

By The House of KUPPENHEIMER

THINKING men realize as never before the practical economy which lies in real quality and the extreme advisability of buying clothes which have back of them the reputation for quality of an institution like the House of Kuppenheimer, with their well known high standards, and Brill Brothers' reputation for value and dependability. Kuppenheimer Spring Suits and Topcoats, \$25 to \$60.

Clean or Grimy? Wet or Dry?
Notice the Next Bottle You Take From Your Refrigerator

Why should it come out beaded with dirty moisture when it went in dry and clean? The moisture, and the grime with it, condenses from the air upon the bottle's cool surface.

Not much harm in that, perhaps, in the case of a bottle. But if impurities are condensing there they are condensing also upon the uncovered foods, where you don't see them. That is why your butter sometimes smells and tastes like onions, bananas or whatever has been near it.

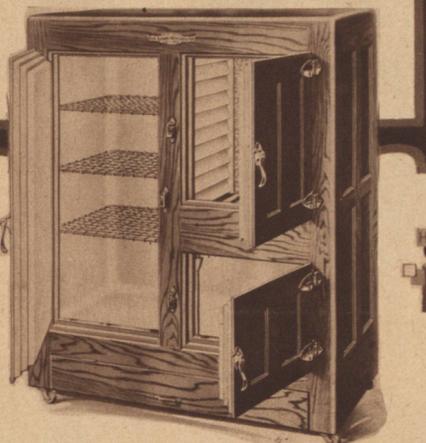

Bottles Stay Clean and Dry in a

BOHN SYPHON REFRIGERATOR

—and food flavors and odors do not mix. The Bohn Siphon system of rapid circulation is the reason. Come in and let us explain it and prove what we claim for it.

The round-cornered lining of fused porcelain-steel (one piece in all but the largest models); the 10-layer, heat-resisting walls; the front-draw; the fine fittings and hardware; the sturdiness of the general construction—these are Bohn features which will interest you. Bohn Siphon and other Bohn Refrigerators in many different sizes, at prices starting at \$19.00; if you cannot call, write for a catalog.
