IF YOU ORDER

Vim Tires

ON YOUR BICYCLE IN 1897.

You will get, in addition to the tires, a present of the wonderful little repair apparatus "VIMOD," which sells for 50 cents. It goes in the vest pocket. It quickly mends punctures by forcing into the hole a little globule of sticky liquid rubber. This rubber hardens instantly into a patch inside the tire and solidly plugs the hole. It is always ready, and YOU can use it without "knowing how." Pneumatic tires have always been imperfect because they could not be repaired in a moment with unfailing certainty. "VIMOD" completely remedies this defect and makes the Vim a perfect tire.
