Wood-Seat Chairs of Sturdy, Simple Lines

ASIDE from a certain appealing quaintness and distinction in its appearance, the comfort that you will find in this type of chair will prove a revelation to you. Its firm seat and its shaped back, tilted at just the right angle, are very restful.

The Windsor, which is illustrated, is but one of a variety of models in Wood-Seat Chairs which we are offering this week at decidedly worth-while prices. All are strongly made of solid mahogany and handsomely finished.

Is Your Refrigerator Like This?

Try this — Put onions, bananas, butter, cheese, cream, side by side, and see if they come out with unspiced flavor. This is a severe test. No Refrigerator in the world will stand it except the

BOHN SYPHON REFRIGERATOR

Condensing moisture transmits flavors. It also deposits germs from the air and ice and rots the food. The Siphon System keeps the air dry—so dry that you can strike sulphur matches on any inside wall of a Bohn Refrigerator. A uniform temperature of 40° is maintained, guaranteed to be 10° colder than any other refrigerator. Practically every Refrigerator car, and dining car in the land is equipped with the Bohn Siphon. The car builders know. The Refrigerators for home use are built on exactly the same principle.

The "Flaxinum" insulation, which makes possible the world-famous Bohn Refrigerator cars, is used also in every Bohn Refrigerator for home use. It's the greatest heat-resisting lining ever made.

Call and see our large line, in both wood and white porcelain casings. Some of the best styles, including the one illustrated above, are now marked at attractive prices. We can sell you a Bohn from \$16 up, lined with genuine white porcelain, not painted. If you cannot call, write for our catalog. We are the mfrs., not middlemen.
