AQUEDUCT'S GOOD PROGRAMME.

Fields May Be Reduced, but This is Desirable in View of the Extreme Number of Entries in Some Races.

Seldom does correspondence of a purely official character, and couched in legal terms interest as many persons as that which passes between Mr. T. D. Reilly, the president of the Queens County Jockey Club, and W. F. K. Sturgis, secretary of the Jockey Club. Officially, it has been known in many quarters that the passing of ready money, in the entire absence of transfer of records or memoranda, constitutes no cause for criminal action under the provisions of the racing law.

TO-DAY'S PROBABLE WINNERS.

LITTLE FAST WORK DONE.

Yesterday's Showers Laid the Dust and Put the Metropolitan Tracks in Excellent Condition.

The rain of yesterday was just what was needed, and both the track and infield at Morris Park will be benefited therefrom. Although there was some useful fast work done, there was little attempted in the shape of really fast work, as nearly all of the trainers sent their charges along on Saturday, and yesterday was an off day. With the exception of Hyland's string, very few horses are coughing, which is rather remarkable, considering the weather we have had for the last four weeks.

Enough rain fell at Brighton Beach early yesterday morning to lay the dust and put the track in excellent condition, although making it a trifle slow.

WILLIAM LAKELAND was out as soon as the shower was over, and gave his string some useful work. Torpido, Countess, Tenor and Emma G. entered and galloped. Gold Crest worked a mile close to 1:50. Baritone II and Overk entered three furlongs in 1:44. Easterner and Concord, after cantering, breezed up the stretch at three-quarter speed.

JOHN COOK'S two-year-old Springfield did a useful mile and a half at the same time, and N. NEWTON'S Merry Monarch colt, after cantering and galloping, finished up a quarter at racing speed.

AT SHEEPSHEAD some good, useful work was done. Zain, the young colt, did good open galloping, and the latter did good open galloping.

MARCUS DALY'S Primrose and Buts did cantering and galloping exercise, Primrose going a mile and a half, and Buts a mile and a quarter. The young colt, Primrose, did good open galloping, and the latter did good open galloping.

WILLIAM HAYWARD'S Chum, Trompage, Medico and Salato did cantering and galloping exercise at various distances.

J. KNABLE'S Pickpocket, Peep o' Day, Inauguration and Irish Reel did good open galloping, Pickpocket worked six furlongs in 1:24, Peep o' Day breezed a quarter in about 0:28.

ALBERT COOPER'S lot did cantering and galloping exercise.

H. MCARDON, Lowellmore and J. W. Knox had their horses out, and did cantering and galloping exercise.

CAMPAIGN TO BEGIN.

Eastern Trotting Season Will Open in Earnest Next Week at Norfolk.

Horsemen Want National Trotting Association Offices Moved to New York.

HARTFORD NO LONGER CENTRAL.

President Campau of Detroit Foresees a Brilliant Racing and Trotting at the City of the Straits.

From time to time expressions of sentiment have been heard as to the desirability of removing the offices of the National Trotting Association from Hartford to New York, and the indications are that the matter is to be actively agitated.

When the National Trotting Association was founded, at the city of Hartford, and incorporated under the laws of Connecticut, in the early days of the trotting turf, Hartford was a city of far greater importance in the trotting world than now.

It was central in the territory first embraced by the association, and Hartford was for years, after Buffalo, the greatest link in the Grand Circuit.

Times have changed, and circumstances with them. Hartford is no longer in the Grand Circuit. It is not even a trotting town in a small way, and the gates of Charter Oak rust on their hinges.

Not only the entire country east of the Alleghenies, north and south, but Detroit, Cleveland, and the other tracks in the middle west, are in the National Association's membership. For the convenience of its Western clients, some meetings of the Board of Review, of the National Trotting Association, are held in Chicago, but the principal business of that Board is transacted at its New York sessions.

The business sessions of the association are held in New York, and every consideration of convenience to its members and its officials makes New York the logical headquarters of the association.

But there has recently grown up another reason for desiring the office of the governing Eastern association to be located in this city, which is the natural central point of the Atlantic coast. The English and European trotting and racing trotters taken together from this country by accepted by certificates of registration, pedigree and identification, signed by the secretary of the National Trotting Association.

This is the great point of export, fully nine-tenths of the trotters exported to Europe going through New York. There is an inspector at this port, working under the authority of the National Trotting Association, but after this export secures the "O. K." of the inspector the certificate must then secure the Secretary's signature and approval. Exporters complain of this inconvenience, and it may be remarked incidentally, that abuses in this certificate business, amounting almost to serious scandals, have been alleged. These and other reasons are being urged with increasing earnestness by prominent members of the National Association, including among others the president of the organization that gives the principal meeting in the Grand Circuit this year, who believe that New York should be the association's headquarters.

The decision of the Virginia courts phoning the Mappin bill compelled the Richmond Riding and Driving Club to abandon its Spring meeting, arranged for this week, and unless Norfolk follows suit the Eastern trotting season will be inaugurated at this season's opening on Tuesday. Many of the good Southern stables are entered at Norfolk, and their encountering the Northern campaigners the week following at Baltimore should make the Gentlemen's Driving Club meeting at the latter city an important Spring event. However, the season has been so backward that but few entries of horses can possibly be ready for the Baltimore meetings, and the trainers from the Southern and central tracks will probably have things quite their own way until they reach New York, the first week in June.

The week after New York the New England circuit will open at Combination Park, Boston, for an all Summer run at that track.

usual Sunday morning work on the Winter 'trotting around the stove' plan.

After John Kelly, who has twenty-four of President Butler's horses in charge, B. H. Demarest has the largest stable at Fleetwood. Mr. Demarest bought, for certain of his patrons, freely at last weeks sale, and thus many additions were made to the stable, which is now completed as follows:

Ryland T. (2078), b. b., by Ledger, Jr.—May, Charles W. (2134), b. b., by Hamerger-Nette, by Mambrino Pilot, Jr. Feelside (2134), b. m., by Equity-Lacy, by Ledger.

Donna (2136), p. ch. g., by Don Purdy-Henry, by Hambrico. Prince Albert (2134), b. g., by Crown Prince, by Hambrico. (2134), p. b. g., by Chimes-Portia, by Mambrino King. K. K. at Law, Jr. g., by Heir-at-Law-Tit Willow, by Almont. Carmo, b. m., by Chimes-Carlyle, by Kentucky Prince. Boy-Lady Vice (2137), p. b., by American George W. Leister, Jr., 2, by Artemas-Maine, by Joe Jefferson. Juddah, ch. f., 3, by Young Fullerton-Prester, by Confidence. (2138), b. m., by Dexter Prince-Julia, by St. Clair. Galahad, b. h., 5, by Asmoor-Juno, by Dexter Prince. Roguesfoot, h. e., 3, by Norval-Miles Simons, Jr., by Eagle Bird-Mother Lunge, by Peasall. Possession, b. e., 2, by Norval-Panare, by Ouzavere.

These are in training, and those that turn out good enough will be campaigned. Demarest is hopeful that in Ryland T. he will have the "prince" trotter. This class, he will-if he can do what no one else has yet succeeded in doing, that is, control "the prince" trotter. This stable has not been taken to Boston until after the Fleetwood meeting, in which several of the horses will start, including Ryland T., the young pacer, George W. Leister, who paced in public in 2:28, when less than six months old. He will try to make a sensation by making his record at Fleetwood.

D. J. Cullross, trainer for F. P. Oleott, will arrive at Fleetwood to-day with the following: (2139), b. m., by American George W. Leister, Jr., 2, by Artemas-Maine, by Joe Jefferson. Juddah, ch. f., 3, by Young Fullerton-Prester, by Confidence. (2138), b. m., by Dexter Prince-Julia, by St. Clair. Galahad, b. h., 5, by Asmoor-Juno, by Dexter Prince. Roguesfoot, h. e., 3, by Norval-Miles Simons, Jr., by Eagle Bird-Mother Lunge, by Peasall. Possession, b. e., 2, by Norval-Panare, by Ouzavere.

ON AN ENGLISH RACECOURSE.

Our American turf owes much to the examples and precedents set on the other side of the Atlantic, and the innovation in the way of special enclosures is another instance of this. Such an enclosure is shown in this drawing from a photograph of a scene at Doncaster, England. The bookmakers and their clerks are dotted about and stand ready to do business with such individuals as wish to back their opinions. And the crowd on the other side of the fence watch the "leviathans" with eager curiosity.

for on the best two-in-three-henits system, not less than three days from the date of the dash for the first money.

This novel idea is designed to bring out sensational racing speed, and the Detroit president thought so well of it that he immediately appropriated the necessary \$5,000 to make the test. As the best horses from all points will first come to Detroit, it is not as plentiful as it might be. Everybody is complaining. The attendance has not been large nor the betting active. Eight books easily attend to all the business. There are a large number of horses here, but not the right kind to give good racing. The meeting in progress at Nashville and the one which will soon open at St. Louis took away many stables and some fair performers. In two days more the meeting will be over, and then the scene shifts to Louisville. There are a large number of two-year-olds quartered here, and a better looking lot has not been seen in the West in some years, and some of them are racing well, too. There are a lot of them who are still green and coarse, and should be heard from before the season is over. Many of them are of imported sires whose sons and daughters will be seen for the first time this season. Ornament, the chestnut son of Imp. Orator and Victoria, has shown by his three victories that he will be worthy of respect wherever he goes. He won the Melbourne Stud Stakes and the Putnam so easily that the only horse to better him before his real work will be found out. Mr. Saggan, though his Imp. Florist colt Dunols would beat Ornament in the Melbourne, and had he not received such a nasty kick while at the post he might have been closer to him than third. Dunols is still laid up from the effects of the kick and may not even start at Louisville. Ornament's winnings from his three victories amounted to \$6,620, the Putnam being valued at the yearling year.

Mr. Patterson's other crack two-year-old, Sulsun, named after the Electioneer, two-year-old trotter, also won a stake here—the Peppercorn and Byron McKeland the other two—the Distillers' and the Phoenix Hotel—with Prince Leaf. These two owners would beat Ornament in the Melbourne, and had he not received such a nasty kick while at the post he might have been closer to him than third. Dunols is still laid up from the effects of the kick and may not even start at Louisville. Ornament's winnings from his three victories amounted to \$6,620, the Putnam being valued at the yearling year.

Dunols is still laid up from the effects of the kick and may not even start at Louisville. Ornament's winnings from his three victories amounted to \$6,620, the Putnam being valued at the yearling year.

Mr. Patterson's other crack two-year-old, Sulsun, named after the Electioneer, two-year-old trotter, also won a stake here—the Peppercorn and Byron McKeland the other two—the Distillers' and the Phoenix Hotel—with Prince Leaf. These two owners would beat Ornament in the Melbourne, and had he not received such a nasty kick while at the post he might have been closer to him than third. BEN BRUSH SEEMS A CERTAINTY

Who Has Watched His Work Do Not See Anything to Beat Him for the Kentucky Derby.

Cincinnati, May 3.—The past week in racing circles in the blue grass region has shown that money is not as plentiful as it might be. Everybody is complaining. The attendance has not been large nor the betting active. Eight books easily attend to all the business. There are a large number of horses here, but not the right kind to give good racing. The meeting in progress at Nashville and the one which will soon open at St. Louis took away many stables and some fair performers. In two days more the meeting will be over, and then the scene shifts to Louisville. There are a large number of two-year-olds quartered here, and a better looking lot has not been seen in the West in some years, and some of them are racing well, too. There are a lot of them who are still green and coarse, and should be heard from before the season is over. Many of them are of imported sires whose sons and daughters will be seen for the first time this season. Ornament, the chestnut son of Imp. Orator and Victoria, has shown by his three victories that he will be worthy of respect wherever he goes. He won the Melbourne Stud Stakes and the Putnam so easily that the only horse to better him before his real work will be found out. Mr. Saggan, though his Imp. Florist colt Dunols would beat Ornament in the Melbourne, and had he not received such a nasty kick while at the post he might have been closer to him than third. Dunols is still laid up from the effects of the kick and may not even start at Louisville.
