Translators Inc.'s proposed translators would adversely affect the public's reception of service on Potomac's

CATV system and, if it is determined that such operation would adversely affect reception, the nature and feasibility of, remedial steps which might be required.

4. To determine whether a grant of all or any of Tri-State Television Translator, Inc.'s above-captioned applications would be consistent with the provisions of §§ 74.702 and 74.703 of the rules.

5. To determine whether a grant of the application (BPTTV-2355) would be consistent with § 74.702(f) of the rules and, if not, whether a waiver of this provision of the rules would be justified.

6. To determine in view of the evidence adduced pursuant to the foregoing issues whether and, if so, under what conditions a grant of all or any of the above-captioned applications would serve the public interest, convenience and necessity.

It is further ordered, That Potomac Valley TV Co., Inc., and Shenandoah Valley Broadcasting, Inc., are hereby made parties respondent to the above-captioned proceedings.

It is further ordered, That the burden of proceeding with the introduction of evidence and the burden of proof on Issues 1 and 2 shall be on Potomac Valley TV Co., Inc.

It is further ordered, That the burden of proceeding with the introduction of evidence and the burden of proof on Issue 3 shall be jointly on Potomac Valley TV Co., Inc., and on Tri-State Television Translators, Inc.

It is further ordered, That the burden of proceeding with the introduction of evidence and the burden of proof on Issue 4 shall be jointly on Potomac Valley TV Co., Inc., and Shenandoah Valley Broadcasting, Inc.

It is further ordered, That the burden of proceeding with the introduction of evidence and the burden of proof on Issue 5 shall be jointly on Shenandoah Valley Broadcasting, Inc., and on Tri-State Television Translators, Inc.

It is further ordered, That the hearing on the above issues shall be held in Cumberland, Md., at a time and before a Hearing Officer to be specified in a subsequent order.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicant and the parties respondent herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within twenty (20) days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date set for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the applicant herein shall, pursuant to section 311 (a) (2) of the Communications Act of 1934, as amended, and § 1.594(f) of the Commission's rules, give notice of the hearing within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication

Amerada Petroleum Corp. (Amerada), in its motion, states that the subject docket was settled and terminated in its general rate settlement which was approved by Commission order issued February 1, 1963, in Docket Nos. G-9385, et al., 29 FPC 204; that the settled rates for Docket No. G-17538 included any applicable tax reimbursement; and that they made refunds with respect thereto.²

Austral, in its motion to terminate, states that its tax reimbursement conflict in Docket No. G-17659 is now moot as the Commission's order accepting its offer of settlement in Texaco, Inc., et al., Docket No. G-13169, et al., 28 FPC 247, at page 252, in effect resolved the tax conflict by permanently certificating Austral's related sale in Docket No. G-14164 at a rate of 20.625 cents per Mcf, including tax reimbursement, and in providing for refunds therein. Under identical circumstances, Humble Oil & Refining Co. (Operator), et al., states that its tax conflict in Docket No. G-17633 was likewise resolved in the said Texaco order, 28 FPC 247 at page 252, where its related sale in Docket No. G-14256 was permanently certificated with provision for refunds.

By order issued September 1, 1965, in J. R. Frankel, et al., Docket No. G-17671, et al., we accepted an offer of settlement and provided in ordering paragraph (E) therein for the termination of the subject docketed matter.

Tidewater Oil Co. in its letter filed July 30, 1962, relating to its general rate settlement in Docket Nos. G-13310, et al., 27 FPC 1267 and 28 FPC 108, and its Rate Schedule No. 37 stated that it made refunds with interest applicable to Docket No. G-17700; submitted a release and receipt from its purchaser, Texas Gas Transmission Corp., therefor; and requested that although Docket No. G-17700 was not mentioned in the general rate settlement that such proceeding be terminated as moot.

² Amerada's Rate Schedule No. 10, which was suspended in Docket No. G-17538 was not specifically included in the settlement although other rate schedules involved in said docket were.

Vincent & Welch, Inc. (Operator), et al., by letter filed August 19, 1965, request that the proceeding in Docket No. G-17710 be terminated as they had made appropriate refunds with interest of the disputed tax reimbursement amount in said docketed matter, as supported by their submittal of a release and receipt therefor from Texas Gas.³

H. S. Cole, Jr., et al. in its motion filed August 9, 1965, states that the tax reimbursement conflict in Docket No. G-17713 is moot since the tax matter involved was the subject of a settlement offer accepted by the Commission by order issued June 27, 1961, in Docket No. G-11712, 25 FPC 1226.

We conclude that in each of the above-mentioned proceedings it is appropriate to terminate or sever the proceeding as applicable.

Southern Natural Gas Co. in its motion filed September 20, 1965, requests that the proceedings entitled Mississippi River Fuel Corp., Docket No. G-17715, and H. T. Shalett and David Crow, Docket No. RI60-393, be consolidated for hearing herein since these docketed matters involved the same issues as are involved in the proceedings consolidated by the Commission's order issued July 22, 1965, in T. L. James & Co., Inc. et al., Docket No. G-16492, et al.

The Commission finds: Good cause exists for severing and terminating, as applicable, the tax reimbursement proceedings involved herein and for consolidating Docket Nos. G-17715 and RI60-393 in Docket Nos. G-16492, et al.

The Commission orders:

(A) The proceedings in Docket Nos. G-17538, G-17659, G-17663, G-17671, G-17700, G-17710, and G-17713 are hereby severed from the consolidated proceedings in Docket Nos. G-16492, et al.

(B) The proceedings in Docket Nos. G-17538, G-17659, G-17663, G-17700,

³ The Commission authorized abandonment for the subject sale in Docket No. CI64-579 in its order issued April 13, 1964, in James Thornton & Knight Thornton, et al., under lead Docket No. G-3037, et al., not reported. The proceeding in Docket No. G-17710 is moot.

G-17710, and G-17713 are hereby terminated.

(C) The proceedings in Mississippi Fuel Corp., Docket No. G-17715, and H. T. Shalett and David Crow, Docket No. RI60-393, are hereby consolidated with the proceedings in Docket Nos. G-16492, et al.

By the Commission.

[Project No. 2549]

CONSUMERS POWER CO.

Notice of Application for License for Constructed Project

OCTOBER 8, 1965.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U.S.C. 791a-825r) by Consumers Power Co. (correspondence to: W. R. Boris, Secretary, Consumers Power Co., 212 West Michigan Avenue, Jackson, Mich., 49201) for license for constructed Project No. 2549, known as the Boardman Project, located on the Boardman River, tributary to Lake Michigan at Grand Traverse Bay, in Grand Traverse County, Mich.

The existing project consists of: (1) An earth dam approximately 900 feet long and 49 feet high with a concrete corewall 450 feet in length and a steel sheet pile cutoff wall about 650 feet in length; (2) a reservoir extending upstream 1½ miles with a surface area of about 90 acres; (3) a reinforced concrete intake and service spillway structure housing two gates for control of the intake to the powerhouse penstocks and one gate for control of the spillway; a reinforced concrete spillway chute ending in a stilling basin which flows into the original river channel; two 10-foot diameter steel penstocks about 80 feet long; (4) a powerhouse containing two units rated at 1,100 kw each; (5) a substation containing three 833-kva transformers; and (6) appurtenant facilities.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is November 29, 1965. The application is on file with the Commission for public inspection.

[Docket No. CP65-196 etc.]

NORTHERN NATURAL GAS CO. AND MILWAUKEE GAS LIGHT CO.

Order Consolidating Proceedings

OCTOBER 8, 1965.

On January 6, 1965, in Docket No. CP65-195; on March 17, 1965, in Docket

No. CP65-201; and on March 17, 1965, in Docket No. CP65-202 the Commission issued notices of applications filed by Milwaukee Gas Light Co. (Milwaukee) pursuant to section 7(a) of the Natural Gas Act for an order of the Commission directing Northern Natural Gas Co. (Northern) to establish physical connection of its natural gas transmission facilities with the facilities proposed to be constructed by Milwaukee and to sell and deliver natural gas to Milwaukee for resale and distribution in various communities located in the State of Wisconsin.

In Docket No. CP65-195, Milwaukee requests an order directing Northern Natural Gas Co. (Northern) to construct transmission and measuring facilities, to establish physical connection of its transmission facilities with the facilities proposed to be constructed by Milwaukee, and to sell and deliver to Milwaukee up to 481 Mcf of gas per day in the third year for resale in the Villages of Almena and Turtle Lake, Barron County, and the Village of Clayton, Polk County, all located in northwestern Wisconsin.

In Docket No. CP65-201, Milwaukee requests that Northern be directed to extend its transmission facilities approximately 23 miles and to construct and operate the sales and metering facilities at each proposed point of interconnection in order to sell and deliver to Milwaukee up to 509 Mcf of gas per day in the third year for resale to the Villages of Balsam Lake and Luck, Polk County, Wisconsin.

In Docket No. CP65-202, Milwaukee requests that Northern be directed to extend its transmission facilities approximately 67 miles and to construct and operate the sales and metering facilities at each proposed point of interconnection in order to sell and deliver to Milwaukee up to 1,433 Mcf of gas per day in the third year for resale to the Villages of Ellsworth, Elmwood, and Spring Valley in Pierce County, Plum City in Pepin County, and the unincorporated Village of Arkansas in Pepin County, all located in northwestern Wisconsin.

Northern filed its answer to the section 7(a) applications of Milwaukee on February 3, 1965, pointing out that Milwaukee is requesting orders of the Commission directing Northern to construct branch line facilities to provide natural gas service to the communities named in its various applications. Northern indicates that it has been its policy to require the gas utility to construct, own, operate, and maintain branch line facilities when service is requested in a section 7(a) application.

Northern presently has an application on file with the Commission in Docket No. CP65-196 proposing service to 131 communities including the communities which are the subject of Milwaukee's applications. In view of its stated objection to Milwaukee's section 7(a) applications and in view of the fact that Northern's present application proposes service to all the communities set forth in Milwaukee's applications, Northern requests that Docket Nos. CP65-195,

CP65-201, and CP65-202 be consolidated for hearing with its application in Docket No. CP65-196.

On September 14, 1965, the Commission issued an order in Docket No. CP65-196 setting Northern's application for hearing and allowing petitions to intervene by various companies specified in that order.

It appears in the public interest that the aforesaid applications of Milwaukee Gas Light Co. under section 7(a) of the Natural Gas Act should be consolidated in the proceeding captioned Northern Natural Gas Company, Docket No. CP65-196.

The Commission finds: It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the matters in Docket Nos. CP65-195, CP65-201, CP65-202, and CP65-196 be consolidated for hearing and decision.

The Commission orders:

(A) The above-captioned matters are hereby consolidated for the purpose of hearing and decision.

(B) Those parties who heretofore were permitted to intervene or who noticed intervention in the proceeding entitled Northern Natural Gas Co., Docket No. CP65-196, will be considered interveners in these proceedings, without further action on their part.

By the Commission.

TRANSCONTINENTAL GAS PIPE LINE CORP.

Notice of Application

OCTOBER 11, 1965.

Take notice that on October 5, 1965, Transcontinental Gas Pipe Line Corp. (Applicant), Post Office Box 1396, Houston, Tex., 77001, filed in Docket No. CP66-91 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing additional pipeline service to certain existing customers, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the customers to which the additional gas would be delivered are as follows:

Customer	Rate schedule	Mcf per day at 14.7 p.s.i.a.
Eastern Shore Natural Gas Co.....	CD-3.....	2,090
Avis Gas Co.....	OG-3.....	777
Fort Hill Natural Gas Authority.....	CD-2.....	500
Butler, Alabama, town of.....	G-1.....	250
Lawrenceville, Georgia, city of.....	G-1.....	200
Roanoke, Alabama, city of.....	G-1.....	110
Royston, Georgia, city of.....	G-1.....	60
Sugar Hill, Georgia, town of.....	G-1.....	25
Total proposed additional pipeline service.	-----	3,922

The application states that with the exception of Eastern Shore Natural Gas Co. (Eastern Shore), all of the above customers will require the indicated additional volumes commencing November 1, 1965. The application further states that in the case of Eastern Shore, an additional 1,350 Mcf will be required commencing January 1, 1966, with the remaining 650 Mcf commencing May 1, 1966.

Applicant states that no additional facilities are required in order to render the service proposed.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before November 8, 1965.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. CP66-89]

TRANSWESTERN PIPELINE CO.

Notice of Application

OCTOBER 11, 1965.

Take notice that on October 1, 1965, Transwestern Pipeline Co. (Applicant), Post Office Box 1502, Houston, Tex., 77001, filed in Docket No. CP66-89 a "budget type" application pursuant to section 7(c) of the Natural Gas Act, as implemented by § 157.7(b) of the regulations under the Act, for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization to construct, install, relocate, alter and operate during the calendar year 1966, certain field facilities, to enable it to make alterations in and additions to its existing facilities and to permit the connection of existing and new sources of supply. Applicant states that the pro-

posed authorization would be utilized in connection with Applicant's contractual commitments with producers who have received or will receive authorization to sell and deliver gas to Applicant. Applicant further states that the gas acquired by means of such facilities would be used in satisfying Applicant's existing system-wide requirements and no new additional sales are contemplated or proposed.

Total estimated cost of Applicant's proposed construction is not to exceed \$1,500,000, with no single project expenditure to exceed \$375,000, and will be financed from funds made available from company operations.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before November 1, 1965.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. G-12569]

UNITED GAS PIPE LINE CO.

Notice of Petition To Amend

OCTOBER 8, 1965.

Take notice that on October 5, 1965, United Gas Pipe Line Co. (Petitioner), Post Office Box 1407, Shreveport, La., 71102, filed in Docket No. G-12569 a petition to amend the order of the Commission issued in said docket August 23, 1957, by requesting authorization for a total maximum daily delivery to Coastal Chemical Corp. (Coastal) of 22,000 Mcf of natural gas per day, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

The above mentioned order issued in Docket No. G-12569 on August 23, 1957, authorized the construction of certain facilities together with the delivery of 1,000 Mcf of natural gas per day to Coastal. By subsequent orders issued July 21, 1958, February 5, 1961, and March 19, 1962, this amount was increased to 20,000 Mcf per day.

By the instant filing, Petitioner seeks further amendment of said order pursuant to an amendatory agreement with Coastal dated August 31, 1965, by requesting authorization for a total maximum daily delivery to Coastal of 22,000 Mcf per day. The application states that Coastal has advised Applicant that it does not contemplate an increase in the annual volume of gas purchased, but will, on some days, require more than 20,000 Mcf, as now authorized, in the operation of its plant.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before November 5, 1965.

FEDERAL TRADE COMMISSION

FAILURE TO DISCLOSE FOREIGN ORIGIN ON RADIOS ET AL.

Notice of Public Hearing With Opportunity To Present Data, Views and Arguments

Notice is hereby given that the Federal Trade Commission will hold a public hearing before the full Commission on December 6, 1965, to afford all interested parties an opportunity to present their views concerning the failure to disclose foreign origin on radios, televisions, phonographs, tape recorders, and components thereof.

The Federal Trade Commission has conducted numerous proceedings in past years resulting in orders to cease and desist involving the failure to disclose the foreign origin of products offered for sale to the consuming public. Other proceedings have proscribed the practice of incorporating goods without disclosure of the presence of such imported material.

The purpose of this hearing is to afford the Commission the benefit of the views of all concerned to assist it in reaching a determination as to what action, if any, the Commission should take in the public interest under the statutes administered by it. To assist the Commission information on the following subjects will be sought and considered:

1. The extent of penetration of the market in the United States by imported radios, televisions, phonographs and tape recorders, including components and parts thereof of foreign origin.

2. Data on (a) the volume of importation of radios, televisions, phonographs, tape recorders and components thereof, (b) the production of American brand-name sets or components by domestic manufacturers in foreign countries, and (c) the possible effect such foreign production has had on domestic production and employment levels in the electronic industry in the United States.

3. Whether the purchasing public has a preference for radios, televisions, phonographs or tape recorders made entirely of domestically produced components.

4. Whether the public interest requires that the foreign origin of radios, televisions, phonographs or tape recorders, or components thereof need be disclosed to consumers, and if so, how best can it be accomplished in a practicable and informative manner.

5. Whether the presence of or failure to disclose foreign origin in radios, televisions, phonographs and tape recorders, or components thereof constitutes a material deception to purchasers.

Interested persons are invited to submit any information pertinent to these matters or other aspects of the general subject of disclosure of foreign origin of radios, televisions, phonographs, tape recorders and components thereof, as it may affect the public interest.

After consideration of all available information bearing on the subject, the Commission will proceed to a determination as to what action, if any, is warranted under the statutes administered by it.

The Commission extends to all members of the industry, manufacturers, distributors and retailers of component parts of radio, television, phonograph and tape recorder sets, as well as manufacturers of completed sets, together with representatives of labor and consumer groups a specific invitation to appear and present their views at the hearing. All such persons are hereby notified that they may file written data, views or arguments concerning the subject matter of this hearing with the Secretary, Federal Trade Commission, Pennsylvania Avenue and Sixth Street NW., Washington, D.C., 20580, not later than November 29, 1965. To the extent practicable persons submitting written presentation exceeding two pages should file twelve copies thereof.

The oral hearings will be held at 10 a.m., e.s.t., on December 6, 1965, in Room 532 of the Federal Trade Commission Building, Washington, D.C. At the hearing interested persons may express their views as to the subjects noted above. Any person desiring to present orally his views at the hearing should so inform the Secretary not later than November 29, 1965, and state the estimated time required for his oral presentation. The Commission may impose reasonable limitations upon the length of time allotted to any person.

The data, views or arguments presented orally or in writing will be available for examination by interested parties at the Federal Trade Commission, Washington, D.C.

Issued: October 18, 1965.

By the Commission.

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

OCTOBER 14, 1965.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules in Ex Parte No. MC 67 (49 CFR Part 240), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an appli-

cation must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protest must be specific as the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined, at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the field office to which protests are to be transmitted.

ORGANIZATION OF DIVISIONS AND BOARDS AND ASSIGNMENT OF WORK

At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 8th day of October A.D. 1965.

Section 17 of the Interstate Commerce Act, as amended (49 U.S.C. 17), and other provisions of law being under consideration, with a view to providing for appeals of actions by the Accounting and Valuation Board to be made to Division 2 acting as an appellate division:

It is ordered, That the Organization Minutes of the Interstate Commerce Commission relating to the Organization of Divisions and Boards and Assignment of Work, issue of July 27, 1965, as amended 30 F.R. 11189 and 12559 be, and it is hereby, further amended as follows:

Under the heading *Rehearing and Further Proceedings*, Item 8.5 is amended to read as follows:

Division 2 is hereby designated as an appellate division to which applications or petitions for reconsideration or review of any order, action, or requirement of

the Fourth Section Board under Item 7.2, the Board of Suspension under Item 7.3, the Special Permission Board under Item 7.9, the Released Rates Board under Item 7.10, the Rates and Practices Review Board under Item 7.12, or the Accounting and Valuation Board under Item 7.13, shall be assigned or referred for consideration and action. When so acting, it shall have all authority which the Board is authorized to exercise. Decisions or orders of the appellate division shall be administratively final and not subject to review by the Commission. If a petition seeking reconsideration or review of an order, action, or requirement of the Rates and Practices Review Board is not based on an allegation of error on the merits, in whole or in part, such petition, or supplementary authority in such proceeding, shall be determined by that Board.

By the Commission.
