Tables and Desks of Many Kinds

These three splendid pieces will indicate the range of purposes served by Hathaway Tables and Desks. But they do not suggest adequately the variety of styles for each purpose. All are in solid mahogany (the Gate-Leg Table in American Walnut as well), and all are thoroughly worthy to represent Hathaway standards of construction and finish.

Other Hathaway pieces which are noteworthy at this time are a Tea Wagon at \$15.00, a Davenport at \$75.00 and an Ivory Enamel Bed-Room Suite of 4 pieces at \$213.

How Fast Does Your Ice Melt?

This question, not the first cost, determines the real expense of your refrigerator.

There are two definite reasons to account for the fact that the

BOHN SYPHON REFRIGERATOR

holds ice consumption to the minimum. The Siphon System of rapidly circulating pure, cold, dry air, and an insulation that provides the highest standard of heat resistance ever attained, combine to hold the temperature in a Bohn Refrigerator at 40°. Ice melts very slowly at this low temperature.

The walls of this Refrigerator have, in addition to the outer and inner cases and Porcelain Enamel lining, 7 heat-resisting layers, including two of Faxulium, the exclusive Bohn insulating material, the most effective thing ever put into a refrigerator.

The Bohn Siphon is installed in practically every dining and refrigerator car in use today. The car builders know. Call and see our large line, in both wood and white porcelain. Some of the best styles, including the one illustrated above, are now marked at attractive prices.

We can sell you a Bohn for \$16 up. If you cannot call, write for our handsome catalog. We are the mfrs., not middlemen.

By a remarkable patented feature the "Acousticon" transmits to the deaf ear every sound not only clearly but naturally—not a single word is blurred.

"Acousticon"

Remarkable DEAF For Those DEAF

This remarkable hearing instrument is the device lauded, used and recommended by the world's foremost scientists and ear specialists—the only instrument recognized by the world's most famous Ear Specialists—an acknowledgment that the "Acousticon" is the only universally successful practical instrument for the deaf in the world.

There is absolutely no other hearing instrument constructed like the "Acousticon"—all its features are patented. Several are made to look like the "Acousticon" but all electrical hearing devices except the famous "Acousticon" are simple, unguaranteed microphones.
