DETAILED DESCRIPTIONS OF ALL THESE UTENSILS ON PAGE 6, PART IV.

EDEN ELECTRIC WASHING AND WRINGING MACHINE. Made by the Brokaw-Eden Mfg. Co., Alton, Ill., and New York. This is a thoroughly competent washing machine of the cylinder type, in which the clothes are cleaned by being soured around in the soapuds. Its special features are the device which automatically severs the connection of the wringer with the motor if anything goes wrong, and the glassed opening in the side of the tub which shows the water line. Price, \$95.

UNIVERSAL FOOD CHOPPER. Made by Landers, Frary & Clark, New Britain, Conn. A good food chopper is now an essential part of the kitchen equipment in every well ordered household. This one satisfies every requirement. Its special virtues are,—the knives which cut, instead of crushing, the food, and the ease with which it is taken apart for cleaning. No corner or crevice exists in which the wily germ can escape the exploring brush. Prices, \$1.25 to \$2.25.

GARDEN SAUCEPAN RACK. Made by the Garden Kitchen Utilities Co., 301 Market Street, Newark, N. J. This rack, planned to fit the inside of the pantry door, is a near relative of the sink rack shown in the Institute page of this issue. The sink rack is meant to hold all sorts of small utensils, while this offers an abiding place for saucepans, skillets and other kitchen belongings of the larger variety. The "place for everything" is provided. Price, \$1. West of Mississippi 25c. extra.

SIMPLEX ELECTRIC TOASTER. No. 211. Made by the Simplex Electric Heating Co., Cambridge, Mass., and New York. All electric toasters toast bread quickly and evenly. This one does that and more, for a disappearing wire rack fitted into the top of the frame springs out when wanted and provides a place whereon to dry the bread before toasting. Also, the nickel-plated doors hold in the heat and accelerate the toasting. Price, \$6.

NU-LID POT. Made by the Nu-Lid Pot Manufacturing Co., Inc., 76 Franklin Street, New York. The picture shows exactly why this cooking pot is a boon to the housewife. Not only has it the open space and the coarse and fine strainers for draining different sorts of vegetables, rice, macaroni, etc., but the lid locks on so securely that the only way to remove or even loosen it, is to press the lever in the handle.

WESTINGHOUSE DISK STOVE. Made by the Westinghouse Electric and Mfg. Co., East Pittsburgh, Penn. This is the little convertible stove that belongs with the chafing dish described on The Tribune Institute page in this issue. It can be inverted to fit into the chafing dish frame, or stood on its own legs and used as a separate stove. Price, \$6.25.
