

The "ole swimming hole," in terms of New York. The North and East rivers supply several of them, to which flock the small "Sknnyas" of the congested districts when the mercury begins to climb. *Press Illus.*

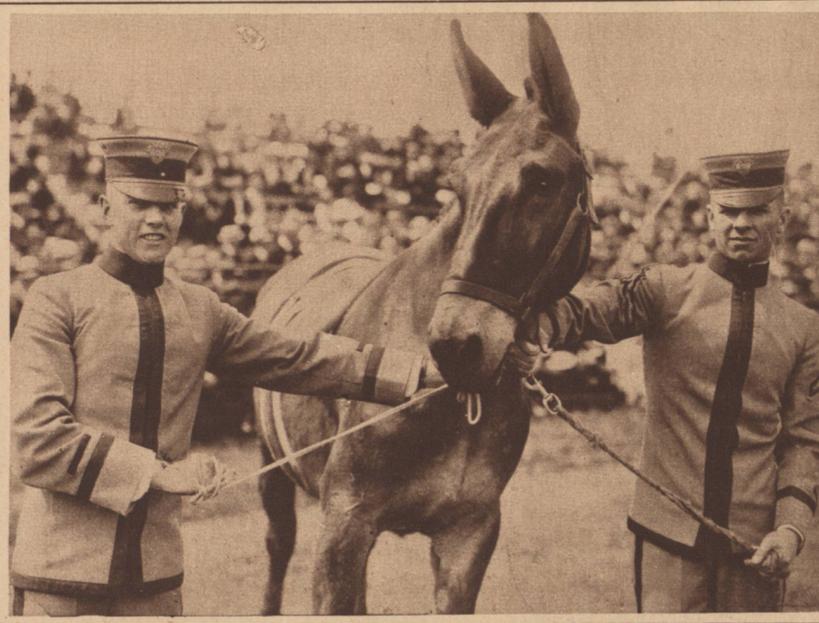

The editor of "The Pictorial Review" has every reason to be proud of his athletic daughter, for Ruth Vance is captain of Laselle Seminary's winning war canoe crew. *I. F. S.*

Right—The Hon. Josephus Daniels strikes a truly nautical pose at the wheel of one of Hog Island's latest, the good ship Schoodic. *Underwood*

The "Keep Off the Grass" signs of Central Park don't bother Spiro Rossoliano, famous Slav painter, and his attractive model, Miss Jessica Brown. If all of our artists follow Mr. Rossoliano's example and stake out hot weather studios in the park, managers of Broadway's summer shows are going to let out one long yell of "Unfair Competition!" *Press Illus.*

The army mule, mascot of the West Point cadets, was not in form the other day. With characteristic perversity she allowed the West Point nine to lose their recent annual baseball game to the embryo engineers from Annapolis 6 to 10 in the eleventh inning. *Underwood*

**The Eternal Question**  
of glove fashion was solved for me when I bought my first pair of Van Raalte Silk Gloves.  
"I'm sure of their style; sure of the splendid quality of their pure glove-silk, and sure that my hands look their best with every sort of costume.  
"It's a comfort, too, to know they're double-tipped for double wear, with a guarantee in every pair." For sale at all good stores.

### BOHN SYPHON REFRIGERATOR

- 1 The Bohn Syphon System keeps the cold, dry, pure air circulating rapidly, preventing mingling of odors and the settling of impurities upon the food. The drain is in front, instantly removable without disturbing the food, so it can be cleansed thoroughly every day. This means **HEALTH**.
- 2 Lowest temperature of any refrigerator ever built. Due to the Syphon System of rapid air circulation and to the scientific construction, with "Flaxinum" insulation in walls and doors. All dining cars (a severe test) use Bohn Syphons. This means **EFFICIENCY**.
- 3 Lining of genuine porcelain fused into steel (a single piece in all, but the very latest models). Look out for painted tin, "porcelain-enamel," etc. The corners of the Bohn lining are round—no place for food particles to lodge. This means **CLEANLINESS**.
- 4 The scientific construction of the Bohn Syphon, famous throughout the world, makes it a great ice saver. Think what this will mean this summer, with price of ice probably the highest ever known; then multiply your saving by the years you will use your Bohn Refrigerator. This means **ECONOMY**.

593—Chair lamp, 58 in. high, finished in cracked antique gold and polychrome. The shade, 42 in. in dia., is made of putty colored silk with old blue moss trimmings and a long putty colored silk fringe with old blue silk tassels.  
Sialie, \$45.00.  
Standard, \$40.00.  
plus tax, \$47.00.

544—A clever combination of the wagon and tea table, made of solid mahogany in an attractor design. The top tray of mahogany and glass, is removable, and the bottom tray gives ample carrying capacity. As a wagon, the top measures 17 in. wide x 27 in. long. As a table, the top measures 27 in. wide x 38 in. long. The price is \$35.00.

**FOR** homes whose appointments transcend the ordinary, Ovington's is a source of beauty and distinction. Here are hundreds of clever suggestions—all in pure taste—at prices which are surprisingly moderate. *Catalog on Request.*
