# A Menace

## City pavements blamed for many ailments

Within the experience of us all, the sidewalk has changed from a soft to a hard one. Hard pavements have greatly improved our traffic conditions, but they have proved a serious menace to health and efficiency.

The records of the Hospital for the Crippled in New York show that in the year 1890, just before the advent of stony streets, Arch Trouble claimed 2.6 per cent of the new patients treated. In 1906, the percentage had risen to 18.3, and in 1914 to over 30 per cent.

### Save your health

You cannot have the streets unpaved, the sidewalks turned to turf—but you can protect yourself from the pounding jars that shatter nerves and break down health.

O'Sullivan's Rubber Heels act as easy, springy cushions between your heels and hardwood floors and pavements. O'Sullivanize your step. Put the spring of new live rubber under your feet, and walk with the vigorous stride that goes with real success.

When you buy your new shoes, buy them O'Sullivanized. Up-to-date shoe dealers now sell latest style shoes with O'Sullivan's Heels already attached.

Insist on O'Sullivanized shoes—the new live rubber heels give the greatest wear with the greatest resiliency.

At any shoe dealer or shoemaker; in black, white or tan; for men women or children; 50c attached.
