THREE things are necessary to achieve a garden of beauty like this (assuming that you have the ambition and the taste): Money, Experience, Careful Planning. The first can wait a while (and you need less than you imagine)—the second we can supply from sixty years' knowing and growing—but the third is a matter for immediate action—by YOU—before we can take a single step to help you. Waiting much longer will endanger the success of your plans. To tempt you to start planning, both for your sake and ours, we offer a 20% discount on Spring orders (payment in the Spring) if you get in touch with us NOW—even if only to advise with you as to the first steps to take.

"ECIRUAM" GOWNS
Entirely Without Fasteners

Many women think that a gown without fasteners must necessarily be lacking in smartness. The main feature of "Eciruam" Gowns is their remarkably fine air of distinction and chic, coupled with their complete comfort.

The "Queen" (London) says: The "Eciruam" MATERNITY Gowns are positively perfection.

New Paris models along entirely different lines.

Also dainty creations in hand-made baby wear. Mail orders filled. Booklet on application. Address Dept. 2.

Here Is A Face Powder That Really Stays On

Pure face powder is harmless to the most delicate skin. But thousands of women are ruining their complexions with injurious face powder. Everybody knows white lead is a deadly poison; it causes blotches and irritations. To avoid white lead face powder many women have used rice powder. It has recently been discovered that rice powder is almost as bad as white lead. Rice powder is starchy, like bread flour. It is quickly turned into a gluey paste by the moisture of the skin. This swells in the pores, clogs the cuticle, causing enlarged pores and unsightly complexions. Prove this yourself. Ask a number of your friends who have poor complexions what face powder they use. Nine out of ten will say rice powder, or they use "Poudre de Riz," which is French for rice powder. If you value the charm of a lovely complexion stop rice powder. You can now get a modern powder that really beautifies your complexion and cannot injure the most delicate baby skin. This is the only face powder sold in America at any price having a guarantee of purity printed on the box, certifying it does not contain white lead, rice powder, bismuth or any injurious substance. Every time you use this pure powder you give your complexion a real beauty treatment. It stays on better than any other powder. The specialist who makes this improved powder uses an ingredient that doctors prescribe to heal the skin. The large size costs only fifty cents, and the half size twenty-five cents. When you use this delightful Powder La-May (French, Poudre L'Ame) and see how wonderfully it beautifies your complexion, you will understand why La-May so quickly became one of the most popular powders sold in New York. SAVE THIS NOTICE.
