ALBODON

If Teeth Were Always Kept Clean!

GEORGE WASHINGTON was toothless at 40. In his day teeth were expected to decay and be pulled. We know better now. Sensible people are faithful in their visits to the dentist and in their daily use of a reliable, safe dentifrice. Cautious parents are watchful of their children's teeth.

A clean tooth will not readily decay. Nor harbor germs or tartar and stain. Properly brushed gums will not recede or bleed or become spongy.

ALBODON DENTAL CREAM is the *safe-and-sane* family dentifrice. The purity and quantity of its cleansing and polishing ingredients keep the teeth at maximum whiteness and cleanliness. The essential oils and antiseptics keep the mouth sanitary and germ-free. Used daily from youth on there need be no serious dental trouble. The danger is in starting late.

People find ALBODON beneficial and pleasant. It never hardens in the tube no matter what the weather.

BRUSH YOUR TEETH RIGHT

Most gum trouble is due to brushing the teeth the wrong way. Around every tube of ALBODON that you buy is wrapped a booklet, written by a well-known dentist, explaining the right way and giving other valuable advice.
