

On the left—Wilda Bennett, prima donna of "The Riviera Girl," K. & E.'s brilliantly conceived and executed musical comedy, now playing at the New Amsterdam Theatre.

Below—a bit of the poetry of motion as portrayed by Clara Vernon, one of the dainty dancers at the Coconut Grove.

To the right—Sue MacManamy as Phyllis Manning in "Lombardi, Ltd.," the comedy of the creation of clothes, at the Morosco.

Left—Jane Grey in the title rôle of "De Luxe Annie," with Vincent Serrano, her working partner—confidence man and blackmailer. Their excellent acting helps to sustain the suspense to the end of this study in abnormal psychology.

The same old eternal triangle theme is interestingly done over into a new drama—"On With the Dance." William Morris as the wronged husband and Eileen Huban as the wife torn between duty and a love of amusement. At the Republic Theatre.

A splendid assortment of rings, watches, lavallieres, diamonds and precious stones of all kinds. Featuring only those things that are new, the latest novelties, unusual things bound to please.

**BOHN SYPHON REFRIGERATOR**

With the Bohn Syphon System of rapid air circulation, moisture cannot condense except in the ice chamber. It is moisture condensing on the food in an ordinary refrigerator that causes odors and flavors to mix and food to spoil. The air in a Bohn Syphon Refrigerator is so dry that you can strike a match on the inside wall of a food chamber. You can leave soda crackers in a Bohn indefinitely and take them out crisp and crumbly. Put your refrigerator to such tests and see what happens!

The wonderfully effective Bohn insulation, together with the Syphon System, holds the temperature down to an extremely low point, no matter what the outside conditions may be. The lining (except in the largest models) is a single piece of porcelain-steel.

**SPECIALY PRICED**  
Model No. 48 (illustrated above), 39x23x30 inches, list price \$71.45, is now specially priced at \$60.50. Other models (Bohn, Sanitor and Ideal Refrigerators) at a wide range of special prices, from \$18.50 up.

The Bohn Refrigerating System is used in practically every refrigerator and dining car in use in this country. There are a dozen reasons why you should select a Bohn. Call and let us tell you about them. If you cannot call, write for our handsome catalog.

**A Square Meal and a Clean Shave for Your Boy in Khaki**

Uncle Sam's problem is to make his boys in khaki independent of the "chow" wagon for days at a time. On a hike or in No Man's Land, divorced from the source of supply, your boy must have a substantial emergency ration and the means to heat it.

—used in a Theroz patented burner, give him the quickest, most convenient and safest fuel known. Theroz Fuel Cubes are about an inch square. By an absolutely new and patented process a liquid is converted into a solid cube (not a paste). Theroz is the most efficient emergency fuel known because at the scratch of a match you have the full, intense heat of the fuel. There is no waiting for anything to start.

**Theroz is "Camouflage"**

It burns absolutely without smoke, soot, or odor to betray the soldier's presence. Theroz is convenient because it cannot go liquid and spill, it cannot explode, it cannot be wasted since it is in units of a cube, and lastly, because it adds little weight to the soldier's kit.

Send your "Teddy" a Theroz Blue Flame Stove and at least one can of Theroz Fuel Cubes—then he will bless you at least three times a day.

**What Theroz Fuel Cubes Will Do for the Soldier:**

- Fry Small Steak or Fish.
- Fry Potatoes.
- Make Pancakes.
- Heat Can of Soup, Beans, etc.
- Cook Cereal and Eggs.
- Make Tea or Coffee.
- Fry Ham and Eggs.
- Heat Shaving Water.
