

Christine Miller, the noted concert contralto, singing in direct comparison with Mr. Edison's re-creation of her voice on the New Edison

MUSIC in the home; how wonderful are its many charms. Life without music—what a void it would seem.

Music is one of the big worth-while things that belongs to our very existence. It is one of the greatest influences brought to bear upon our daily lives. It makes life real; it makes life sweet. It inspires, it soothes; it helps to make this great, big, wonderful world of ours more wonderful every day—what home can be without it?

Music is an essential part of our lives, so let us have it as good as we can. Good music is a possession now within the reach of all.

The NEW EDISON

No Needles to Change — Plays All Makes of Records

Through the wonderful genius of the world's master inventor, Thomas A. Edison, it is now possible to have real music. Music true to the life from which it was re-created. Music alive with

the fleeting breath of reality — *Genuine Music*. Come today or tomorrow and hear Mr. Edison's latest re-creations at the nearest Edison dealer's shop—then judge for yourself.

The WILLIAM and MARY— Official Laboratory Model

The vogue of furniture in period design, especially that of the William and Mary period, has created a demand for the New Edison Official Laboratory Model in a cabinet to harmonize with the general scheme of decoration where this period design is being carried out.

The William and Mary cabinet shown here is manufactured exclusively in walnut and is now on sale at the shops of all Edison dealers. This model bears the same Official Laboratory Model hall-mark as the regular Chippendale Model.
