

THATCHER FRIGHTENED BY ROBERTS'S DISGRACE.

His Four Living Wives Cause Him to Decline the Utah Senatorship.

SUFFERS FOR THE CAUSE.

Adding Mora Fuel to the Flame of Public Sentiment Cannot Help Mormonism, He Thinks.

Salt Lake City, Utah, Feb. 25.—Moses Thatcher, a Mormon, high in ecclesiastical circles in Utah, has declined the United States Senatorship of Utah.

A written offer of the honor was made to Mr. Thatcher by thirty-two of the sixty-three members of the Legislature. The hurried meeting of the request received by the gentleman to enter the Senatorial fight was that the thirty-two signers would all vote for him, which, of course, guaranteed his election.

To decline an offer so seldom made is a distinction in which Mr. Thatcher reveals almost if not entirely himself. To the outside world the whole transaction is a mystery.

Only two years ago Mr. Thatcher was a candidate for this office. At that time he was most anxious to go to the Senate. He was defeated after a long and bitter struggle. Attorney J. L. Rawlins, the candidate of the Mormon Church, has since represented the "Saints" in the United States Senate.

For daring to nurse such an ambition without first consulting his ecclesiastical superiors, Apostle Thatcher was subjected to the ignominy of being expelled from the Apostolate. After much weeping and praying and having been boycotted by order of the Church, the dejected Apostle decided to beg pardon for disobeying. He promised to be good, and although he has never been restored to his Apostleship he returned to full fellowship in the Church.

Desires to Punish Cannon.
A Mormon Legislature, with the full consent of the powers behind, now offers him the Senatorship that it desires to take away from Frank J. Cannon. The erstwhile honest statesman, who was elected to the Utah Legislature in 1897, is now a Mormon.

"Existing conditions prevent my acceptance of the honor,"

So said the former aspirant for a Senatorial seat.

"I must stay out of this fight for Utah's sake."

Continuing his speech declining the honor, Mr. Thatcher referred to the unfortunate conditions that obtain in the State as a result of the election of polygamous B. H. Roberts to Congress. He asks:

"Should we do anything to add more fuel to the rising flame of public sentiment?"

Mr. Thatcher is quite right in supposing that his election at this time would be attended with such a result. That by it fuel would be added to the rising flame, and Congressmen Roberts, with three wives and eighteen-month twins, would have to retire in favor of a Senator with four wives, two of whom have infants less than one month old.

Mr. Thatcher's own acknowledgment that he and Mr. Roberts are in the same boat is entirely unnecessary. Three of Mr. Thatcher's wives live in Salt Lake and all in the same neighborhood. The legal wife is an old woman with a grown family. The other two are younger women, and at the present time both are denied to visitors who call at the Thatcher home. In the Thatcher's neighborhood that two nurses were engaged at the same time, and that Dr. Margaret C. Roberts, pupil No. 1 of the Congressman, presided at one of the recent functions.

Roberts Case is a Lesson.
Warren Foster, Roberts's political opponent, comments on the Thatcher matter thus:

"Mr. Thatcher has undoubtedly profited by the experience of Mr. Roberts and does not care to invite a similar storm upon his own head. But Moses Thatcher is one of the best men in Utah. He is more of a man. He displayed a firmness that is not of the common variety. Had Mr. Roberts been elected, the result would have been a different one. We have always liked Moses Thatcher, and we have always been disposed to magnify his virtues and to minimize his mistakes. We have criticized his actions rather severely, but it has always been more in sorrow than in anger. We have always looked upon him as being a creature of what we consider a peralicious system, and ill-fated circumstances; and yet while we could not do otherwise, we have always posed his adding more fuel to the rising flame. We must say that we regret that this is the case. Conditions and facts cannot be changed. Mr. Thatcher must abide the results. It was a brilliant honor that was thrust upon him by his friends, but he made it all the more brilliant when he declined it."

"PLURAL WIDOW" WELLS SAYS ROBERTS IS RIGHT.

She Opposed Him Politically, but Declares the Would-be Congressman is Not a Lawbreaker.

Mrs. Emeline Wells, "a plural widow," Mormon editor of the "Woman's Exponent," of Salt Lake, State regent of the Daughters of the American Revolution, of Utah, and a leading Republican politician of that State, is stopping in this city at the Hotel Bayard.

There is nothing suggestive of the politician about Mrs. Wells, yet she has been a bitter political opponent of Roberts and polled 8,000 votes when she ran for State Senator.

"I do not believe that Roberts is breaking the law," she said yesterday, "and I have no good reason for bringing up the Mormon question against him. I opposed Roberts with all the influence I could bring to bear because of his political party and attitude toward the State. I am a positive woman suffragist, and he opposed it in the convention called to frame and the Constitution of the State. Of course, he finally accepted it and wanted women to vote for him. I under-

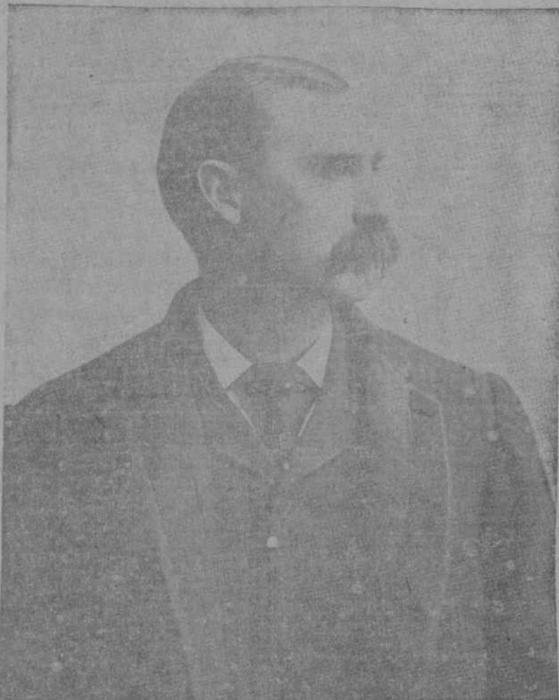

stand that he now promises not to oppose women's suffrage.

"Polygamy is a word I never use," continued Mrs. Wells. Then she wrote on a scrap of paper "plural marriage."

"There, that is how I express myself on that subject," she said.

"The men who married their wives under the old law," she continued, "did so in good faith, and as men cannot abandon them now they should and do take care of them."

Mrs. Wells was one of the six wives of Bishop Wells. Mrs. Wells is also the

Moses Thatcher, who declined to be Senator.

A Mormon, high in ecclesiastical circles in Utah, who refuses office because he does not want to add fuel to the flames of sentiment against polygamy.

Shipping Clerk Accused of Theft.
Morris Bachrach, who for a year past has been employed as a shipping clerk by Zerner Brothers, clothing, at No. 224 Broadway, was arrested in the Centre Street Police Court yesterday, charged with having systematically robbed his employers of goods worth \$3,000. Magistrate Kindlich held him for trial in \$2,000 bail.

Miss Decker Must Explain to the Good Ground, L. I., School Commissioner.

Good Ground, L. I., is trying its best to determine whether sixteen-year-old Joseph Squires made love to twenty-five-year-old Miss E. Manie Decker, his teacher, or whether Miss Decker made love to him. It will be recalled that young Squires shocked Good Ground in the latter part of January by drinking a large quantity of laudanum in the village school, toppling out of his bench upon the floor to the great astonishment of his fellow-pupils. He took too much. He recovered.

The motive for the attempt was a great mystery to the parents and friends of the boy until Miss Decker came forward and confessed, notwithstanding her great embarrassment, that she thought the boy had been moved to seek his death for love of her. He had, she said, asked her to marry him.

Well, this gave Good Ground enough to talk about for a week. The gossip was about dying out when the father of young Squires, Norman Le Squires, came forward with the statement that the thing was the other way around; that as a matter of fact, it was Miss Decker who first stole the young man's heart away and drove him into fatal melancholy. Furthermore, the elder Squires has formulated charges against the young woman, and she will be placed on trial before School Commissioner Howell, of Riverhead. She may lose her teacher's credentials.

The elder Squires says that he has been making investigations on his own account for some time, and that he knows what he is talking about. He tells how his son spoke of the kindness of Miss Decker, who had volunteered to help him in his duties, inviting him to call and see her evenings. He felt happy that his boy should receive such excellent tutelage, and his suspicions were never aroused until Master Joseph began to come home at 11 and 11:30 o'clock at night. Squires says that he resolved to take action in the matter when his son one night, or morning, rather, came home about 1 o'clock.

The astute parent spoke to an elderly friend who boarded in the same home with Miss Decker. This cautious and faithful friend secured a room next to the one occupied by Miss Decker, and looked through the keyhole in the partition. By this method he was enabled to report to the young man's parent.

Mr. Squires's spy reported to him that the instruction given by Miss Decker to the young man was of a desultory nature. Miss Decker denies indignantly that she is anything more than the unfortunate subject of an uneducated child, and has engaged Lawyer Timothy M. Griffin to defend her before the inquiry, which takes place to-morrow.

DID TEACHER OR PUPIL MAKE LOVE?

Miss Decker Must Explain to the Good Ground, L. I., School Commissioner.

SNOV SHOVELLERS STILL MUST WAIT.

Two Reforms Adopted, but the Men Stand for Hours Awaiting Their Pay.

At two pay stations, one far over on East Eighteenth street, between Avenue B and C, and the other on Avenue C, near Seventeenth street, long lines of snow shovellers waited yesterday for their money.

The establishment of the second station was due to the exposure by the Journal of the intolerable delay to which the men were subjected in getting their pay. In consequence of the Journal's revelations, Contractor Dunn also began paying on six days of the week instead of on three days, as formerly.

But even with these reforms, and even with the great decrease in the number of snow shovellers now employed—there being but 2,000 yesterday instead of 4,000, while to-day the number will be still further decreased—the delays at the pay windows were still intolerable.

Men waited in line yesterday from before 6 o'clock till noon, although the paying began before 9 o'clock. Men who joined the waiting line at 7:30 o'clock only reached the window at 2 in the afternoon.

On other days, when there were more men to be paid, speculators kept the lines thinned by paying the weary men 90 cents or \$1.00 or even less for each \$1.25 voucher. These men have been frightened away by the exposure of these methods, while such a still attempt to follow their business of greed has been arrested by policemen as soon as noticed.

The men claim that the delay is entirely the fault of the complicated system, and that no remedy will be found till the system is changed.

A man is given a pasteboard check when he goes to work. At night that check, with its blanks filled in by the foreman, is exchanged for another check, usually filled in. A stub must also be filled in, and then entries are placed in columns in the contractor's books.

When a man presents his checks for payment, each day's checks must go through a careful comparison with the office records, and not until then is the money paid. By actual count yesterday afternoon less than fifty men an hour were being paid at both windows combined. Fully half the men, too, had a portion of their tickets for each window, and, after finishing at one, had to wait in line at the other. That the weather was good, and that one of the lanes was allowed to stand in a barn were all that made the situation bearable.

Unless some simple system is adopted and more pay stations established, and in localities that are more reachable, there will be as much suffering and delay as ever as soon as the next snow fall comes.

SNOV SHOVELLERS STILL MUST WAIT.

Two Reforms Adopted, but the Men Stand for Hours Awaiting Their Pay.

DOCTOR COPELAND GIVES NOTICE REGARDING THE LOW FEES.

They Only Apply to Patients Commencing or Renewing Treatment Before April 1st.

Only Such Will Be Treated Until Cured at the Low Fees Which Have Been for So Long Sustained—Raising the Fees the Only Practical Way of Relieving the Strain Upon the Offices Caused by the Influx of Patients Seeking the Benefits to Be Derived from the Newest Copeland Treatment.

For a number of years Doctor Copeland and his associates in practice have given the people the benefit of the new and wonderful treatment that has thrived the world with its record of cures. It also means that any who have been for a long time contemplating taking treatment may have the advantage of the low fees, providing their treatment is commenced before April 1. This is the notice.

The low fees which have been given during the Copeland practice in New York will only apply to those beginning or renewing treatment during this month. The books will be closed April 1. Only those patients applying for or renewing treatment before that date will be entitled to the low fees. All those, however, beginning or renewing treatment before that date will, as is manifestly just, be entitled to these fees until cured. This notice is final. It applies to all old and new patients and all diseases. It is limited only in time.

In doing this Doctor Copeland feels it just and courteous to give adequate notice to the thousands of patients who have during past years been treated at his office at low fees, to give adequate notice that every patient who has ever been treated at the office will be taken and treated under the new methods which have awakened the attention of the scientific world at the fee originally paid, providing they renew before April 1. This means that every patient who has taken treatment and stopped

WHAT CATARRH MEANS.
Catarrh left uncured sooner or later causes the death of every one it attacks. Some it only takes days to kill; others it takes weeks and others it takes years, but finally it destroys the life of every one in whom it is left to run its course.

Catarrh of the Head rarely kills, but bear in mind that uncured Catarrh of the Head passes to the Throat and thence to the Bronchial Tubes and Lungs. Catarrh weakens the system, and the one with a weakened system is subject to the Inroads of every disease. The bodies of those weakened by Catarrh follow the development of Pneumonia, Pleurisy, Bronchitis, Typhoid Fever, Scrofula, Diphtheria and Consumption.

Catarrh destroys the lives of children by weakening their systems, by making sore places along the mucous membrane by which the germs of Pneumonia, Diphtheria and Scarlet Fever gain entrance.

Catarrh destroys the lives of the aged by sapping their vitality by means of Bronchial coughs and expectoration. In this condition Pneumonia comes and kills or Catarrhal Consumption is developed.

The character of Catarrh, its location and the severity of its attacks depend very largely on the vitality of the one that is attacked. All Catarrh sufferers are not constituted alike. Some are weaker than others and the weakest persons suffer from the most severe forms of the disease. The most severe forms of Catarrh show their presence by attacking the Bronchial Tubes and Lung Structures.

GIVEN BY DOCTOR COPELAND.
Symptoms Most Frequently Presented by Catarrh Sufferers.

Great numbers of people suffer from the malign poisons of catarrh, as from other subtle chronic maldies, without any correct or definite idea of the nature of their affliction. The following symptoms have been carefully arranged by Doctor Copeland to enable many sufferers to understand just what it is that ails them. Many diseases, known under various specific names, are really of catarrhal origin and nature. Every part of the mucous membrane, the nose, throat, eyes, ears, head, lungs, stomach, liver, bowels, kidneys and bladder are subject to disease and blight by catarrh. The proper course for sufferers is this: Read these symptoms carefully over, mark those that apply to your case and bring this with you to Doctor Copeland. If you live away from the city, send them by mail and ask for mail treatment. In either instance, and whether by mail or office treatment, the patient may be assured of the speediest relief and cure possible to enlightened medicine.

Catarrh of the Head and Throat.
The most prevalent form of catarrh and results from neglected colds.

Is the breath foul?
Is the voice hoarse?
Do you spit up mucus?
Do you ache all over?
Do you blow out scabs?
Is the nose stopped up?
Do you sneeze at night?
Does your nose discharge?
Does the nose bleed easily?
Is there itching in the throat?
Do cramps form in the nose?
Is the nose sore and tender?
Do you sneeze a great deal?
Is the nose toward evening?
Does the nose itch and burn?
Is there pain in front of head?
Do you have sore eyes?
Is there pain in back of head?
Do you wear spectacles?
Do you have to clear the throat?
Is there a drooping in the throat?
Is the throat dry in the morning?
Are you losing your voice of voice?
Do you sleep with the mouth open?
Does your nose stop up towards night?

Catarrh of the Stomach.
Catarrh of the stomach is usually caused by swallowing poisonous mucus, which drops down from the throat and head at night.

Is there nausea?
Are you constive?
Is there vomiting?
Do you belch up gas?
Are you light-headed?
Is your tongue coated?
Have you water brash?
Do you have acid spits?
Is there pain after eating?
Are you nervous and weak?
Do you have sick headaches?
Do you faint on after eating?
Is there disgust for breakfast?
Have you distress after eating?
Is your throat filled with slime?
Do you at times have diarrhoea?
Is there rust of blood in the stool?
Is there constant bad taste in mouth?
Do you feel as if you had lead in stomach?
When stomach is empty do you feel faint?
Do you belch up material that burns throat?
When stomach is full do you feel oppressed?

Catarrh of the Kidneys.
Catarrh of the kidneys results in two ways: First by talking cold; second by overworking the kidneys in separating from the blood the poisons that have been absorbed from catarrh, which affects all organs.

Do your hands and feet swell?
Is there more uric acid in the morning?
Are they cold and clammy?
Is there pain in small of back?
Is the urine dark and cloudy?
Does a deposit form when left standing?
Is there a desire to get up at night?
Do you see spots floating before the eyes?
Are the eyes dull and stinging?
Is there a bad taste in the mouth?
Have you pain in top of head?
Is your hair getting gray?
Is so, is it silvery white?
Is the skin dry and harsh?
Is the hair dry and brittle?
Is there nausea after eating?
Has the prostration a bad odor?
Is there uric acid under the eyes?
Are there dark rings around the eyes?
Is the skin pale and dry?
Do you have a waxy look?
Do you see unpleasant things while asleep?
Do you feel itching over the back?
Do the joints pain and ache?
Do the legs feel too heavy?

Catarrh of the Bronchial Tubes.
When catarrh of the head and throat is left unchecked it extends down the windpipe into the bronchial tubes and after awhile attacks the lungs.

Have you a cough?
Are you losing flesh?
Do you cough at night?

Cross-roads' Logic: "WHEN IN DOUBT FOLLOW THE MAIN TRAVELED ROAD."

THAT is what the farmer said when he was directing a stranger on his journey. "When you come to the cross-roads keep to the main traveled way." There's a sound logic in that advice which those who are starting out in search of health might well heed. "Stick to the main traveled road and you'll come out all right."

Many hundreds of thousands of people have marked a path for you to follow. It has led them to health. This path which they have trodden leads to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., where Dr. Pierce, the chief consulting physician, and his staff numbering nearly a score of experienced and skilled specialists, are every day engaged in the treatment and cure of chronic diseases. Much of the treatment is by correspondence. Any sick person is invited to consult Dr. R. V. Pierce by letter absolutely free of charge and under the promise of absolute privacy.

There is hope for everyone who begins the use of Dr. Pierce's treatment. Out of the many thousands treated, ninety-eight per cent. have been absolutely cured by Dr. Pierce and his staff of physicians. A great number of these were the "hopeless" cases for which the home doctor said nothing could be done. People with weak lungs, obstinate cough, bronchitis, and other forms of disease which if neglected, or badly treated lead on to consumption, have been positively cured through the advice of Dr. Pierce and his staff of skilled specialists, and the use of that marvelous medicine, Dr. Pierce's Golden Medical Discovery.

Sarah E. Taylor, of Eureka, Greenwood Co., Kansas, writes: "I wish to say to you for the benefit of suffering humanity, I had been a sufferer for fifteen years nearly all the time; and in August, 1896, was taken with severe cramping pain in my stomach. The doctor here said it was due to gall stones. He relieved me for a short time, and then there was a hard lump about the size of a goose egg formed in my right side. It became so sore I could scarcely walk about the house, and I had no appetite. I consulted two of the best doctors in town and they said medicine would do me no good. I gave up all hope of ever getting well again. One day I thought I would write to you telling you of my condition. You told me I had enlargement of one of the lobes of my liver and the gall bladder, and advised me to take your 'Golden Medical Discovery' and 'Pleasant Pellets,' which I did according to directions. I had not taken more than half a bottle when I began to feel better, and my appetite came back. Now it is a little over a year since I began to do my own work. I have taken seven bottles of Dr. Pierce's Golden Medical Discovery and seven vials of the 'Pellets,' and am stronger than I have been for five years."

"I was taken sick in July, last year, and was not able to do any kind of work until November," writes Mr. Noel W. Orvin, of Langley, Aiken Co., S. C. "Had been coughing up small, hard lumps of phlegm for about a year before I was taken down; I then called on a doctor who attended me for two months, and said that one-half of my left lung was gone, and advised me to leave my home (Charleston, S. C.), and go to the country, but did not say what sort of disease I had. I thought it was consumption, and wrote to you for advice. I took four bottles of Dr. Pierce's Golden Medical Discovery, which I sincerely believe has done me more good than all the other medicines I have ever taken."

Do not hesitate or delay if afflicted with any old, chronic, or obstinate disease. Write to Dr. R. V. Pierce, Buffalo, N. Y., and tell him your story. It will be treated as a sacred confidence, and you will promptly receive in reply an experienced physician's advice and fatherly counsel, which will put you in the way of health, if your case be a curable one.

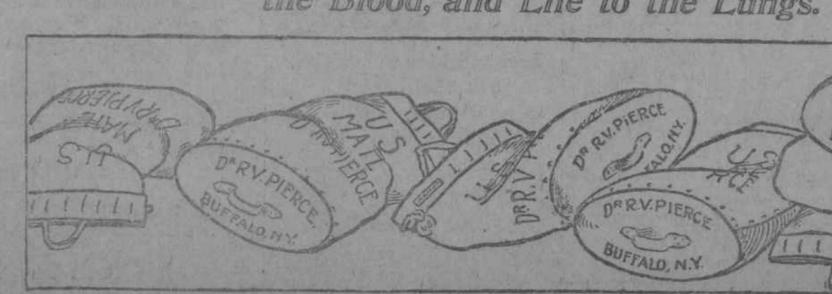

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY
Gives Strength to the Stomach, Purity to the Blood, and Life to the Lungs.

EMPIRE PAINLESS DENTISTS,
364 6TH AVE., N. Y. C.

TEETH POSITIVELY EXTRACTED WITHOUT PAIN BY OUR NEW MEDICAL DISCOVERY. APPLIED BY THE LUMES. \$1 Per Set. Guaranteed.

We Now Make Teeth by Machinery.

To perfect and further demonstrate our wonderful discovery, we will make a full course of full length of our teeth by machinery for \$1.00, including our special painless extractions free. POSITIVELY NO PAIN ASKED FOR WORK. INFORMATION AND CONSULTATION FREE. Ladies in Attendance. Tel. 224 and 214. OPEN SUNDAYS AND HOLIDAYS.

DOCTOR COPELAND GIVES NOTICE REGARDING THE LOW FEES.

They Only Apply to Patients Commencing or Renewing Treatment Before April 1st.
