*Look at the Sonora.* The handsome "bulge" lines typical of the finest furniture are produced by patented methods and are exclusively Sonora's.

*Study the Sonora.* Examine the important details—the long running motor, the tone control, the automatic stop, sound box, duplex tube, envelope filing system, etc.

*Hear the Sonora.* It plays all types of disc records. The makers of the Sonora were the first in the world to manufacture a machine to play all these records *perfectly*. The wonderful beauty of this instrument will make clear to you why Sonora won highest score for tone at the Panama Pacific Exposition.
