

## "No, They're Not New—I washed them in our — "EASY" Vacuum Electric WASHER"

It is bed-time—the first night of the season at their cozy summer home.

Following a strenuous day at the torrid city office, John has looked forward to a real night's rest fanned by the bracing sea breezes.

"But where are the blankets—you know we need them here?"

"I didn't forget," chirped Mary—"here they are."

"What! did you buy *new* ones?"

"No, indeed. These are the same ones we have had for the past three years.

"I did them up in our Easy Vacuum Electric Washer yesterday before we left the city.

"Aren't they nice and fluffy?—just as light and soft as ever. No wonder you thought they were new."

Not only will the Easy Vacuum Electric Washer wash your blankets immaculately clean and perfectly preserve the fine warm nap. In it you can trust baby's most delicate things. In it your daintiest laces, lingerie and linens are perfectly safe—and your heaviest bath mats, rag rugs and couch covers are not too much for it. All beautifully cleansed in a few minutes without fuss or bother or the slightest damage.

# "EASY" VACUUM ELECTRIC WASHER

Electrical Appliance Department

104 East 41st Street, New York

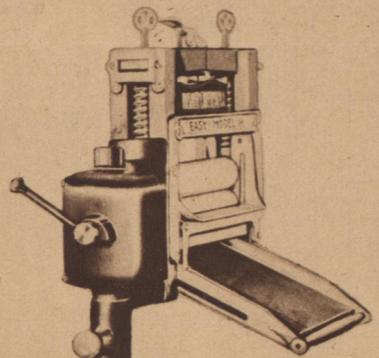

TELEPHONE: 6046 MURRAY HILL

Manufactured by SYRACUSE WASHER CORPORATION  
SYRACUSE, N.Y.

The Easy Vacuum Electric Washer does not *rub, drag, jerk or tumble* the clothes. It cleanses by a more scientific and efficient method—*Air Pressure and Suction*. Two vacuum cups moving up and down sixty times a minute force the hot, soapy water through the mesh of the garments, loosening and removing all of the dirt and foreign substance from them—with as much ease as water passes through a sieve—*cleaning without wearing*.

### Special Features

The machine is all metal. It moves on casters. All moving parts are under the tub. It occupies little more space than a tub. The tub holds ten sheets, and is smooth inside. The water is kept hot by a gas heater. There is a discharge valve to connect with a drain. The motor is of standard make (Robbins & Meyers or General Electric Company). Nothing to easily get out of order.

The "Easy" Washer received the highest award at the Panama-Pacific Exposition and has been thoroughly tested and approved by the New York Tribune and Good Housekeeping Institutes.
