ALBODON

The Dental Cream That never Hardens

An Ideal Dentifrice For All the Family

EVERY mother does her utmost for the welfare of her children. Not all, however, are awake to the importance of selecting the dentifrice as carefully as the food and clothes. Some dentifrices contain drugs; others heavy chemicals. Some are actually gritty enough to scratch glass! It is well to know what a dentifrice contains before giving it to a child.

ALBODON DENTAL CREAM is in no sense a secret formula. Dentists know it and they recommend it. It is possible to grow up with strong, white, healthy teeth, free from serious dental trouble, by the daily faithful use of this fine cream. Start them on it at the age of 3½, when the temporary teeth are in.

What makes ALBODON especially ideal for children is its high percentage of pure cleansing and polishing ingredients. These are combined with a delightful "smacky" flavor. Its uniform consistency prevents hardening in any weather. Its safe, antiseptic properties assure a sweet breath and sanitary, germ-free mouth. Yet ALBODON has no harmful grit, drugs or artificial coloring to injure the child's teeth.

What is good and safe for children is equally so for the grown members of a family.

BRUSH YOUR TEETH RIGHT

Most gum trouble is due to brushing the teeth the wrong way. Around every tube of Albodon that you buy is wrapped a booklet, written by a well-known dentist, explaining the right way and giving other valuable advice.

SEND FOR TRIAL TUBE

For 5c in coin or stamps we will send you a trial size tube of Albodon Dental Cream sufficient to last one person a week, so that all the family may have a chance to prove its merits to their personal satisfaction.
