DOOMED!

THE leather heel has outlived its usefulness—it is doomed. Well suited as it was to walking on dirt streets and sidewalks of a century or more ago, it is no better adapted to our present "concrete age" than the sandals of ancient days would be.

Run down, in many cases, within two or three weeks, your heels show the effects of the continuous impact of hard leather on unyielding concrete pavements.

Save your heels, save your shoes—above all save your nervous system. Don't pound away your health with every step you take. Wear heels of New, Live, Rubber; they absorb the jolts and jars that wear you out. They last twice as long as leather and hold your shoes in shape much longer.

Be sure to get O'Sullivan's—avoid the disappointment of substitutes.

In black, white or tan; for men, women and children; 50c attached. Most good shoe dealers now sell latest styles already O'Sullivanized.

How the name Kayser protects you

Look for the name "Kayser" in the hem of the silk gloves you buy.

This is your protection against the unknown glove, the cut-price or sale glove.

The guarantee ticket is additional assurance that Kayser Silk Gloves will give you the utmost service. Read the guarantee ticket carefully.

It was Kayser, the pioneer silk glove maker, who originated the double finger-tips. Kayser has so developed and perfected the silk glove that this broad guarantee is possible.

Kayser Silk Gloves cost no more than the ordinary kind; whether two clasp, twelve button or sixteen button lengths. Kayser's always represent the best value at the price. The name Kayser is in the hem and with each pair is a guarantee ticket that the tips will outwear the gloves.
