

WEEBROOKS
MRS. BADDLEY TAKES MEASURES TO STOP MR. BADDLEY'S DRINKING. SHE WIELDED A BOTTLE. SMASHED EVERYTHING IN THE PLACE AND EMPTIED OUT ALL THE LIQUOR.

Savannah, Ga., Nov. 20.—After repeated efforts to reform her drinking husband Mrs. Baddley, formerly of Summit, N. J., went to his saloon in Congress street, this morning, locked the door behind her and then proceeded to smash and empty out the bottles and other furnishings. She also emptied out the entire stock of liquors and when Baddley dropped around about daylight he found the place a total wreck. His wife was there.

"You will never again open a saloon on my money," exclaimed the woman in a loud voice. The reason given by Mrs. Baddley for her act is that her husband has squandered over \$3,000 of her money, which he invested in the saloon for the purpose of drinking, was letting the business go to rack in the hands of employees, and all efforts on his wife's part to reform him failed.

Mrs. Baddley became desperate and determined last night to put an end to her saloon investment if he failed to appear. She waited until midnight, the hour saloons are required to close, and as he did not come, she took her nine-months-old baby in her arms and started for the door. Before entering, however, she dropped in at the Burglar Alarm Company's office, notified the watchman of her intentions, and then proceeded to her saloon, locking the baby on a chair to one side. Lighting up the place, she grasped an empty bottle, and over her husband's head directed to her surroundings.

"I was married to Baddley at Summit, N. J., nineteen months ago, she said. "Before that I was a professional nurse in New York, and by economy saved the money he put into the saloon business. My only child will be married to-morrow and will go from there to Summit."

Baddley was landed in the police station charged with disorderly conduct and beating his wife. Not knowing of her intentions, she will probably be away before the day the wiser. He comes from an English family.

AT BROOKLYN PLAYHOUSES. Splendid Thanksgiving Offerings, Including Some Well-Known Stars.

Reminiscences of the recent war are plentiful in "The Golden Horseshoe," which the Lithuanians will present at the Amphion Theatre this week. In one scene there will be a series of living pictures, showing Dewey's victory at Manila, the sinking of the Merrimack, the smashing of Cervera's fleet, and the midguts will make up to look like Dewey, Holson, Shafter, Sampson and Schley.

One of the notable features of the present theatrical season is the strong competition which has sprung up among the minstrel companies, resulting in several unusually strong organizations. This week E. Haverly will appear at the Metropolitan and will make their first appearance at the popular Gayety Theatre. Mr. Haverly has entered management this season in the line in which he has the greatest success and has put together what he believes to be the strongest minstrel company in the country.

The farce comedy event of the season at the Grand Opera House will take place in the form of "The Merry Widow," a "High Born Lady." For a number of seasons they have been one of the most successful sketch teams on the vaudeville stage. Their latest production is "The Merry Widow," which they will make their bow before the public as stars in the legitimate field.

A change from combinations to what is termed a "house show" is to be made at the Metropolitan and the Gayety Theatre this week. The programme is a notably good one, for in it are Rose Eytling, with Maud Henshaw and Clement Baldwin; in the latter a direct play of the original flying ballet, the Sisters Meriberto, Josephine Gussman and her pikaninies, the Willett and Thomas Comedy Co., Harry Kane, Adley Casey, C. Stanley, the Morelo troupe, Snyder and Bostwick and Fred Brown.

An extra performance of "The Long Strike" will be given by J. H. Stoddard and the stock company at the Park Theatre to-night. To-morrow and for the remainder of the week the senior Gussman and his comedy drama, "The Wolves of New York," will be presented.

So the Tars of the Massachusetts Protest and Appeal to the Journal. A plaintive appeal for Thanksgiving turkey has reached the Journal office from some of the bluejackets on the battle ship Massachusetts.

"Dear sir," runs the appeal, "could you through the kindness of the Journal publish to the public how the mass of the U. S. S. Massachusetts is being starved? Thanksgiving turkey has to do. Each man must put in the sum of fifty cents, which will be refunded to him consequently, the turkey, horse and baked beans are damaged to us."

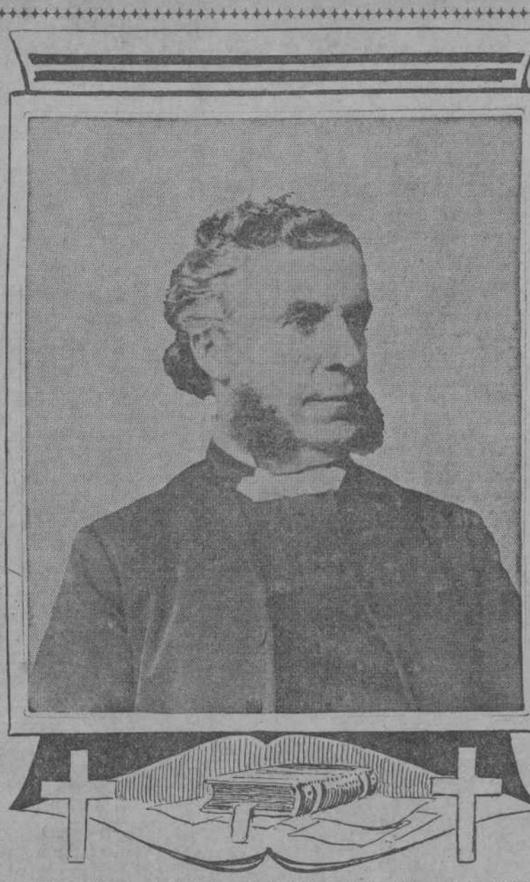

The spokesman of the once jolly tars of the battle ship says that the turkey, horse and baked beans are damaged to us. He says the profits of the ship's cauten ought to pay for more turkey than the bluestock ship's company in the world could consume.

To quote more from the appeal: "Will the first lot of the paymaster of said ship please let us know how much of the balance amount to \$18.00 or \$20.00 a day and besides that there are other things on the cauten which has a large profit on them not only the turkey, horse and baked beans but also the other things on the cauten of the ration allowed by the Government in cash after the balance of the turkey profits we find as near as we can get \$2.38 which from the way we put it we can see where it of No. 224 East Sixtieth street, under a balance sheet and put upon the bulletin board of the cauten, and show the funds go to."

For two years the Thanksgiving dinners have come out of the cauten unless the "First Luff" or the paymaster of the ship. They are given to the cauten and again until the Peace Commission at Paris gets through talking.

Bicyclist Breaks a Man's Skull. William Keating, of No. 201 Grand street, while crossing Madison avenue at Fifty-sixth street yesterday was struck by a bicycle ridden by James Ackerman (colored), of No. 224 East Sixtieth street, and thrown violently to the street. At Flower Hospital it was found that his skull was fractured. Ackerman was arrested.

The 22d in Free of Last. The Twenty-second Regiment will leave Fort Slocum to-morrow for the army in this city. They will be paid off there. The volunteers have been in garrison six months.

Dr. Ryland Preaches Farewell Sermon. The Rev. Joseph H. Ryland, D. D., who resigned the rectorship of St. Mark's Church, Tenth street and Second avenue, on Friday last, after having held that position for twenty-seven years, preached his farewell sermon in the church yesterday. His subject was the discrimination of some individuals in the reading of the Scriptures.

"Much discernment is required and but little given," said he, "and the intellectually weak are apt to cause much confusion in their reading of the Bible. We must be prepared for a good deal of nonsense when some men and women expound Biblical truths, for ignorance is often presumptuous, and some men appear to make possibilities out of the most prolixous nonsense. Many silly things are quoted as coming from the Bible, and the Mormons quote it in defence of polygamy. An ignorant fanatic can prove almost anything from the Bible, and many read it to their own damnation. They literally tear the Scriptures to shreds."

Dr. Ryland, after finishing his sermon, told the members of his congregation, whom he had served so long, how sorry he was to leave them, and then an impromptu reception was held.

SWAMP LIFE OFF THE ATLANTA. Only Three Desperate Sailors Saved from the British Wreck. CREW ON ONE MAST. All Went Down When the Hull Broke and the Rigging Gave Way.

Yaquina, Ore., Nov. 20.—It is now certain that twenty-three lives were lost in the wreck of the British ship Atlanta, in which Captain Charles McBride was racing from Tacoma to Cape Town. Three sailors only escaped. They were Francis McMahon, a native of Belfast, Ireland, aged eighteen; John Webber, of Yarrington, N. Y., and George Fraser, Philadelphia.

The lost are Captain Charles McBride, Hunter, first mate; N. C. Huston, second mate, all of Greenock, Scotland; David Stewart, of Liverpool; Aleck Buck, W. E. Croger, M. O. Pilkington, Joe Cassa, William, T. Lewis, Michael Gallagher, David Green, Jacobson, Pedro Gallagher, John Marks, John Smith, Hamilton, two cooks, the carpenter, the sailmaker, the second mate and one sailor, whose names are unknown.

According to the rescued sailors the Atlanta was running under full sail when suddenly the lookout rang out, "Eowekers ahead!" Almost at the same moment the ship struck with a tremendous crash. She arose again on the heavy ground swell, which forward struck again, was carried further by the wave, struck a third time and commenced settling at once. The crew took to the rigging and in half an hour the hull broke in two. The mainmast fell and this started the mizenmast in which nearly all the crew had taken refuge.

At this moment George Fraser, a sailor, plunged overboard, preferring to take his chances by swimming to being carried over by the tottering mizen mast. He and two others succeeded in catching hold of the main hatch and held on for a few minutes when the men on board shouted that the port lifeboat was near him. Fraser went to the boat after a desperate struggle and succeeded in climbing into it, his companions the carpenter, giving him three cheers. After helping McMahon and Webber into the boat they soon drifted on shore.

Both Died From Broken Skulls. But Hospital Physicians Thought This Man and Woman Were Merely Drunk. Two homeless persons—a man and a woman—who were discovered insensible from drink in different parts of the city Saturday and removed to hospitals, are now dead. In each instance death was due to a fractured skull. Their bodies will be removed to the Morgue to-day and probably both will be buried simultaneously in Potter's Field.

The man, John Ryan, thirty-three years old, was found asleep in the loft over the bakery, at No. 78 Aldrich street, Saturday afternoon. He was arrested for intoxication and slept soundly throughout the night in the Eldridge street station. He awoke early yesterday morning and complained of feeling ill. An ambulance was called and he was taken to the Gouverneur Hospital, where he died a few hours after his arrival. The doctors declared that his death was due to alcoholism. Coroner's Physician Dolan, however, found that he had died of a fracture of the skull.

Labor Men Are After Stump. The Central Labor Union yesterday instructed its secretary to write to T. V. Dowdell, Commissioner of Immigration, asking why he did not remove Herman Stump, who recently offended labor men.

STOCK TRADING AT HIGH LEVEL. Violent Effort to Shake Out Small Speculators Stayed by Good Bank Statement.

Trading in the stock market was again exceptionally heavy during the week. Transactions in bonds fell off from the remarkable total of the week previous, but prices were well maintained and the business far above the average. Sales aggregated \$27,374,450, as compared with \$39,946,030 the previous week, and \$7,302,000 for the corresponding week in 1892. Total sales of stocks were 3,320,458 shares against 2,709,354 for the five days last week and 970,465 shares in the same week of last year. Outside business such as is transacted "on curb" in unlisted securities was reported to be extremely large and in mining shares a renewed interest in the market was indicated by a broadening out in all fields of speculation.

With the increase in business there was a corresponding rise in prices. It is true that the advance which followed the elections was checked several times by extensive liquidation, but the absorbing power of the market was such that conditions could exist under bullish conditions. Public buying through commission houses was urgent, really providing the bulk of the market. That many of the manipulators found cash profits along was demonstrated by the sales in closing days of the week. The attack was only partially successful, one reason being that the Pacific coast average public trader has greater cash resources than during recent years and is able to respond more promptly to calls for margins.

The violent shaking which the speculative trade received on Friday and Saturday did not bring down many prices. The attempt to "rig" the market was obvious. No one, however, supposes that the community interests which control the Pacific coast permit one road in this system of lines to embark in a serious fight against the others. This is what the public believe. The difference of opinion long known to exist between the Northern Pacific and the Oregon Railway and Navigation Company, rumor says that the interests most interested in circulating the report have been short of Northern Pacific stock and an apparent fight would probably enable them to get the price low enough to buy the Oregon Railway and Navigation is owned jointly by the Great Northern, Union Pacific and Northern Pacific, all of which are practically controlled by numerous banking interests.

As another means to an end speculators are credited with Friday and Saturday did not exist had been open up and that a merry war in the cordage trade was in the air. This is what the public believe. The difference of opinion long known to exist between the Northern Pacific and the Oregon Railway and Navigation Company, rumor says that the interests most interested in circulating the report have been short of Northern Pacific stock and an apparent fight would probably enable them to get the price low enough to buy the Oregon Railway and Navigation is owned jointly by the Great Northern, Union Pacific and Northern Pacific, all of which are practically controlled by numerous banking interests.
