

MADE A RECORD EASILY.

All Owing to a Friend's Manipulation of the Bicycle Cyclometer Adjustment.

Brooks came into the room with a glow of exultation on his face. He was trundling his bicycle.

"Rivers," he exclaimed, "this is the fastest wheel I ever rode! I went out for a spin this morning, and I give you my word I travelled fifteen miles an hour right along just as easily as I ever rode at half that speed on any other machine. It's a wonder."

"I'm talking in dead earnest. I'll make oath to every word I have said."

"Don't do it, Brooks. Don't do it. Take a look at that cyclometer yourself."

"I'm looking at it. It's all right. It stands now at 243 miles. I've ridden a mile since I came back from my run."

"That other knocker. You've got two of them—on opposite spokes. Every time the wheel makes a revolution it hits the star wheel twice, and at the end of your run the cyclometer indicates just twice the distance you have travelled."

"Without another word he grabbed his bicycle and trundled it out of the room."

November, with Election Day and Thanksgiving Day interruptions, was a great month for Journal "Wants." They gained 18,326—four times as many as any other newspaper.
