Never have hot, hurting feet again!

It is excessive perspiration that makes your feet so tender—so that shoes that are really too large for you feel too small.

Odorono, a toilet water formulated by a physician, will bring you relief. Used two or three times a week, it will keep your feet cool and dry—calluses and corns will gradually disappear.

Odorono will save you many a pair of stockings, too. For it is perspiration that weakens the fibres, so that they break and wear through easily.

Use Odorono wherever you perspire too freely,—under the arms, on the hands and forehead. It will keep the skin cool and dry and sweet.

At all toilet counters in the United States and Canada, 60c and \$1.00. Trial size, 30c. By mail, postpaid, if your dealer hasn't it. Address The Odorono Co., 1009 Blair Avenue, Cincinnati, Ohio.

Write for our booklet, "The Appealing Charm of Daintiness"—and suggest to the men in your family that they write for "The Assurance of Perfect Grooming."

Dr. Allyn Endorses Odorono

"We do not believe that any harm can come from stopping the excretion of perspiration in limited areas, such as under the arms, feet, forehead, etc. Experimental and practical tests show that Odorono is harmless, economical and effective when employed as directed and will injure neither the skin nor the health."

Lewis B. Allyn, Westfield Laboratories, Westfield, Mass.
