Does Your Refrigerator Eat Up Money?

Many people think that when they buy a cheap refrigerator they are saving money. The fact is that compared with the low expense the first cost shrinks into insignificance. The refrigerator which is thoroughly efficient with the smallest consumption of ice is, of course, the least expensive in the end.

BOHN SYPHON REFRIGERATOR

is enabled by the Syphon System of rapidly circulating, pure, dry air and by its insulation—the most effective ever devised for heat resistance—to keep its temperature so extremely low that ice melts very slowly. Besides the wood casing and lining, the walls have 7 heat-resisting layers, including two of "Flaxinum," the exclusive Bohn insulating material.

It is significant that practically all Refrigerators and Dining Cars in use today are equipped with the Bohn System. The Car Builders know!

Specially Priced
Model No. 43, (illustrated above), 39 1/2 x 30 inches, list price \$71.45, is now specially priced at \$60.50. Other models (Bohn, Sanitor, and Ideal Refrigerators) at a wide range of special prices, from \$16.50 up.

Bohn Syphon, Sanitor, and Ideal Refrigerators are lined with fused porcelain steel (not "enamel") which is PAINT pure and impervious.
