Moisture in the air carries impurities, condensing upon the food, transmitting odors and flavors. Perfect refrigeration requires the rapid circulation of pure, cold, dry air. Why do you suppose the dining and refrigerator cars on nearly every railroad in the country are equipped with the Bohn Syphon? Because car builders know that the Bohn Syphon System guarantees pure, dry air, and that the wonderful Bohn Flex-Insulation keeps the temperature down to 40 degrees. Bohn Syphon Refrigerators for home use are built on exactly the same principle. Model No. 43, Style A. (Illustrated above.) size 36x24x45 1/2 inches. Ice capacity 125 pounds, price, \$90, is an exceptional value. Many other styles and sizes—all reasonably priced—all beautifully made—all with the wonderful Bohn System.
