The Dining Car Refrigerator

Just think of the Refrigerator in the kitchen in this country to-day! It's the dining car in the kitchen! A temperature of 100° is frequent, yet all kinds of foods must be kept in that refrigerator, and kept cold and fresh and free from cooking odors of the cramped little kitchen. You know the excellence of the Dining Car menu, but do you know that it is largely due to the

BOHN SYPHON REFRIGERATOR
which is installed in practically every dining car in this country to-day! It's the Siphon System of rapidly circulating pure, cold, dry air, which enables the Bohn Refrigerator to maintain a uniform temperature of 40°, and the Bohn "Platinum," the greatest heat-resisting insulation ever constructed, that have caused the railroads of this country, almost without exception, to adopt the Bohn Siphon for their dining and refrigerator cars. Does this mean anything to you? Call and see our large line, in both wood and white porcelain. Some of the best styles, including the one illustrated above, are now marked at attractive prices. We can sell you a Bohn from \$10 up. If you cannot call, write for our handsome catalog. We are the mfrs., not middlemen.
