

NEW YORK'S POLICE ON THE FIRING LINE—New York's policemen (there are 10,000 of them) demonstrated in their games at Sheephead Bay on Saturday, June 24, their fitness for military as well as police duty. The photograph shows the defence of a fort in a sham battle in which machine guns also had a part. *Gretley Photo Service.*

New York's policemen used only clubs in the draft riots of Civil War days. If called on for riot duty to-day the machine gun troop herewith shown would be on the job. It is charging in a sham battle. *© Underwood & Underwood.*

New York's mounted police in their Sheephead Bay exhibition showed all the skill of cowboys and regulars. Cavalry,

machine gun and infantry, 10,000 strong—these are New York City's first line of defence with the militia away. *Photo by Paul Thompson*
