**Time Serves Only to Increase Our Appreciation of Colonial Furniture**

Our present high regard for things Colonial is not a passing fancy. Such excellent productions as these will always be favorites.

There is nothing fragile in their beauty. It is the beauty of strength, of quiet dignity, of contours well defined but unobtrusive.

These particular pieces are Mahogany of selected grain. The seats, in denim as priced, can be covered in any fabric you choose.

**Who wears them?**

They are worn by everybody who wears shoes—by girls and boys, men and women; by those who sit at desks all day; by those who work in the open; by professional men, business men, trade workers, school boys and school girls; by housewives, society women, in short, O'Sullivan's Heels of New, Live Rubber are worn by men and women, boys and girls in every walk of life.

These little "shock absorbers" give you the buoyant walk that always goes with energy and success in men, and with charm and beauty in women. They save your children's tender feet from breaking down on hard concrete playgrounds and city streets. They protect your nervous system from jolts and jars and are a necessary factor in the preservation of your health.

In black, white or tan; for men, women and children—50c attached. Be sure to get O'Sullivan's; avoid the disappointment of substitutes. Most good shoe dealers now sell latest styles already O'Sullivanized.

**The Nestlé Permanent Hair Wave**

Before Waving

There is a difference between efficiency and mediocrity. The reason why Nestlé's are so successful is that they are just specialists in permanent waving and nothing else. If our merits in this respect are mediocre we must fail because we have nothing else to offer.

Nestlé Waved

And we gladly stand by our merits alone. We have done so for the last twelve years. We have no doubtful treatment, there are no problems left unsolved in connection with permanent waving, whether the hair be white, dyed, bleached, poorly or profuse. We offer the Nestlé Permanent-Waving treatment as a hair treatment in first instance.

Nestlé-waving has been accepted at every European Court and has displaced the hairdresser's hot tongs and the nightly hair-curler in New York Society.

Mr. Nestlé, the original inventor of Permanent waving and acknowledged as the best living authority on matters of hair-textures and hair development, is in personal attendance in New York.

We Nestlé-Wave from 20 to 30 heads per day.

Every head waved is tested before the fee is taken. Total time required from one and one-half hours to two and one-half hours, according to quantity.
