HEALTH DEPT. "LIFE LINES" No. 1

Walk a mile in the open air twice a day. It will add ten years to your life. If you don't believe it, try it and see

DEPARTMENT OF HEALTH, CITY OF NEW YORK

Add ten years to your life

Walking is the best and most healthful exercise in the world

A few months ago, The Department of Health of New York City issued a health bulletin urging city people to add ten years to life by walking a mile in the open twice a day.

Among city people walking is the most neglected exercise.

Today not only do the hard pavements take all the pleasure out of walking—they tend to make it absolutely dangerous to health.

Walking on such pavements saps your energy and drains your vitality—if you wear leather heels.

Nature provided you with perfect shock absorbers in the form of soft, springy cushions on your heels. They were meant to keep the jars from the spinal nervous system.

But you cover this protective device with a hard, nail-studded heel.

Leather heels doomed

The leather heel has outlived its usefulness. It was well suited to walking on dirt streets and sidewalks of a century or more ago, but it is no better suited to our modern streets than the sandals of ancient days would be.

It has been superseded by the O'Sullivan Heel which

absorbs the jolts and jars of our everyday life and restores to us the light brisk step of youth.

The best heels for city wear

The heels best suited to modern city streets and floors are O'Sullivan's Heels.

They are guaranteed to outlast any other heels on the market. They last two or three times longer than leather heels.

Because of our special process, O'Sullivan's Heels combine the greatest durability with the greatest resiliency. They are made of perfect heel material.

Buy your new shoes O'Sullivanized. Good dealers sell the latest style shoes with these Heels already attached. Have O'Sullivan's put on all your shoes at once. Every day you delay putting them on you are wasting your most valuable asset—Energy.

In black, white or tan; for men, women and children; 50c attached. Insist on O'Sullivan's; avoid the disappointment of substitutes.
