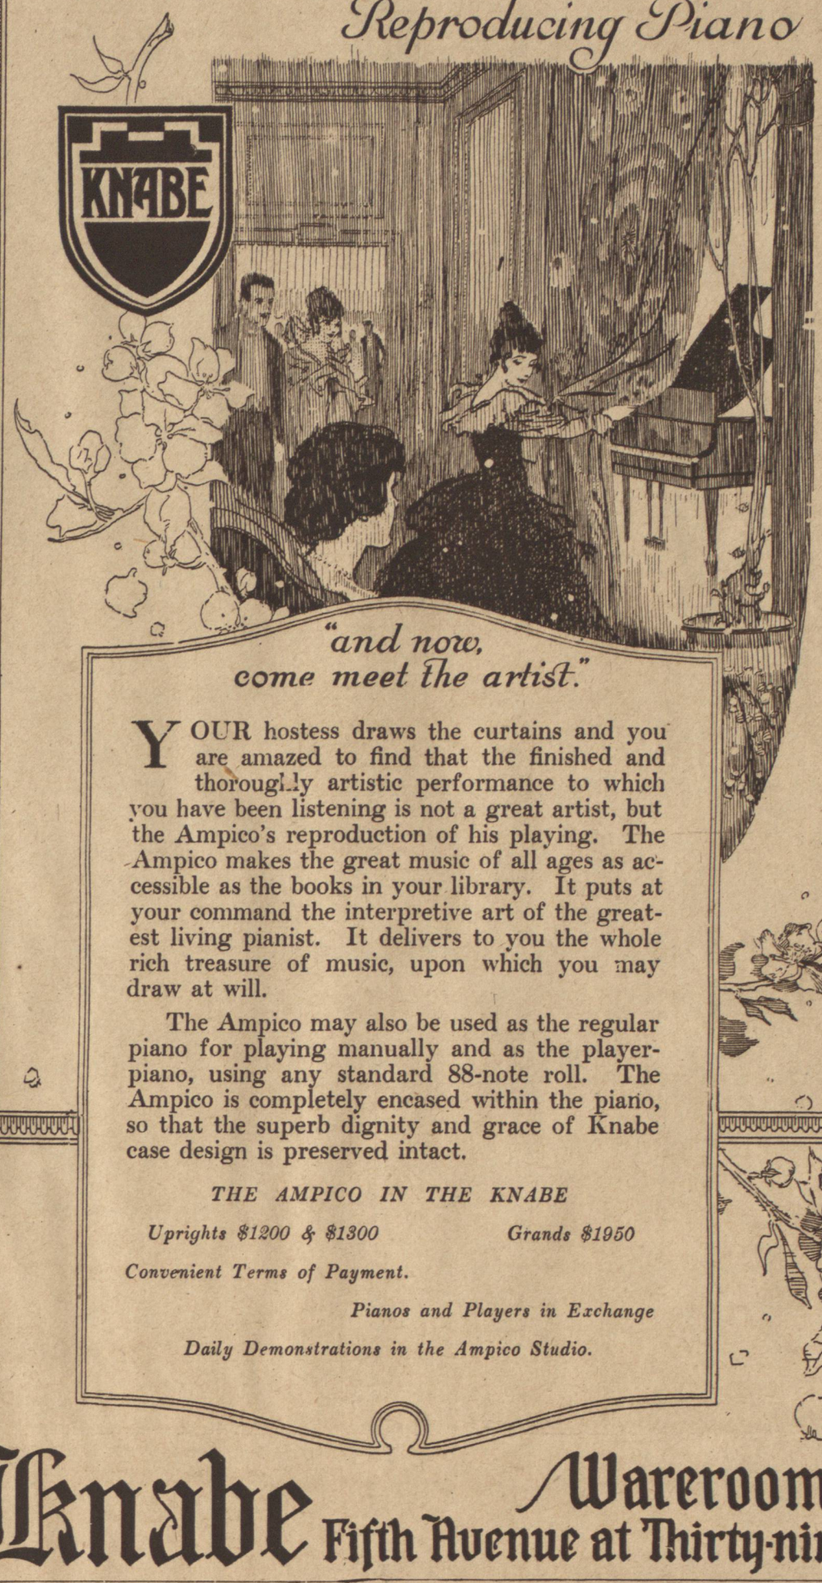
The AMPICO
Reproducing Piano



"and now, come meet the artist."

YOUR hostess draws the curtains and you are amazed to find that the finished and thoroughly artistic performance to which you have been listening is not a great artist, but the Ampico's reproduction of his playing. The Ampico makes the great music of all ages as accessible as the books in your library. It puts at your command the interpretive art of the greatest living pianist. It delivers to you the whole rich treasure of music, upon which you may draw at will.

The Ampico may also be used as the regular piano for playing manually and as the player-piano, using any standard 88-note roll. The Ampico is completely encased within the piano, so that the superb dignity and grace of Knabe case design is preserved intact.
