HOW to make your skin fine in texture

If the delicate pores of your skin have become enlarged and coarsened, it is because of cleansing methods unsuited to your skin. As a result, the pores have lost their power to contract and expand as they should.

You can restore them to their normal healthy condition and rebuild a smooth-textured skin by persistent use of the following Woodbury treatment:

Dip your washcloth in very warm water and hold it to your face. Now take the cake of Woodbury's Facial Soap, dip it in water and rub the cake itself over your skin. Leave the slight coating of soap on for a few minutes until the skin feels drawn and dry. Then dampen the skin and rub the soap in gently with an upward and outward motion.

Rinse the face thoroughly, first in

tepid water, then in cold. Whenever possible, rub the face with a piece of ice. Always dry carefully.

Use this treatment persistently for ten days and your skin will show a marked improvement—a promise of that greater smoothness and finer texture that the steady use of Woodbury's always brings.

Do this today! A 25c cake of Woodbury's Facial Soap is sufficient for a month or six weeks of this treatment. Go to your druggist or toilet counter today and get a cake. Begin at once to get the benefits of this treatment for your skin.

Woodbury's Facial Soap is for sale by every dealer and druggist in greater New York and, in fact, by dealers everywhere throughout the United States and Canada. Made by The Andrew Jergens Co., New York and Cincinnati.

The Washing, Rinsing and Wringing All Done By Electricity in Your Own Stationary Tubs

This wonderful machine—tested and approved by the Good Housekeeping Institute and awarded a medal at the Panama-Pacific Exposition—fits any stationary tub and stores in the tub when not in use. It will do a small washing in ten minutes and a washing for six people in an hour. It makes wash day less than a half day. It does all the work. It washes the clothes cleaner and better than they were ever washed before. It washes dainty laces and lingerie without injury—as well as bath mats, small rugs, and blankets.

Do away with the back-breaking rubbing board that wears clothes out long before their time. Do away with the fuss, muss and expense of a washerwoman. Stop sending your clothes to laundries, where they are washed in the same water as other people's clothes, even though placed in a separate compartment. Return to the good old custom of washing clothes at home in your own clean, stationary tubs.

The Modern Home Washer is revolutionizing washing. Electrically connected, it does all the hard work—the actual washing, rinsing and wringing. All you have to do is pass the clothes through the wringer into the bluing water, then back again, and they are ready for the line. Electricity runs the wringer as well as the washing machine. The rubbing board and the necessity of putting the hands into the hot suds are eliminated. Costs less than two cents an hour for electricity.

MODERN HOME WASHER

We also make a portable electric washer for use where there are no stationary tubs—and a hand machine.

You Must Act Quickly!

The world-famous Bohn Syphon Refrigerators at special marked-down prices! The reasons are simple. We had manufactured a large line of our best models for shipment abroad, but on account of the unusual export conditions we decided last fall to offer these superb Refrigerators at special reductions, rather than carry them over the winter. The blockade in the Jersey freight yards held up part of our shipment from our factory so that the sale had to be suspended at that time, but now the blockade has lifted. These special prices will seriously interfere with our regular trade at our very best season, but to the many people who were disappointed last fall this special offer at reduced prices is made for a short while only.

BOHN SYPHON REFRIGERATORS

are the standard of the world to-day in scientific refrigerator construction. The dining cars and refrigerator cars on practically every railroad in the land are equipped with the Bohn Syphon, which provides rapidly circulating, dry, pure, cold air, with consequent smallest ice consumption, lowest temperature (40 degrees) of any refrigerator built, and complete absence of contaminating odors or flavors.

Reductions Average 25% from list prices. All sizes, in both wood and white porcelain exteriors, are reduced.

FOR FUTURE DELIVERY. On a small deposit we will hold your refrigerator for future delivery. If you cannot call, write or telephone for our handsome catalogue. We are the makers.

White Enamel Refrigerator Co. of N. Y. 33 West 42d St. (Phone Bryant 7317.) Open Tuesday and Friday evenings till 10.
