Does Your Refrigerator Eat Up Money?

Many people think that when they buy a cheap Refrigerator they are saving money. The fact is that compared with the ice expense the first cost shrinks into insignificance. The Refrigerator which is thoroughly efficient with the smallest consumption of ice is of course, the least expensive in the end.

BOHN SYPHON REFRIGERATOR

is enabled by the Syphon System of rapidly circulating pure, dry air to keep its temperature down to 40°. Naturally ice melts very slowly at only 8° above freezing. Moreover, the insulation of the Bohn Refrigerator is the most effective ever devised for heat resistance. Besides the wood cases and lining, the walls have 7 heat-resisting layers, including two of "Flaxinum," the exclusive Bohn insulating material. It is significant that practically all Refrigerator and Dining Cars in use today are equipped with the Bohn System. The Car Builders know! Call and see our large line, in both wood and white porcelain. Some of the best styles, including the one illustrated above, are now marked at attractive prices.

We can sell you a Bohn for \$16 up. If you cannot call, write for our handsome catalog. We are the manufacturers, not middlemen.
