

Lessons in coffee making by the world's greatest coffee merchants

Try these recipes and paste them in your cook book

These are the recipes recommended by Arbuckle Bros. as the best ways of making Yuban. Ever since the Civil War, Arbuckle Bros. have been in the coffee business.

In their testing room they try the various ways of making coffee. Their expert coffee making department will be glad to assist you if you do not obtain the right results.

The plain ordinary way
Use one heaping dessert-spoonful of clean-cut, ground Yuban to each cup of water. Put the coffee in the pot and pour over it fresh water briskly boiling; let the coffee steep five or ten minutes over a low heat or flame, but do not boil. Settle with a dash of cold water.

Drip Coffee
Drip coffee may be made in a drip pot provided with a muslin cloth, a metal or porcelain dripper, or with filter paper. It may also be filtered through a muslin or linen cloth into a plain china pot. If a drip pot with a cloth is used, allow a heaping dessert-spoonful of Yuban pulverized to each cup of fresh water briskly boiling. Redrip two or three times when stronger coffee is desired. If a metal dripper or filter paper is used, allow one heaping dessert-spoonful of Yuban clean-cut ground to each cup of fresh water briskly boiling. Allow the water to remain on coffee about five minutes to steep before releasing.

Percolator Coffee
Use a heaping dessert-spoonful of clean-cut ground Yuban to each cup of fresh cold water. Pour the water into the percolator, then place coffee in the regular filter or basket—let the water percolate over the coffee five or ten minutes, depending upon the temperature of heat. With electric percolator take fifteen to eighteen minutes.

Yuban comes in the whole bean, in clean-cut ground, or pulverized. Yuban clean-cut ground is primarily adapted for the percolator and the plain coffee pot method. It is recommended for the drip methods that do not use cloth filtration. With cloth filtration method use Yuban pulverized. Yuban clean-cut ground and pulverized have gone through a process in the

grinding that insures uniform results. Try Yuban made according to any of these recipes. You will find Yuban an economical coffee. One pound will produce from sixty to sixty-five cups. Yuban produces a delicious rich cup of coffee with an individual character that distinguishes it from all other coffees. Try Yuban your favorite way today.

La-may Face Powder Is Harmless to the Most Delicate Skin

A specialist has at last perfected a pure face powder that really stays on until you wash it off. It does not contain white lead or starchy rice powder to make it stick. White lead poisons the skin and rice powder turns into a gluey paste that encourages enlarged pores and unsightly complexions. This improved formula contains a medicinal powder doctors use to heal the skin. In fact, this new powder helps to prevent and reduce enlarged pores and irritations. It is also astringent, discouraging flabbiness, crow's feet and wrinkles. It is called La-may (French, Poudre L'Amé). Because it is pure and because it stays on better than any other it is already sold by thousands of dealers everywhere. The large size is only fifty cents and the half size is twenty-five cents. This same powder is wonderful for evening wear. It can be used both as a face powder and a liquid powder. To use it as a liquid powder just dip a damp sponge in the dry powder and apply it to your neck, shoulders and arms. It gives a natural whiteness that defies detection under the strongest light. When you use this delightfully pure La-may and see how splendidly it beautifies your complexion you will understand why it so quickly became one of the most popular beauty powders sold in New York.

DANERSK DECORATIVE FURNITURE

is always available for immediate delivery. It is finished to customer's order in beautiful natural wood tones or lovely old Venetian colorings. We have received from England and placed on exhibition the interesting Chinese Chippendale print which was shown in our catalogue of Danersk Decorative Furniture and Fabrics. We have had it reproduced in all of its original colors, also in a variety of colors for decorative schemes.

Consultation and advice regarding interior decoration, without obligation to purchase. DANERSK METHOD makes it possible for one to secure the maximum of individuality at the minimum of cost. We are the makers, consequently railroad conditions do not delay our deliveries. Danersk prints may be reserved now for Spring delivery. Send for valuable catalog "D" or call at Exhibition Rooms. Erskine-Danforth Corporation, 2 West 47th Street, New York, First door west of Fifth Ave., 4th floor.
