

THE INSTRUMENT OF QUALITY

Sonora

CLEAR AS A BELL

Duncan Phyfe

IN the Period Designs Sonora has duplicated the masterpieces of the furniture makers of all times, and here is shown a charming example which is of American origin.

It must never be forgotten that in the Sonora, the cabinet of extraordinary merit is only one part of a wonderful phonograph which plays all disc records perfectly without extra attachments and with incomparable beauty.

Twelve standard upright models and these art styles are now ready:

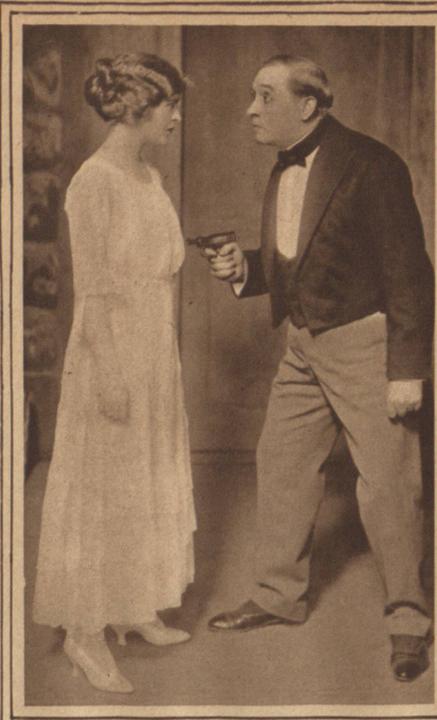

Gothic	Jacobean
Chippendale	William & Mary
Chinese Chippendale	Adam
Louis XV.	Colonial
Louis XVI.	Duncan Phyfe

Other models or complete equipments will be made to special order.

EQUIPMENT OF AMERICAN AVIATION

The New Premier Pathscope

This improved portable motion picture machine is "doing its bit" to win the war. "Movies" are the principal entertainment in Y. M. C. A., K. of C., Salvation Army, and all Camp Community Social service.

The NEW PREMIER PATHSCOPE is cheering convalescent soldiers in hospitals where projectors using ordinary celluloid films are barred because of fire risk.

Numerous Pathscope patrons have donated one or more Pathscopes to local Military Hospitals, Camps, or Community Houses for the entertainment of men and women in their country's service.

What better way to cheer the members of your favorite Military Unit or Auxiliary than by presenting them with a Pathscope so that they can have their own picture show?

More than ten thousand Pathscopes are in use throughout the world. The Canadian and British Camps and Hospitals have hundreds of them.

The N. Y. State Defense Council equipped 21 regiments.

Over two hundred thousand Public School children see Pathscope Educational Pictures every week through the equipment of only one hundred of the New York Public Schools. The other schools need and should have them.

Many now used and more needed by the Boy Scouts, Camp Fire Girls, Christian Endeavor Society, Epworth League, Social Settlement Workers, Parents' Associations, Industrial Welfare Societies, Orphan Asylums, Convalescent Homes, Sanitariums—everywhere that life can be made better worth living by the safe use of wholesome motion pictures.

The NEW PREMIER PATHSCOPE is so simple that anybody can operate it. So safe with its narrow-width, slow-burning film that it is the only projector approved by the Underwriters' Laboratories, Inc. for use anywhere.

No fireproof booth or licensed operator required.
 Weighs only 23 pounds; fits in a small suitcase or can be mounted on a handsome cabinet.

The Pathscope Film Library contains the world's best Dramas, Comedies, Animated Cartoons, Scientific, Travel, Educational, and War Pictures.

Over 1400 reels now available to Pathscope owners and more added weekly.

Whether you want it for your own individual or community use, or as a donation for the happiness of others, let us give you a demonstration without obligating yourself in the least.

Literature on request, if not convenient to call.

The limited production under present conditions suggests prompt action to avoid disappointment.
