Look at the Sonora. The handsome "bulge" lines typical of the finest furniture are produced by patented methods and are exclusively Sonora's.

Study the Sonora. Examine the important details—the long running motor, the tone control, the automatic stop, sound box, duplex tube, envelope filing system, etc.

Hear the Sonora. It plays all types of disc records. The makers of the Sonora were the first in the world to manufacture a machine to play all these records perfectly. The wonderful beauty of this instrument will make clear to you why Sonora won highest score for tone at the Panama-Pacific Exposition.
