

VILE AND VIOLENT TALK AT STANDARD HEARING.

ARCHBOLD, LAWYER BENNETT, ATTORNEY-GEN. MONNETT, LAWYER FLAGG, A. D. BRINSMADE.

ONE OF THE STORMY SCENES AT YESTERDAY'S STANDARD OIL HEARING.

Rockefeller's Witness Proved Himself a Master in Billingsgate. BLANK, BLANK, BLANK LIAR John D. Archbold, the Millionaire Oil Man, Grossly Insults District-Attorney Monnett's Associate. HE DODGES EVERY QUESTION. When Pressed He Takes Refuge in Those Epithets and Manners That Generally Beautify a Bar-room Row.

Rockefeller's witness, John D. Archbold, was examined yesterday at the Hoffman House and resulted in the display of such violence and the use of such language on the witness's part as are usually supposed to be the concomitants of a barroom brawl.

Mr. Archbold, the Ohio master in charge of the hearing. Mr. Monnett asked the witness some questions about the surplus, which he could not answer. He was not as good natured as at the session on Friday, and jerked out his answers in a way that made it very apparent that he was there for the purpose of telling just as little as he could.

elbow, whispered something to his associate. Mr. Archbold Did Not Expose. "Now you shut up," said Archbold, shaking his finger at Flagg, "and don't you say another word, or I'll expose you right here." Mr. Flagg's face turned from crimson to white in an instant. "Do it, and do it right here, if you have anything to expose," he shouted. But Mr. Archbold didn't do any exposing. He simply growled, "You are a low-lived whelp." "Who could be more of a whelp than a Standard Oil magnate," shouted Flagg, his face twitching. "I would be ashamed to be seen walking on the street with you. You think because you are a millionaire you can bully everyone, but you are mistaken, and you will find out before this is over. Men like you have only one recourse, and that is to shout 'blackmail.' I defy you to bring one such charge against me. You are a coward."

Mr. Flagg sprang from his chair, walked up and down the room biting his mustache. Every one present expected that a blow would be struck the next minute. The strain was too great even for the Standard's counsel who, just in time, called on the master to maintain order. He did so and told the official stenographer to strike out everything that had passed between the witness and Mr. Flagg.

POPE TO HAVE A VOLUME OF NEWSPAPER CLIPPINGS.

Comments of Foreign Press on His Illness to Be Bound for His Use. Rome, March 18.—A committee consisting of the Pope's Chamberlains and other Papal functionaries has issued an appeal to the foreign press to send the committee copies of all newspapers which have published anything respecting the Pope's recent illness, the appeal adding that it is "intended to incorporate them into a volume which will be presented to His Holiness."

HONORS FOR LATE BARON HERSHELL

Funeral Services to Be Held in Westminster Abbey.

LONDON, March 18.—The arrangements for the reception of the remains of the late Baron Herschell at Portsmouth and for the ceremony at Westminster Abbey are now completed.

The British cruiser Talbot, which is bringing the remains from New York, will lie at Spithead during Sunday night and will enter Portsmouth Harbor on Monday morning. The body will be landed at the dock yard at noon, with full naval and military honors, and will be received by the widow's brother, Captain Kinderley. The coffin will then be conveyed to a mortuary car and will arrive in London the same evening. It will then be taken to the Herschell residence, in Grosvenor Gardens.

On Tuesday morning the body will be taken to Westminster Abbey, where it will be met by the Dean, clergy and the choir. Lord Churchill will represent the Queen, and representatives of the Prince of Wales and Duke of York will also be present. The pall-bearers will be the United States Ambassador, Mr. Joseph B. Choate; the Government leader in the House of Commons, Mr. A. J. Balfour; the Speaker of the House of Commons, the Right Hon. William Court Gully; the High Commissioner of Canada, Baron Strickland; and the Mount Royal; the Liberal leader in the House of Lords, the Earl of Kimberley; the Vice-Chancellor of the University of London, Sir Henry Enfield Roscoe; the Lord High Chancellor, Earl Halsbury, and the Chancellor of the Duchy of Lancaster, Baron James of Hereford.

A BIT OF OLD ERIN COMING.

The Donnybrook Fair at the Lenox Lyceum Will Gladden Many a Heart.

The Donnybrook Fair, at the Lenox Lyceum April 15 to 22, will present a varied array of entertaining features—hilarious merry-making and enjoyable sports in connection with attractive exhibition booths of leading mercantile establishments in different lines of trade and industry. Direct importations from the Emerald Isle are being made of shamrocks, chips of Blarney Stone, blackthorn, shillelaghs, and other native products, and no expense is being spared in the management to make the Donnybrook Fair complete and attractive to every nationality. The original Donnybrook Fair of Old Erin was suppressed in the year 1855 by the British, and the loss of this annual opportunity for the lads and lassies of the Emerald Isle to enjoy themselves was one of the petty oppressions that have been settled upon the noble, sturdy Irish race. The revival of this fair at the Lenox Lyceum will be complete in every detail. The programme of sports and pastimes includes sharp-shooting, climbing the greased pole, greasy pig races, blackthorn, shillelagh, pig-wrestling, putting the stone, grinning through the horse-collar, shillelagh encounters, reel dancing, fiddlers and pipes, corn-law singing and other interesting features. An old jaunting car and donkey, a full band of music, and a full company of old folk dressed in the characteristic peasant costumes of Old Erin will also add to the interest of the Donnybrook Fair.

GOVERNOR ATKINSON

Of National Fame, Pronounces Pe-ru-na an Excellent Catarrh Remedy.

MORE EVIDENCE THAT EVERY HOME NEEDS THIS REMEDY.

Half the Nation Suffers from Catarrh.

GOVERNOR G. W. ATKINSON, OF WEST VIRGINIA. Charleston, W. Va., March 9, 1898.

Pe-ru-na Drug Mfg. Co., Columbus, Ohio: Gentlemen—I can recommend your preparation, Pe-ru-na, as a tonic. Its reputation as a cure for catarrh is excellent, it having been used by a number of people known to me with the very best results. Very truly, G. W. Atkinson.

Fully fifty per cent of the people of the United States are suffering from catarrh in some degree or phase. There is scarcely a home in the land entirely free from this disease. One or more members of every household either has catarrh or some other ailment directly dependent upon catarrh. Catarrh is rapidly becoming a national scourge. Its existence in the system complicates and intensifies any ailment a person may happen to have. With these alarming facts comes the encouraging news that Pe-ru-na cures catarrh. Cures it permanently; cures it by eradicating it entirely from the system. Pe-ru-na is an internal systemic remedy, reaching the disease at its fountain head. It cures catarrh of the head, lungs, stomach, liver, kidneys, or catarrh of any other organ of the body.

Mr. F. A. Dixon, 310 East Tenth street, Kansas City, Mo., editor Missouri Department "Sprig of Myrtle," in a recent letter to Dr. Hartman, says: "Permit me to express to you my appreciation of the benefits I have derived from using Pe-ru-na in my family."

"Being a man of limited means, I have had to be careful not to spend any more money than was necessary on doctor bills. Some two years ago I began using Pe-ru-na in my family as a family doctor, and I have been highly pleased with the result. My wife has used it for catarrh and experienced great relief. My little girl has been sick a number of times, and when we used your medicine it proved a success. I have used it myself several times and consider it a very valuable medicine."

"Speaking from personal observation, I consider it a good investment to keep it in my home, and believe every man who desires to relieve suffering, and at the same time save money, should investigate the real merits of your Pe-ru-na and other medicines."

Mr. O. P. Perry, of Atchison, Kan., says: "I wrote you some time ago telling you that Pe-ru-na had completely cured the bronchitis with which I had been afflicted for some time. A short time after I ceased taking the Pe-ru-na I had a slight attack of the bronchial cough. I immediately took one bottle of Pe-ru-na, which stopped it. After that I took a gripper, which I had four successive winters. Although I had cough with it, I had not a symptom of the bronchial cough which had always troubled me before. I heartily recommend Pe-ru-na as a cure for bronchitis."

Mrs. Mary Fritz, Borwick, Mo., says: "I was a victim of consumption, and there is no doubt whatever that it was a genuine case of consumption of the lungs. I had hemorrhages from the lungs for six months. I paid the doctors \$450, and then they told me that I was incurable. I had no more hemorrhages and I am as well now as I ever was in my life. I thankfully attribute my present good health, and, in fact, my living at all, to the good effect of Pe-ru-na."

Address The Pe-ru-na Drug Manufacturing Company, Columbus, Ohio, for free catarrh book.

Mrs. Eliza Heinze, 106 East Main street, Columbus, Ohio, says: "About a year ago I contracted a violent cold, which settled on my lungs, and for four months I ran down rapidly, coughing up quantities of bloody mucus, and frequently hemorrhages from the lungs. I was on the verge of the grave. My husband and friends had given me up. Some one, however, who had tried Pe-ru-na, advised me to use it. As a last hope I bought a bottle, and finding immediate relief from its use, continued taking it. My cough left me, and I had no more hemorrhages and I am as well now as I ever was in my life. I thankfully attribute my present good health, and, in fact, my living at all, to the good effect of Pe-ru-na."

"Ignorance of the Law Excuses No One."

TWELVE PEOPLE CURED. TEN PEOPLE CURED.

This maxim applies with especial force to ignorance of the laws of health. Every man and every woman of intelligence knows that the blood reaches the remotest part of the human body. If there is a disturbance anywhere, why should one ignorantly suppose that the seat of the malady is local? Is it not more rational to suppose that the impure condition of the blood is doing the mischief? If your "life blood" is pure, Dame Nature will take care of the rest. Hood's Sarsaparilla enables you to cleanse your blood of all impurities and make it strong and wholesome.
