Why do rug experts choose

Klearflax LINEN RUGS

for their own homes?

SURELY they would have selected other rugs if they could get better effects—but the unique decorative value of these rugs won them.

Yet to you it is just as important that Klearflax Linen Rugs wear just as well as they look. To the beauty of these handsome thick rugs are added their wonderful wearing qualities and their convenience in cleaning.

Ask tomorrow at the rug department of any of the leading stores to see how effectively the solid colors of these rugs bring out the richness of velours, cretonnes and chintzes.

THIS is the flax flower, the delicate blue bloom of the plant that has given man that most historical of fabrics—linen.
Philo, who lived at Alexandria about 25 A. D., says: "The Jewish high priests wore a linen garment made of the purest Byssus, a symbol of firmness and incorruption, since fine linen is most difficult to tear, is made of nothing mortal, and becomes brighter the more it is cleansed." The qualities of linen, recognized in all times, give Klearflax Linen Rugs their supremacy today.

The Nestlé Permanent Hair Wave

Before Waving

Nestlé Waved

The Nestlé Permanent Hair Wave like everything else pertaining to the catering of our wants cannot give complete satisfaction to everyone. But what can be done in this direction is surely done at Nestlé's. Everyone employed at their establishment is just employed in connection with permanent hair waving. Everyone is expert at their work and full responsibility is taken by the heads of the establishment. Mr. Nestlé, who is in personal attendance, is of course the original discoverer and inventor of permanent hair waving. His achievements in this direction are universally recognized as considerable. According to former views it would have been impossible to change the texture of straight hair into one of natural waviness by a mere external treatment. Yet that is exactly what Nestlé's do. They make naturally wavy hair on the human head. No fee is taken where the treatment is unsuccessful. Every head must be tested in a hot water shampoo. Please understand that nothing is applied to the hair. Straight hair is treated as if it were worn velvet. Once the hair has responded it will never lose its wavy character again but can only grow away from the head. We produce no "FRIZZ," no forcible bends in the hair, but Nestlé treated hair is afterwards waved by the same influences which wave so-called "naturally wavy hair," viz., by the humidity of the atmosphere. Do away with hot irons, nightly hair curlers, sticky curling fluids. The Nestlé treatment saves much time and money. It takes about two hours to wave a head of hair. An average of twenty heads are daily waved at our establishment.

Read Mr. Nestlé's explanatory booklet or call in person.
