# Conspicuous nose pores

## How to reduce them

Complexions otherwise flawless are often ruined by conspicuous nose pores.

In such cases the small muscular fibres of the nose have become weakened and do not keep the pores closed as they should be. Instead these pores collect dirt, clog up and become enlarged.

To reduce these enlarged pores: Wring a cloth from very hot water, rather it with Woodbury's Facial Soap, then hold it to your face. When the heat has expanded the pores, rub in very gently a fresh lather of Woodbury's. Repeat this hot water and lather application several times, stopping at once if your nose feels sensitive. Then finish by rubbing the nose for a few minutes with a lump of ice.

Woodbury's Facial Soap cleanses the

pores. This treatment with it strengthens the muscular fibres so they can contract properly. But do not expect to change in a week a condition resulting from years of neglect. Use this treatment persistently. It will gradually reduce the enlarged pores until they are inconspicuous.

Do this today! A 25c cake of Woodbury's Facial Soap is sufficient for a month or six weeks of this treatment. Go to your druggist or toilet counter today and get a cake. Begin at once to get the benefits of this treatment for your skin. Woodbury's Facial Soap is for sale by every dealer and druggist in greater New York and, in fact, by dealers everywhere throughout the United States and Canada. Made by The Andrew Jergens Co., New York and Cincinnati.
