CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation increases the quantity of California-Arizona Naval oranges that may be shipped to fresh market during the weekly regulation period December 5–11, 1975. The quantity that may be shipped is increased due to improved marketing conditions for Naval oranges. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907.

§907.656 Naval Orange Regulation 356.

(a) Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Naval oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Naval Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Naval oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

FEDERAL REGISTER, VOL. 40, NO. 241—MONDAY, DECEMBER 15, 1975

58127
(2) The need for an increase in the quantity of oranges available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Navel Orange Regulation 356 (40 FR 56670). The marketing picture now indicates that there is a greater demand for Navel oranges than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of Navel oranges to fill the current market demand by making a greater quantity of Navel oranges available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based becomes available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient and amendment recognizes restriction on the handling of Navel oranges grown in Arizona and designated part of California.

(b) Order, as amended. The provisions in paragraphs (b)(1) (i) and (III) of § 307.656 (Navel Orange Regulation 356) (40 FR 56670) are hereby amended to read as follows:

"(1) Districts: 1, 1500,000 cartons; "(III) District 3: 80,000 cartons."

(See 1-19, 48 Stat. 51, as amended; 7 U.S.C. 601-674)

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 12—Banks and Banking

CHAPTER III—FEDERAL DEPOSIT INSURANCE CORPORATION

SUBCHAPTER A—PROCEDURE AND RULES OF PRACTICE

PART 303—APPLICATIONS, REQUESTS, AND SUBMITTALS

Delegation of Authority To Act on Certain Applications

1. Section 303.11 of the rules and regulations of the Federal Deposit Insurance Corporation (12 C.F.R. § 303.11) provides for the delegation of authority from the Corporation’s Board of Directors hereinafter the “Board”) to the Director of the Corporation’s Division of Bank Supervision and, where confirmed in writing by the Director of the Division of Bank Supervision and, where confirmed in writing by the Director of the Regional Directors, to act on certain applications and requests from insured State nonmember banks.

2. The Board has decided to amend § 303.15 of the rules and regulations of the Federal Deposit Insurance Corporation which provides for other delegations matters pursuant to Sections 17 and 17A of authority. The amendment delegates authority to the Director of the Division of Bank supervision and, where confirmed in writing by the Director, to the Regional Directors, to act on disclosure of the Securities Exchange Act of 1934 (15 U.S.C. 78) and Part 341 of the Corporation’s rules and regulations in this chapter.

3. Section 303.13 is amended to read as follows:

§ 303.13 Other delegations of authority.

(b) Disclosure law and regulations. Except as provided in paragraph (c) of this section, the Board of Directors has delegated to the Director of the Division of Bank Supervision, or, where confirmed in writing by the Director of the Division of Bank Supervision, to the Regional Director of the Region in which the applicant bank is located, the authority to act on disclosure matters under and pursuant to Section 17A(c) and 17A of the Securities Exchange Act of 1934 (15 U.S.C. 78) or Parts 335 and 341 of the Corporation’s rules and regulations in this chapter.

(c) Limitations on delegation. Authority to act on disclosure matters under paragraph (b) of this section is not delegated to the Board of Directors when such matters involve:

- Exemption from registration requirements pursuant to Section 17A(c) (1) of the Securities Exchange Act of 1934 (15 U.S.C. 78a-1(c) (1)).

- The rule making procedures set forth in the Administrative Procedure Act (5 U.S.C. §§ 553 (b) and (d)) and the rules and regulations of the Federal Deposit Insurance Corporation (12 C.F.R. §§ 302.1, 302.2, and 302.5) with respect to notice, public participation, and deferred effective date were not followed in connection with these amendments because they constitute rules of internal Corporation practices or procedures and are not substantive in nature.

- Effective date. These amendments shall become effective immediately.

By order of Board of Directors, December 9, 1975.

Federal Deposit Insurance Corporation,

(Seal) ALAN R. MILLER,

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 14877; Amdt. 39-2483]

PART 30—AIRWORTHINESS DIRECTIVES

Scheibe-Flugzeugbau Model Bergfalke II/55 and III Gliders

Amendment 39-2334 (40 FR 33006), AD 75-17-29, which requires replacement of a safety pin in the elevator control connection on certain Scheibe-Flugzeugbau Model Bergfalke II/55 and III gliders by a manufacturer’s service bulletin. After issuing Amendment 39-2334, the Federal Aviation Administration determined that the service bulletin was not properly identified in the AD. The FAA has also determined that the replacement requires no special instructions and that reference to a service bulletin is not necessary. Therefore, this amendment is made under the authority of Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Sections 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing and pursuant to the authority delegated to the Administrator (14 CFR 119.1), this amendment is made by adding the following new airworthiness directive:

Scheibe-Flugzeugbau GmbH, Applies to Model Bergfalke II/55 and III gliders, certificated in all categories, equipped with loose connecting bolt between the elevator push-pul

By order of Board of Directors, December 9, 1975.

Issued in Washington, D.C. on December 8, 1975.

J. A. FERRARESE,
Acting Director, Flight Standards Service.

[FR Doc.75-33692 Filed 12-12-75; 8:46 am]
Since this situation requires immediate adoption of this regulation, notice and public hearing are impracticable and good cause exists for making this amendment effective in less than 30 days.

This amendment is made under the authority of Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR §11.89), this amendment becomes effective on December 24, 1975.

This amendment becomes effective December 29, 1975.

Issued in Washington, D.C., on December 8, 1975.

J. A. FERRARIES, Acting Director, Flight Standards Service.

PART 39—AIRWORTHINESS DIRECTIVES

Pilatus Aircraft Ltd. Model PC-6/A Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include the following new airworthiness directive:

This amendment is effective on December 15, 1975, as to all persons except those persons to whom it was made immediately effective by telegram dated October 24, 1975, which contained this amendment.

Issued in Washington, D.C., on December 8, 1975.

PART 39—AIRWORTHINESS DIRECTIVES

British Aircraft Corporation BAC 1-11
200 and 400 Series Airplane

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring inspection and deactivation of oxygen systems, which were made on BAC 1-11 200 and 400 series airplanes was published in the Federal Register on August 6, 1975, (40 FR 33050).

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received. One comment noted that the reference to FAR 91.31 in the notice should be FAR 91.23, and the AD has been changed accordingly.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to section 410 of the Federal Aviation Act of 1958, (49 U.S.C. 1427) and of section 119.5 of the Code of Federal Regulations, an airworthiness directive is issued as follows:

Baxters Aircraft Corporation, to BAC 1-11 200 and 400 series airplanes certificated in all categories, equipped with I.P. radio systems that do not have BAC Modifications FM 4412 Part (a) or Part (b) and Modification FM 4424 incorporated.

Compliance is required as indicated:

(a) Unless accomplished within the last 25 hours' time in service, inspect the I.P. antenna lead-in cable at the antenna, the antenna tuning unit (A.T.U.) connectors, the tuning unit and all adjacent wiring and oxygen piping in the immediate vicinity for signs of overloading or damage. If signs of overloading or damage are found, replace damaged parts with parts of the same part numbers, or FAA-approved equivalent parts.

(b) Remove and discard the rubber over- nose fitted at the A.T.U. connector post.

(c) Attach a placard on the instrument panel in full view of the pilot reading: “The passenger oxygen system control valve must remain in the OFF position. Contact operations in accordance with FAR 121.209 or 121.32, as applicable.”

(d) Repeat the inspection required by paragraph (a) (1) of this AD not to exceed 50 hours' time in service from the last inspection until paragraph (c) of this AD is complied with, at which time the inspection interval may be increased not to exceed 200 hours' time in service from the last inspection.

(e) The placard required by paragraph (a) (3) of this AD may be removed and the inspection interval prescribed in paragraph (b) may be established upon completion of the following:

(1) Compliance with the provisions of British Aircraft Corporation Alert Service Bulletin 23-A-PM 4412 dated April 6, 1971, for paragraphs 3.1, 3.2, 3.3, 3.4, 3.5, 3.7, 3.8, 3.9, 4.3, 4.4, 4.5, or FAA-approved equivalents.

(2) Alteration of the oxygen system in accordance with BAC Modification FM 4412 Part (a) and Part (b), or an FAA-approved equivalent, as applicable.

This amendment becomes effective on January 14, 1976.

Issued in Washington, D.C., on December 8, 1975.

J. A. FERRARISI, Acting Director, Flight Standards Service.

PART 39—AIRWORTHINESS DIRECTIVES

British Aircraft Corporation Viscount Series 700 and 810 Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring inspection and deactivation of oxygen systems for fatigue cracks and replacement and reworking of the landing flap torque shaft assemblies, as appropriate, on British Aircraft Corp. Viscount 700 and 810 series airplanes was published in the Federal Register on August 6, 1975 (40 FR 33049).

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to section 410 of the Federal Aviation Act of 1958, (49 U.S.C. 1427) and of section 119.5 of the Code of Federal Regulations, an airworthiness directive is issued as follows:

Baxters Aircraft Corporation, applies to British Aircraft Corp. (BAC) Viscount Model 700 and 810 series airplanes.

Compliance is required as indicated, unless accomplished with new torque tubes of the same part number, or FAA-approved equivalent parts.

(a) For No. 1 and 2 landing flap torque shaft assemblies, accomplish the following:

(1) For any torque tubes fitted to torque shaft assemblies, for which total landings can be determined and which have accumulated in excess of 28,000 landings but not more than 28,000 landings on the effective date of this AD may remain in service for 2,000 additional landings with no special inspections after which they must be replaced with new torque tubes of the same part number in accordance with figure 2 of Alert PTL No. 158 (810 series), both dated August 23, 1972, or an FAA-approved equivalent. Where an inspection interval specified in this paragraph coincides with an inspection interval specified in paragraph (a) (4) of this AD, the inspection conducted in accordance with this paragraph is considered as showing compliance with the inspection required by paragraph (a) (4) of this AD. If any cracks are found in the torque tubes or end fittings as a result of this inspection, replace cracked parts with new parts of the same part numbers in accordance with the assembly instructions specified in paragraph (a) (5) of this AD.

(b) Torque tubes replaced in accordance with any provisions of this AD must be assembled to the torque shaft assembly in accordance with figure 2 of Alert PTL No. 200 (700 series) or PTL No. 158 (810 series), both dated August 23, 1972, or an equivalent approved by the Chief of the Federal Aviation Administration, FAA, c/o American Embassy, APO New York 09067.

(c) Replacement torque tubes installed in accordance with the provisions of this AD must be replaced within 20,000 landings from the last inspection. Thereafter inspect replacement torque tubes in accordance with paragraph (a) (5) of this AD, or Alert PTL No. 290 (700 series) or Alert PTL No. 158 (810 series), both dated August 23, 1972, or an FAA-approved equivalent.

(d) For No. 2 torque shaft assemblies (LH and RH), comply with the following:

(1) For any torque tubes fitted to torque shaft assemblies, for which total landings can be determined, within 500 landings after the effective date of this AD and thereafter at intervals not to exceed 500 landings until replaced in accordance with paragraph (a) (3) of this AD, inspect the torque tubes in accordance with 2.3.1 of Alert PTL No. 200 (700 series) or Alert PTL No. 158 (810 series) both dated August 23, 1972, or an FAA-approved equivalent.

(2) Torque tubes replaced in accordance with any provisions of this AD must be assembled to the torque shaft assembly in accordance with the provisions of this AD.

(3) Within 1,600 landings after the initial inspection required by paragraph (b) (1) of this AD, and thereafter not to exceed 2,000 landings from the last inspection, remove the torque shaft assemblies and inspect the torque tubes and end fittings for cracks in accordance with paragraph 4.3.5 of Alert PTL No. 200 (700 series) or Alert PTL No. 158 (810 series), both dated August 23, 1972.

FEDERAL REGISTER, VOL. 40, NO. 241—MONDAY, DECEMBER 15, 1975
1972, or an FAA-approved equivalent. Where an inspector finds that the cracked part coincides with an inspection interval specified in paragraph (b) (1) of this AD, the inspection conducted in accordance with this paragraph is considered as showing compliance with that required by paragraph (b) (1) of this AD.

(b) If cracks are found as a result of the inspections conducted in accordance with paragraphs (b) (1) or (b) (2) of this AD, before further flight, the cracked parts, with new parts of the same part number. Where new torque tubes are installed as a result of the inspections specified in paragraphs (b) (1) and (b) (2) of this AD, the repetitive inspections required by paragraphs (b) (1) and (b) (2) must be initiated upon accumulating 20,000 landings on the new torque tubes.

(4) Torque tubes fitted to torque shaft assemblies for which the total landings cannot be determined, must be used from thereof the total landings of the aircraft on which they are installed for the purpose of complying with paragraph (b) (1) of this AD.

Notes: If total landings of the aircraft are not known, an operator may substitute a value for total landings established by dividing the total aircraft hours by the average flight hours for the particular aircraft, subject to the approval of the assigned FAA Inspector.

This amendment becomes effective on January 14, 1976.

Issued in Washington, D.C., on December 8, 1975.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On November 3, 1975 a notice of proposed rule making was published in the Federal Register (40 FR 51650) stating that the FAA Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Heber, Arizona, Transition Area.

Interested persons were given 30 days in which to submit written comments, suggestions or objections. No objections have been received and the proposed amendment is hereby adopted without change.

Effective date. This amendment shall be effective 0901 g.m.t., January 29, 1976.

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended, and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c).)

Issued in Los Angeles, California on December 5, 1975.

JESS SPECKERT,
Acting Director, Western Region.

In §§ 11.181 (4) FR 540 the description of the Heber, Arizona, transition area is amended to read as follows:

That airspace extending upward from 12,000 feet MSL bounded by a line beginning at latitude 34°48'00" N., longitude 111°43'00" W. to latitude 34°43'00" N., longitude 110°20'00" W., thence south via longitude 110°20'00" W. to the north edge of V190N, thence west via V190N, thence north via longitude 111°43'00" W. to latitude 34°43'00" N., longitude 111°43'00" W., to point of beginning.

That airspace extending upward from 12,000 feet MSL bounded by a line beginning at latitude 34°20'00" N., longitude 111°17'00" W. to latitude 34°20'00" N., longitude 110°50'00" W., thence south via longitude 110°50'00" W. to the north edge of V190N, thence west via V190N, thence north via longitude 111°17'00" W. to latitude 34°20'00" N., longitude 111°17'00" W., to point of beginning.

That airspace extending upward from 12,000 feet MSL bounded by a line beginning at latitude 34°43'00" N., longitude 110°20'00" W., thence south via longitude 110°20'00" W. to the north edge of V190N, thence west via V190N, thence north via longitude 111°43'00" W. to latitude 34°43'00" N., longitude 111°43'00" W., to point of beginning.

This amendment is proposed under the authority of Sec. 307(a) of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, California on October 24, 1975.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-11888]

PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

Amendment of Rules Delegating Authority To Grant Exemptions Under Rule 10a-1 Under the Securities Exchange Act of 1934

The Securities and Exchange Commission hereby announces the amendment of Section 200.530-3 (17 CFR 200.530-3) of the Commission's Statement of Organization; Conduct and Ethics; and Information and Requests to delegate to the Director of the Division of Market Regulation, to be performed by him or under his direction by such person or persons as may be designated from time to time by the Chairman of the Commission, until the Commission orders otherwise, the additional authority and functions of granting exemptions under paragraph (f) of Rule 10a-1 (17 CFR 240.10a-1(f)).
5. Data are on file to demonstrate that the product is efficacious over the approved range. This data should generally satisfy current standards for the demonstration of efficacy.

6. Except under special circumstances, the product has been used at least 3 years in the target species without significant complaints related to or associated with it. Applications of this criterion require a review of the available Drug Experience Reports.

The 1971 memoranda make explicit that because waiver of the ministerial requirements of section 512(m) of the act is permitted only for specific efficacy claims or at specific levels of the drug, each distinct product with corresponding labeling for those claims or levels should exist. This is necessary to cover those premixes that can be made into finished feeds with various concentrations of drugs.

The following criteria established in the 1971 memoranda constitute an interim agency policy that is under review. The Bureau of Veterinary Medicine is preparing a proposed regulation for publication in the Federal Register, based on the criteria listed above, governing waiver of the 512(m) requirements for the finished feed. In waiving the ministerial requirements of section 512(m), the agency has not waived the current good manufacturing practice regulations under Part 225 (21 CFR Part 225) for feed mills mixing such feeds.

In accordance with § 514.11(e) (2) (ii) (21 CFR 514.11 (e) (2) (ii)), the animal drug regulations, a summary of the safety and effectiveness of data and information submitted to support the approval of this application is released publicly. The summary is available for public examination at the office of the Hearing Clerk, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852, Monday through Friday from 9 a.m. to 4 p.m., except on Federal legal holidays.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512 (d), 21 Stat. 347 (21 U.S.C. 360b (d))), and under authority delegated to the Commissioner (21 CFR 2.190), § 558.325 is amended by redesignating the present paragraph (f) as paragraph (f) and adding a new paragraph (g) to read as follows:

§ 558.325 Lincomycin.

(g) Special considerations. Finished feeds containing lincomycin as the sole drug and conforming to the requirements of this section are not required to comply with the provisions of section 512(m) of the Federal Food, Drug, and Cosmetic Act.

Effective date. This order shall be effective December 15, 1975.

Sec. 512 (d), 21 Stat. 347; 21 U.S.C. 360b (d) (3).

Date: December 5, 1975.

C. D. Van Houweling, Director, Bureau of Veterinary Medicine.

Title 24—Housing and Urban Development
CHAPTER II—OFFICE OF ASSISTANT SECRETARY FOR HOUSING PRODUCTION AND MORTGAGE CREDIT—FEDERAL HOUSING COMMISSIONER (FEDERAL HOUSING ADMINISTRATION)
SUBCHAPTER B—MORTGAGE AND LOAN INSURANCE PROGRAMS UNDER NATIONAL HOUSING ACT
[Docket No. 2-75-0316]

INTEREST RATES APPLICABLE TO MORTGAGE INCREASES BETWEEN INITIAL AND FINAL ENDORSEMENT

Mortgage Insurance
On February 13, 1975, a document was published in the Federal Register (40 FR 6647) as an interim rule which amended Parts 205, 207, 213, 220, 221, 235, 236, 237, 238, and 244 of Title 24 of the Code of Federal Regulations (and Parts 207, 231, and 534 through incorporation by reference) to provide that the interest rate on an increase in a mortgage or above the amount which the Secretary committed to insure at initial endorsement may be at the maximum interest rate allowable at the time of the Secretary’s approval of the increase. Interested persons were given 60 days to comment before publication of the final rule. No comments were received. However, due to wide fluctuations in the maximum interest rate permitted by HUD during recent months, situations have arisen where mortgagors were unwilling to fund mortgage increases at interest rates lower than the greater of that in effect at the time of (1) initial endorsement of the mortgage, (2) the application for the increase, or (3) the approval by HUD of the increase. These situations occur when interest rates decline from the time of the initial endorsement or the application for increase in mortgage amount to the time of the HUD approval of the increase. However, the interim rule did not take into account the situation of a rate declining between initial endorsement of the mortgage and approval of the increased mortgage amount.

The positive effect desired by the interim rule only applies in a mortgage market in which interest rates are increasing. Therefore, the final rule, in order to have the desired effect of making the funding of mortgage increases possible, is designed to apply in the mortgage market in which interest rates are either increasing or decreasing.

This final rule takes into account the fluctuations in the mortgage market so that the purpose of the interim rule to make mortgage increases possible will be accomplished.

The Department has determined that an Environmental Impact Statement is not required with respect to this rule. The Finding of Inapplicability is available for inspection at the Office of the Rules Docket Clerk, Office of the General Counsel, Room 10245, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

Accordingly, Subchapter B is amended to read as follows:

PART 205—MORTGAGE INSURANCE FOR LAND DEVELOPMENT

Subpart A—Eligibility Requirements

A new paragraph is added to § 205.50 to read as follows:

§ 205.50 Maximum interest rate.

The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement, shall bear interest at the rate agreed upon by the mortgagor and the mortgagee which rate shall not exceed the greater of: (a) the maximum interest rate established by the Secretary and in effect at the time the mortgage was initially endorsed, (b) the maximum interest rate established by the Secretary and in effect at the time the application for a mortgage increase was received by the Commissioner, or (c) the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

PART 207—MULTIFAMILY HOUSING MORTGAGE INSURANCE

Subpart A—Eligibility Requirements

A new paragraph (c) is added to § 207.7 to read as follows:

§ 207.7 Maximum interest rate.

(c) The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement, shall bear interest at the rate agreed upon by the mortgagor and the mortgagee which rate shall not exceed the greater of: (1) the maximum interest rate established by the Secretary and in effect at the time the mortgage was initially endorsed, (2) the maximum interest rate established by the Secretary and in effect at the time the application for a mortgage increase was received by the Commissioner, or (3) the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.
PART 213—COOPERATIVE HOUSING MORTGAGE INSURANCE

Subpart A—Eligibility Requirements—Projects

A new paragraph (c) is added to §213.10 to read as follows:

§ 213.10 Maximum interest rate.
• • • • • •
(c) The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement, shall bear interest at the rate agreed upon by the mortgagor and the mortgagee which rate shall not exceed the greater of: (1) the maximum interest rate established by the Secretary in effect at the time the mortgage was initially endorsed, (2) the maximum interest rate established by the Secretary and in effect at the time the application for a mortgage increase was received by the Commissioner, or (3) the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

Authority: The provisions of this Part 233
issued under Sec. 5, 43 Stat. 476, 50 Stat. 210,
§ 233.48 Compensation of employees.

§ 233.6 Extensions.

The Project Engineer is responsible for
the operation of the electric power system
and the enforcement of the regula-
tions in this part. He is authorized to
carry out and enforce the regulations
either directly or through the Power
Manager or other Project employees
designated by him.

§ 233.3 Disputes.

Any aggrieved party may file with the
Project Engineer a written complaint
regarding the operation of the regula-
tions. Within fifteen days after its re-
cipt, the Project Engineer shall render a
written decision thereon and serve a

...
of the service drops. Insofar as practicable, all extensions shall be constructed along established highways. The prospective consumer, or consumers, shall furnish or procure satisfactory rights-of-way necessary for the lines and other facilities of the Project incidental to the furnishing of service. The Project Engineer may decline to construct any extension which, in his opinion, will be excessive in cost, or detrimental to the best interest of the Project, or for which funds are not available.

§ 233.7 Installation or extension financed by consumer.

If funds, material or labor are not otherwise available for an installation or extension, or if an extension to a prospective consumer will require new construction beyond the distances specified in § 233.6, the consumer or prospective consumer may, after executing an appropriate contract satisfactory to the Project Engineer, construct the needed installation or extension, or deposit funds estimated to be sufficient to pay for the construction. All such extensions shall be built in accordance approved by the Project Engineer. All extensions when constructed shall be and remain the property of the United States.

§ 233.8 Temporary service.

Temporary service refers to service to circuses, bazaars, fairs, construction works, and other activities or businesses of such a nature that service to the premises occupied by them will probably be discontinued within five months. An applicant for temporary service shall be required to deposit with the Project Engineer a sum of money equal to the estimated cost of installing and removing the necessary facilities and also an additional sum equal to the estimated bill for electrical service: Provided, however, That such additional sum need not be greater than three times the estimated monthly bill for electric service. In the event that a consumer proposes to make any material change in the amount, size or character of the electrical equipment installed, on his premises, he shall immediately give written notice of his intention to the Project Engineer.

§ 233.15 Apparatus detrimental to service.

The Project Engineer may refuse to supply loads of a character detrimental to the system, or to service to other consumers, and he may require the installation of suitable corrective devices.

§ 233.16 Motor starting equipment.

Motors having a rated capacity of three horsepower or more shall be provided with suitable starting and overload equipment as may be required by the Project Engineer.

§ 233.17 Service discontinued.

The Project Engineer may discontinue electric service to any consumer who shall continue to use appliances or apparatus detrimental to the Electric Power System after he has been notified to correct the condition and has failed to do so within a reasonable time.

§ 233.18 Bills for service.

Bills will be regularly rendered for temporary service, bills rendered when premises are vacated or bills rendered to persons discontinuing services are due on representation.

§ 233.20 Connect, reconnect, and accounting charges.

A nonrefundable service establishment fee of $7.50 will be charged each time the Project is requested to establish or reconnect electric service to the customer's delivery point. The charge will be included in and rendered with the first month's bill for electricity after connection or reconnection service. An additional charge of $10.00 will be made the deposit required under § 233.5.

§ 233.21 Delinquent bills.

Bills for electric service will be delinquent if not paid on or before the tenth day following the date of issuance of a bill showing arrears. When such delinquency occurs, the Project Engineer shall discontinue service and service shall not be restored until the consumer has paid all bills then due plus a reconnection charge of $10.00 and had made the deposit required under § 233.5.

Discontinuance of service for delinquency shall not relieve the consumer of liability for minimum monthly payments guaranteed by him under his contract.

FEDERAL REGISTER, VOL. 40, NO. 241—MONDAY, DECEMBER 15, 1975
§ 233.22 Discontinuance by consumer.

Notice of his desire to have service disconnected shall be given by the consumer at least two days in advance. In the absence of such notice the consumer will be held liable for payment of all electrical energy furnished to such vacated premises until service is disconnected. Final bills may be paid by application of the consumer's guarantee deposit to the extent that they are covered thereby. Any surplus remaining in the deposit will be returned to the consumer after the contract is terminated. Where the deposit is insufficient, the consumer will be billed for the difference which shall be immediately due and payable.

§ 233.23 Fraud; tampering.

Service shall be disconnected by any consumer, or to any premises at any time when, in the opinion of the Project Engineer, such action is necessary to protect against abuse, fraud, or theft. Tampering or in any way interfering with meters, transformers, poles, conductors, or any part of the property of the Project is prohibited and is subject to prosecution pursuant to law.

§ 233.24 Compensation of employees.

All employees are strictly forbidden to demand or accept any personal compensation for services rendered to a consumer, or any gratuity by reason of rendition of services.

§ 233.25 Hardship cases.

The Project Engineer may relax temporarily strict enforcement of a regulation when in his judgment such enforcement would work undue hardship upon a consumer, but all such cases shall be reported promptly to the Commissioner of Indian Affairs with an explanation by the Project Engineer of the reasons for taking such action. The Commissioner of Indian Affairs may cancel the action taken by the Project Engineer.

§ 233.26 Interruptions to service.

The United States will furnish energy continuously so far as reasonable diligence will permit. But the United States, its officers, agents or employees, assume no liability for damages due to interruptions of service to the consumer.

§ 233.27 Contingent upon appropriations.

All contracts are subject to appropriations made by Congress from year to year of monies sufficient to perform the work or render the service provided therein. No liability shall accrue against the United States by reason of the lack of appropriations.

§ 233.53 Rate Schedule No. 3—Street and Area Lighting.

(a) Application. This rate schedule applies to service for yard lighting, lighting streets, alleys, thoroughfares, parks, schoolyards, industrial areas, parking lots, and similar areas where dusk-to-dawn service is desired. The Project will own and operate the lighting system and provide normal lamp replacement. Other maintenance and repairs shall be made at customer's expense.

Title 29—Labor

CHAPTER V—WAGE AND HOUR DIVISION, DEPARTMENT OF LABOR

PART 602—THE LEATHER, LEATHER-GOODS, AND RELATED PRODUCTS INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5, 6, and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064, as amended (29 U.S.C. 205, 206, 208)), including the Fair Labor Standards Amendments of 1974 (Pub. L. 93-259; 84 Stat. 36), and the Reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp., p. 1004), and by means of Administrative Order No. 638 (49 F.R. 18519), the Secretary of Labor appointed and convened Industry Committee No. 127-C for the Leather, Leather Goods and Related Products Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under sections 6(a), (b), and (c) of the Act to such employees, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters so referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 127-C are hereby published, revising §§ 602.1 and 602.2 of Part 602, Title 29, Code of Federal Regulations.

The increases in future wage rates prescribed by section 6(c) of the 1974 Fair Labor Standards Amendments are set forth in this wage order.

As revised, §§ 602.1 and 602.2 read as follows:

§ 602.1 Definition.

The Leather, Leather Goods and Related Products Industry in Puerto Rico is defined as follows: (a) The curing, tanning, or other processing of hides, skins, leather, or furs, and the manufacture of products therefrom; the manufacture of artificial leather, fabric, plastics, paper or cardboard, or similar materials of trunks, suitcases, brief cases, wallets, billfolds, coin purses, card cases, key cases, cigarette cases, watch straps, pouches, tie cases, toilet kits, checkbook covers, sport and athletic goods and mittens, belts (except fabric belts), and like articles; and the manufacture of baseballs, softballs, footballs and basketballs covered with leather, artificial leather, fabric, plastics, or similar materials: Provided, however, That the industry shall not include any product or activity included in the jewelry and miscellaneous products manufacturing industry; the women’s outerwear, needlework, and miscellaneous fabricated textile products industry; the rubber footwear industry; the non-rubber footwear industry; the gloves and mittens industry; or the rubber and fabricated plastic products industry, as defined in the wage orders for those industries in Puerto Rico.

§ 602.2 Wage rates

Wages at rates not less than those prescribed in this section shall be paid under section 6(c) of the Fair Labor Standards Act of 1938 by every employer to each of his employees in each of the classifications in the industry who in any week engaged in commerce or in the production of goods for commerce or employed in an enterprise engaged in commerce or in the production of goods for commerce as those terms are defined in section 3 of the Act.

(a) Pre-1961 coverage classification: The classifications in this paragraph (a) apply to all activities in the industry to which Section 6 of the Act would have applied prior to the Fair Labor Standards Amendments of 1961.

(i) Hide curing classification. (1) The minimum wage for this classification is $1.975 an hour effective until April 30, 1976. Under section 6(c) the rate will be increased by $0.15 an hour on May 1, 1976 and on May 1 of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(ii) This classification is defined as the salting and other curing of hides and skins and operations incidental thereto, except when such operations are performed as an integral and continuous part of leather tanning.

(2) Belt classification. (i) The minimum wage for this classification is $1.975 an hour effective until April 30, 1976. Under section 6(c) the rate will be increased by $0.15 an hour on May 1, 1976 and on May 1 of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(ii) This classification is defined as the manufacture of apparel belts made of leather, artificial leather, plastics, paper or cardboard, or similar materials (except fabric).

(3) Baseballs and softballs classification. (i) The minimum wage for this classification is $1.975 an hour effective until April 30, 1976. Under section 6(e) the rate will be increased by $0.15 an hour on May 1, 1976 and on May 1 of each subsequent year until the mainland rate is reached (section 6(e) (2)).

(ii) This classification is defined as the manufacture of baseballs and softballs covered with leather, artificial leather, fabric, plastics or similar materials.

(4) Sporting and athletic goods, other than baseballs and softballs.

(5) Other products and activities classification. (i) The minimum wage for this classification is $1.865 an hour effective until April 30, 1976. Under section 6(c) the rate will be increased by $0.15 an hour on May 1, 1976 and on May 1 of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(ii) This classification is defined as the manufacture of sporting and athletic goods other than baseballs and softballs.

Effective date. The effective date of this revision is December 31, 1975.

Signed at Washington, D.C. this 10th day of December, 1975.

Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), and by means of Administrative Order No. 688 (40 F.R. 15319), the Secretary of Labor appointed and convened Industry Committee No. 128-C for the Puerto Rico Apparel Garments Industry, referred to the Committee the question of the wage or wages to be paid under sections 6 (a), (b), and (c) of the Act to such employees, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 128-C are hereby published, revising § 611.2 of Part 611, Title 29, Code of Federal Regulations. The increases in future wage rates prescribed by section 6(c) of the Fair Labor Standards Act of 1938, as amended, and the recommendations set forth in this wage order.

As revised, § 611.2 reads as follows:

§ 611.2 Wage rates.

(a) Wages at rates not less than those prescribed in this section shall be paid under section 6(c) of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the industry who in any workweek is engaged in commerce or in the production of goods for commerce or is employed in an enterprise engaged in commerce or in the production of goods for commerce as those terms are defined in section 3 of the Act.

(b) The minimum wage for this industry is $1.58 an hour for the period ending April 30, 1976. Under section 6(c) the rate will be increased by $0.15 an hour on May 1, 1976 and on each subsequent year until the mainland rate is reached (section 6(c) (2)).

(c) The minimum wage for this classification is $2.00 an hour for the period ending April 30, 1976. Under section 6(c) the rate will be increased by $0.15 an hour on May 1, 1976 and on each subsequent year until the mainland rate is reached (section 6(c) (2)).

(2) This classification is defined as all activities in the industry to which section 6 of the Act would have applied prior to the Fair Labor Standards Amendments of 1966.

§ 612.2 Wage rates.

Wages at rates not less than those prescribed in this section shall be paid under section 6(c) of the Fair Labor Standards Act of 1938 by every employer to each of his employees in each of the classifications in the industry who in any workweek is engaged in commerce or in the production of goods for commerce or is employed in an enterprise engaged in commerce or in the production of goods for commerce as those terms are defined in section 3 of the Act.

(a) Pre-1956 coverage classification.

The Women's Outerwear, Needlework, and Miscellaneous Fabricated Textile Products Industry in Puerto Rico is defined as follows: The manufacture from any material of women's and girls' outerwear (except scarves, blouses, and girls' dresses) and all other apparel and apparel furnishings and accessories made by knitting, crocheting, cutting, sewing, embroidering, or cutting, sewing, and finishing; and the manufacture of all textile products and the manufacture of like articles in which a synthetic material in sheet form is the basic component. Provided, however, that the industry shall not include any product or activity included in the jewelry and miscellaneous products manufacturing industry; the textile mill products industry; or any of the other apparel industries in Puerto Rico as defined in the wage orders for those industries in Puerto Rico.

(b) Wage rates.

The rate for the Women's Outerwear, Needlework, and Miscellaneous Fabricated Textile Products Industry in Puerto Rico is defined as follows: The manufacture from any material of women's and girls' outerwear (except scarves, blouses, and girls' dresses) and all other apparel and apparel furnishings and accessories made by knitting, crocheting, cutting, sewing, embroidering, or cutting, sewing, and finishing; and the manufacture of all textile products and the manufacture of like articles in which a synthetic material in sheet form is the basic component. Provided, however, that the industry shall not include any product or activity included in the jewelry and miscellaneous products manufacturing industry; the textile mill products industry; or any of the other apparel industries in Puerto Rico as defined in the wage orders for those industries in Puerto Rico.
6 (a), (b) and (c) of the 1974 Fair Labor Standards Amendments are set forth in this wage order.

As revised, § 614.2 reads as follows:

§ 614.2 Wage rates.

Wages at rates not less than those prescribed in this section shall be paid under section 6(c) of the Fair Labor Standards Act of 1938 by every employer to each of his employees in each of the classifications in the industry who in any workweek is engaged in commerce or in the production of goods for commerce or is employed in an enterprise engaged in commerce or in the production of goods for commerce as those terms are defined in section 3 of the Act.

(a) Pre-1961 coverage classification.

1. The minimum wage for this classification is $1.88 an hour for the period ending April 30, 1976. Under section 6(c) the rate will be increased by $0.15 an hour on May 1, 1976, and on May 1 of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(b) 1961 coverage classification.

1. The minimum wage for this classification is $2.10 an hour for the period ending December 31, 1975. Since the mainland rate has been attained, the rate specified in section 6(a) (1) now applies, namely, $2.30 an hour after December 31, 1976 (section 6(c) (3)).

(c) 1966 coverage classification.

1. The minimum wage for this classification is $3.00 an hour for the period ending December 31, 1975. Since the mainland rate has been attained, the rates specified in section 6(b) now apply, namely, $3.20 an hour during the year ending December 31, 1976, and $3.20 an hour thereafter (section 6(c) (5)).

(See 5, 6, 62 Stat. 1062 and 1044, as amended; 29 U.S.C. 205, 206, 208.)

Effective date. The effective date of this revision is December 31, 1975.

Signed at Washington, D.C., this 10th day of December, 1976.

Title 43—Public Lands: Interior
CHAPTER II—BUREAU OF LAND MANAGEMENT
APPENDIX—PUBLIC LAND ORDERS
Public Land Order No. 5551; A-057654

ALASKA
Revocation of Public Land Order No. 2789; Partial Revocation of Public Land Order No. 5353

By virtue of the authority vested in the Secretary of the Interior by section 4 of the Act of May 24, 1928, 45 Stat. 729; 49 U.S.C. 214, and sections 14(h) and 32(h) (4) of the Alaska Native Claims Settlement Act of December 18, 1971, 85 Stat. 698 (hereafter referred to as the Act), it is ordered as follows:

1. Public Land Order No. 2789 of October 15, 1962, which withdrew lands for use of the Federal Aviation Agency (now the Federal Aviation Administration) in the maintenance of an air navigation facility, is hereby revoked in its entirety. The lands are described as follows:

   WOODY ISLAND, KODIAK AREA

Beginning at a point where line 1-2 of U.S. Survey 484 intersects mean high tide of St. Paul Harbor, thence:

S. 94°57' E., 2.50 chains to Corner No. 2, U.S. Survey 484; S. 54°54' W., 2.17 chains to Corner No. 3, U.S. Survey 484; S. 41°41' E., 5.34 chains to Corner No. 4, U.S. Survey 484; N. 88°10' E., 2.79 chains to Corner No. 5, U.S. Survey 484; S. 65°25' W., 4.77 chains to Corner No. 1, U.S. Survey 605; Tract B: S. 70°45' W., 2.21 chains to Corner No. 4, U.S. Survey 603, Tract B; S. 70°45' W., approximately distance 2,072 feet to the mean high tde line, thence northeasterly along the mean high tide line approximately 15 chains to the point of beginning.

Containing about 6.75 acres.

2. By virtue of authority vested in the Secretary of the Interior by section 22(h) (4) of the Act, the Secretary has determined that none of the lands described in paragraph 1 are subject to selection by the village of Ouzinkie, Woody Island, or Antons Larson Bay, or any other Native village or regional corporation under any provisions of said Act because of their location within 2 miles of the boundary of the city limits of Kodiak, as set forth in section 22(1) of the Act, and any withdrawals of the lands for such selection are hereby terminated.

3. Public Land Order No. 5353 of July 17, 1973, which withdrew lands pursuant to Executive Order No. 10955, from all forms of appropriation under the public land laws, pending determination of the eligibility of the village of Woody Island, is hereby revoked as to the lands described in paragraph 1.

4. The lands described in paragraph 1 are hereby made available for withdrawal by the Secretary of the Interior for possible selection by the Native of Kodiak in accordance with section 14(h) of the Act and regulations 49 CFR 2650.6 and 2653.7.

5. The lands described in paragraph 1 are withdrawn by Public Land Order No. 52574 of March 25, 1974, for classification and protection of the public interest.

6. Prior to any conveyance of the lands described in paragraph 1, the lands shall be subject to administration by the Secretary of the Interior under the applicable laws and regulations, and his authority to make contracts and to grant leases, permits, rights-of-way, or easements shall not be impaired by this order. Applications for leases under the Mineral Leasing Act, as amended, 30 U.S.C. 181-287 (1970), will be rejected until this order is modified or the lands are appropriately classified to permit mineral leasing.

JACK O. HORTON,
Assistant Secretary of the Interior.

   Amendment of Public Land Orders 5179, 5296, and 5169

   By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1953 (17 F.R. 4831), and by virtue of the authority vested in the Secretary of the Interior by section 11 of the Alaska Native Claims Settlement Act of December 18, 1971, 85 Stat. 966 (hereinafter referred to as the Act), it is ordered as follows:

   **2.** Paragraph 1 of Public Land Order No. 5396 of September 14, 1973, which amended Public Land Order No. 5179 of March 9, 1972, is hereby amended to delete the lands described in paragraph 1 of this order.

   **3.** Paragraph 2 of Public Land Order No. 5169 of March 9, 1972, as amended, which withdrew and reserved certain lands for selection by the Arctic Slope Regional Corporation under section 12 of the Act, is hereby further amended to add the lands described in paragraph 1 of this order. All of the terms of paragraph 2 of Public Land Order No. 5169 of March 9, 1972, are made expressly applicable to these lands.

   **4.** Prior to conveyance of any of the lands covered by this order, the lands shall be subject to administration by the Secretary of the Interior under applicable laws and regulations, and his authority to make contracts and to grant leases, permits, rights-of-way, or easements shall not be impaired. Applications for leases under the Mineral Leasing Act, as amended, 30 U.S.C. 181-287 (1970), will be rejected until this order is modified or the lands are appropriately classified to permit mineral leasing.

   **Postponement of Effective Date**

   Final rules in this proceeding adopting General Order 35 were published in the Federal Register November 10, 1975 (40 F.R. 52365) to be effective December 10, 1975. Counsel for the New York Terminal Conference and the NYSTA-TTA Contract Board have now requested a 180-day extension of the effective date, citing difficulties involved in amending tariffs to conform to the new rules and the need to educate personnel of those affected by the rules. Counsel for Middle Atlantic Conference oppose the requests.

   We are of the opinion that additional time to comply with the rules is needed, but are confident such compliance will not require the full six months requested. Accordingly, it is ordered that the final rules in this proceeding shall be effective April 8, 1976. Tariffs required to be filed by these rules shall be filed sufficiently in advance of the effective date to meet applicable notice requirements.

RULES AND REGULATIONS

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Stations; Table of Assignments; Green Bay, Wis.

1. The Commission now considers the substitution of FM Channel 253 for FM Channel 252A at Green Bay, Wisconsin, and modification of the license of Green Bay Broadcasting Company ("WDUZ") to specify operation on Channel 253 in place of Channel 252A, as proposed in the Notice, 40 Fed. Reg. 20651, adopted herein on April 29, 1975, WDUZ, petitioner in this proceeding and licensee of WDUZ(AM) and WDUZ-FM at Green Bay, commented in support of the proposal. No one else has commented, nor has anyone objected to the proposal.

2. Green Bay (pop. 87,080), seat of Brown County (pop. 158,244), now has three full-time AM stations, a Class A FM station licensed to petitioner, and a Class C FM station licensed to one of the other AM licensees. It is a major city engaged in paper manufacturing, food processing, agricultural trading, and shipping.

3. FM Channel 253 was assigned to Green Bay in our original FM Table of Assignments, but was later removed and replaced by Channel 252A because mileage separation limits required 253 to be located 38 miles from Green Bay. Present assignments and other circumstances now permit a Channel 253 transmitter to be located as close as 12 miles to Green Bay. WDUZ asserts that substitution of Channel 253 to Green Bay will eliminate the interference of Class C and Class A stations at Green Bay which operate on the two channels assigned there. Furthermore, WDUZ comments that a new service could be provided to substantial areas.

4. WDUZ complied with our request for new Rouxmo Rapids and Anaomsa showings using the station specified in its supplemental petition. Based on a 100 kW station with an antenna 500 feet above average terrain, WDUZ shows no first service, but a second service to 612 persons of 81 square miles. This would also be the second full-time aural service to this area, which now receives only a religious format FM station from Sturte, Wisconsin. WDUZ states that upgrading its present facility from Class A to Class C will increase its signal to serve an additional 3,434 miles in which 276,863 persons reside.

5. As discussed in the Notice, the proposal does not have a significant effect on future channel assignments for surrounding communities because of the ample number of channels that are available. Adoption of the proposal would not require any other changes in the Table of Assignments.

6. We find merit in WDUZ's arguments. Adoption of the proposal would result in a new service to substantial areas, a second aural service to an underserved area, and elimination of interference at Green Bay. Our reasons for removing Channel 253 is no longer exist. The population of the Green Bay area is in excess of other communities with Class C stations, and our Class A assignments are usually reserved for smaller towns. WDUZ has made a sufficient showing that Green Bay is in need of another Class C assignment, and that its proposal would be in the public interest.

7. We therefore find that it is in the public interest to replace Channel 252A at Green Bay, Wisconsin, with Channel 253 and to modify the license of Green Bay Broadcasting Company for WDUZ-FM to specify operation on Channel 253 in place of Channel 252A. No Show Cause Order is necessary because petitioner itself sought the modification. Canadian concurrence has been received for the change in assignment at Green Bay, Wisconsin.

8. Authority for the action taken herein is contained in Sections 40(l), 50(1), 303, 307(b) and 316 of the Communications Act of 1934, as amended, and Section 0.281(b)(6) of the Commission's Rules.

§ 73.202 [Amended]

9. In view of the foregoing facts and public interest finding, it is ordered, That, effective January 15, 1976, the FM Table of Assignments, Section 73.202(b) of the Commission's Rules, is amended, insofar as the city listed below is concerned, to read as follows:

City: Green Bay, Wisconsin

Channel No.: 253, 252A

10. It is further ordered, That effective January 15, 1976, the license held by Green Bay Broadcasting Company for Station WDUZ-FM, Green Bay, Wisconsin, IS MODIFIED to specify operation on Channel 253 in lieu of Channel 252A subject to the following conditions:

(a) The licensee shall inform the Commission in writing by no later than January 15, 1976, of its acceptance of this modification.

(b) The licensee may continue to operate on Channel 252A under its outstanding authorization until it is ready to operate on the new frequency.

(c) The licensee shall submit to the Commission by February 16, 1976, all necessary information complying with the applicable technical rules for modification of authorization to cover the operation on Station WDUZ-AM on Channel 253 at Green Bay, Wisconsin.

(d) Ten days prior to commencing operation on Channel 253, the licensee shall submit the same measurement data normally required in an application for an FM broadcast station license.

(1) The licensee shall not commence operation on Channel 253 until the Commission specifically authorizes it to do so.

11. It is further ordered, That this proceeding (Docket 20467, RM-2403) is terminated.

(See § 73.206(a)(2), F.C.C. Rules.)

(c) The licensee shall not commence operation on Channel 253 until the Commission specifically authorizes it to do so.

11. It is further ordered, That this proceeding (Docket 20467, RM-2403) is terminated.

(See § 73.206(a)(2), F.C.C. Rules.)

PART 89—PUBLIC SAFETY RADIO SERVICES

PART 93—LAND TRANSPORTATION RADIO SERVICES

Order

1. On July 2, 1974, the Commission allocated the channel 157.450 MHz to the Special Emergency Radio Service for one-way paging operations (Docket 18880, FCC-74-707 published in the Federal Register on July 16, 1974). However, the Commission action did not delete the reference to this channel in the section it was previously listed under. (Available previously for developmental operations in the Land Transportation Radio Services.

2. On May 28, 1975, the Commission allocated the frequency 159.480 MHz to the Petroleum Radio Service for oil spill operations. (Docket 20027, FCC 75-611 published in the Federal Register on June 10, 1975) Again the action taken did not delete reference to this channel in the section it was previously listed under. (Available previously for developmental operations in the Public Safety and Land Transportation Radio Services.

3. This Order is issued to correct the rules by deleting § 89.101(f) and by deleting the two frequency bands 157.450—157.4625 and 159.480—159.4875 MHz in § 93.204(b). Persons authorized for developmental operations on these channels may continue to operate for the balance of their license term.

4. Inasmuch as this Order is to clarify the prior notice action and effective date provisions of the Administrative Procedure Act (5 U.S.C. 553) do not apply. Authority for this order is contained in Sections 4(c) and 303(c) of the Communications Act of 1934 as amended, and in § 93.201(d) of the Commission's Rules and Regulations.

5. Accordingly, it is ordered, effective December 17, 1975, that §§ 89.101(D) and 93.204(b) are amended as set forth below.

I. Part 93 of the Commission's Rules is amended as follows:

§ 93.101 [Amended]

1. Section 93.101 is amended by deleting paragraph (D) and adding the word

Reserved.

II. Part 93 of the Commission's Rules is amended as follows:

1. Section 93.204 is revised as follows:

(b) The frequency band 33.00-33.01 MHz is available for assignment to base stations and mobile stations in any of the Land Transportation Radio Services for developmental operation only, using any type of emission other than pulsed emission. The bandwidth occupied by the emission of each such station must be contained at all times within the assigned frequency band.

PART 95—CITIZENS RADIO SERVICE

PART 97—AMATEUR RADIO SERVICE

Order Regarding Canadian Applications

In the matter of amendment of Parts 95 and 97 of the Commission's Rules to eliminate the requirement for the furnishing of a United States address by certain Canadian citizens requesting permission to operate a radio station in the United States.

1. Under the terms of two agreements between the United States and Canada (TIA No. 2508 and No. 6931), Canadian citizens licensed in the Canadian Amateur, General, and Land Mobile Radio Services are permitted, under prescribed terms and conditions, to operate their radio stations in the United States.

2. The Rules are being amended to reflect the intent of these agreements by permitting Canadian licensees in the Amateur and General Radio Services to make application for permits to operate their stations in the United States without furnishing the Commission with an address in the United States to which correspondence and documents may be directed.

3. The amendments adopted herein are procedural in nature; and hence, the prior notice, procedure, and effective date provisions of the Administrative Procedure Act, 5 U.S.C. § 553, are not applicable.

4. In view of the foregoing, IT IS ORDERED, effective December 17, 1975, that Parts 95 and 97 are amended as set forth below. Authority for this amendment appears in sections 4(d) and 303 of the Communications Act of 1934, as amended.

(See, 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 1503.)

Adopted: December 2, 1975.

Released: December 8, 1975.

FEDERAL COMMUNICATIONS COMMISSION.

[Seal] VINCENT J. MULLINS,

Secretary.

Parts 95 and 97 of Chapter 1 of Title 47 U.S.C. are amended as follows:

1. Section 95.14 is revised to read as follows:

§ 95.14 Mailing address furnished by licensee.

Except for applications submitted by Canadian citizens pursuant to agreement between the United States and Canada (TIA No. 2508 and No. 6931), each application shall set forth and each licensee shall furnish the Commission with an address in the United States to be used by the Commission in serving documents or directing correspondence to that licensee. Unless any licensee advises the Commission to the contrary, the address contained in the licensee's most recent application will be used by the Commission for this purpose.

2. Section 97.42 is revised to read as follows:

§ 97.42 Mailing address furnished by licensee.

Except for applications submitted by Canadian citizens pursuant to agreement between the United States and Canada (TIA No. 2508 and No. 6931), each application shall set forth and each licensee shall furnish the Commission with an address in the United States to be used by the Commission in serving documents or corresponding to that licensee. Unless any licensee advises the Commission to the contrary, the address contained in the licensee's most recent application will be used by the Commission for this purpose.

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 28—PUBLIC ACCESS, USE AND RECREATION

Chincoteague National Wildlife Refuge

The following special regulations are issued and are effective during the period January 1, 1976 through December 31, 1976.

§ 28.28 Special regulations, public access, use and recreation for individual wildlife refuge areas.

VIRGINIA

CHINCOTEAGUE NATIONAL WILDLIFE REFUGE

Entry into the refuge is permitted between the hours of 4:00 a.m. to 10:00 p.m. daily for the purposes of sightseeing, nature study, wildlife observation, photography, hiking, beachcombing, sunbathing, and fishing, including clamming and crabbing, as posted. Swimming and surfing are permitted along the entire refuge beach. Lifeguards are not provided. Entry into the refuge by boat is permitted at the designated public use area at Tom's Cove Hook and Assateague Point.

Operation of registered motor vehicles and bicycles is permitted on designated access roads, trails, and parking areas. Riding of horses and other saddle animals is permitted only along the shoulder of the access road to the Coast Guard Station In the United States to Tom's Cove Hook. Pups must remain in vehicles at all times.

Fishermen who hold special overnight beach-fishing permits issued jointly by the Superintendent, Assateague Island National Seashore and the Refuge Manager, Chincoteague National Wildlife Refuge, may remain on the refuge between the hours of 10:00 p.m. and 4:00 a.m. on the dates for which such permit is issued.

Organized youth-group and backpack camping is permitted by advance reservation only in National Park Service operated campsites located on the refuge. Permits may be obtained from the Refuge Superintendent, Assateague Island National Seashore.

Fishing is permitted at Tom's Cove Hook in areas designated by the National Park Service.

The possession of any drugs or substances, or immediate precursors, identified in Schedules I, II, III, IV, or V of Part 21 of the Controlled Substances Act, 21 U.S.C. 812, or any drugs or substances added to these schedules pursuant to the terms of the Act, is prohibited on the refuge unless such drugs or substances were obtained in accordance with law. Presence in the refuge when under the influence of a controlled substance to a degree that may endanger oneself or any other person or property, or may interfere with another person's enjoyment of the refuge is prohibited.

The refuge, comprising approximately 9,840 acres, is delineated on a map available from the Refuge Manager, Chincoteague National Wildlife Refuge, P.O. Box 62, Chincoteague, Virginia 23336, and from the Regional Director, U.S. Fish and Wildlife Service, Post Office and Courthouse Building, Boston, Massachusetts 02109.

The provisions of this special regulation supplement the regulations which govern recreation on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through December 31, 1976.

WILLIAM C. ASHE,

Acting Regional Director

U.S. Fish and Wildlife Service.

PART 33—SPORT FISHING
National Bison Range

The following special regulations are issued and are effective on date of publication in the Federal Register.

§ 33.5 Special regulations; sport fishing, for individual wildlife refuge areas.

MONTANA
NATIONAL BISON RANGE

Sport fishing on the National Bison Range, Moiese, Montana, is only permitted along the portions of the Jocko River as posted. These open areas are delineated on maps available at refuge headquarters, one-half mile east of Moiese, Montana. Sport fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulations supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, and are effective through December 31, 1976.

NINEPIPE NATIONAL WILDLIFE REFUGE
(Headquarters National Bison Range, Moiese, Montana)

Sport fishing is permitted in accordance with special regulations. Entire refuge is open from July 15, until beginning of waterfowl hunting season, and before July 15, on west and north shore lines from picnic area to Allenstown bridge, except central portion of north shore (nine-tenths of a mile) as posted. Entire refuge is closed during migratory waterfowl hunting season. Ice fishing is permitted after the closure of the waterfowl hunting season until March 1. Sport fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulations supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1976.

Special Regulations: Ninepipe National Wildlife Refuge.
1. Off shore islands are closed to fishing and trespass.
2. Use of boats is prohibited.
3. Vehicles must be parked at designated areas.
4. Motorized travel on the ice is prohibited.
5. No ice fishing shelters may be left overnight.

PABLO NATIONAL WILDLIFE REFUGE
(Headquarters National Bison Range, Moiese, Montana)

Sport fishing is closed on Pablo Reservoir during the migratory waterfowl hunting season. It is open during the balance of the year, in accordance with special regulations, on the north and east shore lines from inlet canal to south end of dam as posted. Ice fishing is permitted after the closure of the waterfowl hunting season. Sport fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulations supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1976.

Special Regulations: Pablo National Wildlife Refuge.
1. Off shore islands are closed to fishing and trespass.
2. Use of boats is prohibited.
3. Vehicles must be parked at designated areas.
4. Motorized travel on the ice is prohibited.
5. No ice fishing shelters may be left overnight.

SWAN RIVER NATIONAL WILDLIFE REFUGE
(Headquarters National Bison Range, Moiese, Montana)

Sport fishing is permitted on those parts of the Swan River and Swan Lake which lie within the boundaries of Swan River National Wildlife Refuge. Fishing from shore within the refuge is prohibited from March 1, to July 15. Fishing will be in accordance with all applicable State regulations.

MARVIN R. KASCHEK,
Refuge Manager, National Bison Range, Moiese, Montana.

SPECIAL PERMITS FOR IMMEDIATE DELIVERY PRIOR TO ENTRY

Proposed Amendments Regarding Fresh Produce Arriving From Canada or Mexico

Notice is hereby given that under the authority of R.S. 251, as amended (19 U.S.C. 66), and sections 448, 484, 506, 552, 553, 623, and 624, 46 Stat. 714, as amended, 722, as amended, 722, as amended, 723, as amended, 723, as amended, 759, as amended (19 U.S.C. 1446, 1448, 1450, 1552, 1553, 1623, 1624), it is proposed to amend sections 142.2 and 158.11 of the Customs Regulations (19 CFR 142.2, 158.11) to provide a special procedure in connection with the entry of fresh fruits and vegetables arriving from a contiguous foreign country. Under this procedure, special permits for immediate delivery could be issued for fresh fruits and vegetables arriving from Canada or Mexico, even though a portion thereof is subsequently to be entered for immediate delivery prior to entry is is-

At the present time, facilities do not always exist directly at the border for the examination and sorting of fresh fruits and vegetables which arrive by truck from a contiguous foreign country (primarily Mexico). Consequently, the merchandise must be taken to an examination point away from the border for sorting and determining which portion is to be entered for domestic consumption, for immediate transportation without appraisement or for transportation and exportation to a foreign country.

The proposed amendment to §142.2(b) of the Customs Regulations (19 CFR 142.2(b)), as set forth below, would permit fresh fruits and vegetables arriving from a contiguous foreign country (1) to be released under a special permit for Immediate delivery for examination at the importer's premises within the limits of the port of importation, but removed from the border area, (2) to be examined and sorted at those premises, with the portion without commercial value being segregated in accordance with the provisions of §158.11(b) of the Customs Regulations (19 CFR 158.11(b)), and (3) to be thereafter entered either for consumption, for immediate transportation without appraisement or for transportation and exportation to a foreign country. The merchandise would be transported from the border to the importer's premises in the same vehicles in which the merchandise crossed the border, or in other vehicles provided by the importer. Appropriate stipulations regarding all of the activities prior to entry would be incorporated in the bond required by §154.6 of the Customs Regulations (19 CFR 154.6) as a condition of the special permit for immediate delivery. The merchandise for which a special permit is issued would be considered to remain in Customs Custody.

To reflect this procedure, it is proposed to amend §142.2 of the Customs Regulations, relating to the issuance of special permits for immediate delivery for merchandise arriving from Canada or Mexico, by placing the provisions presently contained in that paragraph in a separate subparagraph (1), and by adding new provisions in subparagraph (2). It is also proposed to amend §158.11 (b) (1) of the Customs Regulations to include an appropriate reference to the procedure to be set forth in §142.2(b).

Accordingly, it is proposed to amend paragraph (b) of §142.2 of the Customs Regulations (19 CFR 142.2(b)) and paragraph (b) (1) of §158.11 of the Customs Regulations (19 CFR 158.11(b) (1)) to read as set forth below:

§142.2 Application for special permit for immediate delivery.

(b) Merchandise from Canada or Mexico. (1) When the customhouse is closed. In the case of merchandise arriving from Canada or Mexico when the customhouse is closed, it must be placed in bonded storage before it is moved to places other than the port of arrival, the application and the evidence of the right to make a entry may be submitted to the chief Customs officer on duty and a special permit may be issued for immediate release, provided the applicant has on file in the customhouse a term bond in accordance with §142.2(b) or (c).

(2) Fresh fruits and vegetables. Applications for special permits for immediate delivery may be made for the transportation of fresh fruits and vegetables for human consumption arriving from Canada or Mexico to the importer's premises within the port of importation, but removed from the area immediately contiguous to the border, under an appropriate stipulation to the bond provided for in §142.4. The fresh fruits and vegetables shall be transported in the vehicles in which the merchandise crossed the border, or, if transportation is necessary, in vehicles provided by the importer, to the importer's premises. The produce may be examined at the importer's premises, those portions without commercial value being segregated in accordance with the provisions of §158.11(b) of this chapter, and the balance entered under an entry for immediate transportation without appraisement or an entry for transportation and exportation. Merchandise for which a special permit has been issued under the provisions of this paragraph shall be considered to remain in Customs custody.

Section 158.11(b) (1) is revised to read as follows:

§158.11 Merchandise completely worthless at time of importation.

(b)

(1) An application for such allowance shall be filed with the district director on Customs Form 4315 in duplicate, within 96 hours after the unloading of the merchandise and before any of the shipment involved has been removed from the pier (or other area permitted under §142.2(b) (2) of this chapter) pursuant to the entry permit.

Prior to the adoption of the foregoing proposal, consideration will be given to any relevant data, views, or arguments which are submitted to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20229, and received on or before January 14, 1976. Written material or suggestions submitted will be available for public inspection in accordance with §103.8(b) of the Customs Regulations (19 CFR 103.8(b)) at the Regulations Division, Headquarters, United States Customs Service,

MEDICAL RADIATION EXPOSURE OF WOMEN OF CHILDBEARING AGE  

Advance Notice of Proposed Guideline Publication  

The Commissioner of Food and Drugs announces that proposed guidelines are to be developed for medical radiation exposure of women of childbearing age. Comments and data are to be submitted before February 13, 1976, to: Division of Compliance, Bureau of Radiological Health (HFX-440), 5600 Fishers Lane, Rockville, MD 20852.  

The Bureau of Radiological Health of the Food and Drug Administration (FDA) announces that studies of certain diagnostic x-ray and nuclear medicine practices are to be undertaken to determine those actions that may be taken to minimize unnecessary ionizing radiation exposure of the developing human embryo and fetus. In these studies, efforts will be made to collect sufficient information to provide a basis for appropriate radiation protection guidelines for use by the clinician. Comments are limited on this subject and possible guidelines that may be developed.  

The FDA, through the Bureau of Radiological Health and under authority of the Radiation Control for Health and Safety Act of 1968 (Pub. L. 90-602, 42 U.S.C. 263b et seq.) conducts and supports research, training, and operational activities to minimize unnecessary exposure of the public to electronic product radiation. In carrying out the purposes of the act, the Commissioner is authorized to make such recommendations relating to the control of electronic product
radiation as he considers appropriate (section 566(b)(1)(A)). In this capacity and under the authority of section 301 of the Radiation Control for Health and Safety Act, the Commissioner is considering the development of guidelines that would provide recommendations to health practitioners and others concerning the exposure of women of childbearing age to ionizing radiation for diagnostic purposes. These recommendations are intended to minimize unnecessary exposure of developing human embryos and fetuses to ionizing radiation that results from radiographic examinations. As used in this advance notice of proposed rule making, the term "radiological" includes both x-ray and nuclear medicine procedures used in medicine for diagnosis of disease or injury.

These guidelines would be among several which will be proposed by the Commissioner concerning the hazards and control of electronic product radiation or radiation from other sources. Some of these guidelines may be established for areas or activities inappropriate for mandatory control. However, they will be developed in cooperation with national scientific and technical authorities and representatives of professional, public, and private groups that have an interest in and knowledge in the field. The guidelines will therefore represent a consensus of expert opinion upon which individual practitioners and allied health personnel can rely. These guidelines, which will provide guidance for reducing unnecessary exposure to electronic product or other sources of radiation such as nuclear medicine procedures, would be implemented through educational programs and cooperative activities with professional organizations and State health agencies. This advance notice is being issued pursuant to the FDA's policy of early public participation in guideline development activities.

It presently appears that general guidance can be provided which is appropriate for all types of diagnostic procedures. Thus, as presently contemplated, the proposed guidelines would provide recommendations regarding limiting radiation exposure from both x-ray examinations and diagnostic procedures employing radiopharmaceuticals or other sources of ionizing radiation. However, should the information developed during this study or from comments received as a result of this advance notice indicate that nuclear medicine or other non-x-ray procedures require different recommendations, appropriate guidelines may be developed for each type of procedure, and they may be published separately.

Interested parties are invited to participate in developing the proposed guidelines by submitting written comments or data on the subject. Communications on the proposed guidelines should be sent to the address noted above. Comments received on or before February 13, 1976 will be considered by the Commissioner before the proposed guidelines are written. When a recommendation is developed, the guidelines will be published in the Federal Register as proposed and public comment will be invited. Comments received after February 13, 1976, will be considered with the current recommendations. Proposed guidelines and will be used in revising the proposed guidelines. To assist the Commissioner in this study and developing guidelines for protecting the health of patients, the recommendations of useful guidelines, detailed scientific and technical data, as well as comments or suggestions, supported by detailed rationale and justification are solicited on the following questions:

1. Is it advisable to schedule nonemergency radiological examinations of the abdomen of women of childbearing age only during the early part of the menstrual cycle? If so, when under what circumstances? To what extent does this result in an unacceptable loss of diagnostic information?

2. Is it feasible to modify radiological examination techniques of known or possibly pregnant women in order to reduce radiation exposure of the embryo or fetus? If so, under what circumstances? What is the value of the radiograph?

3. Is it advisable to recommend to institutions that the physician ordering the examination indicate on the referral slip whether or not the patient is or could be pregnant?

4. Is it advisable to recommend to institutions that the physician ordering the examination indicate on the referral slip whether or not the patient is or suspected to be pregnant?

5. For which abdominal x-ray examinations could fetal shielding be employed without compromising the diagnostic value of the radiograph?

6. To what extent do pelvimetry examinations affect decisionmaking in the management of delivery?

7. How much radiation exposure is received by the embryo or fetus from various diagnostic nuclear medicine procedures?

8. With what frequency are nuclear medicine diagnostic procedures performed on women of childbearing age?

Individuals or organizations wishing to provide information which questions or other relevant topics for use in the development of the guidelines, or wishing to receive information made public on the development of these guidelines, should send their comments or address information to the address noted above.

As part of this program, the Bureau of Radiological Health will prepare a technical summary of the current recommendations regarding medical radiation exposure of women. This report will summarize information on the benefits and limitations of the current recommendations, review the most recent scientific data relating to this question, and suggest a possible alternative approach. When completed, this technical overview report will be published and made available to interested parties, and it will serve as the basis for further discussion leading to development of appropriate guidelines for general clinical use.

When developed, the guidelines will be codified as voluntary recommendations in a new Subpart C of Part 1000 of Chapter 1 of Title 21 of the Code of Federal Regulations. Subpart C, "Guidelines and Recommendations," is being established (see the Federal Register of September 16, 1975 (40 FR 42749)) to provide wide dissemination and a permanent record of these radiation protection recommendations.

This advance notice of proposed guideline publication is issued under the authority of the provisions of the Public Health Service Act as amended by the Radiation Control for Health and Safety Act, e.g., 42 U.S.C. 263a, as an advisory delegation to the Commissioner (21 CFR 2.120).

FEDERAL MOTOR VEHICLE SAFETY STANDARDS
Definition of "Gross Axle Weight Rating"

This notice proposes to amend the definition of "Gross axle weight rating" and "GAWR" to require that they be established for 60-mph speeds or the vehicle's maximum operational speed, whichever is lower.

"Gross axle weight rating" is defined in 49 TCP § 571.3 as "the value specified by the vehicle manufacturer as the load-carrying capacity of a single axle system, as measured at the tire-ground interface." The GAWR value on the vehicle's certification label indicates the strength of the axle systems, as a measure of the loads that the vehicle may safely carry. Some of the safety standards depend on specific GAWR values for their application. For example, Standard No. 121, Air Brake Systems (49 CFR 571.121), has immediate application to trucks, buses, and trailers with GAWR values under 24,000 pounds, but does not apply to vehicles with GAWR values in excess of 24,000 pounds until September 1, 1976. Some manufacturers have been attempting to qualify for the later effective date of Standard No. 121 by certifying a vehicle at a speed less
than its maximum operational speed in order to place a higher GAWR value on the certification label. However, the operation of such a vehicle may drive it at normal highway speeds. If the vehicle is loaded in conformance with the reduced-speed GAWR value shown on the certification label, operation at higher speeds may overload the vehicle with respect to its brake system, thereby creating a safety hazard. The NHTSA has no objection to the inclusion of reduced-speed GAWR values in the operation manual or on labels other than the certification label. However, in order to ensure safe operation of the vehicle at normal highway speeds, the certification label should contain the vehicle's GAWR at its maximum operational speed.

The NHTSA has determined that the maximum operational speed of a vehicle for purposes of determining the GAWR value should be 60 mph or the vehicle's maximum attainable speed, whichever is less. In arriving at this determination, the NHTSA considered several factors including general vehicle capabilities, current speed limits, and the unqualified tire rating given by the Tire and Rim Association at 60 mph. In light of the foregoing, it is proposed that Part 385 of Title 49, Code of Federal Regulations, 'Federal Motor Vehicle Safety Standards', be amended in part as read follows:

§ 571.3 Definitions.

* * * * *

(b) "Gross axle weight rating" or "GAWR" means the value specified by the vehicle manufacturer as the load-carrying capacity of a single axle system on the vehicle, as measured at the tire-ground interfaces, when the vehicle is operating at any speed up to 60 mph or up to the vehicle's maximum attainable speed, whichever is less.

Interested persons are invited to submit comments on the proposal. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street SW., Washington, D.C. 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered, and will be available for examination in the docket area both before and after that date. To the extent possible, comments filed after the closing date will also be considered. However, the rulemaking action may proceed at any time after the date that comments are received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The NHTSA will continue to file relevant material as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Comment closing date: January 29, 1975.

Proposed effective date: Date of publication of final rule.

[Docket No. 75–5; Notice 03]

USED COMPONENTS IN TRAILER MANUFACTURING

This notice proposes the addition of a new paragraph to 49 CFR 571.7, Applicability, to specify the conditions under which a trailer assembled by combining new materials with a used running gear assembly will be considered used for the purposes of the motor vehicle safety standards, associated regulations, and the National Highway Traffic and Motor Vehicle Safety Act.

A running gear assembly is the axle or axles, wheels, suspension and related components sometimes known as a "bogie" that supports the frame and upper portions of the trailer. A number of persons, including Bertolini Engineering Company and the Monon Trailer Company (Monon), have asked the National Highway Traffic Safety Administration to reconsider its letter interpretations of what constitutes the manufacture of a new trailer when a used running gear assembly from an existing vehicle is involved. Until now, the NHTSA has recognized the commercial practice of refurbishing wrecked or badly worn trailers by permitting "repair" without re-certification to, if, at a minimum, the running gear and main frame structural members of the existing trailer are used in the rebuilding operation. A recent amendment of Part 571 permits the use of "glider kits" in truck assembly without re-certification if, at a minimum, the engine, transmission, and drive axle(s) of the assembled vehicle are not new and at least two of these components were taken from the same vehicle.

Several letters from trailer manufacturers and the Monon petition argue that the requirement for both a used running gear and main frame members does not adequately reflect the common practice of manufacturing trailers without separate main frame members that can be salvaged for reuse. More often, the "monocoque" van and some tank trailer construction utilizes the walls of the cargo container as the load-bearing structural members in place of separate frame rails. Monon Trailer Company has petitioned for reconsideration of the present NHTSA position so that a used running gear assembly alone may be used in the assembly of a trailer without considering it to be newly-manufactured and thus not covered by the standards. The petition argues that the value of the running gear assembly has always been sufficiently large to justify rebuilding operations of this nature. The company estimates that between 10 and 30 percent of its production has traditionally been the rebuilding of trailers using only the running gear assembly from the original trailer. Monon points out that the rebuilding business typically falls to the smaller manufacturers and that the impossibility of rebuilding to Standard No. 121 specifications would mean the loss of most of this business. It argues that use of the running gear alone is directly comparable to the use of drive train components alone in the use of glider kits to rebuild powered vehicles.

A petition from Bertolini Engineering Company asks for limited relief of the sameness.

The Monon petition recognizes the possibility that unrestricted reuse of running gear assemblies could develop into a pervasive practice throughout the industry to evade the requirements of the air brake standard. To prevent this possibility, the petition suggests that the identity of the original trailer be continued in the refurbished trailer, that the original trailer be no more than 8 years old, and that the rebuilt trailer be sold only to the owner of the trailer from which it was rebuilt. Monon suggests also that compliance be required with regard to all new components and that the running gear be required as a minimum in the rebuilding operation. The company points out that the previous excise tax treatment requires certain industrial practices on the rebuilding of trailers.

The NHTSA has received the views of others on the economic considerations that enter into these rebuilding operations. The agency has also indicated that with regard to Standard No. 121 that it would monitor the effect of the standard with a view to reducing its costs where possible without loss of significant safety benefit. The NHTSA tentatively concludes that reuse of running gear assemblies is economically justified to the degree that they have been reutilized in the past.

Therefore the agency proposes a revision of its position in this area to permit limited rebuilding of trailers from new material other than the running gear assembly without the requirement of re-certification.

As safeguards against evasion of the air brake standard, the agency proposes an 8-year limit on the use of running gear assemblies for rebuilding operations. Additionally, the requirement that the trailer be sold to the original owner under its original identity would be included to prevent large-scale evasion of the standard by parties who might at-
tempt to recycle old, unreliable equipment that would normally be junked.

In consideration of the foregoing, it is proposed to add a new paragraph (c) to be added to 49 CFR 571.7. Applicability, to read as follows:

§ 571.7 Applicability.

(1) Combining new and used components in trailer manufacture. When new materials are used in the assembly of a trailer, the trailer will be considered newly manufactured for purposes of paragraph (a) of this section, the application of the requirements of this chapter, and the Act, unless, at a minimum, the trailer running gear assembly (axle(s), wheels, braking, suspension and components for attachment to the frame) is not new, and was taken from an existing trailer—

(1) Whose date of production is less than 8 years earlier than that of the reassembled vehicle;

(2) Whose identity is continued in the reassembled vehicle with respect to model, year, vehicle identification number, and any other documentation incident to the vehicle's reassembly and registration; and

(3) That is owned or leased by the user of the reassembled vehicle.

Interested persons are invited to submit comments on the proposal. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street SW., Washington, D.C. 20590. It is requested that only 10 copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The NHTSA will continue to file relevant material as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Comment closing date: January 29, 1976.

Proposed effective date: Date of publication of final rule in the Federal Register.

PROPOSED RULES

FEDERAL MARITIME COMMISSION

[46 CFR Part 503]

[Docket No. 75-59]

RECORD OF IDENTIFIABLE PERSONAL INFORMATION

Access

Notice is hereby given that the Federal Maritime Commission proposes to amend Title 46 of the Code of Federal Regulations, Part 503, Subpart C, implementing the provisions of the Privacy Act of 1974 (5 U.S.C. 555(a), P.L. 93-579). The amendments proposed herein are designed to further clarify the Commission's Rules as they relate to the protection of the personal privacy of individuals identified in records maintained by the Commission.

Section 503.64 presently states that:

Upon request for information made in accordance with section 503.62 of this subpart, the Assistant Managing Director or his delegate shall: (1) Determine whether or not such requests shall be granted; (ii) Make such determination and provide notification within a reasonable period of time after receipt of such requests.

In order to provide a more specific time limitation within which the Commission must respond to a request for information concerning a record, or a request for access to a record, it is proposed to amend Section 503.65 as follows:

Section 503.65 (c) (1) and (ii) presently states that:

(1) Upon request made in accordance with this section the Assistant Managing Director or his delegate shall: (1) Determine whether or not such requests shall be granted;

(ii) Make such determination and provide notification within a reasonable period of time after receipt of such requests.

If access to a record is denied because such information has been compiled by the Commission in reasonable anticipation of a civil or criminal action or proceeding, or for any other reason, the Assistant Managing Director shall notify the individual of such determination and his right to judicial appeal under 5 U.S.C. 552(g).

Interested parties may participate in this rulemaking by filing with the Secretary, Federal Maritime Commission, 1100 L Street NW., Washington, D.C. 20573, on or before January 14, 1976, an original and 15 copies of their views and arguments pertaining to the proposed amendments. All suggestions for changes in the text should be accompanied by drafts of the language thought necessary to accomplish the desired change and should be supported by statements and arguments relating to the proposed change to the Privacy Act of 1974.

By the Commission.

[Rel. No. 34-11874; File Nos. ST-585, ST-586]

SECURITIES INFORMATION PROCESSORS

Extension of Comment Periods

On September 23, 1975 the Commission announced in Release No. 34-11673 [40 FR 45422] the adoption of Rule 11Ab2-1 and related Form SIP to provide for the registration of securities information processors pursuant to Section 11A(b) of the Securities Exchange Act of 1934. The Commission also requested in Release No. 34-11673 that interested parties comment upon Rule 11Ab2-1, Form SIP, proposed rules 11Ab2-2, 3 and 11Ab5-1 (ST-585) and on the need to require the registration of nonexclusive securities in-
nformation processors (S7-586) [40 FR 45448]. The comment periods on the matters enumerated in Release No. 34-11673 have each elapsed.

The Commission is aware, however, that interested parties have requested additional time within which to comment upon these matters. Further, the Commission finds that the opportunity to receive additional comments would be in the public interest and may aid the Commission in exercising its regulatory authority with respect to securities information processors.

Accordingly, the Commission in Release No. 34-11674, 40 FR 56987, ordered the public comment periods established by Release No. 34-11673 extended to and including December 22, 1975.

ENVIRONMENTAL AND SOCIAL DISCLOSURE

Supplemental Information Regarding Request for Public Comment on Rulemaking Proposals

On October 14, 1975, the Securities and Exchange Commission issued Securities Act Release No. 5627,2 which contained the Commission's conclusions in its public proceeding concerning possible disclosure of environmental, equal employment, and other socially significant matters.

The release also invited public comment on certain Commission rulemaking proposals concerning disclosure of registrants' compliance with certain existing environmental standards.

As discussed more fully in Release No. 5627, this rulemaking proceeding is being conducted in response to the order and opinion of Judge Charles R. Richey in "Natural Resources Defense Council v. Securities and Exchange Commission," 399 F. Supp. 689 (D.D.C., 1974), and have submitted to the Court a joint estimate of the time required to complete the rulemaking proceeding, and a draft order based thereon. Whether or not the district court has the authority to impose on the Commission a deadline respecting rulemaking activities, the Commission will attempt to complete this proceeding, and issue final regulations, within a relatively short period after the close of the comment period announced in Release No. 5627.

Accordingly, the Commission wishes to advise interested persons that it is unlikely that the Commission will grant an extension of the January 12, 1976, comment deadline. Further, the staff may not follow the practice, sometimes employed, of informally holding the proceeding open and considering comments received, after the announced comment deadline, but during the period of staff review of public submissions. The Commission requests, in addition, that interested persons submit their comments as far in advance of January 12, 1976, as possible.

The rulemaking proposals announced in Release No. 5627 would, among other things, require registrants to provide as an exhibit to certain documents filed with the Commission, a list of their most recently filed "environmental compliance reports" which indicate that they have not met any applicable environmental standard established pursuant to a federal statute.

For example, under the Federal Water Pollution Control Act, 33 U.S.C. 1151, et seq., the Environmental Protection Agency ("EPA") and, in certain cases, the states, administer the National Pollutant Discharge Elimination System. See 40 C.F.R. 125.125. Sources of water pollution are required under that program to obtain a discharge permit, and to establish a schedule for compliance pursuant to its terms. The source must report at specified intervals whether it has met the compliance schedule. Further, if for any reason the source fails to comply with maximum effluent limitations specified in its permit, a report describing that occurrence must, within five days, be filed with the EPA Regional Administrator or the state. Permittees are also required to file discharge monitoring reports on a quarterly basis indicating the volume and composition of discharges.

Similarly, under the Clean Air Act, 42 U.S.C. 1857, et seq., new sources of air emissions in certain categories are required to monitor and summarize excess emission data and report it to EPA. See 40 C.F.R. pt. 60. Further, EPA has recently required states to submit implementation plans which prescribe monitoring and reporting requirements for certain classes of existing air pollution sources. See 40 CFR pt. 51. EPA also has authority, pursuant to Section 114 of the Clean Air Act, to require special reports as appropriate. The EPA Office of Mobile Source Pollution has proposed regulations requiring auto manufacturers to report information concerning pollution-related defects.

To date, relatively few comments have been received with respect to the proposed rule and, for this reason, the Commission hereby again requests the views of the interested persons. In addition, it is requested that registrants who are planning to comment, identify and briefly describe the types, number and content of "environmental compliance reports" filed by them within the last 12 months. This information will be helpful in assessing various aspects of the proposed rule, including the costs and burdens which would be involved.

By the Commission.

TREASURY NOTES OF SERIES G-1979

Dated and Bearing Interest From Jan. 6, 1976; Due Dec. 31, 1979

December 10, 1976.

I. I N V I T A T I O N F O R T E N D E R S

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites tenders on a yield basis for $2,000,000,- 000, or thereabouts, of notes of the United States, designated Treasury Notes of Series G-1979. The interest rate for the notes will be determined as set forth in Section III, paragraph 3, hereof. Additional amounts of these notes may be issued at the average price of accepted tenders to Government accounts and to Federal Reserve Banks for themselves and as agents of foreign and international monetary authorities. Tenders will be received up to 1:30 p.m. Eastern Standard time, Monday, December 22, 1976, under competitive and noncompetitive bidding, as set forth in Section III hereof.

II. D E S C R I P T I O N O F N O T E S

1. The notes will be dated January 6, 1976, and will bear interest from that date, payable on a semiannual basis on June 30 and December 31, 1976, and thereafter on June 30 and December 31 in each year until the principal amount becomes payable. They will mature December 31, 1979, and will not be subject to call for redemption prior to maturity.

2. The income derived from the notes is subject to all taxes imposed under the Internal Revenue Code of 1954. The notes are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation.
NOTICES

FEDERAL REGISTER, VOL. 40, NO. 241—MONDAY, DECEMBER 15, 1975

now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

2. The notes will be acceptable for public deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearers notes with interest coupons attached, and not registered as principal and interest, will be issued in denominations of $1,000, $5,000, $10,000, $100,000 and $1,000,000. Book-entry notes will be available to eligible bidders in multiples of those amounts. Interchanges of notes of different denominations and of coupon and registered notes, and the transfer of registered notes will be permitted.

III. TENDERS AND ALLOTMENTS

1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to the closing hour, 1:30 p.m., Eastern Standard time, Monday, December 22, 1975. Each tender must state the face amount of notes bid for, which must be $1,000 or a multiple thereof, and the yield desired, except that in the case of noncompetitive tenders the term "noncompetitive" should be used in lieu of a yield. In the case of competitive tenders, the yield expressed in terms of an annual yield, with two decimals, e.g., 7.11. Fractions may not be used. Noncompetitive tenders from any one bidder may not exceed $500,000.

2. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, may submit tenders for Government securities. The names of the customers are set forth in such tenders. Others will not be permitted to submit tenders except for their own account. Tenders will be received within two banks or branches of the Federal Reserve Bank of New York at which the check is submitted, or the Fifth Federal Reserve District in the case of the Treasury, or (2) Monday, December 29, 1975, if the check is drawn on a bank in another district. Checks received after the dates set forth above preceding sentence will not be accepted unless they are payable at a Federal Reserve Bank. Payment will not be deemed to have been completed when deposited nor are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. In every case where full payment is not completed, the payment with the tender will be considered as an extension of the amount of notes allotted until, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States.

IV. PAYMENT

1. Settlement for accepted tenders in accordance with the bids will be made as completed on or before January 6, 1976, at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20226. Payment must be in cash, in other funds immediately available to the Treasury by January 6, 1976, or on presentation to the order of the Federal Reserve Bank to which the tender is submitted, or the United States Treasury if the tender is submitted to it, which must be received at such Bank or at the Treasury no later than: (1) Wednesday, December 31, 1975, if the check is drawn on a bank in the Federal Reserve District of the Bank to which the check is submitted, or the Fifth Federal Reserve District in the case of the Treasury, or (2) Monday, December 29, 1975, if the check is drawn on a bank in another district. Checks received after the dates set forth above preceding sentence will not be accepted unless they are payable at a Federal Reserve Bank.

2. If payment is not completed, the payment with the tender will be considered as an extension of the amount of notes allotted until, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States.

V. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make such allotments as may be prescribed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of notes on full-paid tenders allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

WILLIAM E. SIMON,
Secretary of the Treasury.

TREASURY NOTES OF SERIES P-1977
DATED AND BEARING INTEREST FROM DECEMBER 31, 1975; DUE DECEMBER 31, 1977

DECEMBER 10, 1975.

I. INVITATION FOR TENDERS

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites tenders on a yield basis for $2,500,000,000, or thereabouts, of notes of the United States designated Treasury Notes of Series P-1977. The interest rate for the notes will be determined as set forth in Section III paragraph 3 hereof. Additional amounts of these notes may be issued at the average price of accepted tenders to Government accounts and to Federal Reserve Banks for themselves and as agents of foreign and international monetary authorities. Tenders will be received up to 1:30 p.m., Eastern Standard time, Tuesday, December 16, 1975, under competitive and noncompetitive bidding, as set forth in Section III hereof. Acceptable in full at the average price (in three decimals) of accepted competitive tenders.

II. DESCRIPTION OF NOTES

1. The notes will be dated December 31, 1975, and will bear interest from that date, payable semianually on June 30 and December 31, 1976, and June 30 and December 31, 1977. They will mature December 31, 1977, and will be subject to call for redemption prior to maturity.

2. The interest derived from the notes is subject to all taxes imposed under the Internal Revenue Code of 1954. The notes are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or...
NOTICES

any of the possessions of the United States, or by any local taxing authority.
3. The notes will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.
4. Bearer notes with interest coupons attached, and notes registered as to principal and interest, will be issued in denominations of $5,000, $10,000, $100,000 and $1,000,000. Book-entry notes will be issued in multiples of those amounts. Interchanges of notes of different denominations and of coupon and registered notes, and the transfer of registered notes will be permitted.
5. The notes will be accepted by the Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, the Reserve Banks and Branches and at the registered notes will be prorated if necessary. After the determination is made as to which tenders are accepted, an interest rate will be established at the yield on the notes of Series H–1975, adjusted to the nearest one percent necessary to make the average accepted price 100.000 or less. That will be the rate of the interest that will be paid on all of the notes. Based on such interest rate, the price of each tender allotted will be determined and each successful competitive bidder will be required to pay the price corresponding to the yield bid. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. The Secretary of the Treasury may prohibit the right to accept or reject any or all tenders, in whole or in part, including the right to accept tenders for more or less than the $5,000,000,000 of notes offered to the public, and his action in any such respect shall be final. Subject to these reservations, noncompetitive tenders for notes $500,000 or less without stated yield from any one bidder will be accepted in the average price (in three decimals) of accepted competitive tenders.

IV. PAYMENT

1. Settlement for accepted tenders in accordance with the bids must be made on or before December 31, 1975, at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt. Payment must be in cash, 7 percent Treasury Notes of Series H–1975 (interest coupons dated December 31, 1975, should be detached), in other funds immediately available to the Treasury by December 31, 1975, or by check drawn on a bank in the Federal Reserve District of the Bank to which the check is drawn on a bank in the Federal Reserve District of the Bank to which the check is submitted, or the United States Treasury if the tender is submitted to it, which must be received at such Bank or at the Treasury no later than: (1) 1:30 p.m., Eastern Standard time, Tuesday, December 16, 1975, if the check is drawn on a bank in the Federal Reserve District of the Bank to which the check is submitted, or the Fifth Federal Reserve District in case of the Treasury, or (2) Tuesday, December 31, 1975, if the check is drawn on a bank in another district. Checks received after the dates set forth in the preceding sentence will not be payable to the Federal Reserve Bank. Payment will not be deemed to have been completed where registered notes are required if the appropriate identifying number as required on tax return or other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. In every case where full payment not completed, the payment with the tender up to 5 percent

V. ASSIGNMENT OF REGISTERED NOTES

1. Registered notes tendered as deposits and in payment for notes allotted hereunder are not required to be assigned if the notes are to be registered in the same names and forms as appear in the registrations or assignments of the notes surrendered. Specific instructions for the issuance and delivery of the notes, signed by the owner or his authorized representative, must accompany the notes presented. Otherwise, the notes should be assigned by the registered payees or assignees thereof in accordance with the general regulations governing United States securities. Instructions must be forth. When the new notes are to be registered in names and forms different from those in the inscriptions or assignments of the notes presented the assignment should be made to the Secretary of the Secretary of the Treasury on Certificate of Series F–1967 in the name of (name and taxpayer identifying number). If notes in another form are desired, the assignment should be to "the Secretary of the Treasury for coupon Treasury Notes of Series F–1977 to be delivered to _________. Note tendered in payment must be surrendered to the Federal Reserve Bank or Branch or to the Bureau of the Public Debt, Washington, D.C. 20226. The notes must be delivered at the expense and risk of the holder.

VI. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to make such allotments as may be prescribed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of notes on full-paid tenders allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

Public Notice of Annual Operation and
Maintenance Charges and Annual Water
Rental Charges

November 7, 1975.

1. Annual Operation and Maintenance Charges for Lands Under Public Notice, Reservation Division. The minimum annual operation and maintenance charge for calendar year 1976 and thereafter will be due and payable on January 1, 1976, and on January 1 of each year thereafter.

2. Annual Water Rental Charges for Other Lands, Reservation Division. Irrigation water will be furnished during the calendar year 1976 and thereafter until further notice for lands in the Reservation Division not under Public Notice which can be irrigated from the present distribution system without further construction expense by the Bureau, upon a rental basis under approved applications at the following rates:

- A. The minimum annual charge shall be $21.50 per irrigable acre, payment of which will entitle the applicant to 8 acre-feet of water per acre on certain sandy areas listed in Public Notice No. 86, Supplement No. 1, dated July 10, 1970, to 5 acre-feet of water per irrigable acre on all other lands in the Division not under Public Notice.

- B. Additional water, if available, will be furnished at the rate of $5.50 per acre-foot.

All charges shall be payable in advance of the delivery of water. Credit will be given for additional water paid for but not used.

3. Damages and Termination of Water Deliveries. Upon failure of any water user in the Reservation Division, including for purposes of this paragraph only, lessees of Indian lands, to comply with the regulations for ordering and delivery of irrigation water in the Division, or to pay any bill rendered by the United States for costs of extra maintenance of or repairs to the irrigation and drainage systems of the Reservation Division of the Yuma Project which are required as a result of faulty irrigation practices of the water user, all as established and determined by the Project Manager, the United States reserves the right to withhold the delivery of water to the lands of any water user who is in default thereof, or to stop the delivery of water thereto if water is being so delivered during any period in which said user is in violation of the provisions of the regulations, or has failed to pay said bills.

4. Penalties. On all payments not made on or before the due dates, there shall be added on the following day a penalty of one-half of one percent of the amount unpaid and a like penalty of one-half of one percent of the amount unpaid on the first day of each calendar month thereafter so long as such default shall continue.

5. Place of Payment. All payments should be made to the Bureau of Reclamation, Office of Project Manager, Yuma Projects Office, Yuma, Arizona, or mailed to Bureau of Reclamation, P.O. Box 5568, Yuma, Arizona 85364.

Intention To Issue Concession Permit

Pursuant to the provisions of Section 10(b) of the Act of October 9, 1965 (70 Stat. 699; 16 U.S.C. 20), public notice is hereby given that after January 14, 1975, the Department of the Interior, through the Superintendent, George Washington Birthplace National Monument, proposes to issue a concession permit to Wakefield National Memorial Association authorizing it to provide concession facilities and services for the public at George Washington Birthplace for a period of one year from January 1, 1976, through December 31, 1976.

An assessment of the environmental impact of this proposed action has been made, and it has been determined that it will not significantly affect the quality of the environment and that it is not a major Federal action having a significant impact on the environment under the National Environmental Policy Act of 1969. The environmental assessment may be reviewed in the Office of the Superintendent, George Washington Birthplace.
NOTICES

Birthplace National Monument, Washington's Birthplace, Virginia.

The foregoing concessioner has performed all obligations under the expired permit to the satisfaction of the National Park Service, and therefore, pursuant to the Act cited above, is entitled to be given preference in the renewal of the permit and in the negotiation of a new contract. However, under the Act cited above, the Secretary is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before January 14, 1975.

Interested parties should contact the Superintendent, George Washington Birthplace National Monument, Washington's Birthplace, Virginia, for information as to the requirements of the proposed permit.

SAMUEL R. MCKELVIE NATIONAL FOREST GRASSING ADVISORY BOARD

Intent To Establish

The Department of Agriculture proposes to establish the Samuel R. McKelvie National Forest Grazing Advisory Board for the period ending January 5, 1977, under Forest Service regulation 36 CFR 231.16.

This is to be a local advisory board of the Forest Service to provide National Forest range users a means for the collective expression of their views and recommendations concerning the management and administration of the Samuel R. McKelvie National Forest grazing lands and to develop local interest and responsibility in better range management.

The Assistant Secretary for Conservation, Research, and Education determined that establishment of this board is necessary and in the public interest in connection with duties imposed on the Department by law.

Comments of Interested persons concerning establishment of this board may be submitted to the Forest Supervisor of the Nebraska National Forest, 270 Elisa Street, Chadron, Nebraska 69337, on or before December 30, 1975.

All written submissions made pursuant to this notice will be available for public inspection in the Forest Supervisor's office during regular business hours (7 CFR 1.27(h)).

(5) Discussion of matters properly classified under Executive Order 11658, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The public will be permitted to attend the General Session, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (5), the Acting Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on September 28, 1975, pursuant to section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be kept confidential in the interest of the national security. All materials to be reviewed and discussed by the Committee during the Executive Session of the meeting have been properly classified under the Executive Order. All Committee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Domestic and International Business Administration, Room 3100, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Domestic and International Business Administration, Room 1620, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202/967-4196.

Dated: December 9, 1975.

LAWRENCE J. BRADY,
Acting Director, Office of Export Administration, Bureau of East-West Trade, U.S. Department of Commerce.
Notice of Determination

In response to written requests of representatives of a substantial segment of the electronic industry, the Electronic Instrumentation Technical Advisory Committee was established by the Secretary of Commerce pursuant to Section 6(o)(1) of the Export Administration Act of 1969, as amended, Public Law No. 93-560, Section 10 of the Federal Advisory Committee Act, 5 U.S.C. App. 5 (1970), and Office of Management and Budget Circular A-19 (Revised), Advisory Committee Management, effective May 1, 1974. Section 10 of the Federal Advisory Committee Act provides, among other things, that the meetings of advisory committees are to be open to the public and that minutes of all meetings of the agency (or his delegate) to which the committee reports determine in writing that all, or some portion, of the agenda of the meeting of the Committee is concerned with matters listed in Section 552(b) of Title 5 of the United States Code, provides that information may be withheld from the public if it concerns matters specifically required by Executive Order to be kept secret in the interest of national security or foreign policy, and are in fact properly classified pursuant to such Executive Order.

Notices of Determination authorizing the closing of portions of meetings of the Electronic Instrumentation Technical Advisory Committee and its formal subcommittees, dealing with security classified matters, were published in the Federal Register on March 12, the Committee's first meeting on April 9, 1974; on April 25, 1974 for the meeting of May 28, 1974; and on May 29, 1974 for a series of meetings for the period May 28, 1974 through January 3, 1975; and on December 16, 1974 for a series of meetings from January 4, 1975 through October 22, 1975.

In order to provide advice to the Department under the terms of its charter, the Committee and formal subcommittees thereunder will continue to hold a series of meetings during the coming months in accordance with the first paragraph of this Determination. These meetings will include discussions of the COCOM control list as it relates to the commodities and technical data under its purview, and with the foreign availability of these commodities and technical data. In addition, the Committee and its formal subcommittees will be preparing recommendations for the Department's consideration relating to COCOM's position on COCOM-related matters. Much of the information relating to the COCOM control list, as well as proposed changes, is now or will be security classified for national security or foreign policy reasons, pursuant to Executive Order No. 11652, 3 CFR 329 (1974). In order for the Committee and its formal subcommittees to provide required advice to the U.S. Government, it will be necessary to provide the Committee and its formal subcommittees with such classified material. Therefore, the portions of the series of meetings of the Committee of subcommittees thereof that will involve discussions of matters specifically authorized under criteria established by an Executive order to be kept secret in the interest of national security or foreign policy and are in fact properly classified pursuant to such executive order, must be closed to the public. The remaining portions of the series of meetings will be open to the public.

Accordingly, pursuant to Section 10(d) of the Federal Advisory Committee Act that those portions of the series of meetings of the Committee and of any subcommittees thereof, dealing with the aforementioned classified materials shall be exempt, for the period October 22, 1975, to October 22, 1976, from the provisions of Section 10(a)(1) and (b)(2), relating to open meetings and public participation therein, that the remaining portions of the Committee and subcommittee discussions will be concerned with matters listed in Section 552(b) (1) of Title 5, United States Code. The remaining portions of the meetings will be open to the public.

Guy W. Childersen,
Assistant Secretary for Administration, Acting.

Daniel Gardner,
Acting General Counsel.

WRAPPER TOBACCO
Study of the Producing Firms

SUMMARY

The U.S. Department of Commerce has conducted a study of the wrapper tobacco industry as required by section 294 of the Trade Act of 1974, as amended, Public Law 93-344 (1974), in order to determine the number of firms in the industry which have been or are likely to be certified as eligible to apply for adjustment assistance and the extent to which the order of certification of the firms may be facilitated through the use of existing programs. Such a study by the Department is required whenever the U.S. International Trade Commission makes an "escape-clause" investigation under section 201 of the Trade Act.

The Commission reported to the President on November 5, 1975, the results of its investigation. The Commission determined whether increased imports of wrapper tobacco represents a substantial cause (or threat) of injury to the domestic industry producing directly competitive products. The Commission made a unanimous negative determination, primarily on the basis of evidence that in United States production and consumption of wrapper tobacco and cigarette paper and product using wrapper tobacco, is more important than increased imports as a cause of any serious injury that may have occurred to the domestic producers of wrapper tobacco.

There are currently a total of approximately 74 domestic growers of shade-grown, wrapper tobacco in southwestern Georgia and the central part of northern Florida and 22 in the Connecticut River Valley of Connecticut and Massachusetts. The two areas, grown under tents of light-weight cloth, has distinct characteristics caused by differences in varieties, soil, and climatic conditions. Wrapper tobacco is used by cigar makers as the smooth outer wrapping of large cigars, i.e., those that weigh more than three pounds per thousand. Domestic production of large cigars rose in the 1980's and then declined sharply in the 1970's as production of small, cigarettesize cigars grew rapidly. Output in 1974 amounted to 6.5 million large cigars, or 22 percent less than the 1964 output, and the decline continued until 1975, with an annual rate of less than 6 billion units in January-August 1975.

The Commission is eligible to apply for adjustment assistance, a firm must demonstrate that increased imports of like or directly competitive articles contributed importantly to declines in sales or production, or both, of the firm, and that a threat of separation of the firm's workers. U.S. imports of wrapper tobacco, chiefly from Nicaragua, Honduras and the Caribbean Republic, increased 19.5 percent between 1973 and 1975, from 977,300 pounds, valued at $3.8 million. Imports in the first seven months of 1975 rose 27 percent over the comparable period of 1974 to 273,100 pounds. Increases have also been recorded in terms of imports relative to domestic production.

As of the date of this report, none of the wrapper tobacco growers has petitioned the Department of Commerce for certification of eligibility to apply for adjustment assistance and the Department has no means of determining which of 55 producers could qualify for certification. However, it is possible that a petitioning firm could be certified, even though the industry of which it is a member received a negative determination on a section 201 investigation by the International Trade Commission. In determining whether imports "contributed importantly" among possible causes for worker separation and decreases in sales or production for a petitioning firm, the influence of imports as a cause would be considered by the Department on the basis of the totality and inter-relationship of all factors having an effect on the operations of the individual firm. The "contributed importantly" criterion which must be met for the firm to be certified is somewhat less stringent than the "substantial cause" criterion which is required for a positive determination in an industry investigation.

Under the program of adjustment assistance for firms affected by the Trade Act, financial assistance for certified firms may take the form of direct loans and loan guarantees, and technical assistance, to enable a firm to
establish a competitive position in the same or a different industry. Financial assistance may be used for the acquisition, construction, installation, modernization, expansion, or conversion of fixed assets, or for working capital necessary for a firm to implement its adjustment plan. Technical assistance may be used for management and operational aspects and related research to aid in developing and implementing a firm's recovery plan.

Firms may also benefit indirectly from financial assistance available to trade-impacted communities under provisions of the Trade Act in a manner similar to the public works, business development, and Title IX programs administered by the Department of Commerce, Washington, D.C., and the Farmers Home Administration, Department of Agriculture, of guaranteed adjustment loans to assist firms in certain distressed areas identified on the basis of adverse employment factors; loans and grants to states, local governments and nonprofit organizations to develop and improve public works and public service facilities; and grants to states and local areas for a comprehensive program of adjustment to an actual or threatened economic dislocation or adjustment problem.

Other Federal programs which might be of interest to growers of wrapper tobacco include those administered by the Farmers Home Administration, Department of Agriculture, of guaranteed loans to operators of family farms, either to make more efficient use of their land, labor and other resources; assistance to farmers in enlarging, improving and purchasing family farms, and to refinance debt so as to place the farming operation on a sound basis.

Additional information about the adjustment assistance program and copies of the report, Promising for Adjustment Assistance for Producers of Wrapper Tobacco, are available from the Office of Public Affairs, Department of Agriculture, Room 7019, U.S. Department of Commerce, Washington, D.C. 20230 (telephone 202/367-5113).

PROTOXYL HYDROCHLORIDE INJECTION AND EPINEPHRINE SUSPENSION IN OIL FOR INJECTION

Notice of Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Application(s) or Particular Parts Thereof

A notice (DESI 369) was published in the Federal Register of July 11, 1972 (37 FR 13664), in which the Food and Drug Administration announced the following conclusions: that protoxyl hydrochloride for injection is less than effective (probably effective) for the treatment of chronic bronchitis and bronchospasm associated with emphysema, chronic bronchitis, and bronchietasis; that it lacks substantial evidence of effectiveness; and that epinephrine oil suspension is less than effective (probably effective) for symptomatic treatment of bronchial asthma. In addition, no additional data to support effectiveness were submitted and this notice proposes to withdraw approval of the drug products described below. Persons wishing to request a hearing may do so on or before January 14, 1976.

1. NDA 366; Adrenalin in Oil for Injection containing epinephrine in suspension; formerly marketed by Parke, Davis and Co., Joseph Campanl at the River, Detroit, MI 48232.

2. NDA 1-225; Epinephrine Suspension (in oil); formerly marketed by Endo Laboratories at 1000 Stewart Ave., Garden City, NY 11530.

3. That part of NDA 11-489 pertaining to Catayine Injection, an aqueous suspension of cats-transylhalide; Lakeside Laboratories, Division of Richardson-Merrell, Inc., 1707 E. North Ave., Milwaukee, WI 53203.

4. Sus-Phrine Suspension, an aqueous suspension of ephedrine hydrochloride; also was included in the July 11, 1972 DESI announcement. Data which were submitted for this product are under review and conclusions concerning it will be published in a future issue of the Federal Register.

Both Endo Laboratories, holder of NDA 1-225 for Epinephrine Suspension (in oil) and Parke, Davis and Co., holder of NDA 366 for Adrenalin in Oil have, by letters of August 2, 1972 and October 31, 1973, respectively, waived opportunity for a hearing, stating that these drug products are no longer marketed. The purpose of naming those two products in this notice is to offer an opportunity for hearing to persons who manufacture or distribute a drug product which is identical, related, or similar to the drug product(s), and to those who have or may have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

In addition to the holder(s) of the new drug application(s) specifically named above, this notice of opportunity for hearing applies to all persons who manufacture or distribute a drug product which is identical, related, or similar to a drug product named above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice of opportunity for hearing to determine whether it covers a drug product he manufactures or distributes. Any person may request an opinion of the applicability of this notice to a specific drug product he manufactures or distributes that may be identical, related, or similar to a drug product named in this notice by writing to the Food and Drug Administration, Bureau of Drugs, Division of Drug Labeling Compliance, Rockville, MD 20852.

In addition to the ground(s) for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug products subject to it (including identical, related, or similar drug products as defined in §310.6), e.g., any contention that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201(p) of the act or because it purports or is represented to have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

In accordance with the provisions of section 562(f) of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR 310.6), the applicant(s) and all other persons subject to this notice pursuant to 21 CFR 310.6 are hereby given an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of a drug product named above and of all identical, related, or similar drug products.

If an applicant or any other person subject to this notice requests a hearing, he shall file (1) on or before January 14, 1976, a written notice of appearance and request for hearing, and (2) on or before February

OTC DRUG REVIEW PANEL ON ANTACID DRUG PRODUCTS

Availability of Certain Transcripts of Closed Sessions

On October 31, 1975, the District Court (Richey, J.) ordered the transcripts to be produced, and that the transcripts are not exempt under 5 U.S.C. 552(b)(5). However, since all but one of the panel's meetings had occurred before June 5, 1973, the court expressly declined to reach any issues involving the Federal Advisory Committee Act, which was not effective until that date.

For this reason, the issue of the availability of transcript 9 to close deliberative sessions of advisory committees (and, by implication, to protect advisory committee transcripts) under the Federal Advisory Committee Act is presented in a case now pending in the United States Court of Appeals for the District of Columbia Circuit. (Aviation Consumer Action Project v. Washburn, No. 75-1086).

The government has decided not to appeal the district court's decision in Wolfe v. Weinberger. Moreover, the transcripts at issue were made available to the staff of the subcommittee on Intergovernmental Relations and Human Resources of the House Committee on Government Operations. As a result, substantial portions of the transcripts about which some controversy has developed were introduced into the public record of hearings held before the subcommittee on May 9 and 12, 1975.

Accordingly, although no appeal of the narrow ruling in Wolfe will be taken, the antacid panel transcripts are therefore now available, the Commissioner of Food and Drugs does not regard the decision as necessitating a modification of procedures and that, where necessary and appropriate, will continue to authorize the closing of the deliberative portions of advisory committee meetings pursuant to exemption 5. The basis for this policy has been set forth numerous times; see, e.g., Notice of Meetings of Food and Drug Administration Advisory Committees published in the Federal Register of February 6, 1973 (38 FR 3345, 3347). The Department of Justice has advised the Food and Drug Administration that, because the decision in Wolfe is explicitly not based on the Federal Advisory Committee Act, the agency may adhere to its existing policy and, if necessary, defend that policy in court.

Associate Commissioner for Compliance.

HAWAII
Notice of Major Disaster and Related Determinations

Pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11935 of July 11, 1974, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-74-285; and by virtue of
the Act of May 22, 1974, entitled “Disaster Relief Act of 1974” (88 Stat. 143); notice is hereby given that on December 7, 1975, the Petition filed a declaratory action as follows:

I have determined that the damage in certain areas of the State of Hawaii resulting from earthquakes, seismic sea waves, and volcanic action beginning about November 29, 1975, is of sufficient severity and magnitude to warrant a major disaster declaration under 42 USC 5123-23a. I therefore declare that such a major disaster exists in the State of Hawaii.

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11935, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-74-285, I hereby appoint Mr. Robert C. Stevens, HUD Region IX, to act as the Federal Coordinating Officer for this declared major disaster.

I do hereby determine the following areas of the State of Hawaii to have been adversely affected by this declared major disaster:

The County of: Hawaii
(Catalog of Federal Domestic Assistance No. 14.701, Disaster Assistance.)

RED CARPET FLYING SERVICE AND MOUNTAIN AIR AVIATION, INC.

Order Designating Applications for Consolidated Conservator on Stated Issues

In the matter of applications of Red Carpet Flying Service, Walla Walla, Washington (Docket No. 20635; File No. 59-A-1-26) and Mountain Air Aviation, Inc., Walla Walla, Washington (Docket No. 20636; File No. 20-A-1-26) for an aeronautical advisory station to serve the Walla Walla City-County Airport, Walla Walla, Washington.

1. Red Carpet Flying Service (hereinafter called Red Carpet) and Mountain Air Aviation, Inc. (hereinafter called Mountain Air) have each filed a new application for authority to operate an aeronautical advisory station at the same airport. Since § 87.255(a)(1) of the Commission's rules provides that only one aeronautical advisory station may be authorized at a landing area, the above-captioned applications are mutually exclusive. Accordingly, it is necessary to determine which of the applications should be granted.

2. In view of the foregoing, IT IS ORDERED, That pursuant to the provisions of § 309(e) of the Communications Act of 1934, as amended, and § 3651 of the Commission's rules, the above-captioned applications ARE HEREBY DESIGNATED FOR HEARING IN A CONSOLIDATED PROCEEDING at a time and place to be set in a subsequent Order on the following comparative issues: (a) to determine which applicant would provide the public with better aeronautical advisory service based on the following considerations: (1) Location of the fixed-base operation and proposed radio station in relation to the landing area and traffic patterns; (2) Hours of operation; (3) Personnel available to provide advisory service; (4) Experience of applicant and employees in aviation and aviation communications; (5) Ability to provide information pertaining to primary and secondary communications as specified in § 87.267 of the Commission's rules; (6) Proposed radio system including control and dispatch points; and (7) The availability of the radio facilities to other operators.

3. It is further ordered, That to avail themselves of an opportunity to be heard, Red Carpet and Mountain Air, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall within 30 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date set for hearing and present evidence on the issues specified in this Order. Failure to file a written appearance within the time specified may result in dismissal of the application with prejudice.

Adopted: November 21, 1975.

Released: November 25, 1975.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended, (39 Stat. 735, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before January 5, 1976. Any person desiring to adduce evidence on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

FEDERAL MARITIME COMMISSION

Notice of Agreement Filed

Agreement No. T-3930-1, between Port Authority of New York and New Jersey (Authority), Sea-Land Service, Inc., (Sea-Land) and Puerto Rico Maritime Shipping Authority (PRMSA), modifies the parties' basic agreement which provides for the sublease from Sea-Land to PRMSA of certain facilities located in Elizabeth, New Jersey. The purpose of the modification is: (1) to delete section 8(c) in its entirety; (2) decrease the amount of the basic rental; and (3) make other minor technical changes.

CENTRAL ILLINOIS PUBLIC SERVICE CO.
Proposed Changes in FPC Electric Service Tariffs

DECEMBER 8, 1975.

Take notice that Central Illinois Public Service Company (Company) on December 1, 1975, tendered for filing changes in its FPC Electric Tariffs proposing to revise (1) Rate Schedule W-1 for wholesale electric service to electric cooperatives, (2) Rate Schedule W-2 for wholesale electric service to municipal customers purchasing their total requirements and (3) Service Schedule W-3 for wholesale electric service to customers purchasing the appropriate amount to supplement their own generation. Company also filed a new service agreement with Mt. Carmel Public Utility Co. which provides that the charges for service under the agreement will be based upon Company's Service Schedule W-3. The proposed tariff changes would increase revenues from jurisdictional sales and service by an aggregate of $2,661,824.42 based on calendar year 1975.

Company proposes to make the tariff changes effective January 1, 1976, for some customers and for other customers upon the expiration of the various effective periods for the rates and charges currently specified in the agreements between the Company and those customers.

Company states that the proposed tariff revisions contain an upward adjustment in the rate level to more adequately reflect current and anticipated economic conditions. Company states further that the proposed revisions to Rate Schedule W-1 resulted in a settlement which was reached after extended negotiations.

Copies of the filing were served upon Company's jurisdictional customers.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 19, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make said protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

GENERAL AMERICAN OIL COMPANY OF TEXAS, ET AL.

Application

DECEMBER 8, 1975.

Take notice that on November 4, 1975, American General Oil Company of Texas (Operator), et al., Meadows Building, Dallas, Texas 75206, filed in Docket No. CT-51-544 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon the sale for resale of natural gas in interstate commerce from the Lawson Field, Acadia Parish, Louisiana, to Texas Gas Transmission Corporation (Texas Gas), all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that the reserves dedicated to the contract on file as its FPC Gas Rate Schedule No. 73 are depleted and that the well has been plugged and abandoned. Applicant states further that the leases covered by the contract have expired and have been released.

It is also stated that Texas Gas has agreed not to object to the abandonment of the subject sale on the condition Applicant grant Texas Gas the exclusive option to purchase any gas which may ever be produced in the future from the properties by Applicant, which option Applicant states it is unwilling to grant although it has no present intention of acquiring an interest in said properties. It is further stated that Texas Gas also insists on said condition as a condition precedent to its concurrence in contract termination.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 19, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition-to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make said protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity, if a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

NOTICES

making sales of natural gas for resale in interstate commerce to file a semiannual report of gas supply, requirements and curtailments, designated as FPC Form No. 16.

Ohio River Pipeline Corporation (Ohio), a Class A pipeline company, has requested, by letter dated September 18, 1975, that it be granted a waiver of the reporting requirements of § 260.12 of the FPC's regulations inasmuch as it purchases natural gas from Texas Gas Transmission Corporation (Texas Gas) and sells all of its gas to Indiana Gas Corporation (Indiana). Ohio's gas supply, requirements and curtailments are reflected in the FPC Form No. 16 filed by Texas Gas.

Ohio also has requested that it be exempted from filing FPC Form No. 17. By letter from the Secretary dated November 10, 1972, the Commission staff requested that natural gas companies file FPC Form No. 17. The language of the aforementioned letter requests that such information be submitted on a Monthly Report of Natural Gas Pipeline Curtailments, be submitted. The report is one generated by the staff and not by direction of the Commission. The filing of Form No. 17 is voluntary. Since it is filed on a voluntary basis, no exemption from filing the Form is required.

The Commission finds: (1) Ohio has demonstrated good cause for the waiver of the reporting requirements of § 260.12 of Statements and Reports (Schedules). (2) A waiver of the reporting requirements of FPC Form No. 17 is not necessary because such filing is not mandatory.

The Commission orders: (A) The request of Ohio for a waiver of the reporting requirements of Form No. 16 under Order No. 489 and 523 is granted, subsuming requirements of Form No. 17. (B) The request for waiver of Form No. 17 is rejected as unnecessary.

By the Commission.

NOVEMBER 21, 1975.

On March 6, 1974, Pioneer Production Corporation (Pioneer) filed in Docket No. C173-617 a petition for special relief from the Hugoton-Anadarko Area rate ceiling pursuant to Opinion No. 585 and § 1.7 (b) of the Commission's Rules of Practice and Procedure (18 CFR 1.7(b)) for sale of natural gas to Northern Natural Gas Company (Northern) from the McQuiddy No. 1 and McQuiddy No. 2 wells located in Hemphill County, Texas.

Pioneer owns a 25% working interest in the McQuiddy No. 1 and No. 2 wells. By letter orders of August 30, 1973 and March 1, 1974, the Commission issued temporary certificates authorizing pioneer to sell its interest in the gas produced from the subject wells to Northern at the applicable area rate ceiling for new gas of 21.5 cents per Mcf pursuant to a gas sales contract dated February 27, 1973 and designated as Pioneer's FPC Gas Rate Schedule No. 43. In its petition for special relief Pioneer stated that the operator of the wells had entered into an agreement with a compression contractor for compression of the gas from the two wells in order that the gas could be delivered against the pressures in Northern's lines. Pioneer requested that the Commission grant it special relief from the area rate ceiling and allow Pioneer to collect either (a) 5 cents per Mcf for compression charges as provided by its contract with Northern, or (b) the amounts actually incurred by Pioneer for compression charges.

Following the issuance of Opinion No. 699 and subsequent orders in Docket No. R-389-B, Pioneer filed for rate increases to the nationwide rate as established by Opinion No. 699-I for its sales from the subject wells to Northern. Subsequently, on June 2, 1975, Pioneer filed an amended petition for special relief in Docket No. C173-617, seeking special relief from the nationwide rate, and again requesting that the Commission authorize Pioneer to collect either 5 cents per Mcf or the amounts actually incurred by Pioneer for compression charges. Pioneer avered that it cannot economically continue to absorb its compression costs and still maintain service.

Notice of Pioneer's petition for special relief was issued on March 14, 1974, and appeared in the Federal Register on March 21, 1974, at 39 FR 10066. No protests or petitions to intervene have been filed.

Pioneer's contract with Northern provides for Northern to pay 5 cents per Mcf to Pioneer in the event that Pioneer must compress the gas produced from the subject wells. Consequently, Pioneer is entitled to receive no more than 5 cents per Mcf for compression charges.

In seven previous special relief proceedings involving only expenditures for compression, FPC has allowed petitioners to recover rates of 5 to 15 cents per Mcf. In several of these cases FPC has found the petitioners were entitled to recover rates of more than 15 cents per Mcf for compression charges.

FEDERAL REGISTER, VOL. 40, NO. 241—MONDAY, DECEMBER 15, 1975
NOTICES

Findings and Order After Statutory Hearing

Applicant: Texas Eastern Transmission Corporation, Issuing Certificate of Public Convenience and Necessity, Amending Orders and Granting Interventions

November 21, 1975.

On April 15, 1975, Texas Eastern Transmission Corporation (hereinafter referred to as Texas Eastern) filed in Docket No. CP75-306 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon a portion of its interstate gas transmission facilities for the purpose of using such abandoned facilities in connection with the transportation of petroleum products.

In order to implement the proposed pipeline reconfiguration, Texas Eastern, in conjunction with several other interstate pipelines, has filed four related applications requesting exchange and/or construction authorization to enable Texas Eastern to continue to provide service from existing sources of gas supply or exchange gas now connected to its Provident City—Beaumont line to its Products Pipeline Division for use as a common carrier of petroleum products. Texas Eastern intends to reconnect gas supplies currently being transported through its Provident City—Beaumont line by connection to Texas Eastern's parallel 30-inch McAllen pipeline or connection to the systems of other interstate pipeline companies with whom it proposes to engage in exchange arrangements. Texas Eastern proposes to charge the total cost of such reconnections, estimated at $605,000, to its Products Pipeline Division and will not include such costs in Texas Eastern's rate base. Texas Eastern further proposes to remove the net depreciable cost of the facilities to be abandoned from its gas plant in service account and transfer such costs to its Products Pipeline Division.

To implement the proposed reallocation of existing gas supply along the pipeline to be abandoned in Docket No. CP7-306 the following applications and amendments have been filed.

1. On June 4, 1975, Texas Eastern and Tennessee Gas Pipeline Company, a Division of Tenneco, Inc. (Tennessee) filed in Docket No. CP75-355 a joint application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity to construct and operate interconnections on three of Tennessee's pipelines, the 6-inch Nader pipeline in Colorado County, Texas, the 6-inch Bonus-Franks pipeline in Wharton County, Texas, and the 30-inch No. 1 pipeline in Wharton County, Texas. Applicants state that the facilities to be constructed (1.88 miles of 3-inch pipeline, valves and taps) would consist of three interconnections that would be connected to five existing sources of gas supply. Texas Eastern proposes to deliver to Tennessee approximately 500 Mcf of gas per day at the proposed taps under an existing exchange agreement on a Mcf-for-Mcf basis as authorized by the certificate issued in Docket No. CP63-177 on March 18, 1963, as amended February 7, 1974. Tennessee would deliver an equal volume of gas at existing points of interconnection that are mutually agreeable.

Volumes to be delivered and redelivered are limited to 1,500 Mcf per day. The estimated cost of the facilities is $357,321 which would be borne by Texas Eastern's Products Pipeline Division as part of the cost of conversion of the Provident City—Beaumont pipeline to common carrier products service.

2. On June 6, 1975, Texas Eastern filed in Docket No. CP73-297 a petition to amend the order of the Commission issued December 10, 1973, as amended August 23, 1974, to authorize the construction and operation of additional facilities for the previously authorized exchange of gas with Natural Gas Pipeline Company of America (Natural). Texas Eastern states that pursuant to an agreement with Natural dated November 17, 1974, as amended February 6, 1974, and December 3, 1974, Natural delivers gas to Texas Eastern at a point near Texas Eastern's 16-inch Provident City—Beaumont pipeline and that Texas Eastern delivers an equivalent volume of gas at the intersection of the 12-inch Chocolate Bayou Lateral and Texas Eastern's 30-inch McAllen Line in Brazoria County, Texas.

Texas Eastern propsoes that the deliveries from Natural made at its Provident City—Beaumont pipeline delivery point (proposed to be abandoned in Docket No. CP75-306) be made at Texas Eastern's Products Pipeline Division—Blessing 24-inch pipeline in Lavaca County, Texas. To effectuate the proposed change, Texas Eastern proposes to construct and operate 2.5 miles of 3-inch pipeline, at a cost and a value of $2,831,900, which is granted of abandonment. It will transfer construction authorization to enable Texas Eastern to reconnect gas supplies presently at two compressor stations located along said pipeline. Texas Eastern states that after grant of abandonment it will transfer the Provident City—Beaumont line to its Products Pipeline Division as part of the products pipeline system.

FEDERAL REGISTER, VOL. 40, NO. 241—MONDAY, DECEMBER 15, 1975
filed in Docket No. G-6508 a joint petition to amend further the order issued on January 3, 1966, as amended June 1, 1976, in said docket by deleting therefrom authorization to exchange natural gas and operate facilities therefor at an interconnection of their pipelines in Wharton County, Texas. Petitioners have agreed to delete the Wharton exchange point from their exchange agreement while agreeing that in all other matters the exchange agreement will remain unchanged. Petitioners state that the subject exchange point is on the pipeline system of Texas Eastern's Products Pipeline to be abandoned in Docket No. CP75-306 and that because of depletion of gas it has been inactive for a number of years. Petitioners propose to continue their exchange agreement using the remaining authorized delivery points.

4. On June 26, 1975, Texas Eastern and United Gas Pipe Line Company (United) filed in Docket No. CP67-26 a joint petition to amend the order of the Commission issued on July 22, 1969, as amended April 28, 1971, by deleting therefrom authorization to exchange natural gas at an authorized exchange point located on the 16-inch pipeline No. 306, CP75-306, in Fort Bend, Galveston and Harris Counties, Texas; that permission and approval to abandon facilities were granted United by the Commission on August 14, 1970, in Docket No. CP70-103 (44 FPC 292). United no longer has facilities at the authorized point of exchange and said point is included in that portion of Texas Eastern's system proposed to be abandoned in Docket No. CP75-306.

In order to convert its existing natural gas pipeline into product transportation service, Texas Eastern proposes in Docket No. CP75-306 to abandon the following facilities:

- 16.21 miles of 16-inch pipeline No. 23, looping the Wilcox Trend pipeline No. 21, terminating at the Provident City junction, located in Lavaca County, Texas; (1)
- 109.05 miles of 16-inch pipeline No. 5, Provident City to Baytown, located in LaMarque, Wharton, Port Fend, Galveston and Harris Counties, Texas; (2)
- 61.58 miles of 20-inch pipeline No. 8, Baytown to Beaumont, located in Harris, Chambers, and Jefferson Counties, Texas; (3)
- 2,500 H.P. Booth Compressor Station located on the 16-inch pipeline No. 5 in Fort Bend County, Texas; (4)
- 4,000 H.P. Hankamer Compressor Station (Station B) located on the 20-inch pipeline No. 8 in Chambers County, Texas; and (5)
- 15.6 miles of gathering line and miscellaneous facilities.

In order to reconnect existing sources of supply, Texas Eastern proposes the following changes be made on its system:

- On the 16-inch line No. 23 loop west of Provident City reconnect the 6-inch Salem, 6-inch North Morales, and Blohm Laterals to the 16-inch line No. 21; (1)
- On the 16-inch line No. 5, Provident City to Baytown: (a) Gas supply sources, M&R 581, 1647, 1615, 1611, 1656, will be reconnected to the system of Tennessee for exchange; (b) Relocate a delivery of gas (M&R 1633) made for the account of Natural Gas Pipeline Company of America for exchange; (c) Eliminate an exchange interconnection with Trunkline. Applicant states that this small volume exchange point has been inactive for some time and that Trunkline has agreed that any future use of this exchange location is doubtful. (2)
- On the 20-inch line No. 8, Baytown to Beaumont: (a) Reconnect supply sources 207, 210, 233, 282 to the 30-inch McAllen pipeline No. 16; (b) Eliminate the exchange point M&R 076, for exchange deliveries to United. Applicant states that this small volume exchange point has been inactive for some time and that United has agreed that any future use of this exchange location is doubtful.

Texas Eastern asserts that its proposed abandonment and consequent conversion of the subject facilities are justified by the perceived benefit of gas customers to have the optimization of available capacity, by reduction in the cost of service with no effect on the level of service to existing gas customers, and by the perceived benefits to the markets served by the products pipeline system.

The application by Texas Eastern in Docket No. CP75-306 was noticed on April 25, 1975, with protests or petitions to intervene due by May 16, 1975. Petitions to intervene were filed by Public Service Electric and Gas Company (Public Service). The application by Texas Eastern in Docket No. CP73-297 was noticed on June 17, 1975, with protests or petitions to intervene due by July 7, 1975. On June 27 Natural filed a petition for leave to intervene in Docket No. CP75-306 in support of both applications. The applications in Docket Nos. G-6508, CP67-26, CP75-306, CP75-355, CP73-297, G-6508 and CP67-26 were noticed on June 19, July 7, and June 20, 1975, respectively. No petitions to intervene or notices of intervention have been filed in said dockets.

On July 7, 1975, Texas Eastern filed a motion for consolidation and request for expeditions action in Docket Nos. CP75-306, CP75-355, CP73-297, G-6508 and CP67-26. Texas Eastern submits consolidation is appropriate inasmuch as the authorizations sought in these applications are related to, and necessitated only by the abandonment application in Docket No. CP75-306. The motion further urges expedited hearing and determination in these hearings to allow the midwestern and northeastern market served by Texas Eastern's Products Pipeline to benefit by conversion by the 1975-76 heating season. On July 11, 1975, Tennessee filed a motion in support of consolidation and expedited hearing.

The application is appropriate inasmuch as the application is expedited action in Docket Nos. 1975, 1976, 1977 and 1978, with protests or petitions to intervene due by May 16, 1975. Petitions to intervene were filed by Public Service Electric and Gas Company (Public Service).
refinery area for deliveries to the Midwest and Northeast. Due to the interrelated nature of the applications, the Commission deemed it appropriate to consolidate said filings.

The record indicates that there is only approximately 4,600 Mcf of gas per day available to Texas Eastern's 16 and 20-inch Providence City-Beaumont pipeline. Of this volume, 600 Mcf of gas per day can be received to adjacent pipeline lines through exchange arrangements with other pipeline companies. The remaining 5,800 Mcf of gas per day can be reconnected to Texas Eastern's parallel 30-inch McAllen pipeline. It appears that Texas Eastern's 30-inch McAllen line has sufficient excess capacity to accommodate this volume of gas as well as other gas supplies which may be developed adjacent to those lines.

Since gas service will continue after abandonment of the Providence City-Beaumont pipeline without impairing natural gas service, the abandonment and the related certificate applications at this time to allow Texas Eastern to convert said line to transport much needed petroleum products to the Midwest and southern markets for the 1975-76 heating season. We do so, however, on a conditional basis reserving the issues of appropriate transfer value and accounting procedure for later consideration.

This Commission has the authority to require a transfer at a price other than net undepreciated original cost. The Uniform Systems of Accounts is an instrument to be used by the Commission in determining the propriety of granting abandonment only when and under such conditions that the public convenience or necessity is served. We therefore put Texas Eastern on notice that we reserve the issues of proper transfer value and accounting.

Texas Eastern states that by far the greater portion of product availability is anticipated from this area and that it anticipates that the full 50,000 barrel per day capacity can be provided and utilized through this connection.

Texas Eastern's proposed transfer value is proper and so order that this transfer should be made at some value above or in excess of the book value. Similarly we may authorize Texas Eastern's proposed accounting for said transfer or find that some different accounting procedure is necessary such as the need for a transfer of the undepreciated book value in excess of net undepreciated book value to the natural gas consumer.

At a hearing held on November 12, 1974, the evidence received and made a part of the record in this proceeding all evidence, including the application and exhibits thereto, submitted in support of the authorization sought herein, and, upon consideration of the record,

The Commission finds: (1) It is necessary and appropriate that the applications in Docket Nos. G-6508, CP67-26, CP73-297, CP75-355 and CP75-306 should be consolidated.

(2) Participation by Natural Gas Pipeline Company of America and Public Service Electric and Gas Company in this proceeding may be in the public interest.

(3) Applications, Texas Eastern Transmission Corporation, Transline Gas Company, United Gas Pipeline Company, and Tennessee Gas Pipeline Company, a Division of Tenneco, Inc., are "natural-gas companies" within the meaning of the Natural Gas Act.

(4) The facilities hereinafore described, as more fully described in the application, are used in the transportation and sale of natural gas in interstate commerce subject to the jurisdiction of the Commission, and the abandonment thereof is subject to the requirements of subsection (b) of section 7 of the Natural Gas Act.

(5) The abandonment proposed by Applicants are permitted by the public convenience and necessity and should be approved as hereinafter ordered.

(6) The rights specified hereinafore described, as more fully described in the application in this proceeding, are to be used in the transportation and sale of natural gas in interstate commerce subject to the jurisdiction of the Commission, and the construction and operation thereof by Applicants are subject to the requirements of subsections (d) and (e) of section 7 of the Natural Gas Act.

(7) Applicants are able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules and regulations of the Commission thereunder.

The construction and operation of facilities by Applicants are required by the public convenience and necessity and certificates therefor should be issued as hereinafter ordered and conditioned.

It is necessary and appropriate to require Texas Eastern to file a separate accounting proposal within six months after abandonment, which proposal shall require Commission approval.

The Commission orders. (A) Certificates of public convenience and necessity are issued authorizing Applicants in Docket Nos. CP75-355 and CP75-306 to construct and operate the proposed facilities as hereinafore described, as more fully described in the application, in this proceeding, upon the terms and conditions of this order.

The certificates issued by paragraph (A) above and the rights granted thereunder are conditioned upon Applicants' compliance with all applicable Commission regulations under the Natural Gas Act and particularly the general terms and conditions set forth in paragraphs (a), (b), (c), (d), (e), (f) and (g) of § 157.20 of such Regulations.

The facilities authorized by paragraphs (A) above shall be constructed and placed in actual operation, as provided by paragraph (b) of § 157.20 of Regulations under the Natural Gas Act, within one year from the date of this order.

The orders issued in Docket Nos. G-6508 and CP67-26 are further amended by allowing abandonment of the facilities and service hereinafore described, as more fully described in the applications in this proceeding. In all other respects said orders shall remain in full force and effect.

(b) Permission for and approval of the abandonment of Applicants' facilities in Docket No. CP75-306 hereinafore described, as more fully described in the application are granted subject to Applicants' filing a separate accounting proposal within six months after abandonment, which proposal shall require Commission approval.

The order issuing a certificate of public convenience and necessity in Docket No. CP73-297 is further amended authorizing the construction and operation of additional facilities as hereinafore described, as more fully described in the application. In all other respects said order shall remain in full force and effect.

(G) Texas Eastern shall notify the Commission of its acceptance of a certificate of public convenience and necessity and abandonment authorization as conditioned in Docket No. CP75-306 within 30 days. Applicants shall advise the Commission of the dates of abandonment within 10 days thereof.

By the Commission.

UNION ELECTRIC CO.

Take notice that on November 20, 1975, Union Electric Company (Union) ten-
dered for filing a letter Agreement dated September 24, 1975, between Union and Associated Electric Cooperative, Inc. (Associated). Union states the Agreement modifies the provisions of the inter-
change Agreement dated March 27, 1968, between Associated and Union by pro-
viding for a new delivery point between the parties and establishing charges to be paid for use of Union's facilities.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 225 North Capitol Street NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and pro-
cedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before December 19, 1975. Protests will be considered by the Commission in de-
termining the appropriate action to be taken, but will not serve to make prote-

tants parties to the proceeding. Any person wishing to become a party must file a
petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

UNITED ILLUMINATING CO.

Termination

DECEMBER 8, 1975.

Take notice that on November 26, 1975, the United Illuminating Company (the Company) filed a notice that the initial rate schedule submitted to the Commission on September 12, 1975 by the Company (Docket No. ER75-120) providing for the sale of power by the Company to the City of Holyoke, Massachusetts Gas and Electric Department (Holyoke) pursuant to a contract dated as of Au-
gust 1, 1975, (the Contract) has termi-
nated by its own terms effective Octo-
ber 21, 1975.

The Company states that the reason for the termination is that the Contract, by Paragraph 2 thereof, provided that it "expire at 11:59 P.M. on the date prior to the effective date of that certain Agreement" pursuant to which Holyoke would purchase a joint ownership in-
terest in the Company's New Haven Har-
bor Station Unit No. 1 (the Unit). The Contract was limited to the wholesale sale of electric energy for the brief period of time commencing with the commer-
cial operation of the Unit and ending, when Holyoke could complete its finan-
cing program to enable it to purchase a joint ownership share in the Unit. Holy-

toke completed its financing program by the sale of revenue bonds on October 29, 1975 and purchased a joint ownership share in the Unit on November 1, 1975.

The Company requests that the Com-
mission order this notice to be effective as of October 31, 1975.

A copy of this notice has been mailed to the City of Holyoke, Massachusetts Gas and Electric Department.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 225 North Capitol Street NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and pro-
cedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 17, 1975. Protests will be considered by the Commission in de-
termining the appropriate action to be taken, but will not serve to make prote-

tants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund

DECEMBER 5, 1975.

Respondents have filed proposed changes in rates and charges for jurisdic-
tional sales of natural gas, as set forth in Appendix A hereof.

The proposed changes and charges may be unjust, unreasonable, unduly discriminating, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the law-

fulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly Sec-
tions 4 and 15, the Regulations pertaining thereto (18 CFR, Chapter 1), and the Commission's Rules of Practice and Procedure, public hearings shall be held concerning the lawfulness of the pro-

posed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supple-
ments shall become effective, subject to refund, as of the expiration of the sus-
pension period without any further ac-
tion by the Respondent or by the
Commission. Each Respondent shall comply with the refunding procedure re-
quired by the Natural Gas Act and Sec-

tion 154.102 of the Regulations there-
under.

(C) Unless otherwise ordered by the Commission, neither the suspended supple-
ments, nor the rate schedules sought to be altered, shall be changed until dis-
position of these proceedings or expira-
tion of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB, Secretary.
Texaco's proposed rate filing corrects a previously filed increase which was suspended for five months until April 1, 1976 in Docket No. R176-30. This filing reflects a reduction in the rates originally requested. However, these rates and the original rates both exceed the applicable Opinion No. 658 are ceiling rate and the corrected filing is suspended until April 1, 1976 in the existing proceeding in Docket No. R176-30.

The remaining proposed rate increases exceed the applicable area ceiling rate established in Opinion No. 658 and are suspended for five months.

**TEXAS GAS TRANSMISSION CORP.**

**Proposed Refund Plan**

**December 4, 1975.**

Take notice that on November 20, 1975, Texas Gas Transmission Corporation (Texas Gas) tendered for filing its proposed plan for the flow-through of refunds received from producers pursuant to Opinion No. 598 in Docket Nos. AR61-2 and AR69-1, et al. Texas Gas states that the refunds, totaling $200,453, are applicable to gas purchases from various producers during the period October 1, 1968 to January 11, 1970 in Docket No. RP-67-10 and the period January 12, 1970 to December 31, 1970 in Docket No. RP76-41. Texas Gas proposes to flow-through these refunds by crediting the balance in its Purchase Gas Cost Clearing Account pursuant to Section 23.19(c) of its FPC Gas Tariff, Third Revised Volume No. 1.

Texas Gas states that a copy of this filing was sent to all its jurisdictional customers. Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20854, in accordance with Sections 1.8 and 1.10 of the Commission’s rules of practice and procedure. All such petitions or protests should be filed on or before December 18, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

(COAL MINE HEALTH AND SAFETY)
APPLICATIONS FOR RENEWAL PERMITS, ELECTRIC FACE EQUIPMENT STANDARD

Opportunity for Public Hearing

Applications for Renewal Permits for Noncompliance with the Electric Face Equipment Standard prescribed by the Federal Coal Mine Health and Safety Act of 1969 have been received for items of equipment in underground coal mines as follows:

In accordance with the provisions of §504.7(b) of Title 30, Code of Federal Regulations, notice is hereby given that

FEDERAL REGISTER, VOL. 40, NO. 241—MONDAY, DECEMBER 15, 1975
requests for public hearing as to an application for a permit may be filed within 15 days after publication of this notice. Requests for public hearing must be filed in accordance with 30 CFR Part 505 (30 FR 11326, July 15, 1970), as amended, copies of which may be obtained from the Panel upon request. A copy of each application is available for inspection and requests for public hearing may be filed in the office of the Correspondence Control Officer, Interim Compliance Panel, Room 800, 1730 K Street NW., Washington, D.C. 20006.

INTERNATIONAL JOINT COMMISSION—UNITED STATES AND CANADA

ROSEAU RIVER DRAINAGE

Public Hearings

The International Joint Commission, a permanent Canada and United States body established under the Boundary Waters Treaty of 1909, will hold public hearings on the Main Report of the International Roseau River Engineering Board at the times and places noted below.

The studies were made pursuant to a Reference from the two Governments dated January 16, 1929. The original Reference had not been fully reported upon by the Commission in its Interim Report dated June 8, 1929, and no final report was made. Various measures for land drainage and flood control had been undertaken independently by the two countries in the years between the Commission’s Interim Report and the reconstitution of the present Board in the summer of 1971. Therefore, on August 26, 1971, the Commission directed the Board to determine:

(a) The effect of the control works set in place along the rivers since 1929;
(b) What co-ordinated plan or plans could provide effective use and control of the water;
(c) What the effects of the plan or plans would be on the environment and on flood flows in both the Roseau and Red Rivers;
(d) What additional works and/or measures would be required by these plans, what their cost would be and how the costs should be allocated between the two countries.

The purpose of these public hearings is to receive the views and advice of the public on the Board’s report and to allow the Commission in preparation of its final report to the Governments of Canada and the United States on the Reference. The hearings are international in nature and irrespective of the location in which they are held, the citizens of both the United States and Canada are invited to attend and participate.

Anyone wishing to present views on the substance of the report, either on his own behalf or as a representative of others, will be given an opportunity to do so. Statements may be made orally or in writing. Allocation of time may be required for oral statements; therefore, witnesses should be prepared to summarize written statements. Written statements may be of any length. If written statements are submitted, it is requested that, if possible, thirty (30) copies be provided for the Commission’s use. Additional copies may be deposited with the Secretaries for representatives of the news media and others present. Also, where possible, advance notice of persons or parties wishing to make a statement would be appreciated by the Commission.

Copies of the report may be obtained from the Secretaries of the Commission or from:

Times and Places of Hearings

INTERNATIONAL TRADE COMMISSION

[No. 337-TA-5]

CHAIN DOOR LOCKS

Notice of Prehearing Conference

Notice is hereby given that the United States International Trade Commission will hold a prehearing conference in connection with Investigation No. 337-TA-5, Chain Door Locks, on Tuesday, January 6, 1976, at 10:00 a.m., EST, in Room 206 of the United States International Trade Commission Building, 701 E Street, Northwest, Washington, D.C. 20436.

The proposed agenda for the prehearing conference is: 1. Stipulation to Propose Commission Rules (40 FR 40173, Sept. 2, 1975) for this investigation, and to evidence of record.

2. The scope of a proposed additional hearing.

3. A proposed protective order (to be furnished prior to the prehearing conference) and distribution of material submitted in confidence to the parties.

4. Collection of additional economic data.

5. Discussion as to proposed witnesses.

6. Discussion of dates relevant to the hearing.

7. Any other matters mentioned in documents served in accordance with the paragraph below.

These additional items on the prehearing conference agenda, each participant should serve written proposals on the presiding officer and all parties before December 30, 1975.

Participants: Like interests will be grouped and a spokesman appointed for their common interests at the prehearing conference.

At the conference the participants should be prepared to discuss problems involved in the proceeding, procedural and substantive, and should be authorized to make commitments with respect thereto. Among the specific items to be discussed within the framework of the agenda listed above are: stipulations as to facts, authentication of documents, future procedural dates, including dates for the service of direct and rebuttal evidence, dates for trial briefs and dates for the hearing.

Failure to attend the prehearing conference may result in waiver of your right to receive data or to object to rules, dates, or procedure ordered at such conference, or object to stipulations entered into by the parties.

Issued: December 9, 1975.

NUCLEAR REGULATORY COMMISSION

[Docket No. P-664-A]

PACIFIC GAS AND ELECTRIC CO.

Receipt of Partial Application for Construction Permits and Facility License: Time for Submission of Views on Antitrust Matters

Pacific Gas and Electric Company (the applicant), pursuant to section 103 of the Atomic Energy Act of 1954, as amended, has filed one part of an application, dated August 14, 1975, in connection with their plans to construct and operate two reactors in Stanislaus County, California. The portion of the application filed contains the information requested by the Attorney General for the purpose of an antitrust review of the application as set forth in 10 CFR Part 50, Appendix L.

The remaining portions of the application consisting of an Environmental Report and the Preliminary Safety Analysis Report (PSAR) pursuant to § 2.101 of Part 2, are expected to be filed in September 1976 or April 1977, respectively. Upon receipt of the remaining portions of the application dealing with radiological health and safety and environmental matters, separate notices of receipt will be published by the Commission including an appropriate notice of hearing.

FEDERAL REGISTER, VOL. 40, NO. 241—MONDAY, DECEMBER 15, 1975
A copy of the partial application will be available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. 20555, and at the Local Public Document Room, Stanislaus County Free Library, 1500 I Street, Modesto, California 95351. Docket No. P-564-A has been assigned to the application and it should be referenced in any correspondence relating to it.

Any persons who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Chief, Office of Antitrust and Indemnity, Office of Nuclear Reactor Regulation, on or before January 30, 1976.

Dated at Bethesda, Md, this 21st day of November 1975.

POWER AUTHORITY OF THE STATE OF NEW YORK

(Docket No. 50-417)

Receipt of Partial Application for Construction Permit and Facility License; Time for Submission of Views on Antitrust Matters

Power Authority of the State of New York (the applicant), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, has filed a part of an application dated July 25, 1975, in connection with their plans to construct and operate a reactor in Greene County, New York. Greene County Nuclear Power Plant (the facility), will be a pressurized water reactor designed for operation at 3600 thermal megawatts with a net electrical output of 3000 megawatts. This portion of the application filed contains the information requested by the Attorney General for the purpose of an antitrust review of the application as set forth in 10 CFR Part 50, Appendix L.

In addition, the general information portion of the application and the Environmental Report were docketed on September 15, 1975, but without the full Preliminary Safety Analysis Report in accordance with 10 CFR 2.101. The Preliminary Safety Analysis Report was tendered but initially rejected and is expected to be re-submitted for docketing in the near future. A separate notice of receipt for this remaining portion will be published at that time. A notice of hearing is also being published separately dealing with radiological health and safety and environmental matters.

Copies of the individual portions of the application, as noted above, are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. 20555, and at the Catskill Public Library, Franklin Street, Catskill, New York 12414.

Docket No. 50-549-A has been assigned to this antitrust portion of the application and it should be referenced in any correspondence relating to it.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Chief, Office of Antitrust and Indemnity, Office of Nuclear Reactor Regulation, on or before February 6, 1976.

BALTIMORE GAS AND ELECTRIC CO.

Notice of Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 11 to Facility Operating License No. DPR-53, issued to Baltimore Gas and Electric Company (the licensee), which revised Technical Specifications for operation of the Calvert Cliffs Nuclear Power Plant Unit 1 (the facility) located in Calvert County, Maryland. The amendment was effective as of November 30, 1975.

The amendment incorporates an exemption from the requirements of Section III.D.3 of Appendix J of 10 CFR Part 50. It changes the Technical Specifications for the facility to extend the first test interval of approximately 47% of the containment isolation valves until the first plant shutdown for code revision following issuance of this amendment, but no later than December 30, 1975.

The application complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. The Commission also concluded that the granting of the exemption from the requirements of Section III.D.3 of Appendix J for the above-referenced test is authorized by law and will not endanger life or property or the common defense and security and is otherwise in the public interest. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment dated November 18, 1975, (2) the letter from the Director of the Nuclear Reactor Regulation to Baltimore Gas and Electric Company (issued concurrently with this Notice), (3) Amendment No. 11 to License No. DPR-53, with Change No. 10, and (4) the Commission's Refined Safety Evaluation Report. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C., and at the Calvert County Library, Prince Frederick, Maryland 20678. A single copy of items (2), (3) and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 4th day of December, 1975.

NEBRASKA PUBLIC POWER DISTRICT

Notice of Issuance of Amendment to Facility License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 15 to Facility Operating License No. DPR-46, issued to the Nebraska Public Power District (the licensee), which revised Technical Specifications for operation of the Cooper Nuclear Station (the facility) located in Nemaha County, Nebraska. The amendment is effective as of its date of issuance.

This amendment revises the Administrative Orders Sections of the Technical Specifications for the facility to change the record retention period (for principal maintenance activities and reportable occurrences) from "for the life of the plant" to "for at least five years" consistent with current requirements.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment dated September 9, 1975, (2) the letter from the Director of the Nuclear Reactor Regulation to the Nebraska Public Power District (issued concurrently with this Notice), (3) Amendment No. 15 to License No. DPR-46, with Change No. 10 and (3)
the Commission's concurrently issued Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. and at the Auburn Public Library, 159 E. Market Street, York, Pennsylvania. A copy of items (2) and (3) may be obtained upon request addressed to the United States Nuclear Regulatory Commission, Washington, D.C. 20555. Attention: Director, Division of Reactor Licensing.

PHILADELPHIA ELECTRIC CO., ET AL.
Notice of Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 15 to Facility Operating License No. DPR-44 issued to Philadelphia Electric Company, Public Service Electric & Gas Company, Delmarva Power and Light Company, and Atlantic City Electric Company, which revised Technical Specifications for operation of the Peach Bottom Atomic Power Station Unit 2, located in Peach Bottom, York County, Pennsylvania. The amendment is effective as of its date of issuance.

The amendment modifies the provisions in the Technical Specifications relating to Limiting Conditions for Operation associated with the Emergency Core Cooling System (ECCS) and Reactor Core Power Distribution Limits; and provides for modification of the ECCS to improve its performance in accordance with the licensees’ application for amendment dated July 9, 1975.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission’s rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission’s rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Notice of Proposed Issuance of Amendment to Facility Operating License in connection with this action was published in the Federal Register on August 18, 1975 (40 FR 34647). No request for hearing or petition for leave to intervene was filed following notice of the proposed action.

For further details with respect to this action, see (1) the application for amendment dated July 9, 1975, September 10, October 30, November 7, 13, 18 and 20, 1975, (2) Amendment No. 15 to License No. DPR-44, with Change No. 15, (3) the Commission’s related Safety Evaluation, and (4) the Commission’s Negative Declaration dated November 21, 1975 (which is also being published in the Federal Register) and associated Environmental Impact Appraisal. All of these items are available for public inspection at the Commission’s Public Document Room, 1717 H Street, NW, Washington, D.C. and at the Martin Memorial Library, 159 E. Market Street, York, Pennsylvania 17401.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Attention: Director, Division of Reactor Licensing.

[Docket No. 50-277]

PHILADELPHIA ELECTRIC CO.
Negative Declaration

The U.S. Nuclear Regulatory Commission (the Commission) has reviewed a change to the Appendix A Technical Specifications of Facility Operating License DPR-44 as proposed by the Licensee, Philadelphia Electric Company. This change would authorize the licensee to operate the Peach Bottom Atomic Power Station Unit 2 in York County, Pennsylvania, with certain revisions to the present limiting conditions for operation as specified in Appendix A of the referenced license. These revisions would result from implementing the Acceptance Criteria for the Emergency Core Cooling Systems for Light Water Power Reactors (ECCS) as specified in §50.46 of Part 50 CFR. No revisions to the Environmental Technical Specifications (Appendix B) were requested in connection with the proposed action.

The proposed action would be carried out in conjunction with a planned shutdown for the purpose of correcting a channel box wear problem within the reactor core. The proposed ECCS action would result in a reduced power level of no more than 15 percent for no more than 12 months.

The Commission’s Division of Reactor Licensing has evaluated the expected environmental impact of the proposed change. On the basis of this appraisal, the Commission has concluded that an environmental impact statement is not warranted for this particular action. There would be no environmental impact attributable to the proposed action other than those impacts described in the Commission’s Final Environmental Statement for Peach Bottom, Units 2 and 3, issued April 1973. The environmental impact appraisal is available for public inspection at the Commission’s Public Document Room, 1717 H Street, NW, Washington, D.C., and at the Martin Memorial Library, 159 E. Market Street, York, Pennsylvania.

Dated at Rockville, Maryland, this 21st day of November 1975.

[Docket No. 50-277]

PHILADELPHIA ELECTRIC CO.
Order for Modification of License

I. Philadelphia Electric Company (PECO or Licensee) is the holder of Facility Operating License No. DPR-44 which authorizes operation of Peach Bottom Atomic Power Station Unit 2 (Unit 2 or the Facility) at steady-state reactor core power levels not in excess of 3225 megawatts thermal (MWth). The Facility is a boiling water reactor (BWR) located at the Licensee’s site in Peach Bottom, York County, Pennsylvania.

II. 1. On July 23, 1975, the Nuclear Regulatory Commission (the Commission) issued an “Order for Modification of License” (40 FR 32179 of July 31, 1975) which imposed a limited additional operation of the facility. As explained in the Order of July 23, 1975, the Facility’s channel box wear, as indicated by the noise-to-signal ratio recorded by the traversing Incore probe (TIP), had exceeded the threshold for remedial action. The remedial action, confirmed by the Order, limited operation of the facility at no more than 40 percent of rated core flow and with a maximum fuel bundle power of 3.35 MWT. In addition, the Order permitted operation up to full flow and power for a brief period of time needed to collect data for a limited additional operation of the facility. The Order further stipulated that the Licensee was to shutdown the facility following approximately 45 equivalent full flow days from June 21, 1975 unless within that period certain specified tests have been completed which demonstrated the efficacy of the 40% flow limit.

2. By letter dated October 24, 1975, the Licensee proposed a plan, previously discussed with the NRC staff, setting forth a course of remedial action, which would allow operation with flow rates above 40 percent of rated flow and power above 3.35 MWT. The plan of action would involve shutdown of the reactor and appropriate replacement of worn channel boxes and plugging of the core support plate bypass holes. The reactor was shutdown on October 31, 1975, for visual inspection of the channel boxes and the necessary repairs.

3. By its letter dated September 29, 1975, the Licensee provided details relating to the fuel channel inspection program and the installation of core bypass...
flow plugs in the lower core plate and supplied analyses to demonstrate the adequacy of the procedures for plug installation. Additionally, by its letter dated October 24, 1975, the Licensee referred to the modifications previously approved and implemented at the Duane Arnold and Vermont Yankee reactors.

4. On November 4, 1975, the Commission issued an "Order for Modification of License" (40 CFR 50.46) that approved the repair program and authorized the installation of bypass hole plugs in the facility's lower core plate. As discussed in the November 4, 1975 Order, the NRC staff concluded that the plugs will reduce the vibration of the instrument thimbles caused by flow through the bypass holes. By telecon on November 18, 1975, Philadelphia Electric Company confirmed that the licensee's inspection and repair program was completed. The inspection result in the rejection of 126 channel boxes with unacceptable wear as defined in the repair program. These channel boxes were replaced. Eighty-four channel boxes with indications of wear, but within the limits established in accordance with the Commission's Interim Acceptance Criteria, were plugged. Philadelphia Electric Company also confirmed that all flow bypass holes in the core plate were plugged.

5. By letters dated November 7, 18, and 20, 1975, the licensee provided analyses, including an emergency core cooling performance analysis, for reactor power operation with the plugs installed in the bypass holes. The November 7, 1975 letter supplemented letters of July 9, September 10, October 1 and 30, 1975 related to ECCS analyses.

6. The Commission's staff has reviewed the analyses submitted by the licensee on November 7, 1975 and supplements thereto to support operation with the bypass flow plug installed. As discussed in the Commission's concurrently issued Safety Evaluation for Amendment No. 15 to the license, the proposed operation with plugs will meet modified limits relating to emergency core cooling system performance. The modified limits specified in the concurrently issued Amendment No. 15 will be based upon an evaluation of ECCS performance calculated in accordance with an acceptable evaluation model that conforms to the requirements of the Commission's regulations and the Computer Safety Prediction Methods. The amendment would modify various limits established in accordance with the Commission's Interim Acceptance Criteria, and would, with respect to the facility, terminate the further restrictions imposed by the Commission's December 27, 1974 Order for Modification of License (40 FR 1772, January 9, 1975), and would impose inspection criteria in accordance with the Commission's Acceptance Criteria for Emergency Core Cooling Systems for Light Water Nuclear Power Reactors, 10 CFR Section 50.46. The amendment would also revise the Technical Specifications to permit operation of the facility using operating limits based on the General Electric Thermal Analysis Basis (GETAB) and the Low Pressure Coolant Injection System modified in accordance with the licensee's application for license amendment dated July 9, 1975 as supplemented.

7. Based on our review of the licensee's submittals of November 7, 18, and 20, 1975, and the prior related experience at the Pilgrim and Vermont Yankee reactors, the NRC staff concluded in its concurrently issued Safety Evaluation that operation of Peach Bottom Unit 2 in accordance with the additional restrictions set forth in Amendment No. 15 to the license would provide reasonable assurance that the public health and safety would not be endangered.

III. Accordingly, pursuant to the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR Parts 2 and 50, it is ordered, That Facility Operating License No. DPR-44 is hereby amended by substituting the following provisions for the provisions set out in the Commission's Orders for Modification of License dated December 27, 1974 and November 4, 1975:

1. Operation of Peach Bottom Atomic Power Station Unit 2 with plugged bypass flow plugs is hereby authorized subject to the conditions set forth in the concurrently issued Amendment No. 15 to the Facility License No. DPR-44 in accordance with the Technical Specifications, and

2. A monitoring program using LPRM and TIP traces and available accelerometers on incore instrument guide tubes shall be performed for the purpose of detecting any instrument tube—channel box interaction.

For the Nuclear Regulatory Commission.

BEN C. RUSCHE,  
Director, Office of Nuclear Reactor Regulation.

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS  
Notice of Proposed Subcommittee and Full Committee Meetings  
In order to provide advance information on ongoing Safety Subcommittee and Full Committee meetings, the following preliminary schedule is being published. This preliminary schedule reflects the current situation, taking into account additional meetings which have been scheduled and meetings which have been cancelled since the last list of proposed Subcommittee and full Committee meetings published in FR Vol. 40, No. 223, pg. 53446, November 16, 1975. Those meetings that are scheduled to continue will have an individual notice published in the Federal Register approximately 15 days (or more) prior to the meeting. Those Subcommittee meetings for which it is anticipated that there will be a portion or all of the meeting open to the public are indicated by an asterisk (*).

It is expected that the sessions of the full Committee meeting designated by an asterisk (*) will be open in whole or in part to the public. Information as to whether a meeting has been firmly scheduled, cancelled, or rescheduled, or whether changes have been made in the agenda for the January 8-10, 1976 ACRS full Committee meeting can be obtained by a prepaid telephone call to the Office of the Executive Director of the Committee (telephone 202/634-1405, Attn: Mary E. Vanderhoft) between 8:15 a.m. and 5:00 p.m. EST.

SUBCOMMITTEE MEETINGS

* Diablo Canyon Nuclear Power Station, Units 1 and 2, December 27, 1975, San Luis Obispo, CA. Postponed. Tentatively scheduled to be held February 26-27, 1976 in Nashville, TN.

* Inspection and Enforcement Activities, January 6, 1976, Chattanooga, TN. Postponed. Scheduled to be held January 23, 1976 in Chattanooga, TN.

* Anticipated Transients Without Scram (ATWS), January 6, 1976, Washington, D.C., to continue the review of certain proposed reactor design changes for Class B plants, as proposed by reactor vendors.

*Safety of Operating Reactors, January 7, 1976, Washington, D.C., to discuss how operating experiences are factored into continuing operation and new designs, and to obtain a report on operating experience.

*Stone and Webster Standard Safety Analysis Report (SWESSAR), February 18, 1976, Los Angeles, CA, to continue the discussion of third-party reviews, access control, diversion detection, and Security of Nuclear Facilities, and to continue the discussion of third-party reviews.

*Hartville Nuclear Power Plant, Units 1, 2, 3, and 4, February 27, 1976, Nashville, TN, to review the application of the Tennessee Valley Authority for a permit to construct Units 1, 2, 3, and 4.

FULL COMMITTEE MEETINGS

JANUARY 8-10, 1976

FEBRUARY 5-7, 1976

*Proposed Design Changes for Light Water Reactors.

MOTOR CARRIER TRANSFER PROCEEDINGS
Application filed for temporary authority under Section 210a(b) in connection with transfer application under Section 210b and Transfer Rules, 49 C.F.R. Part 112:
No. MC-FC-76193, (Correction) DONALD L. KERBS, doing business as C & R TRUCK LINE—Transferee—DONALD L. KERBS AND NEAL J. LOVIN, doing business as C & R TRUCK LINE—Transferor—, on November 15, 1975, the above-entitled application was published in the Federal Register. The notice stated that Donald L. Kerbs, doing business as C & R Truck Line, intends to temporarily operate the motor carrier properties of Donald L. Kerbs and Neal J. Lovin, doing business as C & R Truck Line. This notice inaccurately described the nature of the transaction. In this proceeding Donald L. Kerbs, doing business as C & R Truck Line, intends to acquire the certificate of registration underlying, interstate authority of Donald L. Kerbs and Neal J. Lovin doing business as C & R Truck Line.

[CGD 75 227]
MARINE SANITATION DEVICES
Certifications Granted

The purpose of this document is to notify interested persons that the Commandant, U.S. Coast Guard, has certified the design of certain marine sanitation devices or has authorized the manufacturer to label certain devices in accordance with the U.S. Coast Guard Marine Sanitation Device Regulations (33 CFR, Part 159).

When the Coast Guard determines that a device successfully satisfies the Design, Construction and Testing requirements of Subpart C of 33 CFR, Part 159, the manufacturer is authorized by the Coast Guard to label each device that he manufactures that is in all material respects substantially the same as the test device. This label serves as the purchaser’s verification of the certification on such devices.

Existing equipment that is certified under 33 CFR 159.12 cannot be labelled under 33 CFR 159.16 as being certified. Because of this fact, purchasers of these devices are urged to request from the manufacturer or dealer a copy of the Coast Guard letter granting certification of the device. The “verification” column in the list below shows the date of the Coast Guard letter granting certification. A copy of the certification letter or this Notice should be retained by the owner of such equipment as evidence that the device has been certified by the Coast Guard.

(33 U.S.C. 1322, 49 CFR 1.40 (l) and (m)).

Rear Admiral, U.S. Coast Guard,
Chief, Office of Merchant Marine Safety.

FEDERAL ELECTION COMMISSION

INDEX OF NOTICES

Interim Guidelines, Proposed Regulations, Advisory Opinion Requests and Advisory Opinions
NOTICES

FEDERAL ELECTION COMMISSION
[Notice 1975-89]

INDEX OF NOTICES PUBLISHED IN THE "FEDERAL REGISTER" BY THE FEDERAL ELECTION COMMISSION

Today, the Federal Election Commission publishes an index for all interim guidelines, proposed regulations, advisory opinion requests, and advisory opinions which have been published by the Commission through November 19, 1975. This index includes numerical, subject matter, and publication date notation for each published item. In every case, the Federal Register notice number will be the common reference to each entry.

For a full text of any of the entries included in this index, you may write to the Information Office, Federal Election Commission, 1325 K Street NW., Washington, D.C. 20463, or call Area Code (202) 382-4722. When ordering any of these items, please specify and order only by the Federal Register notice number.

To follow regularly the activities of the Commission, you may refer directly to the Federal Register. With this index, every item published by the Commission can be located by Federal Register notice number in the Federal Register for the appropriate date. The Federal Register is available for inspection at any Public Library which is also a Federal depository, or by subscription through the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. For subscribers to the Federal Register, a suggested method to follow the activities of the Commission is to keep Commission notices arranged chronologically by Federal Register notice number and use this index to locate any particular entry.

This index is divided into two general categories: (1) Interim guidelines and proposed regulations; and (2) advisory opinion requests and advisory opinions. A brief explanation of each category follows:

(1) Interim guidelines and proposed regulations. Under the Federal Election Campaign Act of 1971, as amended, (FECA, as amended) the Commission has power to prescribe suitable rules and regulations to carry out certain provisions and to formulate general policy for the administration of the Act. The FECA, as amended, prescribes that any rule or regulation which is proposed by the Commission must be submitted to the Congress for review (see 2 U.S.C. § 438) (c). If the proposed regulation is not disapproved by Congress within 30 legislative days, it becomes effective upon the date of enactment. This index lists the interim guidelines and the proposed regulations first, in the chronological order in which they have been published in the Federal Register, and second, in alphabetical order by subject matter.

(2) Advisory opinion requests and advisory opinions. The FECA, as amended, provides that upon the request of (a) any individual holding Federal office, (b) any candidate for Federal office, or any political committee, the Commission can render an advisory opinion as to whether any specific transaction or activity by that individual or committee would constitute a violation of the FECA, as amended (see 2 U.S.C. § 437). Any person receiving an advisory opinion who acts in good faith in accordance with provisions and findings of the advisory opinion will be presumed to be in compliance with the Act.

This index lists the following:

(a) Advisory opinion requests (AORs) by number, in the order in which they are published;

(b) Advisory opinions (AOs) which have been issued by the Commission in response to these AORs. Each AO number will correspond to its respective AOR number. Issuance of AOs by the Commission is not necessarily in the order in which the AORs have been published. Every AOR and corresponding AO, when issued, can be located by referring to its Federal Register Notice Number.

(c) AOs and AORs listed alphabetically by subject matter;

(d) Relevant sections of the U.S. Code with a reference to the AOs which deal with these sections; and

(e) A brief description of each AO.

(This is the first publication of this index. It will be published monthly. Its purpose is to assist those who have a current need to be up-to-date on Federal election campaign laws and policies issued by the Commission. The Commission welcomes comments on the format and contents of this index, and any suggestions for change to make it more beneficial to its users.)

Thomas B. Curtis,
Chairman, for the Federal Election Commission.

AO 1975-4 DEMOCRATIC PARTY TELETHON. Endorsers or guarantors of loans to Democratic National Telethon are "contributors" subject to limits.

AO 1975-7 CONGRESSIONAL OFFICE ACCOUNTS. Contributions and expenditures from office accounts are subject to limitations but contributions and expenditures from franking accounts are exempt.

AO 1975-8 HONORARIA. Designating honorariums to charity counts against limit on honorariums.

AO 1975-9 UNOPPOSED PRIMARY CANDIDATE. An unopposed primary is defined as an "election" for contribution/expenditure limitations.

AO 1975-10 INTERNAL TRANSFER OF CAMPAIGN FUNDS. Answers a series of questions on transfers between committees, either Federal or non-Federal.
AO 1975-11 DUAL CANDIDACIES. Defines applicability of limits of candidates running for two Federal offices simultaneously.

AO 1975-13 CHAMBER OF COMMERCE MONIES. Corporations cannot provide travel expenses to candidates.

AO 1975-14 CONTRIBUTIONS TO DEFRAY CONSTITUENT SERVICE EXPENSES. Corporations, national banks, and unions may not contribute to office accounts.

AO 1974-15 THE WALLACE CAMPAIGN ROYALTIES. Candidate George Wallace can receive royalty payments.

AO 1975-16 INCORPORATED ASSOCIATIONS. Incorporated associations cannot contribute to campaigns. Numerous campaign committee requirements explained.

AO 1975-17 PARTNERSHIP CONTRIBUTIONS. Partnerships are limited to $1,000, and each partner's share counts against his limit.

AO 1975-18 CONTINUOUS REPORTING OF PAST DEBTS. Committees with outstanding debts must continue to report.

AO 1975-20 POLITICAL EDUCATION COMMITTEES. Political committees may perform certain non-candidate-oriented activities without incurring contributions or expenditures.

AO 1975-21 LOCAL PARTY COMMITTEE ACCOUNTS. Sets forth an allocation formula to be used in determining the portion of expenses that may be paid from non-corporate sources and expenses that may be paid from corporate funds in States where such contributions are permitted.

AO 1975-22 TRANSFERS OF FUNDS. Transfers of funds from a Senatorial committee to a party organization are expenditures. AUTHORIZED EXPENDITURES. A person cannot be authorized to receive contributions but not be authorized to make expenditures.
AO 1975-26 EARMARKED CONTRIBUTIONS. Application of contribution limitations to earmarked campaign funds deposited with Senatorial campaign committees.

AO 1975-27 ATTORNEY AND ACCOUNTANT FEES. Attorney and accountant fees must be charged against expenditure limits. Contains dissenting opinion of two Commissioners.

AO 1975-28 STATUS OF POLITICAL COMMITTEES. Clarifies the status of political committees supporting a former candidate for the Presidency.

AO 1975-29 POLITICAL PARTIES. Applicability of contribution limitations to county committees.

AO 1975-30 OFFICE ACCOUNTS AND CONSTITUENT SERVICE FUNDS. A principal campaign committee may make expenditures to purchase newspaper subscriptions and to reimburse the candidate for travel expenses.

AO 1975-35 ORGANIZATION OF POLITICAL COMMITTEES. Individuals may serve as officers of more than one political committee.

AO 1975-37 INCORPORATED POLITICAL COMMITTEES. Committees organized solely for political purposes may incorporate.

AO 1975-40 REPORTING OF POLITICAL CONTRIBUTIONS. Political committees and candidates must report all contributions from all political committees no matter how small the amount.

AO 1975-41 INVESTMENT OR DEPOSIT OF CONTRIBUTIONS INTO SAVINGS ACCOUNTS. Committees may make internal transfers of funds between checking and savings accounts without listing transactions on the report.

AO 1975-45 MULTI-CANDIDATE COMMITTEES. Application of contribution limitations to multi-candidate committees.
AO 1975-47 CLARIFICATION OF AO 1975-1. Expenditures of corporate funds by host committee to attract a national party convention. Supplements AO 1975-1 and deals with the purposes for which national conventions host committees may make expenditures and the application of convention spending limitations to such expenditures.

AO 1975-51 OFFICE ACCOUNTS. Use of excess campaign funds to purchase Congressional office equipment. Use of computer terminal to aid in handling of Congressman's constituent mail.

AO 1975-52 STATE COMMITTEE AID TO RETIRE DEBTS. Extent to which a State Committee may assist a successful Federal candidate in retiring a 1974 election campaign debt.

AO 1975-57 REPAYMENT OF LOANS. Contributions to repay loans made before January 1, 1975 which were received prior to issuance of the Commission's Interim Guidelines on retiring past debt.

AO 1975-62 CONTRIBUTIONS TO DEFRAY FUNDRAISING COSTS. The portion of a donation which covers the actual costs of a fundraising dinner must be counted as a contribution.

AO 1975-64 FUNDRAISING EVENTS TO RETIRE DEBTS. A single fundraising function may be held to retire a 1972 campaign debt and a 1973-74 office account deficit.

AO 1975-67 CAMPAIGN BILLBOARDS. Use of name of campaign committee chairman and treasurer is not required on billboard signs.

AO 1975-74 CONTRIBUTION IN NON-ELECTION YEARS. A contribution made to a multi-candidate committee in a non-election year is not counted against the contributor's $25,000 aggregate limit for the election year.

AO 1975-77 ROYALTIES. Royalties from publication of a book are not an honorarium.

AO 1975-78 FUNDRAISING EXEMPTION. The 20% fundraising exemption applies broadly to fundraising costs, not just to the actual solicitation of contributions.
PART IV:

DEPARTMENT OF LABOR

Office of the Secretary

PRIVACY ACT OF 1974

Notice of Systems of Records
Department of Labor
Office of the Secretary
Privacy Act of 1974

Supplemental Notice of Proposed Systems of Records

Pursuant to the requirements of sections (e) (4) and (11) of the Privacy Act of 1974 (Pub. L. 93-579; 88 Stat. 1856), the Department of Labor hereby notifies the maintenance of systems of records designated DOL/OASA-6, DOL/OASA-8 and DOL/MA-14. These systems of records were in existence on September 27, 1975, and should have been published in the notice of proposed systems published by Department of Labor on September 8, 1975 (40 FR 41739), but due to administrative oversight, were inadvertently omitted from that notice. The routine uses set forth in the prefatory statement accompanying the initial publication of systems of records (40 FR 41739) applies to the newly designated systems of records contained herein and is hereby incorporated by reference. In addition, the Department proposes to amend the notice of systems of records designated DOL/MA-8 and DOL/MA-9 published in the Federal Register on September 8, 1975 (40 FR 41748).

Pursuant to sections (j) and (k) of the Privacy Act of 1974, it is proposed to adopt exemptions for two previously noticed systems of records, DOL/OASA-3 (40 FR 41750) and DOL/LMSA-1 (40 FR 47961). The reasons for, and the scope of the exemptions are set forth below.

The Department invites public comment on all parts of this notice. Interested persons are invited to submit written data, views and arguments to Seth Zinnman, Associate Solicitor of Labor, Division of Legislation and Legal Counsel, Room 2428, New Department of Labor Building, 200 Constitution Avenue, N.W., Washington, D. C. 20210, on or before January 12, 1976. Written material received from the public through said date will be considered by the Department before taking action on a final notice. Submissions will be available for public inspection at the above address during normal working hours.

Signed in Washington, D. C. this 3rd day of December, 1975.

John T. Dunlop, Secretary of Labor.

1. Notice is hereby given by the Department of Labor of its maintenance of the following systems of records: DOL/OASA-6 Executive Assignment System File DOL/OASA-8 Executive Candidacy Self-Nomination Application File DOL/MA-14 Corporation Personnel File

- DOL/LMSA1

System name: LMSE index cards Division of Enforcement.

System location: U.S. Department of Labor, 200 Constitution Avenue, N.W., Room N3416, Washington, D.C. 20216; all Area Offices.

Categories of individuals covered by the system: Union Officers, individuals investigated, and individuals interviewed.

Categories of records in the system: Primarily investigative material relating to investigations under the LMRDA-1959 and EO 11491.

Authority for maintenance of the system: LMRDA - 1959 and EO 11491.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Information is disclosed to other Federal, state and local law enforcement agencies; to various congressional committees; in the President's Anti-Organized Crime Program including but not limited to reports of investigations, reports of interview and memoranda relating to investigations and intelligence information.

Retrievability: By name of individual.

Safeguards: Cards are in roladex machine which is locked at night. In addition, cards are number-coded so that only an authorized employee can find a desired file.

Retention and disposal: Cards are retained indefinitely; files are kept for three years, at which time they are sent to Federal Records Center for two years, after which except for those records with historical value, they are destroyed.

System manager(s) and address: Acting Director, LMSE, U.S. Department of Labor, 200 Constitution Avenue, Room N408, Washington, D.C. 20216.

Notification procedure: Mail all inquiries to Systems Manager at above address.

Record access procedures: As above.

Consulting record procedures: As above.

Record source categories: Information compiled from interviews conducted during investigations, written complaints, and written reports received from other agencies.

Systems exempted from certain provisions of the act:

a. Criminal law enforcement. In accordance with paragraph 3 (j) (2) of the Privacy Act, information maintained in the system of records consisting of the card index and case files in the Division of Enforcement of the Office of Labor-Management Standards Enforcement which relates to criminal investigations is exempt from all provisions contained in 5 U.S.C. 552a except those requirements set forth in paragraphs (b), (c) (i) and (2), (e) (4) (A) through (F), (e) (6), (7), (9), (10) and (11), and paragraph (i) of the Act. Two of the three branches in the Division of Enforcement perform activities primarily relating to the enforcement of criminal laws including activities carried out under the provisions of the President's Anti-Organized Crime Program and Titles II, V, and VI of the Labor-Management Reporting and Disclosure Act of 1959, As Amended. The disclosure of information contained in the criminal investigative files, including the names of persons or agencies to whom the information has been transmitted, would substantially compromise the effectiveness of the Division's investigations. Knowledge of such investigations could enable subjects to take such action as is necessary to prevent detection of criminal activities, conceal evidence, and escape prosecution. Disclosure of this information could lead to the intimidation of, or harm to, informants, witnesses, and their respective families, and could jeopardize the safety and well-being of investigative personnel and their families. The imposition of certain restrictions on the manner in which investigative information is collected, verified, or retained would impede significantly the effectiveness of the Division's investigatory activities, and in addition, may often preclude the apprehension and successful prosecution of persons engaged in criminal activity in the labor-management area.

b. Other law enforcement. In accordance with paragraph 3(k) (2) of the Privacy Act, investigatory material compiled for law enforcement purposes other than material declared exempt under paragraph 3(j) (2) of the Act, which is maintained in the card index and case file of the Division of Enforcement of the Office of Labor-Management Standards Enforcement is exempt from paragraphs (e) (3), (d), (e) (4) (G), (H) and (I), and paragraph (f) of 5 U.S.C. 552a. The disclosure of information contained in civil investigative files, including the names of persons or agencies to whom the information has been transmitted, would substantially compromise the effectiveness of the Division's investigations. Knowledge of such investigations would enable subjects to take such action as is necessary to prevent detection of illegal activities, conceal evidence, or otherwise escape civil enforcement. Disclosure of this information could lead to the intimidation of, or harm to, informants, witnesses, and their respective families, and, in addition, could jeopardize the safety and well-being of investigative personnel and their families. The imposition of certain restrictions on the manner in which investigative information is collected, verified, or retained would also impede significantly the effectiveness of the Division's investigatory activities.

Notification procedure: Address inquiries to the Systems Manager above.

Record access procedures: Individuals desiring to contest or amend information maintained in the system should direct their requests to the Systems Manager listed above, stating clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.
Contesting record procedures: Same as above.

Record source categories: The information contained in this system was received from individual complaints, witnesses, respondents, Federal, state, and local government records, and individual or company records.

Systems exempted from certain provisions of the acts:

a. Criminal law enforcement: In accordance with paragraph 3(j) (2) of the Act, information maintained in the files of the Office of Investigations (OI) is exempt from all provisions set forth in 5 U.S.C. 552a except those requirements contained in paragraphs (0), (0)(1) and (2), (6) (4) (A) through (B), (0)(1) and (11), and paragraph (0). The primary function of OI is that of enforcement of the criminal laws within the meaning of 5 U.S.C 552a (0)(2). The file maintained by OI contains information compiled in connection with such criminal investigations. The confidential nature of the investigation is essential to the conduct of effective investigations into alleged unlawful activity and crime conducive situations. Knowledge of OI investigations could enable subjects to take such action as is necessary to prevent detection of criminal activities, conceal evidence, or to escape prosecution. In addition, it could lead to the intimidation of, or harm to, sources, informants, witnesses and their respective families. While the information from this system is to be withheld, it will only be withheld to the extent necessary to protect the integrity of such investigations.

b. Other Law Enforcement: In accordance with paragraph 3(k) (2) of the Act, other investigatory material including certain material compiled from reciprocal investigations is exempt from the requirements set forth in paragraphs (c) (3) (D), (6) (4) (G), (1) (i) and (I) of the Act until such time as a determination is made based upon such information, at which time the information will only be withheld to the extent necessary to protect the identity of a confidential source who has furnished information under an express promise that his or her identity would be held in confidence (or prior to September 27, 1975, under an implied promise that the source's identity would be protected). This exemption is necessary in order to protect the integrity of law enforcement investigations as well as to protect the identities of sources who would not otherwise provide information.

FEDERAL REGISTER VOL 40, NO. 241—MONDAY, DECEMBER 15, 1975
c. Protective service. In accordance with paragraph 3(k)(3) of the Act, OI investigatory material maintained in connection with assisting the U.S. Secret Service (USSS) to provide protective services to the President of the United States or other individuals pursuant to section 3056 of Title 18 is exempt from paragraphs (c)(3), (d), (e)(4)(G), (H) and (I) and paragraph (f) of the Act. This exemption will enable OI to continue its support of the U.S. Secret Service without compromising the effectiveness of either agency's activity.

d. Contract investigations. In accordance with paragraph 3(k)(5) of the Act, investigatory material compiled in connection with contract investigations solely for the purpose of determining suitability, eligibility, or qualifications for a DOL contract is exempt from paragraphs (c), (d) and (f) of the Act to the extent that disclosure of such material would reveal the identity of a confidential source when an express promise has been given to withhold the identity of the source (or prior to September 27, 1975, under an implied promise that the source's identity would not be revealed). This exemption is necessary for OI to collect information from certain sources who would otherwise be unwilling to provide information necessary to conduct such investigations.

OFFICE OF MANAGEMENT AND BUDGET

RESCISSIONS AND DEFERRALS

Cumulative Report
OFFICE OF MANAGEMENT AND BUDGET
CUMULATIVE REPORT ON RESCISSIONS AND DEFERRALS DECEMBER 1975

This report is submitted in fulfillment of the requirements of section 1014 (e) of the Impoundment Control Act of 1974 (Pub. L. 93-344). Section 1014(e) provides for a monthly report listing all current year budget authority with respect to which, as of the first day of the month, a special message has been transmitted to the Congress.

This month's report gives the status as of December 1, 1975, of the rescissions and deferrals contained in the first eight special messages transmitted to the Congress for fiscal year 1976. These messages were transmitted to the Congress on July 1 and 25, September 10 and 24, October 3 and 20, November 18, and December 1, 1975.

RESCISIONS (ATTACHMENT A)

During the month of November, two additional special messages were transmitted to Congress bringing the total number of pending rescissions to 19 ($2,127.7 million in budget authority).

DEFERRALS (ATTACHMENT B)

As of December 1, 1975, $3,354.7 million in 1976 budget authority was being deferred from obligation and another $87.7 million in 1976 obligations was being deferred from expenditure.

The 85 deferrals transmitted in the eight 1976 special messages are tabulated in Attachment B.

INFORMATION FROM SPECIAL MESSAGES

The six special messages containing information on each of the rescissions and deferrals covered by the cumulative report are contained in the Federal Register of:

- Wednesday, July 9, 1975 (Vol. 40, No. 132, Part V).
- Wednesday, July 10, 1975 (Vol. 40, No. 147, Part I).

JAMES T. LYNN,
Director.
Honorable Nelson A. Rockefeller  
President of the Senate  
Washington, D.C. 20510

Dear Mr. President:

In accordance with Executive Order 11845 I am transmitting the cumulative report required by Section 1014(e) of the Congressional Budget and Impoundment Control Act of 1974. In accordance with that Act, the report is also being transmitted to the House and will be published in the Federal Register.

Sincerely yours,

James T. Lynn  
Director
