

A Wonderful New  
Pleasure  
for Your Home Life

### Music to Cheer the Heart

NEXT to food, fuel and raiment, Music is the great essential of war time—"times that try men's souls." Music, good music and lots of it, will do more to put faith and hope in the hearts and minds of our people than any other agency. If every family in this country heard good music every day in the year the morale of the nation would be well-nigh perfect, and its capacity to meet any situation enormously increased.

Music is the great, uplifting, soul-inspiring gift to humanity. What man will question that now, more than at any other period of our history, we need the soothing, heartening and splendid influence of this glorious "universal language."

The Ampico, that marvelous Reproducing Piano, will bring into your home the music of the world. Great pianists will play for you the works of master musicians, exactly as they are played on the concert stage. You will hear the lighter compositions of the day played with delightful feeling. You may dance to the catchy music of the latest metropolitan successes, played by pianists famous for the verve and rhythm of their dance music.

The pleasure of your family, the attractiveness of your home, will be increased to an almost unbelievable extent by the introduction of this wonderful invention into your home.

Let us show you what the Ampico can do. Delightful demonstration rooms on our main floor. We would welcome your critical opinion of its artistic perfection. Daily demonstrations.
