

### Keep Your House Warmer and the Coal Bill Smaller

KNOW the satisfaction of perfect heat control—each room regulated just as you wish; know what it means to get the good out of every pound of coal—no waste up the chimney. The most advanced method for houses, new or old, is the

## “Richardson” VAPOR-VACUUM-PRESSURE HEATING SYSTEM

No radiator leaks, hissing air valves, frozen pipes. No cold rooms when thermometer drops, no overheating in mild weather. Heats up quicker than steam or hot water. Slight turn of “Richardson” valve controls radiator. Valve at top—no bending over to reach it. The “Richardson” System is backed by 80 years of experience in solving heating problems. Can be used with any good Boiler—old heating plants easily made over to the “Richardson” System with but slight changes. In use in thousands of homes and buildings.

# Home-made Table Butter at 29c. per lb.

Thousands of housewives are making their own butter with **SAWTAY** 100% Pure Butter-of-Nuts

Why don't you? It's easy. Here is the tested recipe:

Place contents of one can of Sawtay in a mixing bowl; add one pint of smooth buttermilk or plain milk. Work together with potato masher or large spoon until the Sawtay and milk are well blended and the Sawtay has taken up as much of the milk as possible. Then drain, add vegetable butter-color (your druggist has butter-color—it is pure and harmless) and salt to taste. Permit to stand in a cool place over-night to develop the milk and butter flavor.

This makes one and one-half pounds of pure table nut-butter, closely resembling the cow product in color, looks, texture and taste, at a cost of 29c. the pound.
